A FORTUNATE KISS.

The following pretty little story is narrated by Frederika Bremer, who vouches for its truthfulness: In the University of Upsala, in Sweden, lived a young student, a noble youth, with great love of study, but without the means of pursuing them. He was poor, without connections; still he studied, lived in great poverty, but keeping a cheerful heart, and trying to look at the future which looked so grim to him. His good humor and excellent qualities made him beloved by his comrades. One day he was standing on the square with some of them, prattling away an hour of leisure, when the attention of the young men became arrested by a young and excellent lady who, by the side of an older one, was slowly walking over the place. It was the daughter of the Governor of Upsala, living in the city, and the lady was her governess. She was generally known for her goodness and gentleness of character, and was looked at with admiration by the students. As the young men stood gazing at her as she passed like a graceful vision, one of them suddenly exclaimed: "Well it would be worth something to have a kiss from such a mouth!" The poor student, the hero of our story, who looked on that pure, angelic face, exclaimed, as if by inspiration: "Well, I think I could have it." "Well, cried his friends in chorus, "are you crazy? Do you know her?" "Not at all," he answered, "but I think she would kiss me if I asked her." "What! in this place—and before our eyes?" "Yes." "Freely?" "Yes freely." "Well, if she will give you a kiss in that manner, I will give you a thousand dollars!" "And I!" and I!" exclaimed three or four others, for it happened that several rich men were in the group, and the bets ran high on so improbable an event. The challenge was made and received in less time than we take to tell it. Our hero (my authority tells not whether he was plain or

handsome; I have my peculiar reason for believing he was rather plain, but singularly good looking at the same time,) immediately walked up to the lady and said: "Mine franchise, my fortune is now in your hands."

She looked at him with astonishment, but arrested her steps. He proceeded to state his name and condition, his aspirations, and related simply what had just now passed between him and his comrades.

The young lady listened attentively, and at his ceasing to speak she said, blushing, but with great sweetness:

"If by so little a thing, so much good can be effected, it would be foolish for me to refuse your request," and publicly in the open square she kissed him.

The next day the student was sent for by the Governor. He wanted to see the man who dared to seek a kiss from his daughter in that way, and whom she consented to kiss.

He received him with a scrutinizing bow, but after an hour's conversation was so pleased with him that he ordered him to dine at his table during his studies at Upsala.

Our young friend pursued his studies in such a manner that it soon made him regarded as the most promising student in the University.

Three years were now passed since the first kiss, when the young man was allowed to give the second kiss to the Governor's daughter as his wife.

He became later one of the most noted scholars in Sweden, and was much respected for his character. His works will endure while time lasts among the works of science; and from this happy union sprang a family well known in Sweden at the present time, whose wealth and high position in society are regarded as trifles in comparison with its goodness and love.

Miss Lee, from New York, who has for some years past lived with her sister, the wife of Baron Wachter, the Wurtemberg, Minister to Paris, is about to marry the Duke of Glucksberg, one of the Holstein princes, who magnanimously forgoes his rights as sovereign prince in order to become the husband of a sovereign American lady.

A beautiful thought is suggested in the Koran: "Angels in the grave will not question thee as to the amount of wealth thou hast left behind thee, but what deeds thou hast done in the world to entitle thee to a seat among the blest."

A phrenologist has been examining Queen Victoria's head. He found the bump of adhesiveness sadly deficient, if it existed at all. In justice, however, to this gentleman, we will state that the Queen's head under examination was on a postage stamp.

Gen. Sherman was at Denver, Colorado, on the 12th of September. Sherman is the most industrious traveler in the world. In peace or war, he is the same energetic, tireless man.

ACCIDENTAL INSURANCE.

Between Kenosha and Milwaukee an agent of the Travelers' Insurance Company, of Hartford, entered the cars, and having issued tickets to several passengers, approached an elderly lady who, it afterward appeared, was deaf.

"Madam, would you like to insure against accidents?" inquired the agent, at the same time exhibiting his tickets.

"I got my ticket down to Kenosha."

"Not a railroad ticket, madam; I want to know if you would like to insure your life against accidents?"

"I'm going to Oshkosh to visit my darter, who's married up there and has just got a baby."

The agent raised his voice a little: "Would you like to insure your life against accidents?"

"She's been married two years and a half, and that's the first child. It's a gal."

Agent, still louder—"I am an insurance agent, madam; don't you want to insure your life against accident?"

"She got along first rate and is doing as well as could be expected."

