An Act to quiet Titles in Favor of Par-
ties in actual Possession of Lands situ-
ated in the District of Columbia.

Be it enacted by the Senate and House
of Representatives of the United States
of America in Congress assembled, That
any and all deeds heretofore recorded and
acknowledged by females covert (their hus-
bands having signed and sealed the same)
for conveying any real estate, or interest
therein, situated in said district; and all
acknowledgments of deeds heretofore re-
corded, as aforesaid, which have been
made by females covert (whether they have
executed the deed or not) for the
purpose of releasing their claims to dower
in the lands described therein, situated as
aforesaid, in which acknowledgments the
form prescribed by law has not been fol-
lowed; and all deeds heretofore recorded,
as aforesaid, which have been execut-

ed and acknowledged by an attorney-in-
fact, duly appointed for conveying real estate
situated in the District of Columbia; and
all deeds heretofore recorded, as aforesaid,
executed and acknowledged, or only ac-
knowledged by such attorney-in-fact, for
conveying real estate situated in said dis-
trict, as to which the acknowledgment was
made before officers different from those
before whom proof of the power of attor-
ney was made, and as to which the power
of attorney was proved before only one
justice of the peace; and all deeds hereto-
fore executed and recorded as aforesaid
for the purpose of conveying land situated
in said district, acknowledged out of the
District of Columbia, before a judge of a
United States court, or before two alder-
men of a city, or the chief magistrate of
a city, or before a notary public; and all
deeds heretofore executed and recorded as

aforesaid for the purpose of conveying land
situated in said district, acknowledged by
an attorney-in-fact, duly appointed, or by
an officer of a corporation, duly authorized
who has acknowledged the same to be his
act and deed, instead of the act and deed
of the grantor or of the corporation; and
all deeds heretofore executed and recorded
as aforesaid for the purpose of conveying
lands situated in said district to which
there is not annexed a legal certificate as
to the official character of the officer or
officers taking the acknowledgment, shall
be, and the same are hereby, declared to
be of the same effect and validity to pass
the fee simple or other estate intended to
be conveyed, and as if the same were in
the real estate therein mentioned in favor of parties
in actual possession, claiming under and
through such deeds, as if such deeds had
been by such females covert executed
and acknowledged, or acknowledged in
case of a dower right, in the form hereto-
fore prescribed by law; as if such deeds
had been executed and acknowledged by
the grantor in the deed; as if the power
of attorney had been proven before the
officer or officers taking the acknowl-
edgment; as if such powers of attorney had
been proved before two justices of the
peace; as if such acknowledgment had
been made before any judge of any state
court, or before two justices of the
peace; as if such attorneys-in-fact or offi-
cer of a corporation had acknowledged
the deed to be the deed of the grantor or
of the corporation; as if such deeds had
thereto annexed a certificate, in legal form,
that the officer or officers taking the ac-
knowledgments were really what they
purport to be: *Provided*, That the cer-
tificate of acknowledgment by a female
covert shall show that the acknowl-
edgment was made "apart" or "privily"
from her husband, or use some other
term importing that her acknowledgment
was made out of his presence, and also
that she acknowledged or declared that she
willingly acknowledged the deed, or that
the same was her voluntary act, or to that
effect: *And provided, also*, That when
the power of attorney shall have been ex-
ecuted by a female covert the same shall
have been such an acknowledgment of the
same as would be sufficient, under the
provisions of this act, to pass her estate
and interest therein were she a party ex-
ecuting the deed of conveyance, the record
and copy thereof of any deed re-
corded as aforesaid to be evidence thereof,
in the same manner and to have the same
effect as if such deed had been originally
executed, acknowledged, and recorded
according to law.

Sec. 2. And be it further enacted, That
all exceptions in favor of parties beyond
the District of Columbia, which may by
existing laws be relied on or rolled on in
any action or proceeding brought in said
district, are hereby repealed and abrogat-
ed: *Provided*, That this section shall not
affect the right of parties in actions now
pending, and such as may be brought
within three years from the passage of
this act.

