General News.

HAT CREEK, WY., July 25.—The coach which left Deadwood for Cheyenne on the 23 was detained one day at Jenny's stockade or account of high water. After proceeding from there it was stopped at 2 o'clock this morning, two miles north of Lightning creek, by six armed men who were on foot and masked. Finding there was but one passenger on board, the Rev. J. W. Picket, they forbore molesting him, but turned their attention to the mail sacks which they cut open and robbed of registered letters and other valuable matter. They also broke open the treasure boxes but found nothing. They were not at all excited over their work, which occupied them fully half an hour and as soon as they were through they ordered the driver to go on. It is impossible to say what the losses from the mails are, although it is known they found one gold watch.

SYRACUSE, N. Y., July 24.—The national convention this afternoon nominated Gideon J. Tucker for judge of the court of appeals. A committee was appointed to reorganize the party in New York City. S. Myra Hall addressed the convention on woman's suffrage, favoring Butler as president and a woman for vice president. Adjourned.

LOUISVILLE, July 24.—In an affray on Union street this morning, Samuel Hicks and Jones Baxter were fatally shot and soon died. Three others were wounded. The affair was caused by political differences and high words.

NEW ORLEANS, July 24.—Fourteen cases of yellow fever have occurred. Seven fatal. The board of health hope to check the spread of the disease. Two fatal sunstrokes reported to-day. The ice-ring have raised the price from \$25 to \$60 per ton.

WASHINGTON, July 24.—Inquiry at the executive mansion and several departments fails to produce any confirmation of the report that Capt. Jenks has been appointed to a federal office on the Pacific coast.

nothing but the utmost vigilance on the part of the state authorities and such preparation as will make it possible to crush out the movement instantly will prevent one of the worst calamities that has ever befallen this country. The 15th of June had been actually fixed for the strike, and the outbreak would have taken place then or soon after but for preparations made to preserve the peace by Gov. Hartranft. A Chicago representative of the strikers, on his way to New York, stopped over at Hornellsville, and said to his friends that they ought especially to break open the banks, take all the money and divide it.

UMATILLA, July 26.—The following is received from Pendleton:

Indian matters are quieting down. No Snakes seen since day before yesterday, at which time some six in number were seen near the head of McKay creek. We feel O. K. on Snakes and trust are all right with Umatillas, although they are very impudent. Col. Mizner's command was ordered to Grande Ronde valley, and should Maj. Throckmorton be ordered away from the agency, I believe the Umatillas would be tempted to do us injury. We have no faith in their professed friendship. If Throckmorton or the militia can be kept here for a short time everything may settle down. We do not allow any Indians in town unless they have a guard with them and are unarmed. We let out the last Columbia Indian to-day from jail. We had six at one time.

A report came from La Grande to-day that six bucks were captured in Indian valley, below Summerville, with about twenty head of horses. General Howard was at Snake creek on the night of the 21st. J. B. KEENEY.

Major Thompson, with a detachment of men belonging to the 20 infantry, arrived here yesterday and leaves for the agency to-morrow. It is expected that Major Thompson is in command now on the ground. The present situation at Umatilla is in small way, evidenced by the fact that the parties above mentioned are gathering themselves together.

through the window at him, only one taking effect, the rest going through the side of the building. He speaks English and French, and was educated for a missionary, and once worked as a packer, but lately has been going with renegade Indians and has adopted their dress and ways of life. He has not a good character. It is supposed his real object in coming here was to ascertain the chances for the Columbia river Indians returning to live at their place across the river opposite Umatilla, which they had left on the commencement of the Indian troubles and fled to the reservation, where they attempted to join the Snakes and partially succeeded. The act is condemned here.

OMAHA, July 27.—Sec'y Schurz' decision to the effect that Union Pacific lands not yet sold can be preempted by settlers at \$1 25 per acre. Will throw open to the public a large amount of valuable land in Nebraska. There is no doubt it will nearly all be pre-empted. The Union Pacific land commissioner, Leavett Burnham, says in some counties the road owns land valued as high as \$12 per acre, that they propose to contest all cases of such pre-emption. The result will be a struggle on the part of the Union Pacific who will be a very heavy loser by this decision.

Dennis Kearney, of San Francisco, passed through eastward bound, on last night's delayed Union Pacific train.

WASHINGTON, July 27.—A riotous demonstration was made to-day against the laborers who were excavating the foundation of the bureau of engraving building. The men who ordered the workers to desist were nearly 200 in number, colored and white. One of the laborers who refused to leave was badly cut.

The workmen's organization met to-night and endorsed the action of parties who this afternoon insisted upon men quitting work at 75 cents per day. Contractor

was early on the ground to protect the workmen. Before 7 o'clock the contractor announced that he intended to pay his hands \$1 25 per day, but this was not satisfactory to the 300 or 300 idle workmen. When the hour arrived for beginning work, the hands employed by the contractor began to work, when they were greeted with shouts of "stop work. We will not let a man work for less than \$1 50 per day." There being some indication that the crowd assembled intended to resort to force, the mounted police charged upon them and drove them in all directions. They were followed for several blocks, and several shots were fired by the police to stimulate their movements. They went off threatening to come back several hundred strong and "wipe out the police." It has required the presence of nearly fifty policemen to keep the streets approaching the monument lot, near which the building is to be built, clear of the disorderly crowd of idle men. A majority of the rioters are negroes. The police believe they can quell any riot which may occur, but in order to afford protection to the men who are working, some parts of the city are left without a single policeman to protect valuable property. A force of marines is held in readiness to assist the police in the event of the rioters becoming too strong.

A horrible tragedy has just been enacted at Sacramento, and which illustrates man's perfidy and woman's fatal sin of curiosity. A young lady, living on Elderberry street, recently jilted a young taxidermist, whom she was to have married next Fall. He discovered who his dread sweetheart was, and he was a merciless sweetheart for her perfidy. During the altercation a beautiful sky terrier, belonging to the latter, conceived its mistress to be in danger, and sprang upon the discarded lover. The incensed man at once killed the animal with his cane. Afterwards he became apparently reconciled to the change of affairs, and offered the dog

THE IRREPRESSIBLE YANKEE.—The Hartford Sunday Worker, having business in the city one day last week, jumped aboard the train at the Grand Central depot, and his meditations continued undisturbed until after the cars passed Meriden, when a long, drawn-out Yankee entered and seated himself by his side. The New York man was taciturn, but the Meriden man was not. "Unpleasant day, sir," observed the latter. "Yes," replied the other. "Stranger in these parts?" continued the Meriden man. "Would like to be," laconically replied the other, looking neither to the right hand nor the left. "Perhaps, like myself, you may be going to Hartford?" "Perhaps," responded the other, yawning frightfully, and looking intently out of the car window. "In this case, perhaps, you will put up at the United States?" "I may or I may not," answered his companion. "Pardon me the liberty of the question, sir, may I ask if you are a bachelor?" "No," "Oh, married?" "No, no." "Sir, I beg your pardon; I may have unintentionally touched upon a painful subject—your black dress ought to have checked my inquiries. I beg your pardon, sir—a widower?" "No, no, no." "Neither a bachelor, nor married man, nor widower! In Heaven's name, sir, then what can you be?" "A divorced man, and be d—d to you, since you must know!" exclaimed the stranger, rising hastily, and taking another seat.

ESCAPING A MATRIMONIAL CONTRACT.—Harry Arnold Green, having seen all that he considered worth seeing, and enjoyed all that wealth and a life of luxury could give him, died the death of a suicide in Leavenworth on Tuesday. He came to Kansas City a few years ago and created a sensation by his recklessness and wild dissipation. He made himself noticeable by his princely expenditures of money and wild eccentricities in the streets. He would drink for days and nights in succession and scattered money like water among "the boys." One night in a fit of frenzy, brought about by excessive drinking, he employed a hackman to drive him out to Carl's place, at the Gillie farm. On the way he shot the hack driver while in a fit of drunken delirium. He was arrested and brought to Kansas City, but by some combination

lant ox was, by a false maneuver, agalo in the water, in which element his activity was impeded, and being surrounded by his foes, one of which caught him by the nose and pulled his head under water, he soon fell a victim by drowning.

