

Puget Sound Dispatch.

BERNARD BROWN, EDITOR
Seattle, W. T. Oct 23 1873.

W. W. I. A.

The Executive Committee report that after a careful examination of the reports of Judges and comparing the same with the entry books they find only one or two important errors and but few omissions.

In the report on class 16, a mistake was made in copying the report from the book and instead of T. S. McAllister diploma for 3 year old, it should have been 1st premium for 5 year old mare, \$5.

A second premium on 1/2 bushel of Hamburg oats should have been awarded to Michael Andrews, King, \$2 50.

To Albert Eggers, Olympia, for a most beautiful bouquet of cultivated grasses, \$1.

To Edward Stafford, King, for a most delicate and beautiful piece of shell work, being a small picture frame, \$1.

To Eugene Horton, Olympia, for a large and curiously shaped potato, diploma.

There was also on exhibition a self acting gate, invented by a youth of 15 years of age living down the Sound, whose name we cannot find, as no entry of the gate was made. It was a piece of ingenious mechanism, which, if not too costly, would be of times a great convenience to a farmer where he has frequent occasion to pass through a gateway. It was a piece of work worthy of recognition and we therefore award to him a special premium of \$1 and a diploma.

GEO. F. WHITWORTH, Pres.
A. A. MANSING, Secy.

DISASTERS ON THE DEEP.—The S. F. Chronicle of the 13th inst. gives the following: The barkentine Marama, arrived yesterday, from Tahiti, bringing advices of the loss of the ship Elizabeth Kimball. The Kimball left Port Gamble, March 14th, for Iquiqui. On the 30th of April, while in latitude 23 degrees north and longitude 122 degrees west, the ship sprung a leak. The pumps were kept working night and day without a moment's cessation for eight days, but the water gained steadily on the pumps, and on the 8th of May to avoid going down at sea, the Captain ordered the vessel to be run ashore on Easter Island, which was the nearest land. The crew were all safely landed before the vessel went to pieces. They then set to work and constructed a small, rude schooner. This was the work of between two and three months. On the 29th of July the little craft was completed, and the shipwrecked party, consisting of the captain, his wife and six seamen embarked and set sail for Tahiti. They made the voyage in safety, and the Capt., his wife, and three of the seaman took passage on the Marona for this port, and arrived yesterday. The carpenter, cook and one seaman, who sailed on the brig Hesperian, also arrived yesterday.

The Hesperian reports that the Salvadorian ship William and Thomas, Ellis, captain, which sailed from Port Blakey on the 1st of December, 1872, for Valparaiso, became water-logged, and in order to save the lives of the crew, was run ashore on Easter Island, March 18th, where she and her cargo became a total loss. The memorandum contains no mention of what became of those on board.

THEATRE.—The Rosedale Dramatic Company performed last evening to a good house. The drama of Black-eyed Susan was well rendered by the Troupe. In the interlude Mrs. Fulford and Miss Pixley were loudly eulogized. The Chinese song by Mrs. Fulford brought down the house. The interlude concluded with Johny Schomker, by Mrs. Fulford, Miss Pixley and Mr. Clinton. The afterpiece "Quiet Family" was very amusing.

They play Colleen Bawn this, their last evening. Every body should see them.

THEATRE.—The Rosedale Dramatic Troupe played Colleen Bawn to a fair audience last night and sustained their well deserved reputation. Manager Fulford has concluded to remain one more night. The people of Seattle should turn out en masse to hear them. To-night will be played Kathleen Mary, for the benefit of Miss Minnie Pixley.

VOLCANIC.—Yesterday, Sunday afternoon about 2 o'clock a slight earthquake was felt in this place; and at 4 o'clock clouds of smoke were seen pouring from the highest peak of Mount Rainier. The smoke was seen until near dark when the clouds came down upon the mountain hiding it from view. Up to the present writing (2 p. m. Monday) the mountain has not been visible on account of the clouds.

LUMBER CHARTERS.—The ship Spring field, 1,043 tons, has been chartered to take lumber from the Sound to Shanghai, at \$31 27, Mexican, per thousand. Ship Wildwood, 1,099 tons, will take lumber from Burrard Inlet to Shanghai for \$31 per thousand. Ship Orpheus, 2,067 tons, will take lumber and railroad ties from San Francisco to Callao and Chonos, for \$20 gold. Japanese bark Jin Sho, 300 tons, will take lumber from San Francisco to Callao, for \$19 gold.—Tribune.

