Apostrophe to Cold Water.
By E. G. ADAMS, A. M.
[When Grand Lecturer of Good Templars.]

All hail, thou priceless element!
Thou crystalline, clear cold water.
God has honored thee above thy fellow
Elements. Of thee he wove the rainbow.
The banner of everlasting Peace.
That banner he hangs on the cloud, as a
Perpetual reminder of his affection and
Good will to man. So all hail!
Whether bearing the noble ship on thy
Bosom with the riches of all lands,
Whether bursting in the desert on the
Fainting traveler's sight,
Whether bathing the hot brow and
Wounded limb of the prostrate soldier,
Or giving life and strength to the golden
Grain, or beauty to the meek eyed daisy
On the brooklet's margin,
Thou art equally beneficent.
Thou art half heavenly, thyself pure and
The great purifier of all things.
Thou art like a pendulum, constantly
Vibrating between Earth and Heaven:
Going up in mists and exhalations,
And returning in showers.

No wonder thou wilt enter largely into
The composition of Heaven,
One of whose chief pleasures will be
Walking in green pastures and beside
Still waters; so all hail!
Whether curtaining the mountains with
Mist, whether casting up pearls from
Silvery fountains, whether draping the
Sunset with variegated glories,
Or hanging rainbow pennants over the
Tents of the storm.
Thou art multifarious, like God, and one of
His grandest emanations.

A Reminiscence of Nicaragua.
A STORY OF WOMAN'S DEVOTION.

During the first Expedition of the Filibuster Walker (as some term this lamented officer) I was one of the few followers that were with him. Our Division under command of Gen. Hornesby, from New Orleans, La., composed the advance forces of his little army. After remaining in that country some two months or more we received tidings of Commodore Paulding's orders to disperse our forces, as we were accomplishing nothing productive of benefit to the Government. The Commodore succeeded in his object. Our band dispersed, and Gen. Walker proceeded to Washington, D. C., as a prisoner. Through the intervention of some of his friends he was soon released, and returned to New Orleans. As soon as he arrived in that city he set about organizing another force to proceed again to Nicaragua. He partially succeeded and with a few men he started forth again upon the stormy road of a soldier's life, to gain laurels or perish in the attempt. The summer of '58 found us, as I have said in the beginning, upon the tramp from Granada to Costa Rica, a small place of some 1500 inhabitants. They led to the main army upon our approach. After passing through this latter place, we halted and spread our canvass. Its white folds were flapping by the way of the wind so refreshing.

The natives of this country are of a very dark color, but not devoid of intelligence and beauty, possessing as they do, a ready wit, slow to anger, but never forgetful of an injury. Like an Indian, when a person once confers a kind favor upon them, they never forget it, but will surely reciprocate if ever it lies within the scope of their power.

Directly after we arrived at Porto Buena, a little town containing some 800 or 1000 inhabitants, some soldiers of Gen. Walker's command had occasion to visit the town on some business connected with the army, when some of the soldiers, having too free access to whisky, soon became intoxicated, and while in that state, insulted grossly a young lady of rare beauty, while she was quietly walking along the streets. She applied to Lieut. —, in charge of the soldiers, for redress. Not possessing any attributes of a gentleman, he seemed not to notice her complaints. She, being a lady of more courage than generally belongs to the sex, applied to Gen. Walker. Instead of turning a deaf ear to her as the Lieut. did, he listened

Vancouver, April 25, 1866.

DAVID WALL, DRUGGIST, is determined to keep a home trade at home, if selling none but the best articles in his line at the lowest prices, will accomplish it.

ed to her story of wrongs, and had the guilty offender summarily punished.
Two months had elapsed since this occurrence when the lamented General happened to fall a prisoner in the hands of the enemy. Gen. — condemned him to death, and on the day he was to be shot, just as the officer was giving the command "Ready," a beautiful young lady fell upon her knees, and in suppliant attitude, besought him to spare his life, but the mandate had been issued first from the lips of the cruel Nero, and his life, could not be spared, and as the third command, "Fire," was being given, she threw her arms around his neck, and there fell a victim with him upon the altar of his country.
MORE ANON.

We have received McCormick's Almanac for 1869. All our readers must notice the Ad. respecting the Vancouver Register. Our subscribers are very numerous. Pass in your names, but don't forget the money. This Almanac contains a great amount of statistical knowledge. We have made the following extracts respecting Clarke County and two other counties in this vicinity. Send us along some more, Mr. McCormick, we shall want to make further extracts.

Clarke county contains a population of 3,000, with assessable property valued at \$600, 587 75. This county contains 1,173 horses; 4,739 cattle; 5,222 sheep and 1,487 hogs. Vancouver, the county seat, was first established as a trading post for the Hudson's Bay Company, in 1824. The early Catholic Missionaries of 1838, first commenced their labors at this point. In 1849 a regiment of United States troops were quartered here, and it has since been occupied as a military post. During the past year several brick buildings have been erected in Vancouver, and the place bears evidence of the enterprise of its citizens. The Vancouver Register, a weekly newspaper is published at this point. The steamer *Fanatic* plies daily between Portland and Vancouver.

COUNTY OFFICERS.—Commissioners, Lewis Love, John Probstel and F. Lee Lewis; Probate Judge, Levi Douthitt; Sheriff, G. W. Durgan; Auditor, Levi Farnsworth; Assessor, Seneca Knight; Treasurer, D. Schuele; School Sup't, I. T. Mauley, Surveyor, A. McAndrew.

SKAMANIA County covers an area of 1,800 square miles, with a population of 218 and taxable property valued at 244,380 00. This county contains 4,318 acres of land under cultivation; 1,243 head of cattle; 165 sheep; 313 hogs; 110 acres under corn; 1,700 fruit trees. County seat, Lower Cascades.

