

AN EXCITING DAY.—Monday last is fairly entitled to the credit of having been a day of excitement. It had previously been announced that on Monday morning, Donohue, the man who killed Patterson, would be brought up for examination, and somehow or other it had come to be thought that the appearance of the prisoner would be a signal for an outbreak. Rumor had it that the friends of Patterson intended to shoot the prisoner down. Another rumor was that they intended to seize him with the view of forcing a confession as to the parties concerned with him in the murder. The circulation of these reports, as a matter of course, created the wildest excitement, and hundreds of persons flocked in from the surrounding country, the vast majority for the purpose of aiding in maintaining order. To guard against excitement it was thought best not to bring the prisoner out for examination, and accordingly Judge Horton and the attorneys repaired to the county jail, where the formality of committing the accused to await trial was gone through with in presence of possibly half a dozen spectators. This action on the part of the officials was eminently wise, and doubtless contributed very materially toward preventing excitement. As it was, however, crowds of men continued to linger around the streets all day, and a feeling of insecurity prevailed to an alarming extent. Happily the day passed off without an outbreak of any kind—not even a breach of the peace—and at this writing it may be truly said that order reigns in Walla Walla.

THE COMING STATE.—Montana, it is thought will be the next Territory that will apply for admission into the Union. Colorado, with a voting population of less than ten thousand, is now knocking at the door of the National Capital, and seeking admission into the sisterhood of States. Montana, with a larger population and ten times the resources, will not linger behind. In Idaho, already the incipient steps are being taken, looking to the framing of a State Constitution, and soon we may expect to hear that the "Gem of the Mountains," has added another star to the glorious galaxy. Of all the Territories, Washington seems the least likely to emerge from the condition of Territorial vassalage, and judging from the slow progress she is now making the child is yet unborn who will live to see her assume the proportions of a State. Fortunately, the annexation movement gives to the people of Walla Walla the hope of an early escape from a lifeless Territory into an active State.

THE RIVER OPEN.—Mr. Flanders, who arrived here yesterday from Wallula, brings the welcome intelligence that the River is open its entire length, and running an abundance of water to enable the boats to reach Wallula. A boat had already come up as far as Umattilla Landing, and the Spray was expected to come on and make the through trip to Wallula. The boats are making their regular trips through from Dalles to Portland, and with the close of this week, we doubt not, navigation will be resumed to the various points on the River. It is now two months and a half since the first freeze up, and undoubtedly the announcement that the River is again open will be hailed with joy. Man is not a hibernating animal, and the idea of being frozen-up for months at a time is horrible to contemplate, and still worse in realization.

THE NEWS.—Our telegraphic dispatches from the East to February 4th, giving in a measure the solution of the reconstruction question, we copy from the Salt Lake Telegraph. Indeed all of our important news from the East for months back has been received by way of Salt Lake. With the completion of the telegraph lines to the Boise Basin, and possibly to this point, all our news will come direct, instead of the former round-about course of California, and then us the Willamette Valley. The rapid development of the upper country is fast emancipating us from all dependence upon the old fogies of the Webfoot nation, and in no respect is this change so strikingly manifest as in the matter of news. Instead of looking to the lower country for our details of Eastern news, we depend upon the Salt Lake papers almost exclusively for this description of intelligence.

A SUNDAY LAW FOR WASHINGTON TERRITORY.—It will be seen by referring to the list of general laws, that the Solons at Olympia lately tried their hands at a Sunday law. We have not been furnished with a copy of the bill, but understand that it embodies in the main the provisions of the Oregon Sunday law. Some of our friends have very earnestly opposed "annexation," giving as a reason, unwillingness to live in a State that legislates upon questions purely religious. Possibly the legislation of our Territorial law-makers will induce them to think more favorably of the proposed change.

A REGISTRY LAW.—A friend calls our attention to the draft of a registry law, introduced at the late session of the Territorial Legislature. If passed as introduced, it will disfranchise a very large number of voters. We cannot ascertain that the thing has become a law, and hence we defer comment for the present.

President Johnson and the Radicals.