BIRTH.—In this City Monday, Oct. 20th, to the wife of Edwin A. Sherman, Esq., a son.

FAST TIME.—We this morning received a Tacoma Tribune of Oct. 18. This is extremely fast time, only 4 days coming 25 miles. Undoubtedly the Tacoma mail was taken to Victoria. Part of the mail usually gets carried past here about once a week.

Rev. Norman McLeod will deliver the second lecture on the "Conflict of Right," at the Congregational Church, on Thursday evening at 7 1/2 o'clock. A social gathering at the same place after the lecture. COMMITTEE.

We have received No. 1 of the Portland Weekly News, a 9 column paper. The weekly is superior to the Daily in typographic appearance and will compare favorably with any paper on the Coast outside of San Francisco and Sacramento.

LAUNCHED.—Mr. Rickards' pleasure boat was launched this morning. The dimensions are 50 feet long and 7 ft. 8 in. beam. She is a centre board, sloop-rigged boat and named "Antelope."

Premiums and Diplomas awarded to citizens of King County can be had by calling at the Store of Messrs. Pumphrey & Young, Oct. 21st 1873.

LAUNCHED.—The steamer which has lately been built by D. Beadle & Co. at Port Madison was successfully launched on Saturday and named "Empire City."

The steamer California arrived on Saturday morning from Portland; after unloading she sailed for up-Sound ports.

The Rome (Georgia) Commercial tells the following remarkable story: Mr. T. S. Cox, a resident of Macon, visiting Rome, had a most remarkable dream last Sunday night. He dreamed that his house in West Macon, occupied by his wife and family, was entered Sunday evening and a certain bureau drawer robbed of some silverware, and that a woman committed the theft; that she was a dark-complexioned, dark-haired blue-eyed woman, and a stranger to him. Yesterday morning he received a letter from his wife, confirming his dream, and that a package of silver spoons was stolen from the bureau drawer some time during Sunday afternoon. A description of the suspected party was also given, which coincided with his dream.

Mr. Spinner's letter to a Congressman reveals a new and curious phase of the much talking-of back pay bill. The Treasurer gives it as his opinion that the money in question belongs to the members of Congress, and that the covering of it into the Treasury, without a consideration and without legal authority of authority of law, "as many have done, does not place it beyond their reach." It can be reclaimed at any time by those parties or their heirs.

The President has issued an order to the War Department giving full pardon to all deserters who may return to duty on or before the 1st of January next, and who serve faithfully during the remainder of their terms of enlistment.

A SOAPIFIC MISHAP.—Lawyer Prince's office boy took a good streak recently, and gave the office floor a thorough drenching with water. Early in the evening Mr. Prince came in with a lady client, and the moment he struck the wet floor, one foot turned partly on its edge, and described a half circle with wonderful velocity. He clutched at a desk but missed it, when the other foot gave out, and again he went half way down, but partly recovered, lost the other foot again, then both feet, and after vainly snatching at a chair, went down at full length, turning over the chair, and smashing the panel to the door of a book case with one heel. To add to the embarrassment of the affair, the lady remained till it was over, and then abruptly left, and the next day there was a story in circulation that Mr. Prince had the tremens, and tried to murder one of our most estimable young ladies while in a fit. The office boy says if he could only stand still long enough he would give the particulars.

SEATTLE, August 19, 1873.
I have been a sufferer for several years from chronic bilious affections from which no medicine tried by me afforded any relief. As an experiment, I tried Mr. Poncin's Egyptian Bitters from the effects of which I have experienced the most gratifying results. I can sincerely recommend it to others similarly afflicted.

Telegraphic

EXCLUSIVELY FOR THE DAILY DISPATCH

New York, Oct. 17.—The Express this evening, in an article on the financial situation, declares that the present condition of banks in this city is a disgrace, and insists upon the necessity of an immediate resumption of currency payment as the only means of returning confidence and bringing out the greenbacks now hoarded in safety in deposit company's vaults, old stockings and mattresses. It calls upon sound conservative banks to insist upon putting an end to prolonged arrangements to redeem the city from its present false position.

