UNION PLATFORM.

WHEREAS, The Union Convention, now in session at Vancouver, Washington Territory, deem it their duty, as representatives of the Union party, to clearly and unequivocally define the position they occupy in common with all Union citizens; therefore be it

Resolved, That the late rebellion against the legitimate authority of the United States, directed against the life of the nation, having been crushed, it becomes the duty of the representatives of the loyal masses to take such measures for the national preservation as will prevent a future expenditure of blood and treasure, and protect all law-abiding citizens in the enjoyment of their rights.

Resolved, That while we all earnestly desire such a regeneration of those who so persistently endeavored to destroy the nation during four years of rebellion, as would enable us to extend to them once again the right hand of fellowship, self-preservation forbids us to trust them until they have manifested a sincere contrition for the past and proved by their future conduct that they have the welfare of the UNITED STATES enshrined in their hearts as their governing principle.

Resolved, That the bloody massacres of Memphis and New Orleans, as well as the general persecution of the Union men throughout the South, and the selection of notorious rebels for civil offices, prove that the temper of those who strive to destroy this great nation remains as yet unchanged. Beaten in their appeal to arms, they are now striving to acquire political power which would inevitably be used to accomplish our destruction.

Resolved, That we most heartily rejoice in the adoption of the thirteenth amendment to the Constitution, whereby slavery or involuntary servitude, except for crime, is forever destroyed, and cordially approve of the proposed amendment to the Constitution, known as the Fourteenth Article, believing that it contains principles essential to our national security, and future unity and welfare.

Resolved, That we heartily endorse and fully sustain the reconstruction bill passed by Congress at the last session, as it prevents those who have already labored to destroy the nation from re-acquiring power to renew the contest.

Resolved, That we urge Congress not to overlook the claims of the Northern Pacific Railroad. On its construction depends in a great degree the future prosperity of the entire North-West, and of the loyal millions who will inhabit it. We believe that it would develop resources, agricultural, mineral and commercial, of incalculable value to the United States, and that our delegate will devote his best energies to the accomplishment of this great enterprise.

Resolved, That in our opinion the Union members of the Thirty-ninth Congress have labored faithfully and zealously for the public interests and deserve the Nation's thanks.

HOW TO PACK SALMON FOR EXPORT.—For the benefit of the numerous fishermen employed in catching salmon in this Territory, we publish the following extract from a letter written by a New York merchant of great experience: "The Nova Scotia Salmon command the highest price in this market, and are used mostly for smoking. Their weight is from six to eight pounds each, with heads on, not over fat, (as the Oregon salmon are) to make them oily. They are a fine grained fish, and not of so deep a red as the Columbia river salmon. They are put up in new barrels and taken out here to smoke, and some few put in kits of twenty-five to one hundred weight for family or ship use, but smoked is what they are generally used for. The very high price here has limited the sale very much, as other salt fish take their place. The sales for a year do not exceed over \$3,000,000, and some say 2,000,000. They should be packed with fine salt, coarse salt cuts them, and the barrels should be well filled. It is thought here that your packers use salt-petre which turns them red and cuts them. Those from California have seldom reached here in good order. Coming round the Horn they turned out strong and soft, and very much cut and packed in second hand barrels after, which should never be done. The different changes of climate in coming around the Horn, it is said effect the fish, but if put up in good new barrels, well coopered with iron bound hoops on the bilge and chime, so the brine could not get out by shrinkage, do not shrink in the bottom of a ship ten feet under water; they would not much, or enough to make them soft. The fault is in the manner of salting and putting up, which the packers out there have to make note of, either by getting a kit or half barrel of Nova Scotia, and seeing them or improving without. The price has ranged from \$30 to \$45. In searching for information I stumbled into a place where I found an Oregon firm had sent in fifty new barrels, via the Isthmus, which cost in currency \$30 and the parties had, by putting into kits, and retailing out to vessels, made out to sell a few at about \$20 currency, but thought that if we could lay them down at \$15 currency in good order, they could get rid of a few hundred barrels. Those gentlemen say that they will not begin to pay cost, and says he never wants to have another barrel, for they are totally unfit for this market, and had it not been for retailing them out as above described, he could never have rid himself of them except at auction. I have been through the market, and the foregoing information is such as I have found, which does not admit of a possibility that salmon from Oregon can be sent here at a profit, unless they adopt the

Nova Scotia mode of packing, and then it is doubtful if the fish is not a different nature to suit the trade here while Nova Scotia are so plenty and near at hand."