Late telegraph dispatches from the East clearly indicate that the breach between the President and the radicals is daily growing wider, and that as the parties become embittered, all concealment is thrown off. Indeed, the warfare is now open and admitted, and henceforth the parties will use every means to secure the mastery. It is even hinted that the radicals contemplate a coup d'etat, having in view the deposition of the President on some plea of incapacity or unfitness for the office he holds. We have no doubt that Thad. Stevens and the little squad of radicals he controls, would carry out their plans of negro equality at the expense of revolution, but fortunately for the country they lack the power to carry out their bad designs. President Johnson has wisely and properly told members of Congress that they might be better employed than in forever tinkering with the Constitution, and for this wholesome advice, the radical chief retorts that "it is the only the tolerant progress of three centuries that saves his (the President's) head." The Constitutional amendments referred to by the President all contemplate the enfranchisement of the negroes without any regard to fitness or expediency, and to bring about this end the radicals seem willing to invoke war, or any other calamity however dire. Discussing this question, a contemporary says, Government officials of extensive observation and experience and good judgment have given it as their opinion that any forcing through of full and universal negro suffrage would rekindle the flames of civil war, if not another war specially against the Federal power, at least a war of races, which would result in unspeakable misery to thousands, the utter desolation of wide tracts of country, the perpetration of more than East and West Indian barbarities, and in all probability the extermination of the African race in the South. President Johnson evidently sees all this, and is of this opinion, and therefore he is averse to being in any wise instrumental in bringing about such a deplorable state of things. Though undoubtedly favorable to the principle of negro suffrage, to the practice thereof when safe, and to its eventual prevalence in the Union, yet he is averse to Congress interfering in the matter, considering that the State has the right of determining what shall be the qualifications for suffrage within her limits, and that it will be far better for each State to satisfy itself on that point and make its own provisions regarding it, than for Congress to endeavor to force a uniform and what would be regarded by many as a highly repulsive and dangerous measure. It appears to us that there is much good sense in the views of the President, and we regard it as a fortunate thing that it has fallen to the nation's lot to have, at this critical time, a President of such generally sound judgment and excellent moderation as Mr. Johnson displays. An enlightened and judicious conservatism like his seems to be essential to the peace and prosperity of the Union, and to the attainment of that thorough stability and oneness in the Federal compact which would be so extremely helpful to the general weal. The nation has just passed through a terrible war, which has desolated large tracts of land, impoverished several States, decimated the virile portion of their population, run the whole nation seriously into debt and consequently into heavy taxation, and started a black wave of demoralization over the whole land. The South has been conquered, not pacified, the Union made dominant, but hardly restored, and the slave set free, not elevated to the level of the white man. What is now wanted is not the inauguration of new and dangerous experiments, but a nourishing of the principle of amity and comity and brotherhood throughout the land, a conciliatory instead of a provocative policy, a careful closing up of the breach in public feeling, a reduction of expenditure, debt and taxation, an economic use of the national income, a studious and energetic development of the national resources, and a decided discouragement and restraint of political and social corruption.

TOWNS LOTS.—The recent act of the Legislature, and ordinances of the City, by which settlers are enabled to secure Warranty Deeds for their premises on payment of a nominal sum, promises to prove not only satisfactory but highly beneficial to our city and citizens. The City Surveyor is kept quite busy surveying claims and establishing boundaries, and we learn from the City Clerk, that in the more closely built business portion of Main street but few men know exactly how much they own, or where their lines are, as scarcely a single quiet claim deed has been received in his office which clearly defined the limits and boundaries of the premises intended to be conveyed, while many of them are compelled to relinquish their claim for certain portions of the number of feet claimed in their conveyances, and content themselves with what their houses stand on. A spirit of fairness and compromise is the only course to take in such cases, and the establishment of actual lines and settlement of title must necessarily render property more valuable, while the money received by the city will materially aid in paying its indebtedness, and thus diminish taxation.

THE UNION PAPERS OF OREGON, with the exception of the Oregonian, earnestly endorse President Johnson's reconstruction policy. The Oregonian does not directly assail the President, but contents itself with copying from exchanges articles severely denouncing the President. A warfare of this kind can never be effective.

WALTON'S BLACKFOOT EXPRESS closes at six o'clock to-morrow (Saturday) morning.

Improvement in Amalgamating Gold.

