**GENERAL MERCHANDISE,**

Commercial Street,

SEATTLE, W. T.

### GOOD NIGHT.

BY REV. G. T. FLANDERS.

Good night, my love, the tear-drop starts,  
But I must leave thee now,  
The light of stars is fading fast  
Upon Night's jewelled brow;  
The moon has touched the distant hill,  
The east's aglow with light,  
I fold thee to my heart again,  
Good night, my love, good night.

Good night, my love, may angels watch,  
Above thy peaceful sleep,  
And happy dreams within thy soul  
Their sweetest vigils keep,  
And when the day shall come again,  
To wake thee with its light,  
Then think of me, then think of me;  
My love, my love, good night.

Good night, my love, I turn again  
To mingle with the throng,  
But, in my inmost heart of hearts,  
I'll wear thee true and long;  
And whoso'er stern fate shall lead,  
My love shall know no blight,  
I'll think of thee, will cherish thee;  
My love, my love, good night.

### THE STILL, SMALL VOICE.

A still, small voice is whispering  
In accents soft and mild,  
It comes upon the zephyr's wing  
That fans the forest wild.  
It comes upon the evening breeze  
Its plaintive tones I hear;  
Low murmuring in the waving trees  
It whispers, "God is near."

It comes not in the whirlwind's roar,  
Nor in the ocean gale,  
When angry billows lash the shore  
And loud the tempests wail,  
But when night's silvery shades around  
The slumbering waters brood  
There comes a soft and solemn sound,  
It whispers, "God is good."

It comes not in the thunder tones,  
When fiery lightnings glow;  
When fierce convulsive nature groans  
The requiem of her woe;  
But gently when the moon's pale light  
Comes streaming from above,  
Sweet as the hum of angel's flight,  
It whispers, "God is love."

A steamer at New York was advertised to receive freight on a recent Friday for Mobile. By daylight on Friday, there was a line of drays and wagons that extended more than half a mile from the dock where the steamer lay. Some of these drays did not reach the steamer until the middle of Saturday afternoon. During the night most of the draymen moved their animals, leaving the vehicles and their loads in the care of watchmen. The steamer was compelled to make an end of receiving long before all the freight on the drays was delivered, and departed on Sunday morning, carrying all the cargo she could get on board.

**LABOUR.**—The more we accomplish the more we have to accomplish. All things are full of labour, and therefore, the more we acquire, the more we care, and the more we toil to secure our acquisition. Good men can never retire from their works of benevolence. Their fortune is never made. I have never heard of an apostle, prophet, or public benefactor retiring from their respective fields of labour. Moses and Paul and Peter died with their harness on. So did Luther and Calvin and Wesley, and a thousand others.

Baron Rothschild once complained to Lord Brougham of the hardship of not being allowed to take his seat in Parliament. "You know," said he, "I was the choice of the people." To which the ex-Chancellor, with his usual causticity, replied, "So was Barabbas."

The daughter of one of our well known citizens said to her father one evening this week, that if he would give her a cent on the following morning, and double it every day during the month, she would not ask him for any more for a year. He not giving it a thought, replied that he would be glad to do so. She computed the amount, and he found that it would amount to \$398,707.52—an item rather more than his income would allow. His commendation of his daughter's shrewdness and a new dress, were a sufficient apology.

**RHEUMATISM.**—A cotemporary relates that a man afflicted with rheumatism for the past five years, has been thoroughly cured by the use of coal oil. We can add our testimony, says the *Stockton Independent*, to the efficacy of this remedy. "A gentleman of our acquaintance, afflicted with inflammatory rheumatism, made an application of coal oil with a bandage to the part affected, and was cured in the course of a few days."

Over 100,000 widows, bereaved by the late war, have made application to the Government for pensions.

### DETAILS OF EASTERN NEWS.

Dates to Feb. 8th.

Concord, Feb. 8.—The Democratic State Convention to-day was the largest held for many years. J. B. Sinclair of Bethlehem, was nominated for Governor, and G. H. Price of Dover, for Railroad Commissioner. The resolutions adopted endorsed the President in his endeavors to have the Southern States represented and is discountenance of any amendment to the Constitution.

New York, Feb. 8.—A woman named Luna Abraham was arrested on Monday, on Houston street, by a Government detective, who found in her sash the steel plate from which it is alleged over \$14,000 of 25 cent fractional currency had been printed.

New York, Feb. 8.—Proceedings were commenced yesterday in civil courts for several more victims of the Mercer emigration fraud. The complainants allege that Mercer reported to them that he had been appointed by the Territorial Government of Washington Territory to collect female emigrants, and had \$20,000 in gold to be distributed among them for a handsome settlement. On these representations they purchased their tickets which they now hold.

Washington, Feb. 7.—The Pacific Railroad Commissioners have adopted the following plan, reported by the engineers.—While the law makes the grade and levels adopted on the Baltimore & Ohio railroad the standard, this is only to be considered the limit in the mountain district; introducing grades 16 feet per mile or curves as sharp as 40 feet radius on the other part of the road would manifestly violate the special intent of the order. The grade should be settled upon principles of true economy and their adoption based on careful, scientific, and practical investigation, having due regard to the cost of construction and the future working of the road.—It is safe to say that in an advance on the Platte and Kansas valley, and on similar smooth valleys or level plains, no grade should exceed 40 feet per mile, and on all parts of the main line or branches the embankments should not be less than 24 feet wide.

