

FAITH PLEDGED.—There is considerable harping about the faith of the nation being pledged to pay the debt in gold, which is simply the humbuggery of bondholders.

COIN OR ITS EQUIVALENT.—We made mention some time ago that there was a bill introduced in the Senate, providing that the national debt be paid in coin or its equivalent.

IN FAVOR OF DIVISION.—The loyal W. T. Transcript comes out in opposition to the annexation of Northern Idaho to this Territory.

THE NEW YORK WORLD OF A LATE DATE, in a two column article proves that the radical party favors negro suffrage.

GOVERNMENT SALE.—It will be noticed, by referring to an article on the first page of this paper that the dowry spouse and better half of the "Late Lamented government," has sold out her old duds at auction.

NOT PARTICULAR.—A Buffalo paper declares its preference for Grant for next President, whether he be put up by republicans or democrats.

THE CONTRACTORS ON ROUTE 15,422 from Walla Walla to Missoula, have been instructed to increase the service to three trips a week.

WILL DIE.—Eastern papers are chuckling over the belief that Thaddeus Stevens will die before spring.

THE PRESS OF UMATILLA, boasts of having a big field of ice there for skating purposes.

DEMOCRATIC CLUBS.—The democrats at Umatilla have formed a club, and we notice that other clubs are being formed throughout the State.

LAST ADVICES FROM WARREN AND FLORENCE mining camps report heavy snow storms and very cold weather in each.

THEATRICAL CELEBRITIES.—Mr. and Miss Couldeek are playing an engagement at Salt Lake City.

Owyhee Correspondence.

SILVER CITY, Owyhee, January 2, 1868. EDITOR STATESMAN:—My last communication was dated San Francisco. I have since arrived at the conclusion to pay Owyhee a brief visit, and my curiosity being piqued in relation to the much talked of Humboldt route, I hesitated not to give the O. S. N. Company the cold shoulder.

THE CITY OF THE PLAINS, where we found the cars and locomotive of the Central Pacific Railroad Company awaiting our arrival, to carry us over the Sierras. Owing to so immense amount of freight that was being piled in our train, we gained sufficient time to take a stroll through the leading streets of Sacramento.

THE PLAIN BETWEEN SACRAMENTO AND THE foothills were green with the first grass of the early rains. The scenery embraces the luxuriant pine, fir and cedar trees, with blue, abyssal canons intervening and opening up perspectives of snowy peaks.

THE DISTANCE from Sacramento to Cisco, is 92 miles; average running time, 5 hours, including stoppages. From Cisco to Coburn Station, the present terminus, the distance is 30 miles.

As I started, we arrived at Hunter's Station at an early hour, where we were accommodated with the best supper a person could wish for.

THE INDIANS

are no longer a draw-back, and have ceased to be a terror to the travelers. General Crook has rendered great service to this route, and a guard of soldiers is daily accompanying the stages to and from exposed points.

Democracy and Republicanism Will Not Miscozenate.

EDITOR STATESMAN:—Perhaps you read in a newspaper, sometime ago, if you didn't, I did, that a single layer of newspapers spread over the bed makes a warmer covering than a pair of heavy blankets.

EVERYTHING FELT NICE and comfortable like, and I was soon locked in the sweet embraces of thrice welcome Morpheus. I soon fell into a deep slumber, and in my dream, I saw a state legislature, in session, in the city of Washington, D. C.

EASTERN NEWS.

VIA SALT LAKE CITY.

LONDON, Dec. 20.—In view of the recent Fenian outrages, the Cabinet has determined to ask Parliament to suspend the habeas corpus.

WASHINGTON, Dec. 20.—From information obtained by the State Department, it appears that the Ministry has been some time negotiating with the Spanish Government for the purchase of Cuba with fair prospects of success.

WASHINGTON, Dec. 23.—News from the West Indies is regarded in diplomatic circles as indicating a readiness throughout all the islands for immediate annexation to the United States.

NEW YORK, Dec. 23.—The North America brings news from Rio to Nov. 25. The war in Paraguay continues, and from reports received, in several battles the allies were generally successful.

