

TO ADVERTISERS.—The Walls Statesman has a much larger circulation than any other paper published in this territory...

MEMBERS OUTSIDE THE COUNTY.—With January 1st, 1875, the New Postage Law went into effect, which requires the publisher to pay for the postage in advance on all papers sent outside of the county...

COMPLIMENTARY.—The Bar of the Third Judicial District passed a series of resolutions complimenting Judge Jacobs on the occasion of his retirement from the bench.

PHILIP RITZ writes us a long letter from Washington, but being detained by the way its news had been anticipated by the letters previously at hand from our regular correspondent.

THE FORCE BILL, a law that literally places the Southern States under the heel of a military despot, has passed the House of Representatives by a vote of 155 to 114.

FINISHED.—According to the Courier, Beriah Brown, in his own estimation, "knows it all, and has nothing more to learn."

JAMES O'MEARA is about to commence the publication of a Sunday paper at Portland. Mr. O'Meara is by all odds the best writer connected with the Oregon press...

NEW STATES.—Bills have passed both Houses of Congress for the admission of Colorado and New Mexico as States. The admission of these Territories as States is hurried up for the purpose of strengthening the waning power of the republican party.

SENATOR FERRY, one of the ablest republicans in the Senate, emphatically refuses to sustain the President in his Louisiana raid. On the 17th of February Senator Ferry delivered an elaborate speech, in which he fully reviewed the whole system of Southern outrages...

THE Sacramento Union with its issue of the 20th suspended publication. For many years the Union was a leading paper, and at one time it almost controlled the politics of California.

THE GOVERNORSHIP.—The Olympia Courier thinks that Governor Ferry has made a satisfactory executive, and hence it objects to any change in the office. All that the Courier says about Gov. Ferry we cheerfully endorse...

THE SIX HUNDRED.—Our neighbor has much to say about the "gallant six hundred," who signed a petition that was surreptitiously circulated. Now, will our neighbor be good enough to state how many of these signers are residents of Washington Territory?

The Situation.

The failure of Congress to pass the Dalles and Salt Lake railroad bill, as also the Seattle bill, effectually disposes of any hopes we may have had of railroad connection, and practically says to us that in future we must depend upon our own resources.

By the failure of Congress to pass the Dalles and Salt Lake railroad bill, as also the Seattle bill, effectually disposes of any hopes we may have had of railroad connection, and practically says to us that in future we must depend upon our own resources.

By the failure of Congress to pass the Dalles and Salt Lake railroad bill, as also the Seattle bill, effectually disposes of any hopes we may have had of railroad connection, and practically says to us that in future we must depend upon our own resources.

By the failure of Congress to pass the Dalles and Salt Lake railroad bill, as also the Seattle bill, effectually disposes of any hopes we may have had of railroad connection, and practically says to us that in future we must depend upon our own resources.

RIVER NAVIGATION.

We have long contended that there was no insuperable difficulty in the way of making the Columbia River navigable from its mouth to its confluence with the Snake River.

At the completion of the work the largest class of steamers will be able to ascend the Illinois River ninety miles further than they now go—that is, boats drawing not more than six feet of water can go to La Salle at all seasons of the year when the river is free from ice.

In my opinion, there can be no route selected in this State where the same amount of money could be expended, which will produce such general beneficial results, and especially to the agricultural interests, as the completion of the improvement of the Illinois River.

ARKANSAS INVESTIGATION.—The report of the majority of the Congressional Committee appointed to investigate affairs in Arkansas is a very temperate and just review of the political and social condition of that State.

JOHN MITCHELL, the Irish patriot, has been returned to the English Parliament. He was elected from the county of Tipperary, and had no opposition.

COLLAPSED.—Frank Leslie has a cartoon in which the republican party is represented as a huge ball, with President Grant mounted on top.

Washington Correspondence.

WASHINGTON, D. C., Feb. 13, 1875. EDITOR STATESMAN.—Early in the morning I was taught that the true secret of success was concentration.

