WASHINGTON.

WASHINGTON, March 28.—The dissatisfaction among republican senators at what they consider unnecessary delay of the president in making appointments is gaining expression daily. Grumbling increases. Last Saturday half a dozen or so of republican senators who happened to meet at the capitol discussed the presidential tardiness with warmth and commented fully upon what they regarded as criticism shown certain senators. They remarked that both Massachusetts senators had been slighted and neglected, and that the custom of appointment in Boston had been vacillated for some weeks, though both senators urged daily the filling of them. The president had taken no action at all. One senator remarked that it looked to him as though the administration was a close corporation, made up of leading statesmen, including several senators. It is said that no senators except Logan and Don Cameron could get appointments. They seemed to get anything they wanted. This subject is a matter of every day talk now, and Rep. senators' criticisms and complaints that were recently whispered are now loudly spoken.

WASHINGTON, March 28.—House committee on territories had under consideration today the report of sub-committees to refer representative George's bill to provide a territorial form of government for Alaska, and Messrs. Ball of Alaska, Petroff of San Francisco, were heard in favor of the bill. A general discussion among the members of the committee on the merit of the proposition ensued, and committee adjourned pending discussion till Thursday next, when a vote will probably be taken.

CHICAGO, March 29.—Journal's Washington special says: Senator Sherman is said to be much annoyed at the removal of Wilson, revenue collector at Louisville, and the appointment of a grant man. He says if the administration countenances the present course he will make an open war and refuse to support the nominees. Other senators are also dissatisfied claiming that Logan, Cameron and Jones of Nevada control all appointments.

The Stephens resolution about the removal of Hayer, the official stenographer, brings out an explanation that Hayer was removed, not because he was a democrat, but because he got a salary from New York. From the associated press for duties which were inconsistent with the privacy which should attend a reporter in the houses of congress.

WASHINGTON, March 30.—Senator Teller told a brother senator this morning that his name would be sent to the senate next Monday or Tuesday, for secretary of the interior.

FOREIGN NEWS.

NEW YORK, March 30.—The Graphic's Washington correspondent says that Grant, when asked his opinion of the Chinese bill, said if he had been in congress he thought he should not have voted for the bill in its present form. The president did not

LONDON, March 28.—The night police force now ordered the docks number 600. It is believed to be the rebels' intention to blow up the tunnel to the north of Woolwich, which passes under the dock.

The Chinese Bill.

SAN FRANCISCO, March 28.—The Republican State Central committee met this morning and ordered a dispatch sent to the President through the California congressional delegation informing him that in the opinion of the committee his failure to approve the anti-Chinese bill will result disastrously to the interests and prosperity of this coast, and work a great injury to the people of every class.
CHICAGO, March 29.—The story of the president having indicated his intention of signing the Chinese bill is not credited. The president has given no sign yet but the general belief is gaining ground that he will veto it next Tuesday, so that probably on Monday he will send a veto message or approval with recommendation for its amendment. It is not currently believed that if he signs the bill at all he will give his unqualified approval. The American secretary of the Chinese legation denies that the Chinese minister has threatened in the event of the Chinese bill becoming a law to break off all friendly relations with this government. The Chinese minister has not intimated to any official what action, if any, his government will take, for he does not know himself. It is known that he regards 20 years as excessive. Senators Page and Jones, while disappointed to find that adverse argument had produced so powerful an impression on the president, came away nevertheless very hopeful that he will sign the bill. They then called on Secretaries Frelinghuysen and Lincoln. Both were non-committal. The opinions of these cabinet officers gave them no additional cause for apprehension. On the whole they look forward with much confidence to the result of the final cabinet conference on the subject to-morrow. Vice-President Davis remarked to a friend to-day that he considered the bill as undeniably in violation of the treaty, and would not hesitate a moment in vetoing it if he were president.

PACIFIC COAST.

SAN FRANCISCO, March 28.—A fearful wife murder was committed here at almost 9 o'clock last evening. Jess Killalis, a longshoreman, killed his wife, Maria Killalis, in a drunken fit of jealousy. Armed with a sheeps knife, Killalis proceeded in his fury to carve the woman in a horrible manner. The body of his wife lay lifeless at his feet mangled and bloody. There was no reason assigned for the fearful deed, but a spirit of jealousy inflamed by strong drink.

