FROM DAILY OF THURSDAY.

Snohomish Correspondence.

EDITOR DISPATCH.—Since last week, John Batt, carpenter and builder of this town, having completed the dwelling of J. D. Morgan, has commenced the erection of a cottage for Mr. F. Foss of Ely Slough. He has several buildings under contract. So has Mr. Wabe, another contractor here. A new school house and the Atheneum building will go up this fall. We are progressing. Times are better than ever before for the last two years.

Last Wednesday, the Fanny Lake brought ten families to this place and more are still coming. They are only the advance guard of a large colony, already located on Snoqualmie. There are mechanics and artisans among them of every description and they will be independent and self sustaining from the start. The people of the Snohomish, without exception, rejoice at their arrival. They make the best of citizens. There is room for many more such colonies. We have tide and marsh lands to be redeemed, as well as cottonwood, vine maple and alder bottom lands to be cleared and saljugated to the plough.

The Agricultural Society of Snohomish County met yesterday to complete arrangements for the coming agricultural fair. The various committees were appointed, preliminary steps taken to prepare the grounds, arrangements for the reception and care of stock, etc., were completed and the members went home determined to do their best for a good show and a good time. All the world is invited. Persons resident of other counties will be invited to contribute. Aug. 20th, 1875.

SHOOTING SCRAPE.—A couple of Germans, after drinking freely all forenoon, got into a dispute yesterday in one of the down town saloons. It was apparently amicably settled and they went off together. In the course of the afternoon they put in an appearance at John Pinnell's, where the dispute was renewed. Abusive language was used on both sides and several times they tried to fight, but were separated. Finally one of them drew a small revolver and fired at the other but without effect, the slug striking him in a slanting manner and lodging in the lapel of his coat. The pistol was immediately wrested by the barkeeper from the assailant, tearing his finger in the guard during the struggle. No arrests made. The man that did the shooting bears a rather bad name, having but recently been released from jail in Olympia.

FROM SEBOME.—The steamer J. B. Libby arrived here last night from Bellingham Bay and way ports, bringing up a large number of passengers and a small amount of freight, consisting mainly of vegetables. She reports that the bark Amethyst arrived at Sebome on Tuesday and is now loading. A heavy rain on Saturday and Sunday did great damage to the uncut grain.

HOMESTEAD ASSOCIATION.—The articles of incorporation of the Seattle Homestead Association were filed at the Auditor's office to-day. The capital stock of the Association is \$25,000 and the principal place of business Seattle, W. T. Object, purchase of real estate, subdivision and sale of the same. The capital stock is divided into 25 shares, at \$1,000 a share.

SWINOMISH.—Our La Conner correspondent writes us that harvesting has begun and business of all kinds is rushing. He is being so crowded by work that he had not time for a more lengthy communication, but promises one next week.

REAL ESTATE.—The following deeds were filed to-day for record:
John and Jane Percy, of San Francisco, Cal., to Samuel Kenney, lots 5 and 8, in block 30, Boren's addition to Seattle; \$600.

NEW SCOW.—Work has been commenced on another scow at Hammond's ship-yard.

FOUND GUILTY.—The trial of Benjamin Sprague, indicted for selling whiskey to Indians, took place to-day and resulted in the jury's finding a verdict of guilty.

The new jail has for occupants two Indians, witnesses in the case of the Territory vs. Sprague.

The barkentine Ella arrived at Freeport this morning.

The three-masted schooner T. S. Williams, arrived at Port Blakely this morning.

OYSTERS.—Piper has now, in his confectionary saloon, adjoining the telegraph office, the first oysters of the season. He serves them up in first-class shape. Try them.

FROM DAILY OF FRIDAY.
The Eliza Anderson is on the gridiron below Woodward's warehouse, repairing.

The steamer Fanny Lake returned last night from Snohomish. She goes up the river to-day after a load of hay.

POLICE COURT.—Before Justice Scott, Territory of Washington vs. Jas. McElroy, for assault and battery. Case dismissed.

The schooner Lovett Peacock, having finished unloading freight, is now anchored out from the wharf and loading Renton coal from scows.

The bark Lizzie Williams has in her cargo of Seattle coal and has hauled out from the wharf. Her place was taken by the bark Gem of the Ocean.

Owing to the number of passengers that arrived here yesterday by the various steamers, all the hotels are crowded to their fullest capacity.

ASSURANCE AGENT.—Col. S. F. Coombs of this city has been appointed the resident agent of the London Assurance Corporation, a company that has been in existence for 153. A good appointment.

REAL ESTATE SALES.—Annie M. Conner, of La Conner, Whatcom County, W. T., to Lamar L. Andrews, of the same place, lots 6, 7 and 32, block 28; and lots 1 and 2, block 23, northern addition to Seattle; \$165.

The Pacific returned from Tacoma this afternoon at 3 o'clock. She took on board at Tacoma 35 passengers, 22 of them from Portland, 100 bales of wool, 60 bales of cottonwood bolts and 15 cords of hops.

The steamer Pacific takes down to San Francisco, this trip, 60 cords of cottonwood bolts from Tacoma, and 20 cords from here about 100 tons of Talbot coal. This coal is now considered by good judges to be the best for steam purposes, on the coast.

FROM SAN FRANCISCO TO PORTLAND.—The cheapest and best route from San Francisco to Portland is now by way of the Sound. The fare from San Francisco to Seattle is \$12; from Seattle to Portland \$7; a total of \$25. By the direct route from San Francisco to Portland the fare is \$35; making a difference in favor of the Sound route of \$15. Such a large difference cannot fail to attract to this route a large share of the passengers between San Francisco and Portland, for besides the money saved, passengers will have an opportunity to make a short visit to the Sound and Victoria. The difference in the freight rates is still more marked.