PARIS, Dec. 23.—The governments of France and Italy have commenced negotiations for a special convention, with the understanding that any agreement they may arrive at in the matter will be submitted to the approval of other European powers.

PARIS, Dec. 23.—The unsettled condition of affairs causes much anxiety here. The feeling on the Bonaparte side is getting very uneasy.

VIENNA, Dec. 23.—The Reichsrath has passed a bill for the emancipation of the Jews.

LONDON, Dec. 24.—The Fenians are still active. An effort was made last night to burn the Glasgow gas works.

THE HERALD'S SPECIAL SAYS it is estimated that three million whites and blacks in the Southern States are in a starving condition.

STANTON is in Washington, preparing his defence against the President's charge. Beyond doubt the President has determined to remove General Pope from the command of the Fourth District.

THE TIMES' SPECIAL SAYS, General Swayne, commanding the District of Alabama, will also be removed.

CONSERVATIVE DEMOCRATS.—An exchange says of this sort of democrats: "There is a class of old, effete, broken-down political 'Conservatives,' and still worse, a set of milk-and-water, namby-pamby, pickbeak politicians among us, whose sole idea of party government is getting just as close as possible to their opponents, and to trust to getting over to their side a certain conservative element, which may get frightened at the 'radical extremists,' and cast its vote for the 'democratic party.'"

RADICAL REVENGE.—The Journal of Commerce tells of a class of radicals who are gloating over the subversion of the Southern States to negro domination. It says by them, the South is hated ferociously.

A SEWING CIRCLE ON "BRICK'S" EXTRAVAGANCE.—Brick's paper says: "As usual, at a Female Sewing Society in this city, the members of the church members were had 'Brick' Pomeroy up for discussion, but dissection, when it was suggested that he could make better use of his money than building such an extravagant printing office, buying Brussels carpets for it, &c."

The Storm in California.

The Alta of the 27th has the following: Reports from the Sacramento Valley indicate that a destructive flood, equal in extent to that of 1862, is now desolating the country. Thus far the levees of Sacramento have defended the city against inundation, and the worst of the freshet is probably past, but the region back of the capital, and the great level tract on the opposite side of the river must have been completely flooded.

The Bulletin says, probably thousands of square miles of bottom land along the Sacramento and San Joaquin rivers and their largest tributaries are under water, and will remain so for a considerable time.

A DRUNK REPUBLICAN.—Under the above heading the Oregonian tells the following story on one of the members of the "party of great moral ideas."

During the evening of New Year's, an individual in an advanced stage of jollity, stopped in front of a restaurant where were suspended in a cage a dozen or so of quails.

WYHIEE ITEMS.—The Avalanche furnishes the following: The safety of Mrs. Denoille, who was taken prisoner by the Indians, Oct. 4th, is at last ascertained, and Major Hunt has gone with a suitable force to rescue her.

From the Sisters of Charity. The Sisters of Charity beg leave to return their sincere thanks to the Managers of the Christmas Social party, who, through the hands of Mrs. Geo. F. Thomas and Mrs. W. H. Nowell, presented them with the sum of \$291.50, and the promise of \$50 more, as the net profit of their party.

RELIGIOUS NOTICE.—The M. E. Church of this City will be re-opened for divine worship on the second Sabbath in January. Preaching at 10 o'clock A. M., by Bishop Shuckler. Sabbath School at 11 o'clock A. M., by Rev. P. B. Chamberlain. The public are respectfully invited to attend.

WHAT CASSERLY WILL DO.—Eugene Casserly, lately elected U. S. Senator from California said in a speech to the Assembly that elected him, that in the Senate he would fearlessly defend the laws and Constitution of the United States and the rights of the people of the States "and particularly the people of the ten States in the South now groaning under the most frightful and ignoble, revolting bondage ever imposed upon a free people."

MARRIED. On Tuesday, Jan. 7, 1868, by the Rev. P. B. Chamberlain, C. M. STEINMEYER, M. D., and Miss SARA E. SHERKES, all of Walla Walla City.

