Puget Sound Dispatch.

LEGISLATIVE VISITORS.—President McLane and Messrs. Cranney, Montgomery and Stine, of the Council, and Messrs. Bash, Bryant, Plog, Clymes and Kuhn, of the House of Representatives, together with Gen. Tilton, Mr. Matheny, late of Salem, and a number of others, arrived on the steamer Zephyr last evening, and have spent the day in looking over the town, with which all express themselves well pleased. The party will have a reception at the hospitable residence of J. R. Robbins, Esq., this evening after which they will be entertained by a ball at the Pavilion, to both of which all are invited.

At the Joint Convention of the Legislature the following gentlemen were elected to the different Territorial offices: John Miller Murphy, Auditor; E. T. Gunn, Treasurer; B. F. Yantis, Librarian; John Paul Johnson, Superintendent of Common Schools; Dr. E. Shiel, of Walla Walla, Brigadier General; F. Guttenburg, of Seattle, Adjutant General; E. A. Wilson, Mason County, Commissary General; Geo. W. Thomas, Quartermaster General; H. A. Atkins, A. A. Denny, Beriah Brown, E. M. Smithers and J. T. Jordan, University Regents.

VIVIAN. The Great Vivian, with the following array of talent assisting him, will appear in his celebrated pantomime entertainments on Friday and Saturday evenings: Mrs. Keiffarth, soprano, J. W. McKensie, emce rebustro, Harry J. Lask, pianist, and G. W. Jester ventriloquist.

FOR THE MINES.—Messrs. H. Wells, Wm. Druitt and two others, who e names we did not learn, left this noon for the new gold mines on Yakima river. They expect to remain at the mines during the winter.

RAILROAD DISASTER.—Edward Carr, son of Professor E. S. Carr, of the University of California, was accidentally killed, on Thursday at Alameda Station. He has been employed as freight train engineer on the Oakland and Alameda road; but had taken charge, on Thursday, of the passenger cars. The couplings between passenger cars differ from those of freight wagons. Whilst coupling the latter there is space between in which to stand; but when uniting the former it is customary to effect the junction from the platform, the mid-space being too limited. Young Carr seems to have forgotten that he was not on a freight train, and in coupling he stepped down on the track, and the cars coming together with great force he was crushed to death. He did not utter a word. His lifeless body was conveyed to the Yosemite Hotel. A telegraphic dispatch apprised his parents of the sad event.—S. F. Call, Oct. 25.

On Tuesday last, in North Sanson, a man named John Vine, engaged as a teamster for H. Simpson, whilst moving a thrashing machine from Simpson's farm to Jaw Mellmoyl's met with his death under the following circumstances: While on the way, as the team was passing through an opening in the fence, the wheel of the wagon struck a stone, which caused the tail-board of the wagon to fly out, and coming in contact with the horses' heels, they started off on a run, and as they suddenly turned a corner the wagon upset, and the sweeps of the machine fell upon the deceased, breaking his ribs and crushing his chest. The deceased only lived about 15 minutes after the accident. He was an Englishman by birth, a single man, and aged about forty-six years. An inquest was held the same day before A. O. Anderson, Esq., coroner, and a verdict of accidental death returned.—Victoria Standard.

IMMENSE VESSEL.—The San Francisco Call, of Oct. 25th, contains a lengthy description of the sailing of the ship Three Brothers, formerly man-of-war Vanderbilt. She is the largest vessel that ever sailed from the Pacific coast. She takes to Europe a cargo of 4,366 tons of wheat, valued at \$199,000. Her cost was \$175,000. She spreads 15,000 yards of canvass. In speaking of her spars the Call says: "Her spars are marvels although they do come from Puget Sound. Probably no other part of the world could produce such fine masts and yards."

In a recent number of the New York Tribune it was announced that the Christian Union, of Brooklyn, had attached the effects of the Puget Sound and Lake Superior Land Company, to secure a debt of \$595 for advertising. It has not been announced whether the amount was realized or not.