A gentleman, (residing not many miles from Cambridgeport,) who visited the White Mountains last Summer, accompanied by his wife, stopped at the Glen House, and one night, when there, had a sudden and violent attack of colic. An application of mustard was recommended to relieve his pain, and he consented to have it tried. His wife, on going down to the kitchen, found the mustard, but nothing to spread it upon, and her pocket-handkerchief was taken for that purpose. No time was lost in returning. In a moment she was at his bedside and applied the plaster. "There, that will help you, I know," said she. She had scarcely finished the sentence, however, when the poor man turned over and roared, "what the d—l are you about? It is not her husband's voice! Her lamp had given but a feeble light, and she had got into the wrong room! She found her own apartment without delay, and related the unfortunate circumstance to her husband, adding with horror, that her name was on her handkerchief! The sick man was completely overcome with laughter. His colic disappeared as suddenly as it came. It was agreed not to remain long in those parts. The landlord was called up, the affair explained, and the man and wife left on the earliest express train. The gentleman who was so unceremoniously disturbed (and who is well known in Boston) has preserved the handkerchief. Query—ought he not return it?

A SHARK STORY.—In the United Service Museum, White Hall Yard, London, are exhibited the jaws of a shark, wide open and enclosing a tin box. The history of this strange exhibit is as follows: A ship on her way to the West Indies, fell in with and chased a suspicious looking craft, which had all the appearance of a slaver. During the pursuit the chase threw something overboard. She was subsequently captured, and taken into Port Royal to be tried as a slaver. In absence of the ship's papers and other proofs, the slaver was not only in a fair way to escape condemnation, but her captain was anticipating the recovery of pecuniary damages against her captor for illegal detention. While the subject was under discussion, a vessel came into port which had followed closely in the track of the chase above described. She had caught a shark and in its stomach was found a tin box, which contained the slaver's papers. Upon the strength of this evidence the slaver was condemned. The written account is attached to the box.

CONSUMPTION OF POSTAGE STAMPS.—Twenty tons, or, by superficial measurement, forty-eight and a half square miles of postage stamps have been used during the year; enough to roof a large township, with all its houses, churches, barns, gardens, forests and farms; or, if you choose to make a ribbon of them, to reach from the equator to either pole, or twice the length of the Mississippi river. So that if every body would be obliging enough to use the government stamp on the envelope itself, the mere omission of these little bits of paper would lighten the mail-bags by more than forty thousand pounds. The postmaster-general does not impart this information in so many words, but he assures us that nearly three hundred and fifty millions of stamps have been sold in the year past, besides nearly forty millions of stamped envelopes; and a simple calculation reduces the story to the more tangible form we have given it.—*Scientific American.*

Early Rising gives long days, invigorating light in abundance, and healthy cheeks. This beautiful passage from Bulwer's *Caxton*, is worthy of perpetual remembrance:—"I was an early riser. Happy the man who is! Every morning day comes to him with a virgin's love, full of purity and freshness. The youth of nature is contagious, like the gladness of a happy child. I doubt if any man can be called old as long as he is an early riser and an early walker. And youth—take my word for it—youth in dressing-gown and slippers, dawdling over breakfast at noon, is a very decrepit, ghastly image of the youth which sees the sun blush over the mountains and the dew sparkle upon the blossoming hedge rows."

While you are gazing upon the sun, which is plunging into the vault of the west, another observer admires him emerging from the gilded gates of the east. By what inconceivable power does that aged star, which is sinking fatigued and burning in the shades of evening, reappear at the same instant fresh and humid with the rosy dews of morning? At every hour of the day the glorious orb is at once resplendent as noon-day and sitting in the west—or, rather, our senses deceive us, and there is, in the world, properly speaking, no east, no west, no north, no south.