IT WAS KILLED.—The only act of kindness it received during its brief but eventful career. The funeral services were conducted by A. A. Conroy, Judge McFallen being chief mourner.

CONTEST JACOBS' ELECTION.—On the ground of fraud. He says that Jacobs insisted that it would be folly to send a man to Congress who was not in harmony with the dominant party.

A FOUNTAIN OF CORRUPTION, and that all who vote for such measures are influenced by monetary considerations; or, in other words, have been bought up.

MADE THE FUR FLY.—The Senators ceased writing and reading, and the Senate for once actually listened to a speech from an Oregon Senator.

WAS REJECTED.—On ordering the bill to be engrossed to a third reading, the yeas were two—Flanagan and Cameron—and the nays forty.

THE STRENGTH OF PARTIES IN THE SENATE.—Parties in the next Senate of the United States will be much more evenly balanced than is generally supposed.

THE NEW TARIFF AND TAX BILL, submitted to the House of Representatives, at Washington, proposes to raise about \$30,000,000.

IN HONOR OF LINCOLN.—Congress has been petitioned to declare the 12th of February a legal holiday in honor of Lincoln, who was born February 12th, 1809.

JOHN MITCHELL was denied a seat in the English Parliament, and a new election ordered for the county Tipperary.

Walla Walla Market.

Table listing market prices for various goods including Flour, Oats, Potatoes, Beans, etc. with prices per bushel or barrel.

TERRIBLE HOMICIDE.—The Merman of February 18th, has the following particulars of a terrible homicide:

Patrick Rock and Patrick Kelly were partners in a mining claim (No. 6, we believe) on Dundee Bar, a little above Adobetsown, and on the opposite side of the gulch, and have been working the same during the winter.

THEY SEEMED to be a determination on the part of some of the faithful at Washington to burn up the building of the navy department with all its contents, especially those of a documentary nature.

POLITICAL.—The Lincoln Spy, published in the capital of Nebraska, claims the election of Hon. A. S. Paddock to the United States Senate from their State, over Thayer, as a democratic victory.

WHAT inference can Grant draw from the remark in reference to Andrew Johnson, made by the New York Times, the leading republican paper in the country?

NEW ADVERTISEMENTS.—ADMINISTRATOR'S SALE.—NOTICE IS HEREBY GIVEN, that in pursuance of an order of the Probate Court of Walla Walla county...

PROBATE NOTICE.—IN THE PROBATE COURT, Walla Walla county, Washington Territory, the undersigned, Administrator of the Estate of James Brown, deceased...

THE HEARNE.—Is one of the finest sites of San Francisco, which is offered to the public free of charge.

THE HEARNE.—Is one of the finest sites of San Francisco, which is offered to the public free of charge.

THE FINEST ROOMS AND BEST TABLE! AT MODERATE CHARGES! THOS. O'BRIEN, Proprietor.

LIBRARY ASSOCIATION.—A regular meeting of the Library Association will be held at the Court House, this (Saturday) evening, 7 o'clock.

REVENUES.—Our exchanges make frequent mention of religious revivals. This is all well and good, and after the people are hopefully converted, a business revival will be in order.

THE GREAT PEPPERER has returned from the Walla Walla Valley. We suppose that "pepper" now numbers at least 2000 signatures, all of which are citizens. How pleasant it is to see two such brothers as Parker and Peppering in harmony.

MAJOR CONYER is in from the Umatilla. He reports a smaller per centage of cattle dead than was expected. Work on the Reservation will be resumed immediately. The health of the Indians and Reservation employees is good.

SCHOOL LAW.—The County Commissioners passed a sufficient number of copies of the school law of 1873 to supply the different districts. They have now arrived and may be had by applying to the Auditor. We give this information for the benefit of the directors of the several school districts in the county.

MEMORIAL.—A meeting is called for Monday next, to take measures for the formation of an immigrant aid society. A committee of this kind has been formed in Walla Walla, and we trust that the meeting will be largely attended. Providence helps those who help themselves, and it is about time for our people to do something toward inviting immigration.