STEAMER PACIFIC.—The steamer Pacific arrived here at 8 p. m. yesterday, with the following passengers for Victoria: cabin, 43; steerage, 10; cabin and steerage for Seattle, 58; cabin and steerage to Tacoma, 35. She had 41 tons of freight for this place and 100 tons for up-Sound ports. The following is her list for this place:
A. C. Anderson, 9; A. S. Pinkham, 11; Beriah Brown, 1; C. Anderson, 9; Clark & Alcon, 24; Crawford & Harrington, 1; E. Meeker, 1; G. O. Haller, Coppelle, 1; G. A. Meigs, 3; H. E. Dunning, 9; Hall & Graves, 1; Hovey & Barker, 2; H. Jones,

5; J. A. McPhee, 1; J. M. Colman, 1; John Sullivan, 48; J. Collins, 1; J. F. & T. Wilson, 16; J. F. Morrill, 12; Mrs. A. D. Blackman, 2; M. R. Maddocks, 15; M. A. Kelly, 11; M. E. Frazer, 2; M. Stuart, 1; M. Schmieg, 91; P. S. 1; Pike & Shouly, 10; Rev. G. F. Whitworth, 1; R. J. Moore, 2; Stuart Critton, 7; Schwabacher Bros. & Co., 294; S. P. Andrews, 19; Taylor & Melvin, 1; T. H. Sholey, 4; Wm. Melvin, 2; W. C., 88; W. McC., 18; Waddell & Miles, 20. She sailed for Tacoma at 11 o'clock last night.

OIL PAINTINGS.—Attention is called to the advertisement of S. F. Coombs & Co. in another column, in regard to the sale of oil paintings. This is a good opportunity for persons with a love of art obtain some first-class paintings at a reasonable rate. The paintings may be inspected at the firm's salesrooms on first street, opposite the telegraph office.

FROM DAILY OF SATURDAY.
Council Proceedings.
Seattle, W. T., Aug. 27th, 1875.

Special meeting met in pursuance to adjournment. Council called to order by Mayor Gatzert. Roll called and present, Councilmen, J. Hall, Murphy, Waddell, Robbins, Sells, G. Hall, Leary, Marshal Wyckoff and City Attorney, G. N. McConaha. Minutes of last meeting read and accepted after an amendment.

The City Attorney reported in the matter of the Gas Tax as was decided by the Hon. J. R. Lewis in favor of the restraining order on the collection of the same. The matter of drafting a new ordinance to cure the defect of Ordinance No. 76, was deemed by the Council useless, considering the late decision in the matter. After remarks of Councilman Leary in relation to the report of the City Attorney and general discussion by Council on the same, a motion by Waddell seconded by Sells was put and carried for the appointment of a committee of three and the City Attorney be one of the number for the purpose of drafting an amendment to our present charter for the next Legislature and report the same to Council as soon as practical. The Mayor appointed J. R. Robbins, I. Waddell and G. N. McConaha.

The following motions were made and carried:
Moved by Waddell, seconded by Robbins, that the City Attorney examine the matter of closing the alley in block No. 6, Boren's addition to the City of Seattle, and report whether Dexter Horton had or has a legal right to keep the said alley closed.
Moved by Leary seconded by Waddell that the City Attorney examine the matter of the appropriation of the street leading to the University from 3rd street by Dexter Horton, and report to Council at the next regular meeting.
Moved by J. Hall, seconded by Sells, that the Clerk be instructed to search the records thoroughly and ascertain whether there is any ordinance prohibiting parties from obstructing streets and alleys and if there be none to draft an ordinance and bring it before the next meeting.
Moved by Leary, seconded by G. Hall, that the City Attorney examine the matter of the obstruction in the public slip at the west end of Washington street, whether the said obstructions are illegal and whether the city has power to remove the same, and report at the next regular meeting.
Moved by J. Hall, seconded by Robbins, that the City Attorney be instructed to investigate what rights the City has in the government lands within the limits of the city and which have been filed upon by private parties, and report as soon as possible.
Moved by Waddell, seconded by G. Hall that there be by the fire committee, five cisterns located, ascertain their probable cost and estimate their size and report at the next regular meeting.
Moved by Waddell, seconded by Leary, that the Marshal be instructed to rent the Sing Verein Rooms at ten dollars per month and remove the furniture of the Council forthwith to said rooms.
Moved by Waddell, seconded by Leary, that the Gas Company be instructed to furnish gas for ten lights for the City.
That there be two lamp posts set—one at the east mill on Hill street and the other on the north-east corner of Third and James. On motion of J. Hall the meeting was adjourned.
HENRY HATHAWAY, City Clerk.

SUICIDE.—Private telegrams received here last night announce that Balston, President of the Bank of California, has committed suicide by blowing out his brains. We expect further particulars when the line gets up.

Snohomish Items.

Aug. 27th, 1875.
Judge R. Haskell, of this place has commenced the erection of a grist mill, six miles above here. The location is favorable and it is hoped by all that the enterprise will prove a success, as the great want of the valley for a long time has been a number one flouring mill. Farmers can raise grain now and find a ready market for it at home. The money sent out of the county for flour and feed will be kept at home, and one of the burdens upon our resources will be removed.

The Yakima brought to town last Monday a Mr. Edwards, a practical boot maker. He has a fine kit of tools and a large stock of leather, and has come to stay. He has taken off his coat, rolled up his sleeves and gone to work. That is the kind of men we want here.