EDITOR STATESMAN:—I wish through the medium of your columns to address a few words to the mining community upon the above subject. Every person who has used quicksilver in any of the different amalgamating machines, has noticed and probably been perplexed by the tendency of that metal when agitated in suspension with sand or crushed rock to separate into minute globules and in that state to be carried off with the "tailings" carrying with them no small proportion of the precious metal. Another difficulty is its tendency to oxidize when alloyed by the base metals, by which the surface is tarnished and the amalgamating power much reduced. A third difficulty is experienced when the particles of gold are coated with oxides of iron and other metals, thereby preventing a contact of the two metals. If 1-20,000th part of sodium be added to the mercury, this "sickening" and "flooding," as they are sometimes termed by miners, will be prevented. The ordinary affinity of mercury for gold is greatly increased and the amalgamation, instead of being comparatively slow, will be instantaneous. Floured mercury will immediately run together on the addition of the gold. As this floored and sickening is supposed to be due to the formation of the protoxide and the sulphuret of mercury, its beneficial effect is in the reduction of these, if added in the right quantity. If the sodium be added in excess the amalgam will attack (after this operation) and reduce the ores of the base metals and with them form amalgam. The mercury then becomes coated with the base metals, and its action upon gold and silver greatly reduced. In the case of arsenical ores, the amalgam formed by the excess of sodium, floats on the surface of the mercury, and prevents the gold from coming in contact with it. If results then, that only sufficient sodium should be added to reduce any mineralized mercury, and keep it in an efficient state. The quantity added, and the duration of its effect, will vary with different kinds of ore treated, as it is well known that some miners foul their mercury much more quickly than others. This, Mr. Editor, is a subject of much importance to both placer and quartz miners, and I trust that you will call the attention of your Exchanges in Idaho and Montana to it. Sodium may be procured by heating the common carbonate of soda in a covered crucible over a red heat and retorting it with charcoal in a vessel containing naphtha, (kerosine will answer as a substitute) it oxidizes instantly if placed in contact with water, and gradually, in the air; and consequently must be kept covered by naphtha or its substitute.

SENATOR NESMITH'S POSITION.—We have heard stated that Senator Nesmith fully and heartily maintains the President's reconstruction policy. In this connection the Oregon Statesman gives the following extract from a letter written by Senator Nesmith, and dated Dec. 10. The Senator says: "You have read the President's Message. How do you like it? I think it the most admirable paper of the kind I ever read—perfectly adapted to the condition of the Union, and will stand by and give it its full and hearty support. Its policy, in my opinion, is such as to commend itself to every honest man and patriot who desires to see our country restored to tranquility under a great, homogeneous, and prosperous government. "The question of negro suffrage is one which Congress has properly nothing to do in the States, and they only can regulate it. I shall vote for the admission of members from the late rebel States regardless of the action of their States upon that question. If they will repeal their laws abolishing and repudiating their members to Congress, in God's name what more can one ask? "I would not vote for negro suffrage in Oregon, and will not insist upon doing it within their States. There are, however, some radical people here who are absorbed with the single idea of elevating the negro, and who will do enough in its way, but it is not the most important question which now affects the nation. "I want to see first of all, perfect peace restored, our financial condition improved, and our national credit upon a sound basis; by reason of a reduction in the public debt, our internal resources more fully developed, and our commerce reinstated. When that is done, and even in the meantime, I am willing to do all that reason and justice demand to ameliorate the condition of the African race. I cannot believe, however, that it is the paramount question which demands all of our energies to the exclusion of everything else. J. W. NESMITH, Your friend."

VIOLATING THE INTERNAL REVENUE LAW.—A very large amount of general merchandise has been seized at Helena, Montana Territory, on the charge of having been offered for sale without the duties required by the internal revenue law having been paid. Great excitement was occasioned by the seizure, and the merchants of Helena had held several meetings for the purpose of protesting against the action of the Government officials. Money was to be raised, and an agent dispatched to Washington for the purpose of securing the removal of the offending Collector. The following is a list of the goods seized: Forty-five bxs cigars, 10 bbls wine, 1 bbl cocktail biters, 2 bbls brandy, 5 bbls sour wine, 5 bbls whiskey, 3 bbls gin, 1 bbl Scotch whiskey, 1 bbl rum, 5 bbls brandy, 4 bbls port wine, 12 bbls whiskey, 4 kgs port wine, 5 bbls sherry, 5 kgs gin, 1 kg brandy, 1 kg stout/whisky, 4 bbls tobacco, 3 bbls brandy, 15 bbls whiskey, 1 bbl gin, 1 bbl rum, 1 bbl port wine, 4 casks coal oil, 152 bxs cigars, 22 pks pure spirits, 14 pks pure spirits, 3 pks tobacco, 2 bxs tobacco, 2 bbls brandy, 2 bxs tobacco, 1 bbl tobacco, 2 bxs whiskey. Recollecting the prices that prevail in Montana, it will be seen that the officers have made a good haul.

