

UNION COUNTY CONVENTION.—It will be seen by the official report in another column, that the Union Convention for Walla Walla county met at the District School Room, on Saturday last, and proceeded to the election of delegates to the Vancouver Convention. Other engagements prevented our attendance, but we are informed that the assemblage was harmonious and a lively interest expressed in the success of the Union cause. The delegates elected to the Vancouver Convention are leading men in point of character and influence, and it is safe to say that this county has never at any previous convention been represented by a better class of citizens. Four of the delegates are understood to unequivocally favor Judge Wyche's nomination. No instructions were given, it being thought that the delegation would be more effective in securing a candidate from this side of the mountains if left untrammelled. Advice from different quarters of the Territory go to show that the policy of sending delegates untrammelled has prevailed in a majority of the counties. As we have already stated, the popular sentiment in all this section of the Territory is largely in favor of Judge Wyche, and in the event of his nomination it will require the democrats to bring out their strongest man to ensure his defeat. Regarding the Judge's nomination as a foregone conclusion, it becomes our democratic friends at their Convention of to-morrow to cultivate a spirit of harmony and conciliation, and having first ascertained which one of our citizens can best unite the conservative vote of the county, send to Vancouver a delegation that will leave no stone unturned to secure his nomination. It is everywhere conceded that the nomination belongs to the country east of the mountains, and if in the end we fail to carry off the prize, it will be owing to our local dissensions and divisions. In this regard the republicans exhibited a wholesome spirit of unity, and we trust the example thus set will not be lost upon our democratic friends.

A WELCOME VISITOR.—David Felsen, held, Esq., a leading Dalles merchant, and frequent contributor to our columns, dropped in at our sanctum, quite unexpectedly, on Friday last, just after the Statesman had gone to press. A cleverer or more genial fellow than "Dave" does not exist, and hence the high regard in which he is held by hosts of friends. After spending several days in examining and admiring Walla Walla and our beautiful valley, "Dave" turned his face homeward, fully impressed with the idea that after all Dalles is the place! Our young friend is still sanguine as to the future of his favorite town, and predicts that the present season will witness a revival in all branches of trade and business. Our neighbors will accept the assurance that we of Walla Walla will not envy them their prosperity.

DEMOCRATIC COUNTY CONVENTION.—The Democratic County Convention, called for the purpose of electing delegates to the Vancouver Convention, will meet at Hellmuth's Hall, on to-morrow (Saturday) afternoon, at one o'clock. The County Convention consists of 31 members, 19 of whom are understood to favor Mr. Langford as candidate for Congress. The remaining members are divided between Messrs. Laater, Dugan and Vansyckle. In electing delegates, we trust that care will be taken to send only such men as will work truly and faithfully for the interests of this section. If by any chance a democrat is elected to Congress, it must be by the vote of this Valley, and hence there is a peculiar fitness in allowing Walla Walla to name the candidate. Our advice from below are all to the effect, that, if Walla Walla is united in the support of any one of our distinguished citizens, the nomination will be cheerfully accorded to her. With this opportunity in our favor, let not local dissensions or jealousies be the means of throwing it away.

DISORDERLY.—The primary meeting of the democratic voters of Walla Walla Precinct, on Saturday last, was attended by scenes of disorder that can only be characterized as disgraceful. We trust that we may be spared a repetition of these scenes. In a few weeks, meetings will be held for the election of delegates to a county nominating convention, when it is hoped that good order and decorum will prevail. The introduction of "roughs," for the purpose of influencing or carrying primary elections, can only have one effect—that of forcing good men to withdraw from all participation in these meetings. A little temporary success may be achieved in this way, but a reaction is sure to follow, and in the end, the party resorting to these practices is made to suffer. We commend this whole subject to the serious attention of the friends of order and decency, and do so in the hope that in the future there may be no occasion for complaint on this score.

AS OLD PIONEER.—Robert Newell, one of the earliest settlers in Oregon, and a man who figured prominently in the events attending the first settlement of this country, passed through Walla Walla a few days since, on his way to Lewiston, where he proposes to spend his remaining years. The old pioneer paid us the compliment of a call, and in the course of an hour's conversation, we gleaned from him many interesting incidents relating to the men who opened Oregon and Washington Territory to settlement. A glorious band; right well did they accomplish their work; and now, in their declining years, they should be honored and respected by those who are permitted to reap where they sowed.