Hon. E. C. Ferguson is laying a set of timbers put on the ground for the purpose of building a large warehouse below his store. The wharf is also to be enlarged. We go slow down here but sure. We are growing a little every day. We shall be a pretty tall community yet. You had better send some of your editors and printing-presses down here. They are getting pretty thick up there at Seattle. Must be crowded some. Plenty of elbow room with us. No danger of a printer's starving here this year. This is the hump back season, and all a hungry editor will have to do is to go along the river bars and lay in a year's supply of grub. Now which of you quill-drivers will come. "Come one," but don't come all.

Most of our celebrities are away from home now, up to Seattle attending court. The sheriff, our lawyer, the constable, in fact nearly all our county officials are out of town. The consequence is, we are having a quiet week. Everybody is happy. No law suits, no arrests, no little unpleasantnesses, but everything is serene. If you can put any of them to a good use, keep them. We are getting along very well without them. Of course their absence creates quite a change. It breaks in upon the monotony of our quiet little town, and gives us a rest; what we all need. Everybody desires their speedy return, but are not particular about their being in a hurry. They can take their own time. Well, good-bye Mr. DISPATCH. More next week.

CORRESPONDENCE.
PORT TOWNSEND Aug. 23rd 1875.
EDRON DISPATCH. This last week has been one of the liveliest Port Townsend has seen for a long time, on account of the Masonic excursion. On Thursday last about eleven o'clock the fine steamer North Pacific appeared at our dock crowded with Masons, their wives, families and friends. Capt. Clancy made a stay here of nearly an hour giving the numerous passengers an opportunity of seeing our town, at the expiration of which time the whistle blew and the steamer started on her way towards "England." The trip across the straits was very pleasant, there being no wind. Excellent vocal music was furnished by Mr. O'Brien, Major Hayden and the members of the Olympia band. We arrived in Victoria in about three hours. You have undoubtedly seen full particulars of the exercises there, in the Victoria papers so I will not speak of them. I returned to this place on the Favorite, the North Pacific arriving about 6 o'clock in the evening. Upon her arrival Col. Nesmith was called for and made a brief speech. He eulogized Grand Master Haller who parted with the excursionists at this port. Major Haller responded with a few well chosen remarks after which the excursionists proceeded on their way up Sound amid the waving of handkerchiefs, the cheers of the crowd and the inspiring strains of the band.

GOOD APPOINTMENT.
Mr. A. F. Learned, the junior partner of the firm of O. S. Fowler & Co. has been appointed Nicaragua Vice Consul at this port. The appointment is a good one and Mr. Learned's numerous friends shower congratulations upon him.

DIORAMA.
We were favored on Saturday evening with one of the best shows of its kind that I have seen on Puget Sound; I refer to Mr. G. H. Potter's Diorama. One of the largest and most select audiences I have seen at Port Townsend attended the show and all were well pleased with their evening's entertainment.

The bark Iconium will finish loading on Tuesday. She takes 475 M. of lumber from Colman's mill.

The steamer Pacific sailed this morning at half past seven. She took from this place 23 passengers and 130 tons of Talbot coal.

AUCTION SALE.

There was an auction sale of the personal effects of the late Jos. Francisco, in front of S. Davis's store, at 10 o'clock this morning. Quite a number of the old friends of Francisco were in attendance on the sale to buy some mementoes of him. Among other things sold was a painting of the United States Hotel, executed by Wm. Fife of this city.

M. E. CHURCH.—Preaching to-morrow at 11, A. M. by Rev. A. G. Fairchild. Sunday school at the close of the morning service. Union revival services and preaching by Rev. Mr. Dunning, at the Brown Church at 7, P. M.

GAS PIPE.—The street is being taken up and gas-pipe laid to Coombs' auction rooms on First street.

EPISCOPAL.—To-morrow being the last Sunday in the month this Church will be open at 7 1/2, P. M., as well as the usual hours of 11, A. M., and 3 1/2, P. M.

REAL ESTATE.—L. L. Stevens to John F. Wenner, lot 15, block 2, in Cove Addition; also lots 3, 4, 5 and 6, in block 21, in North-ern Addition; \$100.

L. S. Stevens to John F. Venner, lots 9, 10, 11, 12, 13, 14, 15, block 2, in Cove Addition to Seattle; \$140.

Although Messrs. Morrill & Morris, produce merchants, have sold their steamer and two scows they are still in business at their old stand. They do their transportation of farm products now by a scow.

The bark Samoset went to sea from Tacoma this morning.

TO BE REPAIRED.—The North Pacific is to be beached at Olympia and undergo some slight repairs. Her place will be temporarily taken by the Alida, which will be down by the usual time with mails. The fare between Sound ports and Victoria is still \$1.00.

MARRIED.—At the residence of the bride's father in this city, Aug. 25, 1875, by Roswell Scott, J. P., Mr. George I. Lambert to Miss Mary H. Weiman.

Marine Intelligence.
VICTORIA, Aug. 25.—Arrived, bargeo Albuera and S. S. Salvador, San Francisco.
PORT BRACKET, Aug. 25.—Arrived, schooner D. S. Williams, San Louis Obispo.

BERIAH BROWN : : : : : EDITOR
Seattle, W. T., Sept. 2, 1875.

SAN FRANCISCO, Aug. 27.—About 5:30 p. m. a closed carriage drove rapidly to the side door of the bank of California. A gentleman jumped out in a state of excitement and ran into the bank. In reply to inquiries the hackman said they had just left the body of Ralston in charge of an officer on the beach near the smelting works, in the northern part of the city, drowned—supposed suicide. Further particulars soon.

LATER—Ralston rode to Selby's smelting works wharf and jumped off the dock.

