THE VALLEY ACADEMY.

SECOND YEAR

COMMENCES MONDAY, SEPT. 6, 1880

THIS NEW INSTITUTION IS DE-

signed exclusively for boys. It offers a

THAT CIGAR.

Will do I remember

That first cigar

Which I did smoke, verily,

It made my liver

Grow into a liver

When I remember

I did buy me three of them

All for two bits,

After which I did like me

To the woe of hell

Of my first man

And did strike a light

The first six puffs, did I

Puff with more profusion

Than would a reporter his

Sweetheart at a dance,

Then did I let up with

Exceeding profusion

And wondered at the novel

Sight of a wood shed roof

Dancing the rag with the

Woodward,

I became so tired

That I forgot what they called

Me

And my connections

On the main level

Thereafter I did give the

Other cigars to my

Brother and he paralyzed was

For nine long days,

And never smoked again,

Such was my first cigar

Unto the health officer

About a certain heinous

Stench in and about their premises,

Such was my first cigar

But I have smoked

Many such great

Wigs

Conduct

John in a New Role.

We are not sorry to see that a Chinese

steamer is in the harbor of San Francisco,

and that her agents are bidding against the

Pacific Mail Company for the carrying of

freight of Oriental freights. The spectacle

may possibly cause the great corporations

of the country to consider the Chinese

problem from a new standpoint. The

agents of this offer to carry freight

to China for five dollars per ton. This

for a 2,000 ton ship would be but \$10,000

for a full cargo. And yet at these rates

John would make money. The Salt Lake

Tribune says: If he places he can drive

every flag except the Dragon flag from

the Pacific. If he can do this on the

Pacific he can extend the trade to the

Atlantic. His presence in force on shore

causes all civilized races to retreat before

him. Why can he not extend his reign

also over the sea? China has the gathered

wealth of more than one hundred gen-

erations of men. She can build as many

ships as she pleases; outside of a few

officers, she can man her ships with

slaves at an expense of not to exceed \$30

per annum for each man. She has plenty

of coal to supply her ships, and it is a

plain case that she can, if her rulers so

decide, run every corporation which owns

ships in the China trade. When this fact

is understood we suspect that the great

papers of Eastern commercial cities will

soon all in the morning of the West

against Chinese immigration. There is

nothing that appeals to the reason and

conscience of the average Eastern man so

readily as a blow aimed at his pocket. It

is a pleasant thought for him to reflect

Strange Forms of Fungus.

Beaks that weigh One Hundred Pounds

Lifted Three Feet by Growing Fungus.

A gentleman who recently had occasion

to explore the chambers, drifts and caver-

ns of the old Ophir mines, says fungi

have taken possession of the old levels.

In the old mines, however, in found a

fungus world in which are to be seen

counterparts of almost everything seen in

our daylight world. Owing to the warmth

of the old levels, and the presence in

them of a certain amount of moisture,

the timbers have been made to grow

some curious crops. Some of the fungi

in the old chamber are several feet in

height, and being snow white are re-

minds of little distance appear to be white

and there are representations of gale

with long beards, all as white as though

carved in the purest marble. The rank

fungus growth has almost closed some of

the drifts. The fungi are almost every

imaginable variety of growth. Some

hang down from the timbers like great

bunches of snow white hair, and others

are great pulpy masses. These last gen-

erally rise from the rock forming the floor

of the drifts, and seem to have grown

from something dropped or spilled on the

ground at the time work was in progress

in these mines years ago. These growths

have in several places raised from the

ground rocks weighing from ten to even

one hundred pounds. In the higher

levels where the air is comparatively dry,

the fungi are less massive in structure

than below and are much finer in tex-

ture. Some resemble ram's horns, as

they grow in a spiral or twisted shape,

while others, four or five feet in length,

and about the thickness of a broom-handle,

hang from the sap timbers like so many

snakes suspended by the tails. One

kind of a pencil to the length of a

foot or more appears to blossom at least

a condition of the end a bulbous mass

that has some resemblance to a flower. In

all the infinite variety of these under-

ground fungi, it is somewhat strange that

not one was seen at all like those growing

upon the surface in the light of day.

Nothing in the nature of root-t

DISCHARGE.—Sergeant Major Richmond has obtained his discharge from the Army and will again enter his profession as a surveyor.

CLIMBING HOURS.—There is a movement now on foot among the leading hardware men of this city to close their business at 6 p. m. through the summer.

PACK TRAIN.—The large government pack train left the post on Sunday morning for Fort Lapwai under charge of chief of packers Jack Wilson.

RAILROAD MOVE.—The construction party at Pannamint grade completed their labors and are now "searching" the track between Unamilla and Walla.

G. A. R.—On Saturday evening the old soldiers of this city met at the home of G. A. R. They received their charter and held an election of post officers.

