Notice.

In the matter of the Claim of Andrew R. Feller under the Homestead Act to land in the County of King in the Territory of Washington.

To ANDREW H. KELLER:—You are hereby notified that I will appear before the Register at the Land Office in Olympia, in said Territory, on the 4th day of August, 1866, at 10 o'clock A. M., and offer proof of abandonment by you for more than six months at one time of all that tract of land described upon the plat of the public surveys, as Homestead Claim No. 473, being the N. E. quarter of Section No. 1, in Township No. 22 North of Range 4 East, Willamette Meridian, when and where you are requested to appear and show cause why said entry by you as a Homestead should not be vacated and said land revert to the United States.

FLORENCE SEWING MACHINES.

Copy of the Report of the Committee of Awards at the Fair of the AMERICAN INSTITUTE, NEW YORK, 1865. To the FLORENCE SEWING MACHINE CO., for the Best Family Sewing Machine.

Highest Premium! Gold Medal!

REASONS:

- 1st. Its simplicity and great range of work.
- 2d. The reversible feed motion.
- 3d. The perfect finish and substantial manner in which the machine is made.
- 4th. The rapidity of its working, and the quality of work done.
- 5th. The self-adjusting tension.

The "Florence" was awarded the First and Highest Premium at the State Fair of California, the only Fair on the Pacific Coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded by the Mechanics' Institute, of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the FLORENCE has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every machine sold is guaranteed in the full sense of the word. Send for Circulars and Samples of Work.

PUGET SOUND WEEKLY. MONDAY, August 20, 1866.

A BOY STRUCK BLIND FOR BLASPHEMY.—The vengeance of the Almighty was visited on a youth named Richards, on Sunday week, in the most awful and sudden manner. It appears that the lad, who is thirteen years of age, and the son of parents in very humble circumstances, was playing in the street with four or five lads of about his own age at "cat and dog." Richards and his companions had been playing for some time, when a dispute arose between them as to the number of "notches" (or jumps), Richards had scored. He declared that he had made more than 20, and his opponents protested that he had not scored so many. High words and bad language were freely used on both sides. Each boy accused the other of falsehood, and at length Richards, failing to convince his companions of the truthfulness of his statement, flew into a violent rage and emphatically shouted, "May God strike me blind if I haven't made more than 20." He had scarcely uttered the adjuration before he let the "dog" fall out of his hands, and throwing up his hands, exclaimed, "Oh! dear, I cannot see." His companions ran to him, and finding what he said was true, at his request led him home, where on examination it was found that a thick film had overspread each of his eyes. In this miserable condition the unhappy youth has remained ever since and we are informed that there is little or no prospect of his sight being restored.—Brighton (Eng.) Observer.

Religious Culture.—Our old friend, Peter Gainsevoort, has recently manifested an anxious interest in spiritual matters, which has led to his being extensively chaperoned by the gentlemen with the white neck ties. One of these, who was examining Peter as to his knowledge of Biblical lore, inquired: "I suppose, Mr. Gainsevoort, you are aware who died to save sinners?" "O yes," said Peter, "that was God!" "Well, yes, but not exactly either—it was Jesus Christ, the Son of God." "So-o-oh!" said Peter, "it was some of the boys, was it? I always thought it was the old man."

DIDN'T KNOW HE WAS LOST.—A revivalist in Birmingham, New York, encountered a large-sized African, and asked him: "My good man, have you found the Lord?" To which Sambo replied in a surprised manner, "Golly, massa, is the Lord lost?"

Special Notice.—The Blood, Strengthening the Nerves, Restoring the Lost Appetite, PRESER'S BAMBURG TEA. It is the best tonic for almost any ailment. It can be given safely to infants. Full directions in English, French, Spanish and German, with every package. Wholesale and Retail Druggists and Grocers. Sole Agents, 410 Clay Street, San Francisco.

New Discovery.—They have just found out that Men's Clothing, made by hand, and warranted to STAY MAAS, at prices competing with slop work, can be bought at "GOOD WINE TAILOR SHOP," Seattle, W. T. None but his own work dealt in, and hence the guarantee. 13:30

PUGET SOUND WEEKLY.

MONDAY, August 20, 1866.

HORRIBLE CATASTROPHE.—One of the most deplorable accidents that we have heard of for a long time occurred in this city yesterday, which resulted in the death of two estimable young ladies, each about eighteen years of age. The accident occurred at the residence of Dr. W. W. Brown, on Madison street, between Eleventh and Twelfth, his daughter Jennie being one of the victims, and a young lady visiting the house—Miss Sallie Hart—the other. The facts, as near as can be obtained, are these: Miss Sallie Hart, who was stopping at Mrs. Moore's, on Broadway, went to Dr. Brown's to spend the day with Miss Jennie. A short time after dinner the young ladies who met with the accident went into the yard, remarking that they would go and tell each other's fortunes. They were gone an unusual length of time when Mrs. Moore, who was also visiting the house, remarked to Mrs. Brown, "Let's go out and see what the girls are talking about." With this remark the two started out expecting to surprise the young ladies in their chat, but how exasperating must have been the feelings of Mrs. Brown when she found the facts in the case.

After looking for the young ladies, the two went to the privy, where they discovered that the floor had given way, and looking down, they saw something like the dress of a female. The thought at once flashed across the terror-stricken mother that her daughter and her young companion had been precipitated into the vault. The alarm was given, and George Postlewaite, who resides in that vicinity, came to the place and removed the ladies.

When they were first rescued, Miss Sallie Hart had not entirely ceased to breathe. Every effort was made by those present, two physicians, in the meantime, having arrived, but their efforts were unavailing. Two young ladies who had left the house but an hour or two before, full of life and hope, were returned to the room which they had left two lifeless corpses. The feeling of the mothers can be more easily imagined than described. They will receive the condolence of all in their heart-stricken grief. These young ladies were each just blooming into womanhood, and were the pride of their parents, who perfectly idolized them. Their many friends will hear of their horrible death with feelings of sorrow.

