MINES AND MINERS.

A Flattering Exhibit of the Result of the Colville Discoveries.

The Ignorance of a Neighboring Scribble Shows It.

"Their exaggerated accounts of the mines has caused hundreds to go to the only to meet with disappointment, the consequence is these disappointed people leave the country with curses on their lips, prejudicing those who would otherwise come here, and engage in farming and stock-raising."—*Cheney Tribune.*

Thus speaks a newspaper against the mining interests of the Colville country! Thus whines a newspaper at the great industry which more than any other is soon to place Spokane Falls in the front rank of a great mining center! Because the Review has spoken words of cheer to this our new and wonderful resource—mining—the *Tribune* charges us with exaggerating its importance and value by uttering the above miserable falsehood. "Anything to do with Spokane Falls," is the motto of Cheney newspapers, and because Cheney can never hope to reap any of the glorious mining harvest in store for Spokane Falls, forthwith the mine of lies must be thrown. Who are the "disappointed people who have left the country with curses on their lips?" The wretched scribbler cannot name one. On the other hand, more for our own self gratification than to argue the point, let us name a few who do not curse the country:

Less than a year ago were gathered a little community of miners at Embury in Stevens county. They were the mining pioneers of the new Idaho valley. It comprised the following gentlemen: Al. Benoit, William Kearney, James A. Alexander, Joe Young, James Friend, Al. Baldwin, Alf. McKinley, Fred Rice, John McIntosh, John Cobb, Prof. Colbaugh, Billy Moore, "Duck" Thomson and McKim. Since that time many more have arrived on the field, notably Dick Chilson, Pat Kearney and W. F. Cable, all named scribes. Beyond "Duck" Thomson, who was an old resident of the valley and ran a saw mill, and Pat Kearney, who was a satisfied salesman resident at Spokane Falls, not one of the entire outfit could at that time have mustered up a grab stake for thirty cents—possibly friend and McKim had a small draw down on back in the Coeur d'Alene. Now, Mr. *Tribune* man, looking at the financial success attending these men in the mining business during the past year, who are the "disappointed people" who have left the country with curses on their lips? The answer is, "None." The year has benefited any seventeen men as has the Colville mines benefited any other.

Al. Benoit sold out of the Old Dominion, it is said for \$75,000, and still owns in the Young American, who has sold the Silver Star, Preliminary and the other property, and is now a gentleman of Bonheur residing at Spokane Falls on a limited income of nearly a thousand dollars a month in dividends from the Young American, and is now owning a property worth a fabulous sum. They are owners with Bonheur of the property which during the year has benefited any seventeen men as has the Colville mines benefited any other.

By Lewis, regulating the compensation of probate judges.

By Byrd, to provide for the payment of the indebtedness of Tacoma, and levying a tax therefor.

The bill to prohibit attorneys from practicing under the laws framed while they were members of the legislature was indefinitely postponed.

Baby Emperor.

SAN FRANCISCO, Jan. 29.—A Hong Kong native paper prints the rumor that the emperor of China, who is only in his 10th year, intends to form a matrimonial alliance and to take the government into his own hands. The reported outbreak in Seoul, Korea, of December 18, appears to have had no foundation in fact. Early in December the Japanese government arrested about thirty men who were suspected to be engaged in a plot against the Korean government. This came to the ears of the officers of the Chinese legation at Tokyo, Japan, in the shape of a rumor that the Japanese had embarked for Seoul. This was telegraphed to Tientsin and in turn to the Chinese representative at Seoul. The latter, on investigating the matter, became informed of another rumor that eighty soldiers disguised as tradesmen were then in Seoul awaiting an opportunity to attack the palace, and wired the rumor as a fact to the Chinese legation at Tokyo. The last telegram was communicated to the Japanese foreign office, which soon dispelled the rumors. The whole matter was investigated and shown to be perfectly without an iota of truth.

Murder.

EVANSVILLE, Ind., Jan. 24.—A special to the *Journal* from Henderson, Kentucky, says a cruel murder was committed before daylight Sunday morning, three miles below that place. Calvin Simpson, a Union county negro, broke into the house of an old white lady named Mrs. Grave, when she and two daughters fled from the house, followed by Simpson. The old lady was overtaken and killed with a club and the two girls escaped unhurt to a neighbor's house. Simpson then went to Moses Brown's house, who lives near by, and drove him out and took possession. Simpson fortified himself in the house, which was guarded until Henderson officers arrived and battered down the door and arrested Simpson, who was taken to that place and killed. He feigned insanity and is quite violent. There is some talk of lynching, but all is quiet to-night.

