"A Perfect Disgrace."

A visitor for whose judgment we have great respect, has been a sojourner in our town for some days, and has greatly gratified us by his unqualified praise and commendation of all he had heretofore seen; our beautiful town-site, magnificent harbor, the evidences of enterprises and thrift on every hand, and our unbounded resources; but to-day he mortified us beyond measure by the exclamation, on visiting the place in which the United States District Court is holding its session: "A perfect disgrace!" This remark had no reference to the Court or its conduct, but to the court room exclusively, for which the county is solely responsible; and the sting of it was that it is true. Wherever the fault lies, the fact is, that there is no county upon the coast which has less to show in the way of public buildings than has this county. With aggregate annual taxes to the amount of about \$40,000, the entire county buildings, until within the last two years, consisted of an old shanty jail on a saw-dust alley, repeatedly presented as a nuisance by grand juries. Two years ago an amount was expended upon county buildings sufficient, if judiciously applied, to construct a very respectable court house and jail, and nothing come of it but some ill-arranged offices and an insecure jail. A great deal of the improvident management of county affairs heretofore was attributable to the loose manner of keeping public accounts, making it difficult to understand the financial condition of the county, thus leaving its credit to the tender mercies of the money changers. When county script, bearing 10 per cent. interest, could only command 50 or, at most, 60 cents on the dollar in the money markets, it can readily be estimated at what an immense sacrifice the public business was transacted. It is a low estimate to put the losses to the tax payers of King county on depreciated paper at \$150,000 during the last ten years, and at least that amount has accrued to the profit of the brokers. During the past two years county script has sold for not less than 80 cents on the dollar, and now it readily commands 95 cents in the market, there being money in the treasury to meet all the issues of last year, and sufficient collectable taxes in the hands of the Treasurer to meet all accruing liabilities. This improvement in the county credit is not so much due to its increased ability to pay as to the fact that the books of the Auditor and Treasurer exhibit a clean record, showing the exact financial condition of the county, which all can understand, with no doubt or margin for speculation, which is of much greater advantage to the public credit than more ample resources represented by obscure and unreliable records.

In the present promising condition of affairs it would not be difficult to raise money to remove the present "perfect disgrace," without materially increasing the burdens of the people. In the meantime, we do not blame our friend whose remark

suggested these comments. If we should visit any well improved neighborhood, abounding in evidences of thrift and prosperity, and find the old log school and unpainted and weather-beaten meeting house of the pioneers as the sole representatives of the educational and religious requirements of the people, we, too, would be constrained to say: "Perfectly disgraceful!" and the remark is as well applied to the most opulent county in the Territory, with no house in which to hold its courts twenty five years after its organization.

A Terrible Threat.

Our amiable and estimable friend Newell, who believes that the management of that portion of the Territory lying south of the Columbia river belongs exclusively to the O. S. N. Co., and that he is the Viceroy of that company for that province, fulminates the following dire threat upon us poor clam eaters, who he has always regarded as outside barbarians, not loyal to his sovereign: "We are compelled to give them notice, that unless honesty, fair dealings are hereafter adopted, Walla Walla county will make another move to cut loose from the clam eaters, for the purpose of being annexed to Oregon, where we properly belong."

"Inasmiuch as I would not one suffice!" After they have gathered Tom Merry home to where he "properly belongs," must we have the threat pending over our heads of losing Newell, with all his pleasant and attractive ways? Misfortunes seldom come singly, and the next calamity of a kindred nature which we may reasonably look for, will be a threat by the Tacoma "Land Ring," that if we do not behave ourselves we will be deprived of the valuable society of General Department and his boy Sniffles, who will be called back to where they "properly belong," which would complete the mystic number of our calamities under the law of affinities; and then, indeed, would the "bottom drop out" of Seattle to the same extent it did when the O. S. N. Co. and John Pinnell simultaneously removed Tom Merry and his more respectable namesake to other fields of usefulness more profitable to their several owners. We should be greatly alarmed at this threat of Newell if we did not know it to be of the same character as the proposition of his boss to bribe the Savior by offering him all the kingdoms of the earth upon certain conditions, when the poor old "cuss" had no title to an acre of the land which he proposed to convey. The fact has been demonstrated repeatedly that the Oregon interest which Newell especially represents is not in the ascendant in Walla Walla county, and the object of his unreasonable and unfounded attacks upon the people of Puget Sound, is as well understood there as here, to be simply to promote a sectional prejudice to operate to the furtherance of his scheme to annex that county to Oregon and surrender the people to the tender mercies of a transportation monopoly without an alternative. A large majority of the people of Walla Walla regard railroad connection with Puget Sound as the only means for their emancipation and future prosperity, and in this they are in entire sympathy and accord with the people of Puget Sound, and will not permit themselves to be diverted from this common purpose to serve the interest of any party demagogue who seeks success on sectional grounds solely. The people of Puget

Sound, with great unanimity, concede all the advantages of location, in the selection of candidates for Delegate, to the eastern portion of the Territory, but they will under no circumstances accept a candidate dictated by Newell in the interest of Oregon and the O. S. N. Co.

Personal Defamation.

There is but one honest man in the world, and he is getting old and a little fat.—[Fall-stick.] It is Struve's character that Brown now vouches for. He admits certain irregularities, and puts in the baby-plea of 'youthful indiscretions.' This might cover the charge of desertion; but when it comes to the robbery of the printing fund, at a time when Struve was over forty years of age, the baby-plea will not avail.—[Newell.]

Like his ancient prototype—whose perfect image he is, morally and physically—our modern Fallstaff believes that virtue has fled the earth, leaving behind only a modicum which is entirely hid from public observation in his own obesity; and nothing so arouses his virtuous wrath and grieves his pious soul as that any other person should enjoy a reputation for honesty and virtue, all of which he regards as a hypocritical and false pretence, personally insulting to himself. In the matter under consideration it goes for nothing with him in disproving his theory that the object of his vituperation has had his character submitted to the test of more than twenty years of personal intercourse with the people among whom he at present resides; that during that time he has been honored with trusts, public and private, of high distinction and of the most confidential character, and in no instance has he been convicted of a betrayal of trust. Hundreds of thousands of dollars belonging to the Government and to his clients, have passed through his hands, no dollar of which has ever been wrongly applied, and to-day he represents in the Courts as large interests as any member of the bar in this Territory. He deserted from the army! that is true. It was the act of a boy, a foreigner and stranger in the country; not a youthful indiscretion, but an assertion and vindication of manhood against an attempt to reduce him to menial service after he had enlisted as a soldier, for which neither he nor his friends have ever offered any baby plea or apology. When the circumstances under which he took the risk of condign punishment to regain his liberty, like a fugitive from slavery, became known, no officer of the army blamed him, and no gentleman of any rank attached any obloquy to the act. He was not even offered the indignity of a pardon, but by military order his discharge from the army bore even date with the alleged desertion, with no political disabilities attached.

The charge of "robbery of the printing fund," was fully investigated and brought no shame upon any but its authors. Mr. Struve was completely exonerated and the U. S. Attorney threw severely rebuked by his superior for arraigning a public officer on such flimsy and manifestly malicious testimony.

Before giving credence to defamation of personal character, it is proper to consider the motive and the source. When it is aimed at a citizen, occupying no official position—as is the case with Mr. Struve—there is no patriotic consideration to justify it; it is purely personal and malicious, and falsehood is invariably the ally of personal malice. The charges against Mr. Struve are not called for by any public interest or sustained by facts affecting his public or private character; they are instigated by personal malice and perpetuated by falsehood; both emanations from the Father of Lies.