The owners of the steamships Rising Star, Guiding Star, etc., now used on the New Orleans line, are forming a company at New York, headed by Wm. H. Aspinwall, to run a line of opposition steamers to San Francisco by the 20th. It is reported that the new line is not intended to be permanent but to make a break in the P. M. stock so that operators may buy in.

Washington, Feb. 5.—The following nominations were confirmed by the Senate: S. Garfield of Washington Territory, Surveyor General for said Territory; John Wilson of Peoria, Illinois, Consul at Antwerp; Nathaniel Spear of Indiana, District Attorney, Florida; Fitz Henry Warren of Iowa, Minister resident at Guatemala.

The Government Directors and the commissioners and engineers of the Pacific Railroad who have been for some days in session have adjourned to-day. They adopted a standard for the construction of a road, and to facilitate the steady progress of the work. Reports from the West were received giving assurance that the utmost energy is being used to forward the enterprise.

Washington, Feb. 5.—The State Department is informed by our consul at Honolulu of the arrival of 600 sealions of American whalers captured by the Shenandoah, en route for home.

New York, Feb. 4.—The Herald's Fortress Monroe correspondent says Jeff Davis's imprisonment and the public execration of his crimes, have made him irritable and soured his temper. His attention is now chiefly given to faultfinding and reading the bible.

The recent disasters on the western rivers have been attributed to the use of tubular boilers and underwriters have decided to take up more risks on such steamboats.

Vicksburg, Feb. 3.—The steamer W. Carter exploded her boiler at three o'clock this morning at Island No. 98. The steamer Evening Star brought many of the saved here.

Cincinnati, Feb. 4.—An investigation into the cause of the explosion of the Miami, held at Memphis yesterday, shows that the first and second engineers knew that the boilers were in bad order when the boat left port.

New Orleans, Feb. 3.—The steamer Baltic, lying at the foot of Custom House street, blew up and sunk immediately.—There were only a few persons on board.—The Captain and Engineer were killed.—Two or three passengers on the levee were killed by splinters. Several steamers alongside were injured.

Washington, Feb. 8.—Chandler of Michigan, from the committee on commerce, reported the House bill to prevent the issue of registers to vessels whose owners carried foreign registers during the war.

In the House, Blair of Pennsylvania, introduced a bill, which was referred to the committee on reconstruction, providing for the taking of the census prior to the first of October next.

Briggs offered a resolution, which was adopted to consider the subject of removing the National Capital in order that its site

may be an accommodation to the population. The fact is published that in response to Gen. Grant's card of invitation, Gen. Butler addressed a very curt note of declination, stating he neither wished to hold personal intercourse with the Lieut. General nor any of his family.

New York, Feb. 3.—The Herald's Vera Cruz correspondent says about 30,000 stand of arms lately arrived from New York for the Imperial troops. They were condemned and returned. Thus far not an acre has been allotted to emigrants from the Southern States who were induced to come by the flattering order of Maury, and American families having expended their last cent are in a pitiable condition.

The Russian encroachment in Central Asia has latterly assumed a new phase. It is now conceded by the Anglo Indian press that the slow but sure advances made by the Russian Government in Central Asia are endangering the future safety of England's Indian Empire. The Bombay Gazette admits that England is utterly helpless to prevent Russia from proceeding in her career of conquest, at the same time bears testimony to the wonderful civilizing influence of Russia upon Asia.

New Orleans, Feb. 4.—On January 25, the military force in the department of Texas consisting of nineteen regiments of infantry, five regiments of cavalry, one company of pontooniers and three batteries.—The force in the department of Louisiana, of ten regiments of infantry and three of cavalry. The force in the department of Florida consisted of five regiments of infantry with two batteries.

Cincinnati, Feb. 3.—A private despatch received here this morning announced another terrible disaster. The steamer Libby R. Carter, from Louisville to New Orleans, exploded her boiler near Vicksburg yesterday. A large number of persons are reported killed. No other particulars.

Washington, Feb. 8.—Mr. Lane addressed the Senate at length in favor of the bill introduced by Rice, of Mass., disposing of public lands to actual settlers, regardless of race or color, in Ala., Miss., La., Ark., and Florida.

Mr. Doolittle presented the credentials of Hon. John Poole, Senator elect from North Carolina. It is generally understood that Mr. Poole always has been true to the Union and the Constitution. The credentials were ordered to lie on the table.

Mr. Lane moved that the Senators elect from Colorado, be admitted to the privileges of the floor, which was adopted.

Cairo, Feb. 8.—The steamer St. Nicholas struck a snag in the Tombigbee river on the 5th and sunk. She had 500 bales of cotton on board, part of which will probably be saved. It is expected that the steamer will prove a total loss. There was no loss of life.

New York, Feb. 8.—Miss Bateman, the actress, appeared in the Marine Court in a suit by Mr. Daly, for dramatic services.—The defence, was infancy, Miss Bateman being only 20 years old, which proved a bar to the proceedings.

The London Times' Paris correspondent says the Emperor has sent Mosel Bond on a special mission to Mexico with a message for Maximilian that he considers he has fulfilled his obligations, and that the time had arrived when Maximilian must depend upon his own resources without the help of the French army. It is reported that France has tendered its mediation between the Pope and Russia.

**NOT ASHAMED OF THEIR TRADES.**—The following was published in the Oregon Times September 30th, 1854: "Hon. W. W. Pepper, one of the Circuit Judges of Tennessee, was formerly a blacksmith, and for the fun of it," he lately made with his own hands an iron shovel which he presented to the Governor, Hon. Andrew Johnson. In return Governor Johnson, who was a tailor, cut and made with his own hands, a coat and presented it to the Judge. The correspondence which passed between these distinguished and worthy American mechanics is published in the Tennessee papers." Such men not only add lustre to their official positions, but set an example which Young America would do well to practically imitate.