There is great excitement in the city. The death of Ralston overshadows every other topic. From the best information it appears he went to the sea-bathing establishment at North Beach about 3:25 p. m., undressed, went into the water, swam out about 200 yards, disappeared behind a vessel and soon after the body was found floating by Selby's lead works. He was brought ashore still alive and a physician was summoned, but efforts to resuscitate him failed, and he died at 4:50. Col. Fry, his father-in-law, Mayor Otis and a number of prominent citizens arrived before he expired. Col. Fry and Capt. Lees went to the bathing-house, and obtained Ralston's clothes. In these were found a few dollars and his statement to the bank, but nothing having a tendency to show he suicided. His body was taken to No. 1812 Jackson street, the residence of Col. Fry.

A boy named Festus Mazzelle states that he saw Mr. Ralston before he reached the bath-house. He saw him sit on a clay bank near the smelting works and saw him tear up several papers and throw the scraps in the water. A close search was made for the pieces, but none could be found. He is also reported to have been seen to drink the contents of a phial before going into the water. The general impression is that he took poison before entering the water.

The board of directors of the Bank of California held a meeting to-day and requested Ralston to resign as president and director, which he did.

Ralston's body has been placed in a casket and taken from his house to the residence of Col. Fry. The funeral will take place on Sunday and the inquest to-morrow afternoon.

Of the many theories advanced as to the causes of the failure are the following: Sending money out of the city to buy wheat, locking up coin by other parties, speculations in mining stocks, etc. A statement made by Mr. Ralston will be of interest. Throughout all the public interviews yesterday and to-day Mr. Ralston stated explicitly that the suspension was not owing to any hostile action by adverse parties, and that the best of feeling prevailed between himself and parties who have been credited with the lock-up of coin. At an interview last evening at Mr. Ralston's residence he repeated that assertion in the presence of other parties. As your reporter left the room Ralston followed him into the hall and said: "The statements I have made as to the causes of failure are my statements to the world. As a matter of personal and private information I tell you that this failure is the result of persistent effort for months to break this bank." Under present circumstances your reporter believes it proper to make this public. The streets are still full of people, but the crowd is disposed to be quiet and orderly, though some feeling of uneasiness is evident. Every precaution has been taken by the police department to preserve order, and it is believed the evening will pass off undisturbed.

New York, Aug. 27.—Norvell, the veteran financial editor, said in yesterday's Commercial Advertiser: "There is something of an uneasy feeling, or rather vague suspicion, as to the situation in certain banking quarters here and on the Pacific coast, but on careful inquiry we do not find that anything has yet occurred to justify this concern in the direction indicated." The same authority says to-day, referring to the rumor of Pacific Coast telegraph company: We are afraid that a good many of the Pacific coast dollars will be found stuffed with straw before their five million heeds, twenty-million water works, hundred-million railroads and big bonanzas generally are all settled up. Some of your banks are kites with very long tails, and it would be well for these rich men to pause in the mad career of their fancied prosperity before adding electricity to the movement.

PHILADELPHIA, Aug. 26.—The steamship Ohio, which sailed to day for Liverpool, takes out 2,400 crates of Delaware peaches. The steerage of the ship has been turned into refrigerators and provided with fans for keeping up a constant current of cold air. This is the first venture of the kind.

WASHINGTON, Aug. 26.—No information has yet been received here in regard to the action by the U. S. steamer Congress and Hartford sent to Tripoli to demand reparation for the insult offered to the American consul and his wife. Negotiations are being conducted by Capt. English. Should the Tripolitan authorities refuse to make reparation upon his demand, Rear Admiral Worden, of the European station, will be directed to proceed to Tripoli with all his force and there await instructions.

New York, Aug. 27.—The agency of the bank of California here had paid a large sum of money due Robt. McLane before receiving the order to stop payment.

Editorially commenting on the failure of the Bank of California the Evening Post says: Had the bank followed a legitimate banking business, its strength might have been as enduring as time, but its failure shows that even the strongest must conform to laws which experience has prescribed or must submit to the inevitable penalties which follow a departure from them. The Bank of California has simply abused its credit, and has been overtaken by the consequences. Losses in the Eastern states will be chiefly by reason of the purchase of sterling bills of the bank. There will be limited to unaccepted bills which the bank drew on the Bank strength. Bills of the Bank of California were prime in San Francisco and rated next to prime in this market. The failure of the bank will probably be used by inflationists as an illustration, showing that there can be financial disasters where the currency is hard money.

VICTORIA, Aug. 28.—Lenze Gorham, the second officer of the S. S. Salvador, now in this port, committed suicide by drowning himself at an early hour this morning. The unfortunate man supposed he had lost three thousand dollars through the failure of the Bank of California, which so depressed his spirits that he determined to end his life. His body was recovered and buried at noon to-day.

ALBANY, N. Y., Aug. 26.—Geo. D. Lord, Jr., one of the Canal King and an ex member of the legislature was arrested in Rochester and brought here on charge of bribery in procuring legislation for the payment of \$60,000 to a contractor in 1871. He was bailed in \$15,000 dollars.

TRENTON, Aug. 26.—A warrant has been issued for the arrest of Josephus Savoy, Jr., State Treasurer, charged with embezzling \$50,000.

ST. LOUIS, Aug. 27.—Reports from 160 points in Arkansas, West Tennessee and Northern Mississippi show that the crop prospects are of the most gratifying character.

NEW YORK, Aug. 27.—Committees of the Western Union and Atlantic & Pacific Telegraph Companies, it is reported have come to an agreement to-day by which the latter company will be purchased by the former. The terms of the agreement are said to be a guarantee of the shareholders of the latter company of seven per cent on a capital of \$21,500,000 or 25 per cent of the capital stock of the company. These terms only await the approval of the directors of both companies to complete the negotiations.