Colony for the Big Bend.

The Northern Pacific company have been notified that a large colony is being formed in Ohio and Pennsylvania to take up land and settle in the Big Bend country. The managers of the colony have applied to the N. P. land department for figures on 10,000 acres, which their advance agent reported favorably upon, and a committee is expected in February to conclude negotiations for the same.

A BRIGHT OUTLOOK.

Spokane Falls to Make Rapid Strides This Year.

A Few Items in Regard to the Proposed New Improvements.

Every indication for the past two months has pointed to a wonderful activity this spring and summer in the building line, both in the way of public edifices and residences. No one has doubted for a moment the renewal of the great growth that burst upon Spokane Falls so suddenly and left such monuments of permanent prosperity in the spring of '85. The persistent development of the city during last year, when times were so dreadfully hard, settled for one and for all the future of the place. That growth during the darkest hours of depression was a harbinger of what is to occur in 1886. No man can be found who will express a question of doubt as to the changes to be wrought by the hands of the artisan in a very few weeks. Whenever a party collects together the general theme is the proposed new building boom, and everybody has his new idea of some party proposing to invest in architectural ornamentation. It is impossible at present to enumerate all the new buildings proposed, as we have not positive data to work on.

SAMPLING HOUSE.

An Important Scheme for Spokane Falls.

Where silver mining property is situated far remote from reduction works, it is only the very best of ores that will bear the expense of transportation. For this reason there are many claims carrying a low grade of rock that could be worked near the place it is taken out of at a good profit to the owner, which would not pay to ship along distance. Take, for instance, the Colville and Coeur d'Alene mines. In both of those places there is plenty of ore that will average from \$30 to \$100 per ton. When smelters are near by, by an average of the lowest of these figures, the body is very rich, and yet it does not pay now to take out the rock and ship it to Omaha or San Francisco. The Old Dominion is the only mine in the Colville region that has so far produced ore rich enough to ship to a distance. The owners of that mine have shipped large quantities to Omaha and San Francisco, but they have been careful in selecting the best ore, and the cost of these large bodies of lower grade ores will necessitate the construction of the necessary works for handling the same, which from one day, but in the meantime new claims carrying a fine quality of ore are being constantly opened up and the fact that the necessary equipment for carrying on the work can be procured at a market for the ores must be established near to the scenes of operation.

Another locally made man, if we can use the expression, as he made all of his money here, contemplates decorating the southwest corner of Riverside avenue and Howard street with a substantial and attractive two-story brick building. It will have a frontage of 34 feet and a depth of 8 feet. The brick will contain but one store room, which will make it one of the most desirable stands in the city. The building will have a glass front and will be fitted with all modern improvements. Not only will it be built this new block, but Mr. Wolverton proposes to tear down the front of the old building, put in a glass front on the lower floor and make the upper part correspond with the new building. The present building, now 62 feet deep, will be extended to 100 feet on Mill street. This will be a great addition to the town.

ALBERT KEATS, another locally made man, if we can use the expression, as he made all of his money here, contemplates decorating the southwest corner of Riverside avenue and Howard street with a substantial and attractive two-story brick building. It will have a frontage of 34 feet and a depth of 8 feet. The brick will contain but one store room, which will make it one of the most desirable stands in the city. The building will have a glass front and will be fitted with all modern improvements. Not only will it be built this new block, but Mr. Wolverton proposes to tear down the front of the old building, put in a glass front on the lower floor and make the upper part correspond with the new building. The present building, now 62 feet deep, will be extended to 100 feet on Mill street. This will be a great addition to the town.

J. B. BLALOCK, the fold-time and enterprising boot and shoe dealer, has long contemplated the erection of a large and valuable brick at the northwest corner of Riverside avenue and Howard street. Mr. Blalock is a gentleman who keeps his own counsel, but the fact that he has recently invested in a large slice of real estate on Riverside avenue, leads us to believe that he expects to expand in the spring. When he goes to work on the building, the public can depend upon it that the class of buildings he puts up will be second to none. He has the finest property in the city, that only needs a brick building set upon it to make it a desirable stand.

DR. B. F. BURCH, who owns considerable real estate in the city, and whose income is derived from the rental of brick and frame buildings, is now engaged in making arrangements to put up a very large brick block on the southeast corner of Riverside avenue and Howard street. What the frontage of the block will be we are unable to say, as Dr. Burch owns considerable property in the neighborhood. The edifice he puts up will not be behind in appearance, those that are to decorate the other two corners.

