A CLEVER HIT.—"Yes, fellow citizens," says General Sherman at Bunker Hill to-day, "this battle was a series of blunders from beginning to end, and what in merry Halifax you are celebrating it for I can't for the life of me see. [Cheers.] There was Warren—Doctor Warren—a mere saw bones—labeled major general for the occasion and sent over to superintend the battle. There was Prescott—a rough-and-ready fighter, but no soldier. And old Putt, a clumsy farmer who once killed a wolf and slid down stairs on horseback, for which they made him a general, [ironical laughter.] Nobody knew who he commanded, and, in fact, there was no head to the mis-shapen animal. Why, gentlemen, what you believe me when I assure you that there was not a single West Point officer in the entire American force engaged on that day—not one. [Painful sensation.] Still I have the highest admiration for these fellows who got behind the fence there and had a pop at the British on the momentous day; and, gentlemen, we must remember that we can't all be accomplished soldiers, and—can't all write our own memoirs." [Disorder.] At this point the General was struck by a shower of cookies and fish-balls, thrown by indignant descendants of the Warrens, Putnams and Prescotts, and his speech came to an abrupt close.—Buffalo Express.

To keep raspberries for winter use, as soon as brought from the bushes, spread on plates and clean tins, very thin; fix up a shelf on the south side of the house, and in pleasant weather put on the shelf to dry, in stormy weather keep about the stove. When dry, put into paper bags and let them hang near the fire a week or two, and then put away for winter use. When wanted, put as many as are needed in a dish, and pour in warm water, and let them soak about three hours, and add more water as they swell. This method is a great deal in practice in Vermont.

The pistol used by Aaron Burr in his duel with Alexander Hamilton is on exhibition at New Haven, among other centennial relics.

Puget Sound Dispatch.

BERIAH BROWN, EDITOR. Seattle, W. T., August 11, 1875.

A Traveller's View of Puget Sound.

A person bearing the name of Smith after a sojourn of a few days, or weeks perhaps, upon Puget Sound, returns to Northern Wisconsin and gives his views of this country through his local paper. Though most of his statements appear prejudiced or exaggerated to our old settlers, they are in the main very fair and candid reflections of the impressions received from the superficial view by an emigrant from the beautiful prairie country of the old North West.

To such a one, seeking a farm, the first view of our dark forests and rugged hills present anything but an attractive appearance to the husbandman who has been accustomed to lands in a state of nature ready for the plough and been content to haul his fuel and fencing for miles over a bleak prairie, and compelled to shelter and feed his stock one-half the year, subjecting himself and his family, in the meantime, to the rigors of a polar region, and the balance of the year to periodical tempests which at times desolate whole regions; from which vicissitudes we are entirely exempt.

With the admission that this country is not superficially attractive to the husbandman seeking a new location; that it is unlike anything in the old North-west, which facts should be known to all who contemplate removing hither, we will proceed to notice some points apparent to the writer under consideration. He first says:

"This region is in the main covered with heavy fir timber. The lumber business has developed already to quite an extent, but how profitable it is I cannot say. I infer, however, that it is not at present remarkably so, as last year the mills suspended operations." Bordering upon Puget Sound and extending a hundred miles in every direction excepting that upon the ocean, is the finest body of fir-timber, for commercial purposes, upon the Continent. There are ten large milling establishments upon the Sound, none of which suspended operations last year, or at any other time, in consequence of being unprofitable, though last year they felt, in a measure, the universal pressure which existed upon all industrial and commercial enterprises, which is more than made up by the buoyancy of the present season. The owners of these mills, in the main, commenced operations here as mechanics or loggers, without means, and are now the men who would rank anywhere among the wealthy classes. He further says:

"In some localities there are rich coal mines which already receive some attention and promise to become at an early day the source of a great deal of wealth to the Territory." One year ago there was not a coal mine being operated in or about this locality. Now there are three in operation, delivering from 300 to 400 tons daily for shipment, with reasonable probability of the product being increased to 1,000 tons daily within the next ninety days, giving employment, in mining and transportation, to not less than 1,000 men, with a constant increase in prospect. These coal mines are flanked by inexhaustible iron mines of the best quality of ore, and the probabilities are that the manufacture of iron will, ere long, be the leading industry of this section. Yet, in view of this business and prospects, the writer says:

"I think I never was in a place where business was so overdone as in Seattle. Wages are about the same as here; perhaps they are a trifle higher, but at present it is next to impossible to get a job." We say, from a personal knowledge of the subject, that there is not a town of 10,000 inhabitants or less in Wisconsin, in which the demands of profitable trade are equal to those of Seattle today. The coal trade of the next year at this point will amount to nearly or quite \$1,500,000; the lumber business of four mills on and about this bay will amount to \$750,000. Besides which, the country trade and the jobbing business with towns of like population in older settled communities. As for the demand for labor, of the hundreds of emigrants who have landed upon our wharves during the present season, but one who desired it has failed to obtain immediate remunerative employment, and the demand, as yet, is far in advance of the supply. Chinamen are employed only because white labor cannot be had to meet the demand. Again, he says:

"As a farming country it is a joke. There is no good prairie land, the most of it being utterly worthless. The bulk of the timber land is inferior to ours so far as soil is concerned. There are streaks of soil along the creeks that make into the Sound that are very lony and productive. But these bottom lands, what little there is of them, are subject to overflow in most instances, which makes them undesirable property. This overflow occurs in midsummer, just the time to do the most harm, the occasion being the melting of the mountain snows. The fir land, as it is called, comprising a very large portion of the Sound country, is quite broken and stony. It costs to clear this timber land from twenty-five to one hundred dollars per acre. While there I never heard any one claim that it was a farming country. Fruits, such as apples, pears, cherries, plums and prunes are very abundant."

[CONCLUSION NEXT ISSUE]

Telegraph

EXCLUSIVELY TO THE DAILY DISPATCH.

DES MOINES, Aug. 7.—At half past 12 this morning, the lumber yard of Get-schell & Sons was set on fire in half a dozen places, and at the present time, 1 A. M., the whole square is one broad sheet of flames and over thirty thousand dollars worth of lumber is on fire. It is thought to have been fired by thieves and crackermen, the advance guard of ruffians going with Barnum's show, which exhibits here to-day, the evident object being to rob the town. The fire department is working with great energy to subdue the flames, and it is thought they will be able to keep it confined to one square where it now is. There is no wind, else the destruction would be immense.

NEW YORK, Aug. 6.—A special dispatch from Dublin says secret meetings of the amnesty association societies have been held in the interest of the National and International ideas to be represented in the demonstration to-morrow, and strong efforts have been made to induce the Lord Mayor's party to substitute Hon. Isaac Date in place of Lord O'Hagan as orator, who shall pronounce the eulogy upon O'Connell. A home rule character would thus have been given the affair, but the efforts failed and threats are made of interruption to Lord O'Hagan if he speaks.

SAN FRANCISCO, Aug. 6.—Flour, extra jobbing, \$6 75@7. Wheat, shipping, \$2 07 1/2; Oregon old crop, \$2 10; milling, \$2 15; and lot shipping \$2 07 1/2@2 12 1/2. Since the above was in type an advance of 4@5d. has come through from Liverpool, causing considerable excitement here.

Barley, old bay brewing, \$1 65; bay feed, \$1 52 1/2@1 59. Oats, choice feed, \$1 92 1/2@2 05; light grades, \$1 70@1 80. Rye, small round yellow, \$1 37 1/2; large, \$1 45. Potatoes, half moon bay and early rose, \$1 25@1 40; coffee, \$1 40 @1 50; sweet, \$2@2 50.

CINCINNATI, August 7.—Somore Pareira, a pawnbroker at 328 West 5th street started out last Tuesday evening, leaving his wife and daughter in charge of the shop. They took chairs and sat on the pavement near the front door and while sitting there, a thief entered the rear, and although the gas was burning brightly, he succeeded in getting from \$8,000 to \$10,000 worth of jewelry out of the open safe and escaped. The loss was not discovered till Friday morning.

There has been a growing suspicion here that the four young Cincinnati's, whose bodies were recovered from the river and who were supposed to have been run over in a skiff by a tow boat, were the victims of foul play. The bodies when recovered were found horribly mangled about the face. The matter will probably receive a thorough investigation.