A young lady travelling in the stage-coach from Redville to Yosemite, a week or two ago, was suddenly requested by one of the passengers to conceal about her a large solitaire diamond ring, as some suspicious characters were seen ahead. The latter turned out to be highwaymen in good earnest, and went through the passengers in the most approved Vasquez style. After their departure it was discovered that the young lady referred to had swallowed the diamond in her fright. On reaching the next station the owner of the ring suggested an emetic, but the lady had time to think it over and refused to take the dose unless she was first paid one hundred dollars salvage. This was refused and now the ring owner is following the fair swallower around the country, secretly sprinkling epecae in her food, and generally putting up jobs for the recovery of his property. He had her arrested for theft, but the Judge dismissed the case, and the indignant female has since tacked on an additional fifty dollars for storage. The stone is worth two thousand dollars, and the case grows daily more and more interesting. We shall keep our readers duly advised of the outcome of it.

A top took a seat in a railroad-car beside a young lady, but on perceiving she had a dog he moved off with an air of trepidation. "Don't be afraid," she said with a reassuring tone; "Jip won't bite you, he doesn't like veal!"

Colorado has 1,000,000 sheep and 600,000 head of cattle. Cattle raising has always been profitable, it is claimed that sheep pay a greater percentage of profit on smaller investments.

There is a sunflower in Adrian, Mich., the stalk of which is eleven feet and eight inches high and eleven inches in circumference and ninety-nine blossoms.

The Ceylon sponge fisheries are said to be nearly exhausted. Thank heaven, we have an endless supply in our native bar-rooms.

A pious woman, brought up in the Calvinistic faith of the Presbyterian church, was asked what she thought of an Arminian sermon preached by a Methodist. She shook her head vigorously. "I don't believe a word on it," said she; "at all events, I know the Lord chose me afore he saw me, for he never would ha' chosen me after-ward."

A horse named Mongolian won the Ladies' Plate at New Orleans the other day against fourteen others. The Chinese must go like the very dickens.

At one place, near John Day's river, Gen. Howard's attention was called to the dead body of a man which had been terribly mutilated by the Indians. "Well boys," said the General, "such barbarians deserve all we can inflict on them, and we'll hand them over to the Maker just as fast as possible, and let Him take care of them." A very good way to make good Indians.

She was plump and beautiful, and he was wildly fond of her; she hated him, but, woman-like, she strove to catch him. He was a flea.

Two negro girls in Early, Ga., held a playmate under water for fun until she was drowned.

Washington, July 24.—Inquiry at the executive mansion and several departments fails to produce any confirmation of the report that Capt. Jenks has been appointed to a federal office on the Pacific coast.

NEW YORK, July 24.—A letter in the Tribune gives the version of a gentleman engaged in manufacturing business in one of the northern counties of Pennsylvania. He says: "The chances are we shall have much more serious trouble within the next two months than that which came upon us unexpectedly last summer. Preparation are being made for a simultaneous strike all over the country on the railroads, at mines, in many of the largest manufacturing establishments, and

nothing but the utmost vigilance on the part of the state authorities and such preparation as will make it possible to crush out the movement instantly will prevent one of the worst calamities that has ever befallen this country. The 15th of June had been actually fixed for the strike, and the outbreak would have taken place then or soon after but for preparations made to preserve the peace by Gov. Hartranft. CHICAGO, July 27.—The Journal's Washington special says: In anticipation that the rioters who yesterday stopped work on the excavation for the new government building for the bureau of engraving and printing would renew the demonstration to-day, a large police force

was early on the ground to protect the workmen. Before 7 o'clock the contractor announced that he intended to pay his hands \$1 25 per day, but this was not satisfactory to the 300 or 300 idle workmen. Lord Shaftsbury, while presiding at a meeting of one of the London charities, said that he had lately lost a servant who had been in his family over fifty-four years, and that he had still in his house a nurse who had served him forty-nine years. This person, he said, ruled almost supreme in the house, and any member of his family would as soon think of taking a leap into the Red sea as of retiring to rest without bidding the old servant good night.

THE IRREPRESSIBLE YANKEE.—The Hartford Sunday Worker, having business in the city one day last week, jumped aboard the train at the Grand Central depot, and his meditations continued undisturbed until after the cars passed Meriden, when a long, drawn-out Yankee entered and seated himself by his side. That the alligator should attack an ox will be surprising news even to those who are thoroughly familiar with the habits of the fresh-water monster. The *Floridian* has been furnished by an eye-witness with the interesting details of the strange encounter last week at Lake Jackson. The ox went into the lake to drink, and was attacked by the alligator, whose mouth closed on the fore-leg of the animal, crushing the bone. The ox started immediately out of the water, dragging the alligator. Enraged with pain, the poor animal reared and plunged wildly, endeavoring to horn his antagonist. Meantime the edge of the lake was black with the snouts of alligators which had smelt the blood that ran from the ox when first struck in the water. Four or five of the monsters crawled out, and with wide open mouths started to the attack. Meanwhile the ox loosened the hold of his antagonist, and smarting under its wound, went in with infuriated ardor to the assault of the reinforced assailant. He caught one of the alligators on his horns and threw him high in the air, the clumsy thing falling heavily to the ground, and there it lay stunned. Another was tossed far into the lake. But the gal-

was the head of the ox, and he was a merciless sweetheart for her perfidy. During the altercation a beautiful sky terrier, belonging to the latter, conceived its mistress to be in danger, and sprang upon the discarded lover. Newspaper Defamation.

We know of no greater social nuisance, or a more malignant and infamous member of society than the editor of a newspaper who devotes his ability and opportunities to assailing the public reputation and maligning the private character of reputable citizens...

est. Its last essay was a windy and violent attack upon Mr. H. G. Struve, a private citizen, whose sole offence to the editor is in his acting as the Attorney of Gov. Ferry in prosecuting said editor for a gross and malicious libel.

nor any of his friends, who knew all the circumstances of the case, ever deemed that any other was necessary. For exercising citizenship upon precisely the same tenure, and accepting from his fellow-citizens honors conceded to his ability and integrity, Mr. Struve is denounced by envious rivals and mercenary and malicious defamers, as an "alien," "false-prefender," "perjurer," "deserter," etc.

But Mr. Struve has made application to the Court and taken out his naturalization papers recently! That is true, and it is no impeachment of his former conviction of the sufficiency of his previous naturalization, that he did. When the question of his citizenship began to be publicly mooted, it was reported that one of our District Judges had expressed an opinion that the naturalization of the father did not legally confer citizenship upon his minor children, whereupon Mr. Struve, to avoid the question which might be sprung in that Court at any time to the prejudice of his practice and the damage of his clients, put the matter beyond question by complying with the letter of the law and being declared a citizen by decree of Court.

Another charge, made through the U. S. Attorney upon ex parte testimony, that Mr. Struve, as Secretary of the Territory received a bribe for awarding the public printing. It is well known that the charge was officially investigated and not a single fact established in any way reflecting upon the integrity of the Secretary. All we seek is justice and fair play between men.

Constitutional Convention.

The Constitutional Convention adjourned on Saturday last, and the result of their labors is a code of fundamental laws which would embrace not only the ordinary law which we rob, and provision for publication general dist tax devolves paper publication free people in ment r upon r te. We give it a cr on, but are prepared al most any thing as an ative to our present colonial and dependent condition. We will commence the publication by chapters immediately after our present weekly issue in order to get it all into one number of the weekly. The expenses of the Convention, as audited, amount to \$6,763, which devolves upon the Territory to pay.

Why Times are Hard.

