House, Sign & Steamboat Painting. O. S. SAVAGE, Practical Painter, Main Street, The Dalles, Oregon.

THOMAS QUINN, MANUFACTURER AND DEALER IN Saddles, Bridles, Harness, &c. STANDARDS FLOURING MILLS.

POETICAL SELECTIONS, Sheltered. Out of the darkness, out of the rain, Into your presence so loving and dear, Into the warm and brightening again, Safe from all thought of trembling and fear.

Separation. A wall grew up between the two, A strong, thick wall, though all unseen; None knew when the first stones were laid, Nor how the wall was built I woe.

CALIFORNIA JOURNALISM. The San Francisco "Call." The San Francisco Call has lately added to its establishment a "Lighting Press," capable of printing, folding and delivering 30,000 sheets an hour.

VERY PECULIAR CONSTRUCTION. A citizen who passed the outer door leading to the bank about 6 o'clock last night saw the door open and three men, strangers to him, standing in the passage.

GOLD AND BONDS.—Gold and bonds exhibit an inexplicable perversity since the passage of the silver bill. According to the best financiers, or those who assume to be such, gold ought to have gone up and bonds down.

SEVERAL exchanges are giving directions "How to Dress." The most sensible way is to stay in the bed till the fire is started, and then take your clothes under your arm and trot out to the dining room stove.

MURDERED. A Bank-Officer Suffers Death Rather than Be False to His Trust. DEXTER, Me., February 23.—J. W. Barron, treasurer of the Dexter Savings Bank, was left alone in the office of Mr. Parsons, an insurance agent, who has his office in the same room with the bank at about 5 o'clock on Friday evening.

THE SUB-TREASURER USED "THE CALL" FOR LIBEL. An indictment was found September 19, 1877, and the case was tried in the county court before Judge Freelon. Col. Edward D. Baker, one of the most eloquent pleaders ever before the California bar, was retained to prosecute; and the defense was undertaken by the comparatively unknown law firm, Love & Watson.

THE GREAT ARID DESERT.—Recent explorations in Australia show that, in addition to an extraordinary lake of salt water in the centre of the country which blights thousands of square miles of territory in its vicinity, there is beyond an arid desert of greater extent than any other in the world.

THE ENGLISH CHANNEL TUNNEL.—Operations connected with the submarine tunnel have already been commenced on the French side of the channel, several pits having been sunk to a depth of 110 yards. At the same time the French and English committees have definitely drawn up the conditions of working the route.

THE MOFFITT REGISTER.—That little contrivance called variously the "bell punch" and "Moffitt Register," is growing rapidly in favor since it was first adopted by the State of Virginia, and added so largely to her revenues. Chicago is now among the cities that wishes to give it a trial.

CHARLES LAMB, when speaking of one of his rides on horseback, remarked that all at once his horse stopped; but he kept right on. It was a d-ker who exclaimed as he rose from his knees at a camp meeting: "Here I raise my elbow-knees, sir!"

It was a d-ker who exclaimed as he rose from his knees at a camp meeting: "Here I raise my elbow-knees, sir!"

MONEY that bank officers get away with is charged to running expenses.

Metric Measures. The new system of measures just now introduced into our schools will prove undoubtedly a vexation to our old folks, inasmuch as the old yard is to be thrown out and a new one introduced.

How a Scare Cured a Paralytic. In a letter received a few days since from a person in New Hampshire occurs this sentence: "Old Simon Love stopped here yesterday on his way home. He is almost 92, and is hale and hearty."

Well, one day in early October, while the pigeons were very plenty, Mr. Hammond Love's son-in-law, was Simon Love, then 62 years of age, and living with a son-in-law on the Grand Inverdale road, under Mote Mountain, had been laid up for more than a year with what the doctors called a species of lumbago.

Well, one day in early October, while the pigeons were very plenty, Mr. Hammond Love's son-in-law, was Simon Love, then 62 years of age, and living with a son-in-law on the Grand Inverdale road, under Mote Mountain, had been laid up for more than a year with what the doctors called a species of lumbago.

DIVERSIFIED INDUSTRY.

Now that our country is being settled up by industrious farmers—men who come here to make homes—it is well that they should start in right.

In every-day life we find that if one man in a community makes a little more money than his neighbor, by pursuing legitimate business, or a specialty, his neighbor's fingers itch till he has tried something of the same sort.