The New York Evening Post in arguing against an increase of currency accepts figures which state the present currency volume to be as follows: Legal tenders, \$356,000,000; bank notes, \$314,000,000, less \$150,000,000 bank reserve— which makes our total circulating medium \$550,000,000.

PORTLAND ROUTE.—Wells, Fargo & Co. have, we understand, for some time past been losing money by their Portland route and are about withdrawing their messengers. Express will, in future, be sent in sealed boxes and placed in charge of the pursers. The messengers on the new Oregon route will also be withdrawn. We learn also that several clerks at the home office are to be suspended.—S. F. Chronicle.

CONNECTED.—The Eliza Anderson connected with the Isabel at Port Townsend and returned to this place much sooner than was expected, leaving here for Olympia at 7 o'clock this morning. On Fridays the mail steamer is supposed to leave here at noon but she usually leaves at any hour between 7 A. M. and midnight.

J. H. Church, Madame Stevenson's agent and lessee of the Theatre at Victoria, was arrested at that place on Wednesday charged with assaulting a saloon keeper with a slung shot. He was fined \$1 and costs, it being proved that he struck the man but not with a slung shot.

PRAYER MEETING.—At the Congregational Church on Sunday evening next, in place of the usual services, will be held a Prayer meeting, in which the whole congregation will join in singing some of the grand old hymns familiar to all. Printed copies of the hymns will be supplied to each one. All are cordially invited.

THANKS.—To W. H. Pumpfrey, who returned from San Francisco on Wednesday, for a number of late San Francisco dailies.

On Thursday five cargoes of wheat cleared from this port, valued at \$185,000.—S. F. Call, Oct. 25.

REPAIRING.—The steamer J. B. Libby has been on the beach near Woodward's warehouse for a day or two past being overhauled, having her bottom cleaned and being re-caulked.

Rev. J. A. Spaulding, Rector of St. Paul's Church, New York, has been elected Episcopal Missionary Bishop of Colorado, to fill the vacancy caused by the death of Bishop Randall, late of that diocese.

The Seattle Horse, lately opened in this City, has the merit of being the cheapest in the Territory. See their ad in another column.

THE BISHOP AND THE COLLIERIES.—The Birmingham Morning News says that the prominent figure, is just now circulating in Wolverhampton. It is to the effect that while walking in the Black country, a short time ago, his lordship saw a number of miners seated on the ground, and went towards them with the object of saying a "word in season." He asked them what they were doing, and was told by one of the men that they had been "loyin." The Bishop evinced some astonishment, and asked for an explanation. "Why, yer see," said one of the men, "one of us fun' (found) a kettle and we have been a trying who can tell the biggest lie to hat." His lordship was shocked, and proceeded to read the men a lecture, telling them, among other things, that he had always been taught that lying was an awful offense, and that, in fact, so strongly had this been impressed upon him that he had never told a lie in the whole course of his life. His lordship had barely finished when one of the men, who had previously remained silent, exclaimed, "Gie the governor the kettle; gie the governor the kettle."

The New York Nation has been devoting some of its spare moments to analyzing the contest of the last Congressional Directory. It finds that of 317 Senators and Representatives in the last Congress, only 87 were graduates of colleges. North Carolina had the largest proportion of members thus educated. In her delegation of 9 members 6 are "college bred." New York has 9 out of 33; Pennsylvania, 6 out of 26; Ohio, 5 of 21. New England is not much better, having less than half; and ten States, extending from Maryland and Delaware to Texas and Nevada, have not a single graduate. School children should take courage. The studious boy is quite sure to make an intelligent man; and to such a one, it will be seen, the chances for Congress are encouraging.

Considerable excitement prevails in East and West Donegal, Penn., occasioned by the arrest of about fifty persons, the most of them being respectable farmers and their sons, on a charge of detouring the revenue. It seems there were two women, residing in the neighborhood, who manufactured cigars for their own consumption. In the majority of cases the nature of the offense is buying cigars not placed in stamped boxes, and from an unlicensed manufacturer or dealer, and thereby aiding such dealer to defraud the revenue. The penalty is not less than \$100; no more than \$200; fine and imprisonment for not less, than six months may be added.