DR. BINGHAM has received the appointment of post surgeon, and in connection with Dr. Allen, will have charge of the sick and disabled soldiers. This appointment will not in any way conflict with Dr. Bingham's private practice. The office of Drs. Maury & Bingham remains as heretofore, Main street, next door to Dr. Day's new drug store.

WHITMAN COUNTY.—A correspondent writes us in Whitman county they have had snow since the 21st of December. On the 21st of February the south side of the hills were clear of snow, and had been clear for two weeks. Cattle in good order were expected to weather out the winter, all others died. At the date of writing, February 21st, the weather was very pleasant.

A TAX SHERIFF.—The last Idaho Legislature passed the tax on freight teams and pack trains going into that Territory. This is the law under which packers and teamsters who had already paid taxes at their own homes were compelled to pay taxes a second time upon going within the limits of Idaho Territory. The tax was little better than a heavy robbery, and it speaks ill for the Legislature that re-enacted it.

WHY IT COSTS.—A friend who recently made the trip from San Francisco to New York by rail, furnishes the following statement of the expenses attending the trip: From New York to San Francisco, \$125.00; From San Francisco to New York, 15.00; Total, \$140.00.

It says the Central and Union Pacific are the safest and best arranged roads to travel on in the United States.

PERSONAL.—Louis Schwabacher, a pioneer merchant, and founder of the house of Schwabacher Bros., has returned to Walla Walla, after an absence of several years. Mr. Schwabacher is at present located at Seattle, where his firm have the largest mercantile establishment on Puget Sound, and are known far and near as upright, enterprising business men. Louis Schwabacher was identified with the first settlement of this country, and we doubt whether there is an old packer or miner in the country who is not personally acquainted with him. With this class of men, as we have said, he was always immensely popular, and should his travels take him into any of the mining camps, the grumpy, hard-boiled men will give him a reception that will attest how warmly they cherish their old time friend.

LOCAL INDUSTRY.—Now that we are to have a railroad, and with it an outlet for our surplus products, it is time to think of new branches of industry. As a matter of course, the railroad will stimulate many industries that have heretofore been languid. The dairy business, most assuredly, will rapidly grow in importance, and in addition to the butter and cheese required for home use, we may reasonably expect to have a surplus for shipment abroad. Now is the time to think over and arrange for the various branches of industry that will follow in the train of the railroad. Heretofore the drawback has been the want of a market. The day for that complaint is about to pass away, and with a market for all that we can produce it should be our aim to stimulate home industry.

A LAME DUCK.—A San Francisco correspondent reminds us of a youth who flourished at Walla Walla some six or eight years since, and who by close application to business managed to accumulate a fortune of \$40,000. With this sum our young man deemed himself altogether too rich to remain in Walla Walla, and so he took himself to San Francisco, where he "lost" his capital and "went" to the "docks." At first his investments turned out bad, but gaining wisdom from experience, the tide finally turned in his favor, and so with New Year's day, 1875, he estimated his wealth in stocks, etc., at \$140,000. The discovery of the great "boonanza" in the Comstock lode, caught him and he went in for all he was worth. The crash of the 21st and 22d of January came, and found our old Walla Walla friend cleaned out of his last dollar. At latest accounts he was looking for something to do to pay expenses, and being familiar with the management of saw mills and such, it is not likely that he will come to actual want.

IN MEMORIAM.—John Milton Vansyckle, a well known citizen, died at his residence in this city, on the morning of the 4th inst. Deceased was a native of Hamilton county, Ohio, and was in his 54th year. He was among the pioneer settlers on this coast, having immigrated to California in 1840. Our first knowledge of deceased was at Stockton, California, where he was agent for Wells, Fargo & Co.'s Express, and at the same time was chief engineer of the Stockton Fire Department. In 1857, he removed to Portland, Oregon, where he was in charge of the express office for several years. At Portland, as at Stockton, he was chief engineer of the Fire Department, and there as elsewhere he was noted for his public spirit. Early in the year of 1861, he removed to Walla, where he acted as agent for the O. S. N. Company, and at the same time was engaged in general merchandising. A man of great energy and unusual business qualifications, he made several fortunes; but liberal to a fault he scattered his money lavishly and died comparatively poor. During his residence in this Valley, Mr. Vansyckle held a number of positions of honor and trust, and among them that of member of the Legislative Council from this county. Like all impulsive men he had his faults, but these were greatly overbalanced by his good qualities, and now that he has passed over the dark river there are few who knew him in life that will fail to drop a tear to the memory of poor Van!