VICTORIA, B. C., March 29.—Two large british steamships, loaded with Chinese passengers, have sailed from Hong Kong for Victoria. About 4,000 more Chinese are coming this season, all of whom are wanted on railway work. Labor of all kinds continues in demand, men advance, and workshops are declining rapidly.

NEW YORK, March 30.—The Graphic's Washington correspondent says that Grant, when asked his opinion of the Chinese bill, said if he had been in congress he thought he should not have voted for the bill in its present form. The president did not

NEWS OF THE WORLD BY TELEGRAPH

Daily Evening Times.

WASHINGTON.

BY TELEGRAPH, SPECIAL TO THE TIMES

WASHINGTON, March 31.—Logan's illness is more severe than has been heretofore reported.

To the congressmen who persistently urged the appointment of a postmaster, the president said, "Whatever may be your feelings in this matter, you must remember I have the responsibility with me. I cannot concede to members of congress the absolute right to dictate my appointments in their districts."

The Chinese Bill.

BY TELEGRAPH, SPECIAL TO THE TIMES

WASHINGTON, March 31.—It is stated that one who has all along insisted that the president would veto the Chinese bill, says to-day indications are that it will be signed.

Attorney-General Brewster is said to be opposed to a veto from every point of view. Friends of the bill found, just as they expected, that in the enormous pressure which has been brought to bear on him by prominent senators and representatives, several cabinet officers opposed to the bill, a multiplicity of outside influences coming from railroad and steamship companies, from Eastern commercial interests, and from religious and humanitarian societies all over the country, that the president was prejudiced against the bill.

GENERAL NEWS.

BY TELEGRAPH, SPECIAL TO THE TIMES

Steamer Burned.

MEMPHIS, March 30.—The following is a corrected list of those lost by the burning steamer Golden City:

Dr. Monahan and wife of Jackson, Ohio; Mrs. Carey Fairmount from

near Cincinnati; Miss Litta Carey of Morton Place, near Cincinnati; W. H. Stowe and wife and Otis Wood and wife of Henderson, Ky.; Miss Annie Smith of Massachusetts; Mrs. Helen Percival of Hayesville, Ky.; Mrs. L. E. Kountz and three children and Miss Campbell a relative of Mrs. K. and Robt. Kelly, 2d engineer, of Atchison; the chambermaids, J. C. Crone 2d deck crew and a colored negro boy. Capt. McIntyre was asleep at the time the fire originated, but heard the alarm and came down stairs. He tried to get in the cabin, but the fire and smoke drove him back. Descending to the deck, he and the second mate made the burning boat fast to the coal fleet, and then aided some of the passengers in getting off the steamer. He was calm, and did everything in his power to save everybody. But all efforts proved fruitless, as the line which held the boat either burned or unloosened itself in some way, and she then drifted out into the stream.

TARRYTOWN, Miss., March 31.

The Annie monument at midnight last night was partially destroyed by dynamite. Since the attempt to destroy this monument on Washington's birthday by Geo. Hendrix, now a refugee from legal pursuit, the monument has been carefully guarded. It is a mystery how the perpetrators succeeded in lodging their explosives, as they had to act quickly. The dynamite was placed on the ground beside the base and there exploded. The report was heard a great distance. All watchers promptly hastened to the spot, when the base was found completely shattered. The shaft was left standing, lopsided, on three stonings, much damaged. Persons who made the attempt had disappeared and no traces of their whereabouts have yet been discovered.

KANSAS CITY, March 31.—Dick Little's confession is said to include all names of the participants in the Gads Hill, Cottonville, Glendale and Blue cut train robberies—in fact, to be a complete expose of all transactions of the James gang since his connection with it.

Don't forget

The coming city election will bring two parties out prominently. One will be urged on by the few persons who want to run the town for their own benefit, with out any regard whatever to the cost and inconvenience it may occasion for others—the party this is straining every nerve to get monopoly of the streets so as to keep out a good quality of water in order to force every property owner to take an inferior quality from them whether they like it or not. This party is headed by two or three persons who are urging their own election to positions for which they have already proven themselves utterly unworthy. This is the general impression.

The other party will present those who are opposed to monopoly wherever it can be resisted; who think the council should be elected from the various portions of town; who think it hazardous to place our municipal affairs in the hands of those who have well-known jobs on hand; and who know that the prosperity of our little city can surely be enhanced by a radical change in the city board. This party justly says: "Give us an opportunity for competition in the water supply, so that we may choose for ourselves as regards both quality and price." And this is the party which will elect its men, if they all pull together with a will.