It is reported that Gen. Butler is retained as counsel for Tilton in this second suit against Beecher.

BUFFALO, Aug. 27.—The large four-masted steamship Persian, from Chicago to Buffalo, to-day with 50,000 bushels of corn and 15,000 bushels of wheat is reported burning rapidly ten miles east of Long Point, Lake Erie, last night, and will probably be a total loss. Grain insured.

The propeller Persian cost \$125,000 when she came out last August. Her registered tonnage was 1,630 tons. She was the largest propeller on the lakes except the Commodore.

NEW YORK, Aug. 28.—The new post-office is now in active operation. Business will be removed from the old building at 10 o'clock to-night.

JACKSON, Miss., Aug. 28.—The Mississippi Republican State Convention continued in session till 4 o'clock this morning. The proceedings were not harmonious nor enthusiastic, and at one time they were positively disgraceful. The platform contains nothing.

PHILADELPHIA, Aug. 29.—The Mayor of Trenton with a city officer arrived here to-day and arrested Savoy, the alleged defaulting State Treasurer of New Jersey. He was taken to Trenton. He made no objections and said his accounts would be found correct.

MONTREAL, Aug. 29.—Fourteen city dry goods firms have been compelled to arrange with their creditors the past week.

NEW YORK, Aug. 27.—The Evening Commercial says there is not much change apparent from the Pacific Coast trouble. There is a large amount of joint account or partnership business in merchandise done between this market and San Francisco, which, for the time may be inconvenient by curtailment of banking facilities in San Francisco, but nothing serious so far as we are advised, is likely to come of this trouble.

Dispatches from Europe state that Mr. Wade, British Minister at Peking, has asked the Government to reinforce the British troops in China, as in intercourse with officials at Peking he has been treated with studied insolence. The demands he has made for the murder of Margary have been treated with contempt.

NEW YORK, Aug. 28.—A London dispatch says that the President of the Oriental Bank of London, agents for the Bank of California, states that the failure will in no way affect his institution.

LONDON, Aug. 27.—The Central News Agency states on authority that communications have been received from the British Minister at Peking complaining of the manner in which he has been treated by the Chinese Government since the Burmah affair, and reports as

to the seriousness of the trouble are highly colored and exaggerated.

Foreign officials announce that rumors of serious complications with the Chinese Government are exaggerated. The English Minister to China has complained of a difficulty having arisen with that Government, but, though embarrassing, it is not alarming and it is now believed it will be speedily arranged.

SAN FRANCISCO, Aug. 28.—The trustees of the Bank of California adjourned this evening after a protracted session to meet Monday, and attend the funeral of Ralston in a body. They will resume session Tuesday. Inquiry develops the fact that as yet the various manufacturing enterprises in the City, in which Ralston is interested show no signs of weakness. Coin is being transferred during the day from the U. S. Treasury, and though no loans can yet be obtained, money is easier. Real estate dealers say the effect on that branch of business will be rather beneficial than otherwise. Prices have been maintained.

The general impression since the partially completed inquest on the body of Ralston is opposed to the suicide theory. Funeral of Ralston postponed till Monday.

The inquest is now being held on the body of Ralston. It is not thought that his death will complicate bank affairs at all, but will probably delay statements somewhat.

WASHINGTON, Aug. 29.—The Assistant Treasurer at New York is directed to sell four millions of gold in September.

SAN FRANCISCO, Aug. 29.—The City has resumed its wonted quiet. The excitement of the last few days has died away and a general feeling of confidence seems to have followed. In banking circles no concern is apparently felt. Secretary of Merchants Exchange Bank states that the bank will resume in the morning without doubt. The National Gold Bank Trust Company reported favorable progress but will not open for several days yet.

SAN FRANCISCO, Aug. 30.—A number of cases are reported to-day in which commercial papers have gone to protest, in some instances on prominent firms, but no disposition is shown to take any action on protests or push endorsements. In a majority of cases notes have been partially paid and renewed.

At the request of the Comptroller of the Currency, at Washington, Dr. Linderman, Director General of the United States Mint in this city, has made a thorough examination of the books and assets of the National Gold Bank and Trust Company, and found everything in a satisfactory condition and will report the same to the Comptroller. The bank will be left free by the Government to manage its own affairs.

There is a rumor on the street to-day of a large over-issue of stock by the Bank of California. It is also rumored that collateral securities have mysteriously disappeared, the only sign of them left being the envelopes in which they were sealed at the time of the deposit. The envelopes, on examination, were found to contain worthless paper. D. O. Mills, in an interview, this afternoon, stated that he knew of no such over-issue or disappearance of collaterals.

The inquest in the case of Ralston will be resumed to-morrow. The stomach has been subjected to a clerical analysis.

The feeling to-day is cheerful among business men. Collection day has caused no failures.

The London & San Francisco Bank bought exchange from prominent grain merchants during the day to large amounts and many dealers have paid amounts not due until next collection day to assist those who are short.

LATER—Sharon is credited with the statement that unless something unforeseen turns up the Directors of the Bank of California will make no statement, but the bank will resume business. An attorney stated in the rooms of the bar association to-day that one of the directors of the Bank of California informed him that the affairs of the bank were in a much better condition than he anticipated when the directors commenced their examination.