IMMIGRANTS.—A correspondent writing from Minnesota, under date of February 12th, says that for the "last nine weeks the thermometer has been from 49 to 65 degrees below zero." This intense cold seems to have disgusted the writer, and he proceeds to say that if favorable accounts can be had in relation to the Walla Walla climate, "five hundred families will come out in the spring." Letters of this kind are constantly coming to hand, but as a matter of course we have not the time to answer all such inquiries. The people of California have adopted a plan in this regard that we of Walla Walla might imitate to advantage. Their plan is to have full descriptions of the various localities written up and printed in pamphlet form. A prospective immigrant writes to inquire, say about the Los Angeles country, and one of these pamphlets is sent him. In this way he gets the information desired, and he gets it in such a shape that it can be passed around among his neighbors, and may be the means of attracting hundreds of immigrants. To get up a pamphlet of this character involves an expense of two or three hundred dollars, but our California friends understand the business, "nothing risked, nothing gained," and so they are not deterred by the cost. A little bit of this enterprise injected into Walla Walla would be of great advantage.

FIREMEN'S ELECTION.—Tiger Engine Company, No. 2, held its annual election of officers on Wednesday evening last, resulting in the choice of the following members as officers for the ensuing year. Foreman, H. K. Taylor; 1st Assistant Foreman, T. McAniff; 2nd Assistant Foreman, A. J. Kay; President, E. C. Ross; Vice President, Jas. McAniff; Financial Secretary, C. E. Whitman; Secretary, Ed Herff; Treasurer, Dan Garrecht.

THE DRUMMERS are again around in full force, much to the annoyance of the better class of business men. The Legislature should impose a license tax upon "drummers," and in that way rid the Territory of a growing nuisance.

MR. KASSON SMITH requests us to say that the statement in last week's issue referring to his domestic affairs is unqualifiedly false.

WM. MCCOY will save costs by calling at this office and settling his bill.

THE ATTORNEY GENERAL, AS GOVERNOR GENERAL.—Attorney General Williams a few days since appeared before the select committee of the House on Alabama affairs, and was interviewed as to his sending troops into Alabama last fall. It appears he had had no correspondence with the Governor of the State on the subject, but acted on information from other sources.

A PRIVATE LETTER from Charleston, South Carolina, gives us the latest and best news from that afflicted region. Our correspondent says: "We are without a Legislature, the members cannot meet during the day, as they have to be in their barber shops, etc., to make a living, and cannot assemble at night because the gas company shut off the gas with a bill of \$8000 unpaid."

JUDGE J. R. LEWIS will succeed Judge Jacobs as Chief Justice and Judge of the Third Judicial District, and Mr. Wingard will go to Walla Walla in the First District. We don't know what effect this will have on the aspirations for the clerkship of the first named District, entertained by the editor of the Seattle Dispatch. It is now "bread or blood" with him.—Olympia Courier.

JUDGE MCPADDEN has scarcely been heard of during the late session of Congress. At the start he made a big splash, but gradually dwindled down until at last the wind-bag collapsed.

HON. E. S. KEARNEY and bride were passengers by the steamer that so narrowly escaped being lost-off Tillamook Head.

THE CIVIL RIGHTS BILL has passed both Houses of Congress, and having received the President's signature is now a law.

THE GRAND JURY for Marion county, Oregon, approves the management of the State Prison.