FOR COLLEGE.—Mr. Mitchell, of the Oregon Improvement company, leaves for Colfax to be gone about two weeks in the interest of the company he represents.

REGULAR TRAINS.—Regular train will leave Walla Walla for Astoria on Mondays, Wednesdays and Fridays. This is what has long been needed since our sister town has assumed such business proportions.

THE FOUNDER.—The various A. O. U. W. lodges on the coast and in fact all over the United States are raising a fund for the benefit of the founder Mr. Upland who is now old and feeble. Let all cheerfully respond.

DELINQUENT TAXES.—Over nine hundred dollars have been paid in this week to the county treasurer on account of delinquent taxes by J. B. Thompson, sheriff of Walla Walla county. Well done, thou good and faithful servant.

UNITED BRETHREN.—The second quarterly meeting for the year of the United Brethren will take place at their church in this city on Saturday and Sunday. The services will begin at early lamp light Saturday evening.

REMOVED.—The Tiger engine company, Artillery and Guards, have removed to their new hall above the bridge. We understand that the faithful Tiger company are giving a grand "blow out" in honor of the housing of their machine.

SPRING.—It may be interesting to those in less favored climes to know that with us in this section the near approach of spring means more work than in any other part of the world. The ground is now being broken up and the corn, wheat and alfalfa crops are being planted.

MILITARY CHARGE.—By telegraphic instructions from the Department Commander has ordered the commanding officer of Camp Spokane to discharge all citizens employed as laborers in the Quartermaster's Department at that post, and to replace them by a detail of enlisted men from his command.

BOOMING.—O. R. N. Company stock is quoted in New York at 122 and is the highest on the list excepting the Panama Railroad. The O. R. N. is quoting common at 43 and preferred at 75. The O. R. N. Company's \$8,000,000 syndicate has called for an installment of 40 per cent. on subscriptions.

ELECTRIC LIGHT.—The Brush electric lights, works the Salt Lake Tribune, at the Germania works were started last night and worked perfectly. The lights were steady, clear and brilliant, and the proprietors are very much pleased with the results.

APPOINTMENT.—Mr. Geo. Reynolds has the honor of being the first Walla Wallian who received a Federal Appointment under President Garfield. George is a bushy young man and doesn't look a bit poorer for his newly acquired importance. Postmaster Reynolds is worth at least 75 cents per annum, and exempt from political levies.

UP THE FLAME.—Work on all the flames will be completed in a few days. The Thomson and "No. 1" flame will in a few days be tested to their utmost capacity. Mr. Clark has gone to the mountains with large supplies for the men. Work on the Dayton flame will be immediately prosecuted with the utmost vigor. Very soon a sign of progression is upon us.

CONFIDENTIAL HALF DOLLARS.—Our intrepid half dollar boys are distributing a large number of counterfeit half dollars in our city. One or two of these have come into the hands of our citizens. They have the true silver ring and can be detected only by the use of a magnifying glass. Our citizens should be cautious and escape being made victims of this fraud. Our detectives should hunt up these counterfeiters and prevent them from "shoving the queer" upon the public.

THE FOUNDRY.—The Walla Walla foundry, is obliged to remain idle for a short time owing to the scarcity of wood. The proprietors say that they cannot obtain fuel to make steam for either love or money. For many days they paid \$16 per cord for wood and when that failed they burned coal oil. Here is a most important industry in enforced idleness for want of what should be a drug in the market. Men are hanging around saloons complaining of want of work, and business is being done at a snail's pace.

THE EXTENSION TO BE MADE IN TELEGRAPHIC COMMUNICATIONS.—The following information is obtained from Mr. Dan Leady, superintendent of the North Pacific division of the Western Union telegraph company. "A construction party started out this morning en route to Astoria, and will without delay, begin the building of a line from that point to Spokane Falls, following the Northern Pacific company. The poles, wire, insulators, etc., have been purchased and the line will be completed by early summer. Next week a party will commence the construction of a line from Walla Walla to Grange city about 60 miles, bordering the O. R. & N. Co.'s line, the grade of which was finished Monday.

N. P. RAILROAD SURVEYS.—Mr. McCann, chief surveyor for the Green River exploration party, of the N. P. railroad company, says the Post, was in Seattle for awarding supplies to the C. & P. railroad, for the use of snow blowing a pass for the Green River through the Cascade mountains. The man appears to be a humorist, for reason best known to themselves, the old and well established Sequoia Pass. Whether they object to the Sequoia pass on the grounds of its proximity to Seattle, or its inaccessibility to the Tacoma grab we do not know, but one thing is inevitable, when the rail is laid over the Cascades it will be through the Sequoia pass. Nature has so ordained it. It must come down the Cedar river valley. This man has no knowledge of the geography of the country and the money now being expended on further explorations is surely wasted.

U. S. MAIL STOPPED.

Another Outrage Perpetrated by the Pets of the Indian Commission.