For the information of all in whose ears the Bosses and their flunkies have been pouring falsehoods for the past few days, we would say that Mr. Cook did not apply for an exclusive privilege of the streets for water pipes. He only asked for working space, and believes as most of our citizens do, that no party should have the exclusive right of supplying water in our streets. Exclusive privileges should extend to the space needed in laying the pipes, only, and the way should be left open for competition. The Bosses themselves want this exclusive privilege. Their actions prove it.

LOCAL INTELLIGENCE

Macon Lodge meets every third Saturday night of each month.

From Monday's Daily

Remember the convention this evening at Five's hall.

Supt. Fairweather arrived in our city Saturday evening, spent Sunday with our people, and went down the road today.

Advertisements for proposals for furnishing supplies and for transportation, to various military stations, will be found in other columns of this paper. Read them carefully and then send for instructions.

We are informed that work on the branch road from the N. P. line to Seattle will soon be commenced. For the present, the branch will start from near Payall station and be constructed on the north bank of Stuck river.

James McNaught, Esq., attorney for the N. P. railroad company, and J. H. Houghton, Esq., land agent for the same company, arrived in this city on Sunday morning, on a special train. They proceeded to Westwood at noon, and returned toward evening, remaining till the regular train came along this morning. The object of this visit was to take such steps as were deemed necessary to effectually check the sale of timber on railroad lands, and to get pay for what had already been stolen.

Spokane Falls carries off the palm for timber thieves, there having been more logs stolen in this vicinity than anywhere else along the line. The price settled upon was seven or five cents per 1,000 feet stumpage. This will hereafter be required from all who wish to cut timber on railroad lands. Application must be made to the N. P. land agent at Cheney, accompanied by a description of the lands on which the timber is to be cut, when permission will be given, and full payment will be required for all timber taken, where it is desirable to let the same go.

Coal Railroad

The Seattle Post-Intelligencer says orders have been received from headquarters directing surveying parties to be put in the field at once to survey a line of road from the vast bituminous coal fields lying about thirty miles from Renton, between Green and Cedar rivers in King county. Parties are now being formed to do this work. The lines will be run and grades established during the present winter, and the work of grading and construction will be commenced in the early spring, and be pushed rapidly along as fast as men and money can do the work. The entire thirty miles are to be completed and in running order before the close of 1893. This road will tap one of the richest bituminous coal fields of the Pacific coast, which has recently been discovered and secured by the Villard people. The coal is of a superior quality, and will find ready sale at top prices in the markets of the world. The determination of Villard and his people to extend their road this distance, thus opening up a rich section of the country heretofore comparatively unknown, will be a big lift for Seattle and King county, and this announcement of their determination will be hailed with joy by all who have the interest of the county at heart. We have been reliably informed that work on this road will be commenced at an early date.

From Tuesday's Daily

Prof. Tierman is on Puget Sound, but will soon return.

Ice is pretty nearly subdued on Pend d'Oreille lake, and the steamer Villard is making her regular trips.

Spring has come, and plows are being brought into requisition. Frost is nearly out of the ground, and plowing will soon be begun.

Company H, 2nd Infantry, has been ordered from Fort Colville to Fort Spokane, W. T., for the purpose of constructing a bridge across the Spokane river somewhere in the near vicinity of the latter named fort.

Robbery—Last night of this morning a room in the Times Building was entered, and several suits of

clothes and other articles of wearing apparel are said to have been stolen. The parties suspected took the west-bound train today.

SHOOTING SCRAPE

—Last Saturday, at Ellispore, Allen G. White and W. J. Peal had a fight in the company's warehouse, on which occasion Peal got shot in the left arm. Peal went to Walla Walla today to enter the St. Mary's hospital, but expects to return in a couple of weeks. A warrant was sworn out at Westwood for the arrest of White.

Mrs. Dr. Gandy expects to depart for Fort Stevens on the 4th of April, to join her husband. A good story is told of Dr. Gandy, who recently planted a small garden and wrote down his relations here to come down and help him eat peas, string-beans and lettuce. A few days later, another letter was received from him stating that the snow was about four inches deep on his garden.

MAYNADIER'S CLAIM.—The house, after devoting the better part of three private bill days to the bill for the relief of Major Maynadier, paymaster in the army, killed it last week Friday in April, 1876, while at Prescott, A. T. Maynadier was robbed by his clerk of \$4,000. He borrowed the money and made the loss good, the clerk having but \$150 on him when arrested. The bill was to return the amount to Maynadier. During the debate it was stated that Maynadier was a broken down politician, forced into the army, and that by his carelessness he was equally as guilty as the clerk who took the money at different times. So says a dispatch to the San Francisco Chronicle.

