Puget Sound Dispatch.
 FROM DAILY OF THURSDAY.
 SHINGLES.—The Zephyr on her
 last trip from Snohomish brought
 up some 40,000 shingles.
 Owing to the heavy rain
 the workmen engaged on the
 new banks have knocked off
 temporarily.
 Reports by the Libby
 state that crops down-Sound
 have been considerably damaged
 by heavy rains, occurring during
 the harvesting.
 GRAIN.—The amount of grain
 bags now being shipped to La-
 conner, Nooksak, and Stilagna-
 mish indicates that large ship-
 ments of grain will be made
 from these points.
 RAFFLE.—The raffle of the bo-
 que of wax flowers at Pumphrey
 & Young's book-store will
 take place this evening at 7 o'-
 clock, without fail.
 Attention is called to the
 advertisement in another col-
 umn, of the London Assurance
 Corporation, of which Mr. S. F.
 Coombs has been appointed resident
 agent.
 HOPS.—Mr. Meeker, of Puyallup,
 is in this city, engaging hop
 pickers for his farm. He assures
 us that 300,000 pounds of hops
 will be raised on the Puyallup
 River this year.
 FROM BELLINGHAM BAY.—The
 steamer Libby arrived here this
 morning from Bellingham Bay
 and way ports. She brought up
 a number of passengers, a quan-
 tity of vegetables and some kits
 of salmon from the Mukilteo
 fishery.
 GONE BELOW.—Thos. P. Wood-
 ward, son of Col. Woodward, the
 founder of that excellent paper,
 the *Alta California*, left for San
 Francisco yesterday. He has
 been for some employed in the
 Coast Survey Service on board
 of the *Fauntleroy* and has made
 many friends.
 READING ROOM.—Mrs. May-
 nard says she has now 250 sub-
 scribers to her library and read-
 ing room. Mrs. Maynard is one
 of our old settlers and is noted
 for her kindness and Christian
 character. Her reading room is
 well conducted and she de-
 serves the patronage of the public.
 LECTURE.—Dr. J. L. York lec-
 ture at Bow's skating rink on
 Friday night at 8 p. m. Subject,
 Science and Religion. Saturday
 evening, 8 p. m.; What Will We
 Do with our Criminals. Sunday
 at 10 a. m.; Fatherhood of God
 and Brotherhood of Man. Sun-
 day night, at 8 p. m.; Supersti-
 tion. Further announcements at
 each lecture. All are cordially
 invited to attend.
 The criminal docket in the
 District Court, has been dis-
 missed, all the cases having been
 tried or laid over until next
 term.
 STEAMSHIP SALVADOR.—A tele-
 gram has just been received in
 this city from Mr. E. P. Bacon,
 General Agent of the P. M. S. S. Co.,
 inquiring whether a cargo
 consisting in part of 600 tons of
 coal could be obtained for the
 Salvador by next Wednesday, to
 which an affirmative answer was
 immediately sent, and it is now
 settled that the steamer comes
 here. The coal is to be furnis-
 hed from the Talbot mine and is
 probably designed for the con-
 sumption of the P. M. S. S. Co.'s
 steamers. This is probably the
 inauguration of another line of
 steamers between Seattle and
 San Francisco and is the imme-
 diate result of the late visit of
 Messrs. Bacon and Freeman to
 our city.
 SNOHOMISH.—A correspondent
 furnishes us with the following
 items from Snohomish City:
 On Sunday last the River rose
 two feet, six inches, at this city.
 The heavy rains we have had
 have put out all the fires in the
 woods in the vicinity.
 Mr. Frank Mathews, of this
 place, is building a pretty little
 house, the dimensions of which
 are 16x24, with an addition 8
 by 24. Mr. Foss is also build-
 ing a new house, 20x24.
 FAMILY SOAP.—Best in market for the
 money. Try it. July 22.

Snohomish Correspondence.
 FROM DAILY OF FRIDAY.
 EDITOR DISPATCH: No commonplace
 items since my last. Peace prevails in
 our midst. There was a little unpleas-
 antness growing as usual out of a dog
 fight out in the "Lava Beds" two or
 three days ago. The champion and
 owner of the Scotch terrier was out-
 flank- ing the master of the cur pup, when the
 latter's better half charged with a spade,
 compelling the former to retreat, which
 he was able to do in good order, his
 terrier filling the part of honor in the
 rout to the rear.
 At present there is no news from the
 seat of war; only a little scouting and
 picket firing; the belligerents are wait-
 ing for reinforcements, ammunition and
 artillery, which will be on the ground
 from Seattle as soon as relieved by the
 District Court. Send down some sta-
 tionary. Don't omit plenty of pencils,
 well sharpened. Your correspondent
 will go to the front.
 We are experiencing a new sensation
 to-day. Prof. McDonald gave his cel-
 ebrated lecture on matrimony last night,
 and wound up by parading the ladies
 and gentlemen in the floor and then
 pairing them off. The result was disas-
 trous. There were fifteen or twenty
 great big whiskered fellows, that
 had to be matched with blondes, and
 there weren't half blondes enough to go
 round. Then there were only one or two
 brunettes, and at least a dozen sorrel
 topped masculines all clamorous for the
 first chance. Even the red headed woman
 fell short of filling the demand. You
 can just imagine how things are boiling
 by this time. There are about fifty angry
 bipeds of the masculine persuasion roar-
 ing for Prof. McDonald's scalp, and only
 a baker's half dozen to protect him. If
 you can possibly spare a few blondes,
 brunettes, flaxen and red-headed ladies
 matrimonially inclined, pray do so and
 prevent bloodshed. Charter a steamer,
 send them along, hand the expense.
 You need not be particular about ages,
 or the condition of their gums. Widows
 with several responsibilities, old maids
 under forty-five, even grass widows,
 provided they bring certificates of good
 moral character from a man like Mark
 Twain, Deacon Smith of Cincinnati, or
 Henry Ward Beecher, would do, in an
 emergency like the one hanging over us
 just now. Send our sheriff and constable
 home to protect the Prof. The
 Spartan band of lanky ones, are bound
 to stick to their mates, "or die in the
 last ditch." Don't let the Prof. set foot
 in Seattle, unless you have as many
 females as males, with well balanced
 temperaments. If you do you will have
 a riot.
 That article I wrote about Judge Has-
 kell's grist mill I have got to take back.
 He has changed his mind and turned it
 into a saw mill. I believe he did it on
 purpose to make me out an unreliable
 reporter. I never thought he'd go back
 on me that way.
 The steamer Zephyr left
 at half past eight this morning
 for Olympia.
 The Fanny went up the
 Duwamish River this afternoon,
 taking up an empty coal scow.
 She will be down again some-
 time to-night.
 LAUNCHED.—The schooner Juanita
 built by Mr. Bigelow on the
 beach below Bullene's machine
 shop, was launched last night.—
 Her rigging has been ordered
 from San Francisco and will be
 up by the Jenny Pitts. She is
 of about 70 tons burden and is
 intended for the grain carrying
 trade of the Sound.
 MANSLAUGHTER.—The jury in
 the case of David Hughes, held
 here last night with ten tons of
 barley for Schwabacher Bros. &
 Co., from the farm of the Cal-
 houn brothers, on the Swinomish
 flats.
 RACE.—In the ocean race the
 steamship Pacific is reported to
 have beaten the Salvador to San
 Francisco, having made the run
 in 3 days and 10 hours—arriving
 on Tuesday night and the Salva-
 dor on Wednesday morning.
 TOWN PLAT.—The plat of an-
 other addition to be known as
 Central Seattle, was filed in the
 Auditor's office on Thursday
 last by Jas. McNaught and wife.
 It is in sections 8 and 9, T. 24,
 north of range 4 east, and is a
 portion of the J. C. Holgate do-
 nation claim.
 OVERBOARD.—A little son of
 Mr. Parker fell overboard from
 Yesler's wharf about half past
 twelve o'clock to-day. A rope
 was thrown him from the steam-
 er Celilo, which was lying along-
 side the wharf near where he
 fell. He managed to get hold of it
 and was hauled on board with
 no damage except the wetting
 and the loss of his hat.
 SALMON TROLLING.—There is
 not as much interest taken in
 the sport of trolling for salmon
 this year as last. Then it was a
 common thing to see a dozen or
 twenty boat loads of persons en-
 joying the sport, but now it is a
 rare thing to see more than one
 or two. Perhaps the rains have
 had a depressing influence on
 sportsmen.
 THE SCHOONER Lovet Peacock
 sailed for San Francisco this af-
 ternoon. She has on board 350
 tons of Renton coal, 40 cords of
 cottonwood stave bolts and a
 large number of staves.
 NEW BOOKS.—We were shown
 this morning the new books of
 record of the District Court.—
 They are 7 in number, consisting
 of an Appeal Docket, an Execu-
 tion Docket, a Journal, a Fee
 Docket, a Final Record, an Ap-
 pearance Docket and a Book of
 Levies. They are 8-quire folios,
 bound in full Russia; the letter-
 ing and the binding are of the
 best description and they are
 probably the finest set of
 books in the Territory. They
 are from Day, Egbert & Fidler,
 Dayton, Ohio.