The side-wheel steamer Del Norte, Capt. Fontleroy, arrived Feb. 7th, from Puget Sound, having been specially chartered by the creditors of Messrs. Amos Phinney & Co., of Port Ludlow Mills, who it is said have failed for \$300,000, to proceed to that port. The Del Norte visited this port for the purpose of coaling, and will leave for San Francisco direct to-morrow morning at 7 o'clock, carrying a mail, which will close this evening at 7 o'clock. She is a handsome vessel, the picture of order, well fitted up, and adapted to this coast. She cost her owner, Ben Holladay of San Francisco, some \$140,000.—*Colonist*.

Three stage horses were drowned in Canyon creek, the other side of Canyonville, during the late storm, while one of the stages was attempting to cross that stream.

It has been decided lately that a boy found on a man's door step may not necessarily be his step-son.

### MAXIMILIAN'S ATROCITIES.

The execution of the inhuman decree of Maximilian, condemning to death every Republican soldier of Mexico who may be taken prisoner in war, compels the Liberals to have recourse to that terrible measure, retaliation. Several of the most distinguished officers, and a large number of privates belonging to the Republican army have been cruelly hanged or shot under the order of the foreign despot who rules in Mexico. In self-defense and to protect the Mexican people from this inhuman slaughter the Liberal Government now commences decisive action. Three of Maximilian's officers have already been executed by General Cortinas, and it is announced that unless the brutal decree of the so-called Emperor is revoked, all officers and soldiers of his army who fall into the hands of the Liberals will be put to death. In view of the fact that this horrid butchery was commenced by the foreign intruder who has established himself in Mexico for the purpose of building up a despotic Government on the grave of popular liberty, the world cannot but justify the Liberals in their resolve to protect themselves even by the use of so fearful a weapon as retaliation.

Since the 15th of November last, every soldier of the Republic who has been captured by the subordinates of Maximilian, has suffered death. The order for the execution of prisoners is always carried into effect by the Imperialists within twenty-four hours after their capture. Any person who still adheres to Juarez, even in his sympathies, is liable to be shot by any lieutenant from Austria who desires to show Imperial zeal. In order to make the punishment more rigid, all are to suffer who assist the Liberals with money, or who give them "advice or information;" who sell them arms, horses or food; who hold any relations with them; who conceal them; who make reports calculated to disturb the peace, or who bear of their whereabouts and refuse to give information. As if to make this butchery as general and as frightful as possible, the sentence of death is in all cases to be executed by the officer who makes the arrest. Under this murderous system, none who are suspected and apprehended, can have the smallest chance for escape. Stimulated by the hope of gaining favor of the Emperor, his willing instruments will execute his bloody decree with an alacrity which is always manifested by those who think it a privilege to do the bidding of royalty.

This is not war—it is murder. Had Juarez, the legitimately elected President of Mexico, been the first to issue such an order, he would have incurred the reproaches of the civilized world. Here is a people who are fighting against foreign aggression for their homes, for their country, for self-government. The intruder and usurper, not satisfied merely with the bloody work of war, tries to exterminate a people whose only offence is their attachment to their country and their hatred of foreign oppression. Against the unjust war which Maximilian is waging on an inoffensive people, the world ought to protest. To prevent its continuance the United States should interfere. Against the assassination of prisoners of war by the mercenaries of a foreign despot, something more emphatic than a verbal protest is needed—something more is wanted than mere talk of interposition.

Maximilian went to Mexico promising peace to the country and freedom to the people. The civilization he promised to introduce consists of penance, and the liberty he boasted of so grandly is a military despotism. The disorders of the country, great as they were before he reached it, have since been immeasurably aggravated. There will be no peace for that unhappy country until this interloping Archduke with his mercenary troops, shall have been driven from it. Such outrages as are there perpetrated under the sanction of usurped authority, are quite sufficient to startle humanity, and might well afford the world a reason for declaring that such practices must cease.—*Oregonian*.

**LARGE STEAMER.**—The Alta's New York correspondent says that the largest wooden steamer in the world is now building at the yard of Henry Steers, at Greenpoint, for the Pacific Mail Steamship Company. She is 5,000 tons burden, 360 feet in length 50 feet in breadth, with 31 feet and 6 inches depth of hold, and will cost over \$1,000,000. It is generally supposed she is one of the vessels intended for use on the route from San Francisco to China. The new steamer building by Lawrence & Foulke for Ben. Holladay's line between San Francisco and Portland, Oregon, is 3,500 tons burden, 280 feet in length, 42 feet in breadth, and 21 feet in depth. Her engines are in process of construction at the Allaire Works. She will cost about \$500,000. Speaking of steamers, the Navy Department has, it is said, concluded to accept the Algonquin, which is now fitting out at the Brooklyn Navy Yard for a sea race with the Winsoski.

Mr. Galt, the Canadian Minister, who has been in Washington canvassing the prospect for a renewal of the reciprocity treaty, is reported to have given his colleagues to understand that they must look out for some other countries for trade than the United States.

L. P. FISHER, is the authorized agent for the GAZETTE at San Francisco, California.

M. W. WATT, is agent for the GAZETTE at Victoria, V. I.

TO OUR PATRONS.—As the time of our lease upon this office will expire on Monday, March 5th, 1866, we would respectfully call upon subscribers and others, in arrears, to come forward and settle their bills, as it is necessary for us to square our books before turning over the office. We trust all, who are indebted to us, will act justly by the printer.

