DR. JOSEPH WALKER'S
Wonderful Curative Effects of
DR. JOSEPH WALKER'S
Vinegar Bitters,
THE GREAT BLOOD PURIFIER.
Cleanses the vitiated blood whenever you find its impurities manifesting through the skin in Pimples, eruptions, or sores; cleanses it when it is obstructed or stagnates in the veins; cleanses it when it is putrid, and your rancor will tell you when. Keep the blood healthy, and all will be well.
DYSPEPSIA OR INDIGESTION.
Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distensions, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Copious Discharge of Urine, Pain in the Regions of the Kidneys, and a hundred other painful symptoms are the offspring of the Dyspepsia. For these troubles take Dr. Walker's Vinegar Bitters, and quickly all painful symptoms will disappear.
IT IS A GREAT PURGATIVE AS WELL AS A TONIC.
Possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. In this respect, these Bitters have no equal.
FOR FEMALE COMPLAINTS.
Whether in the young or old, married or single, at the dawn of womanhood or the furs of life, these Bitters display no decided influence that a marked improvement is soon perceptible to the benefit of the patient. FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT.
These Bitters have been most successful. They are caused by vitiated blood, which is generally produced by derangement of the digestive organs.
PILLS AND OTHER WORMS, lurking in the system of so many thousands on this Coast are effectually destroyed and removed.
MORIBUND CONDITION OF THE BLOOD.
This is the fruitful source of many diseases, such as Tetters or Salt Rheum, Kingworms, Boils, Carbuncles, Sores, Ulcers, Pimples, and eruptions of all kinds. For the cure of all these various affections, which are usually symptoms of a morbid condition of the blood, medical science and skill have not, as yet, discovered a blood purifier equal to Walker's Vinegar Bitters.
DISEASES OF THE BLOOD, LIVER, KIDNEYS AND BLADDER.
It thoroughly eradicates every kind of humor and bad taste, and restores the entire system to a healthy condition. It is perfectly harmless, never producing the slightest injury.
BILIOUS REMITTENT AND INTERMITTENT FEVERS.
Generally those of the Sacramento, San Joaquin, and other valleys, and the malarial fevers of the tropics, are invariably accompanied with extensive derangements of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic so powerful as Walker's Vinegar Bitters. It is not only a powerful purgative, but it will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the actions of the liver and restoring the healthy functions of the digestive organs generally. The universal popularity of this valuable remedy in regions subject to malarial influence, is sufficient evidence of its power as a remedy in such diseases.
For full directions read carefully the circular around each bottle.

DR. JOSEPH WALKER'S
Vinegar Bitters,
THE GREAT BLOOD PURIFIER.
Cleanses the vitiated blood whenever you find its impurities manifesting through the skin in Pimples, eruptions, or sores; cleanses it when it is obstructed or stagnates in the veins; cleanses it when it is putrid, and your rancor will tell you when. Keep the blood healthy, and all will be well.
DYSPEPSIA OR INDIGESTION.
Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distensions, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Copious Discharge of Urine, Pain in the Regions of the Kidneys, and a hundred other painful symptoms are the offspring of the Dyspepsia. For these troubles take Dr. Walker's Vinegar Bitters, and quickly all painful symptoms will disappear.
IT IS A GREAT PURGATIVE AS WELL AS A TONIC.
Possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. In this respect, these Bitters have no equal.
FOR FEMALE COMPLAINTS.
Whether in the young or old, married or single, at the dawn of womanhood or the furs of life, these Bitters display no decided influence that a marked improvement is soon perceptible to the benefit of the patient. FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT.
These Bitters have been most successful. They are caused by vitiated blood, which is generally produced by derangement of the digestive organs.
PILLS AND OTHER WORMS, lurking in the system of so many thousands on this Coast are effectually destroyed and removed.
MORIBUND CONDITION OF THE BLOOD.
This is the fruitful source of many diseases, such as Tetters or Salt Rheum, Kingworms, Boils, Carbuncles, Sores, Ulcers, Pimples, and eruptions of all kinds. For the cure of all these various affections, which are usually symptoms of a morbid condition of the blood, medical science and skill have not, as yet, discovered a blood purifier equal to Walker's Vinegar Bitters.
DISEASES OF THE BLOOD, LIVER, KIDNEYS AND BLADDER.
It thoroughly eradicates every kind of humor and bad taste, and restores the entire system to a healthy condition. It is perfectly harmless, never producing the slightest injury.
BILIOUS REMITTENT AND INTERMITTENT FEVERS.
Generally those of the Sacramento, San Joaquin, and other valleys, and the malarial fevers of the tropics, are invariably accompanied with extensive derangements of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic so powerful as Walker's Vinegar Bitters. It is not only a powerful purgative, but it will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the actions of the liver and restoring the healthy functions of the digestive organs generally. The universal popularity of this valuable remedy in regions subject to malarial influence, is sufficient evidence of its power as a remedy in such diseases.