Agent at the top of his voice—"I am an insurance agent, madam; can't I insure your life against accident?"

"Oh, I didn't understand you, said the old lady. No, her name is Johnson; my name is Evans, and I live five miles from Kenosha."

RATTLESNAKE CHARMING TURKIES.—A very strange and novel occurrence took place on the Sinnemahoning, near Wistar, Penn., a short time since, and its truthfulness can be vouched for by Mr. R. W. McClelland and others in that vicinity, who were eye-witnesses.

The attention of a resident of that place (Mr. McClelland) was attracted to a yard in the rear of his house, where a large flock of turkeys were congregating, uttering wild and discordant cries, and flapping in the greatest consternation. On approaching he observed a huge rattlesnake coiled up, in the act of charming a lordly gobbler of the flock, who was gliding swiftly in a circle with his eyes riveted on the glassy orbits of his captor, and gradually approaching its venomous jaws. Mr. McClelland quickly dispatched the bold intruder, and the turkey was set at liberty; but strange to record, with its eyes so singularly transfixed that it was unable to move ahead in a direct line, and as it retired from its vanquished foe moved obliquely with a shambling gait. At dusk on the same day one equally as large as the one destroyed, came into the same man's dooryard, and began calling for its absent mate, rattling loudly. It was summarily disposed of, and when measured was ascertained to be four feet in length, with a tail studded with sixteen rattles.—Bradford, Pa., Reporter.

Josh Billings says that a good way for a man to train up a child in the way it should go, is to travel that way himself occasionally.

DOWNED.—D. J. McKay, who was working at Castillo's logging camp, on Banbridge Island, some four miles from Port Orchard mill, went down to a camp two miles below, about 11 o'clock on Sunday, Oct. 14th, taking with him some liquor, and remained there until evening, when he started on his return. About 9 or 10 o'clock in the evening a hallooing was heard at Castillo's from some one out on the bay, and Castillo took a boat and crossed some two miles and back, calling frequently, but receiving no answer, nor could he see anything of the boat. He then returned to camp, when the call was again heard, but it quickly ceased. On Monday morning following, the boat was found filled with water, and McKay was missing. It is supposed that he was asleep in the boat—which was a small one, scarce large enough for two persons—as he was intoxicated—when the search was made for him, and that when the last call was heard, a wave had filled it, waking him up, when he fell overboard, and called out as he was sinking.

THE FAIR.—There was rather a meagre attendance at the Fair held at this place last week, and very little interest was taken in it by the community generally, few persons having brought anything for exhibition. Among the articles displayed, however, were some varieties of excellent fruit and vegetables, quite as large and fine as any section of the country can boast of producing. The causes operating adversely to the success of the Fair this season, were the unusually dry summer—in consequence of which the summer crops were inferior—and the depression in business which is felt so severely at present.

The fire in the mines at Sehome which was reported to have been extinguished during the fore part of last week, is again burning, the closing up of the chambers where the fire was, only having smothered it for a short time.

An Agricultural Fair was held in Whatcom on the 13th inst., the first one ever held in that county. After the Fair a society was formed called the Whatcom Agricultural Society.

INDIAN WAR AT KOOTENAY.

The *Colonist* says, the Kootenays, Pen d'Oreilles, and several other tribes living on the other side of the Rocky Mountains, British Columbia, are in open war against the Blackfeet Indians, who in habit (or infest) Montana Territory, and who have come through the Kootenay Pass for the purpose of raiding on their red brethren on this side of the line. The Blackfeet have approached within a few miles of the town of Fisherville, on Wild Horse Creek, and, about three weeks ago, their signal fires were discovered on the summit of a very high mountain overlooking the town. All the Kootenay-Indians in the employ of Mr. Linklighter, of the Hudson Bay Company, have gone out to meet the invaders, and, if possible to drive them back. The recent outrages on parties bound for Saskatchewan were perpetrated by Blackfeet Indians on Tobacco Plains.

REMOVED.—Mr. Pinkham has removed his store from Mill street to the building on Commercial street, formerly occupied by Mr. Sires as a hotel. Mr. P. has fitted up the new establishment neatly, and has filled it with a fine stock of new goods.

It is stated that 7,000 European Mormons have passed up the Missouri river this season, bound for Salt Lake City. They are of the lowest and most ignorant class of foreign emigrants who have been collected by the missionary emissaries of Brigham Young.