THE WAY TO STOP THEM.—The Walla Walla Watchman says. Why is not a reward offered for the capture of Mr. Perkins and wife? In 1858, Mr. Liebe, a brother to Fred and Geo. Liebe, highly esteemed citizens of the Dalles, was murdered by Indians. Major Garnett offered a reward in flour and bacon, and it was not long before friendly Indians brought in poor Liebe's rifle and accoutrements, also the head of the murderer. Offer a reward. Give Umagine another job, for from all accounts Columbia river Indians committed the shocking crime, and they should be brought to justice, regardless of time and cost.

JUSTICE'S COURT.—A. Mattison, for a second offense of drunkenness and disorderly conduct, was arraigned by Justice Scott yesterday, and being found guilty was fined \$20 and costs. In default he was ordered to assist the street commissioner in grading. Lewis Sutton, another drunk and disorderly, was fined \$5 and costs. In default was ordered on to the street grade.

GIFT ENTERPRISE.—The "Fakir of Java," a famous magician, mesmerizer, etc., will give an entertainment at Maddock's Hall, this evening. Tickets 50 cents, each ticket accompanied by a number entitling the holder to a chance for a valuable prize, a number of which are to be distributed by lot. For further particulars see bills.

Mons. A. Morrei, of the firm of Feistel & Gerrard of San Francisco, is now stopping at the Occidental Hotel. He is prepared to guarantee cures without pain of many of the ailments flesh is heir to—warts, freckles, moles, birth marks and all diseases of the foot. The firm which Mr. Morrei represents have a reputation for doing all they advertise and persons afflicted with any of the above named complaints, would do well to give him a call.

THE RACES.—There will be some exciting races on the track next Saturday. Besides the single dash of a mile between Hop-picker and Black Hawk, for \$100, there will be a half-mile race, catch weights, free to all. The Tilly mare from Olympia, Billy Bingham and others will enter for this. Mr. Symonds has arranged with the railroad company to transport passengers to and from the race track at half fare. Those wishing to attend the races are advised to be at the depot at half past 12 o'clock Saturday next, to be in season to see the first race.

Seabeck Correspondent. August 17th, 1878. EDITOR DISPATCH:—The vessels now in port are barks Oregon, Dublin and ship Anibal Pinto, the latter loading for a foreign port. The bark General Cobb and two foreign vessels are daily expected to arrive. The mill is running extra hours at present, caused by the extra demand for lumber for foreign ports.

Mrs. Nobe, an old lady residing here, met with a painful accident the other day caused by falling from the end of a piece of plank, which resulted in the breaking of an arm. Dr. Kendrick was quickly in attendance, and made her as comfortable as circumstances would permit. We had a call from the swindling pen man the other evening, who was liberally patronized by the sporting fraternity of this community. However, they were unanimous in pronouncing him a fraud after his departure.

There was a grand excursion given last week by the members of the Seabeck Cornet Band, which was considered to be the affair of the season. The steamer Colfax was chartered for the occasion, and Union City was their destination. On their arrival there they met with an enthusiastic reception from the citizens of that place, and all spent a very pleasant day. The departed for home late in the evening amid the booming of cannon.

Mr. White, the talented instructor of the brass band, was suddenly called home on urgent business. One and all of his pupils deeply regret his leaving. However, should they require his services during the winter months, they shall have him among them again.

The Walla Walla Watchman says: Gen. Tilton arrived in the valley with his train, consisting of 53 teams and 50 families in quest of homes, last Saturday. Two weeks ago he came into Grande valley with 150 teams, but since that they have scattered out in every direction. The general thinks that there are from 500 to 1,000 wagons on the road, all steering toward the wide west.

INCREASING.—Forty-seven pupils are enrolled at the Puget Sound Business College, Penmanship, book-keeping and telegraphy are specialties of this institution.

BARK Harvest Home, Capt. Mattison, arrived to-day with freight for the following persons: Schwabacher Bros. & Co., 738 packages, H. Mhlfelder, 62; Hall & Paulson, 5. She will load with Seattle coal.

Bark Northwest arrived at Port Madison last night.

From the daily of Thursday.

HORRIBLE TRAGEDY.—One of the most daring outrages that ever occurred on the coast took place in Portland Tuesday. Three men, two of them small and smooth-faced, and the third a large, powerful man, with a colored shirt, entered the pawn-broker shop of Walter O'Shea, at 9 o'clock in the morning, and engaged the proprietor in conversation in regard to some blankets, which they said they desired to purchase. In a few minutes one of the trio closed and bolted the door, while another knocked the proprietor insensible with the butt of a pistol. They then proceeded to ransack the place, cramming what valuables they could lay their hands on into a valise. While at work a young man passing observed them and at once gave the alarm. The police were promptly on hand, but before their arrival, the burglars had effected their escape through the rear of the shop, and thence through the shop adjoining. They then ran rapidly down First street, followed closely by the police. Arriving at Alder, they turned west as far as Third, when they turned to the southward. Here they stopped suddenly, and fired on the officers. The ball missed its intended mark, and struck a young lad named Marks Joseph, penetrating his heart and killing him instantly. With hasty tread the trio then made for the delivery wagon of Weeks and Morgon, jumped into the vehicle, seized the reins, and rode at a break neck pace up Morrison street until they came to the terminus. Here they vacated the wagon and struck for the bush and made good their escape. The citizens of Portland are terribly roused and numerous bands of them are scouring the woods after the miscreants. Should they be caught, in the present excited state of feeling it is possible that judge Lynch may save the State the expense of their trial and conviction. A reward of \$250 has been offered for the apprehension and conviction of the murderers.

PROSPECTING.—Mr. T. B. Lockwood and two others, have just returned from a four months prospecting tour of the head waters of the Skagit, Sultan and Stilaquamish. He reports that from \$2 50 to \$3 per day can be made to the man on the Sultan as far up as they prospected, though the gold was very fine. Mr. Lockwood sold to L. P. Smith & Son, about \$20, coarse gold, he got on what they supposed to be a tributary of the Stilaquamish. Mr. Lockwood is satisfied good diggings will be discovered in that section of the country. In fact he discovered enough to justify another expedition, when he will go better prepared. Elk, deer, ibex and mountain goat are plenty on the foot hills and up to the summit of the Cascades. He reports much fine agricultural lands on the Swinomish, up which river he found the bottom lands and heavy timber for a distance of over forty miles.

REV. JOHN ROSENBERG, of Portland, who has officiated at Trinity Church, in this city, for the past two weeks, and who was expecting to remain over next Sunday, has been unexpectedly called home, and will leave this evening. The sojourn of the Rev. gentlemen and his estimable wife in this parish, has been an accession of great gratification to the members of the congregation to which he has ministered, and we believe has been highly satisfactory to them. The attendance upon his services has been unusually large, and there has been a general expression of the wish that the relation of pastor and flock could be established between Mr. Rosenberg and the members of this parish. All who have enjoyed social intercourse with Mr. and Mrs. Rosenberg, while here, will remember them in kindness.

NOT SO WELL.—Mr. Frank Kimball was not so well this morning; was very restless last night and delirious at times.

DAKOTA'S PASSENGER LIST.—The following is the passenger list of Dakota which sailed on the 20th: Port Townsend—Mrs. Tallentyre, Adam Deeb, Miss S Bioglean, Henry Newhall, Seattle—R Irving, Wm Henderson, A Hess, Capt J W Foster and wife, Mrs D H Hill and daughter, Y Estrada, C Jennings, H Schenkogle wife and three children, J S Jack, J Townsend, F Detrick wife and two children, J W Blakeslee, W D Catton, M Garritz, Jas McKowett, W J Schinn wife and daughter, B F Kelly, J H Motarn wife and two infants, Julia Slossin and three children, J Ford, Mrs Powers and son, Tacoma—Saml Harris, Judge Field and wife, Miss Swearingen and maid, John Holles, D Gross, W Cradlebough, G H Cradlebough. Olympia—Mrs Hoffman, Miss Hoffman, H Coffered, Lieut Cherney.