NEW YORK, August 7.—Cardinal McCloskey, accompanied by his Secretary, sailed to-day for Havre on his way to Rome, where he will receive the hat and ring of the Cardinalate.

SPRINGFIELD, August 7.—The Northampton Anchor, Tape and Webbing Co., has failed. Liabilities, \$30,000.

BOSTON, August 7.—The Republican State Convention will be held at Worcester on the 29th of September.

DENVER, Col., August 7.—Several days since, a breach was effected in the Denver City jail, through which a number of prisoners escaped. All have been recaptured except E. Hall, W. Wilder and H. Leighton, who succeeded in reaching a heavily timbered region 50 miles south, whence last night they were decoyed into a corral, where they expected to secure horses, provided by friends for their escape. When they were within a few feet of the decoy horses they were fired upon by sixteen rascals. Leighton was pierced by seven bullets and instantly killed. Hall by four bullets and died in a few hours. Wilder, who it is supposed received severe wounds, succeeded in escaping and is still at large. Hall had been sentenced to ten years for murder and the others were under indictment for similar offenses.

MEMPHIS, August 8.—A conflict is raging between two factions of the colored population of this county and city. In a row in a house on Dixie street last night three colored men were shot and killed and several others were wounded by pistol shots and razors in the hands of enemies. On west end road another fracas occurred, in which two were killed and one wounded, and others are reported as occurring. The trouble appears to have grown out of the workings of a secret society which has for its object, stirring up strife between conservative and radical negroes, with the end in view of intimidating the former. Several arrests have been made and more will be. The trouble will soon be adjusted if the society is confined to this county, but it is feared it is more widespread.

NEW YORK, August 8.—It is stated that Cardinal McCloskey's trip to Rome has more or less connection with choosing a successor to the Pope, who shall fill the chair of the Pope after the death of Pío Nino, as well as to receive the hat and ring of the Cardinalate. The Pope's continued illness has an alarming effect upon the Cardinals about the Vatican and a meeting has been called by the Pope that a successor may be chosen to take his place in case of sudden death.

HAVANA, August 9.—The cargo of the

British vessel pursued in Haytian waters by the Spanish gunboat, has been embargoed by the Consul of Spain in Hayti and was taken by a Spanish man-of-war to Havana. The Diario thanks the British Consul General in Hayti for his good offices in the affair.

NEW YORK, August 9.—The Liberal Club will have a Hans Christian Andersen memorial meeting on Friday evening next. A special invitation has been extended through the representatives of the King of Denmark to all countrymen of Anderson to attend and the Danish Consulate of this city is taking steps to assist in the observance.

Gold closed at 14 1/4@14 1/2; stocks dull and steady. This afternoon, on application of Fairchild, State Attorney, Judge Westbrook granted an order of attachment against Dennison, Belden & Co., canal contractors, for \$417,000 dollars, and an order of arrest, requiring bail from each in \$200,000.

EVANSVILLE, Ind., August 9.—A letter from New Harmony states that the Wabash river broke through the levee in that vicinity on Saturday night and inundated many farms and destroyed a great amount of property. Tugs are towing barges loaded with stock day and night to places of safety. Thousands of acres of corn are submerged.

NEW YORK, Aug. 7.—Archibald Baxter & Co., a well-known supplying and commission firm, suspended payment to-day. They state that they were unsuccessful in negotiating their bills of exchange and are only temporarily embarrassed. This failure caused quite a commotion in Exchange Place and among grain merchants, with which interest they are heavily interested.

The Committee of creditors of J. B. Ford & Co. recommend the acceptance of 30 cents on the dollar in twelve monthly installments, commencing December 15th, with interest.

WATERLOO, N. Y., August 8.—The steamer York was burned to the water's edge at Massina this morning.

NEW YORK, Aug. 8.—It is stated that the American Jockey Club deposited \$20,000 dollars with Duncan, Sherman & Co. the Saturday before the failure.

WASHINGTON, Aug. 7.—The Government income for the last fiscal year is larger than any estimate made and more than realizes the expectations of Treasury officials.

OTTAWA, Can., Aug. 8.—Heavy rains yesterday broke down and damaged thousands of fets of grain in this vicinity.