COLUMBIA County is situated on the Columbia river, the boundary between Oregon and Washington Territory. This county contains a population of about 500. No. of voters 211. Acres of land under cultivation, 916. Value of assessable property, \$168,000.

St. Helens, the county seat, is pleasantly located on the bank of the Columbia river, and promises to be a place of much commercial importance. Lumber is extensively manufactured at this point, and during the past year the growth of the town has received quite an impetus. The other town and Post Office in this county, is Rainier, about fifteen miles down the Columbia.

COUNTY OFFICERS, Judge, Seth Pope; Sheriff, Jackson Peacher; Clerk, Wm. Pickering; Assessor, Geo. Merrill; Treasurer, John Ayres; School Sup't, J. W. Campbell.

Notaries Public, H. Caples and B. M. Watts, St. Helens.

The fare from Portland to Boise City is now reduced to \$45 in coin; from Boise City to Salt Lake City \$100 in currency, from Salt Lake City to New York City \$130 in currency, making the entire fare from Portland to New York in currency, \$294.

We have to thank some farmer for a potato of singular shape. It greatly resembles the Grecian bend. The potato is a root indispensable for household use.

Gold has been discovered in Atchison, Kansas. The discovery was made by workmen who noticed fine particles in a number of bricks with which the Catholic Church in that city is being built. Chemical tests showed that it was the pure stuff.

There are said to be 250,000 seeds of red clover in a pound.

Beriah would be in clover counting this, he is great on figures, besides he's gone to seed.

J. B. KELLOGG.

PORTLAND, OREGON.
Also, FORWARDING AND COMMISSION MERCHANTS, and Agents for the sale of Salem Pioneer Mill's OIL CAKE MEAL.
Sept. 19, 1868.—2-1-ly.

The New York Tribune.

It is just now fairly beginning to be known in New York that there is such a place as Washington Territory, and that Clarke County and Vancouver are situated therein. There is a smaller number of this excellent paper taken in our Territory than in any State or Territory in the Union, excepting the Territories of Arizona and New Mexico, in the former of which forty-two and the latter forty-five copies only are taken,—even Dakota beats us one number—69 to our 68. Of the 68 taken in our Territory 67 are taken in Clarke County, to my certain knowledge, 66 of the 67 numbers come, when they do come, addressed to me, and I address and mail them to subscribers. Now what I particularly desire to say is this, that the paper coming overland in large bundles (35 in a package) frequently gets broken and the papers scattered and they never reach here. Upon two occasions three weeks have elapsed without a paper, the last time they came, 46 out of 66 copies only arrived, which very much embarrassed me, as I desired to send to one subscriber without sending to all. I have determined, however, to send to persons in the country, and if any body suffers let these who reside here do so. If those who gave me a dollar to send for the paper will give me ten cents more I will send and have the paper addressed to each subscriber and it will then come more regularly than it does at present. It has been proposed by several persons to get up a club of fifty. I should be greatly gratified to do so and all who desire the paper will please send me by mail or otherwise \$1.10 in Legal Tenders and the paper will be addressed to each name in N. Y., at the office. Those who have subscribed send me ten cents. Those who wish the paper send me \$1.10 L. T. One word more and I have done. Reasons why the paper ought to be taken:
First, it is the cheapest paper in the country; second, its statements are reliable; third, it is the people's paper—it labors for the common good, and not that of a select few; fourth, partiality, favoritism, cant, hypocrisy, lying, cheating, stealing, ignorance and other forms of weakness and wickedness (for ignorance, weakness and wickedness are nearly allied) receive no countenance from it; fifth, it is a good agricultural paper; sixth, it is honest and independent in all things, neutral in nothing; seventh, now since the election is over and settled, if Mr. Greeley thinks the administration of President Grant good and wise (right) the *Tribune* will say so, if not it will say so. In a word, it is above want, and a nearly above temptation as any human institution can be, and the people of Clarke Co. and of Washington Territory would do themselves and their children great good and great credit by subscribing largely for the paper, because it is no deception, no humbug-taking, it is all in all but the best and cheapest paper in the world. Perhaps I ought to say that my motive in seeking to circulate it is to do the people good. The paper can do without us, but we cannot do so well without it. I propose to send the money for another club on the first of January, 1869. Remember, \$1.10 (L. T.) will secure you the paper for one year, addressed to your name and P. O. If you want it send me the money at an early day. One copy to one address costs \$2.00 L. T., of course all persons can see the advantage of sending in clubs. It saves you ninety cents and trouble of writing for it.
P. S.—All persons will please be particular to send me their Post Office address, plainly written. Any person anywhere in the Territory that will send me the money—\$1.10 L. T.—will receive the paper for one year from the time the money reaches New York. I suppose Capt. Adams (he is from home now) would like to have me say a word for the *Register*. Well the fact is the *Register* speaks for itself, and it utters no uncertain sound. The *Register* and *Tribune* would answer to be read in the same family without the danger of producing family jars, the *Tribune* as *Father* and the *Register* as the *Son* that had gone into a far country and had not wasted his substance in riotous living. Take both the papers and they will do you good, on the principle that if a little medicine will do you a little good, a good deal will do a heap of good.
I. T. MAULSBY.

