Legal Tender Notes taken on subscription at par.

THE PROGRESS OF RECONSTRUCTION.—Reconstruction still goes on. Every gale that sweeps from the South brings to our ears accounts of gathering hosts of white and black, and bleached men, standing shoulder to shoulder, very literally, and promptly taking the initiative steps toward reconstructing themselves. This is glorious and cannot fail to secure salvation! True, checks have been attempted by Mississippi and Georgia, in the shape of an application to the Supreme Court for injunctions. It is very doubtful, in view of the decision of Taney in the Rhode Island case, whether the Court will entertain them. But suppose it should do so, grant the injunctions, stop proceedings, and decide the law unconstitutional, and suppose the South should send her delegates to Congress, would that body receive them? And suppose she should send electoral votes to the Electoral College, would Congress allow them to be counted? And who feels able to punish Congress for contumacy? Show me the man or set of men. There's the rub. The easiest way is the best way. Congress has the inside and will keep it. Should the good work go on as it has begun, the South will lift herself out of the clutches of the military in a few months. Her Constitution will be framed and accepted by Congress, and she will come with a representation to the Capital larger than ever before, and will be admitted. Her electoral votes will come up to the Electoral College more numerous than ever before, and they will be counted. This is "a consummation devoutly to be wished," and the South is at this moment directly in the line of its attainment. No worse calamity could befall the South than the success of their efforts, now being made, to set aside the Sherman bill, and render all the efforts at reconstruction abortive. Disastrous delays, more stringent measures emanating from the same inflexible power, and some slight changes in the Supreme Bench death must soon make room for, may be safely reckoned among the probable results which would flow from such success.—*Washington Letter.*

COLORIED VOTERS IN NEW YORK STATE.—The New York papers consider that the question of colored suffrage in that State is not of so great importance after all, as the number of voters to be enfranchised is comparatively small. The total colored population of New York, 1865, was 44,708, a decrease of nearly 3,000 since 1860. Of these 20,031 reside in New York, Brooklyn, and their immediate neighborhood. This includes men, women and children, and of the men several hundred are already voters. It is therefore estimated that were suffrage to be extended to all the colored males over twenty-one years of age without restriction, not more than 5,000 voters would be added to the list in the entire State. Pennsylvania contains more colored people than New York.

LONDON FASHIONS.—A London writer says: Chignons increase in size, and two or three hundred of them on horseback in Rotten Row of a morning behind stove-pipe hats, and of somewhat larger dimensions, have a wonderful effect. The bodices of evening dresses are shorter, and the trains longer than ever, as if the charming ladies were trying to get through their property, and had almost succeeded. They tell of a gentleman who unwittingly agreed to go shares with a lady in making a present of a dress; he to give the skirt and she the corsage; her share was a piece of ribbon.

LOST IN THE MOUNTAINS.—A detachment of Mr. Elwyn's telegraph exploring party on Stekin River were sent out during the winter to search for a pass and were lost in the mountains. Another party were sent out to search for the missing explorers, and succeeded in finding them just as they had cleaned up their moccasins for food, and, being badly frost-bitten, had given up all hope of rescue and had laid down to die.—*Colonist.*

BROADBRIMS IN MADAGASCAR.—A Royal proclamation has been issued by the Queen of Madagascar, forbidding civilians to wear hats with brims, and restricting that privilege to the Government officers. The civilians are now wearing a kind of skull cap. Many wear their old hats with the brim torn off, and the streets are strewed with the discarded brims.

The best thing to give to your enemy is forgiveness; to your opponent, tolerance; to a friend, your heart; to your child, a good example; to your father, deference; to your mother, conduct that will make her proud of you; to yourself, respect; to all men, charity.

Sincerity is to speak as we think, believe as we pretend, act as we confess, perform as we promise, and really be what we would seem to be.

A French woman at Forestdale, Vt., gave birth to three children, weighing two and a half pounds each. Mother and children all living.

THE MISSISSIPPI INJUNCTION CASE IN THE SUPREME COURT.—A dispatch dated Washington April 12th, says: About 200 persons were present in the Supreme Court today during the proceedings consequent upon Judge Sharkie's motion for leave to file his bill praying for an injunction against the President and Gen. Ord. The attendance of attorneys was unusually large, there being considerable desire to hear the argument on behalf of the Government. Attorney General Stanbury appeared for the President, and Robert J. Walker for the State of Mississippi. Each speaker occupied rather more than an hour. The Attorney-General took the broad ground that neither the Supreme Court nor any other Court can make the President a party to any case; that he is amenable to no tribunal but the Senate, sitting as a high Court of Impeachment. Having laid down this position and fortified it with references and authorities, he went on to say that the President could not obey the mandate of the Court, even if the subpoenas were issued, and in such case the Court must direct his arrest for contempt. This would initiate grave criminal proceedings. If he refused to purge himself of contempt, the court must send him to jail, and we should thus have the executive branch of the Government partially overthrown by the judicial branch, and the gravest consequences would follow. The Attorney-General, in concluding, stated that he was directed to say that the President's opposition to the military reconstruction bill failed when he had vetoed it. Now that it had become a law in a constitutional manner, he regarded it as his duty to see it faithfully executed.

