### IMPORTANT TO SETTLERS.

A Bill to Protect Certain Purchasers of Land from the Northern Pacific Railroad Company.

Whereas, in the adjustment of the terminal line of the land grant of the Northern Pacific railroad company at the western terminus of the completed road, at Wallula, in the territory of Washington, different lines have been established at different times, by the commissioners of the general land office, defining the terminal limits of the grant, each and all of which lines have been located and fixed since the completion of the road to the point and

Whereas, certain individuals, between the date of the location of the first terminal line and that of the location of the final terminal line, purchased and contracted to purchase various tracts of land from said Northern Pacific railroad company, which, according to the grant of land adjacent to completed road, are within the terminal limits of the department, are thrown into that portion of the grant which is a line of uncompleted road; therefore, it enacted by the senate and house of representatives of the United States of America in congress assembled,

Editor Review:—Ellensburg is on the quiet side of expectation. Track-laying has been resumed and sufficient iron has been received to complete the road to this place.

On the 16th, twelve carloads of machinery arrived at Seelach station, six miles east of North Yakima, comprising the greater part of the tunnel plant and a saw mill, all of which will be taken to the site of the tunnel.

Active work has been commenced at the eastern portion of the tunnel, and the principal shaft was driven to the bottom of the tunnel on the 15th inst. Work has also been commenced at the west end. Should the company conclude to push the grade between here and the tunnel this season, Kittitas valley will see some fine work.

Ellensburg is filled with saloons, restaurants, gambling and dis-honesty, and the laboring men have been at work long enough to draw their feet from the mire.

I don't know why the editor of the Sunday Star should insinuate my unbusiness in the shameful and dishonest manner of his last issue. Such low thoughts can come from only a very vile mind.

THE SPOULE MURDER CASE.

Letter from Dr. J. E. Gandy to the Victoria Colonist.

To this Editor—I wish to claim space in your columns to put in a plea on behalf of the convict Robert E. Sproule to the attack made upon him by the Spokane Review and your contemporary the Times.

I have not read the testimony given against Sproule at his trial, but I can speak as to what the Review says, and I can say that if the evidence upon which Robert E. Sproule was convicted is of the same character as the attack upon him now referred to, he has been convicted on perjured testimony.

The Times says (not, I venture to say, its editor, but some one to whom the columns of the paper have been opened): "We are not crying for this man's life, but we are crying for his freedom."

W. T. before whom Robert E. Sproule was brought in for trial, charged by one John Stone with setting fire to two barns, the property of an old man named Kelley and his son, one belonging to each. The grain in the son's barn (as Sproule knew) belonged to one Braley—a close friend of his; Kelley senior was also one of Sproule's warm friends and it is strange that they quarrelled—old Kelley would not prosecute.

Mr. and Mrs. E. Bertram desire to express through this medium their heartfelt thanks to the many friends who have shown such generous kindness and so much sympathy in their behalf.