 will perform his great *Mysterious Box Trick*.
 He will enter a solid wooden box,
 banded with iron inside and out and fast-
 ened with a heavy swinging padlock. The
 Professor allows himself to be locked
 in the box, and after doing so any of the
 audience may hold the key. He then
 makes his appearance to the most as-
 tonished audience, the box still remain-
 ing locked.
 PROF. PADGETT, the great Fire King
 and sword swallower, after a great suc-
 cess at Woodward's Gardens, San Fran-
 cisco, will astonish the people of Seattle.

 ing.

 amounts: Bank of British North Amer-
 ica, \$13,372; F. Garsche, \$20,622.

 Emma Utter, recently built at Port Lud-
 low is 279 39-100; length, 134 7-10 feet
 breadth, 33 1-10 feet; depth, 10 1-10
 feet.
 The schr *General Harney*, which
 suffered some damage from fire in her
 hold, originating in her cargo of lime on
 her recent trip up Sound, has gone onto
 Mr. Alexander's ways, at the upper end
 of town for general repairs.—P. T. Ar-
 gus.
 NEW HOTEL.—Last Thursday the
 steamer *Mastick* arrived at this port
 with a raft of lumber in tow comprising
 some 200,000 feet, designed for Mr. J.
 E. Pugh's hotel, to be erected on the
 corner of Water and Washington streets,
 opposite the Custom House. On in-
 quiry we obtained the following minutia
 of the building: It will have a frontage
 of eighty feet on Washington street by
 sixty on Water; will be two and one-
 half stories in height, and surmounted
 with a mansard roof. The lower story
 will comprise beside the spacious saloon,
 rooms suitable for stores, or offices,
 dining room, kitchen, etc., while the
 upper story will be occupied with par-
 lours, drawing-rooms, bed-rooms, &c.,
 &c. The structure is under contract,
 and we believe it is the intention of the
 proprietor to push the enterprise to
 completion.—P. T. Argus.
 The Steamship *City of Panama*,
 Capt. W. B. Seabury, 1490 24-100ths
 tons, left San Francisco for Victoria on
 Saturday last at 12:30 p. m. with 97 cabin
 and 35 steerage passengers, 83 tons of
 cargo and 13 packages mails. She ex-
 perience foggy weather during the
 passage and arrived at the Hudson Bay
 Company's wharf at 4 o'clock Tuesday
 afternoon, having made the run in the
 unusually quick time of 75 1/2 hours.
 She was built a few months ago by John
 Roach at Chester, Pennsylvania, and is
 240 feet long, 34 feet beam and 25 feet
 depth of hold, will accommodate a large

number of passengers. She is built with
 three bulk heads dividing her into
 water-tight compartments. Her carry-
 ing capacity is close on 1500 tons. She
 has a promenade deck over all the full
 length of the vessel, and underneath
 is the main deck on which is the
 chief scullion handsomely fitted and pan-
 elled with rosewood, walnut and maple.
 The cabins open into this and are splen-
 didly furnished in the same style, each
 one having two doors, one solid and the
 other being made like a venetian blind
 for hot weather. Her engines, which
 can be run to 1200 horse power, and
 will give her a speed of 12 to 15 knots,
 are of the compound type. She has four
 boilers and furnaces, one of which can
 be made to supply steam either to the
 screw engines or to the donkey engines
 of which there are in all 5, 3 for hoisting
 cargo and 2 for the anchors. There is
 also in the engine room an apparatus for
 smothering a fire with steam, and like-
 wise 2 pumps for filling the boilers,
 which, by turning a handle and screw-
 ing on the necessary hose, can be made
 to throw powerful streams of water into
 any part of the ship. There are 7 boats,
 each having a compass and provisions
 for 10 days always on board and capable
 of carrying 16 persons, besides the crew.
 In addition to this 400 life preservers
 are provided. There is a gentleman's

