FROM DAILY OF THURSDAY.

### Snohomish Correspondence.

Sept. 24, 1875.

EDITOR DISPATCH: The Fanny Lake arrived to-day bringing freight and passengers. She left for Seattle at 4 o'clock.

We were visited to-day by a very heavy shower from the North West. The rains are damaging the grain to some extent. We still live in hopes of more fair weather yet.

The latest from the lava beds indicate no disposition to renew hostility.

Mr. J. G. Marstonsen has nearly completed his new house on Fill Chuck, one and one-half miles from town. Our enterprising Sheriff B. Stretch is also altering and improving his dwelling on his farm four and one-half miles up the river. The ladies think it means something that such conduct calls for an explanation. They begin to think he has found an affinity—struck oil. Perhaps Prof. McDonald has paired him off.

Prof. McDonald and Dr. Rice left for Seattle and Olympia on the Fanny Lake. They intend to spend the holidays East with the "loved ones at home." They have made many friends here and have played the role of perfect gentleman during their brief sojourn. Success attend them, wherever they go and if they come to our little community again they will be welcomed.

The new store of Packard & Jackson is now completed ready for the reception of merchandise. It is substantially built and neatly fitted up, of large dimensions and an ornament to the town.

Your correspondent overheard two wood choppers the other day bragging about their heads. One said he saw a limb 6 inches through, 10 feet long, fall from the top of a pine tree, and strike the chopper on the top of the head, break in two, and in three weeks time that chopper was up and at it again. "Po, po," says the other, "that's nothing. I was with a gang in the Maine pines once, cutting spars, when one of the trees went back on the chopper, and struck the nigger cock right square on the top of the head, drove him three feet into the frozen ground and broke the spar short off in the middle." "Well, it killed him, didn't it?" "No since we chopped him out of the frozen ground with our axes, and he went home and got supper for the whole crew that very same night—and don't you think, our boss was so all-fired mean, he took the value of that spar out of that cooks wages when the gang was paid off in the spring." "Was that so?" "Be dogoned if it wasn't." "Well, that beats my time, lets go over to the Snohomish Exchange and take something." And they went over to the bar and "smiled."

Sept. 5th, 1875.

Steamer Yakama arrived early this morning from Port Gamble. She brought goods and lumber for E. C. Ferguson, and is now taking on board a cargo of ship knees. That gives us four steamers a week. The Yakima two trips and Zephyr and Fanny Lake one each. Good. It is almost certain now that we are to have a small light draft steamer for the upper Snohomish and the Snoqualmie. If not put on this fall, another season will not pass without it. The extension of logging enterprises and the rapid settlement of the tributaries of the Snohomish renders it absolutely necessary that these upper waters should have steam communication.

Prof. McDonald may be a great man. At any rate, we all thought so when he was down here. But we are getting our eyes open. We think he has put his foot in it once to often. He examined nearly every head in town, gave charts for the same price, \$2 50, cash up. He also examines animals heads, fills out charts for them for half price. He also gives lectures on "common sense," free, but he don't forget to pass round the hat just to pay expenses. Will he took us all in. The men wondered at him, the ladies got stuck after him and the little children cried after him. Well, he left us, and we never would have found out how badly we were sold, had not one of our restless spirits taken it into his head to compare the charts of the human head with some of the animals. One of our farmers has a favorite mule. On comparing the chart of that mule with the charts given to several of our county officials, they just agreed to a mark, only the mules consciousness and perceptive faculties were the largest. He makes match two, and on comparing the chart of some of the ladies he paired off with an honest rancher's favorite filly, you couldn't tell one from the other, only by the name on the cover. One of our landlords owns a premium porker, and the chart of his head corresponds exactly with one of our boss loggers. One of our saloon keeper's favorite spaniel's chart is a far simle of one given one of our rising young merchants. Now we don't like it. But we can't help it. We are sold and he's got the money. He's gone from

our gaze; gone beyond the reach of our shot guns, rifles, revolvers, broom sticks, mop handles, flat irons and hot water.

### BAPTIST ASSOCIATION.

The Puget Sound Baptist Association will meet at the Baptist Church in this City to-morrow, Friday, at 10, a. m. The introductory sermon will be preached by Rev. J. B. H. Hewitt at 11, a. m. At 7 1/2, p. m., there will be preaching by Rev. P. H. Harper. The association will be in session Friday, Saturday and Sunday. Several ministers from abroad are in town, and interesting services may be expected.

During the meeting of the association an effort will be made to raise the debt on the fine edifice occupied by the Baptist Church of this city, and judging from several hopeful circumstances, it is confidently expected to be successful.

SALVADOR.—The P. M. S. S. Salvador arrived here this morning at 9 o'clock from San Francisco, via Victoria. She is a brigantine-rigged, iron screw steamer of 1000 tons register.

Her officers are: Captain A. H. Jones; 1st Officer, W. J. Russell; Purser, George McLain; Chief Engineer, Jas. Mahoney. She brings up the following cabin passengers: for Seattle, 26; Tacoma, 13; Portland, 7; Port Townsend, 3.

Her over-land passengers were transferred to the Zephyr, which left at noon, and the Salvador is now under the Talbot bunkers, taking on her load of 400 tons.

ACROSS THE PLAINS.—John M. Bateman and family arrived here this morning, in an old-fashioned canvas-covered wagon, drawn by a team of four mules, from Boone county, Indiana, via Walla and the Snoqualmie Pass.

He left on the 19th day of May, 1874, with a family of 7, and has travelled the entire distance by team, spending four months at Longtown, Kansas, and one month in Walla Walla. He has decided to settle here, as he can't get any further west without taking to water. He is the advance guard of a large wagon immigration now en route to this coast.

We had a visit this morning from Haslett, the pilgrim printer, more commonly known as "Friday" and "Denver." He is the king of tramp printers, having tramped over the entire coast, and claims to have set type on every paper West of the Rockies. He travels afoot and knows and is known to every printer on the Pacific Coast. He never forgets a face or a name. His last visit to this place was some five years ago, when he worked for a while on the *Intelligencer*.

PACIFIC.—The steamer Pacific, Captain Jeff. Howell, arrived here this morning at about half-past 11, from San Francisco. She brought up 110 passengers for Sound ports, 60 of whom were for Seattle, and 206 tons of freight, 138 of which were for this place.

Yester's wharf presented a rather lively appearance this morning with two fine ocean steamers lying alongside it discharging.

REAL ESTATE.—The following quiet claim deeds were filed for record yesterday: John J. Sealey to Daniel D. Post, 172 rods more or less in sec. 1, township 22, N. of R. 4 E.; \$200.