CENTRALES COMING.—The intelligence comes to us that there may be thirty thousand Chinamen expected to come to this coast within the next three months. Never heretofore have such efforts been made to promote the importation of Mongolians as at this juncture. Immense numbers of coolies, mostly from the Canton district, are being sent to Hong Kong from the interior by native agents, where they are taken charge of by white agents of steamship lines. There is considerable competition for this kind of freight. At Hong Kong there were recently chartered one ship, two bars and two steamships to load coolies for this city, eight large vessels chartered to carry about 4,000 to Victoria, B. C., and the steamships of the regular lines are strenuously endeavoring to secure a complement of the same sort of passengers.—Portland Telegram.

Last Night's Convention

About ninety persons attended the meeting in Five's Hall last night. At least seventy-five were entitled to vote, although over one hundred ballot papers were cast. Mayor Forrest presided. The only candidates for mayor were the present incumbent and Mr. J. N. Glover. As a compliment to the man who had stood by the town since its infancy, Mr. Glover was nominated. On the first ballot for councilman Geo. A. Davis was nominated. Dr. Whitehouse was next nominated by acclamation. On the next ballot Samuel T. Arthur was nominated, and on the following, G. Palmiter. After this there was a large number of candidates before the convention, and in the confusion incident to a general misunderstanding W. C. Gray and A. M. Cannon were nominated. All through the vote of last election was republished for their benefit, the result on election day will not be so flattering to them. Mr. F. Post, owner of the Spokan Flouring Mills, was then elected as the seventh candidate. Meeting then adjourned.

RAILROAD ITEMS

—The Railroad Gazette, of March 10, says, of work on the Northern Pacific: "At the Mullan tunnel in the Rocky mountains the heading is now about 250 feet, and work is progressing well. From the tunnel west to Lake Pend d'Oreille a considerable force is employed in grading and getting out ties and trestle timber. East of the tunnel the eighty miles under contract and more than half graded. On the eastern and western ends of the Little Rosebud branch the heading is completed from the end of the track westward for 50 miles, and work is progressing rapidly."

A Montana exchange says

"Iron is now laid on the Northern Pacific a few miles west of Rosebud, on the Yellowstone, more than forty miles west of Miles City, and tracklaying is progressing rapidly. It is expected the track will be laid the entire length of the Yellowstone by Autumn."

SCHOOL MEETING

—A public school meeting will be held at the Cheney Academy on Friday evening, March 31. The trustees of the Academy and principal and preceptress will be present. The directors of Cheney public school and other citizens interested in advancing our educational interests are expected to be present. GEO. H. ATKINSON, Secretary.

Lost—A certificate of deposit, No. 791, in favor of Solen Nielson, on the Bank of Spokane Falls. All persons are cautioned against negotiating the same, as payment has been stopped thereon. SOLEN NIELSON.

FOR SALE—100 acres of land, rich soil, near Spangle. Inquire at the Times Office.

From Wednesday's Daily

SURGICAL ASSAULT

A. M. Cannon and B. H. Bennett, of the bank in this city, called at the residence of Francis H. Cook last evening, and finding he had not returned from town, wanted to know where he was, saying they might meet him. The visit was occasioned by articles published in the TIMES to which Mr. Cannon took exception. At 10 o'clock to-day Cannon and Bennett entered the TIMES office on the second floor, while none were present but Mr. and Mrs. Cook, with a babe in the cradle. Cannon demanded retraction, and swore Mr. Cook must sign papers (not then shown) or he would kill him. The editor did not do so, and Cannon drew a revolver to carry out his threat. Mr. Cook took up an iron side-stick (used in the office) and induced Cannon to put away his revolver, whereupon Bennett drew a revolver, stating that he was going to take part in the affair, even while Mrs. Cook pleaded with him to desist. As Bennett was trying to shoot, Cook took up another iron and knocked the weapon out of his hand. Cannon's aim was again being taken, with Mrs. Cook in line, when Mr. Cook crossed the revolver out of his hand and knocked the room. Bennett, by this time, had regained his weapon, but his left hand was stricken down by Mr. Cook. Cannon, who had regained his deadly weapon on the opposite side of the room, raised it to fire; but Mr. Cook was pulling the trigger, the weapon discharging through the stove-pipe, glancing to the ceiling. After this the blows fell rapidly, blood was scattered over the room, a case of type was pried, and the men closed in close embrace. Mrs. Cook had rushed down stairs, and a crowd began to gather. By this time Mr. Cook had regained his feet, and the assaulting party had ceased their efforts. After regaining the street, and after Mr. Cook had given up his piece of printing material, Cannon again threatened to kill Mr. Cook, but bystanders interfered. Warrants for the arrest of Cannon and Bennett have been issued; but neither will be able to be out, perhaps, for weeks. Both are under the care of physicians, and the scalp wounds they received, which are very severe, have been sewed up. Cannon was not injured, but was somewhat tired.