We hear from all sides complaints of hard times, the scarcity of money and the consequent depression of business, from which it is predicated by many that our town is on the decline and rapidly going to the dogs. A little intelligent observation and reflection, will show that any such conclusion is mistaken; that there is no community of like population with greater resources, fairer prospects or aggregate productions affording more profitable employment, the lack of money for home use being only a temporary drawback. Among our industrial enterprises are the coal mines, employing labor to the amount of \$1,000 a day; the railroad,

the earnings of which average over \$200 a day; two saw mills—here and at Port Madison—run at an expense for logs and labor of not less than \$250 each. These several sums aggregate \$1,700 a day, \$10,200 a week \$530,400 a year, which, if paid out here where it is earned, in cash, would furnish an abundant circulating medium to carry on prosperously all our other manufacturing and commercial enterprises, and this would be the most prosperous community on the Pacific coast. But for the past year not ten per cent. of these earnings have been paid for in cash, though no portion has been sunk or lost any more than if the same amount had been laid out in farm improvements; we have the accumulation of all these earnings in improvements which give employment to labor. The men who manage these great enterprises had not the capital to prosecute them to success, and hence had to hypothecate the proceeds for a considerable time in advance to raise money to make the necessary improvements. The money borrowed was all expended abroad, in engines, machinery and railroad iron, and since then all the money earned has gone abroad to meet the indebtedness. The wages of the laborers have been allowed to accumulate beyond what is requisite to procure the mere necessaries of life which are principally bought and paid for in San Francisco and supplied to the laborers through the company stores; hence that portion of the disbursements for labor enters into general trade, and but a very small portion of the laborer's wages enters into the general circulating medium. But the property, with its immense productive capacity, is here; the debt is rapidly diminishing as the value of the property is increasing, hastening the time when capital and labor will become home forces, and their joint products be devoted entirely to the common own community. We can imagine what give trade, ment to er crease in

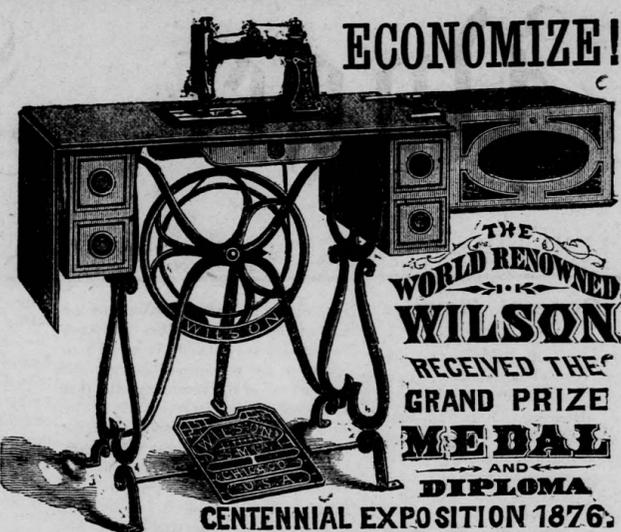

becom people.

A friend of ours tells the following cat story, and vouches for its truthfulness: Coming into the house one day Mr. K. remarked to his wife, "I have found Daisy's kittens."

"Well," she returned, "I am glad, for they must all be drowned."

On going to get the kittens no trace of them could be found. A few days afterwards remembering that the cat was in the room during the conversation, Mr. K. took her up and said: "Daisy, if you will bring me your kittens I will not let her drown one of them. The cat immediately left the room, and coming back with a kitten in her mouth laid it at his feet with evident faith in his word. "Now, where are the others," he asked, and she went and came until the four were on the rug at his feet.

A church in Chicago was scandalized recently by the efforts of a sewing machine man to make the congregation an advertising medium. Just before church time he had a number of fans placed in the pews. These fans were of the shut-up kind, and it was not until the people began to fan themselves that the discovery was made that each fan was embellished with a conspicuous advertisement of the sewing machine man's business.

General News.

NEW YORK, July 29.—The Times to-day adds to the criminal record an account of one of the most audacious crimes perpetrated in the country. Some months since a married lady of Boston, of great refinement and beauty and occupying a prominent social position, had been visiting friends in the interior of this state and when leaving took a drawing room car on the New York Central road for Albany where her husband awaited her. Two villains followed her into the car, probably attracted by the valuable jewelry she wore, and when the conductor approached the lady for her ticket they informed him they were her friends, that she was deranged and they had unfortunately been selected to convey her to the Utica asylum. In spite of protestations and appeals for protection the scoundrels succeeded in convincing the conductor and passengers of the truth of their story and removed the lady from the cars at Utica, she swooning as the train moved away. She was then lifted into a coach, chloroformed, taken to a house of ill-repute, outraged and robbed of her jewelry and clothing. Her husband learned of his wife's alleged insanity when he arrived at Albany, and procuring a special engine started for Utica without delay. Upon arriving a few inquiries enabled him to find the disreputable house where his wife had been taken and there he found her lying upon a bed almost stripped of clothing and her mind seriously injured by the terrible experience. Her husband made every effort consistent with privacy to discover the fiends, but so far without avail.

HELENA, July 29.—Lieut. Wallace overtook and fought the Indians who committed the recent murders at the mouth of Bear and Rock creeks on the north fork of Clearwater Sunday the 21st, killing six and wounding three. Among the killed was Tababor their chief. They also killed twenty-three head of their stock and captured nineteen Indians consisting of 17 bucks and two squaws. Lieut. Wallace's command numbered thirteen soldiers and two citizens. No casualties on our side except the wounding of a few horses. The fight lasted two hours.

BOSTON, July 29.—The committee on reception to Kearney met to-day to arrange for the opening meeting. Kearney said he wished to rest but would be ready to begin work after next Sunday. It was finally decided to hold the opening meeting at Faneuil Hall on Monday.

SAN ANTONIO, July 29.—Official information from the border says: The Mexican government is organizing the inhabitants, both Indian and Mexican, companies to operate against the Mexican bandits.

couraging accounts of the prospects of the wheat crop but claim a good yield for other cereals. The intense heat and rains of the past week are the cause of damage to wheat, and some fields of hundreds of acres will not be worth cutting while others yield all the way from 5 to 35 bushels according to time of planting, winter wheat being generally cited as being an average crop of 49 bushels per acre, but spring sown wheat is estimated in different counties generally at one third to one half the crop of 1876. Farmers are worked night and day and Sunday, and although tramps have flooded the state men cannot be got to harvest for wages varying from \$1.50 to \$3.50 per day and board.

NEW YORK, July 30.—The Herald's Portland, Me. dispatch says: At a meeting of the Republican state committee, Blaine urged that in any resolution about the currency, the word coin should be substituted for gold, but he was overruled and the party will go into the campaign to try conclusions with the greenbackers on an out and out hard money platform.

WASHINGTON, July 30.—In the Cabinet to-day a letter from the Mexican authorities was submitted by Secretary Evarts, charging that Americans have been crossing into Mexico, stealing cattle and driving them across the Rio Grande into the United States. No action was taken. The following declaration between the United States and Great Britain for reciprocal protection of trade marks in the two countries has been proclaimed by the President, namely: The government of the United States and the government of the United Kingdom of Great Britain and Ireland, with a view to reciprocal protection of marks and manufacture and trade in the two countries, have agreed as follows: The subjects or citizens of each of the contracting parties shall have in the dominions and possessions of the other the same rights as belongs to subjects and citizens of the most favored nation in everything relating to property and trade marks and trade labels.

NEW YORK, July 30.—The Herald's Washington special says: The agent of the six companies, Kennedy, has opened a correspondence with Yung Wing on the subject of caring for the Chinese embassy on their arrival here, and expects a return letter within a few days. Kennedy called on Yung Wing to learn what was known of the coming of the Chinese embassy, and was told that it was confined to what was known to the public. Kennedy was told that the course of the embassy was as follows:

of which was threatened with death unless he revealed Escobeda's hiding place. The latter, to save the man, surrendered himself.

Declaration of Rights.

(ADDITIONAL SECTIONS.) Mr. Larrabee offered the following as an additional section to the article entitled miscellaneous:

Sec. 1 None but citizens of the United States, or aliens who have declared their intention to become such, in accordance with the laws of Congress, shall be employed in or about any public office in this State, or in any State institution, or any public work prosecuted by the State, or by any corporation, organized after the admission of the State.

Mr. Lacy moved to strike out the words "or by any corporation organized after the admission of the State."

Upon which motion the vote was as follows:

Ayes. Dennison, Gilmore, George, Hannah, Lacy, Odell, Stewart and Abernethy—8.

Noes. Andrews, Bradshaw, Eldridge, Larrabee and Wait—5.

Absent, Emery and Henry. So the motion was carried.