Wm. N. Bell and wife to Eck- enburger, lot 4, in block 25; A. A. Denny's addition to Bell & Denny's plat; \$150.

3 deeds of the Seattle Home- stead Association to various parties.

PENMANSHIP.—Prof. W. E. Wells will give lessons in Spenserian penmanship at the Central School house, commencing on Monday next. The Prof. comes well recommended.

ARRIVED.—Dr. Jas. Hall, the new Congregational minister, has arrived in this city and will preach in the Congregational Church, on Sunday next. The Dr. is from Beloit, Wis.

The Pacific will leave for San Francisco on Saturday.—Fare down: cabin, \$7 50; steerage, \$4 00. Under the present rates, it costs about the same to go to San Francisco as it does to Victoria.

NEW SIDEWALK.—Hon. Bailey Gatzert is laying a new sidewalk in front of his residence on James Street.

### RECOVERING.

Joseph Frazier, the carpenter and architect of the Talbot coal bunker, who was so seriously injured a day or so ago, is now in a fair way to recover. Dr. Calhoun thinks he is now conscious and knows those who visit him.

CATTLE.—We are informed by the different butchers that they have an unusually large amount of cattle now en route to the Sound from the Klickitat and Yakima country. There are a good many Kikkitians and Yakimians in this city to-day, but no further reports about the mines.

The S. S. Salvador will sail for San Francisco to-night, via Port Townsend and Victoria, at 12 o'clock. Fare down is the same on her as on the Pacific, \$7 50 cabin; \$4 00 steerage.

The steamer Libby arrived here this morning at 1 o'clock, from Bellingham Bay and way ports. She was slightly detained by being caught by the low tide in Swinomish slough and grounding in the mud.

MARRIED.—At the M. E. Parsonage, Seattle, by Rev. A. Atwood, Capt. David H. Hill to Cordelia J. Maxim, all of Seattle.

DIED.—In this city, on the 8th inst., Henry Wright, aged 52. The funeral took place yesterday.

ARRIVED, barkentine Emma Augusta. She will load with some 800,000 feet of lumber at Colman's mill.

Thomas Bagugas, a Chilian from Port Madison, was brought over to this city and admitted to Dr. Weed's hospital. He has a badly mangled leg.

The Zephyr took up a large number of passengers to Tacoma this morning at 9 o'clock.

### FROM DAILY OF SATURDAY.

PACIFIC.—The steamship Pacific left here this morning at half past 11 o'clock. She took down some 150 tons of Talbot coal and 58 cords of cottonwood bolts, 25 from this place and 33 from Tacoma. She also took down a quantity of miscellaneous freight, consisting of hides, salmon, wool, pelts and furs of various kinds, clams, etc. The following is her passenger list:

OVERBOARD.—A young man in the last stage of intoxication sat down on the edge of Yester's wharf and fell asleep. As a natural consequence he shortly thereafter made a hole in the water. A sailor from the Pacific sprang after him with a rope, and put a bowline under his arms by which he was hauled out in a slightly sobered and decidedly damp condition, and placed tenderly on a pile of lumber to dry.

The barkentine Harrison, Captain Hatch, 18 days from San Francisco, arrived here last night.

A new sidewalk, ten feet wide, is being laid in front of the building now being fitted up by Mr. Brouillet.

To-day is the last day of the session of the District Court.

La Conner Correspondence.—Sept. 9th, 1875.

EDITOR DISPATCH: The weather has cleared up and the crops are very little damaged, as has been reported. Weather looks as if it was settled and the farmers will yet, I think, succeed in saving the crops with but little loss, but there will be some later than usual. Everybody is pressed into service, and put to work in the fields, and while good weather lasts every minute of it will be used to the best advantage and I am sure we will all come out right yet. The Committee on Home Mission reported that, in view of the contemplated departure of Bro. S. E. Stearns to Eastern Oregon, we deem it necessary to secure the appointment of a general missionary for the Puget Sound country. This report brought out some very interesting items from Bro's Stearns, Davis, Wirth and Harper, concerning the fields now open for occupation, after which resolutions were presented, recommending the appointment of a general missionary for the Puget Sound country.

Rev. A. Atwood of the M. E. Church and Rev. Hall pastor of the Congregationalist Church were introduced to the Association, and invited to participate in its deliberations.

A motion was made and carried that the Common Home and Foreign, Missions and Sunday Schools report Saturday 10 o'clock a. m., Common Resolutions, Saturday 2 o'clock p. m.

Meeting adjourned till 7 o'clock p. m.

Meeting convened at 7 o'clock. Prayer by Elder B. L. Davis. The Baptist Church at White River, was received into the Association, and the hand of welcome extended to its delegates by the Moderator.

Two prisoners, Jones, the notorious burglar, and Schwabson, the slayer of Kruger, broke jail in this place on Thursday night. They were confined in a small cell apart from the others, in the back part of the jail, and heavily ironed. They succeeded in sawing off their irons and making an aperture in the floor by which means they escaped; appearances indicate that they have been secretly at work for some time and must have had outside help to succeed in their purpose. Jones is a mechanic and our readers will remember the sensation he created recently by being falsely identified as Val. S. Howe.—P. T. Argus.

FAULT FAILURE.—At this writing peaches are a luxury unknown in the Walls Walla market, and the apples, plums, etc., are of inferior quality. Last winter worked sad havoc with the orchards in this valley and damaged them to an extent that will require years to require

Statesman.

A school teacher in Washington county, we are informed, lately beat two children of Mr. John Brugger unmercifully with an oak ruler, bruising them till the parts where the blows were inflicted were black for days afterward. The wrong for which the unhuman punishment was administered, is said to have been merely the mispronunciation of a word in their lesson. If the truth is as represented, the fellow should be prosecuted to the end of the law, and then exposed throughout the country, as a protection to other children against similar brutality.—Oregonian.

The troops that have been on duty in the Wallowa country have been ordered to return to Fort Walla Walla.

NASHVILLE, Sept. 9.—A Decatur (Ala.) special says an organized band of counterfeiters, with headquarters at St. Louis, have been detected. Among them are several wealthy and prominent citizens of the state. The Faxon & Canton national bank, \$20 and \$50, legal tenders, and 50-cent currency, are the bills counterfeited. St. Louis seems to be the supplying point. Edwards, Gordon, Bowers, Dunn and the Mills are wholesale dealers. The end is not yet reached. If the squads under the direction of the chief officer of the secret service division are to be believed, it is a gigantic combination of counterfeiters.

SPRINGFIELD, Sept. 13.—Moody and Sankey held three numerous attended services at Norfolk yesterday. Tuesday they will decide on a revival campaign.