The beam upon which the floor of the vault rested was a very light one, and was perfectly rotten. We were called upon a short time since to record a similar accident, in which, however, but one of the ladies met her death. It would be well for our citizens to examine the floors of their vaults and see that they are safe. We learn that one of the young ladies who met with this horrible death was to have been in a short time united in the bonds of holy wedlock to a young gentleman of this city, who was present a short time after the accident occurred. The coroner held an inquest, and the jury returned a verdict that Miss Jennie Brown and Miss Sallie Hart came to their deaths from drowning in a privy vault. It was also found that the floor of the vault was very insecure, not being strong enough to bear the weight of one person.

Man who fight duels have generally two accounts to give after they are dead.

DESTROYED BY WATER.—The crops of hundreds of plantations along the Coosa, Tallapoosa and Alabama rivers have been entirely destroyed by the high waters.

RHODE ISLAND has a model Legislature. It adjourned after a session of four days, during which time no less than eighty-three acts and resolutions were passed.

The Carson Appeal says that, during a heavy thunder-storm, on the morning of the 5th inst., the lightning melted a considerable length of the telegraph wire between Carson and Empire.

TELEGRAPHIC.
THE LATEST.

[SPECIAL TO THE WEEKLY.]

THE CHOLERA.

St. Louis, Aug. 17.—The cholera is decreasing. There were 12 deaths yesterday. Business is lively and few have left the city.

Cincinnati, Aug. 17.—There were 67 deaths by cholera, yesterday.

New York, Aug. 17.—The total mortality in Brooklyn in the past 6 weeks, was 1819 deaths, including 259 by cholera.

Nothing has been received today by the cable. There is trouble on the land line. Hope to get something soon.

GOLD.

New York, Aug. 17.—Gold is steady and Government stocks are strong and advancing. Liverpool freights are active and firmer.

MAXIMILIAN PUTS ON AIRS WHICH THE PRESIDENT CAN'T PUT UP WITH.

Washington, Aug. 17.—The President has issued a proclamation, declaring:

That, whereas, war exists in the Republic of Mexico, aggravated by foreign military interposition, and

Whereas, the United States is neutral, and

Whereas, Prince Maximilian claiming to be Emperor of Mexico, has published a decree, closing the port of Matamoras and others to belligerents, and

Whereas, this decree is unsupported by competent force,

Therefore, the blockade is absolutely null and void as against citizens of the United States; and all claims to enforce it against the Government or citizens of the United States, shall be disallowed.

SANDWICH ISLANDS.

San Francisco, Aug. 18.—The Sacramento sailed for Panama, to-day, with 280 passengers.

By the barque Cambridge, 17 days from Honolulu, we have Hawaiian dates to July 28th.

The murder of Julius Duchet, Chancellor of the French Consulate, continued to be the absorbing topic.

The Honolulu Advertiser denounces the Hawaiian Ministry as unworthy of the confidence of the nation and calls upon them to resign. It is particularly savage on Atty. Gen'l. Harris.

The King, in his reply to the speech of our Representative, Gen. McCook, said;

"The political relations between the United States and this Kingdom, have been most satisfactory, and we have no doubt that your friendly efforts will perpetuate the harmony long undisturbed between both countries. We receive with pleasure, your letter of credence and assure you of our earnest desire to cooperate with you in promoting commercial intercourse, mutually advantageous to the Republic of the United States and the Kingdom of Hawaii.

MONETARY.

Sterling exchange 107½. This decline is attributed in part, to the sailing of the European steamer from New York to-day, the market for exchange and bullion closing yesterday.

The Bank of England has reduced the rate of interest to 8 per cent.

THE UNIVERSITY.—This institution reopens on the 10th, prox., as will be seen by referring to our advertising columns. Arrangements have been made to admit the children of Seattle, who are not advanced beyond the primary branches, free of charge. This is a good arrangement, for Seattle is sadly in need of a free school.

LETTER OF THANKS.—We were pleased to notice the following letter of thanks, in the *Colonist & Chronicle*, to R R Haines, Esq., of this City.

Victoria, V. I., Aug. 7th, 1866.
My Dear Sir: allow me on behalf of the inhabitants of Victoria to tender my sincere acknowledgments to the company you so worthily represent and to the managers of other telegraph lines, over which they passed, for having so liberally forwarded gratuitously the despatch and reply to and from the Lord Mayor of London.

Those kindly interchanges of cordiality and sympathy expressed between the peoples of two far distant portions of the British Empire, lost none of their significance, but if possible, were rather enhanced in our estimation, by having been voluntarily transmitted through nearly 4000 miles of wires, stretching across a continent possessed by a great and friendly nation; and over which, let us fervently hope, none but such messages of Peace and Good will, may ever be conveyed.

I have the honor to be, dear Sir, Your obedient servant,
LEWIS FRANKLIN,
Mayor.

R R Haines, Assistant Superintendent, California State Telegraph Company.

Du Chailin, the great African traveler, sends to the London Times some interesting notes on a tribe of pigmies which he discovered in Western Africa. They resemble the gipsies somewhat in their habits, and gain their livelihood by napping game, which they sell in the villages. They average about four feet six inches in height, and are known as the Oobongo.

FLORENCE SEWING MACHINES.

Copy of the Report of the Committee of Awards at the Fair of the
AMERICAN INSTITUTE,
NEW YORK, 1865.
To the FLORENCE SEWING MACHINE CO., for the Best Family Sewing Machine.

Highest Premium! Gold Medal!

REASONS:

- 1st. Its simplicity and great range of work.
- 2d. The reversible feed motion.
- 3d. The perfect finish and substantial manner in which the machines is made.
- 4th. The rapidity of its work, and the quality of its work.
- 5th. The self-adjusting tension.