The Attorney-General's argument today was very earnest and impressive. Mr. Walker's reply was adroit, and he rather evaded the point made in the President's behalf, and presented argument showing that the court has original jurisdiction in a case wherein a State is party, and therefore in this case. It is not known when the court will decide whether the bill can be filed, but everybody expects a decision early next week; no one appears to believe that leave will be granted.

JOHN H. SERRATT.—The National Intelligence, speaking of this individual, has the following: This remarkable gentleman, who is like a character in "Toodles" that is heard from alternately, still lives. From reliable information it is definitely ascertained that he sleeps soundly, and rises every morning early, dresses himself without the assistance of a servant, eats heartily, reads the newspapers, smokes his pipe, and, if the weather permits, is allowed to walk under guard in the jail yard. His sister visits him nearly every day, and his brother is allowed the same privilege occasionally. The people in Lower Maryland provide him with not only the substantial, but the delicacies of life. Serratt often speaks of his travels, and laughs heartily at the idea of his jumping down a precipice as "high as the Patent Office building," says that he cut his hand rather badly when he fell.

Gov. Smyth of New Hampshire, introduced Speaker Colfax in Manchester in the following words:

"Seven years ago I had the honor of presenting to you on this platform a prominent Western gentleman, who I then said would probably be the next President, which prophecy was thought by many at the time to be quite visionary. The next President, however, proved to be that person, is now dear to every lover of justice and liberty, not only all over our own land but throughout the world. To-night I have the pleasure of introducing to you our distinguished visitor, the popular Speaker of the United States House of Representatives, Hon. Schuyler Colfax—a gentleman whose name is familiar to you all, and who is quite as likely to be our next President as was Mr. Lincoln at the time to which I referred.

The editor of the Kansas City Journal of Commerce, upon hearing that a radical convention has been held in Richmond, Va., thus apostrophizes:

"Sic semper tyrannis! A radical Convention in Richmond! No qualification of color! Black men are registered in the sacred precincts of all thy borders, Virginia! Chivalry is fled thy gates? Chatterles are now thy men, Old Dominion! The tomb of Washington re-echoes no more to the crack of thy christianizing lash, and the rattle of thy philanthropic chains, oh! Mother of Presidents! Freedom has laid her foundation deep in the rotten wreck of thy former power! and the song of the freedman joyfully swells where the proud command of masters of men was obeyed! Verily, sic semper tyrannis!"

A correspondent of the New York Herald, writing from Marion, Smyth county, Virginia, says that "the President is denounced on every hand for not having dispersed the Congress and taken the settlement into his own hands. The people claim that by holding out a false hope he has led them into difficulties and then deserted them when they most needed his aid."

The San Francisco papers say that anxiety was felt at Yokohama, Japan, by the non-arrival of the Colorado.

LARGE REWARD.—To secure the ends of justice says the Territorial Enterprise, will all papers copy this item throughout Eastern Nevada and California. On April 9th, last, C. A. B. Hill was brutally murdered in Spring Valley, Lyon county, Nevada, his throat cut from ear to ear, his team unloosed from the buggy and hitched by the reins to the sill of the door. A knife and razor were found not far from the building. Several arrests are already made, which may or may not enable the officers of the law to convict. Rewards have been offered by the Governor of Nevada of \$100 in currency, for each person convicted; by the citizens of Lyon county, \$2,500 in gold coin, and by the Millmen's Association, \$2,000 in gold coin. By passing this item around it will aid perhaps in the arrest of some concerned in the dastardly murder.

One of the most brilliant Russian Princesses ordered her chambermaid, in St. Petersburg, to iron her a handkerchief. The iron proved too hot, and the handkerchief was very slightly scorched. When the Princess saw this she turned deadly pale, started from her arm chair, took the girl by the nape of the neck and carried her to the kitchen. The poor chambermaid screamed: "I did not do it on purpose." The Princess shook her violently every time she screamed crying "Silence." The great iron stove was almost red hot. The Princess pulled the chambermaid's clothes over her head, tied them about her neck, and forced her to sit on the hot stove until she fainted.

A burglar was convicted in Boston the other day on circumstantial evidence of an internal revenue stamp. The culprit had left the cover of a match box on the premises; and he had in his pocket at the time of arrest the box itself, attached to which was the torn fragments of a revenue stamp. On placing the cover on the box the broken edges of the stamp fitted exactly; and on this proof the prisoner goes to the penitentiary for 10 years.