Sec. 3. And be it further enacted, That
the acts of congress approved May thirty-
first, eighteen hundred and thirty-two, and
April twenty, eighteen hundred and thirty-
eight, in reference to the acknowledgment
and recording of deeds of land situated in
said district, shall be taken and construed
as cumulative with the acts of Maryland
on the same subject in force in said dis-
trict at the passage thereof, and that an
acknowledgment made and certified in
compliance with any one of said acts, and
before any officer authorized by either of
said acts to take an acknowledgment,
(whether in or out of the District of Co-
lumbia,) shall be good and effectual; and
if it shall appear that the grantor "ac-
knowledged said deed," it shall have the
same effect as if he or she acknowledged
the deed to be his or her act and deed.
And any acknowledgment made by a fem-
ale covert under either of said acts of con-
gress (which shall be sufficient under the
provisions of this act) of any deed execut-
ed by her husband, and heretofore record-
ed in the District of Columbia, shall be
good and effectual to bar all claim on her
part to dower in the lands described there-
in, situated in said district, although she
shall not have executed the same.

Approved, March, 3, 1865.

OVERLAND EMIGRATION.

The overland emigration is beginning to arrive at the Dalles. The *Mountaineer* says "the question will be asked where are they to find land open for settlement? It is known that in the valley all the more desirable lands have been taken up, and that parties that continue on down will have to depend mainly on renting farms." We would say to those in search of homes, come to the vicinity of Puget Sound and the valleys of the rivers emptying into it, where plenty of good farming land can yet be found unoccupied which can be entered, and which a little labor will turn into fruitful farms. There is also a good market for all kinds of agricultural products here at remunerative prices, as a large proportion of the population of the Sound is engaged in the lumbering business, and consumes more than is raised by our farmers at present. Flour is shipped here from California, and nearly all the cattle and sheep consumed in this market and in that of Vancouver Island are brought from Oregon and California. There is no portion of the Pacific coast that offers greater inducements for engaging in farming and stock raising, than this part of Washington Territory. There are vast tracts of rich lands lying along the rivers in the interior and bordering on the Sound,—with a climate that is mild and healthful, seasons that never fail to produce good crops, and an almost boundless range for cattle and sheep,—to be settled, and from which in a few years the industrious husbandman can acquire a handsome competency. Business of all kinds in this part is permanent; of healthy and gradual growth, and not rushed into huge proportions by sudden excitements, such as are so common in mining communities, and which by a sudden change of a restless, fluctuating population comes down with a crash, scattering the hard earned wealth of thousands to the four winds. We say to those seeking homes, come, and you can make them here! No industrious person need ever want for remunerative employment in this part, and our citizens will extend to all who may come a cordial welcome.

FAIR—In another column will be seen a call for a meeting to be held on the 16th of September, to transact business in relation to holding the County Fair at this place this fall. A general attendance is requested, as it is a matter of interest to all. It is hardly necessary to call the attention of farmers to the importance of fair in advancing the science of agriculture; in encouraging the improvement and introduction of fine stock, and in bringing more prominently to notice the improvements in agricultural implements. By bringing together a great variety of articles and many animals, it affords an opportunity for inspection and comparison, thereby enabling the farmer to select that which is best and most profitable to raise. It also gives an opportunity for an interchange of views on the methods of conducting the various branches of farming, bringing to public notice the individual experience of each, and thus giving community generally an opportunity to take advantage of whatever is excellent in each particular method.

THE BEAR RIVER HURDLE—The party that left Victoria a few weeks ago for the mines reported to have been found on Bear river, at the head of Clatsop Sound, have returned. With great difficulty they ascended the river to its source, prospecting it all the way from the mouth up, and could find nothing more than a bare color at any place. They took with them a large supply of provisions and tools, over a thousand dollars' worth of which they left strewn along the river, on their return. They state that the trip cost the party about \$5,000, and they are very much incensed at the getters up of the report, in which attaches of the Government Exploring Expedition figure prominently.

THE RUSSIAN PLANK is creating great excitement throughout the country. San Francisco officials have been instructed to closely examine all cargoes landing there from Turkish or Russian ports. Chinese dates of July 23d state that every precaution is being taken to prevent its advent in that country. This disease is said to be contagious, although some of the physicians of California contend to the contrary, and is supposed to be similar to that which visited England about a century ago.