The "Florence" was awarded the First and Highest Premium at the State Fair of California, the only Fair on the Pacific Coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The FLORENCE received the only premium awarded by the Mechanics' Institute, of San Francisco, in 1864 and 1865, to any Sewing Machine. Sewing Machine Co., Agents. The claim of a competitor to a medal is without any foundation whatever.

Wherever the FLORENCE has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every machine sold is guaranteed in the full sense of the word. Send for Circulars and Samples of Work.

PUGET SOUND WEEKLY.

MONDAY, August 20, 1866.

LOCAL INTELLIGENCE.

ARRIVED.—The revenue steamer Lincoln, Capt. White, arrived here from Olympia on the 13th inst.

SAILED.—The barque Scotland, Capt. Nichol, having completed her cargo of lumber, at Freeport, sailed for San Francisco on the 12th inst.

FROM OLYMPIA.—The steamer Josie McNear, Capt. Crosby, arrived here at 3 o'clock p. m. on Monday last, on her regular trip from Olympia to Victoria, with freight, passengers and the mails.

FOR WHATCOM.—The steamer J. B. Libby, Capt. Libby, sailed for Whatcom on Monday last, instead of the Mary Woodruff, which is still undergoing repairs at Port Orchard instead of Port Blakely as stated heretofore by us, through mistake.

FROM WHATCOM.—The steamer J. B. Libby, Capt. Libby, arrived on Wednesday last, from Whatcom, with the mail.

THE STRIKE AT BELLINGHAM BAY.—The Superintendent of the Bellingham Bay coal mine, on the morning of the 9th inst., called a meeting of the miners and gave them until one o'clock to determine whether to go to work or not. They decided not to go to work, so he discharged the whole of them, and, we learn, intends procuring an entire new lot of workmen. On Friday, many were anxious to go to work and the wives of some begged the superintendent to allow their husbands to go to work, but he positively refused. The ship Kutusoff, having arrived at the mine for the purpose of receiving a cargo of coal and not being able to procure it, returned to Port Gamble.

FOR SAN FRANCISCO.—The steamer J. B. Libby, Capt. Libby, towed out the barque Jenny Pitts, Capt. Friend, from Port Orchard and as far as Port Townsend, on Wednesday last, on her way to San Francisco.

A MOVE IN THE RIGHT DIRECTION.—Messrs. Bagley, Whitworth, Ross, Lewis and Settle have entered into an agreement with each other and commenced vigorously to develop the Seattle coal mines and to furnish means and facilities for the transportation of coal to the town. If there is no mistake about the amount and quality of these coal mines (and we are firmly convinced that there can be none), this is an important movement for the prosperity of Seattle and vicinity.

"Will you have some catsup?" asked a gentleman of Aunt Priscilla at a dinner-table. "Dear me, no!" she replied, with a shudder; "I'm fond of cats in their places, but I should as soon think of putting dog soup!" The gentleman did not urge any.

TELEGRAPHIC.

[SPECIAL TO THE WEEKLY.]

FOREIGN NEWS.

Berlin, August 26.—The Official Gazette of to-day justifies the course pursued by Prussia in levying the war contribution of 25,000,000 florins upon the residents of Frankfort on the following accounts: The systematic hostility shown towards Prussia by the Government of Frankfort and the toleration by the latter of articles in the Frankfort Press insulting to Prussia; violation of treaties; damage done to Prussian property; and Frankfort's participation in the war carried on by Austrians against Prussia.

London, August 8.—The relations between the Governments of Austria and Italy are assuming a more threatening attitude.

Liverpool, August 9.—The ship Dainebu from Bristol for the United States has been burned at sea. The passengers and crew were saved and brought to this port by the ship Couper from Mobile.

The following is per Atlantic Cable:

The latest telegrams from the continent state that affairs are unchanged.

London, August 9.—Cotton is dull.

The truce between Italy and Austria has been extended ten days.

Liverpool, August 9.—The Officers of the British Custom Service have seized six blockade runners at this port on behalf of the United States Government.

The ship Fairlight, Capt. Bush, which was to sail from Hong Kong May 29th, for Shanghai, was lost in the China sea—no date given.

London, August 10.—Parliament has adjourned. The Queen's speech concludes in thanks to the United States Government for its action in the late Fenian raid.

London, August 11.—Consols—87½; 5-20's, 68½.

New York, August 11.—The morning papers have the following dispatches from Europe by cable:

London, Aug. 9.—There is great excitement here this afternoon at the discovery of an attempt to blow up the two Houses of Parliament by packages of gunpowder with a fuse partially burned which were found near the entrance of the Lord Chamberlain's office in the House.—Members of Parliament have fears of another Guy Fawkes gunpowder plot.

The deaths from cholera in London during the last week were 1033 and from diarrhoea 354.

Berlin, August 8.—General Manteuffel, having attended the military council and had a favorable audience with the King, left yesterday on a special mission to St. Petersburg. Referring to the same, the official journal and Provincial correspondents say:

Russia by her position as a Great Power, and also on account of her numerous family alliances with German Courts, takes a lively interest in the German question. The relations subsisting between Russia and Prussia, ought to suggest to Russia the expediency of making confidential communications to the Cabinet at Berlin relative to the views entertained by the Czar's Government upon the recent steps adopted by Prussia. Any apprehensions respecting the attitude attributed to Russia by certain German journals will probably speedily prove to be groundless.

The same journal hopes the Prussian Legislative Chambers by passing a bill of indemnity, will end the conflict with the Government.

Yesterday, in the Upper House, a letter was read from the Count of Westphalia, declaring on oath an alliance with the King of Prussia and that his duty as a Federal Prince is no longer binding upon him since his majesty has withdrawn from the Confederation.

LATER BY THE CABLE.

London, August 13, Noon.—The armistice between Italy and Austria which expired on Saturday last, has been renewed for four weeks.