Silk and Spun Silk.
The Silk Committee of the California State Agricultural Society, in their report on silk productions, says:
"William Holman has secured a patent for the production of silk from the bark of the mulberry tree, and an agent has arrived in California to form a company for the establishment of a factory to work on the new plan. The yearling branches are cut in the late winter or early spring, before the sap has commenced to rise, and are steamed for several days in a solution of potash. This dissolves and disintegrates the non-fibrous portion of the material, and the bark is washed to cleanse the fibre, which is next boiled in potash lye; washed in warm and cold water; boiled in a solution of alum, one pound in six gallons of water; dried and scolded combed for spring. This is the whole process, as patented, and is cheap and simple. We have seen a sample of silk represented to have been made by this process, and it has a fine fibre, five inches long, of regular thickness and of good color and lustre. We are informed that very little silk has been made in this way, probably not an ounce in all; and we are unable to present any statement of the amount of silk that can be made from a ton of mulberry twigs, or of the cost of production."
We understand that Mr. A. A. Sbaeben has the right for this Territory for the above invention. This discovery is likely to create a new era as regards silk goods of all kinds.

ANOTHER CAMPAIGN.—Alfred Barstow, the able and efficient Secretary of the Republican State Central Committee, whose administrative abilities are acknowledged, was married a few days ago, to Miss Rhodes, daughter of one of the Supreme Judges. Mr. Barstow having entered upon a second campaign the same year, we express the wish that he will find the *Rhode* strewn with flowers, and meet easy a thorn to prick and mar his limbs as he climbs the hill of life.—*Marysville Appeal*.
The campaign doubtless opened rich. It terminated, as all campaigns do, with a discharge from the service.

The Frontier Index says: The natural conclusion is that Grant and Colfax are elected, the silence that follows this election is like the dead calm that pervades just before a storm. The clouds of revolution are lowering. On with it! Freedom to the white race! Off with the crown of the military dictator—Grant! The sooner the tocsin of war is sounded the better. The next will not be rebellion. It will be revolution under the old flag.
Where do you bury your dead Mr. Frontier Index? Were you one of those that fled to the Territories to escape the draft? Don't "bust your bile," man!

The local influence of the *Lacrosse Democrat* may be inferred from the fact that there was not a Democrat elected to any office within a hundred miles of the place of its publication. Oregonian.
It is like a cowardly regiment excellent to go to the rear with. It is true to the instincts of the Democratic party.
"Great Democratic gains!" exclaimed an industrious rebel the other day, as he transferred the contents of the pocket of a Republican to his own.
An old fellow in Michigan, when the country was new, got lost in the woods several times while hunting. He was told to buy a pocket compass. He did, and a friend explained to him its use. He soon got lost, and lay out as usual. When found he was asked why he did not travel by the compass. He stated that he did not dare to. He wished to go to the north, and he "tried hard to make the blamed thing point north, but 'twan't no use; 'twould diddle, diddle right around and point about southeast every time!"
A DELINQUENT'S DREAM.—I dreamed a dream the other night when everything was still; I dreamed I saw old Belzebub coming down the hill. My printer's bill was in his paw, and blood was in his eye; says he, young man, your "weasel" draw, or else prepare to die. I gazed old Sooty in the face and saw my only chance, to avail myself of saving grace—'Twas pay up in advance!

We observed the editor of the *Democrat* yesterday looking intently through one of Frankel's microscopes. We afterwards learned that he bought one. It is supposed that by great exertion and the aid of this instrument he will be able to see "Democratic gains" somewhere. We await the result of his efforts.—*Albany Register*.
We would recommend this same microscope to Beriah. It would need to possess a great magnifying power to discover the Democratic party.
A Democrat at the Dalles, when the telegraph news of the late election arrived, exclaimed with more force than beauty: "That lets my bung out."
Laura Roam, an Indianapolis authoress, has a book in the press.—*Ex*.
Don't say how many reams there will be in the book.

The cyphering that is being done in our city papers over the election would give Dayball a fit of the colic, and make Playfair squirm like a skinned eel. The figures can't be made to jibe within four hundred.—*S. F. Paper*.
Send for Beriah, he can cypher, because he's a cypher himself. We sometimes think a huge sized syphon, too.
Only about 420 miles of the trans-continental railroad remain to be built. It is calculated that the road will be completed by the middle of April.
The *Commercial* says a "fried" writes from Stockton, so and so. It appears then his correspondent is at least half-baked, more than the editor is himself. His paper is Cooked enough if he isn't, because it is "hash." Occasionally he gets classical. Witness, speaking of Demosthenes, he calls him "Demosthenese." We would recommend for his special spelling of the name "Demosthe-nese." It would afford an opportunity to exercise the nose as well as the voice. Is not so, Mr. Irish Bull?

Same Pay to Man or Woman for Same Amount of Labor.

Civilized society has many wrongs in its formation. Many of its principles and customs are essentially incorrect, and promotive only of evil. We see the customs of savage nations and deem them very blameworthy, but are we without sin that we should cast the first stone? We see the females among the Indians made beasts of burden, and think them very degraded; but are women in civilized society treated justly, and as they ought to be treated? Are they used fairly? Do they receive just compensation for their labor? When they do the same work and do it as well, should they not receive the same pay? Our large cities are full of courtesans, of abandoned women, the victims of this injustice. A woman must work for a mere pittance, and yet clothe herself as expensively as a man. The custom of society makes her the slave of the man and his passions. Discouraged by unrequited toil she abandons her virtues, and sinks into the maelstrom of vice. Let every one, male and female, black and white, be treated justly, and we can well sing the dawn of the Golden Age. This is a time of progress. Let us not timidly take hold of a new thing, provided we are certain we are right. Right has lately had so great a triumph that those that love justice can take courage to fight for anything that will eventuate in good to mankind.