On the 4th instant, the Union Convention of the State of Nevada nominated H. G. Bladell for Governor, J. Slingerland for Lt. Governor, and D. R. Ashley for Congress.

The Democratic State Convention nominated John D. Winters for Governor and H. K. Mitchell for Congress.

The company of soldiers which were stationed at Fort Steilacoom left on Monday last for Camp Watson, they will take part in the campaign against the Indians of Eastern Oregon. Fort Steilacoom is to be garrisoned by an artillery company.

New Goods.—Mr. Dexter Horton has just received and opened at his store one of the largest and best assortments of goods ever brought to this place; consisting of dry-goods, ready-made clothing, groceries, provisions and hardware. Call and examine his stock of goods, and you will be satisfied they can't be excelled.

The black sand, similar to that found so commonly in British Columbia, is now used in England in the manufacture of the best qualities of iron and steel. It is there called Titaniferous Iron Sand, and is obtained from New Zealand. A joint stock company for working the material has been formed with the title of the New Zealand Iron and Steel Company, Limited.

WALLA WALLA ITEMS.

From the Walla Walla Statesman of the 5th instant, we extract the following items of news:

A man named John D Crawford is charged by some packers with aiding the Indians in some of their horse-stealing expeditions. He lives near the foot of the Blue Mountains, on the Indian Reservation.

The agricultural fair was in session at Walla Walla on the 5th instant. The display of stock will compare with those of any State.

On Tuesday last Messrs. Brown Bros. & Co. discovered that their porter, Charles Hamburg, had been perpetrating a series of robberies which had extended over several months. It seems that the porter had made the acquaintance of a family named Shattuck, and conceiving an affection for one of the girls of the family, a grass widow, sought to propitiate his suit by making her all manner of presents. The other members of the family also came in for their share of his good offices, and on all of them he lavished presents in the utmost profusion.

Kinney, who killed Ryan, was discharged from arrest, it having been proved to the satisfaction of the court that the killing was done in self-defence.

A feat of almost unrivaled traveling was recently accomplished on the Great Northern Railway. On the occasion of the late fire at Newcastle, when the safety of the high-level bridge was endangered, a telegram was sent to London requiring the attendance of Mr. Harrison, the engineer of the Northwestern Railway Company, and that gentleman was conveyed by an engine belonging to the Great Northern Company from King's Cross to York, a distance of 191 miles, in three hours and forty-three minutes, including a stoppage of eight minutes at Newark, for water and lubricating the engine. —*Mechanics' Magazine.*

LONGEVITY.—Barnard Eisenhuth died on the 23d ult., at Newcastle, Schuylkill county, Pennsylvania, aged over one hundred and eleven years. The day of his birth is not known, but he was baptized while an infant on the 10th of May, 1755. His wife died in 1848, at the age of 95 years. Until the age of one hundred and five, he worked regularly in the field. A fall at that time lamed him, and considerably impeded his labor out of doors, though his health continued good until near the period of his death.

With regard to the successful working of the Atlantic cable, it is stated by the company that for one message alone over \$800 was paid. It may seem scarcely credible, but it is actually a calculated fact, that according to the present rate of the cable's working, if kept fully occupied, it can earn upwards of £1,500,000 per year, and this estimate is based only upon its being able to send three words a minute.

At a spiritual circle, a vinegary lady asked if the spirit of her husband was present, and upon receiving a reply in the affirmative, she asked: "John, are you happy without me?" "Very happy!" "Where are you?" "In hell!" It is further reported that vinegary lady threw a lamp at the medium's head, and that the spirit of the husband chuckled audibly.

EXTENSION OF THE TRACK.—The work of extending the track of the Pacific R. road beyond Alta was commenced several days ago, and about four miles have been laid beyond that point. The road bed is completed, or nearly so, to Cisco, and there will be no interruption in laying the iron until that point is reached. Cisco is located about twenty-two miles beyond Alta and fifteen miles this side of the summit. As at least a half-mile per day is laid, Cisco will be reached before the 1st day of November. The entire force of workmen on the road will, when the winter's snow renders it necessary, be transferred to the eastern slope. On the return of spring, grading across the snow-belt of the summit will be resumed. Cisco will, therefore, probably remain the terminus of the road until June or July next, at which time a long stride will be taken to some point on the eastern slope. If the main tunnel is not completed at that time, a temporary track will be laid across the summit. Tunnel No. 2, at Emigrant Gap, a short distance beyond Cisco, was completed on Wednesday. This tunnel is three hundred and fifty feet long and is five thousand feet above the level of the sea. There are two other tunnels on the line, which are being worked as rapidly as possible. One will be two hundred feet and the other four hundred feet long. The main tunnel at the summit will be about one thousand six hundred feet long. All the tunnels are made wide enough for a double track. Cisco is located about ninety-two miles from Sacramento. —*Sac. Union.*