 all handsomely furnished; and also bath
 rooms, and every contrivance for the
 convenience and safety of her passen-
 gers. She is the finest ship that ever
 entered Victoria harbor.
 She sailed Thursday morning for
 Nanaimo, and will leave Esquimalt for
 San Francisco about Tuesday next.—
Colonist.
 News Items
 Mr. Asa B. Simmons, of Howell
 Prairie, raised on 64 acres of land, sum-
 mer-folled, over 4,000 bushels of
 wheat, and 20 acres of this land went
 59 1/2 bushels to the acre by actual
 weight, which is the largest figure we
 have heard of. Wheat well put in has
 done well this year.
 The *Baker City Herald* will sus-
 pend publication with the close of Sep-
 tember. No reason assigned for the sus-
 pension.
 A little child, aged about two
 years, of Mr. William Armstrong's, of
 Samish, was on last Thursday accident-
 ly drowned by falling into a stream
 running by the house.
 Bruce Milroy, formerly employed in
 the *Echo* office, has gone to the Naval
 Academy, at Annapolis, Md. He took
 his first lessons in war-like demon-
 strations while assisting in bartending the
Echo office against the gang led by mon-
 tesharp McDonald.
 Farmers from Lewis county re-
 port a large amount of grain down in
 the swath. Some of it is injured already,
 and more will be, if the rain contin-
 ues. Spring wheat will be apt to es-
 cape injury, as it is unusually late this
 year.
 Last week a party of men from
 Walla Walla went to the Government
 Meadows, in the Blue Mountains, for a
 hunt. While they were sitting around
 the camp-fire and enjoying a good soak-
 ing rain, a black bear was observed to
 be crossing the prairie a short distance
 from the camp. Mr. E. E. Taylor re-
 reached for his gun and turned and fired at
 the bear, wounding it. A dog soon treed
 him, and another shot brought him
 down. It was a medium sized black bear
 and in good condition.
 The *Echo* says: Bears are very
 numerous in the country, and many are
 being killed. One visited Judge Den-
 nis's ranch, on Yelm, and took two
 choice muttons for lunch. His case
 will be attended to immediately after
 the adjournment of court at Seattle.
 Hunters from Oregon have been sport-
 ing around American Lake in hopes of
 taking a few.
 The B. B. *Mail* says: The Indian,
 spoken of last week as having been
 bound over to court, for violently assul-
 ting his father and a klotchman, was
 released on Thursday on petition of the
 injured parties and recommendation of
 citizens of Nooksak, where the offense
 was committed; the offender paying
 costs of prosecution.
 The B. B. *Mail* says: It will be
 remembered that a few weeks ago, we
 noted that some person unknown shot
 dead an Indian on Fidalgo Island. We
 now learn that the foul deed was com-
 mitted by a fellow-Indian, as expected;
 that he is known, but not yet arrested,
 and that at last accounts was at the
 Samish camp. His klotchman exposed
 the assassin, and it is hoped he will
 soon be captured.
 It may seem a little matter, but
 it is worthy the attention of all those
 who use wood screws, on account of the
 increased ease in running them in, and
 the increased strength of the work, ow-
 ing to the screws being driven much
 tighter, if the point of the screw be dip-
 ped into raw linseed oil. The screw can
 then be run into any kind of wood with-
 out fear of twisting it off at the top of
 the thread.
 How HUNKS WENT TO IRELAND.—They
 were all sitting around the stove in the
 grocery store, and Hunks, who had
 been a sailor, was relating his adventures:
 "Were you ever, Ireland, bir,
 Hunks, asked Judge Pitman.
 "Never but once," replied Hunks,
 "and then I went there under very ex-
 traordinary circumstances. You see, we
 was on a voyage from Liverpool to New
 York, and just as we was getting out of
 the sight of the Irish land, the men they
 mutinied and seized the ship. I was
 second mate. They killed the captain
 and first mate, and they knocked me in
 the head. Then just out of cussedness,
 I 'spose, they stuffed me into a beef
 barrel, headed the cask up and hove me
 overboard. I donno how long I was in-
 sensible, but howsoever, when I come
 to, I found myself in the bar'l and the
 bar'l 'lyin' on the shore, apparantly, for
 it didn't roll any. I tried to kick it out,
 but I was so weak I couldn't. But I
 felt for the bung, and bashed it, so's to
 git some fresh air. Directly I felt some-
 thin' kind o' ticklin' my nose. I thought
 it was a fly; so I knocked at it, and
 kotoched one end of a straw; I gave the
 straw a jerk, and herd something knock
 against the bar'l and a voice exclaimed:
 "Gosh!"
 "Then I knowed there was a fellow
 outside tryin' to suck something out of
 the bar'l with a straw. Directly, he
 stuck another straw in and I gave it a
 harder jerk, and jammed this nose agin'
 the bar'l tollably lively; and I herd him
 say:
 "By the monificent Moses, but that's
 queer!"
 "But he put the straw through the
 bung the third time, he was so eager for
 liquor and the way I bounced that nose
 of his agin' the side of the bar'l was
 simply inhuman. Then he jumped
 back, and says he:
 "He the sow! of St. Patrick, if that
 don't bate Banagher! What's in your
 bar'l anyhow?"
 "With that he gave the head a kick
 and in it caved. I crawled out and
 looking kinder solemn at him, I said for
 a bit of fun:
 "I don't know much about your
 manners here, but it seems to me you
 might be more civil than that to a man
 in his own house!"
 "Run! Well, he just legged it; and
 I herd afterward that he went up to
 the town yelin' that the devil had come
 ashore in a bar'l. But I jes' went to
 Queenstown, shipped for home on a
 brig, and quit. And that's how I went
 to Ireland!"
 There were two little chickens in
 a yard yesterday afternoon, picking busi-
 ly away at the globe on which we live.
 One of them suddenly espying a toe of
 the other peeping through the grass,
 snapped it up at once and started with
 it under the impression that it was a
 ten dollar worm. The owner of the un-
 fortunate toe was thrown on its back
 and dragged screaming across the yard
 before the mistake was discovered.
 Then the mis-taken chicken gravely
 shook its head, and backing up against
 the fence, remained there for several
 minutes gazing irresponsibly at its fel-
 low.—*Danbury News*.
 FRECKLES.—Freckles, says the *Herald*
 of Health, are not easily washed out of
 those who have a florid complexion and
 are much in the sunshine, but the fol-
 lowing washes are not only harmless
 but very much the best of anything we
 know. Grate horseradish fine, let it
 stand a few hours in buttermilk, then
 strain and use the wash night and
 morning. Or squeeze the juice of a lem-
 on into half a goblet of water and use
 the same way. Most of the remedies
 for freckles are poisonous and cannot be
 used with safety. Freckles indicate a
 defect in digestion, and consist in de-
 posits of some carbonaceous or fatty
 matter beneath the surface of the skin.
 The diet should be attended to, and
 should be of a nature that the bowels
 and kidneys will do their duty. Daily
 bathing, with much friction, should not
 be neglected, and the Turkish bath taken
 occasionally, if convenient.
 ABOUT KEYS.—The invention of keys
 is attributed to the Lacedaemonians.
 They were first made of wood, and the
 earliest form was that of a crook intro-
 duced into a hole, to raise a latch or re-
 move a bolt. Such ancient keys as exist
 are mostly of bronze, and various
 shapes: the most remarkable are those
 which have the shaft terminated on the
 other side of the works and on the
 other by a ring. These have been sup-
 posed by some to be the keys presented
 by husbands to their wives, and which
 were resigned upon divorce or separa-
 tion. Among the Anglo-Saxons a ser-
 vant was the keeper of the keys. Trades-
 men formerly wore bunches of them at
 their girdles.
 The Indians are called a fading
 race. A great change must have come
 over them since we saw the last speci-
 mens. Maybe, though, we couldn't see
 whether they faded or not, owing to
 their not having taken their semi-
 annual wash.