Fairplay is a jewel. Is there a man so cowardly he would more quickly defraud a woman than a man? If a woman teaches a school and teaches it as well as a man, should she not receive the same pay? If my work is done and well done, when I pay my price should I ask who did it? Certainly not. How much better off is woman (as a class) in our society than among the Indians? White men are higher in tastes and habits than Indians; so are white women than squaws. What I mean is, how much better off relatively, as compared with man of the same race, is woman in civilized and uncivilized life? A dozen wives among the savages have some claim on a man, some shadow of protection, some home, however poor it may be. One woman in civilized life has a husband and home while her husband lives, but what becomes of the eleven other women injustice has made courtesans and perfectly reckless? Only think what a mass of incendiary material accumulates in these vast cities! Is there a robbery, a murder or assassination but an abandoned woman is mixed up in the matter?—Surely our sins come back to roost.

Prices may be higher, but jails will decrease and taxes be lower, if this wrong of society is corrected. We are so far sticklers for woman's rights, that we believe the same labor should receive the same pay, no matter who does it, whether man or woman. Justice and fair dealing always ultimately bring peace and happiness. Be sure your sins will find you out, however you may conceal them with false colors and glosses. So the sins of society come back upon its own path. All its errors have to be paid in the dearest manner. The sore keeps fretting, till it spreads into a monstrous cancer. How much better to cure evils in the start! Some one says, "Woman is the weaker vessel." Should she then be dashed to earth? Is it not the glory of civilization that it protects the weak, that it awards justice to all? We do not plead that woman should be paid higher, but that she should receive equal pay when she does equal labor. Where her physical ability forbids her in the same field of labor of doing as much as man she is to receive less. Every one is to be paid according to labor done. What man so base, so mean as to wish otherwise! Such a man is not worthy to have a kind mother, a tender sister and affectionate wife. He should be banished from the amenities of female society. He should be expatriated from the land of beautiful women, should be sent to Siberia or exiled to Dakota.

ANNUAL MEETING OF SCHOOL DISTRICT NO. 6.
Pursuant to notice and adjournment, the legal voters of School District No. 6 met at the District School House on the 4th day of Dec., with Julius Suiste, Esq., as chairman, and I. T. Maudsly, Esq., as Secretary.

The report of Mr. G. T. McConnell, Clerk of the District, was received, and referred back to a financial committee, to report forth with. The committee appointed by the chair consisted of Gay Hayden, John Eddings and Louis Johns, who reported that they had examined the accounts and vouchers of the Clerk and that a balance of one dollar was found in favor of said Clerk. The report was approved and the committee discharged.

The Report and accounts of G. T. McConnell were then approved by the meeting.

The election of a Clerk for the District being in order, the chair appointed Gay Hayden and John Eddings as tellers. Julius Suiste was duly elected clerk of School District No. 6.

The election of Mr. E. Thimbleth as School Director was pronounced void on account of his non-residence in the District. John Eddings was elected in his stead.

There being no further business the meeting adjourned.

Railroad Meetings.
Pursuant to notice and adjournment, the citizens of Vancouver and Clarke County, met at Brant's Hall, on Saturday, the 28th of November, with Gay Hayden as Chairman, and Julius Suiste as Secretary.

The Chairman stated to the assembly that this meeting was to further enlighten the minds of the people upon the advantages, prospects and benefits to be derived through a Railroad located in our midst.

The following gentlemen, viz: Hon. H. G. Struve, Gay Hayden, E. G. Adams, M. R. Hathaway A. A. Shaeben and J. L. Rankin made remarks throwing light upon the subject, pointing out what the citizens had to do in order to secure to themselves the advantages of a Railroad at Vancouver.

A motion to increase the Committee already appointed to co-operate with the P. S. & C. R. R. Co. was carried. A. C. Smith and J. S. Hathaway were, on motion, elected additional members of the Committee.

On motion the meeting adjourned until Wednesday, the 2d of December, 7 o'clock, p. m.

Dec. 2d.—The meeting was called to order at the appointed hour, amidst the sound of music. The attendance of citizens of both city and county was much larger than at any of the previous meetings.

Mr. S. W. Brown, in response to a call, explained the object and purposes of the organization of the Columbia River R. R. Co. Rev. J. Sallee next addressed the audience in a humorously eloquent, serio-comic speech which elicited rounds of applause.

In behalf of the Committee appointed at a previous meeting, Rev. H. K. Hines presented with explanatory remarks the following preamble and resolutions:

WHEREAS, The tract of land in this city, known as the "Penitentiary Ground," was deeded to the United States at a nominal consideration, to wit, (\$50) fifty dollars, for the purpose of locating a penitentiary there.— And whereas no such use nor any other use has been made of said Ground by the United States, the same being at this time entirely unused and unoccupied to the serious detriment of the place, therefore

Resolved, That we petition the Hon. Congress of the United States to donate said tract of land to the city for the purpose of a Public Square.

Resolved, That the plan of donating alternate portions of our respective lands to the P. S. & C. R. R. Co. is in our opinion the best plan yet suggested, and that it is the best policy for the citizens of the place and vicinity in a pecuniary point of view to interest the heavy capitalists who have taken hold of this enterprise in the success of our place, and thus ultimately with ourselves, and to the extent of one half.

Resolved, That the United States Reservation at this place, containing 640 acres as it does, is unnecessarily large; that the greater portion of it is entirely unused and unnecessary for the purposes of a military post, and that it should be reduced in such manner as the Government may deem proper, with a view to actual settlement, for which purpose it is much needed and would be in ready demand.

Resolved, That in the judgment of the undersigned, that the citizens of Clarke Co. and others interested in the enterprise of connecting the waters of the Columbia river and Puget Sound by Railroad should petition Congress of the United States to reduce the Military Reserve to such dimensions as may be deemed proper and to open the rest to settlement and occupation.