THE ATLANTIC CABLE.—At a recent meeting of the French Academy of Sciences, M. Babinet suggested that it would be well to take advantage of the Atlantic telegraph to determine with precision the longitude of the American terminus. There was reason to make haste, he said, because there were very few chances of the transmission lasting long. As a reason for his opinion, M. Babinet produced a piece of heavy telegraph cable which had been five years in the bottom of the English channel. The exterior metallic covering was completely eaten off by the salt water, which had also commenced to affect the central twist. After stating the difference in the sizes of the cable exhibited and the Atlantic Cable, which is smaller, and averring that the seawater destroys fully a millimetre (about 1-25th part of an inch) of the metallic covering every year, M. Babinet reiterated his belief that the success of this cable would be of only ephemeral duration.

IRON SPECIMENS.—W. S. Ladd, Esq., received three specimens of iron from Oswego yesterday, which, to the eye of an amateur in such matters, promises to be of fine quality. A portion of one specimen was beaten out into a flat bar, which on close examination appeared to be of very fine grain, and very malleable. The other two specimens appeared to be natural ore, and attracted considerable attention. —*Oregon Herald.*

The grading of the Central Pacific Railroad, when it reached the summit of the Sierras in California, will be 7,042 feet above the level of the ocean. This is 815 feet higher than the summit of Mount Washington, the highest land in New England.

LINE DOWN—The overland line being down beyond Fort Laramie, we have received no Eastern news since Monday last.

CHECKMATE HIM—The Liverpool correspondent of the Mobile Advertiser tells the following good 'un. While recounting incidents of 'the war,' I may as well tell you how M. Charles de Rothschild checkedmate the Prussian General Manteuffel, when the Prussian army occupied Frankfurt, and the bankers of that city were ordered to raise an immense sum for the use of the invading army. The celebrated capitalist waited on General de Manteuffel and said, "We shall not pay. Pillage our cellars if you like, but you will not find there your twenty-five millions of florins. And if you do so, I give you my word that I will cause all the signatures that I hold of the Prussian bankers to be protested, so that all your banks shall fail." The General had some idea of having M. de Rothschild arrested, but did not carry out that noble design.

WHERE COULD HE HAVE PUT IT The Mobile times records a "suicide" as follows: The headless body of a man was found lying in state on his own bed. A letter was found in the hands of the victim which ran thus: "I have put an end to my own life—I was tired of existence in this hateful land—and I left it to my own free will. There is money in my drawer to pay my funeral expenses. As to my name, try not to discover it. To prevent identification, I have hidden my own head where you will never find it."

INSANE GIRL—Clara A. Brooks, a young lady of nineteen, escaped from the Hartford Insane Asylum lately. While her friends were carrying her back to Hartford she made her escape from the carriage, while on Hockanum bridge, and ran into the Connecticut river, and, as it was dark at the time, could not be found, and was supposed to have been drowned. The people of that vicinity searched for her several days without success, until she went to a house at Glastonbury, hungry and weary, but perfectly rational, and asked for some money. She had wandered about in the fields and woods for six days and nights, and had lived wholly on apples and berries which she gathered.

SINGULAR CUSTOMS IN NEW CALIFORNIA.

—The first lessons taught a child is to fight with its companions. Keenness of sight and quickness of hearing, being qualities of the utmost importance, are sought to be increased by practice from earliest youth. Like the aborigines of Australia, they lay themselves down on the ground and listen for the steps of the approaching foe, which they can distinguish at a great distance. Women accompany their husbands and brothers to battle, not to assist them in the fight, but to drag away the fallen adversaries, and prepare their bodies for the banquet, serving them up often entire, cooked in a sitting posture, painted and arrayed in war-cos-tume. Imagination revolts from such scenes, when still take place in undiminished atrocity in some parts of the island. Their priests encouraged fighting as much as lay in their power; and the hands of the enemy were their portion; and if the number to which they considered themselves entitled at certain intervals was not forthcoming, threats of disease quickly aroused the superstitious people to renew the attacks upon their neighbors. Those that fall of the victorious party are brought home with loud lamentations, and buried with great wailing and shrieking from the appointed mourners, who remain unclean often for several years after burying a great chief, and are subject to many strict observances. For weeks they continue nightly to waken the forest-echoes with their cries. After ten days have elapsed, the grave is opened and the head twisted off; and again, in this custom resembling the Andaman Islanders, the teeth are distributed as relics among the relatives, and the skull preserved as a memento by the nearest of kin, who daily goes through the form of offering it food. The only exceptions are in the case of the remains of old women, whose teeth are sown in the yam patches as a charm to produce good crops; their skulls, set upon poles, being deemed equally potent in this respect.