FROM DAILY OF FRIDAY.
 SNOHOMISH CORRESPONDENCE.
 EDITOR DISPATCH: No commonplace
 items since my last. Peace prevails in
 our midst. There was a little unpleas-
 antness growing as usual out of a dog
 fight out in the "Lava Beds" two or
 three days ago. The champion and
 owner of the Scotch terrier was out-
 flank- ing the master of the cur pup, when the
 latter's better half charged with a spade,
 compelling the former to retreat, which
 he was able to do in good order, his
 terrier filling the part of honor in the
 rout to the rear.
 At present there is no news from the
 seat of war; only a little scouting and
 picket firing; the belligerents are wait-
 ing for reinforcements, ammunition and
 artillery, which will be on the ground
 from Seattle as soon as relieved by the
 District Court. Send down some sta-
 tionary. Don't omit plenty of pencils,
 well sharpened. Your correspondent
 will go to the front.
 We are experiencing a new sensation
 to-day. Prof. McDonald gave his cel-
 ebrated lecture on matrimony last night,
 and wound up by parading the ladies
 and gentlemen in the floor and then
 pairing them off. The result was disas-
 trous. There were fifteen or twenty
 great big whiskered fellows, that
 had to be matched with blondes, and
 there weren't half blondes enough to go
 round. Then there were only one or two
 brunettes, and at least a dozen sorrel
 topped masculines all clamorous for the
 first chance. Even the red headed woman
 fell short of filling the demand. You
 can just imagine how things are boiling
 by this time. There are about fifty angry
 bipeds of the masculine persuasion roar-
 ing for Prof. McDonald's scalp, and only
 a baker's half dozen to protect him. If
 you can possibly spare a few blondes,
 brunettes, flaxen and red-headed ladies
 matrimonially inclined, pray do so and
 prevent bloodshed. Charter a steamer,
 send them along, hand the expense.
 You need not be particular about ages,
 or the condition of their gums. Widows
 with several responsibilities, old maids
 under forty-five, even grass widows,
 provided they bring certificates of good
 moral character from a man like Mark
 Twain, Deacon Smith of Cincinnati, or
 Henry Ward Beecher, would do, in an
 emergency like the one hanging over us
 just now. Send our sheriff and constable
 home to protect the Prof. The
 Spartan band of lanky ones, are bound
 to stick to their mates, "or die in the
 last ditch." Don't let the Prof. set foot
 in Seattle, unless you have as many
 females as males, with well balanced
 temperaments. If you do you will have
 a riot.
 That article I wrote about Judge Has-
 kell's grist mill I have got to take back.
 He has changed his mind and turned it
 into a saw mill. I believe he did it on
 purpose to make me out an unreliable
 reporter. I never thought he'd go back
 on me that way.
 The steamer Zephyr left
 at half past eight this morning
 for Olympia.
 The Fanny went up the
 Duwamish River this afternoon,
 taking up an empty coal scow.
 She will be down again some-
 time to-night.
 LAUNCHED.—The schooner Juanita
 built by Mr. Bigelow on the
 beach below Bullene's machine
 shop, was launched last night.—
 Her rigging has been ordered
 from San Francisco and will be
 up by the Jenny Pitts. She is
 of about 70 tons burden and is
 intended for the grain carrying
 trade of the Sound.
 MANSLAUGHTER.—The jury in
 the case of David Hughes, held
 here last night with ten tons of
 barley for Schwabacher Bros. &
 Co., from the farm of the Cal-
 houn brothers, on the Swinomish
 flats.
 RACE.—In the ocean race the
 steamship Pacific is reported to
 have beaten the Salvador to San
 Francisco, having made the run

SAN FRANCISCO, Sept. 5.—Steamer Pacific sailed September 4th at 12 noon, with 200 passengers, large freight list and Wells, Fargo & Co's Express.

PORT GAMBLE, Sept. 5.—Sailed, schr. Joseph Perkins, Vallejo.

SAN FRANCISCO, Sept. 4.—The Bulletin publishes an editorial this evening in which, after referring to the course of the papers with regard to the Bank of California and Ralston, it says: The directors, some of whom have always been the staunchest friends of the Bulletin have perfected their plans and have settled upon a basis of action whereby every creditor of the bank will be fully paid. We have full confidence both in the ability and in the good faith of these men. They will reclaim all their pledges and will ultimately make the bank stronger even than the one that suspended. We are now authorized by D. O. Mills to say that the late President did, without the knowledge of the directors, use from three million to four million dollars of the bank resources, which amount remains unpaid. This was the cause of the failure. We are also authorized by the same authority to say that there was an over-issue of the stock, which over-issue has now been provided for.

Counting election returns is not yet completed. The fight between Clayton and Bryant is still undecided. Bryant is 267 ahead at last advices and Clayton gaining. About 20,000 votes are counted out of 25,562. Ellis is 427 ahead of Crowley, the latter gaining very slightly. Baldwin is certainly elected and Swan for coroner probably. Nunnun (Dem.) for sheriff is ahead. Returns from the State are incomplete, but only legislative tickets are doubtful.

CHICAGO, Sept. 4.—A Washington special says a strong move is on foot, backed by a ring of Pacific Coast men, to have a new department for land surveys. The merit of the movement consists in the fact that the new department will afford a number of additional places for political pets, and more ready subject the lands of the West to the control of capitalists. This programme is nothing more than the old plan of separating the Interior Department from the Patent Office. The merit of the project becomes clearly understood by a glance at the backers of it, among who are Effigy Sargent and other patriars of his class.

The treaty of Washington seems to be an ever reverting thorn in the side of Canada. The tax on the tin cans with lobsters and salmon was counted a Yankee trick. The annoyance of seal looks on bonded goods across the frontier next vexed them. And now comes the greatest of all, the Grand Trunk Road has been informed by the Secretary of the Treasury that the company can't do the carrying trade of the Lakes. It seems there is a conflict of opinion in the interpretation of the 3rd article of the treaty and the Secretary decides in favor of the United States.

NEW YORK, Sept. 4.—Gold closed at 114 1/2.

VICKSBURG, Sept. 4.—There was a difficulty at a Radical meeting at Clinton, Miss., to-day, in which three whites and negroes were wounded. No positive information. About 100 armed whites from here arrived at Clinton to protect the town. Negroes are arming threatening another fight.

MONTREAL, Sept. 4.—Joseph Doure has prepared an affidavit declaring the public peace is threatened. This with another affidavit of similar effect has been submitted to a magistrate in order to procure the presence of a force of volunteers at the burial of Guiford, which is postponed until next week. Further trouble is apprehended. With the ill feeling on both sides it will be fortunate if no serious results follow the second attempt. Some 300 armed men are in the cemetery waiting for the funeral and have been there all night. They have blocked the road and demand the name and business of travelers. Inhabitants roundabout feel much alarmed and have appealed to the Government for police. A battery is ordered to concentrate here and volunteers were drilling last evening.

ALBANY, N. Y., Sept. 4.—A petition for the pardon of Edward S. Stokes, convicted on a charge of shooting James Fish, has been sent to the Governor.

LOUISVILLE, Ky., Sept. 3.—Louis Rehl, teller of the Planters' National Bank, who confessed having taken the money himself, was presented at the city court this morning and held in \$50,000 bail to answer.

TRENTON, N. J., Sept. 2.—Sooy, the defaulting state treasurer, was examined to-day. The deficiency was found to be \$44,116. He was held in \$75,000 bonds. No bail was offered, and he was committed.

LONDON, Sept. 3.—The Times, commenting on the Herzegovinian troubles, strongly urges the fitness and duty of interference by Great Britain.

LONDON, Sept. 2.—Caldwell & Watson, East India merchants, failed for £10,000.

LONDON, Sept. 3.—A telegram from Berlin announces that Gen. Kauffmann has entered Khopand.

NEW YORK, Sept. 3.—The London

Times' financial article says there is increased firmness in the discount market, anticipating the increasing demand for money. It adds: "It is known we shall have to import an unusually large quantity of wheat, and it is equally certain that all malting barley will have to come from abroad."

NEW YORK, Sept. 3.—August Ross and Dan Leavy, young butchers, quarried this morning in Washington market, and the result was that Leavy was fatally stabbed and Ross severely.

CINCINNATI, Sept. 3.—The Commercial's special from Bloomington, Ind., says the boiler of the sawmill near that place exploded, killing Jos. Skinner and seriously wounding five others.

William Hutchinson, a farmer living near Worthington, was shot dead by a tramp whom he found in his barn.

SAN FRANCISCO, Sept. 6.—The California or Little Board of Brokers resumed business this morning. Transactions were very limited. The feeling seems to be that there will be no great letting down in prices.