"CUMTUX" is in town, and running heavily on the Delegate question.

A Woolen Factory.

The milling business being overdone in Walla Walla Valley, Mr. H. P. Isaacs proposes to remove all the machinery from his present mill, and if our citizens co-operate with him, will convert it into a woolen factory. The building is sufficiently large to accommodate all the machinery necessary to manufacture blankets and the coarser grades of flannels. The building, water-power, and the requisite land, will be transferred to a woolen manufacturing company at the appraised value, and the whole amount taken in stock. All that will remain for the stockholders will be to raise the funds necessary to buy the machinery, pulleys, shafting, etc. To do this, will require a sum not to exceed \$10,000. That we are not mistaken in this, we give the following figures, taken from a manufacturer's circular: One set Carding Machinery, complete, \$1,200 One 24-inch Picker, 300 One Jack, 200 Spindles, 300 Five Broad Looms, 575 Three Gigs, 300 Felling Mill, 160 Total, \$2,560 These are Eastern prices, and made previous to the late advances in all kinds of machinery. Place this advance at 50 per cent, and \$5,000 will cover the whole cost of the machinery, and leave a surplus to pay freight bills. An equal sum would probably be required to pay the expense of rigging, shafting, pulleys, etc., but, certainly \$10,000 will cover the entire expenditure. It may be said that this is a small concern, and would scarcely meet the requirements of the country. To all of which we reply, that a mill provided with the machinery called for in the estimate, would have every facility for manufacturing blankets and the coarser descriptions of flannels. To manufacture fine cassimeres, would require a large amount of expensive machinery, which this market is scarcely likely to require for several years to come. A woolen factory organized on the scale we have proposed, will serve as a nucleus, and in a few years we will see grow up around it, a factory having all the modern improvements, and capable of turning out the finest fabrics. It so happened, that the writer was at Salem, when the Pioneer Woolen Factory was getting under way, and well does he recollect the sneers of those who seen in the little woolen factory the sure indications of failure. That concern has grown until it is now one of the largest manufacturing enterprises on the Pacific Coast, and the fame of its fabrics has extended throughout the length and breadth of the land. A like success will attend an enterprise of the same kind here, and hence we feel warranted in commending to our readers the proposition, as made by Mr. Isaacs.

Let a meeting be called, and the stock necessary to a commencement will be subscribed without an effort. There is scarce a farmer in the Valley, who will not subscribe at least \$100 toward an enterprise that promises him an ever increasing demand for his wool. From this class alone the requisite amount can be raised, but in an enterprise of this character, our merchants and business men generally will ask to be allowed to lend a helping hand. Thus co-operating, we can readily have a woolen factory in operation before the close of the year, and once inaugurated, it is sure to progress until we are relieved from dependence upon other communities for our woolen fabrics.

The "49" Gold Fields

COVILVILLE, March 14, 1867. EDITOR STATESMAN.—We just received news from the new discovered gold fields '49, about 20 miles from the mouth of the Kootenai, which is highly favorable. The discovery party, H. O. Oliver & Co., have commenced work, although greatly hindered by the cold, and are taking out big wages. Messrs. Dapee & Co., who located claims above and below the Discovery, have prospected their ground, and have taken out as much as two ounces of gold to the pan full of gravel. The creek is about twenty miles long, and quite shallow, the bedrock can be reached at from 6 to 12 feet. The creek is very easy of access, and by a little improvement in the road, a man can easily go the distance from the mouth of the Kootenai to the creek in one day. Besides '49, there were two more creeks discovered last fall, a short distance from '49 and from prospects, they seem fully as good as the '49. There is a report current, that the steamer '49 will leave the little Dalles about the middle of April or first of May, for the above mines and the Big Bend country. Yours, A. F.

Fort Snopred, B. C.

MARCH 29th, 1867. Mr. MARCHAND.—I have just returned from '49 Creek, and wish to inform you that I have taken up a claim for you, and have already recorded it. You will please tell my brother that I have also recorded a claim for him. The diggings will pay about eight or ten dollars a day—probably more, but not less. You will also tell Rome (or Romino) that I have also taken up a claim for him. He is partner of Joe Martin. You will try and come up as soon as you can, and bring all of your tools, etc., and also about six weeks' provisions. You will kindly tell my brother, that if he can't come up himself, to send a man in his place. You will also tell Charles Gravelle that his partner on '49 wants him to come up immediately, as he has recorded a claim for him. I will be returning to-morrow morning. Yours, KAVILO DUBUIS.