THE TWENTY-SECOND OF FEBRUARY.—Last Thursday was the birthday of him, who was "first in war, first in peace, and first in the hearts of his countrymen." The memory of the Father of his Country still lives in the hearts of the inhabitants of Seattle. In the morning the flags were run up and remained up during the day. At intervals during the afternoon the roar of cannon burst upon the ear, reverberating over hill and dale; and in the evening the Terpsichorean throng, gaily and festively wended their way to Yester's hall and proceeded to celebrate the day with music and dancing.

"SKEDADDLED."—It seems that the two individuals that were being provided for at the public expense in consideration of distinguished services in the way of breaking into other people's warehouses and "accumulating" their "portable property," have broke loose and made themselves suddenly scarce about Fort Steilacoom, where they had been placed for safe-keeping. If they never return, the public will not probably grieve, though the community that they go to, will, doubtless, wish they had been kept in custody.

MAJOR JOHN STRATMAN, News Agent, No. 506 Washington street, near corner of Sansone, San Francisco, Cal., has placed us under renewed obligations for a large package of late Eastern Newspapers, Periodicals, Magazines, etc., etc. Major Stratman is truly "irrespressible," and we hope he will meet with the success that his diligence and liberality entitle him to.

SERIOUS STABBING AFFAIR.—In attempting to separate Richard Fiander from another man with whom the former was having a fight at Steilacoom a few days since, the sheriff of Pierce county, Stephen Johnson, Esq., was stabbed in the neck, it is alleged, by Fiander. The wound is severe, though it is hoped not mortal.

CHANGES.—A change has recently been made of the Physician in charge of the hospital for the care of sick and disabled seamen at Port Angeles. Dr. Redfield has, at his own request, been relieved, and Dr. J. V. Calhoun appointed. The appointment is said, by those who know the last named gentleman, to be a very good one.

BIG BEAD.—The Victoria papers announce the departure of a large number of miners and others, from that city, for the Big Bead mining region. Reports from that region continue very encouraging, and those who depart thus early, hope to secure better claims than they otherwise would.

WE ARE HAPPY to announce the return of our fellow townsman, Mr. D. Horton, from San Francisco, where he has been for the purchase of a new stock of goods. He is now prepared to supply the wants of his customers with every thing in his line.

STREET GRADE.—The City Fathers have employed Mr. H. J. Stevenson, Civil Engineer, to establish a uniform grade for the streets of our little city. It is an improvement absolutely necessary, and will, we hope, abolish the present ups and downs in our sidewalks.

FATAL ACCIDENT.—A man named Albert Yeager, in the employment of Moore & Denmore, was instantly killed at Port Discovery on the 30th ult. He was cutting down a tree and was struck by a falling limb.

THE appointment of Mr. Garfield, of Port Townsend, to the office of Surveyor General of Washington Territory, has been confirmed by the Senate. On all sides the appointment renders entire satisfaction.

STABBED.—It is reported that J. J. H. Van Bokkelen was stabbed a few days ago. Some trouble arose between J. K. Kennedy and Van Bokkelen. The wound is not considered dangerous.

GOING TO WASHINGTON.—Secretary Evans started for Washington City on the 16th inst.

GOV. PICKENS has been re-appointed to the office of Governor of Washington Territory.

SEWING MACHINES.—Mr Conkelman, Agent for the sale of Grover & Baker's celebrated Sewing Machines, is now at the Occidental Hotel in this place and proposes remaining a short time for the sale of those excellent machines. He has none on hand at present but will receive per the Anderson, upon her next arrival from Victoria, a large supply of Grover & Baker's best and will then be prepared to supply all those wishing to purchase. Upon their arrival, they will be placed on exhibition at Mrs. Libby & Stock's Millinery Store where all are invited to call and see them.

QUARTZ ABOUT HELENA.

The Montana Post publishes a letter from Helena, of which the subjoined is an extract:

"Quartz on the brain" has reached a crisis. I have to reveal the discovery of the greatest lode yet discovered in the Territory. It was first discovered on "Nelson" gulch, by Messrs. Worden & Hall, who named it the "Cliff" lode. It has more the appearance of a mountain of quartz than a lode. There have been three extensions made west to "Colorado" gulch, while towards the east there have been no less than eighteen distinct discoveries made. Nine of these discoveries are owned and consolidated in one company called the "Cresus Mining Co." Two others are owned by the "Silver Mountain Mining Co." The western extensions are owned by Somerville & Co. The crevice of this lode is from twenty to two hundred feet wide. It rises, in many places, thirty feet above the surrounding surface, and can be easily traced for many miles at a single "coup d'oeil." It forms the grand dividing line between the slate and granite formations, and crosses all the gulches in this vicinity, none of which pay above where it crosses, and all pay well below. The lodes discovered on the south side seem all verging towards it, while it itself descends almost perpendicularly. There have already been six assays made of rock from it, ranging from \$28 to \$107 per ton. But such is the enormous amount of rock exposed that it has been estimated that a 60 stamp mill running night and day for two years, could not exhaust what quartz there is in sight on some single claims. The subject is certainly bewildering. It is in the hands of experienced quartz men who are not apt to get excited but who well understand its value. None wish to sell at any price. One mill will be at work on it within a month; another is on its way hither.