DREADFUL DISASTER AT TILAMOOK BAY.—A gentleman who arrived on the Fideliter informs us that on Thursday last a boat containing an American officer and six attaches of the surveying expedition was swamped on the bar of Tilamook harbor and all drowned save one who clung to the boat. The party were surveying and marking out the channel. Tilamook Bay is 40 miles south of Columbia river.—*[Victoria Colonist.]*

Wisconsin has the lead of all the States in proposing to give women the right of suffrage. A resolution proposing to amend the Constitution of the State so as to allow women over twenty-one years of age to vote, has passed the Legislature and gone to the people—that is to say, to the men,—for their decision. It is believed it will be carried.

Andy Johnson and his vetoes have fallen into such contempt that not one newspaper in fifty published his last veto of the Supplemental Reconstruction bill, and not one subscriber in fifty to the few papers that did insert his Copperhead objections, read a single paragraph of it, or cared the value of a brass button what he said on the subject.

TELEGRAPH.—In Belgium, where every Post Office has its telegraph wire, a message of twenty words is sent to any part of the kingdom for ten cents. In Switzerland, under the same system, both messages and money orders can be sent at very low rates, and people send more messages than letters.

The official table of the census of the Sandwich Islands for 1866, have been published. The population of all the islands is 62,959. In 1860 the population was 69,800. The tables show that the native population has decreased more than nine thousand in six years.

The freight charged by steamers from St. Louis to Fort Benton is said to be 12 cents per pound. Insurance is 6 1/2 cents on freight shipped by side wheel, and eight cents on that shipped by stern wheel boats. The fare to Fort Benton for passengers is \$300.

A Connecticut Democratic paper, the Norwich Advertiser, pronounces the result of the election in that State "the most encouraging sign we have seen since the surrender of Lee." That is candid, certainly. Votes could not say more.

The steamer Isabel returned from Burrard Inlet and Nanaimo yesterday morning, having in tow the ship Cesarwitch, bound for Sitka with coal, for which country she will sail in a day or two.—*[Victoria Colonist.]*

Civilization is progressing in Russia. Through the connivance of some of its officers the Government was recently swindled out of some millions of money.

The bark Princess Royal left this morning, in tow of the Otter, for Burrard's Inlet, to take in 400,000 feet of lumber for Valparaiso.—*[Victoria News.]*

EXPORT OF COAL.—The exports of coal from Nasaimo during the past month were 2,531 tons, of which amount 1,061 were for San Francisco.—*[Victoria Colonist.]*

The mileage of the new member of Congress from Russian America will be about \$22,000 per annum. The position is worth trying for.

The steamer Active will leave San Francisco in future on Thursdays instead of Saturdays.

JOSIAH SETTLE,
DEALER IN
MEN'S CLOTHING,
Consisting in part of
COATS, PANTS, VESTS, FINE
WOOLEN SHIRTS, UNDER-
SHIRTS, DRAWERS,
OVERALLS,
&c., &c.,

EXCELSIOR! EXCELSIOR!!
CHASTELLAR'S
HAIR EXTERMINATOR!!
For Removing Superfluous Hair.
To the ladies especially, this invaluable depilatory recommends itself as being an almost indispensable article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally, and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price 75 cents per package, sent postpaid, to any address, on receipt of an order, by
BERGER, SHUTTS & Co., Chemists,

HARDWARE & POCKET CUTLERY,
together with divers and sundry other things
too numerous to mention.

MEXICO.
The Emperor Maximilian and the Empress Carlota have been taken prisoner by those who have so bravely stood up and fought for the Republic of Mexico, for the last time. The Mexican people are not the last people in the world according to the notions of an American used to the protection of our laws and to the steady, calm and sterling integrity of our public officers and people; and it may be that the Emperor would have enacted and faithfully enforced a code of laws that would have appeared, in the eyes of the civilized world, better, and that would have afforded better and surer protection to life and property than, judging by the past, can be expected from the people governing themselves as a Republic. But that which would suit and perhaps the greatest part of the civilized world, might not accord with the notions of the Mexican people, who alone ought to be consulted in the matter. They are to be governed by the laws that they enact and they alone are to be affected by the manner of their enforcement, and therefore when anybody undertakes to interfere with them, he meddles with what is none of his business. As the people of these United States are supreme, so ought the people of Mexico to be supreme, within the boundaries of their own country, of course; and as we would fight until the hottest place, in fact or in fable, freezes over, before we would submit to the establishing of any government, be it ever so good, over us against our will, so let us rejoice that that same unconquerable spirit is found in at least one of our sister Republics. The result is an illustration of one fact, that when a people have thrown off a monarchial form of government and begun fairly to govern themselves, it is next to impossible to bring them back to the sway of a monarch. The idea of self-government in one respect at least, very much resembles poker. When one gets "stuck after it," it occupies his entire attention and engages his whole soul to the exclusion of every thing else, and as it is next to impossible to win a man from poker, so it is next to impossible to eradicate the idea of self-government from the minds of a people after it has once taken root and begun to flourish. What will now happen to the Mexican people, is difficult to foretell. Possibly they may return to their old habit of quarreling, wrangling and fighting among themselves. Let 'em quarrel, wrangle and fight. What business is it of Louis Napoleon's, so long as they don't interfere with him and his subjects at home; and if Frenchmen can't stand the condition of affairs in Mexico, let them emigrate to some place where they can. As we Americans insisted on nobody's meddling with us in the progress of the republicanism (to use a Nealyan expression), that has distracted our own country for the last six years, so let us recognize the right of the Mexicans to insist that nobody shall interfere in the settlement of any unpleasantness that may arise among them.