MAKING AN END OF IT.—Gloom broods over the portals of Washington's hotels, and the hearts of their proprietors are bitter. The Great Father leans mournfully upon his mantel piece, for his soul is very dark. No more will his Children of the Prairie come unto him, nor shall his ears know the melody of their "Ugh! Ugh!" For Congress has gone back on the wisdom of its fathers and stricken out the appropriation for Indians to visit Washington.

ENTERPRISE LODGE No. 2, I. O. O. F., meets in Good Templar hall, at 7 o'clock, Wednesday evening, at 7 o'clock. Brothers in good standing are invited to attend.

Kootenai Correspondence.

EDITOR STATESMAN.—As the Government mail is closing, I drop you a few items. The winter has been the most terrific, as far as cold, that has ever been known in this region. The cold weather commenced as early as November, and took every one by surprise. A number of miners could not clean up, and everything was and is frozen up.

The Government and miners are putting down a shaft on Wild Horse Creek, under the superintendence of W. W. Morrow. They will get to bed rock, it is supposed, about the 1st of April; this will be a test of the creek above the old diggings, which were rich. The new diggings on the Columbia are not yet fully tested. Messrs. Price Bros., with a number of men, are going up in the spring, which speaks well for them.

I hear from the Columbia Lakes that Shaw & Mitty are losing some cattle; some of the Indians have lost a number already. Calbraith's cattle are doing well, having been fed so far, and thinks he will have sufficient to carry them safely through.

The Indians are not hunting much on account of the cold—no thaw, no chinook, from the 1st of November and no thermometer to register the cold, as the mercury was frozen solid for 16 days in January.

By the way, \$25 more of Kuhn's money was found with an Indian woman, and is now in the hands of Mr. Booth, for identification. Building is going on rapidly on the other side of the mountain. The Manitoba mountain police have effectually settled the whiskey traders.

Of the recent events we know of none more gratifying in one sense than the election of Andrew Johnson to the Senate. The subject matter of congratulation that thirty Confederate soldiers voted for Mr. Johnson in preference to two or three Confederate generals who were also candidates. We are not of those who do not desire to bury the past forever out of sight, but when old passions are agitated and worn out charges reiterated even in the Senate, in the prolonged discussions on the political temperament of the Southern people, it is more than satisfactory to appeal from the vituperations of Senators Morton, Logan Conkling and others to the patriotic actions of the men whom they assail. In no State did the animosities of the war reach such a height of violence as in Tennessee, and of all Union men Andrew Johnson was the most hated. No troops are in Tennessee, and we find ex-Confederates of their own free will selecting as their representative the man whose chief recommendation is that devotion to the integrity of the Union which covers a multitude of shortcomings.—Washington Capital.

THE PARIS LOAN.—Paris advises state that the subscriptions to the new loan of the city of Paris amounted to forty-two times the sum required. This announcement may appear simple and unimportant to the casual reader, but it covers one of the greatest financial events of the nineteenth century. The amount agreed for by the city of Paris was 250,000,000 francs, but the subscriptions reached ten thousand five hundred millions of francs, equal to two thousand one hundred million dollars gold of our money, and four hundred and twenty million pounds sterling, British money. France has reason to be proud of her high credit, and the facts above noted should be studied with profit by people at Washington.

It is a noteworthy fact that no less than four Washburns have been or are aspirants for Senatorial honors in the next Congress. Israel, Jr., the present collector of customs at Portland, Maine, was defeated in a second attempt to get into Senator Hamlin's shoes. William D. tried for Senator Ramsey's place. Cadwallader C. endeavored to head Matt Carpenter in Wisconsin, and the "possible" William B. was in for continuance in the place of Charles Sumner. The first three are brothers from Maine, and the last is a "dis-tant relation."

DIED.—On the 4th inst., John Milton Vansyckle, in the 54th year of his age.

REPORT.—Endorsed by the Medical profession. Dr. WM. HALL'S BALSAM FOR THE BRONCHES cures Croup, Colds and Consumption, and all diseases of the Throat and Chest. Dr. TOWN-SHIEP'S FOOTACHE ANODYNE cures in an MINUTE. 10¢

A CARD!