REV. G. S. BELKAP, of the M. E. Church, who is stationed in this place for the present year, arrived on the steamer Eliza Anderson, from Olympia, last Monday with his family.

LAUNCHES—We noticed a fine new boat lying at Yeater's wharf this week, which was launched last Saturday at the shipyard of Mr. John Hornbeck. She belongs to Smith & Co., and is intended for the White river trade.

The steamer *Pioneer*, which has been undergoing a thorough repairing for sometime, is again in running order.

The bark *George Washington*, Capt. Greenleaf, left San Francisco for Puget Sound, August 23d.

The National debt is now \$1,635,205,733 50.

LOSS OF THE ATLANTIC CABLE—We recorded in our issue of last week, the failure of the Atlantic cable, when twelve hundred miles of it had been paid out. This stupendous calamity has stricken disappointment to millions of sanguine hearts. This enterprise, of such gigantic proportions, had attracted the attention of the civilized world, and at the moment when all were filled with anxious hopes for its completion, the electric wires bring us the intelligence of its utter failure. Again have the toil and genius of man been brought to naught.—While we regret this unfortunate catastrophe, let us hope that this may not be the last experiment; but that, ere many years, we may be able to flash our thoughts from continent to continent upon the wings of lightning, bidding defiance to "tide, tempest and time." May the experience gained from these two attempts have been sufficient to enable this Company to construct a wire that will endure alike the tempests of the ocean's surface and the rugged caverns of its mighty depths. We believe the energy and perseverance of the nineteenth century will yet triumph over Atlantic's boundless wastes, and that this generation will live to see the two hemispheres bound together with a rope of iron, and be enabled to transmit messages to the mother country through the coral chambers of old ocean.

HON. J. M. ASHLEY, member of Congress from Ohio, and Chairman of Committee on Territories, who is traveling through the States and Territories of the Pacific coast, will probably be through here in a few days. Mr. Ashley travels very unostentatiously through the country, while informing himself of the resources and prospects of our communities. He will return to his post at Washington this winter with a large knowledge of our wants, enabling him to act advisedly upon measures of importance pertaining to this coast.

We have received a complimentary ticket to the Oregon State Fair, from Mr. E. W. Waite, Corresponding Secretary. The Fair will be held at Salem, commencing on the third and continuing to the sixth of October. The list of premiums offered this year is large, and the officers of the Society are using every exertion to make the coming Fair the most successful ever held in Oregon.

GEN. LEE—Some two months since, Gen. Lee left Richmond and proceeded to the little village of Cartersville, Buckingham county, Virginia, forty miles from Richmond, where he now lives in a small cottage in the most perfect retirement. He finds recreation in the cultivation of a small parcel of land adjoining the cottage. It is not probable he will ever emerge from his seclusion.

The steamer *Union* which has been chartered by the Collins Telegraph line will sail tomorrow for her destination, Skeena, Naxa, and Sitka river. She will carry fifteen tons of provisions, and is going for the purpose of ascertaining how far the provisions can be forwarded into the interior, in that section of the country.—*Post*.

The *Victoria Post* says on Friday night last, about half-past 9 o'clock, a most unmistakable shock of an earthquake was felt in this city. Windows and doors rattled, and the houses shook as if a heavy vehicle was being driven rapidly past. A second shock less distinct, was felt by some immediately after.

Miscellaneous Items.

EMIGRATION—The Territorial *Enterprise* says that emigration from the Atlantic States to the States and Territories around and west of the Rocky Mountains has been immense—larger than has been known for many years. A record of the passing wagons and live stock is kept at Fort Laramie, and a dispatch from that place, dated July 8th, says that for the sixteen days ending June 30th, 2,227 wagons, with 18,000 head of stock, passed that point westward bound, and that about as many wagons, with an equal amount of stock, passed from the 1st to the 14th of June. During the month of May, over 5,000 wagons, and 40,000 head of live stock passed the same point.