THE TRADERS' NATIONAL BANK contemplates putting up a brick building some where upon our principal thoroughfares, but the exact locality has not as yet been selected. When the institution builds it will be a piece of architecture that will ornament the city.

F. R. MOORE AND E. B. HYDE own the frontage on the south side of Riverside avenue, between Mill and Howard streets, and it is rumored that these gentlemen will put in a solid brick two or three stories high. It would be a magnificent location for an opera house, and such a structure, with stores beneath, would be a great addition to the city.

MR. WILLS, of Duluth, who has just purchased the southwest corner of Riverside avenue and Post street, will possibly put up a brick.

S. P. HOTEL. It is reported that a scheme is on foot for tearing out the frame building on the northwest corner of Riverside avenue and Main street and putting up a large brick three-story block.

RESIDENCES.

Besides the few public buildings imperfectly enumerated, there will be a great many residences next summer, many of which will be very expensive and elaborately finished. In the southern and western part of town there will be at least fifty of these buildings, ranging in value from \$1500 to \$25,000. There will be a large number of additions to the city both in the eastern part of town and on the north side of the river. We expect to see many houses go up in the western addition on the north side of the river, where there are some very attractive building sites.

It is impossible at the present time to make anything like a full report of the proposed improvements for the present year. Many who have not yet made up their minds will be induced to invest in new buildings by seeing others putting ahead, and new parties will probably locate and proceed to build. We know enough to be able to state that as soon as the snow is off in the spring there will be a great activity at once commence and we will see several months of activity the like of which will amaze the stranger who may happen along in the middle of it. Spokane Falls may have made great strides in the past, but altogether it was nothing to what may be looked forward to this summer.

NORTHERN PACIFIC HENRY. Success as a Villager's Future Course.

NEW YORK, Jan. 21.—All sorts of stories continue about the future of Henry Villard and his future intentions, but none of them are trustworthy. It is a matter of fact that he has no definite plan as yet. The friends add that, inasmuch as Villard's affairs have been substantially settled, the real end of the energy of his private secretary and confidential agent, Charles A. Spofford, he would no doubt soon set his mind to come back not later than next summer, when he sailed for Europe in a gale, a year ago, and now that the spring is wholly free from obligations, all of which have been satisfied, without any compromise, dollar for dollar.

A rumor current in Printing House square, that he proposes to become editor-in-chief of the *Evening Post*, in which his wife owns a controlling interest, and that Edwin G. Perkins will retire soon after his arrival, is declared to be wholly baseless. Although a journalist by profession, he has no special aptitude for a trade. His activities and energies will be in the line of financing. The opinion of Villard on Washington is very favorable, and he would be warmly welcomed back by his former associates. He has already been urged to accept the presidency of the Oregon & California railroad, which he resigned from motives of delicacy when it became legally involved with the Oregon Transcontinental.

Fatal Fires. JACKSON, Jan. 26.—The county poor house here was almost entirely destroyed by fire last night, yesterday morning. There were forty inmates and all escaped but five who perished in the flames. The reason for the fire was that a fire was found in bed and was rescued by means of the fire escape. There were only two men besides the inmates who were in the building at the time. Mr. John Doherty, a hired man, brought three of the inmates down the fire escape in his arms, thus saving their lives. The man who first started the fire was found in bed and was rescued by means of the fire escape. There were only two men besides the inmates who were in the building at the time. Mr. John Doherty, a hired man, brought three of the inmates down the fire escape in his arms, thus saving their lives. Silence of War. NEW YORK, Jan. 24.—The Herald's constant special correspondent says that the news received from Greece and Turkey is nearly certain. The only chance for the maintenance of peace will be the cessation of Zoulo by Turkey, as claimed by Greece, according to the treaty made at Berlin, or the occupation of Piræus by the powers, as was the case during the Crimean war. The Greek government had to choose between striking a blow for establishing the Hellenic supremacy in Macedonia, or facing the dynamic troubles at home. Greek political leaders consider the latter to be the most desirable. He has reasons to know that the Turkish government fully expect hostile demonstrations on the part of Greece to commence within the next three weeks. Every effort is consequently being made here for the completion of naval preparations, also for a system of torpedo defenses in the Bosphorus. The first blow will probably be struck at the island of Crete. Greece is about to call out two more classes of the reserves.

Favor Admission. WASHINGTON, Jan. 26.—Senator Platt today reported favorably from the committee on territories the bill for the admission of the territory of Washington, together with what is known as the pan-handle of Idaho.