CHANGE IN THE TELEGRAPH COMPANY.—The "California State Telegraph Company" has ceased to transact business with the public. The San Francisco Morning Call says it closed its public career with the close of the month of May, and the lines, with the beginning of June, passed into the hands of "The Western Union Telegraph Company, Pacific Division," and hereafter the telegraphic business will be conducted by that company. The State Telegraph Company has long had the control of the telegraphing of California, and was always found reliable, and therefore made a great many friends who will regret to learn that the old organization has passed into other hands; but from the character of those who assume the management of the new company, we feel justified in saying that the change will be for the public good, for under the new regime increased facilities will be offered to the public. G. H. Mumford will be Managing Agent, and James Gamble, General Superintendent of the Western Union Telegraph Company in San Francisco.

BATTLES.—The Vancouver Register says: There are liberals on humanity in this community, facetiously called men, who make a practice of setting apart a couple of hours each day for the corporeal correction of their families—commencing with their wives and concluding with the youngest child. As the law does not take cognizance of this species of offence, we shall have to take the law in our own hands and hold them up to the scorn of an outraged community.

GOOD TEMPLAR'S DRINK.—Mr. S. F. Coombs, of Port Madison will please accept our thanks for a bottle of beer. This beer is a new invention, for which Mr. C. is agent for this coast. It is wholesome, a Good Templar can drink it without fear of becoming inebriated, and, besides, it isn't had to take. See advertisement in another column.

SEVERAL ACCIDENTS.—William McKenzie, who's engaged in hoisting stone from the scow Gen. Harney onto Atkins & Shouley's wharf on Tuesday last, met with a very serious accident. His foot slipped and he was precipitated onto the deck of the scow, breaking his arm at the elbow. The arm has been set by Dr. Maynard, and he is doing very well.

Flanders is elected without dissent.

DOWN-SOUND ITEMS.

The following from the Messenger:
The town of Seattle the past week has been a busy one. The sound of the hammer, the rattle of the pickaxe and the personal business of our citizens to mind the flourishing times of '73. We have had through the "hard times" and are commencing again on a more prosperous and permanent growth.

The pilot-boat Avon has arrived on Wednesday evening, and on Thursday commenced driving piles for the new wharf at the foot of Taylor street. She will probably be employed a month on the work.

The ship Rover, Capt. McIntyre, arrived at Port Discovery on the 6th inst. in ten days from San Francisco. The Captain reports light north-west winds throughout the voyage. The bark River, Capt. Blair, sailed on the 9th, with lumber, for San Francisco.

We understand that Capt. Coupe is buying a steamer built at Utsalady, to ply between this place and Whidby Island. She will be put on the route about the first of August.

J. W. Tripp and his brother-in-law, who have been undergoing a preliminary examination before Judge Darwin, have been committed for murder in the first degree. The Southern Chief will not sail for Australia, as reported elsewhere, it having been found necessary to send her to San Francisco, in order to meet the increasing demand for lumber in that city.

Arrived at Port Ludlow, June 5d., the ship Simoda, from Kanagawa, after a short passage of only 30 days from port to port.

The bark Almatia left our harbor on Saturday for Utsalady to load with lumber for San Francisco.

The Vilette passed up on Thursday bound for Utsalady.

VICTORIA ITEMS.

The following are from the Colonist:
The ship Siam, 13 days from San Francisco, arrived yesterday. She is bound for Melbourne, for which port she will load with lumber at Capt. Stamp's mills, Burrard Inlet.

The bark Australind, Captain Barrack, 16 days from San Francisco arrived yesterday. She is bound for Nanaimo to load with coal for San Francisco, and has a small freight for Nanaimo.

Captain Simons, of the fine British ship Ennie Nicholas came ashore yesterday. The ship is consigned to Sprout & Co., and will load with lumber at Port Ludlow, W. T., for London. Ennie Nicholas is 1100 tons N. N. Measurement, and would carry 2600 tons of coal.

The following are from the News:
The New World brought over from the Sound, yesterday, fifty boxes of bread and several tons of flour, manufactured at Seattle. How strangely "the blight" seems to be affecting that country. How soon will they commence to send us our potatoes and fish.

FOR EXPORT.—For the information of our readers we would state that Senator Washburne has left the City of Washington, District of Columbia, United States of America, on a mission concerning the affairs of British Columbia.