LEAD AS AN AMALGAMATOR.—William M. Fuller, of Chicago, has invented a machine for amalgamating gold by means of melted lead, instead of quicksilver. The machine is constructed so that the pulverized quartz is forced through the melted lead by atmospheric pressure, and by this means it is contended that the gold is extracted more completely than by any process of amalgamation with quicksilver. A trial of the machine was lately made at Chicago, and a committee appointed to examine its practical working, made a favorable report of the result, and claimed the invention as something wonderful. It is known that melted lead will form a complete alloy with gold, and being much cheaper than quicksilver, it is not improbable that the invention of Fuller's machine may prove an era in the history of quartz mining.

ON Monday last week, a man named Hart was accidentally shot by John Pine. There were a large number of men about Lynch & Malloy's store at the time, and the unhappy man, who thus carelessly took the life of a fellow creature, was showing his friends how quickly he could draw his revolver. To prevent accident they stepped behind him; but in pulling the pistol, previous to presenting, he turned the muzzle backwards over his shoulder, and, accidentally pulling the trigger, shot Hart through the temple. The man who fired the fatal shot, is best known as Andy O'Connell's bar keeper.—Montana Post, 30th Dec.

ACCIDENT.—As the steamer Rival was about leaving the bank at Oregon City on Thursday last, owing to a misunderstanding about the bells, she was run into a tree near by, and her flagstaff knocked off a number of branches, one of which in falling, struck Rufus Athey, a boy about 12 years old; on the head knocking him insensible and fracturing the skull badly. Medical assistance was immediately called and every effort made to save him, but the case was hopeless, and after lying in a state of unconsciousness until yesterday, he died.—Oregonian.

LAST week the weather opened so finely that many of the farmers in the valley commenced plowing preparatory to putting in their spring crops. The cold snap of the last day or two has put a quietus on all proceedings of this kind. The present cold weather, however, must necessarily be of short duration, and, with another issue, we expect to announce that the farmers are busily engaged in "breaking up" ground.—Walla Walla Statesman.

LAND SLIDES.—The heavy storms this winter have caused many land slides along the shores of the Sound. On both sides of the bay at this place, acres of ground and some of it covered with heavy timber, have been precipitated into the bay. The lands bordering on the bay owned by Messrs. Percival, Marsh, Tilley, Bigelow, Frost and Hale, have all suffered more or less damage.—Standard.

The leading business men of Boise Basin have determined in future to receive gold dust in the way of trade at \$14 per ounce. If the holder of the dust thinks it worth more than that, he can exchange it for coin. The object of the movement appears to be to get rid of the dust as a circulating medium.

A writer in the Idaho World says he has heard of only three persons who are not going to Montana in the spring.

The Montana Post of Dec. 30th says that tobacco is \$5 per pound in that market.

Nautical mourning.—S-a weeds.

Miscellaneous Items.

In accordance with views expressed in the Oregonian some time since, a number of business gentlemen of this city have associated themselves together, incorporated a home insurance company, with a capital stock of three hundred thousand dollars, and elected directors, as follows: L. M. Starr, A. Harker, H. F. Bloch, B. Goldsmith, D. W. Burnside, and M. S. Borrelli. The officers will be chosen by the Directors soon, and the company will immediately proceed with the business or which it was organized.—Oregonian.

Last evening, says the "Colonist" of the 13th, about half past six o'clock, as a gentleman was approaching Victoria on the Esquimalt road two shot in quick succession were fired, he believed at him, from the bushes just beyond the second bridge. He distinctly saw the flash of the first shot and drew up for a moment, when the second discharging immediately followed, the shot seeming to pass quite close to his face.

The body guard of the Esterhuzy family maintained in Vienna for more than two hundred years, has been disbanded. They formerly constituted a whole battalion, but in later years have been reduced to a company. The uniform was blue jacket, richly embroidered with gold, red pantaloons and a hair shako. At the moment of dissolution the guard was composed of 24 men, who have received retiring pensions.

Eight hundred France-Mexicans and two hundred French troops, with one hundred and twenty horses, arrived at Mazatlan during the second week in December last, as additions to the Imperial forces already in the Department of Sinaloa. The new troops are said to be well armed and disciplined, and are under the immediate command of General Carlos Rivas.

According to the quarterly statement, published in the Government Gazette, the imports into British Columbia for the quarter ending 24th Dec., amounted to \$286,236 36. Of the enumerated articles the principal items are flour \$42,721 34, dry goods, \$33,122 82, rice \$12,335 43, spirits \$12,315 64 and clothing \$11,970 38.

We learn from Capt. Spring, of San Juan harbor, that the large ship William Tell that went ashore six weeks ago three miles to the westward of San Juan harbor, has entirely broken up, and fragments of the wreck are floating about in all directions. The Indians are recovering all that they can.—British Colonist.

They were making a chief at the Songish village yesterday. A pleasant feature in the ceremony was the devouring of a live puppy dog by the applicant, who accomplished the meal, but not without many grimaces, which plainly told that dog meat didn't agree with his stomach.—Colonist of the 8th.

The Salt Lake Vedette of the 8th Jan. says that the Montana vigilantes a few days before captured and hanged five more of the Port Neuf stage robbers, including Buckner, one of the most notorious of all desperadoes. The murderers were caught and executed near Denver City.

Sir Robert Lush, the newly appointed Justice of the Court of Queen's Bench, in England, is an American and was born in the city of New York, where until recently his parents resided. Before his admission to the English bar, he was second clerk at the Judge's chamber.