DUBLIN, Aug. 7.—The third and last celebration of the O'Connell centenary was given up to festivity, excursions, boat races and other sports. This evening, the Contols of St. Patrick's Atorn will be given in exhibition palace, and there will be a display of fireworks.

LONDON, Aug. 8.—The death is announced of Wm. Bayle Bernard, the dramatist, born in 1808, in Boston, Mass.

PARIS, Aug. 7.—Victor Hugo welcomed the American rifle team to his residence last evening.

8.—The American marksmen and friends left Paris to-night for London.

MADRID, Aug. 6.—The Government denies that it intends negotiating a \$7,000,000 loan to identify Porto Rico slave owners.

STUTTGART, Aug. 9.—Mr. Schecs, of Vicksburg, won the silver cup in rifle shooting here to-day.

LONDON, Aug.—Capt. Bogardus, the American pigeon shooter, defeated Reimault here to-day.

An additional \$100,000 in specie has been made from the wreck of the Schiller.

MONTGOMERY, Ala., Aug. 9.—Complete returns show that the Convention was carried by 16,000 majority. Delegates elected: Democrats, 91; Independent Democrats, 6; Republicans, 12.

WASHINGTON, B. C., August 9.—About \$20,000 of the money stolen from the Treasury has been recovered this evening. The Marshal seized the property of Cottman and closed the restaurant. The whole amount taken will probably be restored to the Treasury.

LONDON, Aug. 9.—The gentlemen of the American rifle team and friends have arrived from Paris. Several of the party will visit Sir Henry Holford to-morrow at Wistow Hall, his country seat in Leicestershire, where they will meet a number of distinguished guests. On Thursday all go to Liverpool to embark homeward on the City of Berlin. A special to the Standard from Glasgow reports that sixty rioters, many of whom are badly hurt, were brought before the magistrate yesterday morning, and remanded to jail. Rioting broke out again in the suburbs on Monday, and volunteers and regulars were ordered to be ready, but the disturbance was quieted by reading the riot act. It is remarked that mobs of Catholics, armed with hatchets, steel knuckles and knives, were organized and acting under leaders. It is reported that several of the men in custody are head centers.

NEW YORK, Aug. 9.—A London special says the weather the past week has been fine and more encouraging to operators for lower prices, and harvesting will begin next week, but with all this crops continue unfavorable and favor holders of stocks of wheat. Prices of all grades are well-sustained and quotations are steady.

FORT LARAMIE, August 10.—Capt. Pollock left this morning to assume command of the new post in the Black Hills, temporarily established to keep

out miners. The post will be garrisoned by one company of infantry and two of cavalry.

NEW YORK, August 10.—Secretary Bristow came here from Washington yesterday and had a conference of about four hours with the Collector at the Custom House. The object of his visit and consultation was kept a secret, and politicians calling were kept as ignorant as the clerks.

CHICAGO, August 10.—General Crook and Colonel Stanton returned here today from Black Hills. The miners were preparing to leave, covering up the richest leads to prevent their becoming known until such time as they can return. The country is considered rich in gold and the mountains full of quartz. There were no Indians in that region and few had been seen, but those at the Agencies are still demanding that the miners be driven out. Some gold was panned out in the presence of the party, which yielded seventy-five cents to the pan.

WASHINGTON, August 10.—Commodore Ammen, acting Secretary of the Navy, to-day received from the acting Secretary of State a dispatch from Tripoli dated August 7th, states that Mr. Vidal, American Consul and wife, had been insulted by Tripolitan sailors, and asking whether any of our vessels of war could be conveniently sent to that port. Orders were issued that the steamer Hartford, Capt. Harmony at Port Said, proceed to inquire into the facts and demand that the perpetrators of the insult be arrested and punished. Rear Admiral Worden, Commanding the European station, was also instructed to keep himself advised of the circumstances and if necessary send other vessels to Tripoli to act with the Hartford.

BEAVER, August 10.—At a late hour last night Marshall Maxwell took Lee from his cell and started off quietly for Salt Lake. It is thought probably Lee will be safer there. Dame will now be confined in the place Lee occupied.

If our memory serves us right, we had a fire meeting a week or so ago. We wonder if the committee have done anything. If they have not they should hyack before it will be too late.