MYSTERIOUS DISAPPEARANCE

More Information Wanted. C. N. Williamson's ranch is situated on the south end of Moran prairie, about nine miles southeast of Spokane Falls. "New" Williamson, as he was familiarly known hereabouts, owned a span of gray horses, one flea-bitten and chunky, branded E or F on left shoulder, about 9 years old, the other a dirty white, slender, with dim brand, 8 or 5 on shoulder. He had returned from the railroad work with over \$100 in his possession. Soon after the 10th of July last, it seems, his wagon was driven alongside his oat field, a few rods out and carried to the wagon, after which no tracks could be followed. Farming implements were left in the field, and door of house locked, indicating a hasty departure. His parents, supposing he would soon return, waited for several months, and then had published in the SPOKAN TIMES a card asking for information regarding his whereabouts. His father received word that a wagon, containing brand and cooking utensils had been abandoned near the mouth of Dry creek, in Walla Walla valley, and proceeding thither, recently, recognized the same. No trace of the missing man can be found. It is presumed that some one hired him to drive to Walla Walla, and dealt foully with him on the way. He was about 23 years of age, 5 feet 7 1/2 inches high, weight about 180 pounds, dark brown hair and mustache, dark blue eyes, and of pleasant address and few words. A vigorous search for any evidence of his whereabouts will be made as soon as the snow has disappeared. The grief-stricken parents request that all persons between Spokane Falls and Walla Walla—on any route—keep a lookout for any evidence showing which road he may have traveled. He wore a 7 or 7 1/2 black wool felt hat, No. 8 boots, dark blue beaver coat and black vest, overcoat, well worn and cut square, fasten with one sleeve replaced by new cloth a little different in color and quality on left arm, brown jumper, and brown duck overalls; probably crossed Snake river about the 25th of July, at Texas, Central or Penawawa ferry. Ferryman and others who please study this subject, and if possessed of any definite information, report to papers, or to Mr. R. G. Williamson, Spokane Falls. Walla Walla, Lewiston, Colfax and Cheney papers please copy.

LIFE AND WORK OF GARFIELD

We are glad to see the announcement that a writer of so much well grounded reputation as is enjoyed by John Clark Ridpath, LL. D., has in the press of Jones Brothers & Co., Cincinnati, a biography of Garfield with a work of standard value. The reputation he has acquired as a historian of his country proves this. He is not in the habit of taking his facts from questionable sources. It is understood that in the preparation of this book he has drawn from the fountain head of knowledge upon the various divisions it comprises, and that it will be fresh in style and matter and admirable in all its appointments of printing, binding and illustration. In striking contrast with such a work are the many cheap "biographies" of Garfield, which are the old campaign lives with new title pages, now offered by various publishers. They are not wanted by those who desire a memorial volume worthy of preservation. They are of no more

value now for the real purpose of information than the ordinary campaign literature of 1880. We feel assured that Dr. Ridpath's book is the one that will stand the test of popular criticism and remain the standard authority upon its great theme. As will be seen by advertisement in another column, A. J. Stevens, of Cheney, W. T., is the General Agent for this work in W. T.

NEW ORLEANS, March 28.—The crevasse at Arizona plantation is 12 feet deep and 200 feet wide. This is a low tide crevasse, and may overflow all the sugar plantations in the entire Grossete country.

Vicksburg, March 28.—Reports from the overflowed districts are discouraging.

Natchez, March 29.—Steamboats are now sailing over wagon roads. All bottom lands on the Mississippi side as far as Fort Adams are under water.

NEW ORLEANS, March 29.—If the water recedes in the sugar districts within 20 days, enough can be saved for seed and for fair grinding. Appeals for rations continue from all overflowed sections, and 55,000 rations were shipped to-day for the Boeuf river; 60,000 for West Feliciana, Concordia and Madison parishes; also rations for stock.