MONTANA MARKET.—The Montana Post, of January 27th, gives the following market quotations: Flour, \$27 @ \$30 per sack; Bacon, 50 @ 55c per 100 lbs; Hams, 60 @ 65c; Teas, \$3 @ \$3.75; Brandy, imported, \$18 @ \$20; Domestic, \$12 @ \$15; Whiskey, \$10 @ \$12. The market is dull and the opinion is expressed that the high prices of last spring will not be realized. The market is well stocked with flour, particularly Salt Lake, and the demand is wholly confined to the domestic consumption.

POLITICAL.—The Union and democratic parties of Oregon have arranged for their respective State Conventions. The Union State Convention is to be held at Corvallis, on the 29th March. The County Conventions for the election of delegates are to be held on the 17th March, and the primary meetings on the Saturday previous. The following are the names of the delegates: Baker, 4 delegates; Grant, 5; Umatilla, 5; Union, 5; Wasco 12.

CONSERVATIVE.—Hitherto Mr. Henderson, of Oregon, has been classed among the radicals. In looking over the eyes and nose on the passage of the bill extending the rights of suffrage to the negroes living in the District of Columbia, we find Mr. H.'s vote recorded in the negative. From this it would seem that he is not the wild radical he has been taken for.

WALTON'S BLACKFOOT EXPRESS closes at six o'clock to-morrow (Saturday) morning.

Blackfoot Mining Items.

From the Foot of Jan. 29th, we compile the following mining items: "The immense number of gulches discovered in the Elk Creek region are attracting great attention, and the rush continues unabated. There have been discovered no less than twenty gulches in the vicinity of Elk Creek, prominent among which are Big Gulch, which empties into the Deer Lodge, eight miles below Flint, Crater some ten miles long; McKean Gulch, the Big Blackfoot side, nearly the same length; Elk Creek itself, some fifteen miles in length, all of which is claimed, together with the small ravines putting into it; Day's Gulch, six or seven miles in extent; Deep Gulch, which is the wonder of all, is about five miles long, and thirty feet deep as soon as it is dug, and no bed-rock yet found, the dirt prospecting from three to seven cents to the pan. There are a host of others, but I have no time to refer to them now. Lincoln, California, Reed and Madison gulches, and the well-known McClellan Gulch, are all proving excellent, and will be extensively worked the coming season. Jefferson Gulch, also, is proving of high character as a paying gulch, the pay being found in the banks. Claims are now held as high as four or five thousand dollars, and I am told that some ground has changed hands at these figures.

JUNCTION CITY. Of late little has been done here in mining, except digging drain ditches, etc., the weather being so intensely cold that little dirt could be washed; therefore parties have been extending their claims to the Empire, Claims, Nevada, Reed and Madison gulches, and the well-known McClellan Gulch, are all proving excellent, and will be extensively worked the coming season. Jefferson Gulch, also, is proving of high character as a paying gulch, the pay being found in the banks. Claims are now held as high as four or five thousand dollars, and I am told that some ground has changed hands at these figures. The West Cornwall Company, on claim No. 2, are anxious to get the water into the new shaft, and are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. The Morning Star Company's claim, No. five has been dewatered. Finding the bed-rock pitching toward the hill, the men continued their tunnel, and have now got into a channel never before found by any of the miners on Dixie Bar. They say it pays better than ground worked, and they are cutting their shaft larger, in order to put on full force when Jack Frost gives way; and the boys are willing to bet \$100 that they can take out \$2 to the pan of dirt, from the streak on which they are now working. Next in order comes the independent American Co. five miles No. two, who have two new shafts sunk on No. drifting through on good looking gravel as I have seen in this gulch, and from the information furnished me by Mr. James Hicks, a member and Secretary of the company, they have washed a little dirt as a prospect, and the owners are confident it is rich. COUNCIL PROCEEDINGS. City Council Chamber, Feb. 20, 1866. Council met at 7 p. m. Present, Messrs. Stine, Lacy and Kohlhauff.