Financial affairs are moving along gayly. Arrangements for the re-opening of the Bank of California are still in progress. The statements heretofore made with reference to Ralston's defalcation are strictly correct, notwithstanding the attempted denials by interested parties. No denial of the same has been made by D. O. Mills, as has been intimated.

The U. S. Treasury to-day redeemed the notes of the National Gold and Trust Company to the amount of \$75,000.

NEW YORK, Sept. 6.—The superintendent of the direct United States cable says that messages are passing over the cable at a high rate of speed, although the Faraday has not arrived at the location of the fault on the 22nd. After sailing from London she had only three days of moderate weather, during which she picked up the cable 2,000 fathoms. The fault was made perfect. The final splice will be made in a day or two, when the line will be ready for business.

VICKSBURG, Miss., Sept. 6.—A Herald extra gives the following account of the disturbance at Clinton: There is a law in Clinton prohibiting the sale of liquor in Clinton. A man from Raymond brought a bottle with him, and while speaking was going on, Martin Severly and some friends went off a short distance to take a drink. A negro, Marshall for the occasion, forbid them drinking. This order was not regarded, when the negro attempted to take the bottle out of Severly's hands, when he struck the negro over the head. Senator Caldwell, (colored), started to settle the difficulty and was followed by 20 negroes, whom he ordered back, but a hundred more came rushing up, when some one fired a shot which was followed by a general firing and stampede. Severly fired all the barrels of his pistol. The negroes then demanded his surrender, which he did, when the negroes shot him, then brained him, robbed him of his clothing and cut off a finger to get his ring. The infuriated mob found Charles Chilton in his yard and shot and killed him before his family. Frank Thompson, a promising young lawyer, was shot from his horse, a mile from the scene of the conflict, and after falling the savages drove knives in his body in many places. John Neal was fatally shot. Four negroes were found dead in the field and two mortally wounded. Six additional negroes were found dead at Clinton since. The white men of Clinton organized at once for protection. The train from Dickson, on Saturday, with reinforcements, was fired into from the side of the road. Obstructions were also found on the track. This morning citizens returned home to Vicksburg leaving guard. All now reported quiet at Clinton.

WASHINGTON, Sept. 5.—Post office established at Meadow Brook, Lewis County, W. T., Reynold T. Crawford, Postmaster.

WASHINGTON, Sept. 6.—Application has been received at the Treasury Department to-day for the transfer of about seven million dollars gold from New York to San Francisco for commercial purposes. The Treasurer hopes to be able to transfer about \$500,000 to-morrow. The other \$500,000 will be returned to-day or to-morrow, when he will comply with the present request for the transfer of a million.

LONDON, Sept. 5.—Dispatches from Constantinople state that information is received from Belgrade by the Turkish Government by foreign embassies which removes all apprehensions that Serbia will by her conduct add to the complications in the Herzegovinian question. A solid agreement between the powers and the Serbian Government has been effected at Belgrade. Owing to the pressure brought to bear by the representatives of the former, Serbia undertakes to restrain the party of action within its borders.

MADRID, Sept. 6.—Numbers of Carlismen in all parts of Catalonia, Navarre and Biscay Provinces are giving in their submission to the Government of King Alfonso and asking for amnesty.

VICTORIA, Sept. 7.—The funeral of Captain William McNeil, who died here on Saturday, took place to-day. The deceased was one of the earliest pioneers of the Pacific Coast, having arrived here from China in 1816—nearly sixty years ago. He visited the coast of Oregon in 1826 and joined the Hudson Bay Company in 1832, in whose service he rose to be chief factor. Capt. McNeil was a native of Boston and at his death was 74 years of age.

ERIE, N. Y., Sept. 7.—The city is filling up with delegates to the Democratic State Convention. The friends of Senator Wallace and Congressman Randall, leaders of the most prominent factions, are on the ground.

NEW YORK, Sept. 7.—It was reported on the street this afternoon that the board of directors of the Erie railway was about to reorganize, some of the present board of directors resigning, and their places being filled by parties more closely identified with the interests of English stockholders.

Gold closed at 114 1/2 @ 115.

RED CLOUD AGENCY, Neb., 5, via SYDNEY, Neb., 7.—The Sioux Indian Commission has arrived here. All the Missouri Indians are at Shaodon Creek with Spotted Tail's band, in all about 13,000, while at Red Cloud there are about 10,000. Northern Sioux, Yanktons and Santees not yet reported, but are expected in a few days. The Grand Council will not take place earlier than the 14th inst., there being a difference of opinion as to the place of holding the pow-wow. No flour is here to feed the host of redskins nor can any be brought here short of nine days. The prospects for the success of the treaty are flattering and but little trouble is anticipated.

ST. PETERSBURG, Sept. 7.—A telegram has been received from Gen. Kaufmann, commanding the Russian expedition against Kohland rebels, announcing that a battle was fought on the 4th inst., when the Russians completely defeated a force of rebels, numbering 30,000 who occupied a fortified position, which Gen. Geolevatchoff stormed. Several guns and a quantity of war material were captured. Losses of Russians inconsiderable.

MADRID, Sept. 7.—The Carlist General, Dorregaray pursued by the Royal forces passed Roncilia with 1,500 men. He had lost his war material. The Biscayans are renewing their manifestations in behalf of peace and refuse to pay taxes levied by Carlismen. Rumors of negotiations for peace gain credence. It is said that there has been a mutiny among Carlismen in Tolosa and many were killed and wounded.

CONSTANTINOPLE, Sept. 7.—Order has again been completely established in Bosnia and almost restored in Herzegovina.

PARIS, Sept. 7.—The Workmen's Peace conference unanimously passed the principle resolutions before it, which solemnly protest against the present armaments of European powers as an intolerable burden on the people.

MONTREAL, Sept. 7.—Last night the Protestant cemetery vault in which the remains of Guiford lie was guarded by 18 men armed with navy revolvers and Enfield rifles under command of a sergeant of police. No date is given for the funeral. A general feeling of insecurity prevails among the residents of the suburbs.

SAN FRANCISCO, Sept. 7.—The San Francisco and Pacific Stock Exchange met for the transaction of private business. It is understood that neither will open for regular business until the Bank of California reopens which will probably be about the 15th inst. The Little Board met for business, but transactions were small at rates a little off from yesterday, generally speaking. In the Pacific Exchange, the resolutions were that, as the board could not under its laws subscribe to the guarantee fund of the Bank of California, members should be recommended to subscribe in their individual capacity.

Flour, best city brands, extra jobbing at \$6 75; wheat, small lots, ordinary, sold at \$2 00. Shippers claim they can buy freely at \$2 10 @ \$2 12 1/2.

CINCINNATI, Sept. 6.—The Gazette's Huntington, West Virginia, special says while Mr. Orney, cashier of the bank, was alone at noon, three men entered and placed pistols at his head and compelled him to open the safe. A colored man happened in at this moment, and was also covered with a revolver and commanded to keep still. The robbers succeeded in getting possession of \$15,000. A confederate had horses in waiting. The alarm was given, and citizens and police started in pursuit, but failed to overtake the robbers.

PHILADELPHIA, Sept. 6.—At the West-cervelt trial to-day, a number of letters to Mr. Ross, offering to return Charlie for a reward, were identified as the handwriting of Wm. Mosher, who was shot at Bay Ridge, Long Island, while robbing a house.