The official Berlin paper opposes the claim of France for an extension of her frontier.

The Czar of Russia has visited the U. S. squadron at Cronstadt.

Liverpool, Aug. 13, Noon.—The cotton market is steady today. The sales are estimated at 10,000 bales.

London, Aug. 13, Noon.—Consols, 87½; U. S. 5-20's, 68½.

London, Aug. 13, p. m.—There are no important political news this evening.

Florence, Aug. 8.—The term of suspension of hostilities has been prolonged. Peace negotiations between Austria and Italy will take place at Prague. Count Baira and General Morale will be the Italian Plenipotentiaries.

There were several storms in the Adriatic yesterday by which several vessels of the Italian fleet were damaged. The Italian ram Affondatore was sunk in the port of Ancona. The crew were saved.

Paris, August 10.—The Empress of Mexico arrived at St. Maziers today in an Imperial steamer. The Empress Eugenia is going to meet her to-morrow.

Liverpool, August 13, Evening.—The cotton market closed firm. There were sales to-day of 12,000 bales, middling uplands at 13½d.

London, August 13, Evening.—Consols—87½; U. S. 5-20's 68½.

Berlin, Aug. 12.—Prussia has informed Austria that she will maintain the right of Italy to Venetia. The same official organ, the Seeitung, says: Napoleon's absurd demand has raised hopes in France which it is impossible for Germany to fulfill. Revolution has taken the place of the

usual course of the policy of France. The changes which have taken place in Germany are national German and not of an international character. They convey no menace or danger to France.

Vienna, August 12.—The Austrian Minister of Finance has resigned.

The Austrian Ambassador to Rome has arrived in that city.

Brussels, Aug. 12.—News, received in this city from Vienna, says that great excitement prevails there. 482 men are to be tried on charges of high treason. Crowds of people in the streets have hailed the Emperor Francis Joseph with shouts of: "Abdicat! Abdicate!"

Florence, August 12.—An Armistice of 4 weeks duration has been signed between Austria and Italy. It will continue in force after the expiration of that time unless notice of cessation is duly given by either power to the other. A line of demarcation has been agreed upon between Austria and Italy and Venetians who have been compelled to emigrate from Venetia as a part of Austria, can now return to Venetia.

St. Petersburg, Aug. 12.—The United States naval officers made their official entry into this city yesterday. It was a grand reception. 50,000 people turned out to witness their entrance.

They were welcomed by a magnificent ovation, music, cheers, display of flags, and thousands of handkerchiefs waving in all directions. The greatest enthusiasm prevailed. Hon. C. M. Clay, Minister to the Court of St. Petersburg, gave a brilliant entertainment at his hotel to the Diplomatic Corps, Heads of Departments, and distinguished citizens in honor of our naval officers.

A ball and supper was given by the beauty and grace of the city. All the public Government buildings were decked in Union colors and brilliantly illuminated, which with fireworks produced a very lively sensation. Altogether, the affair was a splendid tribute to America.

THE DOUGLAS MONUMENT.

Chicago, Aug. 10.—The President and Secretary Seward have definitely promised to attend the Douglass monumental ceremonies at Chicago in September, when they will also make a visit to Kentucky and other Western cities.

THE CHOLERA.

New York, Aug. 10.—Reports yesterday indicate a general abatement of the cholera. 11 new cases and 9 deaths are reported in the city. There has been no admission of cholera patients in the hospitals at Blackwell's and Randall's islands.

THE ATLANTIC CABLE.

Heart's Content, Aug. 9.—Her Majesty's ship Terrible and the steamer Albany left on Wednesday

morning, Aug. 1st, and the Great Eastern and Medway sailed on Thursday morning. All of the vessels are fully supplied with coal and provisions and the members of the expedition are determined to recover and complete the cable of 1865 if possible. The Great Eastern has about 600 tons of coal and provisions enough for a six months cruise.

New York, Aug. 10.—A dispatch from Major McKay, dated Aspy, midnight, states that the cable across the Gulf of St. Lawrence from Arpy to Port au Basque was under run by him to the depth of 75 fathoms. A portion of it lying in water 60 fathoms deep, was found imbedded in mud and was in a splendid state of preservation. It was found to have been broken in two places by the anchors of fishing vessels. It was spliced at a distance of 13 miles from the shore, but night coming on very hard with high gales accompanied by heavy rain they were obliged to cut the cable under Cape North where it was safely buried in 30 fathoms water. McKay states; "We shall wait for a fine day to lay the shore ends of the cable. It tests well and there is not the least defect in it. New York will soon be in satisfactory telegraphic communications with London."

THE PHILADELPHIA CONVENTION.

Philadelphia, Aug. 10.—Although the National Convention will assemble on Tuesday, it will probably adjourn over until the following day as the Wigwam will not be entirely completed until then. It will be the largest structure ever erected in the United States for Political purposes. Seats have been provided for 130 journalists in front of the Speaker's stand.

The National Union State Central Committee of this State, have agreed upon a full list of Delegates including Edgar Cowan, William F. Johnston, J. R. Flaigan and W. H. Tracy who are Delegates at large. At least 3,000 Delegates will be present from all sections of the country.

MEXICO—QUEEN EMMA.

Advices from the City of Mexico to the 20th of July say; No doubt Maximilian and his dependents will leave this Continent at an early day.

Washington, Aug. 12.—Queen Emma of the Sandwich Islands arrived here this evening.

FROM THE NORTH.

Victoria, Aug. 15.—Steamer Josie McNear arrived at Victoria yesterday at noon and will sail for Olympia at 4 this p. m.

The Fideliter sailed from Victoria for Portland yesterday at noon.

The steamer Active will sail from San Francisco for Victoria on Saturday, the 18th.

OUR SAN FRANCISCO DISPATCHES.