A statement was made by the Clerk in regard to the Methodist church; when the pastor, Mr. Lacy, from Committee on Public Improvements, reported that he had examined the work performed by C. F. Kraft in arresting encroachments of the creek, during the freshet, on that part of Fourth street next to the creek, and recommended that the sum of \$23 be allowed for said work.

Mr. H. Parker, attorney at law, commissioner of deeds, notary public land agent, constable, etc., etc., appeared and presented a statement to the effect that he had been fined by the City Recorder for obstructing the sidewalk by placing thereon a ponderous bulletin-board, large enough to hold his numerous signs, etc., the base of which had projected some little distance from the wall or front of his building, by which iters and sundry individuals were fearful of stamping their toes, smothering their nose, tearing their clothes, or otherwise damaging some body, thereby keeping the minds of said philantropist in great perturbation, at which His Honor, the Recorder, became aroused to a full sense of his immense judicial duties, and dispatching a M. P., caused the said bulletin man to be brought before him, whereat he waxed wroth, and plead guilty to the soft impeachment, as he was in a great hurry, and neglected the said municipal official in the sum of five dollars.

Mr. A. B. Roberts presented a proposition in regard to the powder-house lot, which was referred to the Finance Committee. Bills ordered paid: A. L. Brown, amt paid for revenue stamps, \$50.50. Paid for wood \$13. C. F. Kraft, work on Fourth street, \$35.72. Total \$94.42. Council adjourned. A. L. Brown, Clerk.

Form—A pocket-book containing papers, memoranda, &c., supposed to belong to James Ross. The owner can have the same on applying at this office and paying for this notice.

OUR DELEGATE writes from Washington that he will defeat the annexation scheme if it lays in his power.

Aspirin.—Con. Oregon, the pugilistic champion of Colorado and Montana Territories, now proposes to fight for the championship of America.

WALLA WALLA LITERARY & LIBRARY ASSOCIATION.—Question for next Tuesday evening: Are the phenomena of modern spiritualism attributable to the spirits of the departed? Affirmative—Messrs. Langford, Johnson and Barber. Negative—Messrs. Yocum, Munson and Kinsey.

ED. BRIDGES, formerly a member of the Legislature from this county, has been shot and severely wounded by a woman who took exception to his attentions to her daughter. The shooting came off at the quiet little town of Seattle.

THE TWENTY SECOND.—The Engine House was finely decorated with flags yesterday in honor of Washington's Birth-day. The engine was, also, gaily decorated, and the arrangements such as to show that the fire boys properly appreciate the memory of the "Father of his country."

AT HOME.—Hon. James McAllister, who so ably and efficiently represented Walla Walla county in the late Territorial Legislature, arrived at home by Thursday's stage, looking well, and was gladly welcomed by hosts of friends. During the session Mc, sent us any amount of "documents," but owing to the ice blockade they did not reach us until after the adjournment.

JUDGE WYCHE recently delivered a lecture at Vancouver, in which he gave the details of several months travel in the Eastern States, principally at the South. The lecturer referred to the degraded condition of the emancipated negroes, and bore testimony against the policy of extending to them the right of suffrage.

WAIVED AN EXAMINATION.—Donohue, the man charged with the murder of Patterson, waived an examination, and was fully committed by Judge Horton to answer the charge of murder at the next term of the District Court. Judge Wyche having arrived in the country, the trial is quite sure to come off at the April term of the Court.

WE understand that the prisoner still adheres to the declaration that he had been threatened by Patterson, and that the act was committed in the full belief that his life was in danger. Patterson's friends deny that any threats had ever passed between the parties, and insist that in committing the murder Donohue was the tool of others. Another story is that the night previous to the killing, Donohue was on a "big drunk," and that whilst his brain was crazed by liquor he committed the fearful deed. Time, without doubt, will dissipate all this mystery.