DIED. In the City of Walla Walla, on the 6th inst., of consumption of the lungs, SUSAN BERRY, aged 57 years. For 30 years she was a professor of religion. She spent her last days as a member of the Church of the United Brethren in Christ. Her trials are now over, and she has gone to her reward. J. J. GALLAGHER.

New Meat Market! R. G. STRINGER. A NEW MARKET HAS BEEN OPENED ON Main street, next door to Helms's new building, which will be styled the WALLA WALLA MEAT MARKET. It is the intention of the proprietor to furnish meat at low prices, and to be better enabled to do this, he proposes to adopt the cash system of business.

SENATORIAL.—WHEN CASSELY TAKES HIS SEAT.

His SEAT.—Mr. Casserly, if he lives and is in health, will take his seat in the United States Senate on the 4th of March, 1869. He is the sixth Senator elected under the Congressional enactment of 1866. The other five have been Cattel and Frelinghuysen of New Jersey, Corbett of Oregon, Nye of other States to elect for the Forty-first Congress are Connecticut, Delaware, Indiana, Maine, Massachusetts, Maryland, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, and Wisconsin.

General Logan declares that great ordnance frauds have been perpetrated by men high in official positions; that in no single instance has an inventor of projectiles or guns received decent attention at the hands of the Government unless he was one of the elect with the army or navy; that the inventions of poor men have been stolen by officers appointed to test them, in proof of which he instances the case of the celebrated Armstrong gun of England, which, he avers, was invented by John P. Atwater, of Chicago, but the invention was stolen from him at the Washington navy yard; and that men were killed in the Union army by Federal than Confederate artillery, owing to the official frauds in the manufacture of both light and heavy ordnance.

The expenses of the War Department in 1866, under the various military bills of Congress, were two hundred and eighty-four millions of dollars. This was in a time of peace, and two hundred millions of this money was wrongfully taken from the pockets of the people, to run the Radical party machinery in the South, and to compact the negro element solidly against the white race.

WELL SAID.—The Baltimore Gazette, in commenting upon the Virginia election, speaks of the indifference to negro domination manifested by the Northern people, who, it happily says, "are sitting as the people were sitting in the circus of Pompeii when the lightnings began to play fitfully over Vesuvius, and the first flakes of the ashy shower which afterwards enveloped them were drifting through the air."

A curiously affected monomaniac lives in Gardiner, Maine, by report. He thinks that he can fly. There is a hill near his house, and every day he goes to this hill, and flaps his arms like a veritable chauticleer, doing his utmost to soar aloft. He flaps and flounders, but terra firma holds his legs down, and he can't rise. Somebody has suggested that a little yeast would do the business.

RED DEVILS.—It is alleged by old trappers and hunters that the Indians who have lately signed treaties with the Government did so to gain time for a campaign early in the spring. The redman is not prepared for war in the winter. He will be ready to fight in the summer.

The Missouri Republican is now sixty years of age, and though the oldest of Western newspapers, still possesses the vigor of youth.

A DESCRIPTION.—A Wisconsin paper describing a large farm, which the advertiser wants to sell, adds the following: "The surrounding country is most beautiful; also two wagons and a yoke of steers."

From the Sisters of Charity. The Sisters of Charity beg leave to return their sincere thanks to the Managers of the Christmas Social party, who, through the hands of Mrs. Geo. F. Thomas and Mrs. W. H. Nowell, presented them with the sum of \$291.50, and the promise of \$50 more, as the net profit of their party.

SLEIGHING.—During the past few days, some rough attempts have been made toward sleigh-riding. There has been just enough snow on the ground to make jumpers and fancy cutters jump and jostle right lively when under good motion.

A SERENADE.—A party of some fifteen or twenty gentlemen from town, serenaded, with vocal and instrumental music the newly married couple, Mr. and Mrs. Steibner, at the residence on Wednesday evening.

CAN'T PACK THEM.—The last killing of hogs for the winter, at the Standard Mills, was made a few days ago. Something less than one hundred were killed, and not getting packed the same day, they froze up at night and now cutting and packing them is out of the question, until a thaw comes.