P. W. and J. P. Carver, brokers, went into bankruptcy to-day. Liabilities, \$600,000.

Flaming mill and sash and blind factory of Kenyon & Newton, in Brooklyn was burned this evening. Lost, \$300,000.

St. Louis, Oct. 17.—The clearing house association, this evening, resolved to resume on Monday, the 27th inst. also, that the loan certificates of the clearing house shall be redeemed in 20 per cent. installments.

Memphis, Oct. 17.—Dr. Eskine, president of the board of health, expressed the opinion, based upon consultation with physicians of the city that there was a more favorable aspect. To-day, though warm, there were fewer new cases than on any other day previous. He admits that an unfavorable change in the weather may cause the fever to break out. Number of yellow fever deaths was 30, an increase of 4 over yesterday. The air is thick with carbolic acid and disinfectants.

Iowa City, Oct. 17.—Mrs. Voght, an aged German woman, was found brutally murdered near her house 2 miles from here. Her body bore evidence that her assassin held her down by the throat and crushed her breast and ribs in with his knees. Her husband is suspected of the crime.

Philadelphia, Oct. 17.—In the Constitutional Convention to-day, ex U. S. Senator Buckalew, referring to the Court of Senator Morton, of Indiana upon the proposed amendments upon the manner of selecting presidential electors, said that Senator Morton deserves the thanks of the nation for his course in that regard.

Boston, Oct. 17.—James M. Lowell was arrested in Lawrence, Mass., on the suspicion of murdering his wife, who mysteriously disappeared 3 or 4 years ago.

Borges, the Brazilian Consul at this port, committed suicide this afternoon, shooting himself with a pistol.

Omaha, Oct. 17.—Eight inches of snow has fallen in Wyoming and Utah. The train due to-day is several hours late, having been detained by snow.

London, Oct. 18.—The Times' Paris correspondent telegraphs as follows: "From exact information it appears that the monarchial portion have come to an absolute agreement. Count de Chambord has made concessions which will be satisfactory to the Liberal Monarchists, and there will be submitted at the opening of the Assembly a proclamation of an hereditary constitutional monarchy; the King promising liberty of conscience and equality before the law as the right of all. The Monarchists are confident of a majority in the assembly. It is said that 416 deputies are pledged to support a restoration of Royalty."

New York, Oct. 18.—The Times, in a story to day of the Polaris investigation, says Mr. Morton denies absolutely that he ever had any suspicion of foul play in the death of Captain Hall, or that he ever, to the best of his knowledge, gave any one reason to suppose he had.—Dr. Bissell was employed in the observatory, about 200 yards from the Polaris. As he saw Dr. Hall and party approaching he went down, shook hands with them, and returned immediately to his work at the observatory. Dr. Hall and party went to the vessel and all partook of some coffee, which all the crew of the vessel had previously drunk of. The coffee was prepared by the cook and was given to the party either by him, Joe or Hannah. The party were unaffected by the coffee, except Dr. Hall, who was immediately attacked with something. After vomiting, he fell into a state of insensibility. It was about an hour after the return of the party when Bissell was summoned from the observatory and found Hall already in a critical condition. When Dr. Hall recovered from this state of insensibility it was found that his left side was paralyzed. This is considered by medical men an absolute refutation of the charges of poisoning. The suspicion that Dr. Bissell caused the death of Hall is felt by his friends, many of whom were also

warmly attached to Dr. Hall. The symptoms and medical treatment of Hall have been submitted to the most prominent medical men of the country and by them his death is substantiated pronounced to have been due to natural causes, and the treatment by Dr. Bissell is stated as exactly that which was required, and the only treatment proper under the circumstances.

London, Oct. 18.—A dispatch, reporting an agreement between Count de Chambord and the monarchial party in the French Assembly, gives the following points of the programme to be proclaimed at the opening of the session; universal suffrage; reasonable liberty of the press, and the tricolor to be maintained as the flag of France. The last point, however, is open to mutual concessions. The dispatch also says the Assembly is called to meet not later than the 27th inst.

Paris, Oct. 18.—68 Deputies of the Assembly, for the Department of the Seine, have signed a manifesto, protesting against the attempted restoration of Royalty and declaring that they will energetically resist all such schemes.