The manner in which Father Wilbur has been treated at that post is a disgraceful example.

Again we are compelled to chronicle another outrage perpetrated by a lot of vagabondish pets of the Indian ring. As yet nothing serious has resulted, says the Record but the probabilities are, if the threats indulged in by the ruffians are carried out, serious trouble may be apprehended, and should it come we warn the authorities at Simcoe that short work will be made of those who may perpetrate the outrage which is threatened. There are plenty of men in this section who have received in the past injuries irreparable at the hands of Indians, who are turning with a desire to avenge these injuries, and hence we hope something will be done to punish the authors of the recent outrage perpetrated upon the

UNITED STATES MAIL CARRIER, and for them to see to it that the threats made upon that occasion against his life are not carried out. But let us relate the circumstances of this outrage just as they are, and then each one can judge for himself. In the first place the whites by treaty stipulation have a right to run roads across the reservation. In accordance with that stipulation a road was laid out down the Setas canyon. This road is a natural one and is a diverting of the creek, but if its line was diverted to the steep side hills down the canyon it would render it impassable without an immense outlay of capital. This fact is well known by all who are familiar with the topography of this country.

A NUMBER OF INDIANS, are located upon these sections, who contribute to the extent of a miserable existence by cultivating an acre or so of ground. In order to cultivate this contemptible amount of land, they think it is necessary to fence up the whole country, and they never clear the land thus fenced, and only plant their little patches of garden where Nature has kindly left a bare spot. Recently one of these interesting specimens commenced the construction of a fence across the road, which runs across a small bottom about three miles above the stage station. Above and on each side of this little bottom are steep hills, impassable for vehicles of any sort. Mr. Lillie, the mail rider, accompanied by his wife, on Thursday's trip of the stage found

By a huge rail road, and it guarded by a lot of half-clad savages. He told them they ought not to obstruct the road in that manner, and they laughed at him. He got out of the stage and attempted to throw down the rails but as fast as he threw them down the Indians put them up. Finally he threw enough of them down to get through with the stage before they could get them up. In doing so the time was wasted, money and time was thrown away. Lillie was unarm-d. Before he left they told him if he came back that way they would shoot him. He told them he was coming back that way and that he would

INFORM THE AGENT, At Simcoe of their acts, who would send the police over and arrest them. In accordance with what he had informed them he would do, on his arrival here Mr. Lillie requested Mr. Ogden, the stage agent to send a messenger over to Simcoe informing him what had been done, and requesting protection for the mail. This Mr. Ogden promptly did, and Fleet was started out that night with instructions to be back by daylight. Faithfully did Fleet carry out his instructions, delivering a letter personally to the agent which stated that all that occurred and asking protection for the mail. The agent said he could do nothing that night, gave

EVANSY REPLES, But finally told him to go to Joe Stwir and see what he could do. Fleet saw something must be done seeing he could get nothing out of the agent. He hunted up Stwir, the chief, told what had occurred, and Stwir promised him that the police should meet the stage at the Tompish ridge on Friday morning and escort it beyond the obstructions. He also promised to have the Indians arrested who had perpetrated this outrage. Fleet deserves praise for his thoughtfulness. Having succeeded in obtaining a promise of protection, though not from the proper source, he set out at night and returned before the Dalos stage started. In the morning Mr. Lillie, with receiver J. M. Adams, started with a degree of confidence, relying on Stwir's promise, and we hope the mail will be kept, thus averting trouble. If he does, the credit of having averted trouble will belong exclusively to him. We wait further developments with interest.

Metropolitan Airs.

A Twenty Thousand Dollar Fall for Walla Walla.

A gentleman who is well known throughout this section of country as the pioneer railroad builder, is we understand, contemplating the turning of his energies towards the erection of a fine public hall to be the first in the field, in this sphere, as in early days he was the first railroad magnate. He comes forward as the only public spirited man to fill a long felt want—a suitable town hall. This move on his part fully illustrates the old adage "Westward the Star of the Empire glides its way."

THE EXACT LOCATION, Is not definitely settled yet, as the gentleman in question has several very desirable sites at his disposal. The building will be three stories in height, with four business stores down stairs. Between these stores will be a 15 foot hallway leading to the grand vestibule in the center of which will be a fountain. The hall will contain four proscenium boxes, pit, parquet and gallery, and will be illuminated with a massive chandelier of 40 lights. The scenery will be elegant and will fully meet the demands of a fine theatre. This indeed is more than we expected of this philanthropist, as is usual in the case with these

PUBLIC BENEFICATORS, They want their time and will have it at any cost. And what will add greatly to the benefit of this enterprise among our "country cousins" is the fact that the gentleman is contemplating the building of a flume, in which will be placed little boats drawn by steam power at each end of the route, for the purpose of carrying people who live at a distance to the theatre—no extra cost. There is no doubt that the Mill creekers upon hearing of this vast undertaking will withdraw all opposition they usually have to flumes, and give the gentleman a free right of way through houses, barns and out houses, and you will certainly be rewarded by a free pass. The new hall is to be known as the Halle des Boulangers. Long may it wave.