J. S. HATHAWAY, Chairman.
Mr. Hines expatiated on the above resolutions and proposed that the City Council officially and the citizens of Vancouver should petition Congress to give the interest of the United States in the Penitentiary Grounds, in this place, to the City of Vancouver for a Public Square. Also urged the propriety of some of the prominent citizens consulting the military officers of the post and of the Department on the subject. He thought that by proper representations to Congress, backed by the concurrence of military officers, the Reserve would be reduced to such limits as would answer the requirements of the service without uselessly retarding the city's growth.

On motion the above resolutions were unanimously adopted.

A motion that the Chairman appoint a committee of three to whom the resolutions be handed to be carried into effect was adopted. The Chair appointed Messrs. Suiste, Brown and Durgan as said Committee.

Mr. A. C. Smith, who draughted the proposed plan of the extension of the City of Vancouver, explained to the meeting the different positions of the lands of the present owners as they appeared on the map on exhibition in the Hall. His explanations elicited pertinent remarks from Hon. H. G. Struve, Julius Suiste and others. Mr. Smith was granted further time to complete his map.

Mr. S. W. Brown urged the necessity of having a survey made by the citizens of Clarke County, and moved that a Committee of three be appointed to solicit necessary funds to carry out the survey. Carried. Messrs. Sallee, Hathaway and Whipple were appointed a Committee for the above purpose.

Messrs. Farnsworth, Maxon and Durgan were appointed an Executive Committee to see that the survey be made.

A motion that those having offered contributions to the Railroad in the shape of lands be requested to fulfill their engagements within ten days, was carried.

This meeting, which was graced by the presence of numerous ladies, adjourned until further notice.

JULIUS SUISTE,
Secretary.

Stranger in Portland, spend not your money foolishly, but go to the theatre, and see the splendid dramas acted by Mr. and Mrs. Bates, Miss Cummings, Messrs. Fuller, Wilson, O'Neil and others.

We would call attention to the advertisement of the New Columbian House. Mr. Carney is one of the most enterprising men on this coast. He is a live business man. He appreciates a live paper and so advertises in the Vancouver Register. Mrs. Carney is one of the finest landladies in Portland, it being her chief aim is pay every attention to their guests. With such a host as Mr. Carney and such a hostess as Mrs. Carney the traveler will not want for any attention.

P. H. FOX,
Civil & Military Tailor,
VANCOUVER, W. T.,

Has removed his shop directly opposite "Chop John's" store. He returns thanks to the citizens of Vancouver and Clarke County generally, for past favors, hoping to merit a continuance of the same.

Sheriff's Sale.
BY VIRTUE OF AN EXECUTION ISSUED OUT OF the United States District Court for the 2d Judicial District of Washington Territory and to me directed and delivered in favor of Amos Underwood, and against F. O. Inness for the sum of thirteen hundred and twenty-five dollars and eighty cents, (\$1,325 80) judgment, and thirty-three dollars (\$33) costs with two per cent per month interest from November first 1887 until paid, I have by inclusion (for want of personal property) the following described real estate situated in Skamania County, W. T., to wit: The Northwest quarter of the Northwest quarter and Lots No. 6, 7, and 9, in Section No. 1, in Township No. 2, North of Range No. 7, East of the Willamette Meridian, containing 96 1/2 acres, also the North half of the Donation Land Claim of Folio 6, Inness, No. 44, being part of Section No. 2, and eleven, in Township No. 2 North of Range No. 7, East of the Willamette Meridian, containing 322 1/2 acres, and also the North half of the Donation Land Claim of Daniel Boughman, No. 22 being parts of Range No. 1, 2, and 11, in Township No. 2 North of Range No. 7, East of the Willamette Meridian, containing 160 acres more or less.

Notice is hereby given that I will sell the above described pieces of land on the premises, on Saturday the 12th day of December 1886 at 10 o'clock a. m. of said day or so much as will satisfy a judgment calling for the sum of \$1,325 80 and \$33 costs with two per cent per month interest from November first A. D. 1887 until paid together with costs and accruing costs.

A. R. McDONALD,
Sheriff of Skamania County, W. T.
Cascadia, W. T. Nov. 21, 1886.—at 6m.

A Letter
FROM THE KEEPERS OF THE TERRITORIAL INSANE ASYLUM.
Monticello, W. T., Nov. 30th, '86.

EDITOR REGISTER:—There is an article going the rounds of the press in this Territory and in Oregon in regard to the Territorial Insane Asylum, in which it is stated that the Asylum is very much crowded and that there are now sixteen patients in said institution.

The keepers of the Asylum would be glad to make some corrections to the above statements through your paper for the benefit of the patrons of the Asylum as well as the public generally. That the Asylum is somewhat fuller than when it came into our hands is a fact, but we have room where we could keep others if it were necessary. We now have nineteen patients, an increase of nine over the number received July, 1886, from the former keepers at Vancouver, besides three who have become sane and been discharged by the board of inspectors, and one died while an inmate of the Asylum.

While writing a line of corrections in regard to the Asylum we beg leave to also give a short description of the premises, believing it will be of interest to the people all over the Territory.

The Asylum has been under the superintendence of Mr. Hays, one of the original contractors, until the 3d of August last, at which time he sold his interest in and removed from the institution, since which time the former warden, O. C. Huntington, has been Superintendent, assisted by Mrs. H. E. Huntington, his wife, who is now acting Matron of the Asylum.