SYNOPSIS REPORT OF PACIFIC RAILROAD.

We are under obligations to Senators Corbett and Williams for the following report: The report of the majority of the Senate Committee on Pacific Railroads is an exhaustive argument in favor of two additional trunk railroads to the Pacific—one from Lake Superior to Puget's Sound, the other from Little Rock, in Arkansas, and from the terminus of the Kansas Pacific railway in Kansas by the route of the thirty-fifth parallel, to San Diego and San Francisco. The report declares affirmatively that the bill reported by the majority of the Committee was intended to be the finality of legislation in aid of Pacific railroads; that after having provided substantially two additional trunk outlets—one for the Northern States and one for the Southern States—at suitable initial points, it was intended to leave to private enterprise and State endowment the future construction of branches. The report shows at length, and with a large array of statistics derived from the experience of the influence of railways in England, France, Belgium, Holland and the United States, that they are the greatest of all modern agencies for the production of wealth and the development of trade and commerce. It demonstrates that the import and export trade of the principal countries in Europe are in precise proportion to the development of their railway systems, respectively; that the experience of Belgium, France, Austria, Spain and Italy, shows that a track on railway works is the best sinking fund thus far devised for the speedy payment of national debts. It also shows that two additional trunk railroads to the Pacific are commercially necessary, demonstrating that a single line cannot do the work that will be thrown upon it; that additional lines, free from obstruction by Government, are needed to maintain uninterrupted intercourse to prevent the evils of monopoly; and Southern sections of the Union; to bring the public domain into market to increase immigration from Europe; to quadruple our yield of gold and silver; to save thousands of the cost of wagoning supplies to the 100 military posts in the Indian country, which now amounts to about seventeen millions a year; to reduce by one-half the number of troops maintained in the Territories by the greater mobility the roads will give the remainder; and to practically end Indian wars, which the report shows cost the country during the last campaign about one million dollars a week. The majority of the committee urgently recommend and to the roads as a means of immediate and lasting economy to the Government. The report avers that it is safe for the Government to do them, without reference to the incidental advantages of doing so, by showing from the accounts of the Quartermaster's Department with the Kansas Pacific Railroad that upon an average use of 220 miles of the road its earnings for work done for the Government not only paid the interest on the bonds advanced to the road and provided the sinking fund to redeem them, but brought the Government in debt to the road. The road opposes grants hereafter of Government aid like that given to the Union Pacific and Central, in bonds directly issued, but advocates a guarantee of the interest of the Government on the bonds, and a loan to the Pacific Road, to be repaid by a defined and limited extent. It declares that they are military, economic and political necessities, and concludes with the avowal that the people demand their construction, and do not, as has been alleged, participate in, or sympathize with, the recently raised outcry against Pacific Railway aid.

The following are the laws of Congress, touching the liability of subscribers to newspapers.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscription.

2. If subscribers who have not paid, order their papers stopped, the publisher may continue to send them until paid.

3. If subscribers refuse or neglect to take their papers from the office, they are held responsible until they have notified the publisher and ordered the paper discontinued.