INDIAN MASSACRE—The *Kansas City Journal* gives an account of the massacre of N. W. Burris, of Iowa; F. H. Angevine, of New York; Franklin and George Friend, Abram Lot, John Alley, John Andrews, Henry Martin, James H. Lyon, and a negro, by the Blood Indians, (a band of the Blackfoot nation,) near the mouth of the Maria River, twelve miles from Fort Benton, on the 25th of May. These men were cutting house logs, two miles from the town of Ophir, when the savages fell upon them and killed the whole party, scalping and brutally mutilating several of the bodies.

BURN AND DAVIS—The *Philadelphia Press*, after carefully reviewing the precedents,—in law and in fact,—afforded in the case of Aaron Burr, and his acquittal on the mere point of law, and the bungling manner in which the case was prepared for trial, comes to the conclusion that there is no possible loop hole for the escape of Jeff. Davis.

THE "SARANAC" SHOOTING CASE—The sentry who shot a Sergeant of Marines, belonging to the U. S. Steamer *Saranac*, on the wharf at Esquimaux, recently, has been handed over by the English authorities to the officers of the steamer, to be dealt with by martial law. The wounded man is not dangerously injured.

GWIN—A dispatch to the Associated Press of California, on the authority of a correspondent in Mexico, says; The Imperial Government has announced that it never entered into any negotiation with Dr. Gwin, and never contemplated making him Duke, Governor, or Viceroy.

Some years ago, while acting as Quartermaster, Gen. Grant lost one thousand dollars of Government funds by theft, and though the loss was by no fault of his, he paid it in his settlement with the Government. On the 17th of June, 1862, an act was passed refunding to him the amount.

A housemaid, boasting of her industrious habits, said, quite innocently, that on a certain occasion she arose at four o'clock, made a fire, put on the kettle, prepared breakfast, and made all the beds, "before a single soul was up in the house."

How singular it is that everybody is out of money at the same time. Who ever undertook to borrow ten dollars without finding all his acquaintances had "a little note to take up," and which "made them just that amount short."

GOV. HAMILTON, recently appointed Governor of Texas, warns the people of that State, that unless they treat slavery as dead, and the negro as a freeman, their representatives will in vain knock for admission into Congress.

Galveston, Texas, papers complain of a lack of sufficient shipping to carry away the cotton daily arriving there from the interior. The quantity west of the Mississippi is estimated at 1,000,000 bales.

The interior of Missouri is beginning to look up. Quite a number of farms near Boonville, were sold recently at \$50 to \$70 per acre. A short time ago they would hardly have brought any price at all.

LATEST NEWS.

Dates to August 23d.

Eastern News.

New York, Aug. 8.—The Tribune's Richmond correspondent says evil spirits have been let loose on the United States since the unceremonious and justly deserved fate of the late election was pronounced.—Joining men and citizens together to waylay and assault every colored man they meet, while older heads universally adopt the plan of fighting our soldiers, and at the same time hissing out their bitterest denunciations of the negro. The most stringent orders of Gen. Terry are inadequate to meet the increasing abuse.

The Times' special dispatch says that the President has recovered his health.

A military commission is trying cases of prisoners confined in the Old Capitol Prison.

The receipts of Internal Revenue yesterday, were one and a quarter millions. The Treasury has enough funds to pay all the indebtedness of the army.

The Republican says that Mexican armies, large and effective, hold undisputed possession of a great portion of the country, but guerrilla bands still roam through every section.

New York, Aug. 10.—The Commercial says Mrs. Douglas' appeal to the President for the pardon of H. V. Johnson, who was on the ticket with her husband, as a candidate for Vice President, has proven successful.

Washington, Aug. 10.—Mosby was arrested last night in Alexandria, and is still held in custody.

Aug. 14.—Provisional Governor Marvin of Florida, issued a proclamation to the people of that State, August 3d, informing them of the necessary steps to be taken to restore civil government, and the days for the election of delegates to the Convention. The time for its assemblage has not yet been determined upon. It will be named as soon as proper time shall have been given for the people to take the oath of allegiance.