London, Oct. 18.—£90,000 of bullion were shipped for New York to day from London and Southampton. Bank of England has fixed the rate of discount at 7 percent.

New York, Oct. 18.—Mr. Dos Passos, one of Stokes' counsel, finished to-day his opening address to the jury. At the conclusion of the address Francis M. Bix stated that Stokes called on him on the day of the shooting and talked about going to Providence. A recess was taken, after which the counsel for the prisoner asked that the jury inspect the stairway and hallway of the Grand Central Hotel to judge for themselves if Hill and Rodmond could have seen Hart had he been present at the shooting, but the request was denied.

New York, Oct. 18.—Inquiry at offices of the principal steamship lines shows that the foreign export trade at one time seriously broken by the financial panic, is in a healthy condition, and that large shipments are made by every outgoing steamer without any material alteration.

Memphis, Oct. 18.—About 10 miles above Osceola on the Mississippi river yesterday, the packet Mary E. Poor was discovered to be on fire. The flames gained such headway that the boat ran into a bay, and the passengers forced to swim to save their lives. The Clerk reports 65 passengers aboard, of whom one cabin boy, one cabin passenger, two female and one male deck passenger are missing. Pilot Cowan was badly burned before he left his post, and several other passengers badly burned. The City of Helena arrived at the scene soon after, and rendered all the assistance possible.

Senator Windom, of the Senate Committee on Transportation, will leave to-night for Washington. On Monday the other members of the Committee will follow. From Washington, they will proceed to Richmond and Cincinnati, stopping at intermediate shipping points and returning by the middle of November, when they will take the southern coast direction, stopping at important cities until reaching New Orleans. They will return by way of the Mississippi.

There is no improvement in the contagion, 30 deaths being reported to-day.

Shreveport, Oct. 18.—Eight deaths from yellow fever to-day.

Montgomery, Ala., Oct. 18.—Only 14 deaths from yellow fever to-day.

New York, Oct. 18.—Geo. Francis Train, who arrived here only last week from Europe, having become disgusted with country politics and people, sailed away again to-day leaving, he says, forever.

Versailles, Oct. 18.—Private advices received from the French settlements at St. Pierre, gives information of the assassination of Monsiegnr Devere, Bishop of the Diocese. The Bishop was murdered in the Chapel of St. Jean, being stabbed in the heart and lungs while at prayer. A cousin of the Bishop's was charged with the crime and arrested.

London, Oct. 18.—John Bright was to-day elected a member to Parliament without opposition.

La Conner, W. T., Oct. 21.—A stabbing affray occurred at Schone yesterday afternoon between two men, John Boyd and William Pollard, which might have resulted in serious injury to Boyd but for the fortunate breaking of the knife at the first blow. They were separated before doing any injury to each other.

The Bellingham Bay Coal Company's ship, Germania, left for San Francisco yesterday with about fourteen hundred and fifty tons of coal and six passengers. She was towed to sea by the tug Mastick.

A meeting was held here on Saturday and the names of H. A. March, William Dean and James F. Darcy, for County Commissioners, were enrolled on the bill which will be presented in the Legislature at its present session, asking that a portion of Whatcom County be set off as a separate County to be called Skagit County.

PANAMA, Oct. 8.—Hostilities have broken out between Neira, the present President, and Gen. Cornaga, recently deposed from that office on the 24th ult. The rebels having emerged from the woods, opened fire on this city, which they kept up with a slight intermission until the 6th inst. When they entered the woods they were armed with rifles. The Government troops had the advantage of the cannon, and did considerable damage to suburban dwellings while firing was going on. Admiral Almy, of U. S. Navy, arrived and landed 150 men at the B. R. station, and at the request of the Government placed 60 men in the city square. The Government sent orders all trains approaching the city to stop and passengers be searched. Admiral Almy placed a guard of Marines on the train with orders to shoot all armed men who should attempt any interference, thus relieving the peasants of all annoyance and interruption. The troops assigned by the Government to protect the transit across the Isthmus have joined the rebels.

A constituent assembly is in session, endeavoring to make peace, but the Insurgents outside the city do not recognize its authority, and ordered a forced levy of \$20,000 on the city, and \$4000 on the provinces. It is hoped that Admiral Almy will continue to give protection to non-combatants, and that the U. S. Columbian authorities will come to some understanding whereby a repetition of the outrages may be prevented.