PHILADELPHIA, Pa., Sept. 13.—The new fast mail train by the Pennsylvania railroad which left New York at 4:20 this morning arrived at West Philadelphia at 9:10 and at Harrisburg at 10:25 A. M., exact schedule time.

New York, Sept. 13.—Judge Gilbert of the Supreme Court of Brooklyn, today rendered a decision in the civil rights case, wherein Wm. F. Johnson, (colored,) sought to compel the principle of the public school to admit his son instead of sending him to the school provided for colored children. Court holds that common schools are a public charity, but benefits conferred by them are a free gift from the State and like every other donor the State may prescribe in what manner and upon what terms and conditions the gift may be enjoyed. The statute, by guaranteeing equal privileges, does not confer the right to enjoy them in common with any particular school. The motion for mandamus is denied.

A substitute was offered providing that the exchange through its special committee confer with the executive committee of the San Francisco Stock and Exchange Board to the end that both board and exchange be opened at the same time. The substitute was adopted.

Collection day is passing off smoothly. Nobody is pinched and in most cases payments are made on demand. The mercantile community is standing the best, even better than expected.

LATER.—Collection day has passed with no stoppages. Bills generally have been paid better than was expected, owing to the large amounts passed over at last collection.

It seems probable now that the re-opening of the Bank of California will be delayed beyond the 15th inst., probably until the opening of the Bank of Nevada about the 1st proximo.

New York, Sept. 14.—Fixley at a meeting last night attacked the directors of the Bank of California and denies there was any defalcation. He said the directors lost their heads and acted like a lot of school girls in a fire and passed a resolution which broke Ralston's heart.

About half-past ten this morning while experiments were being made with Utah's patent aerial ladder in Rutgers Square, an appalling accident occurred which resulted in the death of Engineer Wm. H. Walsh, Philip Morse and William Hughes and of at least two or three others. It appears that as soon as the ladder had been put together and placed in position in the centre of the square, the chief mounted to the top followed by eight or ten of his men. The ladder looked to be nearly 100 feet in height. The men had not been on the ladder more than a minute when it swayed backward and forward and suddenly snapped in two. The men were instantly precipitated to the ground, 3 of them being killed outright and as many more dangerously hurt if not fatally.

The direct cable company to-morrow when the line opens for business will transmit messages between America and Europe for 25 cents, currency, per word.

District Attorney Britton of Brooklyn addressed letters to Henry W. Beecher and Francis D. Moulton, suggesting that public interests would be best served by entering a nolle prosequi in the case of Beecher against Moulton for libel. Beecher in reply, concurs. Moulton says he cannot acquiesce in the action proposed, and concludes his letter as follows: I am indicted for libel in charging Rev. Henry Ward Beecher with criminal intercourse with female members of his congregation. The charge is true. He knows it to be and the Supreme Bench will some day reveal the truth and vindicate the right for speaking the truth and that too under challenge, and in defense of my own character and the character of her whose good name is dearer to me than life itself, I have been arraigned as a criminal and compelled like a felon to plead with uplifted hands, subjected to the ignominy of bonds against an escape from Justice, loaded with obloquy by the public press, frowned upon and avoided by society, and now after the indictment against me has served its purpose by discrediting in advance the witness of Rev. Mr. Beecher's guilt, and it is as apparent to you as it is to the world that I am innocent and must be acquitted. At this moment and under these circumstances I am requested to acquiesce in a nolle prosequi and to suffer by my acquiescence the penalty of his perjured persecutions. Never, sir, never, I demand a trial and shall be ready on any reasonable notice to make good my defense. Very Respectfully, FRANCIS D. MOULTON.

A London dispatch says at the opening of business to-day the chief feature in the American market was the extreme dullness which prevailed in Erie and its further decline of one-half.

A private telegram has been received in this city from Toronto, announcing that a frightful accident occurred on the Grand Trunk Railroad this morning. A train was thrown from the track and several employees on the train killed. The whole train is a perfect wreck. To add to the horror the cars caught fire and burned a number of cattle which were buried under the debris and actually roasted to death it being impossible to extricate them.

MADRID, Sept. 14.—Regarding the recent ministerial crisis it has transpired that three ministers who represented the old party, being opposed to universal suffrage, resigned contrary to the wishes of Calveroz De Castello who urged that the Government ought to re-

spect a state of affairs legally established and leave to a future Cortes the task of modifying the law if any alteration was then considered necessary.

DEEP CREEK, Sept. 11.—Indian interpreter William Lee, from Grantsville, Utah, arrived last night to inquire into the cause of the Indian trouble. He had an interview with the Indians to-day and found that there were two circumstances connected with the affair. First, there were two prospectors who came to Indian Tob's camp, in Snake Valley, during the absence of himself and squaw. When they returned to the camp, the white men offered Tob \$50 for his squaw, which he refused. They then wanted him to show them a quartz ledge and spring on the mountain. When they arrived at the ledge one of them fell behind a rock and drew his pistol. The Indian discovering the act started to run, when the white man fired four shots at him, one striking him in the back, slightly wounding him. No shots were fired by the Indian.

The other circumstance occurred in the Sacramento mining district, Spring valley. A white man discovered two Indians, one riding a horse he had lost a year previous, and apprised him of the fact and that he wanted the horse. The Indian refused to give it up and ran away. The white man procured the help of eight other men, intercepted the Indians and freed on them, killing them both.

CHICAGO, Sept. 13.—Seven passengers belonging to the Mendota, who were picked up by the schooner Addie off Manitowish, arrived here to-day. One of the crew says the captain took to his boat and left his wife and aged father to perish. The steward stood with his wife and went down with her. The story is related by another member of the crew, who speaks in high terms of the conduct of the captain and other officers. The Mendota was valued at \$30,000; not insured. Her cargo of coal was burned.

LOUISVILLE, Ky., Sept. 13.—The Courier Journal's Nashville special says that five more counterfeiters had been brought to Decatur. The band was up in the hundreds, extending through Missouri, Kentucky, Tennessee, Mississippi, Texas and back north through St. Louis. The band have a regular constitution and by-laws, and are composed of the most prominent in the states mentioned. Counterfeit fives of the National Bank of Paxton, Illinois, and Traders Bank of Chicago; also 20's and 50's United States treasury notes and 50 cent scrip, which was mostly circulated in Tennessee among the poorer classes and farmers. It is estimated that \$100,000 had been distributed. A basketful was captured with the men arrested. Some had money in the seams of their clothes and hats, and wherever it could be hidden. Detectives have been working the case up six months.