PORT MADISON ITEMS.

The steamer Resolute, Capt. Guindon, towed out from Port Madison, on the 11th inst., the ship Coquimbo and the barque Gold Hunter, bound for San Francisco with cargoes of lumber.

The following vessels are now loading with lumber at Port Madison: Barque Legal Tender, barque D. M. Hall, brig Deacon and ship Mary Glover.

The barque D. M. Hall, which arrived at Port Madison a few days ago, brought 35 tons of freight for the firm of Hinds, Stone & Co., of this city. The Resolute brought over the freight to this place on Wednesday last.

CLARK COUNTY.—The Vancouver Register publishes the following list of the largest tax-payers, total assessed value of property, number of assessed voters, and the male and female population of Clark county:
Crawford, Sloan & Co., \$25,800; Capt. James Turnbull, \$18,165; Lewis Love \$12,984; Richard Stogert, 13,630; Airt & Stogert, \$1,392; James Crawford, \$4,630; Columbia Lancaster \$5,326; W. H. Hill \$7,190; Nicholas Schofield, \$6,380; Michael Wintler, \$8,200; Jones & Turnbull \$5,000; John F. Smith, \$7,783; Sumner Barker, \$5,550; Joseph Brandt, \$6,089; Dargan & Co., \$2,780; Joseph Petran, \$10,192; Joseph Wise, \$4,634; S. R. Whipple, \$5,134; D. R. Fales, \$5,832; Patrick Haley, \$3,700; Patrick Keegan, \$3,410; Patrick O'Keane, \$3,100; David Brown, \$5,845; L. Frederick, \$9,883; James H. Campbell, \$4,296.

Male population, 1,150; Female population, 955; total population, 2,105.
Total value of property assessed, \$600,918. Number of voters assessed, 630.

The steamer New World on her last trip to Victoria was obliged to put into Belingham Bay on Monday night, the sea being too rough for her cargo. She had 500 sheep on board, and the exposure to the sea was too great for them.

The ship Montrossy—This vessel, and her cargo, will be sold at Victoria the day following the arrival of the next mail steamer from San Francisco, which is expected about the 28th inst.

Our thanks are due Capt. Finch, of the steamer E. A. Anderson, for kind favors.

The steamer Active with 25 passengers sailed on Saturday for San Francisco.

STABBING AFFAIR.

On Monday last at Port Blakely, one James Berry and a man called Pete Hand (whose real name we suppress for the reason that we are unable to find out what it is) got into an altercation over a little game of draw. The facts, as we have heard them, are as follows: Hand, after the affair had proceeded a while, stabbed at Berry several times, cutting his clothes in several places but not doing any serious damage. At length, when Berry got him down and was proceeding to thrash him pretty thoroughly, he stabbed Berry in the calf of the leg inflicting a rather ugly but not dangerous wound. Berry afterwards got at him with bricks and knocked him down and bruised him a good deal; according to one version of the story, breaking his arm. The affair commenced, we understand, by Hand's interfering in the game in which Berry and some others were engaged. It is not just to state that we are informed that this is chiefly Berry's own version of the affair.

Our thanks are due to Mr. Nat. Crosby, the obliging Parser of the steamer New World, for many kind favors rendered this office.

Notice.

The undersigned have decided to adopt the cash system of doing business, by which means they will be able to sell goods at a much less profit than when sold on credit, which system always necessitates higher prices as a guarantee against bad debts and dead capital.

In consequence of the above, we have marked our large stock of New Goods at much lower rates than has formerly been the custom.
HINDS, STONE & CO.
Seattle, June 10th, 1907. 4-10-12 1m

Flanders will be Elected To-day.

And I have a wagon and team for sale on reason able terms for a cash real estate, or cattle. Also several town lots for sale.
D. T. DANNY.
Seattle, June 3rd 1907.

Special Notices.

Know Thy Destiny.
MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant, and Psychometrist, who has astonished the scientific classes of the Old World has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomètre, guarantees to produce a lifelike picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications strictly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y. 4-10-12 1m

A Young Lady returning to her country home, after a sojourn of a few months in the City, was highly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft, ruddy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the Circassian Balm, and considered it an invaluable acquisition to any lady's toilet. By its use any lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all the impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order.

HINDS, STONE & CO.

The Celebrated
SELF-GENERATING
Portable Gas Lamp.

This extraordinary Lamp produces its own gas by the vaporization of Petroleum Naphtha, or Benzine. It emits neither smoke nor smell, and burns with a pure white flame, equal in intensity to an ordinary gas burner, and at an expense of from one to three cents per hour only, according to the quantity of light required. It is peculiarly adapted for mining purposes, also for stores, factories, billiard rooms, and is best for all purposes where regular gas is not available, and for which it is an admirable substitute. As an out-door light it stands unrivaled, burning with undiminished brilliancy in a strong wind.