PROMPTLY SETTLED.—An every day instance of the prompt and efficient manner in which the Pacific Mutual Life Insurance Company conducts its business, is given in the payment of the policy taken out by the late Robert Summers of Walla Walla. Some time ago he insured his life for the sum of \$3,000 in the Pacific Mutual Life. Recently he died and two days after the proof of death the money due his family was drawn and by the arrival of the steamer last evening Mr. A. McKinnis, manager of the company in this State, received it and leaves this morning for Walla Walla to pay the same. The prompt manner in which the old company fulfills its obligations makes it a favorite one, and its reliability is unquestioned. In this State and the Territories of Washington and Idaho alone the risks carried by it amount to over one million and a half of dollars.—Standard.

COLUMBIA COUNTY.

The Past, Present and Prospective future of Washington Territory.

What Inducements the Country Offers—Improvements, Outlook, Etc. Etc. Etc.

COLUMBIA COUNTY. BOUNDARIES. Columbia County is bounded on the north by Snake river, which separates it from Whitman County. On the east by Snake river, across which lies Whitman County and Idaho Territory. On the south by the State of Oregon, and on the west by Walla-walla county. The Blue Mountains through which the Southern line runs, extend along its entire length, and the streams that permeate the county all take their rise in this range.

SURVEYED LANDS. Of surveyed lands lying within the boundaries of this county are twenty-eight townships and thirteen fractional parts of townships, the latter lying along Snake river. There is also an area of about 45 x 21 miles of territory that is unsurveyed. This is principally timber land.

STREAMS. The streams that water the fine agricultural lands in this county, are the Touchet, which runs from its source in a westerly direction through Walla-walla county to the Walla-walla river. Right at Dayton it receives the Patite as a tributary. This last-named stream runs north from its source, which, like the source of the Touchet is in heavy timber. After leaving the timber it drains a remarkably rich and productive district, a high plateau admirably adapted to the growth of cereals, and for pastoral purposes. Falling from this elevated plateau it runs through a well-cultivated district to its confluence with the Touchet at Dayton. The Tucannon has a course a little north of west, and falls into Snake river at Grange City, which is one of the several objective points of the O. R. & N. Co. on the river. The Tucannon bursts into its canyon, about four miles above the village of Marengo. The valley gradually widens as the stream descends. There is a beautiful growth of hain, cottonwood, birch and alder along this creek, affording an ample supply for fuel and fencing purposes. A good wagon road down this stream affords reasonably good facilities for the transportation of products from the farms on the creek, and higher country bordering it, to the landing and rail road depot at Grange City. This stream is never falling, and carries at all seasons a sufficient body of water to run the heaviest machinery. The fall is so great that good sites can be selected every mile or two for a distance of twenty miles. This great power is utilized at one point only—Marengo, where there is a flour mill.

CHANCES FOR MANUFACTURERS. The soil along the creek is admirably adapted to the growth of sugar beets, and without doubt of cane as well. The power to move the necessary machinery is right at hand, and the manufacture of sugar and syrup—for home consumption at least—can be made a profitable business. About ten miles above the point where Snake river and Tucannon join—the Pataha Creek empties into Tucannon. This creek drains probably one of the most fertile districts in this remarkably fertile country. The valley which it enters, after leaving the mountains, is from a half mile to a mile in width. The creek winds through it for thirty-five miles, and for this entire distance there is no waste land. The water power is not so great as that of Tucannon, still it is good, and two flour mills are now in active operation at Pataha City the other at Pomeroy. About the lands on either side of this creek, more will be said presently.

ALPWA CREEK. The Alpwa Creek runs from its source in a easterly direction, and falls into Snake river about ten miles below the mouth of the Clearwater. It is compared with the other mountain streams in this country—a short stream, not being over twenty miles long from source to mouth. It carries a good body of water all through the dry season, and affords sufficient power for milling purposes. A flume has been partially completed, and a mill will be erected the present season. This mill will be a great convenience to a large surrounding grain-producing country. A warehouse was erected last season just above the mouth of this creek on Snake river, and has done and will continue to do a good shipping business. From the surrounding grain-growing country to this warehouse, the roads are all "down stream" producers can at all times haul full loads.

ASSOCIATED CREEK. Assotin Creek has its fountain head interlocked with those of the Touchet and Tucannon, but a dividing ridge turns it into a different direction. Its course is nearly east, and it drops into Snake river seven miles above Lewiston, Idaho. The volume of water, fall of stream, character of the timber and land on its banks, and general characteristics, are similar to those of the Tucannon. It will be well to mention here that this creek, as well as Touchet and Tucannon, are supplied with salmon during the running season, and with fine mountain trout at all times. All that has been said of the Tucannon can with truth be reiterated here, for on the delta of the Assotin is a thriving village and landing for the best of the O. R. & N. Co. A mill and saw-mill are projected, and will doubtless be built this season.