NEW PAPER.—J. M. & H. M. Gale are about to commence the publication of a newspaper at Roseburg, Douglas county, Oregon, to be entitled the *Ensign*. The paper will be radical in politics.

Walla Walla Correspondence.

WALLULA, March 23, 1867. EDITOR STATESMAN.—It has frequently been said that "corporations have no souls." Well, if they have, their souls can only be brought to light by similar institutions, or, by a strong opposition, either of which, for a time, are detrimental to all commercial interests, in any community. The only question to be solved, is, which produces the greatest loss to a community, a heartless monopoly, or an active, energetic opposition. Opposition, for a while, undoubtedly jars capital and all commercial interests, creates a feverish excitement, as well as a direct loss to the mercantile community; for, when a merchant has, for a series of years; been doing business, subject to the grasping avarice of a heartless monopoly, (we will say that) all his his goods, for a year or two previous, have cost him fifty dollars per ton, transportation; now comes an opposition, and freights go down to twenty-five dollars per ton, and this state of things continues for only a few months, it certainly gives new merchants a great advantage over our old stand-bys. Then, as a general thing, after a stiff opposition for a few months, and prices go down, they very seldom ever go back to their old figure. In this respect all eventually become gainers by the opposition, in the long run. But is it not far better for all monopolists to avoid opposition, and show by their actions that they have sympathy with the people, their customers? It certainly seems to me so. Opposition in steamboating, or, in fact, all transportation companies, always benefits a large class of people. Hotels, saloons, ferries and farmers come in for a large share, but the merchants, for a while, are sure to lose by the operation.

I have been led to think of this matter from the fact of the great disparagement of charges by the O. S. N. Co. It is a notorious fact, that nowhere in the world, all things considered, are charges by steamboats so high as on the Columbia river, and I know of no place in the world, where prices could be reduced to so good advantage, not only to meet the wants of all, but to the benefit of the steamboat owners themselves. It is a conceded fact that the Columbia river is the proper channel for goods from San Francisco or Portland, destined to Washington, Idaho and western Montana Territories. But it is also well known, that there are several other routes struggling to get this trade, and for no other reason in the world than that it cost so much to send freight, or to travel on the Columbia river route.

No man can take one of the O. S. N. Co. steamers, at Wallula, and go to Portland, taro road and come straight back, short of an expense of fifty dollars. This is actual expense. No merchant can make the trip and remain in Portland three days, for a less sum than seventy-five dollars; distance 220 miles, time one day! A Portland merchant can get on an ocean steamer at Portland, go to San Francisco and back, for the same money; distance 750 miles, time four days! Suppose you want to go from Wallula to Umatilla, distance 25 miles, time two hours, charge two dollars and fifty cents in gold coin! Suppose you want something to eat on the way down—seventy-five cents more is required! Freight from San Francisco to Portland, distance 750 miles, one dollar per ton (sometimes two and a half). Freight from Portland to Wallula, distance 220 miles, 35 dollars per ton! It costs seven times as much more, to bring freight from Portland to Wallula, distance 220 miles, than it does from San Francisco to Portland, distance 750 miles! All this by measure, meat. A ton of goods, measurement, will not average 1700lb.

Now look at the route via the Missouri river. From St. Louis to Fort Benton is 2,500 miles, and steamboats cannot make more than two trips (average) per year—boating season—yet the mountain merchant can have goods shipped from St. Louis to Fort Benton, a distance of near 2,500 miles, for ten cents per pound weight. His freight—assorted merchandise—does not average him seventeen dollars per ton! and that in greenbacks! Now from Fort Benton to Helena—the heart of Montana Territory—is only 143 miles, and freight to Helena by team, two cents.