New York, Aug. 16.—Great excitement prevails in financial circles to-day. A number of failures are reported; among which are Graham & Co., and Ketchum & Son; the latter firm has over-issued gold checks to the amount of \$2,000,000, and left for parts unknown. Stocks have fallen off 2 1/2 to 3 1/2 per cent.

But few additional matters have been developed concerning the great defalcation.

New York, Aug. 16.—A special dispatch to the Commercial from Leavenworth, Kansas, says the Pacific Railroad bridge over the Kansas river, together with the bridge over the Stranger river, were carried away by the rise in the stream.

California News.

The following items are from a San Francisco dispatch of August 23 :

The *Hombay Gazette* says that the losses in that city consequent upon the cotton bubble, amount to not less than \$150,000,000. Ruin is wide-spread and overwhelming. A formidable list of failures in commercial circles is reported.

The U. S. steamer *Sargisaw* arrived this afternoon and anchored off Pacific street wharf.

Legal Tenders to-day, 73 1/2 @ 74 1/2.
San Francisco, Aug. 23.—The Eastern line is again down between here and Julesburg. It will probably be in working order to Omaha to-morrow.

Aug. 24.—The late clerk of the State Prison, T. G. Loehrs, was arrested yesterday. He made a clean confession of his guilt to Gov. Machin. From circumstances which have come to light it seems that this Loehrs must a consummate villain.

Many of the friends and relatives of Captain DeWolfe, of the Brother Jonathan, have recognized the man described in last night's Bulletin as having been found by Indians and buried by Lieut. Tuttle, four or five miles off Trinidad, as Captain DeWolfe's body, beyond a reasonable doubt. Thomas Nesbit, brother of the late James Nesbit, who was lost on the Jonathan, has received a letter from a gentleman in Crescent City, notifying him that among papers found upon the body of the deceased was a will, written in pencil, and evidently written after the ship had struck. This will makes Thomas Nesbit sole executor of his brother. This is an unusual instance of self-possession and thoughtfulness in the hour of deadly peril.

The steamer *Del Norte*, from Crescent City this evening, brings the remains of James Nesbit, James Richards, G. W. Pollock and Daniel Parris, recovered from the wreck of the Bro. Jonathan.

San Francisco, Aug. 23.—We hear extraordinary reports concerning the doings of the Independent Union Convention, that was called for the purpose of nominating independent candidates of undoubted Union sentiments to be supported by the Union party of the State. It is suggested that a majority of the Convention are upon the point of making a bargain with the opposition. They are to have six representatives in the Legislature, giving Felton the balance, thus consolidating the tickets. It is further stated on good authority that the majority of the Convention is in the hands of aspirants for the U. S. Senate, and that the interests of the people are being traded away as they were by a similar party of aspirants, three years ago.

The funeral of the late James Nesbit, of the Bulletin, will take place to-morrow.—The services will be held in the Calvary Church, Bush street, at 12 o'clock. The remains will be interred in the Lone Mountain Cemetery, in a lot adjoining the grave of James King of William, the founder and fosterer of the Bulletin.

General Halleck and staff are at the Occidental Hotel, and have been visited by Gen. McDowell and staff.

Advices from New York, by the Golden City, bring information of the death of Mrs. W. C. Forbes, an actress well known in California.

We are informed by Capt. Johnson, of the Del Norte, that the body of Mrs. Gen. Wright came ashore at Trinidad, on Wednesday last, being identified by her underclothing, which was marked with her full name.

THE NEW BIRTH OF MISSOURI—The victory is won. The long struggle which uncompromising loyalty has waged against treason, and against that conservative Unionism which has played a role more disreputable than has treason itself, is at an end, and the State, freed from the shackles of an old and barbarous system, in the triumph of the right, stands "redeemed, regenerated and disenthralled." In the adoption of the new Constitution, framed by liberal progressive men, in accordance with the earnest teachings of the times, Missouri enters upon an era as distinct in its prosperity over that in which she has heretofore lived as if she had passed under a new heaven. Time will assuredly demonstrate the advantages which her changed condition promises to realize, nor will we have long to wait before it will be manifest to every mind that, in discarding the policy which slavery and its attendant influences had shaped for her, and putting on the habit of a free loyal State, Missouri has done a most wise and politic thing. In deciding for the Constitution which this day becomes her fundamental law, she has washed every trace of the stains which slavery and treason have left upon her garments. The word "slave" is no longer to be found in any of her statutes. She has turned over a new leaf, and begins on an unsoiled page the record of a history which, according to present indications must rank with the most brilliant in the annals of the nation.—*Missouri Democrat*.