FINE RANGES. South of the mouth of Assotin, and running into Snake river, are Looking-glass Creek, Ten Mile Creek, and the Grand Ronde river. Upon and adjacent to these streams is the best cattle and horse range in the country. It has not developed so much as the country further west, but has many natural advantages, timber being easy of access and grass and water plenty, and now that the O. R. & N. Co.'s boats will make regular trips to the landings convenient to this section, a rapid settlement and development may be anticipated. If settlers there will turn their attention to the manufacture of butter and cheese, and make it of good quality, prosperity will surely attend them.

LANDS AND QUALITIES OF SOIL. There is less waste land in this county than in any county in the Territory. The high rolling hills generally prevail, there are, however, high plateaus or flats that are very productive. The Pataha flat, lying south of the Assotin and the Assotin flat, lying south of the Assotin are the most extensive. These flats are all plow land, and produce the cereals to perfection. The soil retains the moisture well, and the hardest vegetables grow in this section. It is a guarantee that all work leaving this gallery will be first-class and satisfactory. With our improved instruments and facilities photographs can be taken as clearly as well as in clear weather. Give us a call. BROCKEY & Co., Main street, near the bridge, Walla, Walla, W. T.

Photographers, Main St., Near the Bridge. Having engaged the services of one of the best photographers in the Pacific coast, lately employed by J. W. Taber, the leading photographer in San Francisco, we are now enabled to produce all classes of work connected with photography in a manner superior to any photographer gallery on the Pacific northwest. We have also engaged an artist in India ink, crayon, water and oil colors, and are preparing to day we not only manufacture for ourselves, but are large exporters to South America, China, Japan and the colonies. The immense growth of this particular industry on the Pacific coast is simply astonishing. Slaves, who is now one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by H. E. Holmes.

Our Exports. It is certainly gratifying to all true Americans to know that of late years our exports have largely exceeded our imports, not alone in such staple articles as wheat and beef, but also in almost every branch of industry. Ten years ago nearly all the perfumery and toilet articles used in this country were imported from Europe; to-day we not only manufacture for ourselves, but are large exporters to South America, China, Japan and the colonies. The immense growth of this particular industry on the Pacific coast is simply astonishing. Slaves, who is now one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by H. E. Holmes.

Slaves' Cherry Tooth Paste. An aromatic combination for the preservation of the teeth and gums. It is far superior to any preparation of its kind in the market. For sale by H. E. Holmes.

The Best Awa. How long dear master, O, how long? Will you continue to tie me in the streets and force me to gnaw the bark of the tree when you can give me a sure cure for two bits at Lincoln Tom's stable on Third street, Walla, Walla, W. T.

We notice that Kimball & Son have removed their Book and Music Store to Dr. Day's new brick store, corner Main and 3d Streets where they have engaged the finest stock of books, stationery and musical instruments in the Territory. Everybody should call and see their beautiful store and Goods. w-47 tf

Slaves, who is now one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by H. E. Holmes.

Slaves' Cherry Tooth Paste. An aromatic combination for the preservation of the teeth and gums. It is far superior to any preparation of its kind in the market. For sale by H. E. Holmes.

The Best Awa. How long dear master, O, how long? Will you continue to tie me in the streets and force me to gnaw the bark of the tree when you can give me a sure cure for two bits at Lincoln Tom's stable on Third street, Walla, Walla, W. T.

We notice that Kimball & Son have removed their Book and Music Store to Dr. Day's new brick store, corner Main and 3d Streets where they have engaged the finest stock of books, stationery and musical instruments in the Territory. Everybody should call and see their beautiful store and Goods. w-47 tf

It is certainly gratifying to all true Americans to know that of late years our exports have largely exceeded our imports, not alone in such staple articles as wheat and beef, but also in almost every branch of industry. Ten years ago nearly all the perfumery and toilet articles used in this country were imported from Europe; to-day we not only manufacture for ourselves, but are large exporters to South America, China, Japan and the colonies. The immense growth of this particular industry on the Pacific coast is simply astonishing. Slaves, who is now one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by H. E. Holmes.

WM. O'DONNELL!

A GOOD BUSINESS.—Thirteen thousand tons of coal were shipped from Seattle last month.

AT WORK.—Already \$2200 has been raised in Pataha city to have the O. R. & N. Co. line touch that place. So says the Spirit.

PACK TRAINS.—The government pack train will leave the Garrison on Monday for Fort Laramie, under orders of the department commander.