The vote upon the section as amended was as follows:

Ayes. Andrews, Bradshaw, Dennison, Eldridge, Gilmore, George, Hannah, Larrabee, Lacy, Odell, Stewart, Wait and Abernethy—13.

Absent, Emery and Henry.

Mr. Larrabee then offered the following:

Sec. 2 After the admission of the State into the Union, no person, corporation, company or association, civil or ecclesiastical, except railroads or canal corporations or companies, and then only for the necessary operation of their roads or canals, and except as otherwise provided in this Constitution, shall thereafter acquire and own in fee simple, by purchase, conveyance, gift, devise, or by or through any other means, more than 640 acres of land, or a section of land according to the surveys of the United States, from any person, corporation, association, or from any other source, except by gift or purchase directly from the United States; and every conveyance, gift, devise, grant or other means of giving title to any person, corporation, company or association, shall be void as to any excess over and above such limitation. This section, however, is not in any manner to impair any bona fide contract made and entered into before such admission, or to affect in any way the enforcement of judgments, decrees, liens, forfeitures, grants, gifts, devise, descent or default in respect to any existing.

The ayes and noes being called the vote stood as follows:

Ayes. Andrews, Larrabee and Noes. Bradshaw, Eldridge, Gilmore, George, Hannah, Lacy, Odell, Stewart and Wait—13.

Absent, Emery and Henry.

Mr. Larrabee then offered the following:

Sec. 3 After the admission of the State into the Union, no person, corporation, company or association, civil or ecclesiastical, except railroads or canal corporations or companies, and then only for the necessary operation of their roads or canals, and except as otherwise provided in this Constitution, shall thereafter acquire and own in fee simple, by purchase, conveyance, gift, devise, or by or through any other means, more than 640 acres of land, or a section of land according to the surveys of the United States, from any person, corporation, association, or from any other source, except by gift or purchase directly from the United States; and every conveyance, gift, devise, grant or other means of giving title to any person, corporation, company or association, shall be void as to any excess over and above such limitation. This section, however, is not in any manner to impair any bona fide contract made and entered into before such admission, or to affect in any way the enforcement of judgments, decrees, liens, forfeitures, grants, gifts, devise, descent or default in respect to any existing.

The ayes and noes being called the vote stood as follows:

Ayes. Andrews, Larrabee and Noes. Bradshaw, Eldridge, Gilmore, George, Hannah, Lacy, Odell, Stewart and Wait—13.

Absent, Emery and Henry.

Mr. Larrabee then offered the following:

Sec. 4 After the admission of the State into the Union, no person, corporation, company or association, civil or ecclesiastical, except railroads or canal corporations or companies, and then only for the necessary operation of their roads or canals, and except as otherwise provided in this Constitution, shall thereafter acquire and own in fee simple, by purchase, conveyance, gift, devise, or by or through any other means, more than 640 acres of land, or a section of land according to the surveys of the United States, from any person, corporation, association, or from any other source, except by gift or purchase directly from the United States; and every conveyance, gift, devise, grant or other means of giving title to any person, corporation, company or association, shall be void as to any excess over and above such limitation. This section, however, is not in any manner to impair any bona fide contract made and entered into before such admission, or to affect in any way the enforcement of judgments, decrees, liens, forfeitures, grants, gifts, devise, descent or default in respect to any existing.

A woman put herself in the hands of a Boston dentist to have her teeth reorganized. He found them in a very bad plight and asked her why she had allowed them to become so decayed without coming to him or some other dentist. She replied that she had not had time. "But," he insisted, "it would not have taken long, and you could have come in almost any time." She saw that he was bent on an explanation, and she fired this at him like a cannon ball: "Well, I guess if you had had a baby every year for the last ten years you would think it was about enough to tend to." He acknowledged that he should. President Jefferson's grave will soon be marked by an appropriate monument, the Congressional appropriation for the purpose having been spent by Secretary Evarts in the purchase of a neat one.

THE CITY

SAYS THE OREGON CITY ENTERPRISE: Wednesday afternoon, about three o'clock, Fred Bonnett, son of Mr. J. W. Bonnett, designer at the factory, was drowned while swimming at the island below the falls. The young fellow wandered away from his companions, and it is supposed he waded out beyond his depth and was carried into the swift water, coming over the falls. He was just beginning to learn how to swim, and must have soon given out and sank beneath the waves. He was a quiet unobtrusive boy, a favorite with his companions, and loved and respected by all. He was 14 years of age, was a bright and intelligent boy, with a promising future in store for him, and we extend our heartfelt sympathy to the grief-stricken parents.

PUYALLUP HOP CROP.—The early spring brought the hop vines along at a very promising rate. They commenced climbing the poles some three weeks earlier than usual, and indicated a heavy crop for 1878. Owing to universal dry weather in June and July—and at present continuing—the vines of sandy soils have suffered considerably. It is safe to say that the coming crop will not be much more than two-thirds of the usual yield. The Pacific Coast crop will also be smaller than was at first anticipated. Prices must necessarily come up, for the crop will be short in the Eastern States, if our exchanges and letters of information are not mistaken.—Tacoma Herald.

PAINFUL ACCIDENT.—We regret to learn that Father Buchard met with quite a serious accident last week. It appears that in company with Father Blanchet, pastor of Jacksonville, they were riding near Jacksonville in a double-seated wagon, the front seat being occupied by two other gentlemen. In ascending a hill, the back seat—on which the priests were seated—slipped from its place, precipitating them to the ground. Fortunately Father Blanchet escaped with a few slight bruises, but Father Buchard was picked up in a state of insensibility and has been confined to his room ever since, and complains of constant pains in his chest.

OREGON.—In a London letter to the following: "Are you aware of the value of Oregon? That State is not supposed to be the most important in the Union, and is generally ranked below California as a new home for settlers. Such is not the opinion of Mr. Wallis Nash, who visited Oregon last year and wrote a book on the subject, which Messrs. McMillan have published. If I believed Mr. Nash, I should infer that Oregon was the land for which Ponce de Leon sought in vain. He makes it out to be a terrestrial paradise."

INSTEAD of canvassing the departments for funds to aid in the approaching elections, the Secretary of the Republican Congressional Committee caused a circular to be distributed among the clerks and others informing them that, as the rules render difficult their absence during office hours, an arrangement has been made with the Treasurer to be at a specified bank at 4 p. m. to receive contributions from those in the departments who have not already responded. A number of the clerks heretofore called on have declined to contribute on the ground that they are not politicians.

THE railroad is the entering wedge by which only can we open our great oyster, the world of enterprise and prosperity.—Intelligencer.

This illustration, although of great strength and beauty, might have been rendered still more applicable if the word "clam" had been used instead of the word "oyster," the clam being more of a representative animal.

INSTRUCTIONS have been received from the Department at Washington to proceed with the repairs on the Oliver Walcott. The work will be done in this city and will take about two months.

Supreme Court. The following are the decisions rendered by the Supreme Court at its recent term: Cock vs. Blaloch; affirmed. Tierney vs. Tierney; alimony reduced to \$450, and decree of divorce affirmed. Railroad vs. Sohns; affirmed. Hayward vs. Maxon; reversed. City of Seattle vs. Yesler; affirmed. Hale vs. Finch; affirmed. Hayden vs. Crosby; reversed. Garrison vs. Ballene; affirmed.

CITY vs. YESLER.—In the above entitled case, the Supreme Court, while recognizing the validity of the city charter as legalized by act of Congress, unanimously confirmed the decision of the Court below that the assessment contested by Mr. Yesler was illegally made under the charter. This decision will technically invalidate the city scrip issued for improvements upon our streets, amounting to several thousands of dollars, but we do not believe that any considerable portion of our citizens will consent to a repudiation of any just obligation for which the city has had the benefit on account of any technical defect in the contract. That the Mayor and Common Council acted in good faith, there can be no reasonable doubt, and their only fault was the mistake or incompetency of their legal adviser. There are no circumstances which will justify the citizens of any community in repudiating the obligations contracted for them according to the forms of law, by their own chosen officers. Mississippi was made infamous for repudiating bonds which were decided by its own Supreme Court to have been issued without the authority of law, but which had been sold for, and applied to, the benefit of the State. Seattle cannot afford to accept the bad eminence of a repudiating city.