By eight o'clock this morning crowds began to gather near the residence of Col. J. D. Fry, where the remains of Mr. Ralston were lying. At half-past ten the coffin was carried to the hearse by the clerks of the Bank of California. The casket was covered with floral offerings. The carriages then took up their positions and the cortege moved down Jackson Street to Van Ness Avenue thence to Sutter, to Mason, to Geary, thence to Calvary Church. All along the route, sidewalks were lined with people. In the vicinity of the church several blocks swarmed with people, rendering it difficult for the procession to reach the church. It is estimated that 20,000 people were present. The several regiments and companies of the National Guard, civil organizations and other orders formed a line and paid appropriate honor to the remains as they were borne from the hearse. At the opening of the doors the church was soon packed to its utmost capacity, most of those present being ladies. At a quarter past eleven the organ commenced playing Mozart's requiem and directly the coffin was borne in, the relatives, pall bearers, bankers, brokers, Odd Fellows, regents and members of the University, Chamber of Commerce, and other bodies filled the centre of the church. After a hymn by the regular choir of the church, Rev. Dr. Hemphill delivered a touching and eloquent fu-

neral address, a prayer and chant followed, when the coffin was borne to the hearse and the procession formed to follow the remains to the cemetery. The 4th Artillery band played the funeral march. The civic display which was very fine was preceded by the workmen in the Palace Hotel, to the number of 450. Citizens not organized followed in thousands, which at every block received a large increase. It looked as though the city had adjourned to the cemetery. The coffin was taken into the vault and deposited on trestles. The Noble Grand of Templar Lodge, I. O. O. F., opened the services of the dead. Mrs. Ralston and her son sat by the body as it lay on the trestles during the ceremony. The crowd seemed to sympathize with her grief. There was none of that curiosity apparent which is generally shown at the funeral of a public man.

NEW YORK, Aug. 30.—At the Stock Exchange prices are lower on account of rumors of an unsettled character respecting the Baltimore interest.

The well known publishing house of Lee & Shepard of Boston, suspended payment on Saturday. This suspension involves the New York firm of Lee, Shepard & Dillingham. Liabilities of the Boston firm will exceed \$330,000. They will probably be able to pay fifty cents on the dollar. New York branch liabilities, \$150,000.

WASHINGTON, Aug. 30.—The rain storm yesterday was very destructive. Thirty houses on Tiber Creek were flooded nine feet deep. The inmates fled to the upper stories for more substantial dwellings from whence they were rescued by rats.

Merchants on Pennsylvania Avenue lost thousands of dollars by the bursting of water into their cellars, from bursting of sewers.

VIENNA, Aug. 30.—Four thousand Persians have entered Turkish territory and encamped at Novi where they have seized the telegraph lines. Bosnian Christians have fled to Austria territory. The whole district from the mountains to Unas is being abandoned by the Christians and devastated by the Turks.

MONTGOMERY, Ala., Aug. 31.—The yellow fever has disappeared at Barrancas. The Mayor has issued a proclamation removing quarantine against Pensacola, as that city is perfectly healthy.

NEW YORK, Aug. 30.—It was reported yesterday that a dispatch had been received stating that the direct cable was repaired and communication between this country and Ireland complete. The agent of this company said a dispatch was received telling him to be on the lookout for the Faraday, she is expected at any moment.

There is evidently some hitch in telegraph consolidation, but the Western Union fall in prices is attributed to the fact that Jay Gould has been pressed by parties calling in loans. At a meeting of the committee of the Western Union and Atlantic and Pacific Telegraph Companies. It is stated that terms were agreed upon, but they are very reticent. The report will be submitted to the Western Union tomorrow for approval.

WASHINGTON, Aug. 31.—The Treasurer to-day transferred \$50,000 gold for the benefit of the Bank of Portland, Oregon, via San Francisco. The Treasurer says this will be the last transfer.

LONDON, Aug. 30.—A special to the Times from Berlin says there is no doubt that all northern Bosnia along the river is in full rebellion, and fugitives have sought safety on Austrian soil, to the number of 8,000, and are mostly wives and children of rebels who have deserted their villages and made for the hills in Herzegovina. The insurrection is fast assuming formidable dimensions. Symptoms of serious designs multiply. Men are yearning for war and oily-tongued diplomacy is impotent to prevent it. This time the insurrection is sure to result in an emancipation.

MONTREAL, Aug. 30.—The report sent hence, relative to numerous failures, appears to have been exaggerated. Only four or five small dry goods houses have assigned during the present week.

SAN FRANCISCO, Aug. 31.—It is being stated about town and generally circulated that the Bank of California will positively resume business. The statement is diligently used here as a factor in the political problem. In answer to a question concerning rumors of fraudulent management on the part of Ralston, a prominent gentleman, one of the directors, replied: "All I can say about that is that Mr. Ralston appropriated funds of the bank largely to his own uses." On being asked if there appeared to be evidence of intentional fraud on Ralston's part he replied: Mr. Ralston got into a snare and used the bank to help himself out.

The Coroner's inquest in the case of Ralston was resumed this afternoon. The report of the physician who made the post mortem examination states that the deceased died of asphyxia. The analysis of the stomach is not yet completed but will be given to the jury on Friday afternoon.

This afternoon an attachment was levied on the real estate of the Bank of California at the instance of Adolph Snierek, for twelve thousand dollars. No intimation of the condition of the bank is yet given by the directors and it is impossible at present to speculate on it with any assurance of correctness. Rumor that Burling Bros., one of the most prominent firms of stock brokers, have failed for two millions. Inquiry

fails to confirm the report. It is true that the firm is effected to the amount of five hundred thousand dollars, but it is believed that they can stand it. A prominent front street merchant in an interview this afternoon gives an encouraging account of affairs among mercantile men. No failures have occurred among them and none anticipated. Brokers also speak hopefully of the condition of affairs.