We have a young printer in this city who makes semi-annual trips to Crab Creek, more than a hundred miles away. Last March he laid out on the prairie, ten miles from any house, with his saddle for a pillow, and six inches of snow for a mattress, and studied astronomy and wished he knew which was the north star, so that he might travel on in the right direction. He is now on his summer trip, and we hope he may have better luck this time, not get lost on the prairie and have to sleep with his horse and be serenaded by coyotes.—Walla Walla Union.

Having closed his labor for the day, the owner of the vest went to look for the same, but it was nowhere to be found; some thief had taken it away and undoubtedly appropriated the contents of the pockets to his own use. A. O. F.—COURT WASHINGTON, No. 5885.—The following are the officers elected for the half year from July 1875: Geo. D. Hill, Chief Ranger; J. C. Grasse, Sub. Chief Ranger; J. R. Robbins, Treasurer; R. M. Rylatt, Secretary; R. T. Flynn, Senior Woodward; W. Meydenbauer, Junior Woodward; C. H. Smith, Senior Beadle; Sam Roy, Junior Beadle; H. B. Bagley, Court Surgeon; E. M. Blake, Minute Secretary.

FREE LECTURES.—Dr. J. L. York, of San Jose, Cal., will give a course of lectures on Liberal Topics of Reform, at Yesler's Hall, Seattle. Opening lecture of the course on Wednesday evening, August 11th; subject "Common Sense vs. Hammond," or "Natural Religion. Subjects for the week are as follows: Thursday evening, "How to be Happy;" Friday, "Individuality;" Saturday, "Open Questions;" Sunday at 10 1/2 o'clock, "Inspiration;" Sunday evening, "The Proposed Religious Amendments to the Constitution of the United States." Admission Free; all cordially invited. Come, and bring your wife. In speaking of this gentleman, the Portland Journal says: "Dr. J. J. York's lecture last evening attracted a large audience. The lecturer was both argumentative and witty, and while he expounded some solid truths he also affected the risibilities of his listeners. As to the lecture we have but few words to say. While it was not dry, and while witty it was neither vulgar nor light. The Doctor talks again to-night, and we will repeat what we have said before—go and hear him."

ARRIVALS.—Barkentine Stetson arrived at Port Madison on Monday night.

Bark Atalanta arrived at Port Gamble yesterday, and the ship Roswell Sprague arrived at the same place on Tuesday.

DIAPHRAGMATIC HERNIA.—A REMARKABLE CASE.—An antopsis in the case of H. C. Anderson, who died at the Seattle Hospital on Sunday night, was made by Dr. Weed, twelve hours after death, with the following result, Drs. Sparling, Baker and Calhoun being present:

On opening the body nearly all of the anterior and superior portion of the left pleural sac was found to be occupied by an abscess, evidently of long standing and only partially filled with pus; and a loop of intestine—the transverse colon—about twelve inches in length, was found protruding through the diaphragm and adherent to it, together with a portion of the cardiac end of the stomach. The abscess was found to communicate with the loop of intestine, and had evidently discharged its contents through it into the bowels. Fecal matter was also found in the cavity of the chest. The heart was found displaced from its normal position on the left side, having been forced to the right by the distension of the abscess and the protrusion of the intestine within the cavity. The lung was found collapsed and forced back against the posterior wall of the chest.

EXCLUSIVELY TO THE DAILY DISPATCH.

WHEELING, West Va., Aug. 3.—Wheeling creek was higher yesterday than ever known. At all points along the B. and O. R. R., and between this city and Grafton, there has been great destruction of property and loss of grain. The town of Farmington is almost submerged, water being in the first floor of nearly all the houses. The loss in staves, headings, logs and barrels carried away from the vicinity of Martinsville amounts to \$100,000.

GALVESTON, Aug. 3.—Election returns from 51 precincts, show a majority in favor of the constitutional convention. A very tight vote.

LOUISVILLE, Aug. 3.—Election returns so far show the Democratic majority in the Lower House to be about the same as last year.

LONDON, Aug. 4.—The Dispatch states that \$100,000 specie has been recovered from the wreck of the Schiller.

DAYTON, Aug. 3.—The rivers are beginning to fall. Small grains are all badly damaged and tobacco used up. Total damage in Montgomery county estimated at half a million.