On the day following when the drafts were presented to a London house, it turned out that the credit was issued in the name of an American lady, and that her name and signature had been replaced by that of John Barlow. Several of the first banking houses on the Continent have been defrauded of large amounts in this way. The names of those in whose favor these letters of credit are issued, have been extracted both in Italy and signature, so not to leave the slightest trace, together with the name of the party inserted who presents the credit, and are ready to exhibit passports or proofs on demand.

The establishment was heavily stocked with merchandise and crockeryware. A sale having been arranged to take place to-day a sth damage to goods from water and smoke rather than from fire is heavy. The origin of the fire is unknown, but it is supposed to have originated in a large pile of moss and other material used in packing furniture.

LACONNER, Oct. 15.—First ice of the season formed here last night on exposed water about one-eighth of an inch thick. The weather this morning is clear and cold.

VICTORIA, Oct. 15.—The U. S. S. Tuscarora arrived here a few days since for coal, and the following is a brief account of her late trip kindly furnished by one of her officers: "We took our departure from Cape Flattery, on the morning of the 17th ult., and between that time and the 30th ult., sailed a distance of 1114 miles on the great circle route between Cape Flattery at At-cha, in the Aleutian group. We sounded several times inside the 100 fathom line, more for the purpose of thoroughly testing the working of our apparatus than for any other reason. When at a distance of 207 miles from Cape Flattery the depth of water suddenly decreased from about 1000 fathoms to less than 600 showing the existence of a submarine mountain nearly 2500 feet in height. From this mountain to the position of our last cast, we found the surface of the ocean bed to increase in depth in a ratio of about a fathom to a mile.

The last cast was in a depth of 2534 fathoms, in latitude 53° 53' N., longitude 153° west; then having but a small amount of coal on hand, we put back for this port.

Our apparatus worked admirably.—Sir Wm. Thompson's machine with fine piano wire is, undoubtedly, the best apparatus for sounding purposes now known.

At each cast specimens of the ocean bed and of the under surface water were brought up as well as the temperature of the water within a few feet of the ocean bed.

At each cast boats were sent away from the ship, and the set and strength of the under surface and surface currents determined.

After cooling we will put to sea again with as little delay as possible, and will sound as much further to the westward as we can before the winter gales set in.

Decrease in mortality report at noon to-day inspires a hope that though many new cases occur they will be attended with less fatality. Weather continues clear and warm. Number of deaths from fever to-day, 41.

Ten thousand more rations received to-day by order of President Grant. It is understood blankets and clothing will be sent from the same source. Mayor Johnson was reported as doing well at noon.

COLUMBUS, Oct. 15.—Official and reported returns have been received from 46 counties, which show a net Democratic gain of 10,000. This gain carried throughout the State would elect Allen by over 4000. Democrats claim the Legislature in both branches which Republicans are disposed to concede.

NEW YORK, Oct. 14.—Wall St. experienced the bluest time to-day it has ever known, so far as the Stock Exchange is concerned. Prices have been allowed to fall below the lowest points touched in the past ten years. The decline is attributed to various causes.—Some held that it was owing to the order of Judge Blaford yesterday, in relation to the bankruptcy of George Baird, Grinnell & Co. and said until the injunction was removed no one on the street could tell how soon the market might be flooded with stock. So long as it continues brokers will be unable to borrow money. Others explained the decline by the fact that large amounts of stock carried on margins have been sold in consequence of the holders being unable to put up any more collateral. It is said that Vanderbilt has been a free seller. That Gould has sold out stocks which he brought in and could not deliver, and has been buying up gold. Orders were sent in to-day from almost every quarter, directing a sale of stocks. Outsiders appear to be panic-stricken.

HAVANA, Oct. 14.—Advices from Hayti state that Jacmel and several other places in southern Hayti were visited by a severe hurricane on the 28th of Sept. Many houses were demolished, roofs blown off and trees torn up and carried to a great distance. A considerable loss of life is reported and serious damage to shipping.