MEXICAN NEWS. San Francisco, Aug. 12.—Con-

and Godoy yesterday received a communication from President Juarez under date of July 7th, at Chihuahua, from which place the troops were leaving that day for El Parral. The last dates from the city of Durango indicate its probable immediate evacuation by the French. They were endeavoring to get up a Mexican force to garrison the place after their departure but it was generally thought that they would not be successful. It is not probable that either he or Senor Ortega will return to Mexico now, as their plans are rejected by a large majority of the people.

The Liberal Government will have nothing to do with Santa Anna, as its acceptance of his proffered services would injure the national cause in the opinion of its strongest supporters.

INDIAN DEPREDACTIONS.

The Chimahnevis Indians, the meanest tribe in the southern portion of our national domain, the Apaches excepted, are committing numerous murders in San Bernardino county and the parts of Arizona above William's Fork. They killed 3 soldiers at Camp Cady on the Mohave road a few days since and wounded others. Dr. Smith was shot in his bed in San Gorgoulo pass and badly hurt.

The California Consular Magazine subscription to assist in payment of the national debt of Italy amounts now to \$14,523. The money is to be converted into two bars and sent to Italy by the next steamer.

San Francisco, Aug. 13.—The steamer Orizaba which arrived on Friday afternoon, brought large orders of goods for Oregon, Idaho and Montana. To insure shipment of these goods, on the return of the steamer, some merchants last night loaded teams which took their places in line for admission to Broadway wharf at midnight. The excitement has been kept up during the day. At noon, a line of loaded trucks and drays extended from Broadway wharf through Davis, Pacific and Front streets to Washington street.

It is said that the Directors of the bank of California are considering the proposal to increase their capital stock to ten million dollars.

SHIPPING.

Sailed—British ship Marmion for Liverpool; ship Ivanhoe for Callao; on the 13th, barque Fremont for Puget Sound.

THE FAIRLIGHT SHIPWRECK.

San Francisco, Aug. 14.—A dispatch was published yesterday announcing the loss of the British ship Fairlight in the China Sea. The Fairlight cleared from this port for Hong Kong, Nov. 15th, '65, and was on her way back, having sailed from Shanghai May 29th. She had a cargo of 600 tons of Chinese merchandise, 227 Chinese and 4 Eu-

ropean passengers. She is supposed to have gone down with all her freight and passengers.

JAPAN—CHINA.

At Yeddo, June 27th, there was held a convention in which America, Japan, England, Holland, and France participated. A revised import and export tariff was adopted. The articles adopted by the convention are of great importance to the commercial community.

The conduct of the British authorities in connection with the recent expedition against the pirates of the north-west coast, is severely commented upon by the Hong Kong press.

A vessel with 436 Chinese emigrants recently sailed for Java. This is an important event as the Dutch Government has hitherto resisted the introduction of Chinese Coolies to the Island.

An accident involving great loss of life, occurred at Ming Po in connection with religious ceremonies. 63 fanatical Chinese miserably perished.

The Tatal of Shantung has been reduced to the 3d official rank on account of his failure to exterminate the rebels as rapidly as the emperor desired.

GOLD.

Telegrams from New York, today, quote an advance in gold.—Sales were made at 149½.

PACIFIC RAILROAD.—The Washington Correspondent of the Oregonian, speaking of the Pacific Railroad says: Congress has made up its mind to give every thing necessary to build a railway to the Pacific coast, and it grants nearly every favor asked by the line which has the best chance of success. The House spent Tuesday afternoon on the Senate bill to allow the California Central Railroad to come eastward as fast as they can build the road, and to allow the Kansas branch of the Union Pacific Railroad to keep on due west after they reach Fort Riley, which they expect to do within the next forty days. They go direct to Denver City, in Colorado, and thence to Salt Lake City, Utah. They also contemplate running a branch southward from a point east of Denver City toward Santa Fe, New Mexico. This company is in the hands of the Pennsylvania Central Railroad, and their western connections, and is now a continuous gauge from New York and Philadelphia to near Fort Riley, Kansas, with only one unbridged river intervening at St. Louis, which will soon be bridged, when there will eventually be one continuous rail from the Atlantic to the Pacific.

NEW RIFLE.—The Prussians have a new rifle which is in use in their armies. The explosive material which is used in the manufacture of cartridges for this new arm, is said to be a compound of ingredients known only to one man—the inventor; and so determined is the Government that the secret shall not escape, that that man is guarded night and day by a squad of twelve soldiers; every letter which he writes is inspected, and he is not allowed to communicate orally with persons except in the presence of his guard. Rather a severe penalty to pay for knowledge and greatness. —Oregonian

THE CONGRESSIONAL MILEAGE SYSTEM.

—The New York Tribune, a journal which is the enemy of public extravagance in every form, again calls attention to the Congressional mileage system and "hopes that we may sometime have a Congress honest enough to abolish it altogether." The Tribune is not alone in demanding this reform. Public attention at the East seems to have been largely drawn towards the matter of late, as very frequent mention is made of it by the press in the States. It is very clear that a principal incentive to many of the pigmy politicians of the far West to serve the people in Congress, is the very liberal pay, (mileage and salary) which the position affords. Reduce the perquisites and make the office but decently remunerative, and we should have vastly fewer candidates for Congressional honors. Fully \$100,000 mileage is paid every two years to the members from Oregon, California, Washington, and Idaho. To the members from Nevada, Arizona, New Mexico, Colorado, Montana and other States and Territories almost as remote from the Capital, immense sums are also paid, on pretense that it is required for traveling expenses. One tenth of the sum allowed would be ample for the purpose, especially as many of the members do not return home during the recess of Congress, but manage often to get several months of very pleasant travel elsewhere at the expense of the Government—drawing constructive mileage with excessive punctuality, and obtaining just as much for buzzing about Newport or Saratoga as they would for returning home and looking after the interests of their constituents, consulting about their wants and preparing to press them upon Congress.