NEW YORK, Aug. 4.—Gold closed at 127 1/2 @ 13; money easy at 1 1/2 @ 2.

NEW YORK, Aug. 3.—Theodore Tilton's counsel said that the notice sent to Henry Ward Beecher's attorneys, yesterday, was not meant for a renewal of the scandal suit, but merely as a matter of form.

CHICAGO, Aug. 3.—The Journal is inclined to think that the paper found a week since Donaldson left, in the lake and signed by the balloonists, is genuine. The message read as follows: July 17. If this is found say to the world we were lost in a gale.

MEMPHIS, Aug. 4.—Reports from the river below here state that plantations of 900 acres at Fort Perry are submerged and a crevasse made at Desota front, 20 miles below on the Mississippi side, but the planters are endeavoring to stop it. The water pouring through the crevasses from the submerged cornfields is said to be terrific, owing to the corn sowing.

OMAHA, Aug. 4.—This morning a terrible storm of wind, hail and rain passed over this city, doing immense damage. Plate glass, five eighths of an inch thick, was shattered to atoms. Some of the hailstones weighed a pound and a half.

MONTGOMERY, Aug. 4.—Returns come in slowly, but enough is known to render it reasonably certain that the Constitutional Convention is called by 10,000 majority. The Convention carried the State by 15,000 majority.

LIVERPOOL, Aug. 3.—Moody and Sankey held closing services morning and evening in Victoria before a congregation of 10,000 people.

LONDON, Aug. 4.—In the Commons to-day there was a sharp debate in the committee on the supplementary estimate of £2,000,000. Dolson and Gladstone attacked the estimates and declared such looseness tended to destroy the control of the Parliament over expenditures. Stafford Northcote, Chancellor of the Exchequer, admitted an apparent deficit of £300,000, but he was confident that the increase of revenue would more than cover the supplementary estimates. The supply bill finally passed by the committee. It is expected the Parliament will be prorogued by the twelfth.

BREKIN, Aug. 4.—The Bishop of Padoborn who was deposed from his functions by the Prussian law courts and has since been required to remain in West, has, without permission, quitted that town. On leaving he addressed a letter to the Governor of the district assigning as a reason for his departure, of impaired health and his duties to his flock.

COPENHAGEN, Aug. 4.—Hans Christian Andersen, the poet and novelist, died to day, aged 70.

VERMONT, Aug. 4.—The session of the Assembly was formally closed to-day in accordance with the resolution for a recess until November 4th.

MADRID, Aug. 3.—Troops defeated the insurgents in a recent encounter. The Bishop of Mostar has advised the insurgents at the town of Gabelle to abandon the insurrection and return to their homes.

MELBOURNE, Aug. 4.—The Ministry of Victoria resigned in consequence of the opposition of the Parliament to the budget.

SYDNEY, Aug. 4.—The Parliament of New South Wales has approved the tender for carrying the mails made by the Pacific Mail Steamship Company.

NEW YORK, Aug. 5.—Brooklyn has taken the lead in celebrating the centennial of Daniel O'Connell's birth. The address of O'Gorman was delivered last night to a large and enthusiastic audience, and the stirring events in the life of the great agitator were vividly portrayed.

MEMPHIS, Aug. 5.—A heavy rain storm occurred this morning. Reports from above state that the plantations on Islands 10 and 35 are being submerged and at New Madrid the overflow is running through sunken lands to St. Francis valley.

CHICAGO, Aug. 5.—Returns from the Cherokee election indicate that Col.

Ross, now holding the office of Principal Chief of that nation, has been defeated by Rev. Chas. Thompson. The chieftaincy has been held by some member of the Ross family ever since the tribe adopted a civilized form of Government. Thompson has long been very popular with the Cherokee nation.

NEW YORK, Aug. 5.—The Herald denounces the proposition for a new trial of the Beecher case and characterizes the course of the counsel in reference thereto as a repetition of the nasty drama which for months has occupied the attention of the country. This whole Tilton business has been a sham from beginning to end. Tilton was a plaintiff, striving for a sham verdict. He sued for damages which he did not want, to prove the guilt of his wife whose faults he had condoned, to vindicate a reputation which he himself had destroyed, and to overthrow an antagonist with whom he had entered into a league and covenant of peace.