PORTLAND, Ogn., Sep. 1.—This morning at 1:30 A. M. a fire occurred in the buildings at the corner of First and Alder streets, occupied by Dr. James Gibson's drug store, Ackerman's dollar store, Mrs. Ach's dry goods store and John O'Neil & Co.'s tailor and furnishing store. On account of the situation of the fire it was necessary to fairly flood the building with water before the destroyer could be got at. Water will probably do more damage than fire. Messrs. Ackerman Bros. dollar store will be the heaviest losers. Mrs. Ach will also lose heavily from water principally. O'Neil & Co. will also sustain considerable loss. Dr. Gibson had sustained but little loss. The buildings were owned by J. M. Strowbridge and we understand there is no insurance on them. The total loss to stocks and building cannot fall much below \$20,000 or \$30,000.

SEATTLE, Sept. 1.—The rain storm yesterday was very destructive. Thirty houses on Tiber Creek were flooded nine feet deep. The inmates fled to the upper stories for more substantial dwellings from whence they were rescued by rats.

OFFICIAL PAPER OF THE CITY. Seattle, W. T., Sept. 2, 1875.

From Daily of Monday. The Iconium finishes loading to-morrow.

There are now three steamers a week running to Snohomish City, the Zephyr and Fanny Lake from this place and the Yakima from Port Gamble.

POLICE COURT.—Before Justice Scott. Territory vs. Charles Boshier, drunk and disorderly and malicious mischief. Fined \$5 and costs, amounting to \$14.55.

DIED.—In this city, on the 29th inst., Robert, infant son of Mr. and Mrs. R. J. Moore, aged about two years and a half. The funeral took place to-day at 1 o'clock.

Owing to the numbers of strangers in town—partly immigrants and partly persons in attendance on the District Court, our hotels are crowded and sleeping accommodations are difficult to find.

STONE.—The schooner scow H. C. Page arrived here yesterday with a load of stone for the Seattle bank. She is unloading on Yessler's wharf, back of Stetson's saw-mill.

FOR WHATCOM.—The Libby left at her usual time for Bellingham Bay and way ports this morning. On her return from this trip she will ship her new rudder, which is now lying on Yessler's wharf, seasoning.

DISTRICT COURT.—The trial of Peter Delaney for the murder of Frazier commenced this morning. A jury has been empaneled. It is hardly likely that the case will be concluded to-day.

NEW DAILY.—Mr. Cooke, the publisher of the Olympia Echo, is about to start a daily newspaper. We wish him success in his new enterprise. There is no reason why a good local daily paper should not do well in a town of the size of Olympia.

RACE.—There was a handicap race at the Seattle Race Track yesterday for a purse of \$35.—There were three entries, John Pinnell's horse Confidence and two saddle pligs. Confidence allowed the pligs 100 and 110 yards respectively, and won the race easily.

SNOHOMISH COUNTY FAIR.—We were handed, for publication, a copy of the proceedings of the Snohomish County Agricultural Society in regard to a County Fair. It unfortunately got crowded out by a press of matter that day, and as it has since been published by both of our contemporaries and a synopsis of it by this paper, we deem it useless to reproduce it.

FOR SNOHOMISH.—The steamer Zephyr left at 9 o'clock this morning for Snohomish. Among other passengers she took up some immigrants, who went up to look for a good place to locate. They will probably remain there. Snohomish county is evidently receiving a fair share of the incoming immigration and is settling up fast. There is room for plenty more there yet, though.

Snohomish Items.

EDITOR DISPATCH.—In passing Mukilteo on our way up here, we saw thousands of salmon jumping out of the water in the most festive manner possible, and at Mukilteo the immigrants that came with us were thunder-struck to find that salmon were so cheap—4 for 25 cents. In trading, though, the immigrants were pretty badly stuck for the fisherman gave them all dog salmon.

The navigation of the river is somewhat difficult, owing to the snags, and worse still than the snags are the sleepers or snags that are under water, that make no rattle or showing of any kind until almost directly over them. The scenery along the river is excellent, hardly enough variety to make it interesting. On the banks of the river are numerous settlers—farmers, loggers, and shingle-makers—and curious to the eye of the new-comer are their houses of shingles.

The people of Snohomish county appear to be very enterprising in comparison to those of other places on the Sound. They built a telegraph line from Snohomish City to the mouth of the river, where it connects with the W. U. Tel. Co., a distance of 14 miles, at a cost of \$2,500.

Seattle Bank.

The Seattle bank building is going ahead pretty lively. The foundation has already been laid.

From Daily of Tuesday.

The steamer Zephyr took a large number of passengers to Olympia this morning.

The steamer Fanny Lake went over to Port Blakely this morning.

ELIZA ANDERSON.—The Eliza Anderson goes on Hammond's ways this afternoon. She is leaking considerably.

The steamer Ruby came over here to-day from Port Madison, bringing quite a number of passengers.

ADDITION.—Messrs. Hall and Graves are building a small addition to their furniture factory, in rear of their sales-rooms.

MORE BOLTS.—The bark Harvest Home is taking on some 50 cords of cottonwood stave bolts, from a scow. She will load with Seattle coal, besides the bolts.

The bark Gem of the Ocean, Capt. Gray, will finish loading sometime during the night or to-morrow morning, and will sail for San Francisco. She takes down 1,100 tons of Seattle coal.

Mr. C. McDonald has the fan blast now in running order and has discarded the bellows from his blacksmith shop. He says these is a large saving in fuel, while the amount of work done at the forge in the same time is nearly one half more than with the bellows.

POWDER.—Several instances have been brought to our knowledge recently of gun-powder having been sold to children of tender years, in one case to a little boy of about three years of age, who blew himself up therewith. It would seem to us that any person ought to have better sense than to entrust a child of that age with powder.