The Spanish insurgents under General Prim had gained the mountains of Toledo, but were vigorously pursued. It is supposed that Prim would disband them and try to get to Portugal. The insurgent garrison at Analla had reached Portugal and disbanded.

The decision recently given by the Supreme Court of Nevada, declaring the Specific Contract Act null and void, has been re-argued and re-affirmed. Some of the papers are jubilant over the result, and are predicting a speedy financial millennium.

The sheriff of Boise county has presented to the Idaho Legislature a bill for \$2,500 to reimburse the expense incurred in defending the county jail against the vigilantes last summer.

It is said that Austria and Mexico are negotiating for the more speedy enrollment of the ten thousand Austrians which were to be furnished Mexico during five years.

Camp Lander, located three miles south of old Fort Hall, is garrisoned by 32 men of the 1st Oregon infantry. On the 23d of Nov. no snow had fallen at that point.

A reconciliation between the Emperor Napoleon and his cousin, the Prince, has taken place. The original quarrel looks like a snare for political effect.

The boat which is intended for the navigation of the upper section of Snake river, is progressing rapidly. It is being built at the mouth of Lost river.

Edwin Booth made his reappearance on the stage, in New York, on the evening of the 3d of January, as Hamlet.

The P. M. S. Co's steamship Golden Age brought New York passengers to San Francisco in 2 1/2 days.

It is feared that several persons were lost in the great storm while coming from Montana to Walla Walla.

One hundred and fifty young men have left San Francisco to hunt for gold in New Granada.

A cotton picking machine, said to be as valuable as the cotton gin, has been invented.

A Miner's Convention was appointed to meet in Sacramento, Cal., on the 17th inst.

BLACKFOOT.

The Walla Walla Statesman of the 2d says:

Mr. D. V. Waldron, the Blackfoot expressman, arrived on Tuesday last, having been six weeks on the way. He reports the winter in the mountains as the severest of any in his experience, and gives the details of much suffering from frozen hands and feet. At Helena the thermometer had been down to 33 degrees below zero. None of the trains that had started by way of the Pen d'Oreille Lake, had been heard from when he left with the exception of Jones & Dalton's, and the chances are that many of them have been lost. There was a report of a train being lost near the Jocko—name not known. Mr. John Fesche had arrived at Frenchtown. He had lost a number of his animals, but got his cargo safely through to that place. Mr. McConnell had come into town to get provisions for his men who were back on the trail; these men were subsequently met by our informant; their feet and hands were badly frozen, and they had been out of provisions for ten days. The snow on the Coeur d'Alene Mountains was very deep, averaging possibly, ten feet—soft and bad to travel through. Mr. W. was fourteen days between Bitter Root and the Mission, and traveled the whole distance on snow-shoes. Helena was crowded, it being estimated that five thousand people were wintering in the town. The latest excitement was a rich discovery on Elk creek. But little was done in the way of mining, the weather being too cold to admit of working to advantage. Mr. W. brought over two hundred letters, and would have made better time had it not been for a detention near the crossing of Snake River. He will start again in about two weeks with a letter and newspaper express for Helena and adjoining towns.

DEATH OF HON. A. M. POE.—A private letter brings the melancholy intelligence of the death, at Napa City, Cal., on the 31st of January, of inflammation of the lungs, of Hon. A. M. Poe, formerly of this place, and so long and favorably known to most of our citizens. Mr. Poe was one of our oldest residents of the Territory, having come to the Sound in 1849, and during a continuous residence of over thirteen years, filled many positions of trust, in all of which he was alike distinguished for honor and integrity. Among the prominent positions held by deceased we may mention those of member of the Assembly, Public Printer, and Publisher and Editor of the Overland Press. His genial good nature, and whole-souled generosity had endeared him to all with whom he came into contact, and his virtues will long be remembered by his many friends. Peace to his ashes!—Washington Standard.

THE VANCOUVER ISLAND MAIL SUBSIDY.—The subsidy for carrying the Mails between this port and San Francisco was yesterday awarded to the Hudson Bay Company for one year, at the rate of \$1500 each trip, not less than two trips to be made in each month. The steamer Labouchere will be sent to San Francisco direct, in a few days, to make the first trip under the subsidy. The rate of freight, we learn, will be \$6 per ton, a price at which most of the merchants will bind themselves to give the Company all their San Francisco freight. The fare will be fixed at a low rate, and there is every probability that Victoria is now about to be brought in such close proximity to San Francisco that travel between the two ports will be looked upon in the light of a pleasure trip, rather than a five weeks voyage, as has too often been the case this winter. The Company, with commendable alacrity, will immediately fit the Labouchere up as a first class passenger boat; the plans for the alterations, which will cost \$5000, are drawn. It is said that passengers embarking in the Labouchere at San Francisco will be furnished (if desired) with tickets to Big Bend at the low rate of \$10 and \$50.—Victoria paper.

MONTANA WITHOUT A LEGISLATURE.—The Territory of Montana presents the anomaly of a community without a legislature or the power to create one. The legislature and the Executive failed last winter to continue legislative functions, and the consequence is that no session can be held till again authorized by Congress. Acting Governor Meagher thus states the case: The legislature, convened by Gov. Edgerton in conformity with the provisions of the organic act, expired on the 24th of October. The apportionment bill, providing for the new legislature, having been vetoed by Gov. Edgerton, and the legislature having failed to pass it over his veto it is clearly my conviction that the legislative functions of the Territory have temporarily lapsed. To revive the functions, I am clearly of opinion that an enabling act of Congress empowering the Governor to re-district the Territory, apportion the representatives and convene them for business, is essentially required, and that no other proceeding can legitimately restore them, strange and embarrassing as the circumstances are in which their suspension places us.