FOOL HARDY ACTION.—Three young men from the city went down to Lake Union yesterday afternoon to pass away a few hours on this beautiful little lake. They procured a small sail boat and rowed out into the middle, but there being no wind, one of them stretched himself out in the bottom of the boat to enjoy a snooze, when the other two commenced rocking it; he remarked, if they did not stop he would upset her, and sure enough over it went, giving them a fine ducking. They scrambled to the boat, righted her and were on the point of hailing her out when a puff of wind from the north tipped her over again. One of them in the meantime, had stripped himself of all clothing. The lady who so generously came out with her boat to rescue them, on finding no immediate danger of being drowned, and one minus of apparel, backed out and let some of the male kind receive the praise of saving them.

CALLED IN.—Treasurer Hill gives notice that he is prepared to pay all outstanding warrants drawn on the county fund, prior to and including No. 104 of the series of August term 1877, amounting to something over \$5,000. No interest will be allowed on said warrants after 30 days from August 20, 1878. He also gives notice that the tax list for 1878 is in his hands and all taxes unpaid after December 1st 1878, ten per cent. will be added.

PORT MADISON.—One of those large cougars that roam over Bainbridge Island, was seen last Monday near Dr. Morgan's residence. The remains of a pig was found next morning near by. Mr. Meigs is having the wharf near the store repaired. An improvement much needed, particularly for steamboats.

MARINE.—Barkentine Tain O'Shanter arrived last night from San Francisco. Will load with Seattle coal. THE air-gun team assemble nightly at the Centennial for practice with Jim's beautiful silver-plated air-gun, which he has brought from New York at great expense. His is the only shooting gallery in the city, and the lovers of such sport will find everything there for their accommodation, including the celebrated "Gambrinus" in bottles.

THE name of JOHN M. THOMAS of Slaughter precinct is announced as a candidate for County Commissioner, subject to the action of the King County Democratic convention.

The Pending Election.

Time was in this country when nothing could be more fatal to the success of a candidate for office than to be detected in intriguing or actively working for his own nomination or election, and a log-rolling arrangement between two or more candidates to aid each other by an interchange of followers, was regarded by popular sentiment as an evidence of corruption which would exclude from any position of public confidence or trust every man engaged therein. But, alas! how times have changed, as the primary meetings held in this city last evening demonstrated; in which the candidates appeared personally as the leaders of trained bands, enlisted as followers, pledged to the fortunes of their several chiefs, like the soldiers of fortune of the middle ages whose lances were at the service of any power with the disposition and ability to pay the purchase price. Today these leaders are exhibiting the results of the conflict in so many delegates elected to the nominating convention pledged to do their bidding. What a gross travesty is this upon free popular government. The theory of nominating conventions is, that they are deliberative bodies, composed of delegates elected to express and aggregate popular sentiments, as unbiased by personal considerations as a jury for the trial of an action in court. The practice of electing delegates in the interest of self-seeking candidates is as totally adverse to this theory as it is hazardous to good government; it is devised to defeat, instead of expressing the popular will, relying upon party discipline and not upon the unconstrained judgment of the people for success. A candidate thus nominated and elected may possibly make an efficient officer, but his qualifications as an officer are not, as they should be, the basis of success; his ability for management and intrigue giving him his principal advantage.

All parties now profess to be in favor of civil service reform. Few among our most intelligent citizens can explain the political differences which now divide parties, and none can tell what possible bearing political professions have upon the discharge of the clerical duties of official positions, or how the intervention of party is useful in the selection of such officers, except as a means of promoting the designs of demagogues and office-seekers who cannot command the popular suffrages upon their own personal merits. We can expect no reform of our civil service until the people cease to be the bond-slaves of party under the management of self-seeking politicians. For thirty-five years we never missed being a delegate to any convention of our party in either the county, state or district in which we resided, and never went into a convention under instructions or personally committed to the support of any candidate for a nomination, and uniformly discriminated against the candidates who personally solicited nominations. When we found bargain and sale the rule which controlled in

nominating conventions, we quit, and for more than eight years past have taken no part in any party caucus or convention, by which we have surrendered no right as a citizen, nor changed our views upon any political principle. We only desire that every citizen would act as independently.

Libel Suits.

Several of our exchanges have commented in various ways upon the subject of a suit commenced against the editor of this paper for libel, under an evident misapprehension of the facts. A Portland paper represents it as: "Thomas W. Prosch, editor of the Seattle Tribune, suit against Beriah Brown, editor of the DISPATCH, and Mayor of Seattle, for libel, in the sum of \$5,000 damages. This suit has been brought on account of a statement recently made in the DISPATCH, claiming that Mr. Prosch, as postmaster of Seattle, was 'crooked' in his official duties; or, in other words, that he acted in the interest of the mail contractor."

The facts are, that the alleged libel was published in January last—a term of District Court having since intervened—and consists of detached sentences of deductions drawn from statements of well-known facts in relation to the mismanagement of the post office in this city, all of which were fair matters of public criticism, and are entirely ignored in the plaintiff's complaint. The material charges embraced in that article culminated in a petition for his removal, which was being numerously signed when a compromise was proposed and accepted, by which he resigned under an agreement that his successor should pay him for his post office fixtures. In accordance with that agreement we signed a recommendation for the change, which was endorsed by Prosch, over his own signature, upon the same paper, which we regarded as a confession and avoidance, in settlement of the whole controversy upon that subject, and have never before now publicly alluded to the terms of settlement, allowing Prosch all the public credit of having voluntarily resigned; and it undoubtedly would have rested there, and Prosch would never have dreamed that he had cause of action against us for libel, but for subsequent events and the proverbial sharpness of his Attorney in defending men charged with criminal offenses.

While the matters above referred to were pending, Prosch published in his paper one of the most malicious and unfounded libels upon us ever uttered, specifically and circumstantially charging us with felony in forging the name of Chief Justice Lewis, stating positively that the Judge, all the members of the bar, and the public generally believed us guilty, though the fact could not be proved. Upon the testimony of the Judge, the members of the bar and all other parties specifically referred to all of whom positively swore that the charges were false, the Grand Jury of the district found a true bill against Thomas W. Prosch for malicious libel. The indictment was dismissed by the Court solely upon the ground that the statutes of the Territory provided no penalty for the crime, a conviction, of which there could be no reasonable doubt, would be fruitless and attended with unnecessary expense to the county. The laws providing no punishment upon conviction for this most cowardly and infamous crime, and the offence having become habitual

under the belief that it was not punishable, we were constrained to seek the remedy provided by law of a suit for personal damages. Not till after this suit was commenced did Prosch discover that he had any cause of action against us for libel, and this matter, which was permitted to rest until it had passed out of the memory of nearly everybody in the community, was trumped up by a sharp Attorney, solely for the purpose of creating a diversion in favor of his client; an attempt to off-set a criticism upon the official acts of a public officer, in the minds of a jury, against a false and malicious attack upon the private character of a citizen.

We should not have offered any comments upon this matter had the cases been left for trial at the present term; but having been continued by stipulation, on the affidavit of Prosch that he is not ready for trial, we are not willing to rest under the imputation, for the next six months, of standing upon the same footing with a man who has escaped trial and conviction for an infamous crime through the laches of the law.

A Business View.