Could we be always assured of favorable seasons, constant markets, and ordinary influences, specialties in farming might answer as well as any.

During a residence of over nineteen years this side of the mountains, we have noticed that those farmers were most successful who diversified their industry—raised wheat, and oats, and barley; gave their attention to dairying, and raised hogs to consume the waste about the farm.

THE ROOSTER IN POLITICS.—The Cincinnati Enquirer explains the origin of the "rooster" in politics. It says: "It was not late a period as 1840, the year of the 'log cabin,' 'hard cider,' and 'coon skin' campaign which resulted in the election of Gen. Harrison, that he first made his appearance."

THE MITCHELL RING ORGAN, in this city, like all the rest, says that the senator has done so much good for the State since in the senate. We asked a few days ago to have his organs tell us what he has done?

SILVER DOLLARS.—The first of the new silver dollars will be sold for their full weight in gold as curiosities among those who may wish to purchase them.

Sargent's Timber Land Bill.

WASHINGTON, March 14.—The bill introduced by Senator Sargent to-day for the sale of timber lands, provides that surveyed public lands in California, Oregon and Washington territory, valuable chiefly for timber, and unfit for cultivation, may be sold to U. S. citizens in quantities not exceeding 160 acres, to any one person or association at the minimum price of \$2.50 per acre, and lands valuable chiefly for stone may be sold on the same terms.

INVESTMENT.—An exchange has a reference to what may be termed "dead-head" advertising that reflects our views exactly: It says the newspaper business is subject to a great amount of imposition at the hands of pirates and dead-beats than any other business extant.

ON GUNNING.—"Fresh air is better than pills; tramps through the woods far better than squills; better for aches and better ills, than quinine by the pound; what is the odds if you soil your clothes, or scratch the delicate end of your nose in dodging a bribe that lazily grows in your path on the hunting ground."

THE BIG MAIL CONTRACT.—The mail route between The Dalles and Kelton, Utah, is one of the largest inland routes in the United States. In the recent letting of the contract there were seven bidders, as follows: E. S. Kearney, \$115,000; W. M. Griffith, \$114,900; D. L. Parker, \$113,330; John Haley, \$110,000; D. W. Small, \$97,050; W. B. Moore, \$93,700; A. J. Salisbury, \$84,900.

THE RICHEST MAN in the United States is now in the New York legislature. Heir of John Jacob Astor, he owns real estate in New York sufficient to make a good sized farm in the country.

COUNTED IN.—Moss, a former governor of South Carolina and a republican in politics, declares now that the Tilden electors carried that state by an honest majority of one thousand votes or more over the Hayes electors.

TERRITORIAL LAWS.—It is now almost four months since the legislature adjourned, and yet the laws—such as they are—have not come to hand.

MARRIED.—SMALL-DAWSON.—On the 20th of March, by Rev. P. B. Chamberlain, David W. Small and Nellie Dawson, both of Walla Walla county.

Our Washington Letter.

WASHINGTON, March 7, 1878. EDITOR STATESMAN.—Senator Beck spoke briefly but well yesterday in support of his resolution declaring it unnecessary and impudent to impose taxes at this time to impede the sinking fund beyond the limits required by law, and against the public debt until congress takes further action on the subject.

There is evidence of progress in general reconciliation in the fact that an act has passed by the houses, with little opposition, which restores to the pension rolls those dropped therefrom in 1861 because of alleged disloyalty. The vote was nearly unanimous in the house, the only person making any remarks in opposition being a Vermont member who was born and educated in England, and who, perhaps, for that reason, does not take a genuine American interest in our affairs.

There will probably be one million of the new silver dollars ready for distribution by the end of the month, and four millions at the end of April. Government bonds have not declined since the passage of the silver bill and gold was lower yesterday than at any previous time for sixteen years.

All accounts agree in the statement that one year of presidential experience has taken away much of the ardor with which Mr. Hayes at first received those fellow citizens who called upon him at the white house.

THEIR MOTIVES.—The Tacoma Herald undertakes to state the motives that prompt certain parties in their opposition to the removal of the land grant to the North Pacific Railroad. It says the motives that influence Mitchell are, first, his retainer by Jay Gould to kill off the only railroad enterprise that threatens to compete with the monopoly between Omaha and San Francisco; second, his desire to create a popular feeling in Oregon in his favor which will reflect him to the U. S. senate; third, his animosity to the Oregon Steam Navigation Company.