A gentleman riding a very ordinary looking horse, asked a negro whom he met how far it was to a neighboring town, whether he was going. The negro looking at the animal under the rider, with a broad grin of contempt, replied, "W' dat ar boss, massa, it's jist fo'teen miles. W' a good chunk of a boss, seben miles; but if you jist had Massa Jimmy's boss! Gosh! you're dare now."

The S. F. *Call* thinks one of the best uses the Government can put the Russo-American Territory to, is to make it a kind of Siberia where rebels, political bummers, worn-out political hacks, Copperheads, etc., may go away into exile, and do penance under official appointments to office by Andy Johnson.

The Frankfort, Ky., *Commonwealth*, states if any candid Democrat will examine page 276 of the Auditor's report for 1867, he will have the appalling abolition fact driven in upon his understanding, that Kentucky is \$32,638,791 richer without the negro than with him.

Wonders!—When a young man is clerk in a store and dresses like a prince, smokes "foine cigars," drinks "noice brandy," attends theatres, dances and the like, I wonder if he does all on the avails of his clerkship?

When a young lady sits in the parlor during the day, with her lily white fingers covered with rings, I wonder if her mother doesn't wash the dishes, and do the work in the kitchen?

When the deacon of the church sells strong butter, recommending it as a good article, I wonder what he relies upon for salvation?

When a man goes three times a day to get a dram, I wonder if bye-and-bye he won't go four times?

When a lady laces her waist a third less than nature made it, I wonder if her pretty figure will not shorten life a dozen years or more beside making her miserable while she does live?

When a young man is dependant upon his daily toil for his income and marries a lady who does not know how to make a loaf of bread or mend a garment, I wonder if he is not lacking somewhere, say towards the top, for instance?

When a man receives a periodical newspaper weekly, and takes great delight in reading it but forgets to pay for it, I wonder if he has a soul or gizzard?

How to Propose.—A party of ladies and gentlemen were laughing over the supposed awkwardness attending a declaration of love, when a gentleman remarked that if ever he offered himself he would do it in a collected and business-like manner. "For instance," he continued, addressing a lady present, "Miss Smith, I have been two years looking for a wife. I am in receipt of about three hundred a year, which is on the increase. Of all the ladies of my acquaintance I admire you the most; indeed, I love you, and would gladly make you my wife." "You flatter me by your preference," good-humoredly replied Miss Smith, to the surprise of all present; "I refer you to my father." "Bravo!" exclaimed the gentleman, "Well, I declare!" said the ladies, in a chorus. The lady and gentleman, good reader, were married soon after. Wasn't that a modest way of "coming to the point," and a lady-like method of taking a man at his word?

Frightening a Greenhorn.—While traveling up the Ohio, some years since, our boat stopped at one of the landings to take in wood. On the shore amongst the crowd, was a remarkably stupid-looking fellow, with his hands in his pockets, and his under lip hanging down. A dandy, ripe for a scrape tipped nods and winks all about, saying: "Now I'll have some fun. I'll frighten the greenhorn." He jumped ashore drawing a bowie knife, and brandishing it in the face of the "green un" exclaiming: "Now I'll punish you; I have been looking for you a week." The fellow stared stupidly at the assailant. He evidently had not seen enough to be scared; but as the bowie knife came near to his face one of his huge fists suddenly vacated his pocket, and fell hard and heavy between the dandy's eyes, and the poor fellow was floundering in the Ohio, "Greeny" then jumped aboard our boat, put his hands in his pockets, and looking around said, "Maybe there's somebody else here that's been looking for me a week."

Tilters ain't enough.—The tilters having failed to please the least modest of the gay Parisian Damsels, they propose to inaugurate a new fashion. Short skirts (without crinoline) to reach just below the knee, jewelled garters, fancy stockings and high heeled boots, they say, will exhibit the lovely creatures to the best advantage.

In the New Orleans Museum the young lady who goes into the lion's den put too much pomatum on her hair. When she stooped to let the Mexican lion jump over her, as usual, that sagacious beast stopped, to the great alarm of the spectators, and bit off her waterfall.