Since the 31 day of August last we have built a commodious kitchen and store-room for the use of the inmates, are now putting up an addition to the main building, that is more than half the size of the one now in use. The new building will contain thirteen rooms, for one person each, and a sitting-room for the men exclusively. We are also otherwise improving the premises by painting the buildings, setting out shade-trees and shrubbery this Fall, and also intend to have another yard walled in, to be used by the men, thus keeping the sexes entirely separate. These improvements, together with leveling the yards and grounds adjacent to the buildings and seeding them with grass, we expect to have done this Fall and Winter. In fact we will spare no pains to make the Asylum comfortable and pleasant to those placed under our care. But before we can make the Territorial Insane Asylum what it should be and what it might be, the Territory must meet the expenses of keeping the insane and the idiotic of the Territory as per contract. We need and must have our money when due before we can conduct the affairs of the institution honorably to ourselves or creditably to the Territory. We only ask that our money be paid when due. The law makes it the duty of the Territorial Auditor to estimate the cost of keeping the Territory at the commencement of each year, and to furnish the Territorial Treasurer with said estimate, and it is then his duty to reserve the amount out of the Territorial funds in his hands to be paid at the end of each quarter. This last has not been done, and we have been obliged to present our warrants at an empty treasury, when funds that have been appropriated by law for the benefit of the unfortunate of our country have been applied to other purposes, and our warrants returned to us to hold three, six, and even nine months, unpaid, thus putting us to very great inconvenience, as well as no little loss. That we claim no more than the law grants, we refer those interested to the law passed January, 1864, and amended at the session of the Legislature for 1866—7, and that the law has not been complied with, we refer to the Territorial Treasurer's report for 1867.

We consider the above evidence sufficient for the present and now close this article by asking pardon for trespassing so long upon your columns and patience.

Yours, &c.
HUNTINGTON & SON,
Keepers Insane Asylum.

We must not forget our kind host of the What Cheer House. He remembers the Editor and truly it can be said of him "Of such are the Kingdom of Heaven." He don't put an Editor in the fifth story, but gives him a splendid room, and such a bed, so nice, so soft and white, The Editor deemed himself in Eden while he dreamed. You bet he knows how to keep a hotel. May his shadow never grow less. Traveler, if you want to know what cheer, I will reply the best the market affords, and live waiters too.

We call attention to Mr. I. I. Henriksen's Advertisement in another column of our paper. If you want good and nice Furniture, at San Francisco prices, call on Mr. H., and he will accommodate you.

Sportsmen will find something to their interest by reading John Powell's advertisement in to-day's paper. He is going to have a regular old fashioned "Shooting Match." So take down your old rusty, musty rifles, clean and scour them up, and prepare yourselves for a jolly time, on Friday 25th inst.

The Stomach and the Liver
Are the important organs of the body, either for health or disease. Keep them strong and vigorous, and all will be well; allow them to be disordered, and the whole system is sick. Bristol's Sarsaparilla and Sugar coated Pills are prepared expressly to act on the liver and stomach. Every bilious disorder and every derangement of the digestive functions are controlled and strengthened by these two great remedies.

Why is a certain editor in Bear River, Wyoming, an Ass? Ans. Because his ears are so long and big you can see them in front, which makes them a Front ear Index.

EASTERN NEWS.

(From dispatches to the Daily Oregonian.)

A. Johnson's last "Talk."
Chicago, Dec. 5.—The Times gives the following abstract of the President's Message, which will be sent to Congress to-day. The message covers the following points and conclusions:
1. That the Southern States remain prostrated; their industry and their resources cut off; a goodly portion of their population disfranchised; their Constitutional privilege of representation still denied, and most of them under military rule. The message commends the report of the Secretary of the Treasury, endorsing his views for a return to specie payments through reduced expenditures, revised taxation and gradual contraction of the paper circulation, with suggestions for legislation for one currency only; and that the national banks should have their powers restricted.
Our Foreign Relations are in favorable condition. Our negotiations with Great Britain on the Alabama claims have not reached a conclusion. Certain portions of the supposed protocol for arbitration are not approved by this Government, and have been returned to Minister Johnson. The arbitration between Paraguay and Brazil has been declined. The course of Paraguay is commented on, though there is an absence of official detail about the late outrage by Lopez. We have negotiated a new treaty for the protection of our naturalized citizens abroad. We have recognized the new provisional junta of Spain as a government, but have received no accredited Minister from the same. Our affairs with Mexico are satisfactory. Arrangements for a mixed Commission to settle the claims of the United States against that country are in progress.
The President says the Government has failed so far in its negotiations for the purchase of naval stations in the West Indies, and learns the French are trying to get the Bay of Sonoma from the Dominican Government.
The official facts show enormous frauds on the revenue which must be crushed or the revenue will fail, and the nation will become involved in ruin. The President calls for strong legislation and urges the repeal of the civil tenets act which he regards as a hindrance to the efficient administration of affairs. He refers to the Indian troubles and the violence of the peace commissioners, and officers. The military establishment expenditures will be largely increased on the plains. He favors the withdrawal of the troops from the Southern States and the reduction of the army.