The object which Victor Hugo proposes to himself in writing the Toilers of the Sea is thus explained by him in a recent letter to a friend: "I sought to glorify labor, will, devotion—every thing which makes man great. I wished to demonstrate the most implicable of abysses in the heart, and that what escapes the sea does not escape woman. I wished to demonstrate that in questions of Love Do Everything is vanquished by Do Nothing—Gill-hat by Ebenezer. I sought to demonstrate that to will and to comprehend suffice even to the atom to triumph over the most formidable of deposits, the infinite.

Point Lookout, situated at the mouth of the Potomac river, much resorted to previous to the war as a summer resort, but which for some time previous to the close of the conflict was used as a prison for rebel prisoners, has recently been purchased by a company of New York capitalists, who design putting every thing in first rate repair by next season, with a view of using it as a watering place.

A BIG RACE—It is stated in racing circles in San Francisco that a trotting match three miles and repeat, has been made up between Lowery Mathews and Filmore for \$20,000, to be trotted within twenty days from October 9th.

CALIFORNIA.

San Francisco, October 20.—The Eastern line is still down. The following dispatch was received from Salt Lake, October 19th; "Heavy storms lately have prostrated the lines badly. At the break east of Fort Mitchell, the Indians have destroyed the line for two miles. Men are on the way and wire, poles, &c., will go down in the morning to the break. Hope to get it up by to-morrow evening."

By the arrival of the Hidalgo from the north, we have a report of the total loss of the fine lumber brig Perpetua, which went ashore on a sand beach at the entrance of Coose bay during a gale and became a complete wreck. The Perpetua was owned by A. M. Simpson of this city. She was built in Washington Territory about a year ago. All hands were saved.

Not-Resident Notice, Gustar Sutor & Emil Sator, co-partners doing business under the name of G. Sutor & Co., plaintiffs, vs. Thomas W. Davidson, defendant.

In the District court of the U. S. 3d Judicial District, W. T., holding terms at Port Townsend in the county of Jefferson.

To Thomas W. Davidson: You are hereby notified that the above named plaintiffs have filed a complaint against you in the above-named court, which will come on to be heard at the first term of the court which shall commence more than two months after the 9th day of October, A. D. 1866, and unless you appear at said term and answer, the same will be taken as confessed, and the prayer thereof granted.

The object and prayer of said complaint is to recover judgments against you on four promissory notes now held by them, and executed by you, of the following description, to-wit:

One given by you July 23d, 1862, payable ninety days after date to the order of G. Sutor & Co., for \$1,253 43-100 and interest at 2 1/2 per cent. per month.

One given Sept 10th, 1863, payable to Prager & Davis or order for \$700.

One given Oct. 28th, 1863, payable to the order of Goldstone & Bro., for \$1,733-89-100 and interest at 2 1/2 per cent. per month.

One given July 24th, 1863, payable to the order of Myer & Treist, for \$144 75-100, all of said notes being now held by the plaintiffs, and amounting in the aggregate to \$3,682 67 and interest according to their tenor.

H. F. DENNISON, Att'y for plaintiffs. Complaint filed Oct. 1, 1866. Date of first publication, Oct. 22, 1866.

Tax Notice.

NOTICE is hereby given that the County Tax List for the year 1866 has been placed in my hands for collection. All taxes not paid before the first day of November, 1866, will be returned as delinquent, and ten per cent. added, and placed in the hands of the sheriff for collection. O. C. REDINGTON & CO'S Essence of Jamaica Ginger. This valuable preparation containing in a highly concentrated form all the properties of the Jamaica Ginger has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind. It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period. It gives immediate relief to nausea, caused by riding in a railroad-car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc. REDINGTON & CO, SOLE AGENTS FOR THE PACIFIC COAST, no22-6mo

GRAEFENBERG
UTERINE CATHOLICON
If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects caused by a relaxation of the outlet of the bladder. It is a most successful remedy for gravel and other diseases of the Kidneys and Bladder, and for Female Diseases is unequalled. The CATHOLICON uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppression, Incontinence of the Uterine, Bloating and Dropsical Swellings, and all Diseases of Pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the **GRAEFENBERG COMPANY'S UTERINE CATHOLICON** cannot sufficiently express their gratitude for the relief afforded.