The monastery of Arcadi which was lately blown up by the Cretan insurgents, was 800 years old, and was the finest and richest monastery in the Levant. It contained a very rich library, with rare Byzantine manuscripts, all of which perished in the ruins.

It is announced that the entire northern portion of the Island of Borneo has been granted for trading purposes to an association known as the "American Trading Company." If this is true, America, as well as England, has an "East India Company."

A Memphis paper says the reason so many marriages occur immediately after a great war, is that bachelors become so accustomed to strife that they learn to like it, and after the return of peace they enlist in matrimony as the next thing to war.

Fred. Douglass says he is not permitted now, as formerly, to enjoy the luxury of a whole seat when traveling. Some people really prefer sitting next a "nigger" to standing.

Josh Billings says: Give the devil his due, reads well enough in a proverb; but my friend, what will become of me and you if the arrangement is carried out?

Mollie Russell, the pardoned murderess, who went to New York ostensibly to enter a convent, concluded she wouldn't be a nun, and so took the steamer for California.

PUGET SOUND GAZETTE. TELEGRAPHIC.

SPECIAL DISPATCHES TO THE PUGET SOUND GAZETTE.

EASTERN STATES.

New York, May 17.—J. F. Davis still remains reclined in the New York Hotel, and probably will not leave until Monday.

Chicago, May 17.—Rirk & Co's soap factory was destroyed by fire this afternoon. Loss \$100,000, mostly covered by insurance.

New York, May 17.—The steamer Virginia, from Vera Cruz, reports Laucha and Merced in possession of Llorca. There will be no attempt to take Vera Cruz by storm. Provisions plenty and cheap.

London, May 17.—Despatches from Athens state that two sanguinary battles have taken place on the Isthmus of Corinth, in both of which the Turkish Commander Omar Pasha was badly beaten, with loss in both contests of 2000 men.

The powers of Europe have again united in a petition to the Porte to cede Crete to Greece.

New York, May 19.—European dates by mail to the 19th have been received. Kelly won the boat race against Chambers. The falling of a bridge drowned a number of spectators. A heavy cotton fire at Liverpool has failed for \$400,000.

It will be a crime to execute the Fenians; they had more justification than the southerners for rebellion. The palace of the Tuileries has been offered to the Czar of Russia while in Paris. The King of Greece has gone to St. Peter-burg to marry the daughter of Constantine.

London, May 18.—The Turks claim the victory over the Greeks in the recent battle. In Paris the Corps Legation is reported as opposed to the army bill of Napoleon.

London, May 17.—The London Times condemns the Government for allowing the reform demonstration on the 16th inst. Fifteen thousand police and numerous military companies were held in readiness. Every thing passed off quietly, 50,000 persons being present. The Suez Canal is open for transhipment of merchandise and will be ready for ships in three months. Spanish papers deny recent reported disturbances. The English iron clads are ordered back to Malta and have sailed.

London, May 17.—The Sultan replied to the powers that Turkey is able to suppress the rebellion and he finally declines ceding Candia to Greece.

London, May 19.—Douglas' glassware store in Meiden Lane has been burned. Loss \$2,000,000. Napoleon and King William of Prussia have signed the treaty of Luxembourg.

London, May 20.—The city authorities voted £50,000 for a statue of Poincaré. The last despatches confirm the defeat of Omar Pasha in Candia. The Sultan has granted the title of King to the Viceroy of Egypt.

London, May 20.—In the House of Commons to-night an amendment to the reform bill pertaining to female suffrage was rejected by 21 majority. The amendment, proposing a £10 franchise was also defeated.

London, May 21.—Barke the Fenian is sick. D. Smith's life will be spared.

Dublin, May 20.—Matters for new trials in the cases of Mc Cafferty and Nedy were denied. McCafferty has been sentenced to be hung in June.