The Boston Journal understands the evidence has been discovered which will thwart the attempt of the defaulting cashier of the Lowell Bank to deprive the bank of its bond by destroying that instrument. There were 10 names on the bond for \$2,000 each, and the fact that the names were on the bond and their legal liability can be fully established.

A SUGAR REVOLUTION.—An invention which threatens to interfere greatly with our commerce is reported from Paris, and if it proves a success it will probably have the effect of causing an entire revolution among the Southern planters. The new discovery is a method of making sugar by uniting into a compound, its constituent atoms of carbon, hydrogen and oxygen. The inventor, Mr. Jouglot, says that the cost of production will be fifty cents per hundred cwt., and he has already so far succeeded in establishing the utility of his invention that a company of manufacturers have been persuaded to purchase it from him for the comparatively moderate sum of \$240,000. What the sugar planters and refiners will do if this discovery turns out to be as important as it promises, remains to be seen; but there is no doubt that if it is only partially successful, strange developments may be expected. The invention is said to be very simple, and one easily explained; and endless quantities of saccharine substance can, it is claimed, be manufactured by this new process in so short a time and at so small a cost as to preclude the possibility of competition.

BOARD OF CAPITOL COMMISSIONERS.—We are informed by Mr. Dearborn that the Board of Capitol Building Commissioners, having about concluded their business for this year, will adjourn in a few days, and close their office until Spring. Work upon the building has been discontinued for the season, everything about it having been put in readiness for the winter's storms, with the exception of the grounds, upon which a force of convicts is now at work, grading down and filling in. This work will soon be completed, and business will cease in that locality until another year. Oreg. Statesman.

LOST PEOPLE.—When Dickens, in one of his minor pieces, says: "I have not the least belief in the noble savage. I consider him a prodigious nuisance, and an enormous superstitious, I call him a savage, cruel, false, thievish, murderous, a wild animal, with the questionable gift of bonating; conceited, tiresome, bloodthirsty; monotonous humbug," he expressed the opinion held by Americans generally, and by frontiersmen universally, concerning the Indians.

The Union complains justly that the Oregon papers give Eastern Oregon the credit of raising all the wheat that comes down the river to Portland, and ventures the assertion that 99 out of 100 bushels of the same was raised in Walla Walla county. The next thing we shall hear will be a howl from the Oregon press that the California papers don't give the Webfoot country due credit for the excellent wheat shipped abroad.

A postmaster, if he knows that a certain letter received at his office is for a person who receives his mail matter from another office, is bound to forward such letter (if properly prepaid), to the proper office without waiting for a request to that effect. No additional postage in such case. This is in accordance with a recent decision of the Department.

The Boise Statesman of the 22d, says: "Governor Bennett, according to previous arrangement, goes to Port Hall, where he will meet General Shanks to make a treaty with the Fort Hall, or Boise and Bannack Indians. The intention is to limit the Indians to the reservation, and not permit them to roam all over the country under the pretense of fishing and hunting."

The rigging of the Empire City is rapidly approaching completion.

CIDER.—We are indebted to Wm. Meydenbauer for a quantity of cider.

Board only \$5 00 and board and lodging \$7 00 a week at the Occidental Hotel.

Copies of the painting of the "Saranic at Tacoma," at Moore's for 50 cents each.

RELIGIOUS.—Divine services will be held in Trinity, Episcopal Church, tomorrow at 11 A. M. and 7 P. M.

VIVIAN.—The Vivian Troupe, not having reached this place until 7 o'clock last evening, were obliged to postpone their entertainment until this evening.

OCCIDENTAL HOTEL.—This popular hotel to-morrow comes under the management of its former proprietors, Messrs. John Collins & Co. Mr. Collins has proved that he knows how to keep a hotel and he will undoubtedly sustain his reputation.

THE WEST.—Mr. W. I. Meyfield has purchased a half interest in the Spirit of the West which is now published by Lagdale & Mayfield. The Spirit is the first paper in the Territory to get "patent inwards." We hope for the good of the Territory that it will be the last.