Our taxes are heavy, the public debt is enormous, and the necessary expenses of the Government are large. The people, though discharging their obligations cheerfully, feel these burdens. Members of Congress should be willing to make sacrifices as well as other persons, and instead of voting themselves enormous sums of money, out of the public treasury, should consent to receive fair compensation for the services they render. —Oregonian.

R. F. Wade, it is said, will probably be Foster's successor as President of the Senate. —Oregonian

THE FRENCH IN MEXICO.—In the United States Senate lately, Senator Harris made the following important statement:

Mr. President, I have this morning been put in possession of some information in relation to the Mexican question, which, while I do not deem it very important in reference to the subject immediately pending before the Senate, it may be interesting to the Senate upon the general question of Mexican affairs. I have in my hand extracts from a letter coming from a source which, if I were at liberty to mention it, would be satisfactory to every Senator. It is a letter from Paris, just received, which states as follows:

It is the policy of the French Government to avoid any new negotiations with the Cabinet of Washington, but it is its clear determination to recall its troops, and even to anticipate the term of eighteen months already appointed as necessary for the French evacuation. This policy is so evident that, in looking at the facts you can rely upon a very early

evacuation. The orders are already given from the French War Department to recall in the next October the most important part of the total amount of French troops now in Mexico. When the number of their troops which are to be withdrawn within the next Fall shall be known in the United States, it will satisfy the most excited parties that the remainder of the French army will be recalled in the next spring."

THE PACIFIC RAILROAD has been completed, on the eastern end, to the distance of 145 miles.

HOMESTEADS.—Both Houses of Congress have passed the bill extending the benefits of the pre-emption and homestead laws to citizens of the United States residing in towns or villages, and who may be cultivating lands of the United States and are bona fide owners of the improvements thereon, even though they are not residing and have not resided on the lands.

CAPITAL AND LABOR.—The Boston Journal describes a new arrangement between labor and capital that has been tried in England, called the industrial partnership scheme. This new plan is intended to secure to the workmen in manufacturing establishments a bonus, besides the regular wages, of the profits accruing to the enterprise, over and above a certain per centage secured to the capital. Or in other words, a manufacturing company binds itself, after dividing a certain per centage upon their capital, to divide the surplus, whatever it may be, among the workmen. As far as this experiment has been tried, it has proved very successful. It benefits both the capitalist and laborer; the former by securing the watchfulness of the workman and inspiring him with an interest in his business; the latter, by securing to skillful industry larger rewards than the wages ordinarily received for daily labor. It awakens the industry and care of the workman and brings him a larger remuneration for his services. In some places in the United States the experiment has also been tried, and always, it is said, with good results.

COST OF TRAVELING ABROAD.—A correspondent who has just made the tour of Germany, Hungary, Italy, Switzerland, and France, states that his expenses have been an average of five dollars a day in gold. He says: "This includes everything, and pays also for several fair clothing purchases. My journey has lasted seven and a half months, and I am sure I could not have seen and learned in the United States, in that time, half as much as I did, for twice the money. I lived well everywhere with very few exceptions, and there were no place, that I now remember, where I did not get good bread, well cooked meats and healthy wine."

COLORED STARCH, says a London paper, is the latest and greatest novelty of the season. It is made in pink, buff, the new mauve, and a delicate green, and blue will soon be produced. Any article starched with the new preparation is completely colored; but as it washes out, the garment that was pink today may be green to-morrow, and buff afterwards. It is intended especially for those bright but treacherously-colored muslins that are costly, wash out and perplex their owners. If the pattern has been mauve, they only need the mauve starch; if green, the green starch; and they can be rendered one even, and pretty shade, thus becoming not only wearable again, but stylish. White antimacassars or lace curtains may also be colored in the same way, and infinite variety afforded.

KISSES.

Sitting to-night in my chamber,
A bachelor frigid and lonely,
I kiss the end of my pipe-stem,
That, and that only.

Reveries rise with the smoke wreaths,
Memories tender surround me;
Girls that are married—or buried,
Gather around me.

School-girls in pantalets romping;
Girls that have grown to be misses,
Girls that liked to be kissed, and
Liked to give kisses.

Kisses—well I remember them;
Those in the corner were fleetest;
Sweet were those "on the sly;"
Those in the dark were the sweetest.

Anna was tender and gentle;
To woo was almost to win her;
Her lips were as good as ripe peaches
And milk for dinner;
'Twas—catch me and kiss if you
can, sir;
Could I catch both—ah! wasn't I
A happy man, sir!

Anna has gone on a mission
Off to the South Sea sinners;
Nell is a widow, keeps boarders, and
Cooks her own dinners.

Charlotte, and Susan, and Hattie,
Mary Jane, Lucy, and Maggie;
Four are married and plump, two
Maiden and scraggy.

Carrie is dead; bloom sweetly,
Ye mignonettes, over her rest!
Her I loved dearly and truly,
Last and the best.

Thus I sit smoking and thinking,
A bachelor frigid and lonely,
I kiss the end of my pipe-stem,
That, and that only.

A PERFECT ANTIDOTE FOR POISONS.—A Farmer says: It is now over twenty years since I learned that sweet oil would cure the bite of a rattlesnake, not knowing it would cure any other kind of poison. Practice, observation and experience have taught me that it will cure poison of any kind, both on man and beast. I think no farmer should be without a bottle of it in his house. The patient must take a spoonful of it internally, and bathe the wound for a cure. To cure a horse it requires eight times as much as it does a man. Here let me say of one of the most extreme cases of snake-bite in this neighborhood: Even years ago this summer, where the case had been thirty days standing, and the patient had been given up by his physician, I heard of it, carried the oil, gave him one spoonful, which effected a cure. It is an antidote for arsenic and strychnine. It will cure bloating caused by eating too freely of fresh clover; it will cure sting of bees, spiders, or other insects; and will also cure persons who have been poisoned by a low running vine growing in the meadows, called ivy.