Then comes the Chico, Humboldt, and Los Angeles routes, by the way of Salt Lake City. I cannot give the prices of these routes. I only know that they are trying to compete with the great national highway, the Columbia river route. Now with all these facts staring this O. S. N. Co. in the face, is it not enough to shake the confidence of every man in this up'r country, in their sound judgment, or are they void of even common sense? Do they not know that every trader who goes from San Francisco or Portland to Montana, begets trade for these two cities? Most certainly he does. No trader leaves Portland or San Francisco for Montana, that does not leave more or less in debt to these two places. Or he may be nothing more than an agent. Consequently, if there is money in the venture, he returns and takes out more goods. But when or where have the O. S. N. Co. manifested any desire to gain this trade? On the contrary, they seem to try every way possible to build up a successful rival on the Missouri river—giving Ollico, Humboldt, and Los Angeles a chance, and putting an impetus to all railroads pointing towards this rich mining section of the country, and every mile of railroad that is finished, pointing towards Montana, is put to use immediately. Cannot every person see this? It is certainly plain enough to anyone but the managers of the O. S. N. Co.

Have I not given good and sufficient reasons why the O. S. N. Co. should bring down their charges to a fair and reasonable rate, without the necessity of forcing them to do so by an opposition? For my part, I don't want to see an opposition put on the Columbia river. There will be no necessity for it if the managers will only do the stockholders of the company justice, and secure what trade the route is justly entitled to, and not choke it off, as by their action they seem determined to do. CUMTUX.

THE FLAG.—D. O. McCarthy announces his intention to resume the publication of the *San Francisco Flag*. We trust the country may be spared the infliction. Under cover of patriotism, the *Flag* was the worst black-mail sheet ever published.

CITY ELECTION.—The city election comes off on Tuesday next, April 24. Turn out and elect good men to fill the offices.

Stone received 13—Anderson Cox 14—no choice. During the counting of the ballot, the Convention was addressed by Dr. Baker, Judge Wyche, Messrs. Cox and Parker, in an able manner. The following was received and adopted: REPORT OF COMMITTEE ON RESOLUTIONS. Resolved, 1st, That self-preservation is the first law alike of nations, and of nature; and that upon the conclusion of a war, that has cost the loyal States half a million lives, and imposed on the nation a debt of three thousand millions of dollars, it is both the right and duty of the Government to exact such terms of its late enemies as will give the people enduring peace, and lay the foundation of the Government in justice and freedom. 2d, That the loyal people sustained the Government, and carried the country triumphantly through the dangers that beset it, in the late rebellion, the settlement of the questions growing out of the war, belong properly to them, and the only right the rebel States have in the matter, is to accept such terms as is the first choice of the patriotic people, the glory and the safety of the nation may require. 3d, That the work of reconstruction, and the terms on which the rebel States may again participate in the Government, belongs properly to Representatives elected to Congress, fresh from the people; and the Union people of Walla Walla cordially endorse the measures adopted by Congress for the restoration and reconstruction of the rebel States. 4th, That national interests require the early construction of the Northern Pacific Railroad, and that the Government should extend to this road the same firm and loyal support, given to the Central Pacific Railroad. 5th, That, while as a patriotic people, we cheerfully pay the taxes requisite to support the Government, and gradually extinguish the public debt, we are in favor of the strictest scrutiny and the most rigid economy and honesty in the management of national affairs, to the end that taxes may at an early day be materially reduced. H. PARKER, Ch'n Committee. Mr. Stevens offered the following, which was adopted: Resolved, That, as in the past, in the crisis of our nation's peril, when the clouds of treason hung dark and blackening like a pall over our land, we stood firm in our loyalty to the Union, so in the future we will be steadfast and true in our unalterable devotion to the cause of freedom. The following resolution, offered by Mr. Parker, was adopted: Resolved, That in the Hon. A. A. Denny, our Delegate to Congress, we recognize a faithful servant, and one entitled to the continued confidence of Union people of the Territory. Mr. Wood offered the following resolution: Resolved, That the Delegates from this county be instructed to vote for Judge J. E. Wyche, as the first choice of the people of this county, as Delegate to Congress, and to use all honorable means to secure his nomination. The following was offered by Anderson Cox. Resolved, That the resolution of Mr. Wood, proposing to instruct the Delegates to favor the nomination of J. E. Wyche, be amended by striking out the name of J. E. Wyche, and inserting the name of Alvin Flanders as the first choice of this Convention. The following was offered by Mr. Cook, as an amendment to the amendment: Resolved, That the delegates elect to the Territorial Convention go without any special instructions from this Convention. The amendment of Mr. Cook passed, supplanting the original motion and amendment. The following resolution, offered by Mr. Cox passed: Resolved, That hereafter no duly elected delegate to the Union County Convention of Walla Walla county, W. T. shall hold a proxy or power of substitution, or be permitted to discharge any of the duties arising from such power of substitution by virtue thereof. And be it further resolved, That no person shall be entitled to represent a delegate to said Convention by virtue of said proxy or power of substitution, who may already hold a power of substitution by proxy from any other delegate,

Walla Walla Democratic Precinct Meeting.