TERRE HAUTE, Aug. 5.—The river is slowly rising. The Express this morning estimates the loss of crops and other property in the 14 counties tributary to this city at not less than twelve million dollars. There is a profound discouragement among all classes.

INDIANAPOLIS, Aug. 5.—No very reliable estimate of the aggregate loss to wheat, corn and other crops in the State can be made now. Some sections put the damage at 50 per cent., others much higher and in many places the entire crop is destroyed. In the low lands on the Wabash river it has been put at \$500,000. The corn is wholly destroyed by the flood, which at \$15 an acre would amount to thirty million dollars.

MONTGOMERY, Aug. 5.—At noon to-day the National flag was hoisted over the Capital and 21 guns fired in honor of the carrying of the convention by the people. Majority, 9,500 to 20,000.

BOSTON, Aug. 5.—The O'Connell dinner at the Revere House, was a great affair to-night and was participated in by a large number of public men. Speeches were made by Generals Banks, Butler and Guiney and others.

WILMINGTON, Aug. 5.—The election here and throughout the country passed off unusually quiet. Neither party polled a full vote. The Republicans carry the county by a large majority, electing three delegates to the convention.

NEW YORK, Aug. 5.—Gold closed at 133 1/2 @ 134; stocks little more active.

CHICAGO, Aug. 5.—A Washington special says the Solicitor of the Treasury has prepared a circular announcing the boundaries of the territory to be under charge of each Supervisor of the Treasury Department under the supervision of Low. These officers are for the first time placed in connection with the Solicitor and will have the Secret Service as an adjunct in suppressing fraud on the customs. The first work assigned the agent is the detection of fraud on the revenue at the principal ports and the suppression of smuggling. To this end, the Solicitor will avail himself of the means at his command to find out to what extent Custom House officers are derelict and how for connivance is necessary to defraud the Government.

WASHINGTON, Aug. 5.—The following was received at the Indian Bureau this afternoon from Fort Sill: Hon. E. SMITH:—The Kiowa and Comanche woman say they are unwilling to go to Florida. Shall they be compelled to go? J. W. HOWARTH, Indian Agent.

LONDON, Aug. 5.—Ten thousand strangers arrived in Dublin to attend the O'Connell centennial.

DUBLIN, Aug. 5.—The celebration of the 100th anniversary of the birthday of Dan O'Connell began here to-day and will be continued for three days. Houses are decorated with banners, garlands and mottoes, and a great display of green. Dr. Crake, the new Archbishop of Cashel, preached in the Cathedral this morning on O'Connell, the liberator. The Cathedral was immensely crowded and the music was magnificent.

ROME, Aug. 5.—O'Connell centennial is observed here by the celebration of Pontifical High Mass in the Chapel of the Irish College.

BREKIN, Aug. 4.—A water spout burst over Kern, in Rhenish, Prussia, to-day, totally inundating the place and doing great damage. The bridges and several houses were swept away and 13 persons were drowned.

COPENHAGEN, Aug. 5.—Hans Christian Andersen died to-day of a cancer. There is general mourning. Deputations from various parts of the country and elsewhere in Europe will attend the funeral.

OTTAWA, Can., Aug. 5.—The acting Mayor has requested that the places of business be closed to-morrow and the day to be observed as a holiday.

NEW MARKET, Can., Aug. 5.—The flouring mill of J. W. Marvin was burned this afternoon. Loss, \$20,000.

NEW YORK, Aug. 6.—T. J. Baldwin, of California, was burglarized at the Morgan House, Poughkeepsie, of one thousand dollars.

MEMPHIS, Aug. 6.—The river here is rising steadily at the rate of two inches in 24 hours. The weather is cloudy and threatening. The levees below here as far down as Friar's Point are still reported good, the only break being at the cut in the old town levee, through which water is pouring, threatening plantations below from the rear. Water comes from the Mississippi at New Madrid and threatens the fine cotton lands above

Helena on the Arkansas side. Cotton men predict a loss of 80,000 bales of cotton in Memphis district alone from the present outlook.

BOSTON, Aug. 6.—Bailey Blake, banker, died to-day.