DIRECTIONS FOR USE.
Charge the reservoir with the prepared fluid, or with Benzine, from half to three-fourths full; allow a portion to run through into the cup, then turn off the tap, and ignite the fluid which will heat the burner sufficiently to generate the gas, which will be seen issuing from the top. The tap must now be turned on, and a steady light will be maintained till the whole of the contents of the reservoir is consumed. A small needle fixed at the point and fixed in a holder, may be occasionally required to clear the minute hole through which the gas issues, and the regulating screw at the bottom, turned a little back—but care must be taken not to force the screw too high, and it should never be used to extinguish the light—by turning the tap off, it will gradually go out.

When necessary to renew the cotton which is placed in the lower pipe to prevent the too rapid flow of the fluid, the Lamp should be placed in a vice and the burner screwed off. The burnt cotton must then be entirely withdrawn, and a fresh piece of stout cotton rag, one inch wide and four or five inches long, should be doubled over a piece of wire, and inserted into the pipe—the ends cut short off, the burner again screwed on with a little white lead, and the Lamp is ready for use.

J. R. WILLIAMSON,
Seattle, May 10th, 1907. 12-1m

ARRIVED SAFELY.—Some six weeks ago, a sloop commanded by Mr. C. R. Burrage, and containing \$10,000 in gold for the payment of the employees of the Collins' Telegraph Company who are still up the N. W. Coast, left this port, and yesterday the Superintendent of the line received a telegram from Fort Steger—the northwest station of the telegraph line, some 150 miles above New Westminster—announcing the safe arrival at Naas River, on May 11, of the sloop and treasure. The despatch was carried across the Coast Range by an Indian messenger to Fort Steger. The sloop will visit S'kin and recall Elwyn and party before returning to Victoria.—[Victoria Colonist.]

When Mohammed, exposed to the wrath of his enemies, fled from Mecca, in company with Abubekr, they took refuge in a cave of Thaur, where the two fugitives concealed themselves for three days. His pursuers, coming to the mouth of the cave, found that a spider had woven a web across the entrance, from which circumstance they judged that no one could have recently entered it. Accordingly they retired without examining the interior and the Prophet and his companion escaped. But for that spider's web, Mohammed would have lost his life, and his career would have been only dimly written on the page of history.

We find the following in a Cincinnati paper. "Mr. Editor, I observed in your issue of yesterday a card signed Cora S. McCoy, warning all persons from trusting me on his account, as I had left his bed and board without just cause or provocation. I therefore take this method of informing the public that he never had a bed, the board has always been furnished by myself, and as to anybody trusting me on his account, I know of no one who would trust himself. His credit has always been below par, so much so that he could not get treated for his own shirting, and now wears none of my under-clothing on his back, slightly altered. GEORGINA MCCOY."

There was a man born and raised in Henry county, Ky., (says an exchange,) connected with whose history is remarkable circumstances. He was married on the 24th of February, his birthday, and on every two years thereafter, on the 24th of February, he was blessed with a letter, until three children were born to him. Strange to tell on the next 24th of February his wife died. On February 24th, 1866, the gentleman married. What occurred to him on the 24th of last February we have not heard.

A PLEASANT SUGGESTION.—A lover who was slighted by the females, very modestly asked a young lady if she would let him spend the evening with her.

"No," she angrily replied, "that's what I won't do."

"Why," replied he, "you needn't be so feisty; I didn't mean this evening, but some steamy one when I can't go anywhere else."

A cheap advertiser in Boston for board to be paid for in first class dentistry. He wants to insert his own teeth and sell out the teeth of somebody else.

A new style of bonnet has made its appearance in Paris. It is a twist string with a diamond set in the top.

Forty-two steamboats are advertised to leave St. Louis for Fort Benton, the head of navigation on the Missouri.

The salary of our new member to Congress from Kansas, America, will be about \$13,000.

There are about 500 female telegraph operators now employed in this country.

There are 5,000 starving people in Cherokee county, Alabama.

Reparator Capill.
Thruout your face frames, your switches, your wire.
Destructive of comb, and not worth a far.
Come and see our new outfit, on page 47 and fair.
And join in your own luxurious hair.

REPARATOR CAPILL.
For restoring hair upon bald heads (from whatever cause it may have fallen out) and causing a growth upon the face, it has no equal. It will grow the hair in from open the smooth skin in from six to eight weeks, or hair upon bald heads in from two to three months. A few prominent practitioners have asserted that there is something that will form or hasten the growth of the hair or beard. Their assertions are false, as a woman is offering witness (from the experience of her own hair) that she has seen many will say, how are you to distinguish the comb from the superior? It certainly is difficult to distinguish the different Preparations of the hair, but the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Repurator Capill. It will cost you nothing unless it fully restores your hair and beard. If your Dealer does not keep it send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given.