REAL ESTATE SALES.—Carson D. Boren to Franklin Matthias and Erasmus M. Smithers, Executors of the estate of C. C. Terry, deceased, 160 acres, part of secs. 40 and 41, in T. 24, N. of R. 4 E., \$500.

A. A. Denny and wife to L. H. Bowman, East half of lots number 9 and 10, block 45, A. A. Denny's addition to Seattle, \$175. Christian Brownfield to Francis Morley, 2 acres in section 17; \$150.

CITY SURVEY.—The subject of a new survey of the city is much talked of among the property holders of the city. The removal and displacement of initial monuments, block corners, etc., has made the present surveys far from accurate. The matter ought to be settled at once. No one feels safe to build, when a new survey may determine that the street encroaches ten or fifteen feet on his lot.

Monday, Aug. 30, 1875. U. S. vs. James Riley, selling and offering for sale manufactured tobacco and cigars without paying special tax. Sentenced to pay a fine of \$10 and costs.

U. S. vs. Benjamin Sprague, selling spirituous liquors and wine to Indians. Sentenced to be imprisoned in the United States penitentiary on McNeil's Island for a period of eighteen months on the first count of the indictment and six months on the second.

U. S. vs. Ah Long, selling spirituous liquors and wine to an Indian. Sentenced to the U. S. penitentiary on McNeil's Island for twelve months.

Territory vs. James Crowley, Grand Larceny. Defendant pleads not guilty.

Territory vs. Sam. Maples, perjury. Defendant given until the 31st inst to plead.

Thomas Kennedy admitted to citizenship. Territory vs. Peter Delaney, murder. Cause proceeded to trial till the hour of adjournment, when the jury were duly admonished by the Court and permitted to separate during the adjournment.

Territory vs. George Shearer, assault upon the high seas. Given until the morning of August 31st to plead.

Marine Intelligence.

Tacoma Correspondence.

New Tacoma, Aug. 29th, 1875. ED. DISPATCH:

Our very nearly defunct town was aroused on Friday by two startling announcements—one the failure of the Bank of California, the other still more disastrous to the people here was the dismissal of Mr. C. P. Ferry, the competent and gentlemanly clerk and cashier of the Tacoma Land Department. To say that Mr. Ferry has done his duty while in that position is only a mild term, but to say he has earned Maj. Hibbard's salary for him, is more to the point. You people in Seattle don't appreciate Maj. Hibbard as you ought, especially as he is doing so much good in sending you our best citizens. It is said he was a successful emigrant agent before coming here and we believe it, from the way in which the people here and are still leaving this town, and at the rate they are getting out of here, it will not be long before there is none left to tell the sad story of the big humberg, Tacoma. That they intend to kill this place is a sure thing, else why do they retain such men as Ainsworth, Sprague and Hibbard? Not one of whom has invested anything in this town, and not a man in their employ who owns land about here. Do you suppose Maj. Hibbard cares as long as he gets his four hundred dollars per month, with house and horses thrown in. Perhaps if some few of his transactions were known at the head office he would stand but little show. There are vague hints of gravel beds and five and six horses kept at once, which comes under the head of sundries I suppose in the accounts. And such transactions as selling three or four hundred acres of the company's best coal land for less than one-third of its real value. Luckily the mistake was found out by some one in his employ just in time to save the company thousands and thousands of dollars. And other things that I could mention that I know to be facts. The Major has never posted himself in regard to any of the coal lands and don't know the price of lots adjoining Headquarters building without looking over his price list and it's head-work for him to tell even then, as he is as ignorant of such matters as he can possibly be. The people of New Tacoma hope while they are reorganizing the company they will be considerate enough to leave the Major out and send them some one who is competent and willing to take an interest in this place. And, Ferry, although our loss may be Seattle's gain and this little burgh will miss you and yours, we hope success and prosperity will follow you.

District Court.

Tuesday, Aug. 31. Territory of Washington vs. Sam. Maples. Defendant pleads not guilty. United States vs. George Shearer, assault upon the high seas. Defendant pleads not guilty. Territory of Washington vs. Peter Delaney. Jury returned a verdict of murder in the second degree.

JEWELRY.

Mr. W. G. Jamieson advertises his entire stock of jewelry, watches, clocks, etc., and the fixtures of his store for sale. He is going below to lay in his stock of holiday goods, and to procure fixtures for his new store in the Seattle bank building.

The case of David Hughes for the murder of Gellerson is in course of trial in the District Court to-day. The main business done, up to the hour of going to press, has been the empanelling of a jury.

The bark Harvest Home dumped a lot of ballast on Yessler's wharf and hauled down to the Seattle coal wharf, to take the place of the bark Gem of the Ocean, which finishes loading to-day.

REAL ESTATE.—W. H. Taylor and Harriet E. Taylor to O. F. Cospar, lots 10, 11, 12, in block 11, in the addition to Seattle laid off by the heirs of Sarah A. Bell; \$450.

Dr. York has again made his appearance in our city and says he will deliver a lecture if he can get a suitable hall.

STEAMERS.—The following steamers were at the wharf at 1 o'clock to-day: Fanny Lake, Blakely, Alida, Wenat, Success, Zephyr, Anderson, Celilo, Favorite, and Teaser.

AUCTION.—There will be sold Thursday afternoon at 4 o'clock a choice selection of plants, also a second hand piano now on exhibition at Coombs & Co.'s sales-room.

MORE BOLTS.—The schooner Lovett Peacock to-day takes on board some twenty-five cords of cottonwood bolts. She will probably take some more to-morrow.

SAW LOGS.—Fifty million feet of saw-logs were transported from Snohomish River and Tulalip from the first of September, 1874, to the first of September, 1875. So says Hugh Ross, Esq.