CINCINNATI, Sept. 6.—On Saturday evening six children got into a skiff on Mill river, at Faller's Mills, on the Marietta railroad, for a ride across the river, and when half-way across the boat sank. One little girl was drowned, and three rescued with great difficulty, by a boy named Reader, and the other two were unconscious when brought ashore, but recovered.

A young man of Munice, Ind., was escorting a young woman to his home in a carriage, the other day, where he came to a bridge that had been overflowed by a freshet. He drove his horse into the water, but when the carriage was threatened with submersion, and the horse began making an effort to get away, he cut the traces, sprang upon the animal's back and set out for shore, leaving his companion in the middle of the stream. The torrent overturned the carriage, and the girl was drowned.

"I'm weary, weary, he cometh not," she said, and then she picked up a boot-jack and laid it in wait for him behind the door, for it was after 11 o'clock, and she had told him if he staid out that late she'd baste him.

There were a couple scrub races at the track yesterday.

PROF. DUNLAP.—The great ventriloquist and magician, has arrived and will perform his great Mysterious Box Trick. He will enter a solid wooden box, banded with iron inside and out and fastened with a heavy swinging padlock. The Professor allows himself to be locked in the box, and after doing so any of the audience may hold the key. He then makes his appearance to the most astonished audience, the box still remaining locked.

PROF. PADGETT, the great Fire King and sword-swallower, after a great success at Woodward's Gardens, San Francisco, will astonish the people of Seattle. The entertainment will open at Bow's Hall, on Wednesday afternoon and evening.

From Daily of Tuesday.

To TACOMA.—Steamer Zephyr will go up to Tacoma on Thursday next, returning immediately after the arrival of the train, in the evening.

The barkentine R. K. Ham, for San Francisco, and the ship Summer R. Meade, for Calcutta, will sail from Port Blakely to-morrow.

Most of the stone-masons who have been at work on Horton & Co.'s bank are now engaged in dressing the stone for the Seattle bank.

The bark Harvest Home sailed out with a fair wind last night at 9 o'clock. Her cargo consisted of some 900 tons of coal and 50 cords of cottonwood stove bolts.

JUSTICE COURT.—A. S. Hughes was brought before Justice Smith yesterday on a charge of perjury. He was, on examination, bound over to await the action of the District Court.

SURRENDERED.—Frank Burke, the proprietor of the Bon Ton Saloon, who has been indicted for keeping a hurdy gurdy house and who forfeited his bail and left the city, has returned and has been surrendered by his bondsmen. His trial is set for this afternoon.

BANK BUILDING.—The walls of Dexter Horton & Co.'s bank have now been raised as high as intended and to-day carpenters commenced work on the roof.—The roof is to be of brick and cement, surmounted by tin, the object being to make the building as nearly fire-proof as possible. The roof will then be surrounded by a fire wall. Next year it is the intention to put another story on it, as well as on the building adjoining occupied by Crawford & Harrington.

TALBOT COAL.—The Talbot Company is now under contract to supply the steamships Pacific and Salvador with coal this trip—the one with 200 and other with 600 or 700 tons. Owing to the steamer having missed one trip this week, it is feared they will not have enough on hand to supply both steamers with all they require. The steamer Pacific left San Francisco on the 4th inst. and will be here probably to-morrow.

ACCIDENT TO FRAZIER.—We have been furnished with further particulars of the accident to Frazier by a gentleman who was present at the time. It seems they were engaged in shifting the mast of the large derrick and in doing so were slacking up the after guy, when it slipped off the belaying pin and the mast, being relieved of the support behind, fell forward, striking Frazier on top of the head and knocking him into the bunkers, which were empty at the time.

He is now lying in a comatose state, and there are but slight hopes of his recovery. In addition to the concussion of the brain, he is evidently suffering from serious internal injuries, the nature of which is not yet known.

FANNY LAKE.—The steamer Fanny Lake has been lying at the wharf for the last two days, undergoing some slight repairs. She will probably go down to Crook's logging camp on Salmon Bay, to-morrow, after a raft of logs.

NEW STORES.—Work is going on rapidly on the store of Mr. W. W. White on the corner formerly occupied by Coulter's cooper shop, on first street. Mr. L. Reing has a gang of men at work on the lot adjoining, grading it, preparatory to the erection of another building of the same dimensions.

SEATTLE, Sept. 17.—Arrived, barkentine Grace Roberts, H. Dahler master, 18 days from San Francisco, with the following freight: Seattle—L. Reing, 30; S. Crichton, 6; L. COAL WHARF.—H. A. Atkins has been at work for about five weeks on the wharf for the Seattle Coal Co., adjoining the old one, and now has it built out some 500 feet. It is the intention to build it out about 100 feet more, and then transfer the track to it, tear up the old wharf and rebuild it entirely, making the completed wharf two hundred feet longer than the old one and twice the width. It is expected the work of pile-driving will be completed in about 6 weeks.

SEATTLE, Sept. 8.—Arrived, bark Jenny Pitts, A. K. Kelton Master, from San Francisco, consigned to Crawford & Harrington. The following is her report: Left San Francisco, August 19th, with a strong north wind until in Long 143° W., then with a N. W. wind to within 200 miles of Cape Flattery, then with a S. E. wind to Townsend. From Townsend she was towed up by the Goliath. The following is her freight list: Schwabacher Bros. & Co., 1050; Crawford & Harrington, 1395; L. Bettman, 45; S. Williams, 16; I. T. Gechan, 2; C. C. Bot, 41; E. T. Gerrish, 4.

There will be a grand exhibition of sword-swallowing, sleight of hand performing, fire-eating, etc., this evening, by Profs. Dunlap and Padgett at Bow's Skating rink.

DRAWN OFF.—The steamer Favorite has drawn off the route between Olympia and Victoria and in consequence the fare on the Pacific has been put up to \$5.

We have been furnished the following dimensions of the new schooner Juanita, lately launched here, by Mr. D. M. Littlefield, special surveyor for this District: Length, 68.7 ft.; breadth, 19.3 ft.; depth, 4.6; 48 tons register.

LOTTERY.—The attention of our authorities is called to a travelling mountebank who is running a lottery on the public street, in broad daylight. This is a crime punishable under the Territorial laws with a fine of \$500.

It is therefore ordered by the Court that, in the absence of a special showing by affidavit, costs be taxed against parties who plead over or amend as follows: 1. On amendment to a Complaint before answer, \$5 00. 2. On amendment to a Complaint after answer, \$10 00. 3. On amendment to answer before reply, \$5 00. 4. On amendment to answer after reply, \$10 00. 5. On demurrer overruled, the party demurring will be taxed, if he pleads over, \$5 00. 6. On demurrer sustained; if party amends, \$5 00. 7. [From the Colonist.] Last week's wash up of the following companies on Lightning Creek were as follows: Van Winkle, 850 oz.; Victoria, 730 oz.; Vulcan, 114 oz.; Vancouver, 110 oz. Value, \$32,472.

Weisner, the bogus watchmaker, who has been in every jail in the Province and who has just graduated from the penitentiary at New Westminster for watch stealing, has victimized a number of the people of Nanaimo by departing with their watches and jewelry.

The engineers after a careful examination and exploration, have decided that the line of rail way from Esquimalt to Nanaimo shall be run via Saanich Inlet, a route avoiding many of the almost insurmountable objects encountered by the first survey party, having been discovered.