REMOVAL, CONNOISSEUR'S RETREAT,
SEATTLE, W. T.
The public are hereby notified that the above establishment has been removed to one door south of the Queen Saloon, where it will be conducted as a FIRST CLASS RESTAURANT.
We hold an open house for past and present patrons, and will spare no efforts to merit a continuance of patronage.
Seattle, May 27th, 1867.

S.T-1860-X.

A great many side hits are being made at the Plantation Bitters, by a score of two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify strength and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic, and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The Recipe and full Circular are enclosed each bottle. Observe, Merchants, and persons whose sedentary habits incur weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.
They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel plate side label.
Beware of red-inked bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

P. H. DRAKE & CO.
11 Parks Row, N. Y.

Barnes' Magnolia Water.
A toilet delight! The ladies' treasure and gentlemen's boon! The "sweetest thing" and largest quantity. Manufactured from the finest Southern Magnolia. Used for bathing the face and person, to render the skin soft and fresh, to prevent eruptions, to perfume clothing, &c.
It removes the unpleasant odor of perspiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens and adds elasticity to the skin.
It yields a subdued and lasting perfume.
It kills a mosquito bites and stings of insects.
It restores no material injury to the skin.
It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.
DEMAS BARNES & Co.,
Proprietors, Agents, N. Y.
Sold by all Druggists and Dealers everywhere.

MUSTANG LINIMENT.
OVER A MILLION DOLLARS SAVED.
Gentlemen:—I had a negro man worth \$1,200 who took cold from a bad hurt in the leg, and was useless for a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING,
Montgomery, Ala., June 17, 1867.

"I take pleasure in recommending the Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scalds or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."
J. W. HEWITT,
Farmington American, Wells, Fargo's and Harding's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment."
ED. REELEY,
Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, literary men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in newspaper envelopes, bearing U. S. Stamp of Demas Barnes & Co. over the top.
An effort has been made to counterfeit it with a cheap stone-plate label. Look quickly.

Lyon's Katharion.
It is the most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out.
It restores hair upon prematurely bald heads.
This is what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is readily sold by the merchant, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder.
DEATH TO FLEAS.—It is well known that Lyon's Flea Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly harmless to the insect tribe, but entirely harmless to the human species and domestic animals.—The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit.—Any druggist will procure the genuine if you insist you will have no other.
Oct. 8, 1866-229-17.

Lyon's Extract Ginger.
LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold every where at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.
CAUTION.—See that the private U. S. Stamp of Demas Barnes & Co. is over the cork of each bottle. None other is genuine.

ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST, MADAME H. A. PERRIGO.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, \$1. Parties living at a distance can consult Madame Perrigo by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month, and year in which you were born, enclosing a small lock of hair.
Address, MADAME H. A. PERRIGO,
7-177 P. O. DRAWER 298, BUFFALO, N. Y.

Seattle, Apr. 5, 1867. solf

There cometh glad tidings of joy to all,
To young and to old, to great and to small;
The beauty that once was so precious and rare,
Is free for all, and all may be fair.
By the use of

CHASTELLAR'S WHITE LIQUID ENAMEL,

For Improving and Beautifying the Complexion.
The most valuable and perfect preparation in use, for giving the skin a beautiful pearl-like tint, that is only found in youth. It quickly removes Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin, kindly healing the same leaving the skin white and clear as alabaster. Its use can not be detected by the closest scrutiny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the French, and is considered by the Parisians as indispensable to a perfect skin. Upwards of 30,000 bottles were sold during the past year, a sufficient guarantee of the efficacy. Price only 75 cents. Sent by mail, post-paid, on receipt of an order, by
BERGER, SHUTTS & Co., Chemists,

MEDICAL INSTITUTE!

ESTABLISHED BY
DR. J. C. YOUNG IN 1850.
536 Washington Street,
Below Montgomery,
San Francisco, California.
Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at this Institute. All classes of complaints are treated; but I consider it my duty to mention those of a social nature, as upon such the unfeeling and irresponsible quack dwells, with phrasen well calculated to deceive the ignorant of the eminence of his profession. First among the special complaints is

Seminal Weakness.

I am aware that by dwelling upon so unenviable a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time of its treatment can tell; but its presence can be detected by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, &c.
Young men, if you experience any of the various symptoms above named, pause and consider. This is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice self-abuse even in the slightest degree, you have the seeds of the weakness in your system, their undermining influence upon the brain, dash the fair edifice of your strength to the ground, leaving you a helpless, aching being. It is not a disease that declares itself at once. There is its great danger; for while the patient is being treated for some supposed affection of the heart, lungs, brain or digestive functions, he falls into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness. See in the bent form and languishing steps, the poor victims of this fascinating vice! Mark the course of the complaint: the hollow cheeks and dull eyes! Drowsiness is one of the peremptory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery, in a single instance it may wither your fond hopes and blast your best aspiration. Marriage is sought by a natural impulse as a hope of relief. This is an error, the first mistake for the system, unprepared for the exertions of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid and degenerate.