FOR SALE. A NO. 1 Male PACK TRAIN, THIRTY FOUR ANIMALS, with apparatus, rigging, &c., in complete order. For further particulars, inquire of DR. R. THIBODO.

LOCAL CELEBRITIES.—A letter from Salt Lake to the Springfield (Mass.) Republican, contains notices of certain local celebrities which we reproduce. The first of these is our fellow townsman—

Geo. F. Thomas is of Irish extraction, if not of birth. He may not know whether the latter or not; certainly he doesn't care. Formerly he was a knight of the whip in Georgia. Drifting to California, with the early adventurers to that country, after the discovery of gold, he became a large stockholder in the California stage company, and was for some years its vice president. In that capacity he established the line from Sacramento to Portland in Oregon, residing in the latter State the while. Upon the discovery of gold in Idaho in 1862, he sold his interest and resigned his position in the company, and removed to Walla Walla, from whence he ran stages, as the constantly shifting travel demanded. Afterwards, Col. Ruckle joining him, they extended their line to Boise City, constructing, at a heavy outlay, the Blue Mountain road. He is a sensible, whole-souled, hospitable "Irish gentleman," fond of a quiet glass, a good story, or joke, and said to be the best judge of the horse on the Pacific coast.

Col. J. S. RUCKLE, who came from New York to California, and thence to Oregon without means, but with great resources in business ability and energy. Alone, unaided, he constructed the first railroad in the territory, and built the Mountain Duck, which was among the first steamers to navigate the Columbia. Afterwards, he merged railroad and steamboat in the Oregon Steam Navigation Company, a corporate body with two millions capital stock, and owning all the steamers and controlling all the business of the Columbia river. He became a prominent member of the company, for sometime its superintendent and lately its president. He is intelligent and cordial, and lives a bottle of good wine.

Weather Table. Of the Temperature in Walla Walla for the week ending Thursday, February 22d, 1866: NIGHT. 2, P. M. 16. Friday, 73° 39° 17. Saturday, 74 47 18. Sunday, 16 48 19. Monday, 16 48 20. Tuesday, 23 45 21. Wednesday, 23 43 22. Thursday, 29 47 Mean daily temperature—highest—45. Mean night temperature—lowest—23°.

Lowiston and Bitter Root Valley Pack Trail Company. CERTIFICATE OF INCORPORATION OF THE LOWISTON AND BITTER ROOT VALLEY PACK TRAIL COMPANY.

1st. This is to certify that the undersigned and their associates have on the 13th day of December, A. D. 1865, associated themselves together for the purpose of incorporation, under the name of the Lowiston and Bitter Root Valley Pack Trail Company, as follows, to-wit: Beginning at Lowiston and running in an easterly direction to a point near Shutes Ferry on the Clearwater River, crossing said River at or near said point, thence in a north-easterly course to which point about one mile of what is known as the Lu-In Fork Trail, thence westerly to the said boundary line of Montana Territory.

2d. To charge and collect toll on each fifty miles of said trail so soon as completed at the following rates, the maximum rates to be charged and collected on each fifty miles of said trail to be viz: For each animal packed, 75c. For each Mule or Horse, 75c. For each Log or Animal, 37 1/2c. For each head of Sheep and Swine, 12 1/2c.

3d. That the capital stock of the said Company shall be ten thousand dollars, and the same shall be divided into forty shares of two hundred and fifty dollars each.

4th. That the time or term for which this Company is to exist is hereby fixed at twenty-five years from the first day of February, 1866. That the number of Trustees for this Company shall be three, (3) and the following named are hereby appointed as trustees to act for the first four months, and till otherwise provided, viz: G. KREBS, S. Seranton, H. A. Tinkum and Perrin Whitman.

5th. That the place of business for said corporation shall be within the present limits of Nez Perce County, Idaho Territory, and the principal office is hereby located at Lowiston, Nez Perce County, Idaho Territory.

In witness whereof, the undersigned have hereunto subscribed their names at Lowiston, this, 13th day of December, A. D. 1865. J. G. SCRANTON, H. A. TINKUM, PERRIN, WHITMAN.