CHICAGO, Sept. 13.—The propeller Depero arrived in Milwaukee yesterday, and the officers of her gave a brief report of the foundering of the steam barge Mendota. The Mendota, with the barge Morning Star, was sailing along the west shore of Lake Michigan on Thursday night, and at a point nearly opposite Point Betsey she foundered and was soon sinking. The crew and passengers numbering twenty persons in all. The life-boat was launched and seven of the persons on board the ill-fated steamer got into her and the remaining 13 went down with the boat. The life-boat reached Manitowish in safety.

MIDDLE LIFE.—The maid of sixteen disappointed in her handsome boy lover, will grieve and pine till she is twenty, then deny that she ever cared for him. The man whose intellect has accumulated a fund of knowledge, since the pretty butterfly he once tried to capture has eluded his grasp, now smiles at his own folly, and kisses more fervently the beautiful woman he calls wife. The many vain desires to attain to some unthought-of popularity, grow weaker as we approach the middle age of life. The thought of fame lessens, and if religious sentiment is developed, a desire to be good rather than great less important after middle life.

A Georgia man who rode on to see the Coroner the other day, confidentially remarked to the individual that it was astonishing to see how high a nigger in a watermelon patch can jump when you fire at him from behind. The Coroner smiled slowly and then proceeded to hunt up a jury.

S. F. COOMBS, AGENT FOR THE MUTUAL LIFE INSURANCE CO. OF NEW YORK.

Assets - \$72,500,000 ALSO AGENT FOR THE Assurance Corporation, Established, 1720, Cash Assets, \$14,500,000.

COMPARISONS BETWEEN THE Mutual Life Insurance Co. OF NEW YORK, AND THE PACIFIC MUTUAL OF CALIFORNIA

From the sworn Statements of each Company to the Insurance Commissioners of their respective States for the year ending, December 31st, 1874

Mutual Life Insurance Company:

Table with 2 columns: Item and Amount. Assets, ALL CASH: \$72,191,288 23. Liabilities: \$5,787,397 49. Surplus belonging to Policy Holders: \$ 8,403,900 75. Total Income for the year: \$19,857,153 30. Expenses & Taxes: \$ 1,593,190 84. Ratio of Expenses and Taxes to income: 8.02 per cent. Total Disbursements for the year: \$13,062,306 37. Paid to Policy Holders for Death, Claims, Dividends and Surrenders: \$11,469,708 57. being 87.8 per cent. of the total payments. Paid for all expenses and taxes: \$1,593,190 84. being 12.2 per cent. of the total payments.

PACIFIC MUTUAL:

Table with 2 columns: Item and Amount. Assets (including \$439,111 24 in notes): \$1,122,066 57. Liabilities: \$ 777,644 30. Surplus (apparently): \$344,422 22. Capital Stock, (Cash, \$111,111 11) (Notes, 277,777 77): 388,888 88. Capital Impaired: \$ 44,456 66. Total Income for the year: \$383,493 71. Expenses and Taxes: 113,441 07. Ratio of Expenses to Income: 29.32 per cent. Total Disbursements for the year: \$334,060 96. Paid to Policy Holders for Death, Claims, etc.: \$114,465 04. being 34.22 per cent. of the total payment. Paid for Expenses and Taxes: 219,995 92. being 65.78 per cent. of the total payment.

THE ABOVE COMPARISONS SHOW,

That the expenses of management and taxes in the Mutual Life, cost \$8.02 for every \$100 received, for premiums and interest, while the same cost the Pacific Mutual \$29.32, making a difference in actual cost to the policy holders of \$21.30 for each \$100 they contribute to the companies.

That of the total disbursements for the year by the Mutual Life \$87.80 of every \$100 was actually paid out to its policy holders, while the Pacific Mutual only paid \$34.22 per \$100 in the same way.

That only \$12.20 of each \$100 of disbursements by the Mutual Life was expended for any purpose other than direct payments to policy holders, while the Pacific Mutual consumed \$65.28 out of every \$100 disbursed, in expenses, in the purchase of a ruinous contract, made with its former agents and in dividends to stockholders.

That the surplus of the Mutual Life is \$8,403,900 75 ALL CASH, while the surplus of the Pacific Mutual is \$344,422 22, and among its assets are included notes to the amount of \$439,111 24 and that if the Pacific had desired to pay its debts on the 1st of January last, its stockholders would have been minus \$44,456 66 of the capital put in on the organization of the company seven years before.

This illustrates the very profitable business done by the Pacific and shows how the promises of irresponsible agents, traveling through the Territory, can be fulfilled, as regards dividends &c. It also shows the reason why new-fangled plans and advanced dividend schemes are adopted to keep the shaky concern on its legs a little longer.

CAUTION.—In your intercourse with the agents of this company, do not take their statements given you from their private memorandum books, but demand the printed documents of the company and see what they promise. You will find it, as it has always been, since they started seven years ago, what they confidently expect to do, and these confident expectations have never been realized.

The Mutual Life issues every desirable style of policy and furnishes LEGITIMATE INSURANCE on the purely mutual plan, every dollar of surplus payments being returned to the policy holder in cash or increased insurance.

DISTRICT COURT.—The session of the District Court at this place expired by limitation of law at 12 o'clock last night. During this session there were some 70 civil suits, 10 criminal cases and 5 U. S. cases before the Court, all of which, with the exception of two or three Equity suits and one U. S. case, were disposed of.

LIBERAL CONTRIBUTION.—In the Baptist Church last evening at the conclusion of the services, an effort was made to raise the sum of \$1,500 to pay off a mortgage on the Church property. The congregation responded liberally and before they left the Church, the sum of \$1,200 was raised. Outside contributions to-day have raised the amount to something over \$1,400, with every prospect of obtaining the rest.

UNIVERSITY.—Studies were resumed at the Territorial University this morning.

SHIP YARD.—The new scow for the Talbot Coal Co., now on the ways at Hammond's shipyard, will be ready to launch on Wednesday next. Work on this scow commenced just a week ago to-day. It is the 5th scow built at Mr. Hammond's shipyard since last October and is about 84 feet long and 20 wide. Immediately after this scow is launched, a large one for the Renton Coal Co., 100x20, will be commenced.

The steaming Favorite goes on the ways this afternoon to undergo a general fitting up and strengthening for the Sound towing.

The work now being done in this yard requires the constant employment of fifteen men.

BELL TOWN.—This little place is growing rapidly and its citizens are exhibiting a good deal of enterprise. There are now three new dwelling houses building there, besides other improvements. In addition to this, they are at work building a sidewalk from Bell Town to the railroad track, a distance of rather over half a mile, entirely at their own expense. About 150 yards of the timber and brush has already been slashed and work on the sidewalk has started in. When the sidewalk is completed, this will be a very pretty place for private residences.