THE NATIONAL BANK.—We understand that rooms have been taken in Carter's Block for the first National Bank for Oregon authorized to be opened in this city. The rooms will be fitted up for business, and the Bank will begin operations soon.—Oregonian.

The snow is about four feet deep on an average in the Boise Basin.

DEEDS OF HORROR.

The insurrection among the blacks of Jamaica lasted but a single day. How it was quelled let the words of the London Daily News describe:

"We cannot pollute our columns with more of such appalling details. If but a thousandth part of such tales as form the staple of the Jamaica newspapers—and which are narrated with heartiest applause—are true, hell itself has broke loose in that wretched island. But the demons are not the blacks, who burst into the sudden fury of a single day, and never afterward offered the remotest resistance. They are the white men, who for week after week have been holding their feast of blood; who have by form of law taken fifty lives for each one that they themselves lost; who have on pretense of a future insurrection made a whole region barren with extermination, and uninhabitable with the pestilence of putrifying bodies; who gloat and justly over the tortures they inflict ere they mercifully slay; who flog naked women and children, and who blaspheme Almighty God with their thanks for His mercies vouchsafed in delivering their enemies into their hands. "It is no longer human nature that exists in that land; drunk with blood and maddened with cruelty, our soldiers and sailors have become as wild animals, and have lost every vestige and sentiment of humanity, while they bandy compliments on their common triumphs over paucity-stricken and fugitive wretches, over a foe who has never crossed a sword with them in fight, nor ever fired a musket-shot in their glorious campaign. This awful business must be stopped if we would not have all civilization rise to execrate the name of Englishmen."

RESOLUTION.—At a meeting of the Young Men's Literary Society, held on the 17th inst., the following resolution was read and unanimously adopted:

Resolved, that the thanks of this Society are due to Hon. L. T. B. Andrews, for the able and instructive address delivered before it on the evening of the 16th inst.; that the said Andrews be declared an honorary member of this Society; and that the SEATTLE GAZETTE be requested to publish this resolution. Byron A. Young, Pres't. Geo. N. McConaha, Sec'y.

The other night, says the Sitka Lake V. dette, a poor victim of "plurality" was frozen to death, almost, while hauling wood between the respective cabins of his first and second wives, down somewhere in Cottonwood Canyon.

The President signed the patent granting 450,000 acres of land to the Central Pacific Railroad Company on January 6th.

The franking privilege has been granted to Mrs. Lincoln for life.

HOLLOWAY'S PILLS.—Prostration of strength. When the system is weak and the nerves unstrung, disease is certain to present itself, unless some purifying and strengthening means be resorted to, in order to avert the threatening mischief. In such cases no treatment can equal these excellent Pills—no other plan can be pursued so well devised for ejecting all impurities from the blood without straining or weakening the constitution. Holloway's Pills so fortify the stomach and regulate the liver, that they raise the capability of digestion, and thus create new powers. This is the reason why Holloway's Pills have gained their present popularity, and why they have been lauded throughout the globe as a "fresh source of life and strength."

MARRIED.

On board the steamer Gem, on Duwamish River in King County, by Martin Givler, Esq., Mr. Charles Robinson, of Port Madison, to Miss Martha Crow of Seattle.

Special Notices.

Administrator's Notice.

THE UNDERSIGNED, having been appointed administrator of the estate of Norman B. Judkins, deceased, late of King County, Washington Territory, notice is hereby given to all persons holding claims against said estate to present them to me as provided by law within one year from this date at Seattle, Wash. All persons knowing themselves indebted to said estate are requested to make immediate payment. H. O. STEVENS, Administrator. Seattle, Feb. 20th, 1866. no39-1m

NOTICE.

ALL PERSONS indebted to the undersigned are hereby notified to call upon Charles C. Terry, at the Eureka Bakery in Seattle, and settle their bills; and that the said Charles C. Terry has the exclusive right to collect said bills. TERRY & GREEN. Seattle, Feb. 23, 1866. 1f

NOTICE.

ALL PERSONS KNOWING THEMSELVES INDEBTED to the late firm of Plummer & Harris, are requested to settle their accounts on or before the last of March. All accounts remaining in our hands unsettled at that date, will be placed in the hands of a proper person for collection. CHARLES P. CHENER. feb16-td

NOTICE.

ALL PERSONS indebted to the firm of Yester, Denny & Co., either by note or book account, will save money by calling on H. L. Yester, who is authorized to settle all accounts of said firm. All accounts not settled on or before the 10th day of March, 1866, will be placed in the hands of a proper person for collection. We are sorry thus to speak to old customers, but Messrs. Denny and Fry, having disposed of their interest in the firm, to H. L. Yester, we are compelled to make speedy settlements. The business will be conducted, as heretofore, at the old stand, Corner 3rd and Commercial streets, under the name and style of H. L. Yester & Co. H. L. YESTER & CO. Seattle, February 7, 1866. no34-1f

**NOTICE.**

**Proposals for Keeping Insane and Idiotic Persons.**

SEALED PROPOSALS will be received by the undersigned at the Executive Office, W. T., until the 15th day of March next, setting forth the price per week for the different periods of one, three or five years for the safe keeping, board, clothing, medical treatment, nursing, and good care of the insane and idiotic persons residing in this Territory.