THE COLUMBIA "GONE UP"—Not exactly, but frozen up, or frozen over, and consequently navigation from Celilo to Walla Walla has closed for the present.

LOOK TO YOUR CHICKENS.—Fowls that were not housed when the cold weather set in, generally got their legs frozen; we noticed numbers of chickens during the first of the week that were hobbling about in this plight, besides some laying around loose and lifeless; and also some dead ducks (not of the Forney breed) that had been frozen or chilled to death.

MORE MEAT.—It will be noticed, by glancing at the new advertisements, that a new meat market has just been opened on Main street, by Mr. Stringer. There is now quite a string of these establishments in town, and from the vast display of meats, we judge there are plenty of "beef eaters" in the community.

THE MAILS continue to arrive by way of Salt Lake notwithstanding the impediments of snow and cold weather. By way of Dalles from below, it is confidently believed that letter mail at least, will arrive regularly at Walla Walla, whether the river remains closed during the winter or not.

STAGNATION.—Owing to the stoppage of navigation on the river, or to the present cold weather, or to some other cause or causes, there is a general stagnation in business about town. No matter for this, though, there is a good time coming, if people can only be contented to wait till it comes.

THE dead of winter is upon us. The weather is cold, oh, so cold, that one can scarcely sleep o' nights or hardly get up o' mornings. The thermometers have not indicated the zero figure yet, but they have come within about one of it.

PUTTING UP ICE.—Several parties about town are engaged in putting up small quantities of ice. The present freeze up affords a good opportunity for this business, but unfortunately the places where ice can be produced here are few and far between.

STOPPED FOR REPAIRS.—The Standard Mills was stopped a few days ago in order that some repairing might be done about the water wheel. It is said that the cold weather will not cause this mill to stop.

AN OPPORTUNITY.—Dr. Mack, of Portland is stopping at the Oriental Hotel. His reputation as a dentist is so well and favorably known that editorial comment is not necessary. He proposes to remain but a short time.

HURDLES.—A set of Hurdy Gurdy women from Lewiston arrived in town lately. They are "sleehing," or something of that sort, at one of the saloons.

A GREAT many hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit the action of them. The people won't be imposed upon long. The Plantation Bitters are increasing in use and popularity every day, and it is the world's matter. They are in the same old bottles, and made just as they were at first, and will continue to be, or we shall stop making them. The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of disipation and late hours. They strengthen the system and revive the mind. They prevent miasmata and intermittent fevers. They purify the breath and acidity of the stomach. They cure Constipation and Dyspepsia. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver complaint and Nervous headache. They make the weak strong, the languid brilliant and are exhausted nature's great restorer. The recipe and full circular are around each bottle. Clergymen, merchants and other persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find immediate and permanent relief in these Bitters. But above all they are recommended to weak and delicate females and mothers. They are sold by all respectable merchants. See that each bottle has our private United States stamp over the cork and stamped glass label. Beware of re-filled bottles. See that the stamp has not been tampered with. Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For sprained horses, the poll evil, ring bone, and every other Mexican Mustang Liniment, it is a certain cure. For wind galls, scratches, big head and splint, the Mexican Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made. 430 Broad street, Phila.

Mrs. S. Little, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment, I have sold him for \$150. Your Liniment is doing wonders up here. NOTICE.

FRIDAY EVENING, January 10, 1868.

SHAKER CULTIVATION.—W. Hepworth Dixon, in his entertaining gossip entitled "New America," thus relates an incident in his visit to the Shakers of New Lebanon:

"This morning I have spent an hour with Elder Frederick in the new orchard, listening to the story of how he planted it, as to a tale by some Arabian poet. 'A tree has its wants and wishes,' said the elder, 'and a man should study them as a teacher watches a child to see what he can do. If you love the plant and take heed of what it likes, you will be repaid by it. I don't know if a tree ever comes to know you; I think it may; but I am sure it feels when you care for it and tend it, as a child does, as a woman does. How, when we planted this orchard, we first got the very best cuttings in our reach; and then we built a house for every plant to live in—that is to say, we dug a hole for each; we drained it well; we laid down tiles and rubble, and then filled in a bed of suitable manure and mould; we put the plant into its nest gently, and pressed up the earth about it and protected the infant tree by this metal fence. 'You take a world of pains,' I said. 'Ah, brother Hepworth,' he rejoined, 'these we love our garden.'"