Student—You see this knife which I hold in my hand?

Professor—Certainly.

Student—If I should lose the blade and have a new one put in its place, would it be the same knife afterwards?

Professor—Most assuredly.

Student—Then, if I should subsequently lose the handle, and get it replaced, would it still be the same knife?

Professor—Certainly.

Student—Then if some one should find the original blade and handle and put them together, what knife would that be?

The answer of the Professor is not reported.

THE HONEYMOON.—Angelina (his affianced).—Dost thou love me, Charles?

Charles (deep in the last sentimental novel).—Love thee, darling! For thee I've left my home and my charming babes in distant lands!

LOCAL INTELLIGENCE.

Tax steamer Josie McNear, Capt. Crosby, arrived here last Thursday afternoon, on her regular trip from Victoria to Olympia.

IMPORTANT CO-PARTNERSHIP.—By reference to another column, it will be seen that our esteemed friend and fellow townsman, Mr. A. S. Pinkham, the courteous proprietor of the Niagara Variety Store, has entered into a life co-partnership. The cake, with which the printers were remembered, was consumed by them, and unanimously pronounced A. L. Upon filling out glasses with the "generous juice of the grape," which accompanied the cake, our Brown proposed the following sentiment, which was most heartily and unanimously indorsed and drank: "The proprietors of the Niagara Variety Store—May the co-partnership just entered into, prove (and I doubt not that it will) the very luckiest of lucky speculations, and be productive of years and years of unalloyed happiness, &c., &c."

Our sincerest expressions of gratitude are due to Mr. W. B. Barnard, of Port Angeles, for files of the Commercial Advertiser, published at Honolulu, S. I. A favor of this kind is so rare that it cannot fail to be duly appreciated by us.

THANKS.—Mr. Edwin Whitworth will please accept our thanks for late Victoria dailies.

[SPECIAL TO THE WEEKLY.]

THE PHILADELPHIA CONVENTION. Philadelphia, Aug. 16.—The Convention permanently organized pursuant to adjournment.—The proceedings opened with prayer. The President arose and said: "Before we proceed to business, the Chair begs leave to announce, as the first response to the call for the Convention, the result of the Colorado election." The following dispatch was then read:

DENVER, Aug. 16th.

Returns from all parts of the Territory, render certain the election of the Administration candidates to Congress.

The dispatch was greeted with

great applause. The Secretary read the declaration of principles. The clause, which indorses the President, was greeted with prolonged cheers. The declaration of principles commences as follows:

The National Union Convention, now assembled, composed of Delegates from every State and Territory, admonished by the solemn lesson of the last five years, which it has pleased the Supreme Ruler to give the American people, profoundly grateful for the return of peace and desirous, as are a large majority of their countrymen, in all sincerity, to forget and forgive the past, regarding the Union, in its restoration, more sacred than ever, looking, with deep anxiety, into the future, hereby proclaim the following declaration of principles, &c., &c.

Cowan of Pennsylvania, reported resolutions and Raymond an address. Both were adopted, with enthusiastic unanimity, amid rounds of applause. A National Executive Committee at Washington, and a committee to wait upon the President with an official report of the proceedings, were then announced, and at half past 2 o'clock, the Convention adjourned sine die with 9 cheers for the Constitution and Andy Johnson.

The platform or declaration of principles, adopted by the Convention, thanks God for the return of peace; the war maintained; the authority of the Constitution preserved and the equilibrium of the States; and that the right of representation in Congress and the Electoral College, cannot be denied by Congress nor any Department of the General Government; and called upon the people to elect Congressmen who admit these principles. It declares that certain powers are reserved to the States, and among them, is that of prescribing the qualifications for the elective franchise. It declares that no State can secede from the Union nor can any be excluded; that States have an equal voice in ratifying Constitutional amendments; that slavery is abolished and that the enfranchised slaves should receive protection in person and property. It repudiates the rebel war debt and says that it is the duty of the National Government to meet the just claims of soldiers and sailors, and to provide for their surviving widows and orphans. It recognizes in Andrew Johnson, a Chief, worthy of the Nation and renders him cordial and sincere support. The resolutions were adopted unanimously.

FOREIGN NEWS.

Halifax, Aug. 14.—The steamship Cuba brings advices to the 5th.

The steamer Cyclone of Glasgow, was detained in Great Farmonth yards on suspicion of violating the neutrality proclamation in respect to Spain and Chili. She was ostensibly from Hamburg to Rio Janeiro and was supplied for 10 months. She was detained at the request of the Spanish Government.

Much better feeling prevails at Frankfort, the soldiers, billeted upon the inhabitants, having been returned to the barracks.

A Royal decree has been published, ordering the circulation of national currency in the Venetian Provinces occupied by the military.

A correspondent of the Times gives New York advices to Aug. 1st, which, received by cable, appear in the English papers of the 4th.

The day the Cuba sailed from Liverpool, the London Daily News' city article says:

The process of equalization of prices as between England and America through the medium of the cable, continues to prejudice the price of American securities. Barring Bros. report a large business in 5-20's.

New York, Aug. 15.—The morning papers have the following dispatches via cable:

London, Aug. 13.—The cholera is decreasing in the city.

The Times gives an account of the retreat of Marshall Benedek's army. He describes the demoralization of his troops and says that every messenger from Vienna was ordered to say on his return: "Make peace or the army will be annihilated."

It is stated that the U. S. Government has preferred charges against certain persons in France who have disposed of public property belonging to the Southern Confederacy.

The Paris correspondent of the London Times asserts that the result of the war has occasioned a deep feeling of discontent in France. The Emperor, himself, was confident that Austria would prove victorious and hardly concealed the hope that he should obtain the Rhine Provinces without the loss of a single man.