A few days since a party composed of capitalists and bankers visited our city and passed over the railroad to the Newcastle coal mines and back. All expressed their surprise at the amount of the improvements and the extent of our resources, in view of the limited amount of capital invested. It was remarked that in comparison with the Oregon railroads the cost of our railroad was not to exceed 45 per cent. of the cost of the latter for the same amount of work; our road was built by the people, with their own means and credit, and the Oregon roads by foreign capital, borrowed on bonds sold at large discount and a considerable portion of the funds thus raised appropriated by managers for their own use and squandered upon contractors. It was also observed that the earnings of the completed portion of our road were much greater in proportion than those of any railroad in Oregon or elsewhere with which any of the party were acquainted. They were unanimously of the opinion that the future prosperity of Seattle is assured, and that the completion of the Seattle and Walla Walla railroad is only a question of time. Mr. Reid, of the Scotch banking house at Portland, expressed the unqualified opinion that after the completion of the next section of ten miles, now under way, in the same manner that the work has heretofore been prosecuted, the company would thereafter have no difficulty in procuring, on easy terms, all the money necessary to complete the road to Walla Walla.

This testimony, coming from disinterested parties so capable of judging, is conclusive evidence of the practicability of this undertaking; but we should take into consideration, that with all these manifest advantages, so fruitful in results to our town, success can only be assured by the active efforts of those most interested; that the value of the most bountiful crops are never realized until they are garnered, and that capitalists rarely invest in public enterprises the chief benefits of which accrue to communities or individuals who refuse to contribute to or take any risk in the work. It is very difficult to convince outsiders of the superior advantages of a local investment in which the citizens of the vicinage decline to take stock. Our citizens have incurred incalculable loss by de-

cluding themselves with the idea that the advantages offered were sufficient to attract the investment of capital without their active and material aid. When a large contribution was deemed the only means by which a railroad connection could be secured, it was promptly pledged by our citizens and tendered to the Northern Pacific railroad company as a bonus for the location of the terminus at this place.—There is no reasonable doubt in the mind of any intelligent man that the amount then pledged, if judiciously applied, could have assured the completion of the Seattle and Walla Walla railroad two years ago, and that all real estate values in this town would have been increased thereby ten times the amount contributed.—But the project was permitted to linger, and still lingers, only because a portion of our property-holders, controlled by a greed that devours its own substance, hoped to share in the profit without contributing of their substance to its success; and thus, like the miser, they hazard all rather than incur expense in protecting what they have. The time has come when this niggardly spirit cannot, and ought not, to be tolerated in this community.

A NICE PAIR.—Two young men, who have been distinguishing themselves in a very questionable manner around Portland, were arrested on Thursday, for stealing a quantity of clothing from a *maison de joie* in that city, and will probably have an opportunity of doing the State some service for a few years in the Penitentiary. Their names are Andy Beyer and J. Pullen, the former of whom, a magnificent hoodlum, with kinky hair and gorgeous apparel, was employed as a hash water in the Occidental Hotel in this city, about a year ago. His colleague, Pullen, was employed in the *Intelligencer* for some time, but was finally discharged for theft. He has relatives residing in Olympia, we believe. Since leaving here these young men have figured in several petty thefts, but until now had succeeded in escaping conviction. Dwyer has a wife and child living in Salem.

STEAM THRASHER.—Messrs. Halloran & Foster, of the Samish, Whatcom county, received by the Panama a fine steam thrasher, the first to be used at that place. Only last year one of the horse power machines would do all the threshing, but this year Messrs. Halloran & Foster have contracted for 35,000 bushels of grain for neighboring farmers. The schooner Gen. Harney will receive the thrasher on board to-day, together with other machinery and merchandise for the same destination. After the harvest is over, it is proposed to utilize the engine by attaching to it a run of stone, thus converting it into a portable grist mill.

NORTH PACIFIC TIMES.—Under the above title a large, handsome and well filled weekly newspaper has just been issued at Tacoma, without any name of publisher or editor attached. If the future numbers are equal to the specimen, it will be a valuable paper not only to its immediate locality but to the whole country bordering upon Puget Sound.

LAST NIGHT.—The celebrated glass blower will remain only to-night and those not having given him a call, will miss a great treat. Articles manufactured by him will be sold at reduced rates. Don't forget to call early.

MARINE.—The barkentine W. H. Gawley was towed to sea from Port Madison this morning. Forest Queen was towed around to Marshall's wharf to take on a lot of hops. She sails this evening. Eureka, loaded with lumber from Colman's mill, was towed out by the tug Favorite to-night. Schooner Reporter, which has goods for this place, arrived at Port Ludlow last night. Sohr Reporter, which has a quantity of merchandise for this place, arrived at Port Ludlow last night.

LECTURE.—Maria Solter, the celebrated traveller and author, will deliver her lecture on Denmark and the Danes in the Congregational Church to-morrow, Sunday, evening, at half past seven o'clock. All are invited to attend.

Benign party of yesterday hereby to express their appreciation of the kindness extended to them by Captain Ballard, of the *Phoxy*, and return thanks to the gentlemanly officer for his hospitality to them.

HEAD QRS. GRAND ARMY OF THE REPUBLIC.
PROV. DEPT. WASH. T.
SEATTLE, Aug. 17, 1878.

Comrades: Comrade Edward C. Tenney is dead. And we, his comrades, at the melancholy announcement desire to fittingly express our sorrow for our loss, and heart-felt sympathy with his stricken family. To his widow and children we, his brothers in arms, extend our deepest sympathy, commending them not only to the Grand Commander of the Universe, but the generous heart of our Great Republic, whose defender he was in an hour of desperate need and whose defenceless children now they truly are.

The Department Commander directs that Stevens Post No 1, G. A. R., attend the funeral, and invites ex-soldiers generally to join in consigning to his last resting place all that is mortal of their old comrade.

Members of the Grand Army will wear the usual badge of mourning on their left arm for thirty days.

By command of the Department Commander.

F. W. SPARLING.
A. SLORAH, Asst. Adgt. Gen.

Usual morning service at the Congregational Church to-morrow at 11 A. M. Sabbath School at 12:30.

FUNERAL SERVICES.—The funeral services of the late Mr. Edward C. Tenney, will take place at the Methodist Episcopal Church to-morrow morning at 9 o'clock. All are respectfully invited to attend.

DIVINE SERVICE.—The Rev. John Rosenburg, of Portland, will preach on Sunday next in Trinity (Episcopal Church) morning and evening. The Rev. gentleman and his family are temporarily stopping at the parsonage of the church.

IMPROVEMENTS.—Mr. Buzby, of the Star flour mills, is regrading the road leading from Front street down to his mill and wharf. The hill has been lowered so a team can haul up a full load. Mr. Buzby is about to enlarge his wharf, widening it some twenty feet from in front of the mill to the out end of the present wharf.

OREGON CONFERENCE.—The next session of the Oregon conference of the M. E. Church will be held at Salem, Oregon, commencing on Wednesday, August 29. Bishop Andrews will preside and other distinguished strangers may be present. Arrangements have been made with the Puget Sound Steam Navigation Company, and all intervening railroad and steamboat lines, for half-fare rates to all who wish to attend. Full fare will be paid going to Salem, but the return trip will be free to all persons presenting certificates from the Secretary of the conference that they have been in attendance. Tickets may be had at W. H. Humphreys.

Large fires in the woods on all sides, cause the atmosphere to assume a very hazy appearance.

A RARE TREAT.—The crowd around Prof. Griener the Bohemian glass blower, at the Occidental square yesterday and last night was immense, and shows that a real work of art is well appreciated by them. Even our city council have shown by their action at their last session, their good taste and real appreciation of the merits of the Professor in partly relieving him of the customary license for shows. It is worth a visit from everyone, to see the professor in his unsurpassable skill, manufacturing the daintiest articles from flimsy glass. His two glass steam-engines are one of the greatest inventions of the nineteenth century, and we urge our readers not to neglect in giving the Professor a call.

From Daily of Monday.

COUNCIL PROCEEDINGS.

SEATTLE, Aug. 15, 1878.