SOUTH AMERICA. Lisbon, May 17.—The mail steamer from Rio Janeiro arrived to-day. South American news important. President Lopez of Paraguay has accepted the mediation proposed by the United States Government. Minister Washburn would send an answer to Washington. The rebels, on the other hand, had not accepted the American offer, and it is doubtful whether they would. No further fighting had occurred between the contending armies. The revolt in the district of Guaymas in the Argentine Republic has assumed still more alarming proportions.

CALIFORNIA. San Francisco, May 20.—Arrived, 18th.—Berk Huntzicker, 14 days from Port Orford.

San Francisco, May 22.—The next steamship for Oregon will be the Oceanic on Tuesday, May 28th. If neither these steamers will be completed every ten days instead of every Saturday as heretofore. Steamships bound for Nuka, June 1st, will probably not get off on the day advertised, but will probably sail at an early day.

Sailed on the 21st.—Ship Revere for Port Townsend; British Barque Australian for Nippon.

MEXICO. New York, May 19.—Mexico official advices of the 22nd confirm the report that Gen. Diaz was willing to entertain the proposed guarantee of life to Maximilian, but he was powerless to perform such. Vera Cruz would be bombarded as soon as more troops arrived. Diaz was progressing with his operations at the city of Mexico on the 21th. Escobedo's lines were attacked on the 27th but he drove the young hero back with great loss. The next day was occupied in burying the dead.

New York, May 21.—A San Louis Post dispatch of April 25th says: Juarez has 35,000 troops in the field and is confident of soon extinguishing the last vestige of the Empire. Maximilian has but 14,000 men, not half of whom are serviceable, and is surrounded by the Liberals. The moral support of the United States is held to be of no account. Recheo has boasted of the power of the Mexican Govt. to retake California.

PORTLAND, May 23.—Arrived—Steamer Fidelity from Victoria.

JAMAICA. New York, May 20.—Jamaica (Times) to April 25th, inform us that Gov. Sir John Grant has closely examined into the Coolie scheme.

HAYTI. Intelligence from Hayti gives an account of another attempt at revolution made at Jackson. Sautive was every where accepted as Dictator General; but each one of his Generals is desirous to start a revolution in his own interest.

CUBA. The Coolie Co. has been notified that the transportation of more Coolies than the tonnage of their ship warranted, would subject them to punishment.

FROM THE NORTH. Victoria, May 25.—Yesterday was observed in this city as a general holiday in honor of the anniversary of the birth day of the Queen. The event was celebrated with unusual interest. The most prominent feature of the proceedings was the regatta which was without doubt the most successful that has ever taken place on this coast.

The Very Latest. New York, May 25.—The location of the break in the cable is three miles from Hearts Content. It will be repaired soon.

New York, May 25.—The Steamship Santiago De Cuba from Nicaragua is ashore near Atlantic City, N. J. Six persons were drowned in attempting a landing. The passengers are now landing safely. Atlantic City is on the N. J. coast about half way between Cape May and Long Beach.

Madrid, May 22.—Arrived express bears of a political crisis. The international treaties of Spain are in jeopardy.

New York, May 21.—Stowage duties from the 19th are received. In the San Francisco and the 19th inst. the North American Coolie Convention, proposing to prohibit the importation of Chinese coolies, has been held. The Convention was held at the Hotel de Ville, New York, and was attended by delegates from all the principal ports of the world. The Convention was held in the afternoon, and was presided over by the Hon. J. M. McKim, of New York. The Convention was held in the afternoon, and was presided over by the Hon. J. M. McKim, of New York.

San Francisco, May 21.—A letter from the Hon. J. M. McKim, of New York, dated May 19th, contains a copy of the Convention's resolutions. The resolutions are as follows: That the importation of Chinese coolies is hereby prohibited; that the Government be and it be authorized to take such measures as may be necessary to enforce this prohibition; that the Government be and it be authorized to take such measures as may be necessary to enforce this prohibition.

In the recent order issued by Gen. Sickles on taking command at Charlestown he enjoined implicit obedience to the reconstruction laws, and asked the aid of citizens in his efforts to execute these laws and preserve the peace. He declared that the civil government now existing in North Carolina and South Carolina is provisional only, and in all respects subject to the permanent authority of the United States at any time to abolish, modify, control or supersede the same.