REAL ESTATE.—The following deed was recorded to-day: Almira Kidd to Jas. Griffith, in trust for his son, James W. Griffith, lots 7 and 8, block 9, A. Kidd's addition; \$100.

CITY BOOT AND SHOE STORE.—M. McAndrews has just received the largest stock of boots and shoes ever shipped north of San Francisco, all of which were selected by himself. He understands selecting good stock and we all know him to be a good mechanic and experienced dealer in boots and shoes. Give him a call. You will find it the cheapest place in town to buy good goods. All work warranted. If any of my work rips I will repair it free of charge.

M. McAndrews. N. B.—I keep no Peter Funk goods.

Card of Thanks

This is to certify that I have received from Mr. S. F. Coombs, up to this date \$359 00 from the citizens of Seattle, a contribution to assist me on account of the fire in my store, July 19th 1875, for which they have my unbounded thanks and I hope that my conduct will always merit your esteem which has been evinced in this case of my trial. In connection with this I deem it necessary to make one or two statements: I was away from my store about an hour before the fire, had no insurance, and all to lose and nothing to gain. In my opinion the fire could not have been caused by accident but by design over which I had no control. There was not more than eight or ten pounds of powder in the store, which I was the humble instrument to remove just in time to save an explosion. Again allow me to thank you for your kindness.

T. P. FREEMAN. Sept. 13th 1875.

From Daily of Tuesday.

The Zephyr left for Olympia this morning at about 9 o'clock, with a large number of passengers, and a very large amount of freight.

R. Gray, drunk and breach of the peace. Fined \$1 and costs.

The work of rigging the new schooner Juanita is progressing rapidly. Her lower-masts have been gotten on board but are not stepped yet and riggers are at work cutting and fitting her lower rigging, etc.

Mr. J. Sproston, Superintendent of agencies of the Mutual Life Insurance Co. of New York is in town. He represents the best known and probably the most reliable Life Insurance Co. in this country. Mr. S. F. Coombs is the resident agent.

THEATRE.—A telegram has just been received announcing that Fanny Morgan Phelps and a theatrical troupe will be in this city on the last of the week, and will perform on Saturday, Monday, Tuesday and Wednesday. The star of the troupe is Mr. Jas. Hernes.

DIED.—In this city, at 12 1/2 p. m. 16-day Mrs. Augusta Schmiege, wife of Martin Schmiege, aged 34 years and ten days. Deceased had been suffering from dropsy and heart disease for some time and death was a happy release from her sufferings. The funeral takes place to-morrow at 1 o'clock.

REAL ESTATE.—John Cowan to Jas. Riley, the Riley donation claim on Muckleshort Prairie, consisting of 160 acres; \$1,500. There were also recorded 7 land patents to Ira W. Utter, of lots and quarter sections, aggregating 487.41 acres.

FANNY LAKE.—The Fanny Lake left here on Sunday, went down to Salmon Bay and towed out a boom of logs for the Mastick. She then went up the bay and took on the entire outfit of Crook's logging camp, which she took to the Nisqually River, going up the river some three miles. She then returned here, arriving at 10 o'clock last night.

A Card.

SEATTLE, Sept. 14, 1875. The undersigned hereby returns his sincere thanks on behalf of the Baptist Church of this city to the citizens of Seattle and others who contributed so heartily and generously the sum of \$1,500, by means of which the heavy debt resting upon the church property has been liquidated.

S. P. ANDREWS, President Board of Trustees.

CITY OF PANAMA.—A telegram has been received in this city, inquiring whether a cargo of coal could be obtained for the City of Panama, on her next trip. An answer was returned that the most that could be obtained was 350 tons. It is not yet known whether she will come for that small amount. The City of Panama is considered to be the finest vessel that ever came through the Straits, and her coming here would be a big thing.

SUCCESS.—Mr. W. E. Wells, the writing master, has met with a gratifying success in his endeavor to raise a class. For this term he has nearly as many pupils as there are accommodations for in the school room.

The Fanny Lake goes up the Duwamish River, after a boom of logs to-day.

From Daily of Wednesday

CHINAMEN.—The Pacific last night landed here a large number of Chinamen from Victoria.

BORN.—At Snohomish City, Sept. 10th, to the wife of Watson Allen of Falls City, King Co., W. T., a daughter.

The steamer Fanny Lake will make her usual trip to Snohomish to-morrow, leaving here at 7 o'clock.

The stone foundation of the new Seattle bank is now finished and it will be in readiness for the brick walls by next week.

Flags generally throughout the city are at half mast, out of respect to the memory of the late Mrs. Schmiege.

TEAZER.—Carpenters are at work on the Teazer completing the improvements in her cabin that were commenced when she was on the ways some time ago. Her after cabin is being widened out to the rail.

The new Talbot scow, now on Hammond's ways, will be launched at high tide this afternoon. Work will be immediately commenced on the large scow for the Renton Coal Co.

Among the officers on the French man-of-war Volta, now in Victoria harbor, is Duc de Penthièvre, second son of Prince de Joinville and grandson of Louis Philippe.

BOLTS.—The steamer Wenat yesterday brought down one scow loaded with 21 cords of cottonwood bolts. There are two scows loaded with bolts up the river that will bring down about 40 cords apiece.

NOT COMING.—A telegram was received from Victoria this morning stating that Fanny Morgan Phelps will not bring her troupe here as announced yesterday. She has been taken sick.

MARRIED.—At the residence of the officiating clergyman, Seattle, Sept. 14th, 1875, by Rev. John F. Damon, Capt. William B. Seymour, master of the bark Caroline Read, of San Francisco, to Miss Mary E. Selleck, of King county, W. T.

FUNERAL.—The funeral of the late Mrs. Schmiege took place to-day. A very large number of friends of the deceased were in attendance and accompanied the hearse to the cemetery.

SHUT DOWN.—We are informed that the Port Madison mill will shut down on the night-gang and, after to-day, will run only the day force. The cause is said to be falling off in the demand for lumber and the accumulation of a large quantity at the mill.

Snohomish Correspondence.

Sept. 11th, 1875. EDITOR DISPATCH: The Fanny Lake came to Eby Slough to-day for a cargo of shingles. She also is to move a logging-camp to Whidby Island.

Sept. 12th. The Yakima came to this place about 8 o'clock last night. She brought a team of oxen for Messrs. Clark and Wilber who are starting a logging-camp up the Snoqualmie. She also brought a general assortment of merchandise and lumber for M. D. Humphrey, a raucher near Lowell. She left for Port Gamble at 2 o'clock to-day.

The weather is delightful to-day reminding one of a New England "Indian Summer."