OF ALL THE UP-COUNTRY PERS to whom the STATESMAN sent "specials" of Garfield's cabinet the Palouse Gazette is the only one honorable enough to give us credit.

NEWSPAPER NEWS.—It is reported that T. Draper, the young orator, will take charge of the defunct Inland Empire, and try what eloquence will do to resurrect it.

CHANGE OF BASE.—Mr. McCortey will move his headquarters from Portland to a few days. He will take with him a large force of men to begin work with renewed vigor.

FARM SOLD.—Pearson's farm, known as the Anderson Cox place, situated at the crossing of the Coppi, on the Walla Walla and Lewiston road has been sold. The price paid was thirty dollars per acre for 280 acres amounting to \$8400.

BUSINESS.—The Oregon Improvement Co. are out with proposals for ploughing, fencing and seeding 5000 acres of land in the Palouse country. Bids will be received at Colfax on the 19th of March. This looks like business both on the part of the company and also on the O. R. N.

NEW COAL.—This city is filled with coal there is no doubt. New veins are being discovered every little while. The most recent find is that made by Mr. Coppin up on the hill. In seeking for a well a few days since he struck a vein of coal similar to that mined at Newcastle.—Post.

AN IMMENSE FLEET.—The old O. R. N. Co. and the present O. R. & N. Co. have owned altogether 77 steamboats, of which 27 representing a tonnage of 16,700, are now in use; seven of them run above Celilo, four run down the river from the Dalles, and sixteen navigate the Willamette and Lower Columbia rivers.

DELIVERY WAGON.—Messrs. Plants & Mackay have just received a new delivery wagon from the shop of Wintler & Bucher. It would be a burning disgrace for any of our business men to send below for a wagon when such a piece of work can be done in this city. Messrs. Plants & Mackay will deliver goods to any part of the city free of charge.

PROBABLE EXPEDITION.—It may be judged from the movements and dispositions of the various government pack trains at the military posts throughout Idaho we should think that another expedition was being prepared for. A scout through the mountains in the summer is good for the men and if they do not find Indians they may stumble over some good quartz ledges and so open up the country to civilization.

DEATH OF MRS. COOK.—From the Arizona Miner we gather the news of the death of Mrs. Virginia C. Cook, who died at Willow creek in Yavapai county, Arizona, on Sunday, Feb. 13th, after a long and lingering illness arising from cancer in the breast. Mrs. Cook was well known in this city, having lived here a long time at the Occidental hotel. Her many friends here will be grieved when they read this item.

A QUESTION.—Several of the prominent lawyers of this city are questioning the validity of any decision rendered by the N. P. R. Land Commissioners, unless both parties, claiming property under the supposed jurisdiction of the company, should willingly consider the commission arbitrators, and their decision as final. It seems to us that this will entail a great deal of trouble and litigation, without any practical results.

"THE PACIFIC COAST."—Major J. S. Hay, the late energetic editor and proprietor of the Idaho Avalanche which has performed a world of good toward bringing old Idaho into prominence has consolidated two California papers into the Pacific Coast. The well known energy of Major Hay will doubtless infuse fresh life into the section he so ably represents if it is possessed of any resources at all. THE STATESMAN wishes long life and prosperity to the new paper.

SHOULD BE LOOKED AFTER.—A sidewalk on 4th street was left in a very dangerous condition on Monday night. There was the best possible chance for some man of ability to bring suit against the city for damages, for a portion of the sidewalk was torn up and not a circumstance to prevent any one from walking into it. It strikes us that this is a case which should be punished with a fine. In many instances, unless some punishment is inflicted, these acts of carelessness will bring the city into trouble without a possibility of redress.

OREGON AND WASHINGTON.—G. W. McCalla, Esq., is in the city on business connected with the getting up of an illustrated work on Oregon and Washington. It will contain valuable and practical information relative to the great undeveloped resources of the country. It will be exhaustive in its nature and will be interesting as well as useful. All the business men of the city should assist the publisher in the work which is redound to the benefit of the whole. THE STATESMAN will be pleased to place at the disposal of the publisher all the information it can give.

RAILROAD CONSTRUCTION LAST YEAR.—The current number of the Railway Age says that there were 7401 miles of railway constructed in the United States in 1880, or 25 miles more than in 1871, which year showed the greatest previous amount. The total railway mileage of the United States on the first of January last was 93,899 miles, or in round numbers 94,000 miles. This is a most extraordinary development, and an increase of nearly fifty per cent. in the last eight years. The states and territories constructing the largest amount of road last year were as follows: Dakota 75 miles; Texas, 68; New Mexico, 55; Iowa, 48; Louisiana, 43. The States having the most mileage at the present time: Illinois 7916; Pennsylvania, 6211; New York, 6100; Ohio, 6005; Iowa 5215. The six states which have most track was laid last year were New Hampshire and Mississippi, and the only territories Alaska, Idaho, Indian and Wyoming.