YOUTHFUL DEPRAVITY.—The Portland Telegram has a chapter upon youthful depravity that will apply with very considerable force to this portion of the moral vineyard. It finds among the young men who make the church their headquarters some of the most depraved specimens of the Portland hoodlums—and these latter also in some instances the sons of respectable parents.

THE ROOSTER IN POLITICS.—The Cincinnati Enquirer explains the origin of the "rooster" in politics. It says: "It was not late a period as 1840, the year of the 'log cabin,' 'hard cider,' and 'coon skin' campaign which resulted in the election of Gen. Harrison, that he first made his appearance."

THE RICHEST MAN in the United States is now in the New York legislature. Heir of John Jacob Astor, he owns real estate in New York sufficient to make a good sized farm in the country.

COUNTED IN.—Moss, a former governor of South Carolina and a republican in politics, declares now that the Tilden electors carried that state by an honest majority of one thousand votes or more over the Hayes electors.

TERRITORIAL LAWS.—It is now almost four months since the legislature adjourned, and yet the laws—such as they are—have not come to hand.

MARRIED.—SMALL-DAWSON.—On the 20th of March, by Rev. P. B. Chamberlain, David W. Small and Nellie Dawson, both of Walla Walla county.

JOHNSON, REES & WINANS'

KANSAS CATTLE BUYERS just now are over-running this valley and threaten not to leave a horse hoof in the country.

THERE will not be any service in St. Paul's Episcopal church on Sunday, the 24th, on account of the absence of the rector at Pendleton.

PRIVATE COURT.—The regular March term of the probate court will commence on Monday next. A large amount of business will be transacted during the term.

THE MAILS just now are very irregular. The reason we presume, bad roads and high water. Daily papers mailed to this office sometimes fail to reach us for a week at a time, and when received are out of date. We presume the irregularity is but temporary, and that regularity will soon be the rule.

ARMS FOR IDAHO.—In pursuance of a joint resolution of congress, 250 rifles and 12,500 cartridges have been ordered to Lewiston from Vancouver. The same number are to be sent from Bend to Fort Hall. The Bannocks in the neighborhood of Fort Hall have recently been disarmed, and are understood to be unfriendly.

CARELESS POSTMASTERS.—Quite recently it has come to our notice that postmasters are careless in the matter of "money orders." A person receives an order in the course of business and presents it for payment, only to learn that the "advice" has failed to arrive. The Portland postmaster is the latest offender in this regard, and we suggest that he instruct his "money order" clerk to be more careful.

BEET'S DRAMATIC TROUPE arrived at Walla Walla by Sunday's train and opened at the City Hall, on Monday evening, to a very fair house. Had their coming been duly announced, they would have had a much better reception, but with this drawback they have had good houses every night this week, and the manager is well satisfied with his first visit to Walla Walla.

PERSONAL.—C. P. Ferry, general superintendent of the New Zealand Fire Insurance Company, is at Walla Walla, and is arranging to establish an agency at this place. A. S. Gross, Esq., for a number of years a resident of Portland, where his business was that of a stock and money operator, has removed to Walla Walla, and proposes to become one of us. Mr. Gross is highly recommended as a prompt and careful businessman.

UNITED IN DEATH.—The Albany Democrat notices the death of Isaac Miller and Elizabeth his wife. They had been married for over 50 years, and died the same day and were buried in the same grave. The husband died in the morning and the wife in the afternoon. An occurrence of this kind is somewhat remarkable, and shows how thoroughly this aged pair were joined together. How beautiful a life-like there is compared with the marriages and separations that so frequently attract public attention.

A RESOL.—City Hall was crowded Thursday night, to witness the sensational drama entitled "The Tour of the World." Every seat and bench was occupied, and the aisles and space in front of the stage packed with human beings. It was the best house we have ever seen in Walla Walla, and goes to show that when something new and good is placed upon the stage, our people are willing to patronize the drama. Considering the limited space on the stage and other drawbacks, the play was well rendered and gave great satisfaction.

CONSTITUTIONAL CONVENTION.—Advisers received during the week from the Sound county convince us that our position ignoring party in the constitutional convention is correct. It now appears that all over the Sound an earnest effort was made to unite the political parties, that the oldest men might be sent to the convention to represent the whole people. But certain "small beer" politicians, who have nothing to lose and everything to gain, controlled the nominations, no interest whatever is manifested, and the movement is considered a failure, that will cost the territory large sums of money that otherwise might be applied to good purposes.