COMMON COUNCIL.—To remove a false impression which seems to prevail, we would state that the first meeting of the new Common Council will not be held until Thursday next, that being the day prescribed by the previous Board as the time for the regular meeting. The term of the Mayor and Common Council commences to-morrow (28th), for all the officers elect who have qualified by filing their oath of office with the City Clerk previous to that time, and a meeting is necessary to give validity to that rule.

OUT IN BELLEVILLE, the other night, the following scene occurred: He sang to his darling, "The stars are forth; The night winds gently stir; There's a light in the window, eve, for me, And waiting below am I." Her father the minstrel's voice overheard, And mentally whispered "Wait!" As he gathered the serenade up And yanked him over the gate.

From Daily of Monday.

ECLIPSE.—The partial eclipse of the sun, which took place this afternoon, excited considerable interest. Pieces of smoked glass were in great demand and the happy possessors of them could be seen on every corner, intently surveying the grand phenomenon, and surrounded by groups of friends, awaiting their turn for a look. It was the best patronized free show that has visited this town since the ever memorable lecturing tour of the celebrated Prof. Fowler. Of course, front seats were reserved for the press, and of course the press was out in force viewing the gradual darkening of the grand luminary of day through a glass, darkly. The performance commenced at 1:15 and continued until about 2:30. We noticed some individuals who had been viewing it through the medium of certain glasses, filled with an amber-colored fluid, who were so overcome with the grand sensations produced by the awe-inspiring spectacle that they had to be led off home by their sorrowing friends. Altogether it was a great success and should the show ever come around this way again, we hope it will have a good patronage.

THE pen man, with his envelope lottery, still holds forth nightly on Occidental Square. For playing such a game as this some two years ago, quite a number of persons were fined in various amounts, and one of them got some 30 days in the county jail.

THE RAILROAD.—The directors of the Seattle & Walla Walla Railroad, accompanied by the chief engineer, Mr. Scurry, and a number of other gentlemen, went up to Renton this morning, to go over the route surveyed and locate another ten-mile extension of the road, work on which is to commence in a very short time. The new section of the road is the commencement of the 100 mile extension to Thorpe's place, in the Yakima valley, and passes thro' the heart of the largest and best body of coal land ever discovered in Washington Territory.

THE steamer Teaser brought down Capt. Brittain's large scow loaded with barrel-staves and barrels from Tacoma, to be taken to San Juan for the lime kiln.

SPECIAL PREMIUMS.—S. G. Reed and W. S. Ladd, of Portland, offer the following special premiums to be competed for at the coming Oregon State Fair, for two year olds, sired by the stallion Autocrat—mile heats, best two in three, the contest to be governed by the rules of the National Trotting Association—1st premium, \$60; 2d premium, \$40; 3d premium, \$25; 4th premium, \$15; 5th premium, \$10. As there will be no entrance fee, the number of entries will doubtless be large. They also offer a premium of \$25 for the best colt sired by the Clydesdale stallion Young Marquis, and \$15 for second best.

CLOSE CALL.—Four lads from Portland who were camped opposite New Era for the purpose of hunting, fishing and having a good time generally, were crossing the Willamette from New Era on Wednesday in an old boat, and when about midway, capsized. One of the boys attempted to swim ashore to get another boat to rescue his comrades, and when some distance from shore, sank, and had it not been for the timely assistance of his party, would have been drowned. Life was very near extinct when help arrived.

TACOMA LIME CO.—This enterprising company now ships from 125 to 200 barrels of lime per week. There is no difficulty experienced in finding a sale for the lime, as it is of the best quality. We are much pleased to notice the growing importance and practical results of this new enterprise.

TELEPHONES.—Men are now engaged in putting up lines between the headquarter offices in Vancouver, under supervision of the American Speaking Telephone Co. There will be instruments in the offices of Gen. Sawtelle, Col. Sladen and Ma-

PROSPECTING PARTIES.—A party from Olympia, consisting of Geo. C. Blankenship, J. S. Dobbins, Jos. Langston and A. J. Littlejohn, left on Monday for the mountains in the vicinity of Mt. Rainier, prospecting for the precious metals. Another party, consisting of T. M. Pierson, Lute Davis and others, were to leave Chehalis on for Mt. Adams.

bottom lands that dry summer has not affected them in the least. One-third more acreage is under cultivation this season than ever before. Mr. Milas Gallier, of Elma, has a hay crop of 240 tons, and partly secured. Several farmers have commenced cutting their grain. On the upper Chehalis, the high land crops have suffered a little from the dry weather; but the bottom land crops are excellent.

We hear it mooted that certain wealthy parties who have lately visited Salem are considering the advisability of rebuilding the Willamette Woolen Mills, or turning the agricultural works into a woolen mill.

LOOK OUT FOR HIM.—A man is now making a tour of Oregon calling on all dentists and making them pay him money for the privilege of manufacturing the rubber composition for false teeth. He claims that the process is patented by the company he represents, and they expect to collect a royalty from all dentists using it. He was in Albany a few weeks ago, but failed to catch either of the dentists. This is an age of swindling, and we advise our dentists to look into the matter well before paying over any money.

DIED.—At 10 o'clock this morning, Minnie A., daughter of Mr. and Mrs. D. H. Webster, aged 10 years and 6 months. The funeral will take place to-morrow afternoon at 1 o'clock. The family have requested us to announce that the coffin will not be opened.

CONVENTIONS.—As will be seen by the advertisement elsewhere, the Democratic County Convention will meet in Yesler's Hall on Saturday Sept. 7th. The primaries will take place on Wednesday, Sept. 4th. The number of delegates to the convention will be 89. The Republican County Convention will meet the same day as the Democratic, but at an earlier hour in the day, Friday, August 16th, is the day set for their primaries.

LADIES' FESTIVAL.—The ladies of the Methodist Episcopal Church have fixed upon next Friday evening as the time, and Yesler's hall as the place, for holding their last grand and popular festival for the present conference year. Ice cream and other refreshments will be served. Particulars as to exercises will be given hereafter.

RATES OF FARE on the Olympia and Tenino railroad have been fixed as follows: From Olympia to Tumwater, 12 1/2 cents; to Bush Station, 25 cents; to Spurlock Station, 75 cents; to Tenino, \$1. For freight, \$1 per ton, except hay, which will be \$2 per ton. The cars will make two trips per day, morning and evening; and after a few days will carry the mails.

INDIAN BILL, a renegade Columbia river Indian, was arrested and put under guard in a schoolhouse on suspicion that he was a spy. About half-past eleven o'clock a party of men, unknown, fired five shots through the window at him, only one taking effect, the rest going into the side of the building.

From the Daily of Tuesday.

TRAIN WRECKING.—Some infernal scoundrel or scoundrels made a diabolical attempt to wreck one of the coal trains on the railroad last evening, which came near being successful. A rail was fastened in the track, end on, with one end projecting upwards, and the whole covered with a small amount of brush, to create the impression that it was a harmless lot of rubbish, on the track between Renton and Newcastle. The engineer of the Bodie, coming down with a full train of coal cars, noticed the brush and suspecting something wrong, immediately reversed the engine, but could not entirely stop her. She came on slowly and struck the rail, which passed through her headlight, which was carried on the pilot, and stopped short within two inches of the boiler head. Had it penetrated the boiler it might have caused the death of both the engineer and fireman, and it was a close call. This is not the first attempt of the kind that has been made. Obstructions of various kinds, generally large rocks, have been placed on the track before, but have never done any damage. We can express our sympathy for the wretch who so wickedly, maliciously and wickedly attempted to do so.

BANKRUPTCY.—His honor, Chief Justice Lewis, has been sitting in chamber for the past two days, on the case of J. B. Roberts, bankrupt. A quantity of logs belonging to the estate were levied on by some 15 loggers, who had liens on them, and the attention of the court is being occupied by the question as to who is entitled to them.

LAUNCH.—The new steamer of Capt. Gove, built by Bigelow & Tierney at their ship yard in Bell Town, will be launched this evening about 6 o'clock. She is a very handsome light draught steamer and will be a good addition to one of our growing fleet of river ste.

RACES.—Seattle track of which Mr. J. Tierney is the present proprietor will be open day after to-morrow.