Our vivacious Telegraph Operator, J. D. Morgan, in company with his com-mox at Lowell, Mr. H. Jackson, visited the W. U. Office at Point Elliott last Friday. They report the line in good order all the way from Pt. Elliott to this place. Ned Cromer regaled them with fresh salmon just caught from the bay; and that, together with the fine sea breeze, and the atmosphere of the sound impregnated with the odor of decaying dogfish strewn along the beach, has revived and rejuvenated them to such an extent, that they are literally boiling up and frothing over with animal spirits. I think that's what they, called it.

Mr. Frank Agent for the P. M. L. Insurance Co., has been in town for a few days. He left yesterday for Port Gamble by the Yakima.

The sloop J. S. Kidder from Port Gamble arrived on Friday. She brought as passengers a carpenter and his family. They have located here.

Dr. Boley, Dentist, of Salem, Ogn., will take charge of Dr. Freeland's office during his absence in San Francisco.

News Items

CHANGE.—Capt. Scholl has retired from Goodall & Co's Steamship service, and is succeeded in the command of the Pacific by Capt. Howell.

On Monday work was begun in the logging-camp on the Saley farm, Wallis Island, by Messrs. Thompson, Malm and Collins. In a few days Mr. David Daniels will start his logging-camp, on Rev. Weston's farm, in the Narrows, a few miles from Steilacoom.

BIG TREES.—A correspondent writes this: "Upon the land of Mr. Webb, of Mason county, is a cedar tree which is 45 feet in circumference, (3 feet above the ground.) This tree has been burnt out by fire, leaving a hollow in it into which I think 5 men on horseback might ride and remain at one time, as long as curiosity or necessity might require, with ease and comfort. Near this monarch of the forest is another one, also a cedar, which seems to have been blown down by the wind and is burnt out like the other, within whose old, charred wall I think 10 men on horseback might at one time find comfortable shelter. California is not the only country where big trees may be found.—Courier.

John Styles, a half-breed (the witness in the recent Tacoma whisky cases prosecuted by the United States before the District Court at Steilacoom,) had been arrested and was taken to the jail in Steilacoom for committing rape at Tacoma upon the five year old girl of Mr. and Mrs. McKay.

Rumor has it that an effort will be made when the Territorial Legislature assembles, by those interested in the Payallup coal-fields, to secure the right of way for a railroad from the coal-beds to some available point on the Sound.

STEAMER DAMAGED.—As the steamer Bonita was under way for this city yesterday morning, she ran on the sand banks near Tongue Point, about four miles from Astoria. It was about 6 o'clock when the accident occurred, and quite foggy at the time. In making an effort to back, the rudders became foul of the wheel and were broken, the shafts being twisted, and many of the "hoat boards" torn off. A hole was knocked in the hull, and other damage sustained. The steamer remained in this predicament for some time, when the Annie Stewart came along, and took in tow the disabled craft. At about 9 o'clock the steamers arrived at the wharf, and the passengers and freight safely transferred to terra firma. The Bonita will be taken off the route until repairs are complete, and in the meantime another of the company's boats will be substituted.

Telegraphic

New York, Sept. 7.—In the case of the colored man in Brooklyn who applied for a mandamus to compel the board of education to admit his son to a school set apart for white children, Judge Gilbert, while reserving his decision, said the system of common school education was established for the public, and all persons had access to it. The board had no power to exclude any.

New York, Sept. 7.—Returns from several towns in New Jersey indicate that all the constitutional amendments are adopted, except the clause repealing the five-county act.

Raleigh, Sept. 7.—Dr. Edward Ransom, Democratic nominee for president of the constitutional convention, was elected to-day on the 14th ballot, thus securing a Democratic organization of that body.

Santa Fe, N. M., Sept. 7.—Election returns so far indicate the reelection of Hon. S. B. Elkins as delegate from this Territory by at least a large majority as at the election at Las Vegas.

Last night Sheriff Hommel shot and killed a deputy sheriff named Duran, who was trying to arrest him. Hommel had been given up by his bondsman. The authorities were endeavoring to place him in confinement. He is still at large.

Memphis, Sept. 7.—The Appeal's Despatch to-day says: Mr. Davis was received at Columbus with the kindest attention by all parties. He made a short speech, which was warmly applauded. At Charleston he received another hearty welcome, and at the close of his speech held an informal reception. Mr. Davis was made to feel he was among his countrymen. In De Sota the prominent citizens, chiefly Republicans, cordially welcomed him. He will be the guest of General Rankin until he leaves for St. Louis, to-morrow. An immense audience will doubtless attend the fair and hear his speech to-morrow.

St. Paul, Sept. 7.—After two days of very bright drying and promising weather, there was another heavy rain storm this afternoon, with more in prospect, which threatens to undo nearly all that has been done by the farmers in securing their wheat. Correspondence from the interior estimates the damage already done to the wheat crop of the state at from 10 to 25 per cent. In some sections no damage at all is reported; in others it is claimed that all the wheat, stack or shock, is nearly or quite ruined. Probably 10 to 15 per cent will cover all so far, but the crop will all grade No. 2 and below.

Pioche, Sept. 7.—While a small party of Pioche volunteers were going through Silver Park, 40 miles from Pioche, on their way to Spring valley to aid settlers in defending their homes from Indian depredations, they were fired on by Indians, and one of their number, W. C. Glisan, wounded in three places. He was brought back to town this evening. The Indian who shot him was instantly killed. Pat. Holland, proprietor of the Daily Record, one of the Glisan's escort on to town, brought the scalp of the Indian in, and it is now being exhibited on the streets.

London, Sept. 7.—The Times, in a leading article commenting on the reception in New York of the American rifle team on their return home, gives them high praise for their bearing in their achievements during their European trip. It thinks their visit here, and consequent rivalries, will be beneficial in many ways.

Milwaukee, Sept. 8.—The Democratic Reform State Convention met at the Opera House in this city at noon to-day. Hon. D. W. Maxon was chosen temporary chairman. After the appointment of committees the convention took a recess till 3 p. m.

Saxton, Sept. 8.—The Republican State Convention began its session this morning. Hon. E. D. Morgan, chairman of the state committee called the convention to order and made an address which elicited frequent outbursts of applause. He said, among other things, that the Democratic party having been successful in some of the recent state elections, ours among them, we had about concluded their shortcomings had been either forgotten or forgiven, and they were soon to be invested with political power. In the nation it is scarcely possible to conceive of a greater error. He who controls the destiny of nations as well as the affairs of individuals has kindly permitted our Democratic friends to take a far off view of the situation, but years of probation and repentance will be necessary before they can enter and pass to the promised land. We should approve the course of all faithful public servants from the highest to the lowest, whether they belong to our political party or the party of our opponents and reject all who are not worthy of whatever credit they claim to be, extend the hand of fellowship to those of our countrymen who were unfortunately led to take up arms against us, and cultivate friendly interests with them, and let there be no step backward in our efforts to return to specie payment at the earliest possible day, and the period is not far remote when we shall again rejoice in the welfare and prosperity of our common country. The usual committees for permanent organization, resolutions, etc., were appointed and then adjourned till 3 o'clock p. m.