TERRITORY OF IDAHO. COUNTY OF NEZ PERCE. Personally appeared before me, G. Krebs, Clerk of the District Court of the First Judicial District, Nez Perce County, Idaho Territory, J. G. Seranton, H. A. Tinkum and Perrin Whitman, personally known to me to be the identical persons who executed the foregoing certificate of incorporation, and they, the said J. G. Seranton, H. A. Tinkum and Perrin Whitman duly acknowledged to me that they executed the same freely and for the uses and purposes therein mentioned.

In witness whereof, I have hereunto set my hand and affixed the adopted seal of said Court, this, 13th day of December, 1865. Clerk of the District Court. By S. STILES, Deputy Clerk.

Legal Notice. TERRITORY OF WASHINGTON, COUNTY OF WALLA WALLA—SS. L. TIM vs. T. J. DEMARIS. In the District Court, in and for the First Judicial District, April Term, A. D. 1866.

You are hereby notified that L. Tim has filed a complaint against you in said Court, which will come on to be heard at the first term of the Court, which shall commence more than two months after the second day of February, A. D. 1866, and unless you appear at said term and answer, the same will be taken as confessed, and the prayer thereof granted. The object and prayer of said complaint, is to recover from you the sum of seventeen hundred and thirteen dollars and 97/100 cents, costs and suit, the same being upon account of goods, wares and merchandise sold to you by plaintiff.

Complaint filed February 24, 1866. MIX & FARGO, Attorneys for Plaintiff. Walla Walla, February 2, 1866. 7-2m

Taken Up. BY THE SUBSCRIBER, living eight miles north-east of Walla Walla, one small RED STEER, two years old, underbit in the right ear. The owner can have said Steer by proving property and paying charges. [7-4w] W. H. BRUNTON.

OFFICE—Cree's Building, over Wells, Fargo & Co's ENTRANCE FROM STARK STREET, CONTINUES TO TREAT EYE DISEASES OF EVERY NATURE. May be found at the Consultation Rooms, day and night, unless absent on professional business. Portland, Dec. 16, 1865. 3-1y

MEDICAL CIRCULAR. EVERY PHYSICIAN located in the country or a small village, and engaged in the practice of his profession, has more or less frequently found the successful treatment of Chronic Diseases difficult, if not impossible, owing to the absence of medical facilities which are within the reach of those residing in the cities and larger towns. The undersigned has for this reason made arrangements for the treatment of Chronic Diseases, which patients can have the benefit of all appliances at present known to the profession. Persons placed under his care will receive in addition to correct medical and surgical treatment, the benefit of Dr. Langston Parker's method of treatment by fumiigation, the use of many of the mineral and saline waters, both for bathing and general use; bathing in sea-water, &c., when indicated; besides the ordinary general and local baths of water, heated and air vapor. Physicians having under their care or knowing of persons afflicted by Chronic Diseases, such as Chronic Diseases, diseases of the urinary organs, &c., which have resisted ordinary treatment, will confer a great favor upon such persons by calling their attention to the facilities here afforded. For special information, apply in person or by letter, to J. L. COOMBS, M. D., Portland, Oregon. Consultation Rooms in Cree's Building, over Wells, Fargo & Co. Entrance from Stark at 3-1y

Legal Notice. TERRITORY OF WASHINGTON, COUNTY OF WALLA WALLA—SS. In the District Court of the First Judicial District. You are hereby notified that William A. T.; the same being in Up Walla Walla County, W. T.; and two forty acre lots in the north-east lot in the north-east quarter of the south-west quarter, and two forty acre lots in the north-east half of north-west quarter of said section.

Oct. 27, 1865. 4633. PASCAL JENNINGS.

Encourage Home Industry.

KEEP YOUR MONEY IN THE COUNTRY.

I AM NOW MANUFACTURING A SUPERIOR article of Yellow and Brown Family Soap, put in 20 and 40 pound boxes that I will sell as cheap as any made of soap of the same quality manufactured outside of the State can be sold for. I will warrant every box of soap sold to be just what it is represented. Orders from the country accompanied with the cash, or sent through some home in the city, will meet prompt attention. A liberal discount made to the trade for cash. Send for a sample. Nov. 11, '64. W. M. HIGGINS & CO., Soap Works, 48, Front St., bet. Clay and Columbian.