The Records

of our institutions for the safety of those who are afflicted with this terrible, but fearful testimony of the wide spread and disastrous influence of this dreadful complaint—but such notice as the following that hardly at the time arrest the eye, give to the world the only intelligence it has:

Inanity.
Sent to the Insane Asylum.—The following are persons were examined yesterday by Judge Baker of the probate court, and sent to the Insane Asylum at Stockton: T. W. Plummer, native of Maine, aged 21 years, single, and by occupation a farmer. His malady appeared the first of the year, and is the result of self-abuse. John W. Hall, another victim of solitary habits.—San Francisco Call, Oct. 12, 1865.
Yet the quotation speaks for itself in unmistakable language. It points out with unerring fidelity to every person afflicted with Seminal Weakness, the use of the medicine that dangerous complaint. At any time before reason became unseated, these poor victims had they read the warning and followed its advice, might have been saved. Let others similarly afflicted, who have not yet reached the happy state of some, be warned by their sufferings, by their untimely fate, and seek that relief which alone can secure them life and happiness. Consult then, at once, a physician whom long practice and research has made thoroughly conversant with every disease, one who will sympathize with your sufferings, giving to each all the assurance of a perfect and permanent cure, without hindrance from business, a change of diet, or fear of exposure, or ask compensation for their trouble, and in whose secrecy the utmost confidence can be reposed.

An unsolicited Testimonial of Cure.

Let all who are afflicted with Seminal Weakness read the words to certificate first published without the Doctor's knowledge. A remarkable case.
(Review stamp.) This is in certly that I was afflicted with Seminal Weakness, and the degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I first had nervous trembling of the limbs, pains in my back, and troubles in my head, and a loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the fits came on. At first I only had a momentary loss of mind, a dizziness. This grew worse until in a short time, I would become insensible, and state for some time after I had them in my sleep. I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now came as frequent as twice or three times a day, seizing me without warning and preventing me to the use of state for some time after I had them in my sleep. I lost recollection of persons and things I could remember nothing for two minutes, but my great suffering. I swallowed bottle after bottle, and box after box of patent medicines. Nothing did me good. In my fits I was being well, I prayed for death; but I was used for help was at hand. My friends visited me at the Medical Institute, and I was placed under the care of Dr. Benj. F. Josselyn. I very soon experienced a change; I grew better and better, and I could go to work. My mind became clear, the fits grew lighter; I was soon perfectly free from them, and now, for over two months I have not experienced them at all. All the symptoms of seminal weakness are gone, and I fell as well as I ever did. It is to Dr. Benj. F. Josselyn that under God, I owe my life; and from the gratitude I owe him, I give this, my testimony of his skill and success. If this should induce any one unfortunately afflicted with seminal weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe him.
[Review stamp] Subscribed and sworn to before me this 1st day of December 1865.
[Notarial seal] W. O. ANDREWS, Notary Public.

Important to Persons

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poisons. None are more terrible in their effects, or more dangerous in their results. After upwards of twenty years' practice in diseases of a private nature, I firmly declare that Mercury will not cure Venereal, but dries it on the surface, to allow it to poison the blood, to re-appear in hideous marks upon the body, in the shape of sores and nodes. Those who have had any form of Venereal, and were treated with mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues, to be communicated to the wife or transmitted to the children. As terrible as is the person who contracts it, it becomes of still greater importance if transmitted to innocent offspring, whose sore heads, cankered mouths, diseased limbs, running eyes and blotched skin are the constant reminders to the sins of the parent. Be warned, then, and secure health by applying at the Dr. J. C. Young Institute. The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without subjecting the patient to such treatment as will cause upon him the greatest suspicion, or oblige him to neglect his business, whether in secret or without. The diet need

not be changed. Cure always guaranteed or no pay required. Only purely vegetable remedies used.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics, and Female Diseases for 20 years, and is fully competent to administer in all cases, both medically and surgically, both in and through a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore, families can rely upon him as upon a father. All in affliction find in him one who can feel and sympathize with and befriend them in trouble—one whose secrecy the strictest would not be placed. Consultation, by letter or otherwise, free. See address below. The celebrated female remedies compounded from the private prescriptions of Dr. Young, have now obtained a most extensive popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimony of efficacy declare them to be pre-eminently superior in their action. No lady should be without these renovating agents. None genuine unless prepared at this office. Sent by mail or express to any part of the State. The great Female Medicine—Preventive Powders for married ladies. New, safe and infallible, lasting from four to six months. Price \$10. French Lunar or Female Monthly Pills, for suppressions. After fifty years of use these pills stand unrivalled in efficacy. Price \$5 per box.

To Correspondents:
Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say the plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for him so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the plain statement of the symptoms only by the Doctor, and will be treated with the utmost confidence, and either returned or destroyed, at the patient's option. Address thus—