TO DEALERS & CONSUMERS

LOWENBERG BROTHERS

OUTLINE THEIR FUTURE BUSINESS POLICY:

THROUGH the great increase in our business and through the superior facilities at our command we are enabled to announce that all our goods will bear a low rate of profit than heretofore. During the past few months we have been negotiating with various manufacturers and their agents to get their productions direct, thus saving the profit for the extent, variety and cheapness will be necessarily charged by the jobbers. In this we have been successful, and all goods that we can use in large quantities will get direct, thus enabling us to sell at low prices than the smaller dealers buy them for. This will be especially noticeable in our Milk, Dress Goods, Cloth, Carpet, Clothing, Gent's Furnishing and Boot and Shoe departments.

IN Fancy Goods, Notions and small wares we shall also make a marked reduction, and in **Hosiery, Ribbons and Corsets** our values will surpass anything we have been hitherto able to show you.

Our orders for Spring Goods have already been placed with the manufacturers, and we expect to show, when the time arrives, a stock of goods which for extent, variety and cheapness will be appreciated by the public and reflect credit on us.

Our constant aim has been to sell goods as cheaply as possible, and whenever our business warrants it we discover general rates of profit, and we say with the profits before that no home to the territory or elsewhere sells goods throughout their store upon such a small ratio of profit as we do.

TO DEALERS: We are making very extensive preparations for our wholesale business, which has grown to such vast proportions during the past two years. With arrangements already completed (and referred to above), we don't hesitate to say that we will be in a position to supply merchants with goods of every description at much lower prices than they can lay them down here either from San Francisco or Eastern markets, besides obtaining much more satisfactory terms from us.

TO THE PUBLIC: THE remaining portion of our winter stock will be disposed of as rapidly as possible (at low prices will do it), in order to make room for our early spring shipments. We treat everybody courteously, have no friendship in business, and with politeness and respectful conduct we trust to receive our share of the public patronage.

LONDON, Jan. 29.—The Daily Mail gazette in speaking of the capabilities of a new ministry, says that a strong one could be formed by Mr. Gladstone, if he would take into it such men as Joseph Chamberlain, John Morley, William Spottiswoode, Lord Salisbury, Lord Rosebery, Lord Hartington, Lord Lansdowne, Lord Curzon, Lord Balfour, Lord Grey, Lord Selkirk, Lord Curzon, Lord Balfour, Lord Grey, Lord Selkirk.

Particulars of the Fight in Mexico.

SAN FRANCISCO, Jan. 29.—A telegram received at the residence of Fort Bowie, Arizona, signed by Gen. Crook, gives the contents of a dispatch received by the latter from Lieut. Mans, dated Nacori, Sonora, Mexico, January 11: "Surrounded and attacked Indian camp fifty miles southeast of Nacori, when a two hours running fight took place and a number of Indians were wounded, but all escaped. The hostilities were word that he wished to hold a conference with the Mexicans, and while the troops were in camp awaiting the time fixed for the conference they were attacked by 150 Mexican soldiers. Efforts were made to let them know that the troops were American and friends, and Capt. Crawford and Lieut. Mans advanced to talk with them when a volley was fired and Capt. Crawford was shot in the head and Mr. Horn, the interpreter, was slightly wounded in the left arm. The Mexican fire was partly returned by the scouts of Capt. Crawford's command, but only sufficient to keep them at a distance. The firing lasted half an hour when Lieut. Mans succeeded in having a talk with the officer in command of the Mexicans, his captain having been killed. He was told the Americans were taken for hostiles, owing to the darkness, and the Mexicans signed a paper to that effect. The loss to the Americans by the unfortunate affair was: Capt. Crawford, mortally wounded; Mr. Horn, chief of scouts, slightly; two Indians, slightly; an Indian severely wounded. The Mexican loss was four killed and five wounded. In the telegram sent by Lieut. Mans to Gen. Crook he says of this affair, that he believes the Mexicans expected to drive the Americans off with an overwhelming force and secure their camp and effects. Captain Crawford died on the 19th, during the march to Nacori, where he was buried. He was unconscious until his death. Lieut. Mans then assumed command, while the troops were en route to Nacori two squaws entered camp, through whom arrangements were made by Lieut. Mans for a conference with two bucks of the hostile band. This ended by chief Nana and one buck and the wife and child of both Genero and Natchez, sister of Genero, and one boy and woman

being given as hostages to Lieut. Mans for the observance of peace until Genero meets Gen. Crook, with whom he expressed a wish to have a talk. The meeting between Crook and Genero will take place in about a month and will undoubtedly end in the Indians surrendering. The band consists of chief Genero, Natchez, Chihauha and Nana, twenty bucks and some women and children. Lieut. Mans is now heading for Lang's ranch.