PUGET SOUND WEEKLY.

MONDAY, October 23, 1865.

COURT.—Powell, who murdered his wife on the 4th of July last at Alki Point, was tried in the District Court, in this place on the 17th and 18th instant, and found guilty of murder in the first degree. He was sentenced to be hanged on the twenty-first day of December next. His counsel labored hard to clear him, and will take the case up to the Supreme Court on a writ of error, but there is little room to hope that it will result in benefit to the prisoner.

James McKay was sentenced to fifteen years' confinement at hard labor in the penitentiary, for the murder of Godo, and Bridge one year for receiving stolen goods.

A compromise was effected in the case of Jordan, guardian for Greenfield, vs. Williamson, and the case was dismissed.

PASSENGERS BY THE McNEAR.—The following passengers arrived by the Josie McNear on the 18th inst., from Victoria and down the Sound: E. J. Emerson, J. Hulse, I. Harris, T. Allen, J. Butler, Trullis, Williams, Gordon, Stephens, A. Wilkes, T. J. Griffith, P. A. Norman, W. S. Goofe, A. J. Price, and 3 koochmen.

The steamer Active was entering the Straits of Fuca as the Josie passed Dungeness Spit. Saw several vessels, bound outward, in the Straits. Had 20 tons of freight to take on at Port Madison for Steilacoom and Olympia.

We learn from Mr. Wm. Perkins, who came in from the Snoqualmie road party on Saturday last, that the work is being pushed on, though they are now at work on a portion of the road that is hard to open.

We understand that the road to the coal mines will be completed in about two weeks, when we may expect to see coal brought into market from the Lake Washington District. The opening of these coal mines is of great importance to the prosperity of Seattle.

A CHINAMAN was murdered on the 15th inst., at Sehome, Whatcom county. The crime was committed by Samish Indians, two of whom were arrested, one, however, succeeded in making his escape from custody.

Stratman & Co., dealers in stationery, news, etc., have again laid us under obligations for files of Atlantic periodicals.

Hon. A. A. Denny, left for Washington City last week. Mr. Denny went by the overland route to San Francisco.

THANKS.—Our thanks are due to the officers of the steamer Josie McNear for favors.

EASTERN NEWS.

New York, Oct. 15.—Great excitement was caused at Fort Erie on Monday, by the circulation of a report that an organized party of roughs contemplated a raid on Fort Erie. A guard of police was immediately detailed to patrol between Buffalo and Niagara Falls. A company of volunteers patrolled the river in the vicinity of Fort Erie, and other precautions were taken; but the raiders failed to appear.

On the same day the Fenjans had a regular excursion down the river, and when passing Fort Erie, and the Canadian gunboat Resene, the band played "wearing of the green" and other popular Irish airs, which so exasperated the Captain of the gunboat that he ordered the excursion boat away, and threatened to fire into the party.

FOREIGN NEWS.

New York, Oct. 14.—Foreign files contain the following: At the banquet in honor of the cable layers, a message was received from the Queen, conferring the honor of Knighthood on Capt. Anderson, and Professor Thompson Glass, and conferring Baronetcy on Messrs Sampson & Leach. The Queen says her reason for not conferring distinguished marks of favor upon Cyrus W. Field, was an apprehension that it might encroach upon the province of his own government.

CALIFORNIA.

San Francisco, Oct. 15.—The trial of Charles Duane is going on in the 12th District Court to-day.

SHIPPING.

San Francisco, October 16.—No gold quotations. Legal tenders are same as yesterday.

Arrived, October 15th.—steamer Pacific, 53 hours from the Columbia river; Ship Nicholas Biddle, 9 days from Port Discovery; bark Gold Hunter, 10 days from Port Madison. 16th.—H. M. Scout, 4 1/2 days from Victoria; bark Pauline, 43 days from Shanghai.

Sailed, October 16th.—Bark Gold Hill, for Puget Sound.