MALEB, Oct. 14.—Insurgents of Cartagena attribute the defeat of their squadron to the cowardice of Contreras, who ordered a retreat against the wishes of the crews. They declare that he will not be suffered to command the fleet again. Three vessels sailed out of the harbor to-day for a second fight, but finding the Government fleet prepared for action retired.

NEW YORK, Oct. 15.—The situation at the Stock Exchange at the early part of the day was marked by a heavy fall in values, owing to further failures and the pressure of stocks to realize money; but there was a sudden change to extreme buoyancy, under which prices advanced sharply.

In regard to banks, its stated situation is improving. Those confining themselves to legitimate business are not burdened by stock operations, and currency is coming in from the country in considerable quantities.

Brown, Wardsworth & Co., resumed business and notified the Stock Exchange to that effect. This is the first of the private banking firms, suspended during the recent panic, to resume.

At the Produce Exchange business is good. That done yesterday in bread stuffs was rather above the average.

WASHINGTON, Oct. 14.—President issued the following to-day: By the President of the United States of America—PROCLAMATION:—The approaching close of another year brings with it the occasion for renewed thanksgiving and acknowledgment to the Almighty Ruler of the Universe for the unnumbered mercies which he has bestowed upon us. Abundant harvests have been among the rewards of industry, with local exceptions. Health has been among the blessings enjoyed.—Traquility at home and peace with other nations have prevailed. Frugal industry is regaining its merited recognition and its merited rewards.

Gradually, but under the providence of God surely, as we trust, the nation is recovering from the lingering results of a dreadful civil strife. suffering. W. E. Baxter, M. P., in a public speech at Dundee last night, urged increased intercourse with the U. S. Every people, he said, should visit that country.

PHILADELPHIA, Oct. 15.—The Press estimates Gordon's majority for Judge of the Supreme Court at over 18,000.—Lattor, Rep., elected in the 3d Senatorial district. Sixteen Republicans and two Democrats are elected to the Legislature from this city. Elliott, Rep., for Sheriff has received 27,540 majority over Democratic and reform candidates combined.

CHICAGO, Oct. 15.—Returns from Iowa are incomplete but they indicate that the Republican ticket is elected by 20,000 majority. The anti-monopolists will probably succeed in electing many members of the Legislature.

Additional returns from Iowa confirm the early advices of probable reelection of Carpenter, the Republican candidate for Governor and the success of the anti-monopoly County tickets in a majority of Counties. Legislature, however, will probably be Republican.

CLEVELAND, Oct. 15.—Later returns from the State indicate a close vote for Governor, with probabilities in favor of the Democrats. The majority will not run over 100 either way. Democrats have the State Legislature beyond a doubt.

WASHINGTON, Oct. 15.—Election for the members of the District of Columbia House of Delegates resulted in the election of 2 Democrats and 20 Republicans.

NEWARK, N. J., Oct. 14.—Charter election resulted in the election of Perry, Democratic and Reform candidate, by 100 majority.

ROCKLAND, Maine, Oct. 15.—Miss Mink, on trial some days past for the murder of Dr. Baker, was acquitted.

PORTLAND, Maine, Oct. 15.—Schooner R. T. Warner foundered at sea and the crew, sixteen in number, perished.

MEMPHIS, Oct. 14.—Mortuary report of the last 24 hours shows sixty-one deaths from yellow fever.

NEW YORK, Oct. 15.—The feeling to-day is improved. There is a general advance of from 1 to 7 per cent., supposed to be in consequence of the dissolution of Judge Blaford's injunction in Grinnell bankruptcy. Gilman & Co. reported suspended. Their difficulties are caused by the continued demands of their depositors and their inability to make collections.

Two petitions are being circulated for signatures asking Congress to repeal the shipping act. One purports to be on behalf of the owners, merchants, and masters of American vessels, and pray for its repeal on the ground that their rights to make private contracts should not be interfered with by the Government. The other purports to come from the mariners of the port of New York. Both state the general objections to the bills which have already been published. A strong personal opposition is manifested against Captain Duncan, who, it is alleged, introduced and conducted the system with an eye to his private interests.

LONDON, Oct. 15.—£155,000 bullion shipped from Liverpool to New York to-day.

Unfavorable rumors from America are afloat in the Stock exchange. It is reported that the failure of several brokers, caused by the decline in Erie, will be announced in the Stock Exchange to-morrow.