Knox, Sept. 8.—The Democratic Convention met at noon to-day and was called to order by John Miller, chairman of the state central committee. The roll was called and committees on contested seats, platform and permanent organization were chosen.

Newark, Sept. 8.—Indications are that all the constitutional amendments have been adopted by 10,000 to 30,000 majority in the state.

New York, Sept. 8.—Gold closed at 115 1/2 @ 115 3/4. Money dull, 1 1/2 @ 2.

Washington, Sept. 8.—The following dispatch was received at the Executive Mansion last night from Gov. Ames of Mississippi: Jackson, Miss., Sept. 7.—To his Excellency U. S. Grant, President, Washington, D. C.:—Domestic violence in its most aggravated form exists in certain parts of this State. On the 1st inst., certain unauthorized and illegal armed bodies overthrew the civil authorities of Yazoo county and took forcible possession of said county from which the sheriff the peace officer of the county was compelled to flee for safety, and is still a refugee. The sheriff of this county reports that since the 4th inst., he has been unable after every possible effort to maintain peace and protect the rights of citizens. He reports various murders by unauthorized armed bodies who are scouring the country. Warren county is also reported as being in a state of terrorism from the demonstrations of still other unauthorized bodies and a feeling of insecurity prevails in other counties of the State. After a careful examination of all the reports I find myself compelled to appeal to the general Government for the means of giving that protection to which every American citizen is entitled. I do not now make a formal application under the provisions of the constitution of the United States, but to know if you will regard a proclamation issued by you in December last on the application of the Legislature of this State. If your proclamation of December last is not in force, I will at once make a formal application in accordance with the provision of the constitution of the United States.

(Signed,) ADELBERT AMES.

The following reply has been sent to Gov. Ames: To Adelbert Ames, Jackson, Miss.—The President has submitted your dispatch of yesterday, asking if the proclamation of December last is still in force to the Attorney General who decides it is not in force. I notify you of his decision by direction of the President.

(Signed,) LOUIS LUCKLY.

London, Sept. 8.—A special from London says at the opening of business this forenoon the general markets were steady.

San Francisco, Sept. 8.—Considerable diversity of opinion prevails as to the objects of the meeting to-night. Ostensibly its sole purpose is as a tribute of respect to the memory of Halston which view is supported by the Post of last evening and the Chronicle this morning. There is evidence however of an undercurrent of feeling looking towards making it an indignation meeting in which the course pursued by the Bulletin and Call will be severely censured and an effort made to initiate a movement looking towards the destruction of their patronage and the starting of an opposition paper. Hints have even been thrown out of more pronounced measures against these journals and their proprietors, but the general impression seems to be that nothing of a violent or incendiary character. All the better elements engaged in the demonstration will exercise their influence against anything of the kind, striving to confine the meeting to its legitimate and ostensible purpose, that of a tribute of respect and affection to the late W. C. Halston.

Raleigh, N. C., Sept. 8.—The constitutional convention completed an organization to-day, electing all Democratic officers.

Trenton, Sept. 8.—The constitutional amendments were carried in the State by some twenty thousand majority.

Newark, N. J., Sept. 8.—An explosion occurred in the celluloid factory this afternoon. Thirty men were in the building, three of them were taken out dead and others not expected to recover. It is supposed that twelve or more are in the building without hope of rescue. The building was destroyed by the shock and the flames which burst out in every direction. Several factories and livery stables were burned. The flames are not yet under control. Business houses on Market St., including some of the finest in the city are threatened. The entire fire department and police are at work.

Later.—The fire was under control at 8 o'clock. Buildings on Market St. are safe. No more dead bodies have been found. It is thought several are beneath the ruins, as some employees are unaccounted for. Twelve persons are seriously injured. Total loss \$75,000.

Washington, Sept. 8.—Gov. Ames of Mississippi telegraphs that domestic violence prevails in various parts of the State, beyond the power of the State to suppress, and makes a formal application to the President for such aid as may be necessary to restore peace and protect citizens.

Washington, Sept. 9.—President Grant has telegraphed to Adjutant General Townsend, directing him to instruct the officer commanding in Mississippi, to give Gov. Ames such aid as may be necessary to maintain order and protect life in that State, if the insurrection is too formidable to be suppressed with the means at the Gov-

ernor's command. Before sending such order to the commanding officer, however, the President directed the Adjutant General to consult with the Attorney General as to the legality of such contemplated military proceedings. Accordingly these gentlemen had a consultation at noon to-day and action was deferred till it is decided whether a proclamation should be issued addressed to the insurgents, the President having requested Secretary Fish and the Attorney General to consider whether a proclamation is needed. The Attorney General is making arrangements by telegraph, for a conference with Secretary Fish, who is absent. It is definitely known that no movement will be taken by the War Department until after a proclamation and reception of notice of the disregard of its requirements.

London, Sept. 8.—The Times says in a financial article that the report of the registration order in Bosnia for the submission of the insurgents had a favorable effect on British funds. A special from Vienna stated that Servia Pasha presides over meetings of foreign consuls at Mostar.

Gen. Jovellar returned to this city yesterday. It is expected that he will soon resume duties as Minister of War.

It is believed that Catalonia will be pacified at the end of the present month.

Madrid, Sept. 8.—Gen. Quesada reports the Carlist General Doregarray marching towards Tolosa, his force being reduced to a mere handful.

San Francisco, Sept. 10.—Nothing of importance in financial matters this morning. The doors of the National Gold and Trust Company are open and the concern transacting a good deal of general banking business without formal resumption, as the President says the company is simply putting money where it will do most good.

The syndicate is progressing favorably in the work of straightening the affairs of the Bank of California. Considerable interest is expressed to hear the report of the syndicate as to the affairs of the bank, which will probably be forthcoming sometime next week. Everything is very quiet, even the newspapers being contented to stop quarreling for a time. The reaction after recent exciting events disposes the public generally to settle to a more composed state, and to regard the late occurrences as the nine days' wonder.