4. If subscribers remove to other places without informing the publishers, and their papers are continued to the former direction, they can be held responsible.

5. The Courts have decided that refusing to take a paper from the office, or removing, and leaving it uncollected is prima facie evidence of neglect.

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids from the same cause; but by simply using Dr. Walker's VEGETABLE VINEGAR BITTERS, this natural aperient and tonic brings back the vigor and buoyancy of health.

Pure food is essential to sound health and long life. No chronic disease, sores, ulcers, skin eruptions, glandular swellings, discharges from the ear, sore eyes, sores or chancres in the mouth, will never appear if the blood is pure. To secure this great desideratum, take Dr. Walker's VEGETABLE VINEGAR BITTERS. It is the great Blood Purifier, and life-giving principle, increasing the power of digestion, and carrying the absorbents into healthy action, whereby all impurities of the system are expelled.

THE TRUE WAY TO SKIN BEAUTY.—It is not in cosmetics and artificial appliances, to the skin and complexion, that we must look for personal embellishment, but to pure and healthy blood. Let those annoyed with sallowness and rough skin, eyes yellow and dull, complexion disfigured with blotches, pimples, eruptive sores, etc., teeth discolored and breath offensive, cast aside all frivolous cosmetics, and resort at once to the use of Dr. Walker's VEGETABLE VINEGAR BITTERS, which will purify and enrich the blood, and give health and buoyancy to the system.

SPIRITUAL DEMONSTRATION.—At the Pacific Hotel, in this city, assembled on May 15th, the unnumbered, faithful found soul the work of matter and the crash of worlds.

The completion of so great a work should call forth congratulatory words from every citizen in the community. As the day of celebration is near at hand let every one prepare to take an active part. The committee who have the matter in charge have been industriously preparing to make it an affair worthy the starting point and great western terminus of the road. Arrangements have been made with the different railroad companies to pass from all persons who wish to take part in the festivities of the occasion. We understand that the citizens of San Francisco are also making active preparations to celebrate the great event in a becoming manner. We hope they will be able to do so to the satisfaction of the committee, which is to postpone the Sacramento celebration a few days, in order that we of Vancouver may attend, and give us as a part of the welcome to our celebration on Saturday.

Capt. Henry C. Johnson will have this morning for the front (or eastern terminus) of the Central Pacific Railroad, as a custodian of the hammer which will drive the last and golden spike in the connecting rail of the overland road. The hammer is made of solid silver, and we presume, manufactured by Lantry & O'Connor, of San Francisco, inasmuch as it bears their imprint. It weighs five pounds and a half including the handle, which is of young hickory stock. A silver plate on the handle bears the following inscription: For the last spike, from the Pacific-Express Company.

No wonder Enoch looked himself in his back office. He had been a hickory in his back office. He had been a hickory in his back office. He had been a hickory in his back office.

OUR PLATFORM.

1. Resolved, That the principles of the Republican party, as declared by the last National Republican Convention at Chicago meet with our hearty approval, and adherence thereto by the National, State and Territorial Legislatures will secure the peace and prosperity of our country.

2. That we recognize the great principles laid down in the immortal Declaration of Independence as the true foundation of democratic government; and we hail with gladness every effort toward making those principles a living reality on every inch of American soil.

3. That we regard with great pride and satisfaction the accession of the wise, efficient, and victorious leader of the American army, General Grant, to the high and honorable position of President of the United States, and confidently rely upon the earnest cooperation of the different branches of the Government, for the enactment and enforcement of such measures as shall secure the rights and liberty of every American citizen, upon principles of justice and equality, and that respect for the laws by the people, that will insure the peace and progress of the entire country.

4. That the interests of Washington Territory can best be promoted by the election of an able Republican representative of our Territory to Congress, who will exert himself to obtain the best laws for the material aid to the General Government for each and all of our citizens, and who, as opportunity offers, will make known to the people of the States, by public addresses, the great advantages and inducements our Territory presents to capital and population.