OREGON'S GREAT CURIOSITY—Several of our citizens returned last week from the Great Sunken Lake, situated in the Cascade Mountains, about seventy-five miles northeast from Jacksonville. This lake rivals the famous valley of Sinbad the Sailor. It is thought to average 2,000 feet down to the water all round. The walls are almost perpendicular, running down into the water and leaving no beach. The depth of the water is unknown, and its surface is smooth and unruined, as it lies so far below the surface that air currents do not affect it. Its length is estimated at twelve miles, and its width at ten. There is an island in its centre, having trees upon it. No living man has, and perhaps never will, be able to reach the water's edge. It lies silent, still and mysterious in the bosom of the "everlasting hills," like a huge well scooped out by the hands of the giant genii of the mountains, in the unknown ages gone by, and around it the primeval forests watch and ward are keeping.

The visiting party fired a rifle several times into the water, at an angle of forty-five degrees, and were able to note several seconds of time from the report of the gun until the ball struck the water. Such seems incredible, but is vouched for by some of our most reliable citizens. The lake is certainly a most remarkable curiosity.—*Jacksonville Sentinel*.

A CHINESE DINNER TO SPEAKER COLFAX—By telegraph we learn that the heavy Chinese companies in San Francisco have united together for the purpose of tendering to Speaker Colfax and party a complimentary dinner, to be got up in the highest style of culinary art. The invited guests will include the Governor, military, naval, Federal, State and municipal officers.—*Ex*.

Bully for "John!" He does not intend to be outdone in courtesy to our distinguished visitors. Give him half a chance and he will be a "belly good Mexican man" yet. If the party accept the invitation, we have no doubt they will enjoy themselves hugely, as it will be a very pleasant little episode in every day fare to sit down to a Chinese dinner of fowls, fresh pork, cabbage, fishes, fishworms and such like delicacies as tickle the Celestial palate, prepared in the most approved style; but we fear they would make rather a sorry out eating rice with chop-sticks.

A CURIOSITY—A man named Reed found in Bear Creek, lately, a piece of petrified wood full of nails, whereupon the Colusa (Cal.) Sun, says:—

Who drove those nails in that wood? The Indians who inhabit this country have no idea of working in iron. Perhaps it is a piece of one of Solomon's ships, that he sent to the land of Ophir after gold. Who will account for the nails in the stone?

HOLLOWAY'S OINTMENT AND PILLS—Happy Health.—However provident—however careful man may be—he is still destined to be assailed by sickness, and it is wisdom to be provided with a remedy against such a calamity. The Ointment and Pills, discovered by Prof. Holloway, are acknowledged by every person who has tried them to possess the highest merits in curing bad legs, bad breasts, bad wounds, sores, and ulcers, and such blemishes as have been contracted by imprudences. Inflammations and glandular swellings are surely removed, while the Pills purify and strengthen the system.—Thus, even in moderately good health, occasional doses of them prove highly beneficial, by their tendency to preserve the body from impurities and weaknesses, whereas in obstinate cases they never fail to root out the most inveterate diseases.

We have received a couple of communications from our Port Ludlow correspondents, giving an account of another robbing and lynching affair in that place. We give the particulars in a condensed form, as the letters came too late for a full insertion in this issue:

On Tuesday last a Chinaman accused a white man of stealing a watch from him, whereupon the Vigilance Committee took charge of the fellow. He acknowledged to having taken the watch, but said he did not intend to keep it, and only wanted to frighten the Chinaman. This story did not satisfy the Vigilantes, and they sentenced him to receive a dozen lashes on the bare back. He was taken to the flagstaff, tied to it, and received twelve lashes laid on by the Chinaman, whom the Committee had ordered to give the chastigation, and then given half an hour to leave the spit.