DIED.—George Whitehill, Capt. Whitehill, of Sami com county, died on the 2 from the effects of accidental rics received a week or two pre The deceased was an intelligen promising child of about five of age.

BURGLARY.—The boat of Mr. Yarno, at the foot of street, was broken into on Sunday night and a small amount of tools taken therefrom. Mr. Yarno is under the impression that it was the work of boys, and done more for the sake of mischief than for the value of the tools.

EPISCOPAL CHURCH.—Rev. O. Parker will hold divine service at Trinity Church this (Tuesday) evening at 7 1/2 o'clock. Mr. Parker will also officiate on Sunday next when he will administer the Holy Communion.

CLEANING OFF.—Several of the business houses are cleaning the old dry moss off their roofs, as directed by the City Ordinance. It is a good idea, as this moss, when dry, is very inflammable.

CALLER IN.—All the arms now in the hands of the Seattle Rifle Association, have been called in by the regents of the University, and, together with those of the University Cadets, have been forwarded to White River, to be placed in the hands of the new militia company recently organized there. We believe that the alarm existing among settlers in that region is entirely unfounded, but still the organization and arming of a good company can do no harm, and will probably have a tendency to create a feeling of security and prevent the occurrence of any panic in regard to Indian outbreaks. The Rifle Association, previous to the calling in of the arms, were making arrangements for the purchase of good rifles, they being all dissatisfied with the shooting of the old-fashioned, coarse sighted guns they have been using.

COW KILLED.—The coal train last evening ran over and killed a cow just this side of Steele's place.

SAILED.—The bark Aureola sailed last evening for San Francisco loaded with coal.

LARGE VESSELS.—Among the vessels that ever came to the Sound, the Yosemite, Alaska, and Ericsson, the aggregate coal carrying capacity of which is 6,500 tons. This is a very favorable showing for our port.

THE latest version, just out in Seattle, is as follows:

I'm so mad that I could weep, Landlord Mine, Landlord Mine, I've not had a wink of sleep, Landlord Mine, Landlord Mine. I swear I'm almost dead, Most a galton I have bled, There are bed bugs in my bed, Landlord Mine, Landlord Mine.

Republican Territorial Convention.

By order of the Republican Territorial Central Committee, duly assembled pursuant to notice, this 18th day of July, A. D. 1878, at New Tacoma, Washington Territory, notice is hereby given, that a Republican Territorial Convention is called to assemble at Vancouver, Clark County, W. T., on WEDNESDAY, OCTOBER 9th, 1878,

at the hour of 10 o'clock, A. M. of said day, for the purpose of nominating a candidate for Delegate to Congress, and for the transaction of such other business as will properly come before it. The Committee has fixed the apportionment of Delegates to said Convention as follows: One Delegate at Large for every County in the Territory, and one additional Delegate for every one hundred votes cast; and for every majority fractional one hundred votes cast in each county at the general election of 1876, for the Republican Candidate for Delegate to Congress. Upon this basis the various Counties of the Territory will be entitled to representation in said Convention as follows: Chehalis.....2 Mason.....1 Clallam.....2 Pacific.....3 Clatsop.....6 Pierce.....3 Columbia.....4 San Juan.....2 Cowlitz.....3 Skamania.....1 Island.....2 Snohomish.....3 Jefferson.....3 Stevens.....2 King.....4 Thurston.....5 Kitsap.....3 Waukiakum.....1 Kluckwilt.....2 Walla Walla.....5 Lewis.....3 Whitman.....3 Whatcom.....4 Yakima.....3 The Committee also recommends subject to any change to be made by the respective County Committees, that the various County Conventions be held at the County Seat, on Saturday, the 28th day of September, 1878, at the hour of 1 o'clock P. M., and that the primary meetings to elect Delegates to the County Conventions be held at the County Seat, on Saturday, the 28th day of September, 1878, at the voting places in each precinct. This recommendation is intended only for those Counties which have no County Central Committee, or when they fail to act. By order of the Territorial Republican Central Committee. DANIEL BAGLEY, Chairman of Committee.

Party Principles.

A South Carolina correspondent of a New York paper, in speaking of the political situation in that State says: "A traveler in South Carolina might suppose that the Republican party had dissolved, and that the whole State was harmonious in the support of Gov. Hampton and the Democratic party. But nevertheless, the Republicans are silently at work preparing to make a fight in every county where there is a colored majority for the county offices and the Legislature." And this correspondent is of the opinion that Hampton and the present State officers will not be disturbed, but that the Republicans will carry the Legislature and elect the next U. S. Senator. "As to principles," he says: "I find not the slightest difference between what is known here as the old straight Democratic party, and this now straight-out Republican party. They both assert the equal rights of all men, and oppose the special legislation of the Republican Legislatures and the last Democratic Legislature which gave exclusive privileges to a few capitalists."

In this last particular we can see no difference between the politics of South Carolina and those of any other section of the Union. Parties exist but in name without any clearly defined boundaries founded upon principles. Special privileges which were formerly the prerogative of the Democracy, are now the measures of a few capitalists."

Another Section of Railroad.

Yesterday, by invitation, we accompanied Messrs. Colman, Denny and Matthias, Directors, Scurry and Thorn, Engineers, and Mr. E. M. Smithers, in an examination of the route for an eight miles extension of the Seattle and Walla Walla Railroad, from Renton, with a view to an immediate commencement of the work. The party took the 6 1/2 o'clock train to Renton and from thence proceeded on foot up Cedar River as far as the Cedar Mountain Coal Mine, crossing the river twice and making a thorough reconnaissance of both sides, covering not less than 20 miles of hard travel in going and returning, a considerable portion being made through almost impenetrable thickets and climbing through the interlacing branches of fallen timber, at times 15 to 20 feet from the ground. The route, upon the whole, more direct and of easier grade than any not acquainted with it had heretofore anticipated, being far cheaper per mile than that of the branch to Newcastle. Near the end of the section examined the railroad location skirts the Cedar mountain coal mine, the most remarkable coal deposit of which we have any report in the world. At this point, the bed of Cedar river is of solid coal; seventy feet above a grade of a wagon road is cut in the mountain the upper side of which is a solid wall of coal; thirty-five feet above this grade, upon the same ledge, a chamber has been excavated, not less than twenty feet high and thirty feet across, either way, into a solid mass of coal, above, below, and upon all sides, equal in quality to the best that has ever been mined upon this coast. The coal from this mine could be placed on the cars, without the aid of any machinery, and the expense of transportation would not exceed that of any other coal in the territory.

deceased we can fully endorse the following tribute to his character by the Oregonian, a political opponent of over twenty years standing: "In official life we have never heard of a single charge tarnishing his character, though his public career embraced a time when political rancor ran to a high pitch and but few men escaped the shafts of calumny. Since his retirement from the office of governor he has filled other important trusts, both public and private, and always in an acceptable manner. His interest in behalf of the welfare of Oregon was great and having seen the state in her infancy and weakness he rejoiced in her fuller growth and her power among the states of the Union. A Democrat in politics, he was earnest in his convictions as such, but not an extremist, and labored for men rather than party. Hence in the days when strict partisanship was made a test of merit, he was passed in the political race by others less worthy of preferment. "In private life and among his neighbors and personal acquaintances Gov. Curry was universally esteemed, and by those most intimate with him he was regarded with most affection. His affable and courteous manner, his fine conversational powers and his well stored mind made him an agreeable companion. In fact a leading trait of his character was that of urbanity, and he was everywhere recognized as a true gentleman and an honest man."

ARRESTED FOR EMBEZZLEMENT.—Wednesday, Sheriff Bolton, of Iowa county, Iowa, arrived here from Marion county, having in custody a man named Wm. B. Taylor. This man was arrested on a requisition from the governor of that State, charged with having embezzled a certain sum of money entrusted to his hands. Taylor, it seems, was auditor of Iowa county, in the year 1875, and while acting in an official capacity appropriated about \$2,900 of public money. He was detected, arrested, had a preliminary examination and was held to await the action of the grand jury. Taylor's father furnished the bonds required and he was released. This occurred about a year ago. Soon after being released Taylor left the country and came out to this State. He rented a small farm in Marion county, on which he and his family settled. When the case came up for trial, the defendant could not be found, and the bonds were declared forfeited. His father being compelled to make the sum good was broken up. The authorities began a search for him, but he had fled to this State. He is now in custody of Sheriff Bolton.

tion of Nobeling, a man who is reported to have attempted to assassinate the emperor, is imprudent in erecting a bed, eating and answering in any ordinary way any questions. His replies, however, are accompanied by an idiotic smile, and medical men consider that if his life should be saved he would never perfectly recover his senses.