5. That a system of internal improvements in our Territory should receive the encouragement and support of the General Government in order that our important resources may be developed and the prosperity of the country promoted. Among these internal improvements, the construction of the Northern Pacific, Columbia River and Puget Sound and Walla Walla and Columbia River Railroads are of great and paramount importance, and their early completion highly necessary for the interests of not only this Territory, but also those of the entire country.

6. That the franchise of this Convention and by the hearty and united efforts of the Union Republican party will be triumphantly elected; and to that end, all personal preferences and prejudices should be waived for the general good, and the present, as well as future success of the Republican party and its principles be thereby effectually maintained.

COUNTY COMMISSIONERS COURT.—The May term of the Board of County Commissioners was brought to a close Tuesday last. There was a large amount of business transacted, and as this completed the term of office for the whole Board, we were anxious to learn the result of their labors, as well as those of the Assessor and Clerk during their incumbency, and find out if possible the condition of County affairs. Petitions were presented for roads; one from the Battle Ground to Lewis River, one from Campbell's to Lackamas, one from Patterson's Mill to Backmeyer's; one (private) from Peter Haber's to Wigles' Road, and one on Lewis River, (private) viewers were appointed in each case. A large amount of private claims were presented and allowed. The assessment list of Mr. Beall was overhauled and thoroughly examined and gave entire satisfaction. The assessment of the year while it is not so large as that of last year, contains more available property; hitherto they have been in the habit of assessing a large amount of property from which no tax could be realized, but this year values were established for each and every article, and they were not departed from for either rich or poor. There was an equalization of the property highly creditable. We notice that the assessor has taken a complete census of the County; to the Superintendent of Common Schools and to the Clerks of the various Districts, this will prove invaluable. The amount falls a little short of \$600,000; this work was done in fifty-five days, and that too, right in the midst of the business of the District Court. The Assessor surely drove the work, and not the work him. The accounts of the Auditor were examined and passed upon and from the bills as presented by him and his careful management of the County affairs, more than anything else is to be ascribed the healthy condition of affairs at the present time. We would not judge from the smallness of the orders passed for him that the position was a lucrative one, but while it has been to him a loss, to the County it is a large gain over the expenditures of other years.

UNION LABOR SOCIETY.—This Society will meet at Metropolitan Hall, on Thursday, May 27th, for the transaction of business. The object of this society is, we understand, to endeavor to settle all difficulties which may arise as much as possible by arbitration, and to avoid law suits and costs.

—A Simon pure Democrat of Freepost, W. T., recently made a speech in which he said, "that we want a man for Congress, who has no war record, but Governor Moore, McFadden and Lancaster all have one, and that man Garfield was going to push either one." That's so. The Democratic party of Washington Territory as a people do not want a renegade; especially when he falls back upon his war record to establish a political character, to represent them in the Halls of Congress, from the fact they can't help but doubt the sincerity which actuates such selfish motives, knowing full well that Gov. Moore is as changeable as a weather vane, and by his past public life, his future career politically, is as hazardous and dangerous to the party as ever. And our neighbors never can afford to give him a cordial support. A question naturally arises, how can the party support a man whose antecedents have been so antagonistic to the enunciated principles of Democracy for the past seven or eight years? And, further, how can they support a candidate almost unknown, and not identified with the whole interest of the Territory, in which they have their all at stake? When his only intentions are to reach, at the expense of the Government, his home in the States; and when, there, to bid adieu to the country that honored him with a nomination in a Democratic Convention. As it now stands the party have swung the scales of defeat, which they will surely reap at the close of the contest. Had they nominated some other Richmond for the coming conflict they might have hoped for success; but, as it is, each day brings forth something new on the political horizon which portrays a brilliant victory for Mr. Garfield over the disciple of "My policy."—Mountaineer.