San Francisco, 17.—Western Union Telegraph Company's bark Clara Bell, from Ochotsk Sea, arrived last night. Col. Bulky and company were at Peterpaulosky about the end of July—all

well. The Prussian party of exploration had explored the route and determined the position of the line, between Chickiza and Ochotsk. The various explorations had decided on the route between Bhering's Sea and the terminus of the line at the mouth of the Amoor. Timber is plenty and four thousand miles of poles were expected to be ready before the close of the present season. The natives are very friendly and dog trains to assist in transporting materials were offered, and any amount of Reindeer meat. The Gov. officials rendered every facility without awaiting instructions from St. Petersburg, and Count Anosoff issued orders to all officials to render any service for the completion of the line. When the necessary material is received, the work will be pushed forward with great rapidity.

San Francisco, 18.—The Eastern line still continues down.

Sailed, 17.—French ship Union for Port Angeles; bark Mary for Bellingham Bay. 18th.—bark Delaware for Nainimo; brig W. D. Rice for Victoria.

San Francisco, 19.—The Eastern line still down beyond Fort Laramie. The telegraph agent at Salt Lake, under date of Oct. 18th says: There has been a very heavy storm from here down the Platte, and the line is badly broken—snow is visible in all directions.

The Pacific Mail steamer Golden City sailed for Panama to-day with 479 passengers, and \$666,755 in specie. Among the passengers who left for the East was Edwin Forrest.

The following attachment suits have been commenced against Meigs & Gawlay, lumber merchants, who failed a few days since: W. B. Bour, for \$33,732.67; John Sims & Co., \$7,633.57, and P. H. German for \$400.

The market for flour continues firm, with an advance of twenty-five cents on all grades.

SOME FARM.—One of the monster farms of modern times is that of General Urquiza, of Buenos Ayres. It is composed of an unbroken body of nine hundred square miles, over which countless thousands of horses, cattle and sheep are grazing. Of cattle the farm has over 50,000 annually to the slaughter. The horses would supply the cavalry of a large army, and from the wool of the sheep ships are loaded annually and sent directly to Europe. The buildings are ranged about two large squares, the open space is paved with dressed stones. The gardens and orchards are in keeping with the other features of the estate, and contain an endless variety of horticultural and floral treasures. Among other improvements is an artificial lake 75 rods square and from 20 to 30 feet deep, the cost of which was \$100,000 in silver. Near the main residence is a permanent encampment of soldiers under the immediate command of the General.

Ex-Gov. Letcher, of Virginia, is keeping a boarding house in Lexington.

TRUCK.—The London Examiner has for its motto the following quotation from De Foe: "If I might give a short hint to an imperial writer it would be to tell him his fate. If he resolved to venture upon the dangerous precipice of telling unbiassed truth let him de lure war with mankind—neither to give nor to take quarter. If he tells the crimes of great men they will fall upon him with the iron hands of law; if he tells them of virtues, when they have any, then the mob attacks him with slander. But if he regards truth let him expect martyrdom on both sides, and then he may go on fearless; and this is the course I take myself."

Dr. Stone, the Washington sculptor, has been commissioned to cut a marble statue of Alexander Hamilton, for the capitol.

D. Hostetter, of Pittsburg, the manufacturer of bitters, returns an income of \$124,735—a monument to advertising.

A national memorial of Scotch granite is to be erected to the late Captain Spoke, in Kensington gardens, London.

Madame Jerome Bonaparte, of Baltimore, has been engaged in writing her "Memoirs," or autobiography, which is now nearly completed. It will cover the history of more than half a century, including Europe and America, directly setting forth her own personal and practical intercourse and experience with the world during that period of time.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent miasmatic and intermittent fevers.

They purify the breath and acidity of the stomach. They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, Nervous complaint, constipation, &c., will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Be wary of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon has a scoundrel and impostor, and should be immediately reported to us.

Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentlemen's boon! The "sweetest odor" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, to render the skin soft and fresh, to prevent eruptions, to perfume clothing, &c.

It overcomes the unpleasant odor of perspiration. It removes redness, tan, blotches, &c. It cures nervous headache and allays inflammation. It cools, softens and adds delicacy to the skin.

It yields a subdued and lasting perfume. It cures mosquito bites and stings of insects. It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

DEMAS BARNES & Co., Props. Exclusive Agents, N. Y. Sold by all Druggists and dealers everywhere.

MUSTANG LINIMENT. OVER A MILLION DOLLARS SAVED. Gentlemen:—I had a negro man worth \$1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure.

J. L. DOWNING. Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT. Foreman American, Wells, Fargo's and Harding's Express.