LAND PATENTERS.—Landowners have been granted to the following persons and can now be had at the Walla Walla district land office for Walla Walla county: John F. Boyer, Frank D. Boyer, Francis Lebr, John Goodwin, Cantrel R. Francis, Geo. T. Thompson, Fred Roth, John F. Lebr, James M. Cotswell, Henry Ingalls, Benj. F. Boyse, John Strahan, Noah Davidson, Oliver C. Galthier, P. Lyons, Patrick Addison, Miles C. Moore, Washington S. Gilliam, Thomas Lyons, Andrew H. Hubbard, Joseph M. Lyndon, G. W. Young, Henry Oster, Jos. Van Sooyk, David Brooker, Jacob Kabbler, Jos. Brooker, Adrew J. Tash, Geo. H. Wene, G. W. Evans. For Columbia county.—Wm. Crisley, Alex. Frisco, T. T. For, George W. Landings, Maudie Taylor, Archimedes Hanan, John H. Jackson, Geo. Egker, Lewis G. Moore, John Levin, John B. Hays, Francis M. Daugherty, John P. Brown, John Davidson, George K. Fauning, Ed. Alcorn, Jas. C. McCoy, David J. Mott, Charles H. Smith, Sewall Trust and Thos. Morris.

Kinda Codan.

The Trials and Tribulations of our Heavenly Duck Ranch.

The Kingdom of God still rolls on about as deliberately and slowly on the wheel of time. The proposition have made their case and the defense come forward with an array of seely and homely angels, archangeles and winged palm singers of both sexes, that would give any ordinary mortal the horrors when contemplating his flight to this celestial duck ranch.

Y. V. Clure, an archangel of the celestial magnitude, testified that he lost no faith in Davis and his two sons, and that Davis and progeny

WERE THE ONLY GODS he ever knew, and that he had lived in Heaven (the duck ranch) for 12 years, and in that period had never known a woman. Furthermore that Davis, the God, never went among the women, but at the same time the God the Spirit never made a confidant of him, or let him into the innermost secrets of the heart. Messrs. Swan O. Hagg and Mortensen testified that they came from Montana with the Lord in 1869 and that he has been a good moral G-d—above reproach—and that he has always "divided up" as the Lord should do, besides he has taught them the Christian religion. And that they have no reason to doubt his being the Omnipotent One. To-day, angels of the feminine gender will testify by G-d—Davis is what he represents himself. The Salt Lake Tribune will please not encumber its limited space by crediting this article to us.

"What happy hours, sweet, I spend," He sighs, "aloue with thee." "It's all," she says, "you ever spend—" "Good evening!" says he.

Sheriff's Sale of Real Estate for Delinquent Taxes for the year 1880.

NOTICE IS HEREBY GIVEN THAT the following real estate in such cases made and provided, I will offer for sale at the Court House door, in Walla Walla County, W. PAINE BROTHERS BUILDING, SECOND STREET, WALLA WALLA, W. T.

"BOSS OF THE ROAD" OVERALLS! IMPROVED. The Unparalleled Popularity of the "Boss of the Road" overalls has induced several manufacturers to imitate them with an inferior class of work.

To protect our customers from unscrupulous imitations we place an Overall on the market which shall SURPASS all others in strength, while as elegant in cut as the most fastidious could desire, and above all to furnish an article as CHEAP AS THE CHEAPEST, we determined to improve them by the addition of our PATENTED CONTINUOUS FLY!

DR. SPINNEY, No. 11 Kearney St., San Francisco. Treats all Special and Chronic Diseases. YOUNG MEN WHO MAY BE SUFFERING FROM the effects of youthful follies and indiscretions, will do well to avail themselves of the Great English Remedy at the altar of suffering humanity. DR. SPINNEY will guarantee to forest 200 years of every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN There are many at the age of thirty to sixty who are troubled with frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and turbid appearance. There are many who die of this difficulty in the second stage of the disease, which is the most dangerous. Dr. Spinney will guarantee a perfect cure in all such cases, and a healthy restoration of the entire urinary organs.

OFFICE Hours.—10 to 4, and 6 to 8. Send from 10 to 11 A. M. Consultation free. Through examination in and advice, \$5. Call or address, DR. SPINNEY & CO.

SIMON HARRIS, Has just opened a Music Store & Art Gallery At No. 118, Front Street, (1st and Block), Portland, Oregon. With the largest stock of Musical Instruments in the State. Sole Agent for the Celebrated Sohmer's Piano, James & Holtzner's Pianos, Geo. Woods & Co's Organs, Loring & Co's Organs. Direct imported from Europe of BRASS BAND INSTRUMENTS. Violins, Guitars, Saxophone, Etc. Prices lower than any other house. Catalogue Free.

MISCELLANEOUS ADVERTISEMENTS.