Meeting of Congress.
Washington, Dec. 7.—In the Senate, Drake moved to refer Hill's credentials to the Judiciary Committee. He understood that the white members of the Georgia Legislature had combined and expelled all the colored members, thereby putting the Legislature under rebel control. Senator Sherman hoped such an unusual course would not be taken, unless good reason can be shown affecting the status of the State or the Senator elect. No such reason appears against Mr. Hill. He was elected by a loyal majority; had been loyal throughout the war, and was now prepared to take the oath and should not be held responsible for the action of a majority of the Legislature, which he strongly condemned.
Drake said he had no objection to the gentleman, but the question of admitting him involved the great question whether the power of Congress over a reconstructed State ends the moment that State is recognized by either house, as it referred to in the Union. If it would be in the power of any State immediately on being recognized to undo everything that had been done under the reconstruction act and restore the rebels to power, it was in his judgment a question of continuing the power of Congress over the lately rebellious States. Hill's credentials were laid on the table for the present.
Several bills were introduced, one providing for the resumption of specie payment July 4th.
Adjourned.
In the House, 164 members answered to their names. A committee was appointed to wait upon the President in the usual manner. Credentials were presented by Oliver J. Dickey and S. Newton Pettis, of Pennsylvania, elected to fill vacancies, and John H. Storer, elected from Wisconsin, who were all sworn in. The credentials of Wynny of Georgia, were referred to the Election Committee.—Morrill, of Pennsylvania, offered resolutions censuring the conduct of Reverdy Johnson and requesting the President to recall him. Randall moved to lay the resolutions on the table. Lost after an animated discussion.—Resolutions referred to Committee on Foreign Affairs.
Boutwell introduced a bill providing that all male citizens of the United States over twenty-one years be entitled to vote for Presidential electors and representatives to Congress. A variety of other bills and resolutions were introduced and referred. Two Constitutional amendments were introduced prohibiting States to exclude from the suffrage any citizens on account of race or color.
Georgia Affairs—Congressional.
Washington, Dec. 7.—A communication from the Governor of Georgia was read in the Senate. It states that the reconstruction laws have not been fully exercised, and that members of the Legislature were allowed to take the oath without regard to eligibility, and were not required to take the legal oath. The failure to execute the law has tended to defeat the purposes of Congress in the reconstruction acts. The Governor asks Congress to take such steps as they may deem proper.
Yates introduces a bill providing that any alien desiring to become a citizen of the United States may be admitted, and prescribing conditions therefor.
Drake introduced a joint resolution providing that no vacancies in the rank of General, Lieutenant General, Admiral or Vice Admiral shall be filled without the authority of Congress.
Treasury Report.
Chicago, Dec. 8.—The Secretary of the Treasury, in his report, favors a speedy return to specie payments, and suggests a curtailment of paper money as one of the best means to effect this object. His financial exhibit for the year is not favorable. It shows a large deficit of receipts under expenditures; but this, he says, is owing to the extraordinary expenditures for soldiers' bounties, Alaska, and railway bounties, the latter taking \$25,000,000.

The Southern States.
Memphis, Dec. 7.—Dispatches from Augusta say that a regiment of militia entered the town and took possession of the telegraph office, ordering the agents to send no messages unless approved by their officers. They placed guards on the streets, and proclaimed martial law. No reason was assigned for these proceedings.
The latest news from Holquin is favorable to the hopes of the loyalists. Reinforcements had been sent to them. The Diars reports that some rebels entered a private dwelling and violated four girls in the presence of their parents.
Gold closed to-day at 135 1/2.
New York and Liverpool quotations remain unchanged.

THREE HUNDRED AND TWENTY ACRES of Land 6 miles from Vancouver on Fourth Plain. Owner, Wm. Probstel, Title, U. S. Patent. For particulars enquire of J. Probstel, Jr., at Winter's Store, Vancouver. Oct. 14, 1868.—nd-1f.

Territorial Items.

We clip the subjoined items from the Walla Walla Statesman of the 14th inst.
A meeting of the leading Republicans of Walla Walla county was held at the City Hall on Saturday evening last, for the purpose of devising measures to secure the publication of a Republican paper in this county.
The County Commissioners have made the improvements on the Wallula road, suggested in the Statesman over a year since, and have placed that great thoroughfare in excellent condition for the winter trade and travel. The bridge across Mill creek has been changed and the road in every respect placed in excellent condition.
The new mines discovered on Perry Creek late in the fall, so far as prospected and worked, prove to be very rich and extensive. Mr. Bartlett, who returned from the new camp on Thursday last, reports eight claims opened, two of which pay over \$100 per day to the hand. Mr. McCaulay, an old Cariboo miner, is working with sluices and employing some five or six men, averaging, so far, \$90 to the hand; he is also running a shaft into the hill opposite his claims, and on the day Bartlett left, had struck paying dirt, with very handsome coarse gold. Provisions are not over plenty in the camp; what there is selling at very high rates. About 75 men will winter in the camp. A large number of miners from Montana have secured claims; they will return in the Spring to work them. Mr. B. says that a regular stampede is expected from Montana early in the Spring. The Hudson's Bay Company have a store already in the camp, and until the trains from Walla Walla arrived, done a good business and sold goods at enormous prices. Flour was sold as high as fifty cents per pound, and other goods in proportion. They received over \$1,200 from the sale of five kegs of liquor.

The Olympia Tribune of the 14th says:— "We understand that Gov. Moore and Ben. Holladay are daily expected in the Sound on the steamer Orizumme. The latter comes, it is said, to take notes of the character of the country heretofore, with reference to the selection of a terminus.
IMPORTANT LAND OFFICE ORDER.—The general land office has issued some important orders relative to the act of Congress of March, 1866, for the relief of the inhabitants and towns on public lands; and the act amendatory thereof, passed in June last, may be of interest to new town proprietors. The orders provide that when town sites are located upon lands already surveyed, the entry must be made in conformity to the legal provisions of the public lands, and no costs in regard to past surveys, will be exacted when sites are upon unsurveyed land. It will be necessary, after the extension thereto of the public surveys, to close the lines upon the exterior limits of the town site. The law of March, 1867, stipulates that there shall be conceded, when the number of inhabitants is 100, and less than 200, not exceeding 320 acres; where the population is more than 200 and less than 1,000, not exceeding 640 acres; where the inhabitants number 1,000 and over, and not exceeding 2,000, 1,280 acres; and for each additional 1,000 inhabitants, not exceeding 5,000, a further grant of 320 acres. All military and other reservations of the United States, private grants, and valid mining claims are excluded from the operations of the town site laws.