The Democracy of Walla Walla Precinct met pursuant to the call of the County Committee, at Hellmuth's Hall, on Saturday, March 23d, and was called to order by J. H. Stewart, Chairman of the Democratic County Committee. On motion, B. L. Sharfstein was elected chairman, and A. L. Brown secretary. The object of the meeting having been stated by the chairman, a motion to proceed to the election of Delegates to the County Convention was carried, and a number of candidates nominated. After considerable discussion on the manner of electing delegates, a motion to elect by ballot was carried, and the nine candidates receiving the highest number of votes to be elected. Messrs. B. R. Rees, A. J. Miner and Wm. H. Newell were appointed as inspector and clerks of the ballot, and the polls were held open for two hours, when the ballots being counted, the following named board of Delegates were found to have received, in the aggregate, a vote of two to one over all other competitors, two hundred and thirty four votes having been cast: James McAuliff, R. R. Rees, Harry Howard, Wm. A. Ball, T. F. Rees, Samuel Jacobs, C. F. Wessel, W. F. Horton, Geo. Baggs. The result of the ballot having been declared, a motion to make the election unanimous was carried without a dissenting vote. On motion, adjourned. B. L. SHARFSTEIN, Chairman. A. L. BROWN, Sec'y.

Whitman Seminary.

At a meeting of the Board of Trustees of Whitman Seminary, held on the 25th inst., the following resolution was unanimously adopted: Resolved, That the resignation of Rev. P. B. Chamberlain, as Principal of Whitman Seminary, this day tendered, in a view of the necessity of relieving him from his too numerous labors, hereby accepted, and the Board of Trustees, in accepting the resignation, would gratefully acknowledge the obligations under which the Seminary and the cause of education in this Valley have been placed by the services of the Rev. P. B. Chamberlain. Rev. Cushing Ellis has been requested to occupy the place made vacant by Mr. Chamberlain's resignation, and the Seminary will open under his management on Monday next. Mr. Ellis' reputation, both as a man and as a teacher, is sufficient guarantee for the character of the school while under his control. Published by order of the Board, P. B. CHAMBERLAIN, Secretary of the Board of Trustees.

MINING PROSPECTS.

The miners of Montana are fast throwing off that feverish impatience for hasty acquisition of wealth which was so characteristic of the early delvers in the mines, and in very many instances have latterly been operating upon tangible evidence of ultimate, though not of speedy fortunes. Such are the bars all over the country to which ditches are being and have been brought. Although the opinion is quite prevalent with many who are not familiar with the amount of this kind of work actually begun, that the largest part of the operations of next year will be confined to three or four gulches, yet we feel perfectly well assured that there will be as much gold obtained from mining operations, by means of ground sluicing and hydraulics on the bars of Confederate, Silver Creek, the Yellowstone, and probably the big bar at Highland, as has ever been taken out in Montana in any previous year, by means of every species of mining. To be added to this, is the work still going on in the old gulches at Virginia, Summit, Grizzly, Last Chance, Nelson, Dry, Tucker, Indian and Montana, as well as the new discoveries—now demonstrated to be good—of Highland, Lost Horse, Eagle Creek, as well as the large yield of the various lodes which will be worked during the coming season. Today, Montana is the most promising mining district in the broad area of the United States, and Helena is its center. On the other side of the range, the mines will undoubtedly yield larger returns next year than heretofore, as in many instances where they are now known to be good, all previous operations have mainly been directed toward their development. We believe that at the end of next year, if we had any way of arriving definitely at the facts, Montana's aggregate yield of the precious metals would exhibit as high as \$33,000,000. Hurrah for Montana!—Helena Gazette.

DEAD OR ALIVE.