NEW YORK, Aug. 6.—The O'Connell centenary was begun in this city this morning by the celebration at St. Stephen's Church of Pontifical high mass by Bishop Corragan, of Newark. A large number of clergy assisted and a large congregation was present.

The large hall of Cooper Institute was crowded this evening on occasion of O'Connell centennial meetings.

Dispatches received to-night from the principal cities East and South state that the centennial celebration has been observed in a most enthusiastic manner

BROOKLYN, Aug. 5.—A reporter of the Argus has information to the effect that Tilton and his lawyers are preparing an article in reply to the Herald's attack, which will be noted for its savageness and the brilliancy of points made against that paper.

CHARLESTER, Aug. 5.—Late developments show that ex-State Treasury Parker made his escape in a sailing vessel that left this port night before last. It is hinted that his escape was connived at by parties that were engaged in prosecuting the suit against him.

CHICAGO, Aug. 6.—The Times to-morrow will publish a statement obtained from a prisoner named Billy Forrester, at Joliet for a crime of burglary. The statement is in substance that he is fully cognizant of the facts of the Nathan murder; that, though he cannot point out the man who struck the blow, but he can name three professional burglars who attempted with the co-operation and the cognizance of certain high officials in New York to open the safe in the Nathan mansion, and while making this attempt, they aroused Mr. Nathan, and between them, in order to escape, killed him with an iron dog, which they were using as professional tool. He refuses to reveal the names of these parties, because he fears this will interfere with his plan of bringing them to justice and of revenging himself on them for their persistent persecution of himself. Should he secure a pardon, as he hopes to do, he will make this the object of his life. He affirms that the relatives of the murdered man had no knowledge of the way in which he came to his death and he denies the truth of stories recently published in New York and elsewhere concerning the murder. Forrester is an old, experienced burglar and knows the surroundings of the Nathan House perfectly. He submitted diagrams in connection with this confession and otherwise displayed familiarity with the scene of the assassination. Confession is long and circumstantial. It implicates deeply some of the New York officials, but not by names.

DUBLIN, August 6.—The O'Connell Centenary Celebration is continued to-day. The ceremonies began with a grand procession through the streets. This evening, several banquets and balls will take place. The numerous organizations, civil and military, which were to take part in the procession to-day, began to assemble at an early hour this morning in St. Stephen's Green and vicinity. It is estimated there were nearly forty thousand people in line. Houses and sidewalks along the line were crowded with dense masses of spectators. There was great cheering as the procession marched past O'Connell's House and the City Hall, where the great liberator delivered his first oration against the Union. The members of the Fenian Amnesty Association marched with a banner at their head, hung with chains. Their flags were dressed with crape and other emblems of mourning were displayed. Doctor Isaac Butt and other home rulers of Parliament marched with the Association in Sackville street as the divisions of the procession, with bands playing, arrived and took up their positions. The scene was grand and stirring. Long before all had arrived the commemorative ceremonies began at the site of the monument. Lord O'Hagan, who was to have delivered the oration, was not able to be present and the Lord Mayor of Dublin came forward to read it to the assembled multitude. The moment he appeared there was great uproar and confusion. The Fenian Amnesty men had moved up to the front of the platform and as the Lord Mayor began to speak they shook the chains attached to their banners in his face and drowned his voice with shouts of "No Whiggery," and loud and continued cries for Dr. Butt. The Mayor made a second attempt to read the speech, but finding it impossible to make himself heard withdrew from the platform and proceeded to his carriage under protection of the police. Dr Butt, in response to repeated calls, came forward and made a speech reviewing the career of O'Connell and thanking the people for their praiseworthy conduct during the day.

Midnight—A grand banquet at which the Lord Mayor presided, was given at Exhibition Palace this evening. The

proceedings were marked by no incident of interest until one of the regular toasts, viz: the Legislative Independence of Ireland, was reached. This the Mayor announced and called on Charles Gavan Duffy to respond. Duffy, on rising, was greeted with a tremendous uproar and shouts for Butt for 20 minutes. There was a scene of wild disorder. The Mayor made repeated attempts to gain a hearing, but in vain and vacated the chair. Dr. Butt then rose and began to speak, when the gas was extinguished and the company dispersed in great confusion and before the series of regular toasts was finished.