THIRTY DIVORCES.—The Atlanta (Ga.) Era, a paper which may be supposed to be competent to speak on the subject, makes a terse statement of the origin of the late contest: It was a transfer of cardinal political doctrines from the forum of debate to the arena of battle. The political harvest was at hand and we went out to reap the fruits of Jeffersonian Democracy. This is both candid and clear. These men ought to know why they rebelled.

More Tragedy.—The Springfield (Mass.) Republican publishes a detailed account of several cases of Irishism which occurred a short time ago in that city. A small piece of muslin taken from the limb of one of the deceased persons showed that the tribuna were distributed at the rate of 50,500 to 80,000 to the square inch. Pieces of the muslin have been sent to Prof. Agassiz.

Mr. Roberts, formerly Senator from Texas, has computed the recent murders of negroes in that State at 2,700. At one post in the same State eight officers of the Freedmen's Bureau have, it is said, been successively murdered.

Forty divorces were granted by a New Hampshire Court in two days.

Special Notices. Know Thy Destiny.

MADAME E. F. THOMPSON, the great English Astrologist, Clairvoyant, and Psychometrist, who has astonished the scientific classes of the Old World has now created herself at Hudson, N. Y. Madame Thompson possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometron, guarantees to produce a lifelike picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, etc. This is no humbug, as thousands of testimonials can attest. She will send you a desired certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, sex, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications strictly confidential. P. O. Box 257, Hudson, N. Y. 4-067-lyr

A Young Lady returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a ruddy, flushed face, she had a sallow complexion of almost marble smoothness, and instead of twenty-five she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the Circassian Balm, and considered it an invaluable acquisition to any lady's toilet. By its use any lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all the impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order by W. J. CLARK & CO., Chemists, 304 West Ferry St., Syracuse, N. Y. The only American Agents for the sale of the same. 4-067-lyr

FRENCH MEDICAL OFFICE.

Dr. J. B. PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University of Lyons, and Physician of the St. Joke Hospital, Faculty of San Francisco.

Dr. Perrault has pleasure in offering to the public a new and original medicine, which he can be considered daily at his office, 415 Broadway, New York, North-East corner North Broadway and Broadway, Room 11, 1st floor, up stairs, entrance on either Montgomery or Sacramento streets.

Dr. Perrault's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Intellectual Debility, the results of which are usually terminated in impotence and sterility, and permanently reduce all the constituents of old age. Where a person is afflicted with this disease, the happiness of a life and that of others, reason and morality dictate the necessity of its removal. It is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, consumption, syphilis, life, etc., have their sources in excess, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nervous Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc.

The patient will probably complain of Debility, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatism, and a numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. Perrault, either in person or by letter, as he will guarantee a cure of Nervous Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Stricture, Venereal Catarrhus, Eruptions, etc., will be treated successfully. An Syphilitic and Mercurial Taints entirely removed from the system.

Dr. Perrault's diploma are in his office, where patients can see for themselves, and are under the care of a regularly educated practitioner. The best references given in regard to this office.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure every case, but we claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, will warn out and discourage us, and give us credit.

Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief.

FEMALE MONTHLY PILLS. Dr. Perrault is the only agent in California for Dr. Perrault's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at home, or assistance can be cured at home, by addressing a letter to Dr. Perrault, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 574, P. O. San Francisco, stating the case as accurately as possible, general health, and living occupation, etc. All communications confidential. 107-lyr

WE THINK THERE IS no Medicine so efficacious in removing humors from the blood as SCOVILL'S BLOOD & LIVER SYRUP. It is recommended by Physicians in all parts of the country, for the cure of Scrofula, and other diseases of the Cuticle. Pimples or Sores indicate that the system is out of order. Unless something is done to cleanse the blood of these impurities, the result may be a more serious disease, such as Scrofula, Syphilis, etc. Those who wish to find a most efficacious remedy, and yet have no confidence in Patent Medicines generally, will never regret a trial of Scovill's Blood and Liver Syrup. HEAD OF ALL OTHERS IS THE "MARTHA WASHINGTON" HAIR RESTORER. It is used by all and is acknowledged to be superior to any preparation in the market. It keeps the hair soft and glossy. It changes the hair to its original color. It prevents the hair from falling out. It prevents premature baldness. It makes old heads look young, and in fact it will do all expected of a good genuine Hair Restorer. Do not be misled by having any other preparation. Try it, by all means try it, and you will never regret it. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc. REDINGTON & CO. SOLE AGENTS FOR THE PACIFIC COAST. ASTROLOGY.