The Common Council met pursuant to adjournment.

Mayor Brown in the chair.

Councilmen present—Messrs. Denny, Murphy, Miller, Baxter, Child, and Abrams.

Minutes of previous meeting read and approved.

The Mayor stated that the object of the meeting was to take into consideration the purchase of a steam fire engine.

Moved and seconded that the Mayor, Fire Warden and Mr. Baxter be a committee to open negotiations for, and if they deem it necessary, to purchase, a steam fire engine. Carried.

On motion, Council adjourned. D. T. WHEELER, City Clerk.

POSTPONED.—By request of many democrats, particularly those in the country, the date for holding the Democratic county convention has been changed from September 7th to October 5th, by order of the county committee.

COUNTY FAIR.—The directors of the King County Industrial Association had a meeting at the office of Secretary Scott and decided that a fair should be held at Yesler's Hall, in Seattle, September 25th, 26th and 27th. After attending to other business, the following committee of arrangements was appointed to fix up a premium list and make all other necessary arrangements for the coming fair: Mrs. Beriah Brown, Mrs. John Leary, Mrs. H. B. Bagley, Mrs. H. L. Yesler, Mrs. W. A. Jennings, C. W. Lawton, Wm Meydenbauer, A. A. Manning and Roswell Scott. The above committee will meet at Secretary Scott's office to-morrow evening, when a premium list will be made for publication. The directors will hold another meeting August 31st, at two o'clock, P. M.

BUSINESS COLLEGE.—Among the educational institutions in which our Territory may with reason take pride, there is none more worthy or practical than the Puget Sound Business College. In no part of the Pacific coast, north of San Francisco, has a more thorough system of business training been introduced than that carried out by this institution. Here we find all has been done that enterprise can accomplish in so short a time. The President, Mr. D. Gunn, is well and favorably known throughout educational circles in many parts of the United States. He has located among us with his family, and intends to stay. The present number of pupils on the rolls is 4; of which 23 are studying book-keeping and the full commercial course. Penmanship is a specialty and there is a daily drill in it. The telegraphic department includes every feature that will make students proficient in the art of telegraphy. See the double-column ad. in to-day's paper.

COURT HOUSE.—The old district school house at Olympia has for several weeks past been undergoing changes and repairs, under direction of the County commissioners to adapt it for court purposes. The first floor has been partitioned into jury rooms, and the upper apartment arched and made into a neat and comfortable court room. The main entrance is by a wide flight of steps on the south side. The carpenters have about finished their work, and the plasterers and painters will complete their labors in a week or ten days.

FREIGHT LIST.—The schooner Reporter, now discharging at Yesler's wharf, has freight for the following persons: Levy Bros, L Reing, I S Rowe, Waddell & Miles, White & Tenny, J Sullivan, Hall & Paulson, Gore & Wunder, Crawford & Harrington, and J A Cranfield. She had 100 tons of freight for this place, 30 for Port Townsend, and 10 for Port Ludlow. She will take a hold full of Seattle coal and a deck load of lumber from Colman's mill.

WHAT HE HAD.—The swiftness with which he was arrested Monday evening by officer P. K. Murphy, at Gorvais, as the person who shot at Sheriff Egan of Lane county; had upon his person when arrested the following articles: Photographs of two handsome young ladies, a lock of hair, memorandum book containing a poll-tax receipt, a bunch of keys and a lot of shot, powder and caps. A singular collection of ictas.

THE Fanny Lake brought up 150 sacks of oats from La Conner last week; consigned to S. Baxter & Co., for re-shipment per Dakota, it being the first shipment of this year's crop.

District Court.

The District Court for the Counties of King and Kitsap convened at Yesler's Hall.

As so much business is on the docket and the term has been shortened from four to three weeks by an act of the last legislature, it will be necessary to hold night sessions.

The Grand Jury as summoned all responded to their names. Two asked to be excused on the ground of having important business to attend to, but the Judge refused to excuse them. They were then dismissed until four o'clock this afternoon, when they will be empanelled.

Brief Notes.

Setwabacher Bros. are still ahead. 20 yards of calico for \$1 and ten per cent. off for cash on all other drygoods.

The Olympia has been chartered to go around to Portland after a cargo of flour for parties in Victoria. She will be back shortly and resume her regular trips.

THE MISSING INDIAN.—Facts have come to light in regard to the affair of the missing Indian at Port Blakeley, which created so much excitement among the Old Man House Indians some weeks since, tending to show that the Indian in question, Jim, either secreted himself or was stowed away for the purpose of endeavoring to fasten the guilt of his taking off on some white person, and Mr. Holt was selected as the scapegoat. From parties from Pt. Blakeley and Madison who have been working up the case for some time past, we learn that just previous to disappearance of Jim, a number of Indians from East of the Mountains were seen in close conversation with the leading Old Man House Indians, and the impression now prevails that the whole business was a put up job to justify these Indians in an outbreak, in conjunction with those in Yakima. It is claimed by those intimately acquainted with the feelings of the Indians, that those from east of the mountains were heresolely for the purpose of endeavoring to foment a conflict between the Puget Sound Indians and the whites, but the rout of the hostiles in Eastern Oregon induced them to abandon the design. It was remarked by many that at the examination of Mr. Holt the Indians were remarkably insolent and overbearing, and they swore point blank to things that were completely disproved by reliable white testimony, and the agent had great difficulty in quieting them when Holt was acquitted.

SUICIDE.—D. W. Crooks, a man who has been largely engaged in the logging business on the Sound for some years past, and who has lately resided at Salmon Bay, started out with his rifle on a hunt yesterday. Not returning during the night, some alarm was felt and search was made, and this morning his lifeless body was found in an old cabin a few miles from his place, hung by the neck with a hay rope, to the rafters, under circumstances which proved conclusively that he had committed suicide. His rifle was standing in one corner, with his hat hanging on the muzzle, and near his feet was a small box which he had evidently stood while fixing the fatal noose. Deceased was aged about 53 years and was a native of Canada, where he has relatives now residing. Since the death of his wife, which occurred in Canada, he has been very much depressed, and a short time ago took poison, which did not have the desired effect. He leaves a family of children in the East. The inquest takes place this afternoon at 4 o'clock, and the funeral services from the Presbyterian Church to-morrow at 1 o'clock, P. M.

COAL FLEET.—The ship Eldorado came in this afternoon under full sail, making five of the coal fleet now in port. The ship Ericsson, which will take the largest cargo ever taken from this port; finishes loading to-night and will sail to-morrow. Brig Hesperian, schooner Reporter and barkentine North Bend are lying at the coal wharf. Three more of the coal fleet are daily expected to arrive.

THE INDIAN QUESTION, as a matter of statesmanship, law and civil justice, by Dr. Atkinson, at the Congregational Church this evening at eight o'clock. It is a free lecture which all lovers of justice and fair play should be sure to hear. It will in part show how much or how little reason there is in the common cry of "red devils" and in the statement that "the only good Indian is the dead Indian."

ACCIDENTALLY SHOT.—About 5:30 o'clock Saturday morning Victor Bellinger, son of C. B. Bellinger, Esq., met with a most shocking accident, under the following circumstances: He was engaged in loading a shell cartridge at the time of the distressing mishap. He had attached the percussion to the lower end of the shell, placed the powder in and was ramming down the wadding preparatory to putting in the shot. To force the wadding down Victor used a short iron ramrod, probably a foot long. While thus engaged, the cartridge exploded, firing the large ramrod through his hand and up against his forehead. One end of the rod struck the bone of the right eyebrow, near the nose, shattering it and tearing away in the upper passage the flesh. So violently was the rod driven that it penetrated the skull and entered the brain, making a very dangerous wound. Drs. Parker, Rafferty and Watkins were summoned as speedily as possible and rendered all the assistance in their power. The wound was carefully dressed, and up to a late hour last night the lad was resting comfortably and the symptoms were rather favorable. Several dispatches have been sent to Mr. Bellinger, who is about thirty miles from Jacksonville, apprising him of the terrible accident. He will probably reach here to-morrow evening. Victor is aged about 16 and is of a robust constitution, which is one circumstance favorable to his recovery. He is conscious and perfectly sensible, answering all questions intelligently. The chances of recovery are slender, but if inflammation does not set in the lad may pull through. The parents have the sympathy of the entire community in this their sad affliction.—*Oregonian*.