Silver on Top.

WASHINGTON, Jan. 29.—Darwin Jones, of the house committee, is the authority for the assertion that there is no question but that a favorable report will be made on the redemption of the trade dollar. He says that the only question in the report of the sub-committee is whether to recommend a bill for the exchange, trade dollar for dollar, or provide the alliance be made holders of trade dollars for the bullion in them and that the bullion purchased be counted in the two million dollar fund for the next month by the government. He is sanguine of the passage of the bill.

Laud Decision.

SAN FRANCISCO, Jan. 29.—The supreme court has just decided that the titles of several holders in the public squares are invalid, and the city this will several millions of dollars given it under the old Pueblo grants. This includes Lafayette square, bounded by Sacramento, Laguna and Gough streets. The effect of the decision is to give the city a title to the squares, which are valued at \$300,000, also the hospital lot, Alamo square, Alta plaza, and Mission plaza. The matter has excited much interest on the part of the public.

Washington, Jan. 29.—The house committee on coinage, weights and measures began consideration of the silver question. The whole subject was discussed in an informal way and the members spoke more freely than heretofore they did not state their views specifically, but in very general terms. The discussion took a wide range, reference being made to the French monetary system and our own paper money. The following resolution was introduced by Mr. Lanham during the session: "Resolved, That it is the duty of the committee on coinage, weights and measures as early as may be practicable to report to the house a bill looking to free coinage of standard silver dollars."

Boycotting at Truckee.

The telegraph has informed the people of the Pacific coast of the troubles and agitations that have grown out of the Chinese question at Truckee, Cal., a small town on the line of the Central Pacific railroad only a short distance from the Nevada line. That the workmen of that place should rebel against the presence of the Chinese is nothing strange. Large sawmills are located at Truckee and for years Chinese cheap labor has gradually crowded out the white man and what was once a prosperous and lively town is now noted for its dullness. After suffering for years from the might of the Chinese, the men of Truckee, who have no country or locality can prosper, the people arose en masse and declared that the Chinaman was a nuisance and that he must give way to the white man. No disturbance has resulted from the movement, but the people were in earnest and most of the Chinese have departed. We have before us several hand bills and a circular from Truckee. Of the hand bills we can only say that they are no credit to the parties whose names are attached. Instead of discharging their Chinese help and quietly reaping the reward for performing an act that justice required of them, they have done the reverse, from public opinion, they continued supporting the Chinese element by giving the heathen work until the unavoidable matter went out from a suffering community that "the Chinese must go."

Canadian Pacific Steamer.

SAN FRANCISCO, Jan. 29.—It is reported that when the steamer Zealandia arrives from Australia she will proceed to Victoria and begin regular trips across the Pacific in connection with the Canadian Pacific railroad.

Will Decision.

ST. LOUIS, Jan. 29.—Ten years ago Isaac Foreman died here and left his fortune, \$100,000, to the title society. His daughter, the wife of a druggist, contested the will and it was decided in her favor.

Change of Form.

PHILADELPHIA, Jan. 29.—The ritualistic church of St. Ignatius, of which Dr. Rivalta is pastor, has this celebrating solemn requiem for the dead. The change excites consternation in church circles.

Found Dead.

PORTLAND, Jan. 29.—El. J. Hamer was found dead in the Willamette river at Oregon city. He had an apoplectic fit and fell in the river and was drowned. He was subject to these fits. He was from San Francisco.

Matched to Fight.

SAN FRANCISCO, Jan. 29.—Private notices have been received here from New York to the effect that Jack Dempsey has been matched to meet La Blanche, the celebrated marine, for \$1000 a side and a purse of \$1000. The fight will take place in private. The gloves to be worn will weigh a quarter of an ounce. The fight will be in the Marquis of Queensbury rules. The articles stipulate that only from six to ten persons on each side shall be present. The fight is to take place on the 15th of February, probably in New York city. The men are to fight at 160 pounds for the middle weight championship.

Silver Purchase.

WASHINGTON, Jan. 29.—Among the bills introduced in the senate by Sherman, providing for the continuation of the coinage and to provide for the purchase of silver in bars, the amount of silver to be purchased, 2,000,000 ounces not more than 4,000,000 ounces per month, at market prices, for which will be issued in payment the certificates of less denomination than \$10 each. The bullion shall remain in all treasury as security for the payment of the certificates.