The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment. ED. SEELY. Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, every man and planter should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. LOOK CLOSELY.

Lyon's Katharion. It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out. It restores hair upon prematurely bald heads. This is what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the cart-load, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it. E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger. LYON'S EXTRACT OF PURE JAMAICA GINGER—for indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold every where at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION—See that the private U. S. Stamp of Demas Barnes & Co. is over the cork of each bottle. None other is genuine.

Lyon's Flea Powder. DEATH TO FLEAS. It is well known that Lyon's genuine Magnolia Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of DEMAS BARNES & Co. Anything else of the kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

MEDICAL INSTITUTE! ESTABLISHED BY DR. J. C. YOUNG IN 1850. 536 Washington Street, Below Montgomery, San Francisco, California.

It would be equally useless and unnecessary to enumerate here the diseases cured at the Institute. All classes of complaints are treated; but I consider it my duty to mention those of a special nature, as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive the ignorant of the emptiness of his profession.

Seminal Weakness. I am aware that by dwelling upon so unenviable a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may ascribe my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance.

Important to Persons afflicted with Venereal. There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that Mercury will not cure Venereal, but drives it on the surface, to allow it to poison the body, and in the throat, mouth and nose.

The Records. Of our institutions for the safety of those who are afflicted with mental troubles, bear fearful testimony of the wide spread and disastrous influences of this dreadful complaint—but such notices as the following, that localize at the time arrest the eye, give to the world the only intelligence it has:

Insanity. Sent to the Insane Asylum.—The following insane persons were examined yesterday by Judge Blake, of the probate court, and sent to the Insane Asylum at Stockton, T. W. Blummes, native of Maine, aged 21 years, single, and by occupation a farmer.

An unsolicited Testimonial of Cure. Let all who are afflicted with Seminal Weakness read this—was a certificate first published without the Doctor's knowledge. A remarkable case. I venture to state that if you read this you will be cured. I am afflicted with Seminal Weakness, and I have been treated by three different physicians, but without success.

Benj. F. Josselyn, M. D., (Box 735) No. 634, Washington Street, San Francisco, California. Oct. 15, 1866—no30-1y.

my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the fits came on. At first I only had a momentary loss of mind, a dizziness. This grew worse, until in a short time, I would remain in a confused state—for some time after I had them in my sleep.

Important to Females. When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose responsibility stands in society recommended to the confidence of the community?"

To Correspondents: Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University, Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Army Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Stricture, Blain Ulcers, Cutaneous Eruptions, etc., will be treated successfully.

DR. PERRAULT'S diploma is in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner.

Patients suffering from chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promise.

Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief.

FEMALE MONTHLY PILLS. DR. PERRAULT is the only agent in California for DR. BROT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy.

Sheriff's Sale.

BY virtue of an execution to me issued out of the United States District Court for the Third Judicial District of Washington Territory, holding terms at Port Townsend, and dated Sept. 14th, 1866, for the sum of three thousand one hundred and nineteen and fifty-one hundredths dollars, with interest cost; I have levied upon, and will proceed to sell, upon the premises, at 12 o'clock—noon, on the 12th day of November, A. D. 1866, to the highest bidder, the one third interest, in and to the following described premises, to-wit: An undivided one-third interest in and to all that property known as the "Whitcom mills," situated lying and being in the county of Whatcom, Washington Territory.

STOP THAT COUGHING.

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE best one, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis, and Consumption.

NEWELL'S PULMONARY SYRUP and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the great Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S PULMONARY SYRUP has cured thousands and it will cure YOU if you try it. This valuable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

FLORENCE SEWING MACHINES.

Copy of the Report of the Committee of Awards at the Fair of the AMERICAN INSTITUTE, NEW YORK, 1865. To the FLORENCE SEWING MACHINE CO., for the Best Family Sewing Machine.

Highest Premium! Gold Medal REASONS:

- 1st. Its simplicity and great range of work. 2d. The reversible feed motion. 3d. The perfect finish and substantial manner in which the machine is made. 4th. The rapidity of its working, and the quality of work done. 5th. The self-adjusting tension.

The "Florence" was awarded the Fifth and Highest Premium at the State Fair of California, the only Fair on the Pacific Coast in which any two double thread Sewing Machines were exhibited in competition in 1865.

The FLORENCE received the only premium awarded by the Mechanics' Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the FLORENCE has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every machine sold is guaranteed in the full sense of the word. Send for Circulars and Samples of Work.