DISMANTLED.—The old steamer Wenat has been completely dismantled and is now lying at the bonery, "a relic of days gone by." Her boiler has been hoisted out on the wharf in front of W. E. Williams, boiler shop, where repairs have already been commenced. The engines have been taken out and are now in Messrs. Jones' machine shop undergoing an overhauling. Messrs. Smith & Moss, the purchasers of the boiler and engines, think when the repairs are completed they will be nearly as good as new, and in the course of a few weeks will have them set up in their new boat, now about ready to launch at Belltown.

SCHOOLS.—The Rev. John Rosenbergh expects to start for Portland on Thursday evening. If any parents wish to send their daughters to St. Helen's Hall, or their sons to the Bishop Scott Grammar School, now under the direction of Prof. Hill of Harvard College, he will be glad to take charge of them, and to see them safely to their destination; and in the meantime he will give all information on those excellent institutions, which open on Tuesday the 3d of September.

Sparling, Vice Commodore, announces that the first annual regatta under the patronage of the citizens of Seattle, will come off at Seattle the 6th of September next, distance 21 miles, all yachts must be entered on or before the first of September, and be measured by Mr. Mitchell. General News.

Chicago, Aug 19.—The Tribune this morning says editorially that the Kearney demonstration in Indianapolis yesterday came into competition with a demonstration of welcome to the new Catholic bishop of the diocese. The result furnished additional proof that the blatant communist from California expect neither comfort nor countenance from the great body of the Catholic church. The new bishop was welcomed by a vast crowd of people, glad of the opportunity to show their respect for his holy office. Kearney was neglected with conspicuous contempt, the street procession which was to have received and escorted him to the picnic grounds numbering but 68 by actual count. The Indianapolis demonstration was a significant sample of the estimate held of Kearney among western workmen. He is a failure as a sensationalist in this longitude, and ought to lose no time in returning to the open arms of the Frisco hoodlums.

The Times' Indianapolis special says: The great labor demonstration with the great California agitator as leading attraction, was a failure. There was less than a hundred persons in the procession. After speeches by the lesser communistic lights, Kearney mounted the platform and exploded with a great noise. He recited a portion of the 2d chapter of St. James with a vicious intonation, indicative of an inclination to convert his bible into a bludgeon and send some of the aforesaid capitalists to kingdom come. Here followed a recital in billingsgate of the recent political campaign in California, where labor was crowned king, in the battle against Democratic robbers and Republican thieves, leprous bondholders who have apparently lost the lecherous qualities of piratical thieves and soulless vampires, assisted by Bohemian ghouls, employed by the onopolistic press to distort facts and misrepresent the workmen. The plains of California, said he, are strewn with the carcasses of public plunderers. We did not want or ask for public sympathy, nor do we want it now. We want liberty and liberty we will have though the midnight skies and hell itself overflow with the corpses of the robbers. Workmen here can accomplish all that we have done in California by organizing and pooling their issues. We will first pull down and then upon the ruins build up a political party that will once more raise the flag of our country over a land of liberty. Kearney closed with the expression of a belief that the guttering of thunder is heard in the air, that the leaves of the forest whisper to us of the desolation approaching and that when the tornado bursts over the land, perjured judges, pirates and cutthroats, bank stock owners would have a tough time to get along on this side of the river.

NEW YORK, Aug 19.—The Herald's Indianapolis special says Kearney was advertised to speak as the "Patrick Henry" of California, and says he is rapidly finding his level.

The World says editorially: "If citizen Kearney were to die this week his obituary notices would not be nearly so long as they would have been had he perished on his way east."

In many parts of rural England there prevails a curious notion that bread filled with quicksilver and thrown into water will indicate the spot where a body is lying. The annual register for 1707 records a case where a loaf thus filled "suddenly tacked about and swam across the river," where the body was found.

A stroller in Vermont lately discovered two fine bouquets on Charles Dickens' grave, together a much more touching tribute—a little posy of wild flowers, which bore evidence of long distance and hot, unglowed hands, just what Dickens below would be pleased to have placed on his tomb perhaps by unknown "Little Nell."

"I wish to be a friend of the friendless, a widow to the widowless, and a father to the fatherless," said a shining speaker at a recent revival meeting.

Gambling in Nevada:

This is a terrible place for gambling, Faro is the favorite game, but for those who like it there is also poker (unlimited), keno, sixty-six and euchre. One man had a marvellous slice of luck. He started in to play Faro. He played thirty-two hours without stopping or sleeping, and eating a hasty bite as he played. Lost \$11,000 in that time, was nearly broke, being left with but \$20 or so, which he staked. He was so exhausted that he fell asleep, and yet so excited was the brain that he continued automatically to play, knowing nothing. By this time there was a crowd around. Well, he actually won back all he had lost and about \$18,000 besides. He would probably have continued on playing, but he burst the bank. It was only then that the spectators discovered he had been sleeping. Eye witnesses state that when he was awakened he was the most astonished man they ever saw, though he managed to walk off quite comfortable with \$28,000.

One more little episode and I am done. As I walked along the streets I noticed large numbers of men with wounded ears—some in one stage; others healing, some carefully plastered others again with only a little bit of ear, some actually not a vestige left. It appears that what is called ear chewing is a common occurrence. One miner gets to playing cards with another; as the gambling goes on the excitement increases; a little dispute arises, and, presto, before anyone can interfere one springs on another and goes for his ear. If he is a powerful man, with good teeth and strong muscles, he sometimes bites the ear right off, and unconcernedly spits it on the floor. More frequently, though he contents himself with simply chewing at it until some bystanders just pull him off. In more serious rows the bowie knife and revolver still reign supreme. The lowie knife is carried in the boot leg, and the revolver slung outside, in full view around the waist. With all this, I must say I like the people. They are rough but thoroughly good tempered, and a reckless bonhomie I admire.—Virginia City Letter, to St. Louis Republican.

King Alfonso is said to have said to some one recently. "I am not one of those who go away. I shall die on the throne, be it of a natural or violent death," which recalls the anecdote of some years ago. When Queen Isabella and her son first sought an asylum in France, one day at Biarritz, where the emperor and empress had gone to welcome them, the prince imperial suddenly said to his father: "Where are they going?" "Who?" enquired the emperor. "The queen of Spain and little Alfonso." "They are going into exile, my son." "Where is exile?" inquired the little prince. The emperor paused for a moment, then smiled and answered in the way grown people are so frequently forced to do when children drive them into a corner by some weird question: "You shall have exile explained to you when you are older."

COUNTY COMMISSIONERS PROCEEDINGS.

Board met in the Auditor's office Monday, August 5th, 1878, at 9 o'clock A. M.

Present—M R Maddocks; chairman; Rufus Stearns, Terrence O'Brien and M S Booth, clerk. Inspector and judges were appointed in the several voting precincts, for the ensuing general election in November next, and a place designated in each of said precincts for holding said election. The petition of J C O'Connor and 67 others, praying for the location of a county road from sec 16, tp 25, range 2, 5 east, on the most practicable route to Newcastle, was granted; and viewers and a surveyor appointed.