WHAT A PROPHECY.—Jeff. Davis was a worse prophet than he was a woman. In 1861 he said your border States will gladly come into the Southern Confederacy within sixty days, as we will be your only friends. England will recognize us, and a glorious future is before us. The grass will grow in the Northern cities where the pavements have been worn by the track of commerce. We will carry war where it is easy to advance, where food for the sword and torch await the armies in the densely populated cities.

MR. CURTIS DOOLEY.—Postmaster Davis has placed in our possession a letter from Mrs. Dooley, of Ione City, Amador county, California, seeking information of the whereabouts of Curtis Dooley, who is in some place in Oregon with his family, if living. Silas Dooley of Sutter Creek, California, died on the 6th day of June, 1865, after a short illness of fourteen hours, and the wife wishes to communicate the dying request of her husband to Curtis Dooley. The press of Oregon, Washington Territory, and Idaho, are requested to give the above publicity.—Oregonian.

BRITISH COLUMBIA TREASURY.—Mr. Bar, of Lilloet, has sixty acres of splendid wheat on his farm. There will be seven hundred thousand pounds of wheat harvested in that neighborhood this year. A company called the Lilloet Flouring Company has been formed, and mills will be erected on Cayoosh Creek, a little below the town.

An exploring party of eight men has started out from Lilloet for the head waters of Bridge River. The Governor has granted \$5,000 towards the enterprise.—Post.

A dreadful fatality has just taken place on the Herpes Alps. Mr. and Mrs. Arbuthnot who were on their marriage tour, were ascending the mountain when the lady having been left for a few minutes by her husband, a thunderstorm suddenly burst forth, the lightning struck Mrs. Arbuthnot, killing her on the spot; her husband returned immediately after to find her a corpse.

A certain Mr. Smith was an excessively polite man. Falling overboard from a boat, in which was a large party, he was in imminent danger of being drowned, as he could not swim. Even then his politeness did not forsake him. He said, in gentle tones: "Gentlemen, will you be so kind as to help me into the boat? My garments are perfectly saturated with water."

New York is a picnic place. Every summer two hundred picnics are given by water transportation; about six thousand by land. Eight hundred thousand dollars invested in picnic capital—grounds, buildings, barges, etc. Ten thousand persons, during the summer, live by the patronage of picnics.

A recent instance of filial affection among the Indians is reported. Two young braves, under the assurance of being hanged, proposed to give two ponies to the authorities if they would allow their aged father to be hanged in their place.

U. S. SWANEE.—This vessel will remain at Esquimalt till the arrival of the next steamer from San Francisco. Quinquinos say she is waiting for the chances of the Shenandoah turning up in this neighborhood.

The New York Herald finally denies the statement of the Richmond Bulletin, that Bennett offered to sell out to Jefferson Davis for \$50,000.

The ladies of Harrisburg, Pa., propose to hold a meeting next month for the purpose of adopting a change of dress, on account of the recent disgrace brought upon the present fashion by the rebel Jeff. Davis. The ladies will assemble at the ringing of the bell.

A year ago, the editor of the Marysville Express said that the "Fourth of July was played out." It appears that the Fourth is all right—it's the other fellow who is played out.—Appeal.

The bark Caroline Read sailed from Blakely for San Francisco on the 27th ult., with a cargo of lumber.

The annual returns of the British navy show a list of 14 iron-plated ships, and 16 more being built.

STRAKER SIERRA NEVADA left San Francisco on Wednesday last for Portland and Victoria.

THE CRUISE OF THE "MILO."