THE CELESTIAL STATE.—Old Ricketts was a man of labor, and had little or no time to devote to speculation on the future. He was without, rather uncouth in the use of language. One day, while engaged in stopping hog holes about his place, he was approached by a colporteur, and presented with a tract.

"What's all this about?" demanded Mr. Ricketts.

"That, sir, is a book describing the Celestial State," was the reply.

"Celestial State!" said Ricketts; "in what section is that?"

"My worthy friend, I fear you have not—'Well, never mind,' interrupted Ricketts, 'I don't want to hear about any better State than Pennsylvania. I intend to live and die right here, if I can keep them d—d hogs out.'"

DEEP SNOW.—While there is but little fall at Sitka, yet in the highlands about the high waters of the Kiookpak, the average depth of snow exceeds thirty feet. From nine-tenths of the territory of Alaska practically snow is always seen. Mount St. Elias and Mount Fairweather are the highest known summits of Alaska. The white coverers them with an everlasting mantle down to their very base. Their height is unknown, and their summits will never be trodden by human feet.

THE RULING PASSION.—An aged Democrat of Concord, N. H., who died recently, gave strict orders before his decease that none but Democrats should officiate as pallbearers at his funeral, and that no minister who meddled with politics should conduct religious services over his remains. His wishes were strictly observed by his family.

SARCASTICAL.—The Hartford Times dares to observe, in speaking of the election in Kingdom One, in which the "Manhoods" were triumphant: "How excellent a thing it is, for intelligent voters who cannot remember their names, to have a ruler who will run the elections an additional day or two for their convenience. How bold the political party that possesses a million or so of this sort of voters."

PERRY DAVIS' Vegetable Pain Killer.

The Great Family Medicine of the Age.

Taken Internally, Cures Sudden Colds, coughs, &c., weak stomach, general debility, nursing sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp or pain in the stomach, bowel complaint, painters colic, Asiatic cholera, diarrhoea and dysentery.

Taken Externally, Cures Felons, Boils and all sores, sprains, rheumatism, neuralgia, toothache, and all pains, swelling of the joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism.

The PAIN KILLER is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medicinal preparations. Its instantaneous effect in the entire eradication and extinction of PAIN in all its various forms incidental to all external applications, is readily removed by washing in a little alcohol.

The Ingredients which enter into the Pain Killer, being purely vegetable matter, it is a perfectly safe and efficacious remedy, internally as well as for external application, when used according to directions. The slight stain upon linen from its use in external applications, is readily removed by washing in a little alcohol.

This Medicine, justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over twenty years, and has found its way into almost every corner of the world; and whenever in a case the same opinion is expressed of its real medical properties.

In any attack where prompt action upon the system is required the Pain Killer is invaluable. Its almost instantaneous effect in relieving pain is truly wonderful; and when used according to directions, is true to its name.

A PAIN KILLER is, in truth, a Family Medicine, and should be kept in every family for immediate use. Persons traveling should always have a bottle of this remedy with them. It is not unfrequently the case that persons are attacked with disease and before medical aid can be procured the patient is beyond the hope of recovery. Captains of vessels should always supply themselves with a few bottles of this remedy, before leaving port, as by doing so they will be in possession of an invaluable remedy to resort to in case of accident or sudden attacks of sickness. It has been used in SEVERAL CASES OF CHOLERA, and never has failed in a single case, where it was properly applied on the first appearance of the symptoms.

To those who have so long used and proved the merits of our article, we will say that we will continue to have on hand a full supply of the best and purest materials, and that it shall be in every way worthy of their approbation as a family medicine.