The petition of L C Harmon and 15 others, praying for a reduction of the liquor licenses in Seattle precinct was rejected.

The petition of D H Webster, for a private road was granted, and viewers appointed.

The petition of Mason D Smith and others, praying for a bridge to be built across White river, near its junction with Green river was granted, and W S Cooper appointed to superintend the letting and building of said bridge as required by law.

E S Ingraham, school superintendent, appeared before the board with his record, containing the boundaries of school districts in the county, and the board ordered that the auditor copy said boundaries into the commissioners record.

A new school district was formed out of districts No. 5 and 6, to take effect, September 1st, 1878.

Board granted 9 grocery or lager beer licenses, 4 wholesale and 19 retail liquor licenses to sundry persons, conditioned that they give bonds, and pay money into the county treasurer as required by law.

Board accepted the plan or draft offered by John Knox for a bridge to be built across White river, near its junction with Green river.

In settlement with county treasurer; M R Maddocks, president of the board, having been suddenly called away from his duties, by sickness in his family, Terrence O'Brien was allowed to call to his assistance in the completion of said settlement, John M. Blanchard Esqr., when the board continued said settlement, and authorized the auditor to credit said treasurer with the following items to wit:

County warrants cancelled and destroyed by the board; \$26,441 46; interest on the same, \$1,927 97; endorsements on county warrants, \$3,643 20; treasurers vouchers for money paid for stationary, etc., \$33 10; road warrants cancelled and destroyed by the board, \$4,175 92; interest on the same, \$151 20; endorsement on road warrant No 8, August term 1877, \$289; paid road supervisors as per vouchers, \$714 72; road receipts of supervisors filed in payment of road taxes, \$2,569 12; cash paid Territorial treasurer per vouchers, \$7,885 58; cash paid school clerks and teachers per vouchers, \$9,926 38; special or jail warrants cancelled and destroyed by board, \$4,275 25; interest on the same, \$516 71; endorsement on jail warrants, \$365; treasurers fees; \$2,407 11; delinquent personal property and county poll taxes of 1876, uncollected, \$189 51; delinquent personal property and county road poll taxes of 1877, uncollected, \$2,575 89; delinquent road poll and road property taxes of 1877, uncollected, \$1,895 79; errors and double assessments found in tax roll of 1877, \$827 30; lands sold to county at last tax sale; \$2,286 10.

Board authorized the auditor to charge the treasurer with \$97.51, the same being the amount of interest collected by said treasurer on delinquent personal and real estate taxes of 1877, as per sworn statement.

The Board, in comparing the books and vouchers of the treasurer and auditor, found that in September and October, 1877, E. Champoux and Kate A. May, redeemed from the treasury, property that had been sold to the county for taxes and that they had failed to file their duplicate receipts with the auditor, whereupon, the Board ordered the treasurer to issue triplicate receipts for said property, and file the same with the auditor, and that the auditor charge said treasurer, with the amount of said receipts, as required by law.

The Board, after having given the auditor an opportunity to make the foregoing entries as directed by them, examined the books of the treasurer and auditor and carefully compared the entries in the same, and found said books and entries correct and satisfactory; the credit balances of the several fund accounts on each set of books agreeing with the debtor balance of the general account, and the balances in the several accounts as kept by the treasurer, agreeing with the balances in the accounts as kept by the auditor; both sets of books having been kept in a neat and orderly manner.

The amount of money on hand in the treasury, July 1st, 1878, shown by the Auditor's books, was \$4,937.36. The amount of money charged to the treasurer, since June 30th, and including August 17th, 1878, as shown by the Auditor's books, was found to be \$3,571.29. The Board counted the amount in the treasury and examined the vouchers of the treasurer, filed since the 30th of June, 1878, and found the two to aggregate the amount in the treasury July 1st, 1878, and the amount charged to the treasurer since and including that date, as shown by the books of the auditor.

Board granted the application of Richard Jeffs for a private road from the old Kidd House to said Jeffs' land appointed John M. Thomas, James Brannan and Mason D. Smith viewers, to meet on the 26th of August, 1878, to locate said road according to law.

Board accepted the report of Julius Lange, et al., viewers appointed to locate a road commencing near the SW corner of sec. 28, tp. 26, R 5 E., and running to connect with the Seattle and Snoqualmie road, in sec. 9, same township, declared said road a county road and ordered the same opened according to law. Board authorized the auditor to notify W. W. Perrigo, supervisor of road district No. 6, to repair the two bridges situated between the house of John Perry and the claim of Miles Merritt, on the county road leading from Lake Washington to Tolt, on the Snoqualmie river, L. McRedmond having represented to the Board that said bridges were unsafe for public use.

The Board, upon the statement of Saul Grant and O. Washburn, Frank McClellan and D. A. Neely were not disinterested viewers in the matter of a private road for D. H. Webster, rescinded their appointments and appointed in their place Patrick Hays, Henry McCabe and E. C. Shinn, to meet on the 2d day of October, 1878, and locate said private road according to law.

Board authorized the auditor to notify W. H. White, Esqr., to take the necessary steps to secure a clear title to what is known as the county farm.

Board authorized the auditor to fill out the necessary papers, as required by law, in reference to the "succession tax" on the county farm, in the John Thompson case, and forward said papers to the collector of internal revenue, at Olympia, W. T.

The petition of C. Clymer, to be set off from School District No. 2, and the bills of Schwabacher Bros. & Co., Chas McDonald, S. P. Andrews & Co., Territory vs, William Duffy, and Henry Jackson, were laid over.

Terrence O'Brien presented the following statement; which he desired placed on record, viz: "I wish to place on record that my reason for asking for an assistant to the Board of Commissioners in the settlement with the treasurer is that the full board not being present, I had not sufficient confidence in my colleague to lead me to believe that a just or equitable settlement would be arrived at without doing so."

Board approved the grocery and liquor licenses of each person who had paid their money into the Treasury and presented their bond as required by law.

Board allowed bills on the county fund in the sum of \$2,519.98, and on the road fund for the county in the sum of \$741.71.

H. H. Miller was granted a renewal of his ferry lease on the lower Duwamish river for the period of five years.

Board granted 7 billiard, 4 pigeon-hole table licenses.

Board adjourned sine die.

M. S. BOOTH, Clerk. Aug. 19, 1878.

COUNCIL PROCEEDINGS.

SEATTLE, Aug. 15, 1878

The Common Council met pursuant to adjournment.

Mayor Brown in the chair.

Councilmen present—Messrs. Denny, Murphy, Miller, Baxter, Chilberg; Clancy and Abrams.

Minutes of previous meeting read and approved.

The Mayor submitted the following: Gentlemen of the Council:

Herewith, I return to you for your further consideration the bill of John J. McGillvra, Esqr., which, on motion, was ordered to be paid by vote of this Council on the 15th inst. By section 28, of the City Charter, I find that the power and authority given to the municipal corporation, is vested in the Mayor and Common Council of the City of Seattle, together with such other officers as the article of incorporation mentions or authorizes to be created. By section 63 of the charter, I find that all demands and accounts against the city must be presented to the Clerk, with necessary evidence in support thereof; such demands and account must be submitted to the Council of the city, and the council shall, by a vote, direct whether the same shall be paid or any part thereof. By section 65 of the charter, it is determined that when the Council orders any demand or account to be paid, if money has been appropriated for that purpose, and not other-

wise, the Clerk must draw a warrant upon the treasury for the amount ordered paid, and such warrant must be drawn on a general or special fund appropriated therefor. By section 92 of the charter, I find that the City of Seattle is not bound by any contract or in any way liable thereon, unless the same is authorized by city ordinance, or made in writing by order of the Council, signed by the Clerk or some other person on behalf of the city, and I also find that by section 94 of the charter that no money shall be drawn from the treasury but in pursuance of an appropriation for that purpose, made by ordinance. In this case, I find that no ordinance, save an ordinance under sec. 61. of the City Charter, has been made for the payment of the claim under which this account is presented. The section 61 referred to provides for the payment to the City Attorney of a salary to be prescribed by ordinance under section 27 of the charter. The ordinance under this section prescribes \$300 a year for the City Attorney. Section 61 prescribes his duty to be that he shall represent all suits and proceedings in which the city is legally interested, and give his opinion in writing concerning any matter, when required by the Mayor or Council. So much of the account as relates to his salary under such ordinance, is a proper claim and ought to be paid. No appropriation has been made for the remainder of the bill, and under section 64 I could not sign any warrant drawn for his services as Attorney of the city in excess of the amount allowed by ordinance. I believe, however, from an examination of the bill, that the further sum of \$16 as necessary expenses incurred by him over and above his services as City Attorney, is a just charge against the city, and should be provided for by ordinance. The sum of \$25 in the case of the City of Seattle vs. Geo. D. Hill, and the sum of \$100 in the case of the City of Seattle vs. H. L. Yesler ere fees for services which he was bound to render to the City of Seattle under his engagement as under the ordinance provided by section 61.

Respectfully Submitted, BERIAH BROWN, Mayor.

On motion the subject of the message was postponed. The committee appointed to negotiate the purchase of a steam fire engine made a report in writing, which was on motion accepted and placed on file; and the City Attorney was ordered to draw up suitable ordinances and contract for the same, in accordance with said report.

The Finance Committee made a report in writing on the petition of Daniel Bagley, which was referred to them, and, on motion, the report was received and filed and the matter referred to the City Attorney.

Ordinance No. 50, regulating the compensation of the several city officers, coming up for its passage, it was read by sections and on motion passed by the Council.

The City Attorney was instructed to draw an ordinance for the grading of Commercial Street, between Washington Street and the bay.

THE CITY

From the Daily of Friday.

COLONIZATION SCHEME.—In the San Francisco Post of the 17th note the following paragraph: "A number of Scandinavians met last evening at Bonanza Hall, No. 869 Market street, for the purpose of organizing a Danish colony in Washington Territory and select a suitable tract of arable land for the colony. About 16,000 acres will be required. Great care will be taken to admit none but honest and industrious men. Other meetings will be held, and the roll will be kept open for signatures. Those of Danish origin will be preferred, although nobody will be debarred on account of race.

SUICIDE.—A man who has been at work at the Tacoma machine shop, having been on a spree and about tapering down, went to a drug store and procured some laudanum, asking particularly how to use it in case of nervousness. Wednesday evening he was found dead at his cabin, as the bottle was drained and found by his side.

FARMING LANDS.—Mr. Thompson and Stetson have just returned from Stanwood, Skagit and Swinomish. They report that the grain crop did not average so much to the acre this year as last, owing to the salt water overflow last spring. They found some good land lying between the Skagit and Samish, which at an outlay of about \$5,000 dollars in making a dike to keep it from overflowing, would settle at least 25 farmers of 160 acres each.

STEAM LAUNCH.—The new steam launch at Port Madison, owned by Doctor Morgan, will soon be in running order.

STEAM FIRE ENGINE.—The City Council, last evening authorized the Mayor to enter into a contract for the purchase of a No. 3 Steam Fire Engine for the city. The terms have been agreed upon and the contract will be perfected this evening. The cost of the engine will be \$3,500, with transportation added. The agreement is, to pay one-third upon delivery of the engine in satisfactory working order; one-third on the first of January, 1881, and the balance in one year from that date.

JUDGE FIELD, of the U. S. Supreme Court, wife and sister-in-law, are passengers on the Dakota due here on the 25th. The Judge is on his way to hold Circuit court at Portland.

STILL AT LARGE.—The desperadoes who committed the burglary and murder at Portland, on Tuesday last, were yet at large at last accounts. The city council has offered a reward of \$1,000 for their capture and expert scouts are on their trail. Many believe that the notorious Schultz, who recently escaped from the Oregon penitentiary, is one of them.

DIED.—Mr. Frank Kimball, who was injured on the 5th of this month, at Newcastle, breathed his last this morning at half-past 7 o'clock. Since night before last he has been delirious; before that, he said he was going to get well, and his friends had strong hopes that he would recover. Frank was a young man that made friends wherever he went, and no event has cast in this community such a gloom among associates, as his untimely death. The funeral services will be held in the Presbyterian church to-morrow at 2 o'clock P. M.

GONE BELOW.—J. Frauenthal of the firm of Frauenthal Bros., left on the last steamer for San Francisco, to purchase goods.

REMOVED.—Johnny Jamieson has removed his jewelry store into the front part of Peasey's barber shop on Commercial street.

The Japanese, instead of spending their money in listening to a long sermon, are listening to a temple priest performing a prayer in a printed prayer book, and go about with a self-satisfied

The Tidal Wave will sail for the Sound on the 30th, the Excelsior on the 25th, and the Modoc sailed for this port on Wednesday. The barks Montana and Oakland are taking on goods for the Sound and will sail as soon as loaded. The ship Shirley sailed for Tacoma and the bark Gem of the Ocean arrived at Frisco on Tuesday. Ship Dauntless arrived at Port Townsend last Monday and will load lumber at Seabeck for Calao.

CAPT. GOVES new steamer, the Gem, has her boiler and engine in and connections being made. He expects to have her running in about three days. The locomotive A. A. Denny is now being overhauled at the engine house. Her driving wheels are to be taken out and three smaller ones put in, also larger cylinders, which will give her more power and less speed.

IMPROVEMENT.—Hall & Paulson are planking the gap between railroad track and their factory where old man Cochran and horses fell in and were drowned. Directly opposite on this side of the track is another dead fall and should be looked to by the city authorities.

JAKE Beer, who keeps the cigar stand on Commercial street left last night for Portland to be married, so says Aubert.

BARGAIN.—All parties wishing to get a good bargain, would do well to call at this office, or on Jos. Symonds of the Seattle race track. Fourteen acres of fine garden land, cleared and under fence on the Duwamish River, and about one mile from the E. & W. W. R. R., is offered for sale. See advertisement in another column.

STEELE'S PAIN ERADICATOR.

The Most Wonderful Discovery of the Age.

The World moves, and unless we Progress we must go Backward, Nothing remains Stationary.

In offering this medicine it is not intended to deceive the people as a cure for every complaint on earth; but a really scientific article of the greatest merit...

Rheumatism, Lameness, Neuralgia, Swelling, Contracted Cords, Gout, Contracted Muscles, Cuts, Stiff Joints, Sores, Sore Throat, Sprains, Iame Back, Bruises, Diarrhea, Cramps, Headache, Colic, Faceache, Burn and Scalds, Earache, Inflammation of the Kidneys,

And all Nervous and Inflammatory Aches and Pains.

Dr. Steele, who has for years been in the Proprietary Medicine business, and who has visited in various parts of the world in search of information, has great confidence in the ERADICATOR as the "No Plus Ultra" of safe, sure and reliable remedies for general use as a Family Doctor.

Provide yourself with a bottle without delay, as you will always keep it in the family and save money. Don't put off with some other preparation. Take only STEELE'S PAIN ERADICATOR. We can produce thousands of testimonials as to the cures made; but a trial will prove to the most skeptical that it is truly an Eradicator of Pains, aches and Inflammations. It has been, and is now, constantly used by horsemen as a Liniment, and has saved more valuable property of that kind than any other preparation. Take pains to see that you get the genuine.

Put up in large bottles, and for sale by druggists and dealers. If you happen to be in a locality where STEELE'S PAIN ERADICATOR cannot be obtained, send to the wholesale druggist, or to the Agents,