On Friday last while Dr. Jackson was hunting near Colwood farm, his dogs started a large buck and ran him into the railway surveyors' camp. The buck as he neared the engineers' tent made a spring to leap over it, but miscalculated the distance and alighted on the top of the canvass, crashing through upon the occupants who were dining at the time, and were so surprised at the extraordinary appearance of the visitant that he bounded away before they could seize him.

From the scattered nature of gold mining in Cariboo compared with the palmy days when William Creek was in its glory, it is almost impossible for us now to furnish anything like a correct summary of mining intelligence. However, in spite of all that croakers in other parts of the Province may say, Cariboo still continues, and we believe will long continue, to be the main support of British Columbia. During the present month of August there has been melted and assayed, at that indispensable institution, the Government Assay Office, over three thousand seven hundred and sixty ounces of gold dust, valued at \$63,934. This, however, does not probably represent one-half of the gross yield of the district, as the Bank of British North America has its own assay office in Victoria, while a large amount is taken down by private individuals.

NEWS ITEMS. The Bulletin insinuates that base ball, in suffering with a severe attack of blind staggers.

Lieutenant-General Phil Sheridan favored Portlanders with the sight of his face and sound of his voice last Tuesday, amid much enthusiasm.

Farmer says C. Simmons, of Elma, Chehalis county, informs us that on Wednesday, while on his way from his home to this place, he encountered a battalion of the army worn among the Black Hills, about twenty miles west of this place, they were journeying, to the north-west and had left distinct evidence of their visit by stripping the tender branches and leaves from the underbrush and young maple and alder trees along the course from whence they came. Mr. Simmons did not stop to

count them, but drove his horses and cattle straight through their ranks causing great slaughter. No one knows where the invaders came from or appears to be anxious as to where they were going. Fortunately there are but few if any settlers in the direction they were taking.

We extract the following from the Gold Hill News, of August 24th: In our issue of yesterday we gave the substance of a telegraphic dispatch received from W. H. Virden, business manager of the News, in which he stated that his wife was seriously burned in the Ho Springs at Lake Tahoe. We got the following particulars from Dr. Kirby. They are the substance of a letter received by Frank Kenyon, of the Lyon county Times, from his wife, who is at Lake Tahoe: It appears that Mr. and Mrs. Virden, who were stopping at McKinney's, went across the lake yesterday morning to pay a visit to Mrs. Kenyon. Several of the ladies and gentlemen at the springs concluded to take a bath in the afternoon. Mr. Virden and his wife were in the adjoining rooms. After taking a steam bath Mrs. Virden attempted to take a shower bath, but could not get the apparatus to work. She stepped back a little to discover what was wrong, and fell through a hole in the floor of the room, which it appears was covered by a very thin piece of board. She was precipitated into the boiling water beneath the bath room and terribly scalded over her whole person. Mr. Virden, hearing her cries, broke in the door of the room and rescued her from her horrible position. The letter above referred to says that her injuries are of the most serious nature, and there is every reason to fear that they may result fatally.

THE PRINTER'S DEVIL.—Says the Cairport (Ill.) Gazette: The printing office devil of twenty years ago—what has become of him? Every body knew him as the sooty-faced, dirty-handed little imp who swept out, built fires, blacked the boss' boots, and with them every accessible patch of his own uncovered hide; who, to get rid of nursing baby, made a most fiendish use of pins, who, for divers reasons (and turpentine,) could never beguile the house-dog beyond the doorway; who, outraged the confidence of his playmates by selling them roller composition for jujube paste; who, with a gracious show of liberality, would give the "country boy" all the red ink he could carry in the pocket of his new pantaloons, and who could, with more certainty than any other animal living, dodge a boot-jack—this devil is, alas! a thing of the past. Ink-smear, rolling, gutturous, one suspended, no-shoe-string little wretch, he was with all his faults, patient under the stress of cuffed ears and cold victuals, and, by almost every printing office in the land, believed to be an absolute necessity. But alas! with the march of events, he has been swept away—with the sickle, the flail and the shovel plow, he is only of the past, and like them is a thing—only of memory. The editor of the Gazette knew him, has seen him emerge from his estate of dirt and cussedness to the excellence of honored manhood, or to sink to the still lower plane of vice and debauchery. We know the moral and physical little wriggler, and reach out now over an intervening chasm of twenty years or more to fold the dirty little devil to our mental bosom, and to bless him for the characteristics through which he won and delightedly maintained his appropriate appellation.

OLD SOLDIERS' STORIES.—Several powder-begrimed veterans gathered in a certain police station the other evening, says the Louisville Courier-Journal, to keep out of the rain for a few minutes, and while there discussed the late war.

"I remember," said one, "that a bullet passed clear through George Gay's body and never killed him." "I recollect," said another, "that a ball lodged in Bill Payson's lung and never was taken out, but he lived." "I," said a third, "know well when the doctors thought Henry Hill's life was gone up, as a 'minie' lodged within an inch of his heart, but he lived." "Jake Johnson's head was pierced by a bullet and he lived," exclaimed the last man but one. These remarks produced considerable surprise and excited speech, from all, save a tall, slim and sleepy individual, who waited till his companions concluded, and then drawled, in piping accents: "Those fellows was a little tough, I allow; but Jim Jones, who fit aside of me, was shot in the neck so that his head just hung by the skin." "Great heavens!" ejaculated all; "you don't mean to say he lived, do you?" "Oh, no; he died."

Telegraphic

New York, Sept. 1.—Sydney Dillon, of the representatives of the Atlantic and Pacific Telegraph Companies in conference with representatives of the Western Union Telegraph Company, denies that any proposition involving the sale or lease of the Atlantic and Pacific lines on the basis of 20 or 25 per cent of its capital stock has been suggested or accepted.

By the terms of the agreement between the Panama Railway and Pacific Mail Steamship Companies the business of both companies comprising earnings on freight and passenger carriage is to be divided. Of business the Panama will receive one-third. Business to Panama is to be equally divided. The agreement is for 47 years.

It is reported on the street that about three hundred thousand dollars, gold coin, has been sent overland to San Francisco.

POTTSVILLE, Penn., Sept. 1.—There was much excitement at Shenandoah this afternoon occasioned by the shooting of Thomas Sanger at Lehigh colliery. Sanger was inside boss for J. M. Hoston & Co. and was shot by five men, all strikers. He received six bullets and expired immediately. Another man, unknown, was also shot. The cause of the assassination is said to be that the miners became dissatisfied with Sanger a year ago and refused to work under him. A later telegram says two more men have been shot.

CHICAGO, Sept. 1.—A Washington special says the statement is made upon high authority that the forthcoming message to Congress will contain a most urgent recommendation that the Indian Bureau be turned over to the management of the War Department. This is accepted as evidence that the President has finally become convinced that at least some of the frauds charged upon the present management of the Indian service, have at least some foundation in fact. It also gives further color to the rumor that Delano will be superseded by J. Russell Jones of Illinois, as it is hardly probable that after having in this manner reflected upon Secretary Delano the President would retain him in the Cabinet.

WASHINGTON, Sept. 1.—The reduction of the public debt during August was \$1,585,149.

An excursion composed of persons from different parts of the United States under the auspices of the California immigrant union will leave Chicago for California on the 11th inst.

STOCKHOLM, Sept. 1.—Swedish banks refuse to cash Bank of England notes on account of the number of counterfeits reported to be in circulation.

SAN FRANCISCO, Sept. 1.—The Merchants' Exchange Bank will open to-morrow morning.