JUVENILE THEATRICALS.—"Young Americans" in Vancouver have started an African Troupe. Their first show was on last Tuesday evening in Frelenrich's Hall opposite Maney's. We never laughed more at any exhibition. A great many boys, a great many girls, a great many gentlemen and some ladies were present, and the laughing and cheering were continuous. "We were not aware of so much juvenile talent of that kind in Vancouver. There was an enterprise about it that was very creditable. They deserve a full house on their next exhibition and we publish the programme with much pleasure. Every body should go next time, and show their quarters plentifully, for the boys deserve it.

PROGRAMME.

The African Troupe, just arrived from Africa, with a number of negro delineators, George Christy—Bob Oliver—Manager, will give another of their pleasing entertainments on Monday evening, May 21st, at Frelenrich's Hall, opposite Maney's. The performance will commence with a grand Walk 'Round by the company. My special request will be performed the "Ashing Teeth," "Mysterious Echo, Songs, Stump Speeches, Lazy Pete, The Flower of the Lock, Spiritual Rappings, to conclude with the side splitting farce, entitled "The Black Statue." Doors open at 7, performance to commence at 8 o'clock.

Our correspondent mentions the visit of Dirty shirt Ben and the fossil judge to Freepost, whence, he says, they made such disgustingly Democratic speeches as disgusted the Democrats themselves. It expresses the hope that both of them will visit and speak at all the towns in Washington Territory, as the Republicans can wish for no more effectual canvassers for Garfield. The fossil's principal grievance was that our country is about to be plunged into war with England, France and Spain, in the event of which, England will send 500,000 troops on the Southern Atlantic coast and take possession of all the cotton States and turn loose all the Indians of the coast upon the defenseless people to scalp every man, woman and child of them! Dirty Ben went after the nigger, chinaman and swahili, in his usual style—said he drove bulls at home—was for taxing government bonds,—and paying the public debt in greenbacks,—thought the niggers should be allowed to marry our sisters,—hoped the carpetbaggers would be cleaned out, by ballot or bullet,—argued ironically that he was himself, named Silvia, exclaimed audibly that for her part she would prefer a nigger,—and then Ben subsided. A bottle of whiskey then went round and the meeting broke up in a jolly Democratic drunk.—Oregonian.

PLUMBING AND FITTING.—We call the attention of our citizens to the fact that Mr. C. H. Myers, of Portland, is acknowledged to be the best plumber and fitter in the state. Those living in Vancouver who wish the water led into their houses cannot find a more reliable and trustworthy party than Mr. M. His terms are liberal, and he guarantees satisfaction. As the Water Co. have nearly completed the laying of the main pipes, in a short time the services of a competent plumber and fitter will be required, and Mr. M. will be happy to serve any who wish his services. All orders to be left at No. 119, First Street, Portland, Oregon. He also pays special attention to the fitting up of bath tubs, shower baths, etc., and does all his work at prices to suit the people, and he can complete with any other firm as his motto is "Live and let Live."

OH, EVIL!!—Enoch G. Adams, the editor of the Vancouver Register, was in our city last week. While here he met Mr. Stevens, a Custom House officer at Astoria, and solicited him to send over to Washington Territory, on election day, all the Republican voters that he could. Enoch dare not deny this. If he does we are prepared to pin him. And this is the man who talks so about Democratic colonizing voters. Enoch ought to be ashamed of himself.—Oregon Herald.

—We did see Mr. Stevens, and requested that he and all good Republicans should see that all Republicans entitled to vote on the other side of the river should be on hand on election day, and not be away in Astoria from their homes, when such great interests were at stake. We don't believe Mr. Stevens would state, or has stated anything else.

A Hindu niece of a distinguished Judge, hearing her parents recount his futile efforts in an oratorical display, became very much impressed. "Just then the incessant braying of Haydon's Jackass in an adjoining stable, called her to the door. She remained a moment, then ran back in to the house, crying out, at the top of her voice, "O, mother! Pa's brother is making a speech!"

THE GREAT METROPOLIS

A MIRROR OF NEW YORK.

JUNIOUS HENRI BROWNE,

The Author of this work needs no endorsement. His well known signature, as a leading and popular writer, is a guarantee of the value of his work.