CLEVELAND, Oct. 16.—State ticket still in doubt with chances favoring the Democrats by a small majority. The House stands about 15 Democratic majority on joint ballot.

CHICAGO, Oct. 16.—Latest returns from Iowa election, make the vote on the State ticket much closer than first news would indicate. The Tribune publishes a table of majorities in 43 counties, showing that Carpenters, Republicans, for Governor, is 6526 ahead, a falling off from his vote 2 years ago, which if equaled in the rest of the State, will make the contest very close, if it does not defeat him. The Anti-Monopolists have undoubtedly carried the Legislature on joint ballot and probably in both Houses.

NEW YORK, Oct. 16.—Interviews this morning with several of the wisest capitalists here who keep outside of all speculative adventures, develops their conviction that bottom has been substantially reached in the Stock market, and while more or less violent fluctuations are probable, they say that downward turns will henceforth be short and confined to small amounts of Stock, and upward turns large and for large sums. Regular money lenders evidently hold similar views, and have come into the street for the first time since the panic, to buy Stock for personal investments.

Several of the wealthiest and soundest commission houses are telegraphing their European clients to forward stocks as the time has come for flattering the investments.

A meeting of the Executive Committee of the State Granges of the Patrons of Husbandry of Mississippi Valley, is being held at Keokuk, Iowa, to-day with representatives from Iowa, Ills., Kan., Wis., Wisconsin, Minnesota and Missouri.

PARIS, Oct. 16.—The deputation that met Count de Chambord at Salisbury, the 12th inst., are expected in Paris to-day. Details of the Conference are unknown, but it is believed that the negotiations failed.

LONDON, Oct. 16.—Reginald de Harbert, warged \$5000 that he could row in a canal from Maidenhead to Westminster Bridge, a distance of 50 miles in 12 hours through eleven locks. He won the wager with three hours to spare.

MEMPHIS, Oct. 16.—There was nothing eliable at noon as to the progress of the disease, but here is a general impression that very few new cases have occurred, and no reports up to noon.

NEW YORK, Oct. 16.—One of the most extensive dealers in the country, said to-day that exporters were taking every bushel of grain. His house alone is receiving 100,000 bushels of wheat each day, which is immediately sent abroad. He thinks produce exchange is virtually outside of Wall street influences, and that any difficulties in the money market occasioned by Stock speculation, will not materially affect dealers in produce. People of Europe want bread and they will get it if they are compelled to send gold for it. He concluded by saying: that the prospect for continued brisk trade was very good.

MADRID, Oct. 15.—Preparations are making for a general attack on Cartagena by land and sea, by forces of the National Government, and Insurgents are reported completely demoralized.

SAN FRANCISCO, Oct. 15.—Overland passengers, G. W. Haine, W. T.; G. W. Wilson and wife, E. C.; C. H. Whitney, Vancouver.

NEW YORK, Oct. 16.—Joe Coburn says he will fight Tom Allen in West Virginia or Canada for \$2,500 to \$5,000.

NOFOLK, Va., Oct. 16.—The Common and Select Councils of this City have appropriated \$1,500 for the Memphis sufferers, and recommend the people to make individual contributions.

WHEELING, Oct. 16.—Last evening Maj. J. Sweeney assaulted and beat O. S. Long, editor of the Register for abusive articles published in yesterday morning's paper. This morning's issue contains further reflections on Sweeney's character, and about 11 o'clock Sweeney met Louis Baker, proprietor, and J. S. Clarkson, local editor of that paper, and after some words all three drew revolvers and firing commenced. Baker was slightly wounded and Clarkson had an arm broken. Baker and Clarkson then took refuge in a store. There will probably be more shooting before the polls close. Sweeney is a candidate for the Legislature; the election is being held to-day.

LONDON, Oct. 16.—Advices from South America report that the insurgents of Entre Rio, Argentine Republic have been signally defeated. A whole battalion mutined against the rebel leader Lopez Jordan and submitted to federal authority.