THREE LITTLE MEN.—The appearance of Commodore Nutt and his brother on the streets this week attracted very general attention, and the two little men have been the topic of conversation. Somewhat strange a third man of diminutive proportions made his appearance at the same time, and looks enough like the Nutts to be a brother. This third chap is a man of means, a large cattle dealer in California, and as we are informed comes here for the purpose of making investments. Occasionally these three little men have appeared on the streets together, and as a matter of course they were "observed of all observers."

RADICAL LEADERS.—Our republican friends seem to be unfortunate in the character of their leading men. In Oregon we have the republican party led by Mitchell, a fugitive from justice, who came to the country under an assumed name. In Washington territory H. G. Struve is the head and front of the republican party. And here again we have a man of bad reputation, a deserter from the army, and a scoundrel by instinct. Now comes California, where we have a man named Gove L. Johnson, who has figured at Sacramento as a republican leader. This man it seems was guilty of forgery in New York, changed his name, fled the state, and next turned up in California, and at once became a shining light in the ranks of the republican party. We know that the mass of the republicans are honest, and hence it is with us a matter of surprise that all the radicals drift into that party.

PENAWAWA ITEMS.—Hon. C. C. Cram is down from Penawawa, and reports the new town as flourishing. Capt. Stump's new boat arrived at Penawawa last Friday evening, and continued the trip up to Lewiston that night. We understand that the boat now works satisfactorily, and that during the season she will make regular trips between Lewiston and Walla Walla. The new boat is much narrower than the O. S. N. Co.'s boats, and from this cause it is expected that she will be able to pass up and down the river at the very lowest stages of water. Snake river is raising rapidly, and the season for navigation has fully commenced. Several thousand bushels of flax-seed and wheat are at Penawawa awaiting shipment. There is a great demand for buildings, but owing to the scarcity of lumber it is impossible to go on with improvements. Considerable timber has been got out on the Clearwater, and just as soon as the stage of water admits will be rafted down to Penawawa. The ferry has been placed in thorough order, and the roads being good, parties bound for the Palouse country will have no trouble in making the trip. Claims are being taken in the neighborhood of Penawawa, and the whole country is being rapidly settled.

THE DRIVING PARK, under its new proprietor, Mr. Thomas Collins, is being greatly improved, and now presents a really handsome appearance. A new building, devoted to the purpose of reception rooms, has been erected, and all the old buildings overhauled and repaired. Other improvements are contemplated, but delayed on account of the scarcity of lumber. All the long line of stalls for horses have been white-washed. The fences immediately adjoining the grand stand have been similarly coated, and the whole place given an air of cleanliness and comfort. An inside fence connecting the track from the open field is being put up, and the whole Park is rapidly assuming the appearance of the celebrated San Francisco and Sacramento tracks. Competent judges pronounce the Walla Walla Driving Park superior to any race track on the coast, save and except the Sacramento track. The new proprietor has the taste and the means to improve his Park, and if suitably patronized, he intends to give Walla Walla a Driving Park that will attract the owners and breeders of fine stock from all parts of the country.

FALSE ALARM.—We learn that the settlers on Crab creek and the Four Lake country apprehend trouble with the Indians, and that owing to their apprehensions many of them have left or are preparing to leave the country. The impression is that the military will attempt to put Moses and his band on the reservation, and when this attempt is made war is sure to follow. We called General Grover's attention to these reports, and he authorizes us to say that there is no occasion whatever for alarm. Messages have already been sent to the Indians notifying them that if they behave themselves they will not be interfered with. Moses has at all times desired to live on peaceable terms with the whites, and his declarations have been to the effect that if he was allowed to remain in his country there would be no trouble. This is the position of affairs as stated by Gen. Grover, and under all the circumstances we feel warranted in saying that all apprehensions of danger are groundless.

THE BIRDS.—Spring has fairly opened, and now is the time when the birds are singing their best notes to attract the attention of their mates. The joyful songs of these feathered visitors are pleasing to every one of refinement, and yet we find many persons who in their cruelty of heart, and for fear that these little wanderers may steal a few berries—which grow for them as well as us—shoot them mercilessly down, or destroy their nests. This is all wrong. The benefit which the farmer derives from these little birds in destroying insects, is a thousand fold greater than the imaginary damage. Let the birds live! We, on this northwest coast, have none too many of them, and if we persist in exterminating the birds we may, indeed, deplore their loss. Kansas tried this experiment by killing all the larger birds, and now the settlers leave that country, because the grasshoppers and crickets have taken possession of it. We bid the destroyers of the birds to pause in their work of destruction, and remember that these feathered songsters have a wise purpose to subserve.