THE WORLD ASTONISHED AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST, Madame H. A. PERRIGO.

She reveals events no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fall not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, \$1. Parties living at a distance can consult the Madame, by mail with equal safety and satisfaction to themselves, as in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Address, MADAME H. A. PERRIGO, 7-177 P. O. DRAWER 298, BUFFALO, N. Y.

Reparator Capilli.

Three away your false braids, your switches, your wigs—Destructive of comfort, and not worth a fig; Come again, come y-natural, come ugly and fair, And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth upon the face, it has no equal. It will force the hair to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months.

A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But woe will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. A great many side hits are being made at the Plantation Bitters, by a score of disinterested friends who have endeavored to imitate or counterfeit them. It is of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and that's what's the matter. They are in the same sized bottle, and marked just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind.

They prevent miasmatic and intermittent fevers. They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausting nature's restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label. Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

There cometh glad tidings of joy to all, To young and to old, to great and to small; The beauty that once was so precious and rare, Is free for all, and all may be fair.

By the use of CHASTELLAR'S WHITE LIQUID ENAMEL, For Improving and Beautifying the Complexion.

The most valuable and perfect preparation in use, for giving the skin a beautiful pearl-like tint, that is only found in youth. It quickly removes Tan, Freckles, Pimples, Blisters, Moth Patches, Sallowness, Eruptions, and all impurities of the skin, kindly treating the same leaving the skin white and clear as alabaster. Its use can not be detected by the closest scrutiny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the French, and is considered by the Parisian as indispensable to a perfect toilet. Upwards of 30,000 bottles were sold during the past year, a sufficient guarantee of its efficacy. Price only 75 cents. Sent by mail, post-paid, on receipt of an order, by BERGER, SHUTTS & Co., Chemists, 7-177 285 River St., Troy, N. Y.

CAUTION! NOTICE IS HEREBY GIVEN THAT MY WIFE, Elmina Martin, has left my bed and board without any just cause or provocation. All persons are hereby cautioned against harboring or trusting her on my account, as I will pay no debts of her contracting. JOHN MARTIN. Seattle, May 20th, 1887.

Lyon's Katharion, It is the most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out. It restores hair upon prematurely bald heads. This is what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the cart-load, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it. E. MEDICAL INSTITUTE!

ESTABLISHED BY DR. J. C. YOUNG IN 1850.

536 Washington Street, Below Montgomery, San Francisco, California.

Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at this Institute. All classes of complaints are treated; but I consider it my duty to mention those of a social nature, as upon such the unfeeling and irresponsible quick dwells, with phases well calculated to deceive those ignorant of the emptiness of his profession. First among the special complaints is

Seminal Weakness.

I am aware that by dwelling upon so uninteresting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. I have extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emission; colorless, slight discharges upon the least exertions; recumbent position of the heart; irregular appetite; variable temper, etc.

Young men, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice self-abuse even in the slightest degree, you have the seeds of the weakness in your system, and their undermining influence will sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its great danger; for while the patient is being treated for some supposed affection of the heart, lungs, brain or digestive functions, he falls into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness. See in the form and languishing steps, the poor victims of that fascinating vice! Mark the course of the complaint in the hollow cheek and dull eye! Drowsiness is one of the peremptory symptoms. At first it is easily shaken off, but it grows eventually into a general disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery, in a single instant it may withdraw your fond hopes and bring you honest aspiration. Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition from which he is to be lost the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepit and degenerate.

The Records

of our institutions for the safety of those who are afflicted with mental troubles, bear fearful testimony of the wide spread and disastrous influence of this dreadful complaint, but such notice as the following that hardly at this time arrest the eye, give to the world the only intelligence it has:

Insanity.