VICTORIA, Oct. 17. Both papers are filled this morning with reports of more discoveries of rich gold diggings in the Cassiar country. The steamer Otter arrived yesterday from the North, bringing from \$8000 to \$10,000 in dust and a number of miners, who were compelled to leave on account of the scarcity of provisions. All who arrived yesterday will return early in the Spring. The following is a brief account of these mines, taken from the Colonist:—On May 1st gold was discovered by Henry Thibert, Xavier Looyon, and T. Tal-fair, on a creek now known as Thibert's creek. They got a few colors at first, but 19 days afterwards, on the 20th of May, the ice broke up, and they got \$10 to a prospect. On the 23d of May they commenced work with rockers and made from an ounce to \$20 a day to the man, in coarse gold. On the 1st of July they set steadily to work with rockers and made ever afterwards from \$11 to five ounces to the hand per day. The main diggings are on a bar of the creek. They also worked on the bench, 10 feet above high water mark, the frost being still in the ground. On the bench they made from one to three ounces a day to the hand. They got the pay on the bedrock. Pay gravel is from six inches to twelve in thickness. They built a windmill and made from two to five ounces a day on the bar. This creek is 30 to 50 feet in width. It runs from west to east and empties into Dense Lake, but where it heads is not known. It runs through a range of low hills and the banks are well clothed with spruce timber, white fish abound in the lakes. Arctic trout are caught in the creek running in the Lake. Dense Creek, 15 miles South of Thibert's Creek, running in the same direction and about the same size was discovered by Moore & Co., who got good prospects of \$10 to \$22 a pan.—When these informants left, they were working on a bar with rockers and making 2 1/2 ounces to the hand.

Mr. Thibert has great confidence in the richness of the diggings; their extent, of course, is not known. William Waldron is entitled to the honor of taking out the largest nugget yet found in the new diggings. He found a perfect beauty weighing 3 1/2 oz. Thibert took out the next largest, weighing \$22. In

coming out the party met 3 men from Nansimo half way between Back's bar and the diggings. They met 8 men at Tech's saddle creek, 17 miles above Back's bar, and saw 25 men at Wrangle who had come up. Several miners from Omica arrived yesterday. Mr. Griffiths, of this city, from Lost Creek bro't \$2000. A miner who left the diggings about three weeks ago came down by Erying the Pass and met with no snow. There was no snow on the creeks and had mining was going on as usual. On Lost Creek several claims were paying good wages. On Manson several companies were also taking out gold. Jim May and party have gone to prospect the Bear Lake country, at the headwaters of the Skeena. The news of gold discoveries at Cassiar had reached Omica and men were leaving daily for the new gold fields. Very few will winter there.

U. S. S. Tuscarora sailed for San Francisco yesterday to continue the soundings for the projected Pacific cable.

NEW YORK, Oct. 17.—At last evening's session of Women's Congress, Mrs. Sarah J. Spencer read an address on the co-education of the sex and argued that the sex was of soul and indestructible as soul itself. Rev. C. E. Burleigh read a paper on the relations of women to her dress, holding that the present dress is ugly, unnatural and immodest, and unless women can be rescued from its tyranny, even the ballot can do little for her. The claims of women teachers was the subject of a paper prepared by Harrie Beecher Stowe and Catherine Beecher Stowe of New Jersey.

Lowenstein, 511 Magazine street, was partially burned. The store of T. C. Houptoulas was also burned. Loss \$20,000. Isaac Landerman was arrested as an incendiary.

MINNEAPOLIS, Oct. 17.—C. W. Mead general manager of the N. P. R. R. states that it is proposed to operate the road as far as Jamestown this winter, as the road is supplied with snow fence etc. to that point. If the winter is so severe trains will run to Bismark, but it is hard they will be discontinued Jamestown is about 100 miles west of Fargo. Work on the road is to be begun and prosecuted with vigor. Gen. Cass has been appointed a Commissioner to examine and report upon the condition of the road, and he starts to-day.

MILLIONS Bear Testimony to their Wonderful Curative Effects. Vinegar Bitters are not a vile concoction. Made of Pure Rye, Water, Proof Spirits and Refine Liquors, doctored, speed and sweetened to please the taste, called "Fonic." "Appetizer," "Restorer," &c., that lead the sufferer on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a gentle Purgative no well as a Tonic, possessing all the restorative merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and of all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Biliousness, Headache, and all the ailments of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the offspring of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Scab, Itch, Bores, Pimples, Pustules, Etc., Carbuncles, Ring-Worm, Scald Head, Sores, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