ERE, Sept. 9.—A platform was agreed upon at a late hour last night, but was adopted by a majority of one. The currency plank is so distasteful to the minority that they threaten to bring in a separate report, and have the difference settled in open convention. The fear of such action has prevented the presentation of the majority report to the convention, and an adjournment was had to afford an opportunity for a harmonious compromise. On reassembling this afternoon the committee on resolutions reported as follows: Equal and exact justice to all men of whatsoever state or persuasion, religious or political; the support of State Government in all their rights as the most competent administration for our domestic concerns and the surest bulwark against an anti-Republican tendency; supremacy of civil over military authority; economy in public expense, honest payment of our just debts and sacred preservation of public faith; that the undue multiplicity of public officers and inordinate increase of salaries and emoluments of office are among the many evils which radical rule has forced upon the country. That the contraction of the money currency and circulating medium heretofore made by the Republican party and further contraction proposed by it, in view of forced resumption of specie payments, has already brought disaster to the business of the country and threatens general bankruptcy, demand that this policy be abandoned and that the volume of money be made and kept equal to the wants of trade, leaving the restoration of legal tenders to par in gold, to be brought about by promoting the industries of the people and not by destroying them.

Baltimore, Sept. 10.—The steamship Scotia brought Tole's bronze statue of Gen. Thos. J. Jackson, the famous Confederate leader, presented to Virginia by Beersford Hope, M. P., and other English gentlemen. The statue cost \$40,000 and will be erected in Capitol square at Richmond near the equestrian statue of Washington.

New York, Sept. 10.—The evening Express referring to Wednesday's Baiton meeting at San Francisco recalls the prime facts stated on the evidently reluctant evidence of Mills and says if these charges were based upon any responsible authority, believed to be true, the journals complained of, that is, the Bulletin and Call, are entitled to public respect instead of receiving its denunciation. The press has a duty to perform regardless of any one else.

New York, Sept. 10.—A special to the evening Post says that after the 15th of this month, rates of charges on cable messages from New York city to the United Kingdom and France will be reduced a shilling per word. This extends over all kinds of business.

A feature of the day in Wall St. is the rise in gold and decline in foreign exchange both resulting from the same cause—scarcity of gold and high rates established. Bankers have been looking for the squeeze for several days. The effect of such a squeeze is to check the export trade.

The direct United States cable will be opened for the transmission of messages between America and Europe on the 15th inst. The name of the piece from which the messages originate will be transmitted free of charge.

Gold closed at 116 1/2 @ 116 3/4. Money active, 3 @ 4.

Washington, Sept. 10.—The Post-office Department have perfected arrangements for the fast mail train between New York, Pittsburg, the West and South-west, which will be put in operation on the 13th inst.

A telegram has just been received by the Attorney General from the Sheriff of Hinds County, Mississippi, reporting that perfect peace prevails throughout the county and peace officers are not prevented from executing legal process and that good citizens will aid him in the discharge of his duties when needed. The Attorney General expresses the opinion that the difficulties are at an end.

Jackson, Miss., Sept. 10.—One hundred men in this city reported to the Governor to-day, that they will cheerfully go to any part of the State to preserve peace, that they did not know there was any insurrection in Hinds or any other county until they saw his dispatches to Washington.

Madrid, Sept. 9.—General Jovellar has resumed the Ministry of War and Rivera the Generalship of New Castile.

London, Sept. 10.—A Berlin dispatch to the morning Post reports that the Emperor William will go to Italy about the beginning of next month.

Paris, Sept. 10.—Advices from Constantinople represents that the Porte, to reward Servia for neutrality will evacuate Sewornik and grant facilities for railways and for Pomerania it will concede to Montenegro a portion of her frontier.

Montreal, Sept. 10.—Last night the guard on duty at the Protestant cemetery vaults was assailed by a mob which fired a volley of stones, evidently intended as a ruse to draw out the extent of the force in charge. The guard fired fourteen shots into the brush and a general scattering ensued.

San Francisco, Sept. 10.—It now seems that Geo. M. Penny, late purchasing clerk of the U. S. Navy has fled the country. It is stated that he took \$300,000 with him.

IN A CAR WITH A TYGER.—A recent incident on the Ogdensburg road is thus described by the St. Albans (Vt.) Messenger of the 7th inst.: "A cage of tigers, which was on its way to a managerie now exhibiting south of here, was placed in one end of the car, and a zebra was tied in the other end. The watchman lay down on a box and went to sleep; when he awoke he discovered that one of the tigers had beat the iron bars of its cage, forced its way out and was crouching in the opposite corner. The regular keeper of the animals was in the sleeping-car at the rear end of the train, and there was no chance to communicate with him or with any one outside. The poor watchman was frightened into motionless silence, and in that awful suspense he made the long and weary journey to St. Albans. After the train came to a halt here, one of the train men, in passing the car, saw a large cat-like nose thrust out of an opening, and not knowing that any one's life was endangered in the car, but fearing lest the animal should escape, ran to the sleeping-car and aroused the keeper, who soon appeared, rawhide in hand, and lashed the beast back into his den, to the immeasurable relief of the poor fellow who had been curled up for hours on the box."

TEXAS CATTLE DRIVE FOR 1875.—The annual drive of Texas cattle for Kansas and a market has now passed from Texas, the herds being at present on the range in Kansas, sold to feeders, contractors, or others or sent to the northern or eastern markets. A few head are reported each week at Fort Worth as having passed that point on their way north, but they may be considered the rear guard of the great army already north of the territory. The total number driven north this season is as shown by the report, 151,618, including all kinds of Texas beef. In 1874 the total drive out of Texas amounted, in round numbers, to 166,000, or 14,400 more than have thus far passed over the trail this season. The greater part of this drive last year was over by the 1st of July, the heaviest having passed between April 15th and June 10th. After July 1st about one-quarter of the total drive passed Fort Worth. These facts, together with the other fact, that large numbers of cattle have been driven from the Mexican frontier to northwestern Texas to avoid raiders, and are now on the range, from which they can be put on the trail northward as soon as the condition of the market shall fully warrant, sustain the prediction that the drive of this year will exceed that of last.

Spotted Tail says that the Great Spirit has told him never to steal anybody's country without paying for it. That will do pretty well for a hint. Now, if the Great Spirit would just announce to Spotted Tail that he must not steal anybody's back hair without paying for it, the communication would apply to him as much as the former does to us.—Courier-Journal.

Pirates, it appears, are operating on the Sacramento river. The Record-Union says that on Thursday afternoon James Murphy hired a boat at Sam's saloon, on Front street, and started down the river for a pleasure pull. Near Sutterville he met two Spaniards

in another boat. They ordered him to stop, boarded his craft, put a pistol to his head, and made him surrender \$50 in coin, a silver watch and croice chain.