OFFICE OF THE PACIFIC MUTUAL Life Insurance Company. OF CALIFORNIA. SACRAMENTO, July 1st, 1880.

TO ALL DESIRERS OF SECURING THE BENEFITS OF LIFE INSURANCE.—The first consideration with applicants for life insurance is, or at least should be, SAFETY. Will the money paid out for the Policy be promptly and honestly paid? Are the officers of the Company Honorable and uprightly administered? When the Policy becomes a claim, will it be promptly paid, and thus the object which induced the payment of the premiums be fully attained? There are queries naturally suggested and the character of the answers determines the course of the insurer and the selection of his Company. In this connection, the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and statements concerning their Company:

1. Since its organization, A. D. 1868, it has paid 353 death losses on policies amounting in the aggregate to \$929,575. 2. It has paid to Policy Holders, for Matured Endowments, Dividends, and Surrender Values, in Round Numbers, \$1,000,000. 3. Its losses have been paid PROMPTLY and WITHOUT LITIGATION. No judgment arising from a policy claim has ever been rendered against it, and it has no suits of this character pending. 4. It has repeatedly been examined by SWORN EXPERTS, and most thorough and searching investigations made of its condition and business, and in every case its solvency and trustworthiness have been demonstrated. 5. It is a Stockholders Company and is widely known as among the most capable business men and ablest financiers of the State of California, and the integrity of their management is unquestioned. 6. The laws of the State, including the constitutional provisions affecting corporations, are of the most right character, such as to make the company one of the safest institutions of its kind. Section 3 of Article XII of the New Constitution of the State of California, is as follows: SEC. 3. Each stockholder of a corporation or joint stock association shall be individually and personally liable for each proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder, as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock or shares of the corporation or association. The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or misappropriated by the officers of such corporation or joint stock association, during the term of office of such Director or Trustee. 7. Its policy contracts contain no restrictions upon residences or travel, and its forms of insurance are unusually attractive. The Low Rate, Deposit Endowment, and Mutual Investment Policies, are peculiar to this Company, and afford advantages to the insured which are not surpassed, if equalled, by those of any other Company. 8. When desired, Policies can be registered by the Insurance Commissioners of California, on the payment of a moderate fee; and a policy holder in the PACIFIC MUTUAL LIFE INSURANCE COMPANY OF CALIFORNIA has then the absolute guarantee of the State of California for the money held by this company against the contingency of his death is secured by bonds and mortgages deposited in the State Treasury. With December 31st, 1879, the Company closed its eleventh year, and in no other year is the only instance on record in which a life insurance company in the eleventh year of its existence was enabled to pay its death losses from interest receipts; not only was this done, but in addition there was a considerable surplus remaining. Believing ourselves entitled to the confidence and business of such as propose affecting insurance upon human life, we solicit their patronage, and pledge ourselves to discharge to the best of our ability the important and sacred trust devolved upon us.

ROBERT SWANSON, J. H. CARROLL, J. H. CLARK, R. C. CLARK, G. A. MOORE, THOMAS M. TAYLOR, D. W. EMM, Directors Pacific Mutual Life Insurance Company.

The Portland Board is composed of the following well known men who represent \$10,000,000: JAMES STEELE, Cashier First National Bank, CHARLES HODGE, H. S. Dyer, Davis & Co., J. A. SHERWOOD, Wholesale Grocer and Financier, C. A. DUFFY, Attorney-at-Law, L. C. HENNINGSEN, Hardware & Groceries, J. MORRIS, Wholesale Dealer, G. R. NORTHAUG, Physician, J. K. GILBERT, Stationer, E. P. ROBERTS, General Ticket and Freight Agent, O. & C. Railroad, W. W. SPALDING, Wholesale Butcher.

THE LION MEDICINE CO., NEW YORK. Causing Chills and Fever, Dumb Ague, Intermittent, Remittent and Typhoid Fevers, Biliousness, Liver, Stomach, and Kidney disorders, and many other ailments, destroying the health and lives of millions, is driven out of the system, and radically cured by the use of the LION MALARIAL AND LIVER PAD AND FOOT PLASTER (No. 3), the cheapest and only perfect treatment by the Absorption principle. The Plaster's acting in conjunction with the Pad upon the nerve centers and remote parts of the body, in absorbing and thoroughly ridding the system from MALARIAL POISON.

THE WHOLE TREATMENT, PAD, BODY PLASTER and FOOT PLASTERS, all combined, sold for \$1.00—the cheapest and best remedy ever discovered, and a positive cure guaranteed if worn according to directions. Remember, Pad, Body Plaster and Foot Plasters, the whole, \$1.00. Sold by all druggists, or mailed on receipt of price by THE LION MEDICINE CO., NEW YORK. WEDDING NOTE PAPER, extra fine for sale at the Store and other offices. MEMORANDUM books, blank books and other kinds of books made at this office.