London, Aug. 15.—It is announced to-day, that plans for the confederation of the British Provinces of North America, have been definitely arranged by the Government. The statement is also made that the terms for a loan from the Government for the building of an international railroad from Halifax to a point of connection with the Canadian Grand Trunk railroad, have been settled.

FROM PORTLAND.

Portland, Aug. 16.—The Fideliter arrived this morning.

OURSAN FRANCISCO DISPATCHES.

San Francisco, Aug. 15.—The steamship Sacramento arrived at 3 p. m., having in tow the disabled steamship Golden Age, which broke her shaft on her last downward trip.

The French population turned out to-day in force to do honor to the anniversary of the birth of the great Napoleon I. The services at Notre Dame and Des Victories were exceedingly impressive and were witnessed by a large concourse of people.

The Moses Taylor sailed this morning for San Juan Del Sur

As she left the wharf, she appeared more than usually crowded with passengers in every part of the ship. In consequence of the America's having to undergo some repairs, there will be no further opportunity of going by the Nicaragua route until the Moses Taylor returns, which will be in about six weeks.

The Sacramento brings Central American dates to July 30th. The press of Bogota is opposed to the course of President Mosquera, especially to the proclamation he issued relative to the studied opposition shown by the minority of Congress.

The State of Magdalena is reported as being tranquil. The commercial condition of that part of the country is daily becoming worse. As only by the port of Santa Martha are any importations of note or value made and as most of these are destined for the interior of the Republic, there is but little left for the local trade. The Engineer-in-Chief of the Republic has reported to the Government the existence of rich and extensive bituminous coal mines near Rio Halba.

GOLD.

Gold—150; sterling exchange 107 1/2 @ 107 3/4.

SHIPPING.

Sailed—ship Cowper for Queenstown; barque Glimpse for Puget Sound.

San Francisco, Aug. 17—10 a. m.—About half past two, this morning, the Summer Street House, on Summer street above Montgomery, fell with a terrible crash. The house was a 3 story brick, occupied by J. Brewster, Jr., as a boarding house. There were 30 or 40 occupants. Six persons were killed and 15 injured, some of them fatally. The cause of this horrible catastrophe was the undermining of the wall, in excavating for the foundation of the new addition to the Odd Fellows' Hall. The building is a complete wreck, nothing but a portion of the front wall being left standing.

GOLD.

San Francisco, Aug. 17.—In New York, Gold is steadily advancing. It is 152. Sterling exchange is 107 1/2.

SHIPPING.

Arrived—Ship Fleetwood, 163 days from New York; ship Vitula, 160 days from New York; ship Nicholas Biddle, 12 days from Port Discovery; British ship Cape Clear, 139 days from Liverpool; British ship Empress of India, 50 days from Manilla; British barque Canlon, 60 days from Manilla with sugar; barque Bernice, 23 days from Honolulu.

A FAMILY GATHERING.—A family named Kumler had a meeting on the fair grounds in Hamilton, Ohio, on the 31st ult., no less than two hundred and four persons, descendants of the family, being present. Mrs. Susan Kumler, eighty-seven years old, was present. She has now living two hundred and thirty descendants of blood, as follows: eleven children, eighty-four grandchildren,

one hundred and eighty-two great-grandchildren, and three great-great-grandchildren, with fifty-two by marriage, making a total of two hundred and eighty-two. Of this number two hundred and four were present. Grandmother sat at the head of the table, and immediately on her right and left were seated her eleven children. This was the first time the children had dined together for forty years.

THE OREGON MINT.—From the recent action of Congress, it would seem to be finally decided that Oregon is not to have the Branch Mint that has been asked for. It would also appear to be settled that no more Branch Mints are for the present to be established, and therefore, that Idaho and Montana will fare no better in this regard than Oregon has done.

COMPOSITION OF THE CABLE.

The core of the Atlantic cable consists of seven copper wires (six laid around one), weighing 300 pounds per nautical mile, with an insulation of four layers of gutta percha. Around this core are laid ten solid wires, No. 13 gauge, drawn from the best iron and galvanized. Each of these ten wires is surrounded by five strands of white Manila yarn. The weight of the cable complete is 3,100 pounds per mile.

THE LAST WORDS OF GEN. SCOTT.

About twenty-five minutes before his death, he addressed his hostler, Allen, saying: "James, how is the horse?" "He is well, General." "Take care of him, James," said the dying hero, and these were the last intelligible words he uttered.

A Spanish gentleman, studying English, being at a tea party, and desiring to be helped to some sliced tongue, in doubt as to the term, hesitated a moment, and then said: "I will thank you, miss, to pass me that language."

GIANTS.—In the time of Augustus Caesar, there were two persons living in Rome called Iudius and Secundilla, each of whom exceeded ten feet in height. Their bodies after death were kept and preserved as miracles of curiosity, in a sepulchre within the Sallustian gardens. Pliny names a certain Gabare, who in the days of Claudius, was brought out of Arabia; and he says he was about nine feet nine inches high. The Emperor Maximian, originally a Thracian peasant, measured eight feet and a half. His wife's bracelets served him as rings. His voracity was such that he consumed daily forty pounds of flesh and drank eighteen bottles of wine. His strength was proportionate to his gigantic shape. He could draw a loaded wagon without help, and with a blow of his fist often broke the teeth in a horse's mouth. He also crushed the hardest stones between his fingers, and cleft trees with his hands. Pliny and Valerius Maximus speak of Polydamus, a celebrated athletic son of Nicias, exceeding all men of his day in stature and strength; he aped Hercules—not without pretension. In Mount Olympus he killed a lion with a blow of his fist, being unprovided with other arms. He could stop a chariot with his hand in its most rapid course. Once he singled the fiercest bull from a whole herd, took hold of him by the hinder feet, and notwithstanding his struggles to escape, grasped him with such strength that the hoof remained in his hand.