Death of Crawford.

WASHINGTON, Jan. 29.—General Crook's official dispatch is at hand confirming the death of Capt. Crawford. Most of his comrades in Mexico confirm the previous report. The death of Capt. Crawford is greatly regretted at the war department.

An Estimated Honor.

It has been rumored that the Wells-Fargo express company and the Northern Pacific express company were about to consolidate, but from the following letter just received by Mr. Newton, the local agent for the Northern Pacific express company, it is evident that there was some mistake in the report:

N. P. EXPRESS COMPANY, OFFICE OF GEN'L. SUP'T., 821 PAVILION, Jan. 25, 1888.

Mr. C. E. Newton, Agent, Spokane Falls, W. T.

Dear Sir:—The following is a copy of a telegram I have just received from Mr. Oakes:

"You can notify shippers that the Northern Pacific express company will be continued as it is now, independent of any other express company, and they can safely continue to give us their patronage."

T. F. OAKES, Died at New York, Jan. 29, 1888. This sets at rest all the rumors prevailing heretofore as to our company selling out or withdrawing from the territory. Therefore, you can go to work with renewed vigor and know that everything is all right. You can resume merchants and patrons of this company that we will continue in the field for all time. If necessary show this letter to any doubting shippers. Yours truly, W. J. FOOTNER, General Superintendent.

A vast pond of water collected and inundated the sidewalk at the corner of Riverside avenue and Mill street yesterday. It does not speak very well for the drainage of our streets to have those pools wherever there is a slight depression.

SUMMONS.

TERRITORY OF WASHINGTON, COUNTY OF SPOKANE, James N. Glover, Plaintiff, versus Ellen S. Doolittle, Clara Shattuck Locks, Joseph H. Hughes, M. D. Hughes, and C. F. Hane, Defendants.

In the District Court of the Territory of Washington, and for the Fourth Judicial District thereof, holding terms at Cheney, Spokane County, in said Territory.

The United States of America to Oscar Doolittle, defendant.

You are hereby required to appear in the above entitled action brought against you by James N. Glover, plaintiff, in said District Court of the Territory of Washington, and for the Fourth Judicial District thereof, holding terms at Cheney, Spokane County, in said Territory, to answer the complaint of plaintiff, filed in Spokane county, within twenty days after the service of this summons, exclusive of the day of service, if served within said county; or, if served without said county, within thirty days, if served by publication, within sixty days after the date of the first publication of this summons, or the said plaintiff will take judgment against you by default, according to the prayer of the complaint.

This action is brought for the purpose of having declared fraudulent and void as to plaintiff and cancelled, and set aside as such the following described instruments of conveyance:

First—A mortgage bearing date July 10, 1884, made by said defendant, Ellen S. Doolittle, to said defendant, Clara Shattuck Locks, bearing date July 9, 1884, conveying the land and premises described in section twenty-nine (29) in township twenty-four (24) north of range forty (40) east of the Willamette meridian, in the county aforesaid, recorded at page 453 of book C of mortgages, in the office of the Auditor of said county.

Second—A mortgage deed made by said Ellen S. Doolittle to said defendant, Clara Shattuck Locks, bearing date July 9, 1884, conveying said premises and recorded at page 410 of book C of mortgages in said Auditor's office.

Third—A deed made by said Ellen S. Doolittle to said defendant, Joseph H. Hughes, bearing date July 15, 1884, conveying the land and premises described in section twenty-nine (29) in township twenty-four (24) north of range forty (40) east of the Willamette meridian, in the county aforesaid, recorded at page 26 of book E of mortgages, in the office of the Auditor of said county.

Said action is brought upon the ground that each and all of said instruments of conveyance were procured by the fraud of the plaintiff, respectively for the purpose of hindering and delaying and defrauding the plaintiff as creditor of said defendant, Ellen S. Doolittle, and were received by said defendant, Clara Shattuck Locks, Joseph H. Hughes, and M. D. Hughes, his wife, and C. F. Hane, in violation of said instruments, and in aid thereof.

That plaintiff is the owner of said debt, and is entitled to the same, and is entitled to have the same satisfied by the Sheriff of said county pursuant to a writ of execution against said defendant, Ellen S. Doolittle, and said several conveyances are clouds upon plaintiff's title.

That the Hon. George T. Swanwick, Judge of the Supreme Court of Washington Territory, and Judge of said County, and the said Clerk of said County, and the said Auditor of said County, are all parties to this action.