AS TOLD BY THE CAPTAIN.
"Mariners! Mariners! what may ye be,
And what is the news ye bring from the sea?"
The chief of the groupe made a sudden halt,
And the words he uttered were very sad:
"We might be now—had our mothers been fish—
Just the prettiest mackerel that heart could wish.
"As it is, we're but seamen—isn't it queer?
Rate! as 'ables', to haul, reef and steer.
"But what the devil, O lubber, to thee
Is the traverse you're working, what we might be?"
"Gently, my mariner, pickled in brine,
You should know the ropes if you've crossed the line:
"Tell me the news from the northern fleet,
And we'll shake it out in a flowing sheet."
"Well, stranger, if so, and you're anxious to learn,
Belay your jaw tackle and reel in the yarn:
"My name is Haws; I'm the Captain bold
Of the Milo—crew, 30 men, all told.
"It was off Cape Thaddeus, June twenty-second,
By the dearest reckoning ever was reckon'd.
"We were cruising about under shortened sail,
Expecting no blow but the blow of a whale,
"When the man at the masthead hailed the deck:
'Ball ho!'—so far off it looked a mere speck.
"But instead of a sail bearing down on our beam,
Came a damned iron kettle that went by steam!
"A new-fangled notion—scaring the fish—
Not at all the craft a whalerman would wish.
"We were 'cutting in' and 'cutting it fat,'
When the stranger hailed: 'What ship is that?'
"I answered him back: 'The good ship Milo,
Owned at New Bedford, last from Hilo!
"Any more questions? If not, goodby!
For you see we have other fish to fry.'
"He spoke through his trumpet: 'Skipper, arast!
Lay your mizzen top close to the mast:
"Send a boat aboard; by the beard of Noah,
You're a prize to the cruiser Shenandoah!"
"It was hard to decide, or I'm a lubber,
Whether he wanted our blood or our blubber.
"For it scarcely seemed so many a mile
He'd have sailed for the sake of 'striking it.'
"We bore a hand, for his long thirty-two
Would have clapped a stop on the Milo's cruise.
"You may think we were shy-cooks—just as well;
None of us shipped to pick up shell!
"We lowered the boat, and bent our oars double—
Haste makes waste, but it sometimes saves trouble.
"There on his deck, let me tell you true,
Never saw I such a Cockney crew.
"Hall! and 'oy! the boatswain ast;
It was 'eggs on the 'airdys' and 'ow does she
lead!"
"They called me 'Awes,' though I said: 'If you
please,
Don't be spoiling that H in those Arctic seas!
'English the craft by the cut of her sails—
Was she sent in revenge by Prince of Wales?
"He is 'Lord of the Flea,' and perhaps didn't like
So many prospectors bound on a strike."
"They asked me what luck we had on the trip,
And what was the value set on the ship.
"They could not have talked of our oil and bone
With more concern had it been their own.
"But they cut the yarn short—it runs of the wheel
Like a log-line marking ten knots by the reel.
"A bond I put it to—it promised to pay
A great many dollars at no definite day.
"And I smiled in my soul—that bright June morn,
To think how the bond would be paid—in a horn.
"Our purses, our watches, they took without fuss,
We never tried whale as these rascals tried us.
"Sea sages will sigh through the long summer
noon,
'Captain Waddle, alas! has a weakness for spoons!
"When they'd taken all they felt us make sail
And I said, while their faces looked over the rail,
"To borrow your phizae, 'blast me bloody nibe!
If I much like the cut of your Cockney jibe!"
"But here we all are—if you'd know any more,
You must look up the log of the Shenandoah!"
"O, mariner, hither come share my grog,
But don't cut me adrift on that pirates' log!"
SAN FRANCISCO. C. W. WESS.

THE GREAT REMEDY OF THE AGE.
HOLLOWAY'S OINTMENT

THE EFFECT OF THE OINTMENT ON THE SYSTEM.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hand as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumours, scrofulous developments of all kinds, abscesses, cancers, old wounds, and in fact, every species of inflammation or suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course and permanently cured without danger, by rubbing in this inestimable Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.
 In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier and emigrant.

PILES, FISTULAS, STRUCTURES.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient to merely smear the Ointment on the affected parts, but it must be rubbed in for some considerable time, two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general leucorrhoea.

IMPRUDENCIES OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to insure a lasting cure.

DIPHTHERIA, BRONCHITIS, SORE THROATS, COUGHS AND COLDS.

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and prevent inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

BOTH THE OINTMENT AND PILLS SHOULD BE USED IN THE FOLLOWING CASES:—

- | | | |
|----------------------------------|------------------------------|----------------|