THE NEW MINES.—We learn from the Dalles Mountaineer that there is considerable excitement east of the mountains about the Yakima mines. The mines are situated on Squak Creek, a tributary of the Yakima. One man creviced out \$160 in coarse gold, with a knife and spoon, in a very short time. We understand that the Creek has been taken up for 6 or 7 miles by prospectors.

MUSICAL.—Professor Rutan the well-known teacher of music will organize classes at the White Church at the following times: Advanced class, Monday evening, Nov. 3; primary class, Wednesday evening, Nov. 5; juvenile class, Saturday afternoon, Nov. 8, at 2 o'clock. Full particulars can be learned from circulars which will be issued on Monday.

Mr. Frank F. Myers takes leave of the "Forest Grove Independent," in the following laconic, but forcible, valedictory: "Having sold out, my connection with the Forest Grove Independent ceases with this issue—and I am d-d glad of it."—Salem Statesman.

Mr. Myers was publicly caned, in the streets of Forest Grove, by Col. Thompson, editor of the Salem Mercury, for scandalous attacks upon that gentleman, through the columns of the Independent. This probably accounts for his being so glad to get out of the paper.

MRS. WADDELL HAS RESOLVED TO open in Seattle, W. T., an Orphanage for the reception of Orphans and Homeless Children and to hope to merit public confidence. The Orphanage will be unsectarian and conducted on a very moderate terms to those who can pay expenses; and to those who can not, the best will be done possible by the assistance of those charitably disposed. Contributions of Furniture, Provisions, and Money very gratefully received. The Orphanage is on Seneca street, near the University. REFERENCES.—Rev. D. Bagley and W. L. Cooper, Seattle; Rev. J. Bowersox, Salem, O.; Mrs. Brown, Brown's Hotel, Victoria.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T. Nov. 6 1873.

Board only \$5 00 and board and lodging \$7 00 a week at the Occidental Hotel.

Copies of the painting of the "Saranac at Tacoma," at Moore's for 50 cents each.

A dispatch from Swinomath states that the steamer Libby left for Seattle at half past 12 o'clock to-day.

Prof. Plummer is tickling the fiabilities of the people of Walla Walla.

Dispatches from La Conner say that a heavy gale prevailed there this morning, which prostrated the telegraph wires between that place and Victoria.

We understand that the steamer Polikoffsky has been condemned and will not be allowed to run after the 5th of this month.

The steamer Success is still laid up for repairs and our only communication with Port Blakely is by a semi-occasional plunger.

The schooner Dreadnought, having discharged her freight at this place, sailed over to Ezeport, where she is now loading with lumber.

The Indian Potlatch closes to-day, but there are still a large number of canoes in the bay. It is estimated that over 1500 Indians are at present in the vicinity of Seattle.

MARRIED.—At the Congregational Church, on the 2nd inst. by the Rev. Norman McLeod, Gideon Hubbard, Esq., to Mrs. Frances A. Ferguson, both of this city.

HOLIDAY GOODS.—W. G. Jamieson, the well known jeweler, has just received and opened as fine a stock of goods in his line, as was ever received on the Sound. See his ad. in next column.

The steamer Empire City, built at Port Madison, is rigging and loading with lumber at Yesler's wharf. She will soon leave her cargo in, and will sail for San Francisco to get in her machinery.

DEAD.—In this city, on Sunday last, at the United States Hotel, Robt. Parker, aged 34. He was buried yesterday at 10 o'clock by the Masonic fraternity, of which society he was a member.

There was an exhibition by the students of the Territorial University, last night, consisting of declamations, reading, singing, etc. It was a decided success and reflected great credit upon both scholars and teacher.

VIVIAN.—This great character delineator gave one of his celebrated parlor entertainments in this city on Saturday night. The entire performance was so good that we cannot specially speak of any one performer. Vivian will return in about two weeks.

NEW WHARF.—A large addition to Yesler's wharf is in process of construction. The piles have been driven and a number of hands are engaged in filling in with slabs, edgings, etc. from the saw mill. When finished it will be one of the most substantial wharves on the Sound.