IMPROVED WAGONS.—Messrs. Carris & Page, dealers in agricultural implements, have just introduced the Fish wagon, manufactured at Racine, Wisconsin. This wagon is furnished with Whipple's patent guide and draft shift, which is considered a great improvement upon the wagons heretofore in use. Its advantages may be thus stated: It is a direct purchase from the wheel. It gives a direct leverage of both horses over either wheel, when it strikes an obstruction. It prevents sore necks and shoulders. A team can haul one-quarter more over a rough road. And the price is so trifling, that no teamster or farmer can afford to be without one. The saving in tongues and hounds by the use of this invention ought alone to sell it, as there is no draft on the pole or hounds, and we are satisfied that the merit, price, simplicity, and being so easily attached, will recommend it to all wide-awake individuals and lovers of improvement.

E. A. HAWLEY, chief of the great firm of Hawley, Dodd & Co., dealers in agricultural implements, has returned from his trip to Colfax. Mr. Hawley expresses himself surprised with the extent of the country, and fully realizes that this is destined to be one of the greatest grain producing districts on the continent. What we want is farmers to take up the land and tickle it with the plow. Mr. Hawley's report, when he returns to California, will be all in our favor, and we doubt not that he will be the means of sending us the class of immigrants who will be useful—men who expect to live by tilling the soil.

HUMBUGS.—We have a few patrons—not many—who occasionally meet us on the streets, and, after the usual salutation, volunteer the information that they will "call at the office and settle that bill." We don't know why it is, but we invariably find these men who "dun" themselves poor pay. The patron who means to pay meets you on the street, and greets you cheerfully, but never a word about paying a bill. This is our experience, and we feel curious to know whether it is the experience of others engaged in the same line of business.

THE REPUBLICAN TICKET for this district is now full and stands as follows: M. C. George, for the territory at large; S. M. Wait, first judicial district, and W. S. Gillam for the council district. The democrats will not have any candidates in the field and so these gentlemen will have a "walk over the course." Originally intended to be a republican convention, it is eminently proper that the democrats should give it a wide berth.

E. L. SMITH, former secretary of this territory, but at present a stock-raiser and resident of Wasco county, is proposed as the republican candidate for governor of Oregon. During his residence in this territory Smith was guilty of official "crookedness," but inasmuch as "they all do it," this need not stand in the way of his preferment.

MR. TOM QUINN, the popular saddle and harness maker, has just returned from San Francisco, and brings with him a large stock for the spring and summer trade. Mr. Quinn has now in his employ eleven first-class workmen, and yet such is the demand for manufactured goods that he is unable to keep up with his orders.

DR. MARZEY, whose return we noticed in our issue of last week, has come to Walla Walla to stay, and for the present has an office over Dr. Day's drug store. He will be on hand to attend to all calls in town or country. His past record in this city is a sufficient guarantee of his skill as a physician.

THE ANNUAL FAIR.—In arranging for the fair, the managers should offer liberal premiums to fast horses. The running and trotting matches insure a large attendance, and if they expect to attract fine horses from abroad, they must offer liberal prizes.

W. P. ADAMS, senior of the firm of Adams Bros., is now in San Francisco making purchases for the summer trade.

NEW CHURN.—Portland papers have a description of a new churn, the invention of W. W. Baker, and said to be a great improvement upon the churn heretofore in use. It is claimed for this invention that commotion and air is all that is required to produce butter; that when air is forced to the bottom of the churn and equally distributed beneath a perforated bottom with a sufficient force, assisted by the fact that air will find its way to the top, a greater locomotion (and a more equal one), will naturally be produced than has ever been introduced in churning. Also, that there being no friction, there will be no mashing of the globule—consequently the butter will keep almost any length of time. Also, that the regularity of commotion, and the equal distribution of air through the cream will cause an instantaneous separation. If this churn answers these conditions, then we suggest that the inventor send a lot of his churns to Walla Walla without delay. We have here fine cattle, and the best of grazing lands, but with all these advantages the inferior quality of our butter is a common subject of remark. The normal condition of butter as found in this market is that of salt and rancid—much of it not fit to eat; and in many instances more suitable for the grease barrel than anything else. By all means send us the new churn, and give our dairymen a chance to make good butter.