All bids must be accompanied with satisfactory guarantees, and endorsed "Proposals for the Keeping, Care and Treatment of the Insane." The undersigned reserve the right to reject any or all bids they may receive.

WILLIAM PICKERING,  
Governor of Washington Territory.  
JOHN M. MURPHY,  
Territorial Auditor, W. T.  
Olympia, Feb. 6, 1866. no30-td

**NOTICE.**

In the Matter of the Estate of John E. Davis, deceased.

For cause shown, an order of this Court, made on the 29th day of January A. D. 1866, is hereby given that Monday, the 27th day of April, A. D. 1866, at ten o'clock A. M. of said day, at the court room of this Court, in Clallam County, W. T., has been appointed for hearing the application of Stephen L. Doyle, Administrator of the Estate of W. S. Eley, deceased, one of the parties of John E. Davis, deceased, and the Estate of Thomas S. Davis, deceased, and also of John H. Harman, the other party of the said John E. Davis, praying to be released from their liability for the future acts and defaults of the said Administrator, also, an application of Eason B. Eley, praying that an order be made by this Court revoking the Letters of Administration heretofore granted to John E. Davis for certain reasons set forth in said application, and that, being a party interested in said estate, he, the said Eason B. Eley, be appointed Administrator of said Estate, at which time and place the said John E. Davis and all parties interested may appear and show cause why the prayer of said applicants should not be granted.

R. C. FAY,  
Clerk of the Court of Probate Court, Clallam Co., W. T.  
Coveville, Jan'y 29th, 1866. feb16-9w

President,  
Seattle, W. T., Aug. 26, 1865. no13:6m

**HOLLOWAYS PILLS.**

**HOLLOWAY'S OINTMENT**

THE EFFECT OF THE OINTMENT ON THE  
SYSTEM.

To the very core and centre of all diseases which  
affect the human body, this remarkable preparation  
penetrates. It disappears under the friction of the  
hand as salt disappears when rubbed upon meat.  
The unguent performs its healing course rapidly, safe-  
ly, and without pain. Simple eruptions, open sores,  
hard tumours, scrofulous developments of all kinds,  
abscesses, cancers, old wounds, and in fact, every spe-  
cies of inflammation or suppuration, whether in the  
skin, the flesh, the glands, or among the muscles, can  
be arrested in its destructive course and permanently  
cured without danger, by rubbing in this inestimable  
ointment.

**BAD LEGS, BAD BREASTS, SORES AND ULCERS.**  
In many Hospitals in Europe this celebrated reme-  
dy is now used for the cure of old wounds, sores and  
ulcers; in Spain and Portugal, and in many parts of  
Italy, the first Physicians regularly prescribe its use.  
It is a sovereign remedy for bad breasts and bad  
legs; and likewise for all skin diseases. It is to be  
found in the chest of nearly every sailor, soldier and  
emigrant.

**PILES, FISTULAS, STRUCTURES.**

The above class of complaints is surely removed by  
nightly ointmenting the parts with warm water, and  
then by most effectually rubbing in this Ointment.  
Persons suffering from these distressing complaints  
should lose not a moment in arresting their progress.  
It should be understood that it is not sufficient to  
merely smear the Ointment on the affected parts, but  
it must be rubbed in for some considerable time, two  
or three times a day, that it may be taken into the  
system, whence it will remove any hidden sore or  
wound as effectually as though it were palpable to the  
eye. Bread and water poultices, after the rubbing in  
of the Ointment, will do great service. This is the  
only proper treatment for females in cases of cancer  
in the stomach, or for those who suffer from a general  
bearing down.

**IMPRUDENCIES OF YOUTH:—SORES AND  
ULCERS.**

Blotches, as also swellings, can with certainty be  
radically cured if the Ointment be used freely, and  
the Pills be taken night and morning as recommended  
in the printed instructions. When treated in any  
other way these complaints only dry up in one place  
to break out in another; whereas this Ointment will  
remove the humours from the system, and leave the  
patient a vigorous and healthy being. It will require  
time, aided by the use of the Pills, to insure a lasting  
cure.

**DIPHTHERIA, BRONCHITIS, SORE THROATS,  
COUGHS AND COLDS.**

Any of the above class of diseases may be cured by  
well rubbing the Ointment three times a day upon the  
skin covering the throat, chest and neck of the pa-  
tient. The unguent will soon penetrate the pores and  
give immediate relief. To allay the fever and prevent  
inflammation, eight or ten Pills should be taken night  
and morning. The Ointment will produce perspira-  
tion, which is so essential for removing fevers, sore  
throats, and those oppressions of the chest which  
arise from Asthma, Bronchitis, and other causes.

**BOTH THE OINTMENT AND PILLS SHOULD  
BE USED IN THE FOLLOWING CASES:—**

Bad Legs, Corns, (Soft,) Rheumatism,  
Bad Breasts, Cancers, Scalds,  
Barns, Contracted and Sore Throats,  
Rumors, Stiff Joints, Sore Nipples,  
Bite of Mosquit, Elephantiasis, Skin Diseases,  
Tons and Sand Fistulas, Sore Heads,  
Piles, Gout, Sore Feet,  
Coccos-bay, Glandular Swel. Tumours,  
Chiego-foot, Ulcers,  
Chilblains, Lumbago, Wounds,  
Clapped Hands, Piles, Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY,  
221 Strand, (near Temple bar,) London; also by all  
respectable Druggists and Dealers in Medicines  
throughout the civilized world, at the following  
prices:—1s, 1½d., 2s, 3d., 4s, 6d., 11s., 22s., and 31s.,