The B. B. Mail of Nov. 1st says the surveyors returned from the east half of Township 38, bordering on Lake Whatcom, having completed the survey of that section.

The Whatcom Fishing Co. have completed their labors for the season and returned. They report only moderate success.

Mr. D. A. Neely who left Yakima mines about 10 days ago, brought some specimens from Swak Creek, which being assayed by Mr. J. M. Coleman and others showed \$15 to the ton. Mr. Neely reports that there were over 300 men there when he left, and that prospects for miners were pretty fair, although, of course, not much can be done this winter.

Mr. J. R. Dwyer, the Agent for the Babcock Fire Extinguisher, was in town to-day. He has given the extinguisher a trial had the weather permitted. It was tested at Port Townsend a few days ago, and gave such satisfaction that many were purchased in this place. It would be just the thing to put out a fire when it first starts, and we hope several will be bought in this place. There is a lamentable want of all means of checking or extinguishing fires in this place and we think the question of getting these extinguishers and having them placed in prominent parts of town should be brought before the next meeting of the City Council.—One fire, if not immediately checked, might destroy the entire business portion of the town. This is a matter that should be seen to at once.

Col. E. C. Remble, one of the 8 Inspectors of Indian Reservations appointed under the recent act of Congress, has been visiting the several agencies in this Territory, and it is said that his presence has created general consternation among the employees who have been stoically drawing fat salaries for doing nothing. Rich developments are expected soon as the official report is submitted.—Standard.

A SCHOOL OF WHALES.—A few months ago, while an American bark was on its way to Norway, she became becalmed in the vicinity of Upper Lofoden Islands. Suddenly the sea was seen at a short distance to have tumultuously, as if moved from a profound depth. Suspecting the presence of whales, the officers of the ship took the precaution to place the crew at the sides of the vessel, armed with grappling irons and muskets loaded with ball. Soon afterward fifteen marine monsters were seen swimming toward the ship. One of these with all its body out of the water passed the side of the vessel, and as it did so it was loaded with balls from the muskets of the crew. The shots killed its innards. An examination of the prize showed that it was not a whale, as had been supposed, but that it was a specimen of the cetacean family, known as the physeter-microps, the latter appellation being given to it because of the smallness of its eyes. This species is the most terrible, the strongest, and the swiftest of the formidable mammals which frequent the waters of the Arctic seas. The recognized monarch of the polar seas, it attacks and devours the strongest of its kind. The specimen killed by the American crew was found to measure over seventy-five feet in length, and its bulk, as it lay upon the water, equalled that of a medium-sized bark.

BEAR FIGHT.—In the Astorian of Oct. 29 we find the following: "On the evening of the 20th inst., Thad. S. Barr, of Gray's River, had a fearful encounter with a large bear of the black species, in the vicinity of his house. After discharging the only load in his gun, brim met him 'hand to hand' in the conflict, but with the help of his noble dog and a sheath knife he managed to make a corpse of the ugly customer, and escape with only a few slight scars and some torn clothes."

REN MEN'S WIGWAM.—We have been told that the upper story of the fine two story house that is being built for Mr. Geo. Barthod, is designed for a wigwam for the Chimacum Tribe of Red Men, of this place. The brothers of this order are rapidly increasing, and the fraternity may justly be considered one of the important institutions of the place.—Argus.

THE GEOLOGICAL SURVEY.—Mr. Richardson and party returned from the season's exploration on the East Coast last evening, all well. The iron and marble discoveries made by this party are of the greatest importance and, some day, will become very valuable. Mr. Richardson is preparing his report for the Department at home.—Colonist.

ANOTHER HOTEL.—It is said that the owners of the water lot opposite the Custom House, at the head of Union Wharf, intend to erect thereon next summer, a fine hotel, which will be occupied by a popular and well known hotel keeper in this county.—Argus.

A young man at Evansville coughed up a twenty five cent currency note the other day, and has gone back to the boarding-house whose hash he complained of formerly.