STOP THEM.—A throng of young men are now coming into this country who expect to secure employment in the various trades and professions. We have already warned this class against coming to the country, and we repeat the warning. This is substantially an agricultural county, and for persons who wish to secure land and engage in tilling the soil, the inducements are very great, but for representatives of the non-producing classes it is the last place to come to. It costs money to get here, and for a broke man it is a hard place to get away from. We have very few men of wealth who can go down in their pockets and aid the destitute stranger, and besides travel is high and we are far removed from the great centres of population. Farmers and farm hands can do well in the country, but this is the only class we advise to come here.

JOHN MULLAN, a pioneer resident of this country, is now living in San Francisco, where he figures quite prominently. His business, as we understand it, is that of a surveyor and operator in real estate, and between the two he is reported to have accumulated a handsome fortune. Just now he is the leader in a proposition to supply the city of San Francisco with water, and if he succeeds in his project he is likely to become a millionaire. Capt. Mullan will be recalled as the officer in command of the expedition that fitted out from this place, in the spring of 1852, to open a military road to Fort Benton. This work he accomplished in the face of many obstacles, and in that way linked his name with the settlement of the northwest coast. A man of generous sentiments and noble impulses, we are rejoiced to hear of his prosperity.

SOMETHING NEW AND BENEFICIAL.—The firm of McCord & Oakley are to put up an extensive lard, oil and soap factory, in this city, and commence to build the coming week. They propose to furnish the upper country, and supply the general northwest coast, with the very best article, which will be a great benefit to the people, as before we had to procure our oil at San Francisco and the eastern states. McCord & Oakley will have enough made by the first of June for this season's supply. They will be ready by fall, to buy all the fat hogs that are offered for sale by the people of this upper country.

THE WATER CONTROVERSY still occupies the attention of the district court. This is the third week of the trial, and the end is not yet. The man who expects to see the end of this trial is very much like the chap who seated himself on the banks of the river and proposed to wait until it ran by. Water is an immense power, but it occurs to us that it will require something more than water to float this suit.

A FASHIONABLE TAILOR has secured rooms on Main street, near the bridge, and will soon open out with a fine stock of cloths, cassimeres, etc., which he will make up in the latest and most fashionable styles. This will be good news for persons who have heretofore been compelled to send below whenever they required anything in the line of neatly fitting apparel.

L. SAMUEL, publisher of the Oregon Illustrated paper, was in town this week soliciting subscribers for his publication.

BUSINESS NOTICES.

CITY PROPERTY FOR SALE.

The editor of the STATESMAN is authorized to offer a number of desirable city lots for sale: 1. A corner lot on Main street, 60x120; a most desirable location, and the best lot in the business part of the town not permanently improved. Price \$5000. 2. A lot on Main street, below Second, well improved; lot fronts 16 feet and extends back to Mill Creek. Price \$2400. 3. Lot on the corner of Fourth and Rose Sts.; size of lot 120x120. Improvements, a large and comfortable dwelling house, and the yard beautiful location for a retired home, handy to business and every way desirable. Price \$2000. Any or all the above lots will be sold at the figures named. To a person desiring to make permanent investments, this is a rare opportunity to place money where it will double in a very brief space of time. For terms, etc., apply to the editor of the STATESMAN.

To the People of Walla Walla.

Dr. Souville Mathieu, the eminent French physician, whose wonderful cures have appeared in our columns, will benefit the people of Walla Walla, W. T., and vicinity, with his wonderful instrument called The Paris Sphygmometer, which we know has cured several lunatics in our state. That instrument conveys medicated inhalations direct to the seat of disease. That wonderful instrument is a blessing to mankind and a credit to his name. We recommend the doctor very highly to the afflicted. The doctor will be in Walla Walla for a few days only.—Oregonian.

This celebrated physician, coming to us thus recommended, will remain with us only one week longer, and all suffering from nasal catarrh, bronchial affections, lung diseases, asthma and all and every ailment arising from poison in the blood, can procure his services, by applying at the State house, room 3. Remember only one week longer.

The Estey Organ.