The North-West Branch of the Union Pacific Railroad.
From all that we have been able to learn both from the newspapers and from individuals, we are led to believe that the building of the Northwest Branch of the Union Pacific Railroad, commencing at Promontory Point north of Salt Lake City, and running through the Boise country to the Columbia river and thence down the river to Puget Sound, is now a fixed fact and will be commenced as soon as the grading on the main trunk is completed, which will be early in the coming spring. Colonel Kelly informs us that while east of the Mountains he met Colonel Hadrutt, one of the chief engineers of the U. P. R. I., and from him learned that the road was sure to be commenced by next April, and that as far as he had examined the country it was found a great deal better than he had been led to believe from what he had heard. He was particularly well pleased with the timber in the Blue Mountains.
Now, that we are about to have this great enterprise, in the course of a year or two, running directly through our City, real estate should commence to look up. During the building of the road, for a year or so at least, this will be a very lively business town. It is our opinion that the Dalles may remain the terminus for several years. At any rate, the real substantial benefit that this section of country will derive from the Railroad will be the filling up our valleys with farmers and giving us cheap transportation for our produce. Agriculture is the only true and lasting foundation to prosperity for any country. The future of the Dalles never looked brighter. The darkest hour is just before day.—Mountaineer.

ACROSS THE CONTINENT.—The tracklayers of the Union Pacific road have reached the nine hundredth mile post, and the Central Pacific road extends four hundred miles east of Sacramento, or to a point about two hundred and fifty miles distant from Salt Lake.—M. Messenger.

A Mrs. Louisa Wafer, in applying for an extension of a license to keep a tavern in London, adduced proof to show that during the twenty-four years she had presided over that institution, she had induced the enlistment of 25,372 men into the British navy.

IN TOWN.—General Frank P. Blair, the Democratic ex-candidate for the Vice Presidency, is in town, having arrived this morning. He is stopping at the Townsend House.—Salt Lake News, 12th ult.

Going up Salt River by the way of Salt Lake.
A girl in New York stole the clothes off a baby, and left the sweet child naked and screaming for its mother.
Wonder whether she took the diaper for a pocket handkerchief.

The annual meeting of Vancouver Engine Company No. 1, for the election of officers will be held at the engine-house on Monday evening, Dec. 14th, at 6 1/2 o'clock.
J. F. SMITH, President.
P. O'KEANE, Sec'y.

FIREMEN'S ELECTION.—The several fire companies of the Vancouver Fire Department will meet at their respective rooms on Monday, the 14th day of Dec. 1868, and to elect officers for the ensuing year.
P. H. FOX, Secretary of the Board of Delegates.

The third track on the Hudson River Railroad is nearly completed.
To J. URS.—Mr. G. T. McConnell, clerk of the U. S. District Court, is in the possession of funds to liquidate jurors certificates.

PAINTS AND OILS, VARNISH AND BRUSHES
and all kinds of Painters materials just received by Steamer from San Francisco by
DAVID WALL,
Vancouver Drug Store.

Pierce Bowman was in our sanctum the other day, and declared to us that when he was at Knight's Ferry, in California, Grant used to make a business of borrowing fifty cents of him for whisky money; and that he is well acquainted with Tommy and Peony Grant, the progeny of Horse's Digger squaw.—Frontier Index.
Probably Pierce Bowman was better acquainted with their mother than Grant was.
George Francis Train is in an Irish prison for debt, and his daughter drives a stylish team at Newport.—Ex.
She must be a "baggage" Train.
The Principal of Vancouver Seminary is delivering, during the present term, a course of instructive lectures about foreign cities. Lectures every Monday and Thursday afternoon at 3 o'clock. Although these lectures are for the especial benefit of the pupils, yet any of the patrons or friends visiting the school at these times will receive a cordial welcome and, doubtless, feel profited.

The best maps and latest surveys are in our Rooms, open to public inspection, together with such other sources of information as will be useful to parties seeking land for speculation, or information as to what lands are desirable and properly located for their occupation.
To all persons who are now, or who are about to engage in the Purchase or Sale of Grain, Wood, or other Farm Produce, we would suggest that we are so situated that we can offer them unusual facilities, and that they will find it to their advantage to engage our services.

STITZEL & UPTON
Rooms, corner of Front and Washington streets.
Portland, Oregon.
P. O. Box No. 462.

DAVID WALL, DRUGGIST, is determined to keep his home trade at home, if selling none but the best articles in his line at the lowest prices, will accomplish it.

PUGET SOUND RAILWAY.—The British Colonist says "Mr. Holladay is expected here in the Orizumme next week. He is at present at Portland, superintending the preliminaries for the construction of a line of railway to San Francisco and another to Puget Sound. The latter line, it is expected, will attract a convenient port on Puget Sound (to be selected by Mr. Holladay upon his arrival).
All Goods landed at the terminus of the railway will reach Portland in five hours after being put ashore. There is a great and glorious future in store for some port on Puget Sound not very remote from Victoria, from the contiguity of which Victoria cannot fail to profit."

The local of the Commercial has been to Salem. He says "Great interest is being developed by the agitation of the railroad among land owners. Everybody is trying to purchase a tract of land lying adjoining the road. The price of such lands has advanced to nearly double what they formerly commanded. Those whose farms are cleft by the iron horse, consider themselves in 'big luck.' The grading southward from Salem, up the Mill Creek bottom, has been completed about seven miles, and the work is being pushed with a vim."

Vancouver House!
AT THE FOOT OF MAIN STREET AND THE LEVEE,
NEAR THE LANDING.
THE UNDERSIGNED hereby announces to his friends and the public generally, that he has got the best rooms, beds, and his table is supplied with the best market affords.