Whereas—Thirty cargoes of wheat have been cleared for England during the last month, the largest number this season in one month. The whole number cleared since the 1st of July is 85 against 106 for the same period in 1872.—Colonist.

On the way down from Yale on Tuesday evening the steamer Onward was slightly damaged, and had gone on the beach for repairs, in consequence of which her sailing agent for this would be delayed a little.—Colonist.

An Essex street man bought a pig Saturday.

"What do you feed your pig?" asked a neighbor.

"Corn," he said.

"Do you feed it in the ear?" asked the friend.

"Do think I am a fool?" said the Essex street man, sarcastically.

Shortly after the recent illness of Beau Hickman at Washington, Townsend called on him, and wishing to encourage him remarked: "Well, Hickman, I can't see that your appearance need trouble you?" "No, Townsend," replied the invalid, it "doesn't; it's my disappearance that troubles me."

A negro member of the Mississippi Legislature is in jail for stealing a hog. His friends say he really didn't want the hog; but felt that as a Radical leader, he must steal something, and he could find nothing else to steal.—Courier-Journal.

A French custom-house officer of an inquiring turn of mind, noticing the arrival of a large herd of rocking-horses, wanted to find out what the animals lived on. He opened several, and found their little stomachs full of cigars.

SALEM MILLS.—The Salem Flouring Mills are running constantly, night and day, turning out 400 barrels daily.—Several new burrs have been added to those already in use, making it the largest one in the State. As soon as possible another set will be put in, which will add greatly to the amount of flour ground for shipment. The firm have purchased 350,000 bushels of wheat during the past few months, most of which is now on storage in Salem.—A vessel is now under way from San Francisco for the purpose of receiving a cargo of wheat and flour for that port.—Portland News.

"KANAKA JOE."—The Courier reporter has interviewed "Kannaka Joe," the murderer of Mr. and Mrs. Dwyer, on San Juan Island, a few months ago, now confined in the County Jail in Olympia. He is but seventeen years of age, and looks more like a Northern Indian than a Kanaka. He acknowledges that he shot Dwyer, but that an Indian killed Mrs. Dwyer, and thinks it unjust that he should be punished for the crime. He expects to be hung, and his only regret appears to be that his companions in crime may not suffer the same penalty.

EMIGRANTS FROM MONTANA.—Messrs. Frank and Joseph Hubbard, with a train of six wagons, are now on their road from Montana to the Sound, where they expect to make their future home. The Messrs. Hubbard have been residents of that Territory for the past ten years, and are gentlemen of considerable means. Capt. Edwards, also from Montana, a capitalist and steamboat man, is here looking for a location.—Transcript.

The Lucretia Borgia costume took the first prize at a Kentucky ball masque. The judges thought the wearer might go to experimenting on them if they didn't pony up.

Egyptian Bitters TREE OF LIFE.

Patented June, 1866, to Peter Poncia.

THIS VALUABLE MEDICINE, IN USE for several years past in the Eastern State with marvelous success, has just been introduced in this place by the patentee.

The first person who tried it here, offers the following testimony to its merits:

I have been a sufferer for several years from chronic bilious affections from which no medicine tried by me afforded any relief. As an experiment, I tried Mr. Poncia's Egyptian Bitters from the effects of which I have experienced the most gratifying results. I can sincerely recommend it to others similarly afflicted. HUGH McALEER.

Manufactured and sold by P. PONCIA On Second street corner above Methodist Church.

Roscoe and Beach also visited Lucette. Kate Stoddard called several times on Lucette to learn whether Goodrich visited her and manifested jealousy. Roscoe was also jealous and threatened to kill Goodrich. One night Lucette and Beach went to Goodrich's house and entering with false keys hid in a closet. Kate Stoddard and Goodrich entered soon afterwards and quarreled for some time. Lucette heard a shot and three or four in succession. She bursted the room closet and saw Roscoe with pistol in hand leaning over Goodrich, and Kate washing blood from his forehead. Roscoe threatened to shoot Lucette, but let her off on her swearing secrecy. She then wandered home. She does not know how Roscoe entered the house.