To the Public.—For the benefit of those who contemplate buying Organs, we would say "the best is always the cheapest." It is pre-eminently the quality of the tone which places the Estey Organ in advance of all others. This splendid instrument is now offered for sale by Stanley Bros., who have permanently located in Walla Walla. There is the same difference between the reeds of the Estey Organ and those of other makers, that there is between a cultivated and uncultivated human voice. We would say to the readers of the STATESMAN to examine the Estey before buying.

Relief for the Farmer.

KILL THE SQUIBBLES.—H. E. Holmes, our druggist, has invented a Squirrel Poison that is perfect and which can be sold for one-half or one-third the price of any in the market. He is now making it in large quantities, and is ready to supply farmers or dealers. Put up in 2-lb, 5-lb and 12-lb packages, or sold in bulk. Every package warranted. 16 3m

Magic Pump!

THE MAGIC PUMP, MANUFACTURED BY **MIDDAUGH & Co.,** WALLA WALLA, W. T., **Is the Best Pump in the Country!**
It took a Cash Premium of Twenty Thousand Dollars; will not freeze in any climate; will pump a barrel of water a minute; will last years.
WE CAN FURNISH PARTIES THAT prefer the Piston or Suction Pump with Low's Patent Vertical Action Pump; it is lined with Porcelain; is very neat, and works much easier than the common pump. It took the first premium at the Oregon State Fair, in 1877, over all other suction pumps. We will give \$25 to see a well of water that the MAGIC PUMP will not purify and improve. We will also give \$50 to see a well of water that is not injured by the use of the common suction pump, either wood or iron.
We shall have **MACHINE AUGERS** running in a few days and can furnish the above pumps and tubing in large quantities and at low rates. Send all orders to
H. B. MIDDAUGH & Co.,
THE MAGIC PUMP IS MANUFACTURED AT **Glasford's Mill,** 2 1/2 WALLA WALLA, W. T.

Glass, Paints & Oil A specialty, and in full stock.

Prescriptions prepared night or day. Satisfaction guaranteed. **H. F. HOLMES,** 32 1/2

BILL HEAD PAPER.—An immense stock of **BILL HEAD PAPER,** just received at the STATESMAN office. Bill heads printed and paper furnished at little more than the cost of white paper.

A BOY'S DISEASE.—The Danbury News man describes, in his own peculiar vein, the phase of disease which is apt to attack boys in fine weather shortly previous to the opening of school...

Every time he hears his mother's voice he is startled. When he sees her looking towards him, he feels his heart sink with apprehension. Finally a quarter to 9 is reached, when he should start, according to custom. One would think he had every encouragement now, but he knows that even at five minutes later he can make school by hurrying.

"I do not feel well enough to go to school," he whines. "I guess you ain't dying, quite," is the heartless reply, "and if you ain't at school you will be galloping over the neighborhood. Hurry, I tell you!"

"But it is almost 9 o'clock, and I'll be late," he protests, in desperation. "Late!" She repeats, looking at the clock. "You have plenty of time; the clock is nearly a quarter of an hour fast!"

MOTHERS AS DOCTORS.—Practical mothers learn much by their experience with the little bodies intrusted to their care. Some of the most common sense facts in the physical culture of these little ones known to the more experienced mothers may not come amiss to those who have had but little care of children.

The child must be well slept, well aired, well fed and well bathed. By a thorough understanding and practice of these four simple rules, much of the physical, mental and moral suffering in life would be avoided by parents and as well as child.

It is simply the result of imaginary affection and want of knowledge on the part of the one in charge. It will certainly pay in the end to search diligently for the cause when a little child is proverbially cross.

TURKISH JUSTICE.—The Albany Law Journal prints the following extract from a Constantinople letter. It gives a very correct idea of the manner in which justice is administered by many Turkish officials: "To a Turk, a court of justice in the American acceptance of the term, is a thing unknown."

REGISTRATION OF MAIL PACKAGES.—We read that the postmaster-general will probably recommend to congress the following method for registration of mail packages. He proposes that the government shall issue printed forms of receipts for letters, about three inches long and two inches wide; that they be put up in the form of books, perforated at one end so that they may be easily removed, and gummed on the back of one end so that they may be reattached either to the original book or to the pages, he suggests, can be sold by the postoffice at a rate of two cents.

A GLEBYMAN started his flock a few Sunday evenings since by telling them, "Hell is not half so full of men and women as men and women are full of hell."

The Central Pacific railroad company have ordered 700,000 trees, to be set out along the line of their road during the coming season.