Sent to the Inane Asylum.—The following insane persons were examined yesterday by Judge Blake, of the Probate Court, and sent to the Inane Asylum at Stockton, T. W. Hinesman, now of Meigs, aged 21 years, single, and by occupation a farmer. His mind appeared about five months ago, and is the result of secret vice. John Wall is another victim of solitary habits.—San Francisco Call, Oct. 12, 1861.

Yes, the quotation here is from a respectable language. It points out with unerring fidelity to every person afflicted with seminal weakness, one of the ultimate ends of that deplorable complaint. At any time before reason became unseated, these poor victims had they read the warning, and followed its advice, might have been saved. Let others, similarly afflicted, who have not yet passed the barrier where all hope is left behind, take warning by their untimely fate, and seek that relief which alone can restore their life and happiness. Consult them, or once a physician has been in practice, and research has made thoroughly conversant with every disease; one who will sympathize with your sufferings, giving to each and all assurance of a perfect and permanent cure, without hindrance from business, a change of diet, or fear of exposure, or any compensation for their services, and whose earnestness you can repose confidence can be reposed.

An unsolicited Testimonial of Cure.

Let all who are afflicted with Seminal Weakness read the sworn to certificate first published without the Doctor's knowledge. A remarkable case. (Revenue stamp.) This is to certify that I was afflicted with Seminal weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self abuse was ruining me. I first had nervous trembling of the limbs, pains in my back, and trouble in my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the fits came on. At first I only had a momentary shaking of the limbs, and pain after long of a short time I would remain in a confused state—for some time after I had them in my sleep. I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now came as frequent as twice or three times a day, leaving me in the most wretched condition. Nothing did me good, in spite of every being well, I prayed for death; but I was not to die for help was at hand. My friends visited the Dr. J. C. Young Institute, and I was placed under the care of Dr. Benj. F. Jewell. I very soon began to feel better, and in a few days I was able to go to work. My mind became clear; the fits grew lighter; I was soon perfectly free from them, and now, for over two months I have not experienced them at all. All the symptoms of seminal weakness are gone, and I feel as well as I ever did. It is to Dr. Benj. F. Jewell, of the Institute, I owe my life; and from the gratitude I owe him, I give this, my testimony of his skill and success. If this should induce any one unfortunately afflicted with seminal weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe. BENJ. BROWN [Seal]. [Revenue stamp] Subscribed and sworn to before me this 1st day of December 1863. [Notarial seal] W. O. ANDREWS, Notary Public.

Important to Persons

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that Mercury will not cure Venereal, but dries it on the surface, to allow it to poison the blood, to reappear in hideous marks upon the body, in the throat, mouth and nose. Those who have had any form of Venereal, and were treated with mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues, to be re-communicated to the wife or transmitted to the children. As terrible as is the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose sore heads, rankered mouths, diseased limbs, running eyes and blotched skin are the constant reproaches to the sinner. Be warned in time and secure health by consulting at the Dr. J. C. Young Institute. The Doctor effect a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to the usual and secure health for supplying at the Dr. J. Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community?" The Doctor, an experienced and successful practitioner, whose requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female diseases for 20 years, and is fully competent to administer in all cases, both medically and surgically, both in and through a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one whose secrecy the utmost confidence can be placed. Consultation, by letter or otherwise, free. See address below. The celebrated female remedies composed by the private prescriptions of Dr. Young, have now obtained a most extensive popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimony of efficacy declares them to be pre-eminently superior in their action. No lady should be without these renovating agents. None genuine unless prepared at this office. Sent by mail or express to any part of the State. The great Female Medicine—Preventive Powders for married ladies—New, safe and infallible, lasting from four to six months. Price \$10. French Laxative or Female Monthly Pills, for constipation. After 300 years of use these pills stand unrivalled in efficacy. Price \$5 per box.

To Correspondents:

Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen only by the Doctor, and will be treated with the utmost confidence, and either returned or destroyed, as the patient may direct.