A little fellow who has seen scarce half a dozen summers, and at whose home hens have been kept for but a few weeks, visited a neighbor's day or two since to get company in his play, where he was informed that his off-time play-mate was suffering from chicken-pox. The lady of the house, in tones of curiosity not a little tinged with solicitude, asked the little fellow if they had had the chicken-pox over at his house, and was much amused at the reply, with all gravity: "No; we haven't had our hens long enough yet."—Providence Journal.

THE MISSING INDIAN.—The fact that an Indian, named Scar-faced John, has been missing from Port Blakely for some time past and his mysterious disappearance has caused intense excitement among his Indian tillieums there, and at the Old Mad House reserve, all having suspicions of foul play. When last seen, the Indian was leaving Blakely with a rope in his hand, saying he was going to catch his horse. His tillieums, suspecting that a man named Andrew A. Holt, living about a mile from Blakely, was concerned in his disappearance, caused his arrest on the charge of murder. His preliminary examination took place before Justice Hammond, at Port Madison, on Monday, when some twenty Indian witnesses appeared against him. The prosecution was represented by Dr. Marion, Indian agent at Talalip and Old Man House reserve, and the prisoner was not represented by counsel. The Indians were all examined through an interpreter, and nothing whatever was elicited to implicate Mr. Holt in any manner with the disappearance of the Indian, or to prove that the Indian was dead. To pacify the Indians, however, Mr. Holt was put under \$200 bonds to appear before Justice Hammond again within 30 days, if any further evidence was obtained. Furnishing the bonds, he was discharged.

COUNTY TREASURERS, TAKE NOTICE.—A question having arisen in this district under the new revenue law as to the compensation of the County Treasurer for taxes collected by sale of real estate, whether the same shall be two per cent. or ten per cent. Prosecuting Attorney White has given the following opinion to Treasurer Hill of this county: To Treasurer Hill, King County:

You are not entitled to any fee or pay for the collection of taxes by sale of real estate, other than two per cent. for receiving the tax after the sale, and one dollar for tax certificate. (See Secs. 38 and 57, Revenue Act, 1877, pages 164 and 170.) The law expressly says, "The Treasurer shall receive no pay for the collection of taxes by sale of real estate, except as provided in Sec. 57 of this Act, and a fee of one dollar for certificate, &c." Section 57, of the Act referred to, reads, "The County Treasurer of each county shall be allowed to retain two per cent. on all moneys received, &c." Section 57, of the Act referred to, is the law fixing your compensation in such cases. Respectfully,
W. H. WHITE,
Prosecuting Attorney.

PENITENTIARY.—The new penitentiary at Bellingham, five miles from Tenino, having been completed, Sheriff Billings, of Thurston county, who has the contract for keeping all the Territorial prisoners, is making a tour of the Sound gathering them all in from the various county jails, preparatory to taking them to their new quarters, where they will remain till the expiration of their several sentences. He went down to Port Townsend on the Olympia yesterday morning, to get the prisoners from the Jefferson county jail. He will come up tonight, and with his deputy, Mr. Jamieson, who is at present in town, will take charge of the three Territorial prisoners at present confined in the King county jail, viz: Lynch, John Moss and a Chinaman.

PAINFUL ACCIDENT.—Yesterday, while the Right Rev. B. Wistar Morris was engaged in training vines over a trellis at Helen's Hall, his foot slipped, hurling him to the ground, a distance of several feet, dislocating his shoulder. Dr. Strong was called who replaced the joint and made the Bishop quite comfortable. The pain was quite acute, but we expect to see him on active duty in a few days.—Port Standard, 30th.

DISTRICT COURT.—There have been, since the commencement of the sittings of the District Court at this place, in 1854, exactly 1,824 cases docketed, the greater majority of which have been within the last five years. This is only an average of 76 cases a year for the last 24 years, which does not seem a very good showing.

HON. David Noggle, formerly Chief Justice of Idaho, died at Monroe, Wisconsin, on the 18th of July, from softening of the brain, with which he had been long afflicted.

RUNAWAY.—The horse attached to Riley's soda wagon took fright at something this morning and dashed furiously up Commercial street, turning up Front. He continued rapidly up Front until finally stopped. Considerable damage was done to the wagon.

ASSAULT.—A barkeeper, who "fired" a woman who was annoying him out of the bar-room last evening, was arrested on her complaint and tried before Justice Snyder this morning. After hearing half a dozen witnesses on each side the Justice dismissed the case, assessing the costs on the prosecutor.

FIRE AT EAST PORTLAND.—A large fire occurred at East Portland, in the central portion of the city on Monday morning, commencing at 4 o'clock. The losses were as follows: Frank Bode, bakery, loss on building and stock, \$2,000, insured for \$900. Charles Bartel, saloon, loss \$1,000; insurance \$500. John Deboest, saloon, \$2,000, no insurance that we could learn of. Adam Lope, saloon, loss, \$800, insurance \$500. Mr. Congill, variety store, loss, \$600; no insurance. W. S. Gordon, stores and stock of tin and hardware \$5,000; no insurance. Judge W. W. Thayer, dwelling house, loss, \$2,000; no insurance. Postoffice, in which the postmaster, Call S. Williams kept a stock of stationery, etc., loss about \$100; no insurance. A few stamps and envelopes were saved, as was also a portion of the mail matter and one mail sack. The office records were destroyed, as were also the locks and keys belonging to the department. W. S. Smith, grocer, damage to building and by removal of goods, \$1,000, fully insured. Doud & Newall, by removal of goods and damage to building, \$1,000, fully insured. In addition to these, Messrs. Prettiman & Cricht, intelligence office, Mr. Riley, bootmaker, Ed. Hyde, barber, and Mr. Neppach, butcher, sustained small losses by the removal of goods, aggregating perhaps \$500 while the damages to the streets and adjoining property will amount to perhaps, \$1,000 more, the total loss being about \$16,000 on which there was an insurance of about \$3,400 only. The burnt district looks decidedly dismal and the loss to East Portland is one from which she will not soon recover.

CURIOUS ACCIDENT.—A valuable horse, belonging to Schwabacher Bros. & Co., has been missing for some time, and it was supposed he had strayed off or been stolen. Yesterday he was found out in the woods back of town, astride of a large fallen tree, and as dead as a mackerel. He is supposed to have attempted to jump the log and getting astride of it in this peculiar manner, was unable to extricate himself, and starved to death.

AGROUND.—The steamer Olympia, which left here yesterday morning at 5 o'clock, ran aground on the spit at Port Gamble and lay there all day yesterday, until floated off by the high tide in the evening. She then resumed her trip down Sound and is expected back some time to-morrow. We understand no damage was done to her.

COAL.—The amount of coal landed in town this month is considerably more than for any preceding one. During May the average per diem was 500 tons, and this month it comes fully up to 570 tons. One day last week the railroad brought in 800 tons, the largest amount ever got out in one day, and the average for last week was over 600 tons, showing that the railroad, with the present force of locomotives and despite accidents, is fully prepared for the transportation of all the coal the mine can at present produce.

LAUNCHED.—Capt. Gove's handsome new stern-wheel steamer was launched from Bigelow & Tierney's ship yard at Bell Town last evening, at 6 o'clock, in the presence of a considerable crowd, who assembled to witness it. She was christened the "Gem," the traditional bottle of champagne being broken over her bows by Miss Bigelow, daughter of the builder. Refreshments were handsomely provided by the liberality of Capt. Gove, and numerous toasts were drunk to the future prosperity of the little craft.

From the Daily of Thursday.

CONDITION OF THE TREASURY OF THE UNITED STATES, WASHINGTON, D. C. July 31, 1878.