DR. BURTON'S

BALSAMAC COMPOUND,

A Certain and Speedy Remedy for GONORRHEA, and all Diseases of the Urinary Organs.

It is a remedy requiring no assistance; performing its duty quickly and thoroughly, leaving no injurious effect to the constitution. It is the result of long experience and close observation in a great number of cases, and has been invariably successful where other medicines or treatment merely relieved. Price \$1 per Bottle. SOLD BY DRUGGISTS GENERALLY. Sole Agents for the Pacific Coast, LANGLEY, CROWELL & CO., Cor. Battery and Clay

A good assortment of Wines and Liquors always on hand; also, MINERS' TOOLS AND SUPPLIES. Please call and examine our stock, remembering always that it is not trouble to us to show goods. C. JACOBS & CO., Walla Walla, Nov. 29, 1861. 117

Drugs and Medicines.

We invite the particular attention of the trade to our present large and well-assorted stock in this line, and to our extra facilities for supplying them at very low rates,—importing as we do, Direct from Eastern Markets. Extra pains will be taken to secure reliable medicines, and in no case will a worthless article be allowed to leave the store. HODGE & CALEF, Dealers in Drugs, Paints and Oils, 97 Front Street, Portland, July 4, 1863. 291y

HAPPINESS OR MISERY.

THAT IS THE QUESTION. THE PROPRIETORS OF THE "PACIFIC MUSEUM OF ANATOMY AND SCIENCE," have determined, regardless of expense, to issue FREE (for the benefit of the afflicted) a series of interesting and instructive LECTURES, on NERVE, and its disquisitions; Nervous Debility, Premature decline of Manhood, Indigestion, Weakness or Depression of Energy, Loss of Memory, the great Social Evil, and those maladies that result from youthful follies, excesses of maturity, or ignominious diseases and Nature's Laws. These invaluable Lectures have been the means of enlightening and saving thousands, and will be followed FREE on receipt of 25 cents in postage stamps, by addressing "Secretary Pacific Museum of Anatomy and Science, Pine Street, San Francisco." 187 Letters to be sent through Wells, Fargo & Co. Nov. 10, 1865. 41y

MEDICAL INSTITUTE.

QUICK CURES AND MODERATE CHARGES. DR. L. C. KINNEY'S Private Medical and Surgical Institute, Main Street, Walla Walla, Opposite the Court House, is now open. Established expressly to afford the afflicted sound and scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, Syphilitic cases and cases of ectect, and all sexual diseases. TO THE APPLICED. DR. KINNEY returns his thanks to his numerous patients for their patronage since locating here in 1864, and in this method of notifying the public that he has located in the city of Walla Walla, in the building of Mr. Joseph Holmboe, on 2nd street, and has had the same fitted up for the purpose of an Hospital, with every comfort for the care and attention of those who require Medical or Surgical assistance. Special attention will be paid to affections of the Lungs, Liver, Genito-Urinary Organs, Kidneys, and Diseases of the Genito-Urinary Organs. Discharge of a private nature will receive prompt attention and managed successfully. Diseases peculiar to women and children will receive his unreserved attention, and affections of eye and ear, and in short all the maladies to which human flesh is heir will claim his attention. Letters from persons unable personally to communicate with the Dr. accompanied by the usual fee, will receive prompt attention. The Doctor would state that he has had an experience of more than thirty years in treating cases of disease occurring in Northern and Southern climates besides, having enjoyed a large hospital practice both in Europe and America, and with our army in the Mexican War—where he was surgeon in chief. It too often occurs that persons requiring Medical aid, arriving here from the various mining towns in the upper country, at the instance of friends, are induced to go to San Francisco, thinking that they will not find proper treatment short of that city thus involving an unnecessary expenditure of both time and money. To show that there is no necessity to do this, the Doctor refers to parties whom he has treated, and those now under his care in hospital. N. B.—All those indebted to Doctor Kinney, by note or account, are requested to call at his office and settle their bills. All accounts not paid before the 1st of January, 1866, will be placed in the hands of an officer for collection. 48ms

To Druggists and Painters.

THE UNDERSIGNED ARE CONSTANTLY on hand a superior article of Turpentine for the trade. We will fill orders in quantities to suit, at reduced prices.