WASHINGTON, March 29.—A telegram from Natchez says the backwater is rising and the destination increases. The steamer is removing people and stock across the country from Texas river to Natchez and the town is crowded with refugees.

CHICAGO March 29.—Mrs. Ballard, of Lincoln county, after a disagreement with her husband last Monday morning, took her children, aged respectively 3 months and 6 years and 7 years, repaired to a pond in the rear of the house, where she broke the necks of the two oldest, threw their bodies into the pond and drowned her self and infant. The family were respectfully cooacated.

NEW YORK, March 28.—The Tribune's Washington special says it is understood that one of Grant's object in coming here was to use his influence to bring about Porter's restoration.

NEW YORK, March 30.—The Herald's Berlin special says, terrorist placards are again making their appearance on the walls at St. Petersburg, one of which is of a most violent character, and declares Alexander III. is now condemned to death, definitely, without appeal, as he is the incarnation of all the horrors of the autocratic government.

Steamer Burned. Memphis, March 30.—The Cincinnati and New Orleans packet, Golden City, en route from New Orleans, to Cincinnati was burned at the wharf this morning.

this morning. Between 30 and 50 lives were lost, principally women and children.

Later—The steamer Golden City, of the Southern Transportation Co., when approaching the wharf this morning at half past 6 o'clock, was discovered to be on fire by the second engineer who immediately notified Capt. Purcell, the pilot on watch. The boat was run ashore four minutes afterwards. She touched the wharf at the foot of Beale St. where a coal fleet was moored. A line was hastily thrown and made fast to one of the coal barges. The current being swift, it soon parted and the burning steamer floated on down the river, a mass of flames with many passengers and the crew aboard, who were unable to reach the shore and were lost. The Golden City left New Orleans Saturday en route to Cincinnati. She carried a crew of about 60 men, and had about 40 cabin passengers, 15 of whom were ladies and 9 children. Her cargo consisted of 200 tons, among which was a lot of jute in which it is supposed the fire originated.

A Murderer Hung.

PORTLAND, March 28.—To day Katata, the Alaskan Indian who murdered Thos. Maloney early last fall in Alaska, was executed in the yard of the county jail at 11 A. M. Last night this doomed man was visited by several of the Catholic clergy and the rite of baptism was administered. He slept soundly between 2 and 7 this morning, and 8:15 partook of a hearty breakfast shortly before 11, o'clock, the hour designated for him to be executed. Katata was escorted by the sheriff and deputy U. S. marshal, followed by Catholic priests and several countrymen, and proceeded from the jail to the yard. Katata ascended the platform without betraying the slightest fear. When asked if he had anything to say he replied by bidding all present good bye. His feet were then firmly secured, wrists handcuffed to the belt around his waist and promptly at 11 o'clock the rope was adjusted around his neck and the black cap placed over his head. He gave a doleful death chant, according to the custom of his tribe. At one minute past 11 the trap was sprung and the body dropped with a dull thud. His neck was instantly broken. Fifteen minutes later the physicians pronounced his life extinct, and the body was cut down, then placed in a fine coffin and conveyed to a medical college where the body is now being experimented upon.

Top Buggies and Phaetons, 70,000 CARRIAGES

Manufactured by EMERSON, FISHER & CO., are now in use in every part of the American Continent.

They give unflinching satisfaction. All their work is warranted. They have received testimonials from all parts of the country of purport similar to the following, hundreds of which are on file, subject to inspection:

Wm. H. Emerson, Emerson & Co.: I have used one of your Top Buggies three years, and three of them two years in my livery stable, and they have given me perfect satisfaction and are in constant use. O. SMALLEY, Newton, Conn. & Boston, N. C. July 17, 1878.

Dear Sirs:—I have been using the Emerson & Fisher Buggy I bought from you as roughly as I suppose as any one could. I had a fast horse, drove at full speed, running with two grown ladies and myself in the buggy, and it is today worth all the money I paid for it. I say the Emerson & Fisher Buggies will do. A. M. TEAGUE, Farmer, GALE, Ill., July 16, 1878.

The favorable reputation the Carriages have made in localities where they have been used for several years by Livermen, Physicians, Farmers and others requiring hard and constant use, has led to an increased demand from these localities, to meet which the manufacturing facilities of their mammoth establishment have been extended, enabling them to turn out in good style.