Notice for Distribution.

TERMINATION OF WASHINGTON, J. S. County of Walla Walla. IN PROBATE.—In the matter of the Estate of MARGARET JOHNSON, deceased.

Notice for Distribution.

STOCK AND GRAIN FARM.

A VALUABLE STOCK AND GRAIN FARM, including 440 acres of good land, all under fence, is offered for sale. There is on the place a good bearing orchard, plenty of running water and good well water; a good milking house, barn, outhouses, etc.; a good building and a large number of head of stock.

SIO REWARD.

STRAYED FROM JOHN MAN-YONS, on the Touchet, about the 23d of May, 1877, one DARK BAY WARE, (no white) high hind; nine years old; branded "J. H." connected on the left shoulder. Also a BAY HORSE, CALF, foaled last year. The above reward will be paid to any person delivering said horses, or giving any information as to their whereabouts.

CAUTION!

NO PERSON IS AUTHORIZED to contract debts in my name, and in all cases where debts are contracted without my authority payment will be contested. This is the second time I have given notice to be affected through the columns of the STATESMAN, and the notice is again given for the information of all concerned. NINEVAH FORD, Walla Walla, February 26, 1878.

SQUIRREL SCALPS!

NOTICE.—In accordance with an act, authorizing the County Commissioners of bounty for the scalps of SQUIRRELS, RABBITS and SAGE RATS, approved October 30, 1877, it was ordered by the County Commissioners of Walla Walla County, at their regular meeting in February, 1878, that a bounty of two (2) cents be paid for the scalps of all Squirrels killed within the limits of said County.

UNDERTAKER.

A PROCLAMATION.

BY THE GOVERNOR OF THE TERRITORY OF WASHINGTON, WHEREAS the Legislative Assembly of the Territory of Washington by an act approved the 9th day of November, A. D. 1877, provided that a special election should be held in said Territory, on the 9th day of April, 1878, for the purpose of choosing delegates to assemble at Walla Walla, A. D. 1878, to frame a State Constitution...

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the Territory to be affixed at Olympia, this 24th day of January, A. D. One Thousand Eight Hundred and Seventy-eight.

By the Governor, ELISHA P. FERRY, N. H. OWINGS, Secretary of the Territory.

STEEL'S PAIN ERADICATOR.

The Most Wonderful Discovery of the Age. The World moves, and unless we progress we must go backward. Nothing remains stationary.

IN OFFERING THIS MEDICINE IT IS NOT intended to deceive the people by a name for every complaint, but a really scientific article of the greatest merit, which will prove a boon to suffering humanity—both on account of its adaptability to both men and women, and its prompt application, and the good being within the reach of all. It will actually cure Rheumatism, Contracted Cords, Neuralgia, Sciatica, Headache, Toothache, Earache, Burns, Stomachic, Stiff Joints, Swellings, Sprains, Bruises, Cuts, Scalds, Inflammation of the Kidneys, And all Nervous and Inflammatory Aches and Pains.

DR. STEELE, who has for years been in the Proprietary Medicine business, and who has traveled in various parts of the world in search of information, has found out the secret of the ERADICATOR as the "No Pain Balm" of safe, sure, and reliable remedy for general use as a Family Tonic.

Put up in large bottles, and for sale by druggists and dealers. If you happen to be in a locality where STEEL'S PAIN ERADICATOR cannot be obtained, send to the nearest wholesale druggist, or to the Agents,

CRANE & BRIGHAN.

That we are PERMANENTLY ESTABLISHED and can always be relied on to keep Machines in repair and to supply needles and accessories.

The Singer Man'g Co., WILLIS B. FRY, Manager, Corner First and Yamhill Sts., Portland, THOS. RONAN, Act. Walla Walla.

THE DOMESTIC

calls attention to this Machine as embracing in all the latest improvements, and superior to any other Machine ever before constructed. Its features are: 1. It is the lightest running Machine existing. 2. It is a Noiseless Machine. 3. The motion under the arm is greater by one-half than any other Machine. 4. The Shuttle holds more thread than any other Machine, and it is made on a different principle from any other Shuttle. 5. The Machine is constructed so that the last motion or wear can be taken up. 6. The Shaft which carries the Needle-Bar is straight, which gives it more power. 7. The Machine has no cog-wheeler pulleys, and the Table is made of seven layers of wood, and is so constructed, making it proof against splitting or warping.