BOSTON, Aug. 30.—Yesterday at Hopkinstown a boy named Morris Ryan, aged 15, started down stairs with a loaded gun, intending to shoot a cat, when his sister Mary, aged 16, who desired to save the cat's life, caught her brother by the shoulder to pull him back. At the same time two other sisters, younger than Mary, came to the head of the stairs. In a scuffle between Morris and Mary the gun went off, killing Mary and one of the other sisters. The third sister was wounded in the arm, and Morris was wounded in the leg slightly.

New York, Sept. 2.—President Orton of the Western Union Telegraph Company, speaking in connection with the proposition of consolidating with the Atlantic and Pacific Companies, negotiations for which consolidating, to all appearances are entirely broken off, says that the statement that it was the intention of the Western Union Company to advance rates to the West and elsewhere is wholly incorrect. "I have no desire to do a very large business between distant points at the same price as charged for messages for a short distance, but I have great ambition to be able to send messages to any part of the United States at a cost in no case greater than one dollar. The Western Union can reduce rates to the price mentioned sooner if it can have the whole telegraph business of the country under its control than if its plans are obstructed by the interference of competing lines."

SAN FRANCISCO, Sept. 2.—D. O. Mills authorizes the statement that the capitalists interested in the Bank of California will obtain transfers of stock from holders, relieving holders from liabilities, and guaranteeing them against loss and will subscribe funds to place the bank in a condition to pay all demands and put it on a sound basis. Should any surplus arise in settlement it will be credited pro rata to stockholders. The arrangement will go into effect in a few days.

The recent authoritative assurance of the speedy reopening of the Bank of California has an excellent effect on business prospects. The executive committee of the Board of Brokers to-day appointed a business meeting of the board to-morrow to consult on the resumption of business. Great feeling of confidence prevails.

The Pacific Mail Company's new line to Australia will commence October 9th with the Vasco de Gama, followed by the Colima. Monthly service via Honolulu and Auckland to Sydney with steam connection to Melbourne and from Brindisi here.

The city election returns indicate a close fight for Mayor between Clayton, on the Chronicle ticket and Bryant, Democratic ring candidate. Independents feel hopeful of a good showing in the City officers generally. Ellis, (Ind.) for Chief of Police, is thought to have beaten Crowley. It may require the official returns to decide the State. It is conceded to Irwin and the Democratic state ticket by a large plurality. Present advices give Irwin, in San Francisco 4,928; Phelps, 3,577; Bidwell, 2,148; in precincts in which the count is completed later, indications are that Wigginton leads Houghton for Congress in the fourth district. Piper is thought to be ahead in the first district, with a close fight between Swift and Rankin. Luttrell is probably elected in the third district. Pago and Larkin are running close in the second district. There are no returns of legislative tickets but the Democrats will undoubtedly have a plurality in both houses if not a majority.

A reporter interviewing widow of Mosher, who abducted Charlie, Ross drew statements from her which indicate her knowledge that the boy is well and where he can be procured. After trying to evade every inquiry, declaring she had never seen the boy, she replied to a direct question whether he is living, "I don't know. I am sure he is living as that I breathe. I would not believe him dead unless I saw his body before me." It is surmised that the boy may be found after the trial of Westerfield, for complicity in the abduction, is ended.

Officers of the direct United States cable in this city are in communication with the steamer Faraday and if the weather moderates it is confidently expected the cable will be in working order to-morrow.

LONDON, Sept. 2.—A Vienna dispatch to the News says it is asserted that representatives of Austria at Belgrade notified Serbia that willful aggression on her part against Turkey may make it necessary for Austria to send troops to Serbia to preserve neutrality. An article in a semi-official journal of Constantinople resents foreign interference and declares Turkey fully equal to cope with rebellion and will not cede an inch of territory in deference to demonstrations. The Times dispatch from Berlin states that the Porte has declared in reply to cautions of the Powers that he is willing to refrain from offensive measures against Serbia provided the Serbian Government does not directly or indirectly assist the insurgents.

MONTREAL, Sept. 2.—This afternoon members of the Canadian Institute and some 300 friends accompanied the body of Guiford to the Catholic Cemetery from the Protestant. Meantime, 50 French Canadian roughs in and about the gate were gathered, cursing Guiford and vowing they would never let his bones lie in consecrated ground. On the approach of the procession a rush was made by the mob, who barred the gates and refused entrance. The hearse was driven to the graveyard, and Mr. Donicker sent a bailiff to notify the guardians of the cemetery that the hearse was refused admission, also to the city authorities demanding police and military aid. 2,000 people were present and at half-past three the mob made a rush for the hearse crying, "curse him, curse him" and stoned it off the ground. The driver was injured and many were bruised and trampled upon. At 4:45 it was decided that it was impossible to gain admission, and the hearse moved off amid the derisive cheers of the mob. Several fights took place.

MONTREAL, Sept. 3.—The Priests deny that they instigated the riot. Feeling runs very high between Catholics and Protestants. The Orangemen talk of turning out at the funeral.

SAN FRANCISCO, Sept. 3.—The financial outlook improves every day. Generally business is resuming its usual channels. The recent coin famine is nearly over and a much better feeling prevails. The affairs of the Bank of California are progressing favorably. In an interview with a prominent gentleman of the directory this afternoon, assurances were given that the best prospects existed of its speedy reopening. Guarantee of capital to the amount of several millions are already subscribed and more is promised. Creditors exhibit a disposition to grant a reasonable extension on their demands and stockholders without exception, so far as seen, express their willingness to enter into the proposed arrangement. A further examination into the state of its assets warrants the assertion that their condition is better than at first supposed. The directors at present prefer to make public no detailed statement as to the assets and liabilities, though information was afforded to assist in obtaining a general knowledge of the condition of the bank which goes far to confirm the recent favorable reports. No definite time was stated for resumption, but a delay of about two weeks was intimated, at which time a full statement of affairs will be made public.

The San Francisco stock exchange held a meeting to-day. \$250,000 was subscribed to guarantee the resumption of the bank and subscriptions were made by individual members amounting in the aggregate to from \$250,000 to \$400,000.

The inquest in the case of Raiston was concluded to-day. The report of the chemist showed no evidence of poison in the stomach and the jury returned a verdict of accidental death from congestion of the vital organs and drowning.

Result of election in this city is still undecided.

ICE COLD SODA WATER at Morrill's Drug Store. April 16.

A PETRIFIED PATRIOT.—Mazzini was refused Christian burial, but a doctor begged the privilege of preserving the body by a process of petrification of his own invention. He was allowed to experiment, and the result is that the body now reposes on a pedestal clad in a dark dressing gown with scarlet bindings, black pantaloons, kid slippers, and black kid gloves with the fingers off like mits. The flesh is of a bluish gray color, and is as hard as a brickbat. He reposes in the little temple without Campo Santo, Genoa, while near at hand, just over the wall, the ashes of his mother are mingled with consecrated earth. The eyes of this stone body are wide open, the hair and mustache very life-like.

TWO REASONS.—"Here's a boy down here who wants to lick me!" exclaimed a bootblack as he approached a policeman on Gravel street yesterday. "He does, eh? What for?" "Says I called him names but I didn't." "Are you afraid of him?" "No, not exactly, but I don't want to fight. One reason is, I promised my dying mother I wouldn't, and the other is 'cause he's bigger'n I am!"—Detroit Free Press.