SIR:—In accordance with your verbal request, I have the honor to advise you that, on June 30, 1878, there were in the Treasury as follows:

Gold Coin.....	\$161,343,614
Standard Dollars.....	6,887,948
Gold Bullion.....	6,069,438
Silver Bullion.....	5,591,201
Fund for the redemption of U. S. Notes, say 35 per cent. of \$ 45,618,046, outstanding Legal Tenders.....	121,030,000
Coin in excess of Redemption Fund.....	\$59,222,502
Of which there will be required for the following payments:	
Unmatured calls of the Five-twenty bonds.....	\$23,850,000
Coin Certificates outstanding, that date, \$44,367,000, less \$19,469,220, redeemed and in the Treasury.....	24,897,780
Principal of debt estimated to be due and unpaid on that date.....	4,000,000
Coin interest estimated to be due and unpaid on that date.....	4,000,000
Excess.....	\$2,474,822

The Gold Coin on hand, stated above at \$161,343,614, does not include redeemed Gold Certificates, or any other coin item, but is actual Gold Coin.

There was also in the Treasury on that date \$7,136,529 in Fractional Silver Coin.

Very respectfully,
JAS. GILFILLAN,
Treasurer U. S.
HON. JOHN SHERMAN,
Secretary of the Treasury.

LATEST FROM THE FRONT.—Intelligence from the troops in the field is meagre, unless one wishes to pay attention to the many rumors floating about, which seem to be manufactured to suit all complexions and freely distributed. For the most part these rumors are grotesquely false and mischievous. The only reliable information we have been able to gather during the week is that contained in the following paragraph:

Porsyth's cavalry column followed the hostiles through the roughest part of the Blue mountains, in the direction of the Malheur and Owyhee country, and on the 21st inst. came up with them and an attack made, resulting in the death of one of our scouts, wounding of one soldier, and killing of several cavalry horses. The enemy was considerably hurt, but to what extent our informant was not advised further than that one buck and a few squaws and children were taken prisoners, and quite a number of horses captured. The enemy made but a short stand after our brave troops attacked, but fled rapidly, throwing away encumbrances. The prisoners say that the Indians are making straight for the Malheur reservation, where they intend to surrender.

Gen. Howard is undoubtedly conducting this campaign with indefatigable zeal and honesty of purpose, and is ably assisted by as gallant troops—officers and men—as can be found between the two oceans; and to these hard working and earnest men we leave the management of the war, hoping for a speedy close.—W. W. Statesman of July 27th.

IMMIGRANTS.—We had the pleasure of a call on Sunday from Gen. J. D. S. W. Tilton, the leader of a large immigration who are on their way to Oregon and Washington Territory. Gen. Tilton is an old veteran and pioneer who has participated in all the Indian wars since the Black Hawk war. He is a native of Washington county, Penn., and has resided in various localities of the west. He says that his train consists of 23 wagons, and that it is followed by other trains of 20, 25, 40, and 50 wagons respectively. He says that 260 wagons drove into Laramie City five days after his arrival at that point. What is known among the immigrants as the Umattilla train arrived here on Saturday. The General informs us that there is one train of 23 wagon on the road bound for Silver City. Most of the immigrants are from Iowa. One of the party, a lady by the name Hudson, died here of consumption on the morning of the 20th.—St. Paul, 23d ult.

CLAM BAKE.—Some forty ladies and gentlemen chartered the steamer Teaser on Saturday last and went to Blake Island on a clam bake. They had a jolly time, but as they arrived there at high tide, they postponed the clam-bake part of it until next time. All returned tired but happy, with much good feeling towards the get-together of the picnic.

THE MOODYVILLE TICKLER is the title of a small four-page hebdomadally printed at the "Old Mill," Moodyville, Burrard Inlet. It is a very pronounced against the Mackenzie Government and is vigorous and somewhat satirical in tone.

HORSE RACING.—The race at Symond's track was won yesterday by Hop-picker. The afternoon's amusement was varied by a base-ball match between the Unions and Alki Juniors, won by the former by a score of 10 to 6, a very creditable score considering the small amount of practice either nine has had. The Unions have a new pitcher, whose style of curve pitching was rather a surprise to the older nine and prevented them from making as large a score as they would otherwise have done.

CHURCH.—The bodies of Mr. and Mrs. Perkins of Yakima valley, have been found at Rattlesnake Springs, forty miles from Yakima City, and 90 miles from this place. They had been missing for a couple of weeks, and it is supposed, tell by the hands of the red devils. They had been killed and buried. The woman's arm was protruding through the dirt, which leads to the supposition that she was buried alive. A party have left Yakima City to disinter the remains and bring them to that place and give them decent burial. We also hear it rumored that the Indians who committed this dastardly murder are now being tried at Fort Simcoe.—Klickitat Sun.

IRON WORKS.—One of the best institutions in this city is the foundry and iron works of Messrs. White & Tenny. These gentlemen, who are successors to the Messrs. Wilson, have made a great many improvements in their foundry and are constantly pushed with work, and their success is due entirely to the first-class quality of their work. They do all the casting for the railroad company, and do it better and cheaper than it could be done in San Francisco. They are about the only iron foundry on the Sound that are running on full time.

GREAT RACE.—Mr. Tate, the celebrated foot-racer, has returned to this city from Oregon, where won several races, and got away with the crack runner of that State. It is proposed to get up a great race in this city, which will be open for all runners on the coast. A large purse will be offered, and an entrance fee of some twenty-five dollars will be charged. Entries will undoubtedly be made from San Francisco, Portland, Victoria, Westminster and Seattle.

PORTLAND HOTEL.—Sam Coulter and his son Clarence have purchased the lease of the St. Charles Hotel, which they will hereafter conduct in person. We know of no men better calculated to make a success of hotel-keeping. It will certainly be the favorite stopping place for all sojourners in that city from Puget Sound.

AN UNWILLING BRIDE.—The San Francisco Bulletin of the 26th contains the following: "Yesterday morning upon the arrival of the Oregon from Portland, a girl fifteen years old was handed over by Capt. Connor to an officer, with the request to look out for her. Being a mere child, and evidently in want of assistance she was placed in the care of Nathaniel Hunter, Secretary of the Society for the Prevention of Cruelty to Children, to whom she told the following story: Her parents are Scotch and emigrated to Wisconsin many years ago. For a long time her father and mother have tried to force her to marry a man nearly 60 years old, but she refused, and once ran away from home, but was brought back. Last May, when 15 years old, she was at last obliged to marry the man, who says that he is 58 years old. No clergyman could be found to marry them, and they employed a Justice of the Peace. Soon after marriage she and her husband came to California, and then went to Oregon. During their journey her husband represented himself to be her grandfather. At Portland, he left her in a boarding-house while he went into the country to work, and during his absence, she told her story to the people in the house. Disliking the man to whom she was married, and not wishing to live with him, she was advised to leave him, and come to San Francisco and get work. She was given some money, and took a steamer passage down. On the way she became acquainted with some hoodlums, who made her promise to wait at the Paris House. This to the ears of Captain Hunter induced him to take charge and send her over to the city. Mr. Hunter has advised her to go to the city, where she is now residing."

Garroting.—An Austrian fisherman, named Antone, from the Columbia River, was garroted, stabbed and robbed in one of the streets of this city last night. He was carrying with him some fifty dollars in the tin. The stab, which was not fatal, was in the side of the chest.

Minerals.—A man who recently returned on account of his illness has left upon him a large quantity of mineral specimens brought from that country. The specimens consist of silver, coal, copper, and other minerals. The opinion derived from his observations, that that country abounds in precious minerals.

Insolvency.—Judge Lewis this morning rendered a decision in the case of Joseph Roberts, sustaining the claims of the loggers.

Turn Over.—Sheriffs of Jefferson county, and of King county, refused to return empty-handed, and to return empty-handed, they propose to hang on to the prisoners.

Stove-pipe.—The occasion of his inauguration as Mayor of the City, our new Mayor was the recipient of an elegant stove-pipe hat, presented by Chief Justice Lewis, as a token of respect and a contribution to the dignity of the position. Any suggestion of the use of fire-arms in connection with that hat, will be regarded as an indignity to the city government, and subject the offender to arrest and imprisonment for counselling the violation of a city ordinance.