Last fall, somewhere about the first of September, in the Bitter Root Valley, a man took some liberties with the wife of the gentleman for whom he was at work. Some of the neighbors, incensed at the deed, constituted themselves a committee to punish the offender, and according to rumor, ordered him to leave the vicinity within twenty-four hours. The individual took the hint. Since then reports have been circulated that the man was murdered, although it has been said that he has been seen in the vicinity of Helena. Since quite a stir is now being made about the matter, all parties are anxious to find out whether the man is still living. The person's name was Archie Rogers, supposed to be an Irishman by birth. It would be a great relief to many in Bitter Root Valley, to know his fate, or his whereabouts, if still living.—Helena Gazette.

THE ALABAMA LODE.

Some specimens from this lode which are now to be seen at the St. Louis Restaurant, are among the finest we have ever seen in this or any other quartz country, showing free fine gold throughout the rock. This lode is situated at the head of "Big Indian," about five miles from this city. The lode was discovered in 1855, by McCreary & Co. A shaft has been sunk on the discovery ninety feet deep, and a fine deepened crevice of nine feet between solid wall rocks, is the result.—Helena Gazette.

THE Montana Legislature has refused to order a special election for Delegate to Congress. The regular annual election is held in September.

THE bigamy case which so excited the people of Walla Walla in the early part of the week proved a hoax.

EASTERN NEWS.

DATES to March 23rd. COMPILLED FROM THE DAILY TRIBUNE, AND WASHINGTON NEWS. CHICAGO, March 24.—Washington special says that the speech of Doolittle, in the Senate, when the copy of the evidence of the New York Eastern House Investigation Committee was presented, was the most extraordinary one ever delivered in that body. The Senate suspended its deliberations to allow him to give whatever language he pleased. He availed himself of this unprecedented privilege to denounce the Hubbard, of New York, Chairman of the House Committee, in most offensive terms, accusing him of perjury, forgery and wanton falsehood. Howe, of Wisconsin, said that his colleague (Doolittle) was above suspicion of bribery, and spoke in the only manner in his favor. This created a marked sensation. Howe and Doolittle not being on speaking terms. The question of the adjournment of Congress occupied considerable time in both Houses. In the Senate, the proposition to meet next June received 14 votes; the middle of October 19 votes, and the 1st of November, 18 votes. The time was finally fixed on the 1st of December. The House debate indicated that forty-five Republicans are in favor of May or June, and the same number favor October. The Senate squabble will probably follow on the same restoration. The impeachment party strongly oppose adjournment till December. The indications are that the resolution will be adopted, though, if the time was to be adopted, earlier, it would suit the House better. The Republican's Washington special says that Senator Foster left for Connecticut, yesterday, somewhat demoralized by his failure to procure a nomination for a foreign mission. The President desired him first to advocate the election of English, then to advocate the election of his State, and advised him to be a republican candidate, will be elected Governor, but that two Congressional districts are very close. Several Senators and Representatives go East today, to speak till the election opens. The little article that Congress will adjourn on Tuesday or Wednesday next, December, SENATOR CONGRESS—CONGRESS WILL ADJOURN—CASE OF JEFF. DAVIS. CHICAGO, March 25.—The Republican's special says the statement that Mr. Conness declines a re-election, is without foundation. The Times says that if Congress adjourns on Tuesday or Wednesday, as is now almost certain, the President will issue a proclamation, calling an extra session of the Senate, for Executive business, and to consider the nominations for official positions. The President has been urged by prominent republicans, to release J. F. Davis on his own recognizance, but there is no prospect that the Chief Justice will order a writ of Virginia so long as that State is under control of the military authority. There is good reason for saying that within ten days Davis will be released on his own recognizance, to answer when called upon. NEW YORK, March 25.—Extra. Gen. Longstreet says that there is no humiliation in the acceptance of the terms proposed by Congress, and no reason to doubt that such acceptance in good faith will give good claim for the re-admission of the Southern States. CHINA MAIL ROUTE. NEW YORK, March 25th.—The *Times* commercial article says there is a large demand for Pacific Mail stock since the announcement of the arrival of the *Colorado* at San Francisco. The pecuniary results of the initial trip are understood to greatly exceed the calculations of the directors here, who charged up the expenses of putting the line in operation out of the profits of the quarter ending in February. The reduction of the quarterly dividend to the cost of the line, the majority of the directors regarding China mail service as uncertain. The first trip is said to have brought in one hundred and eleven thousand dollars, exclusive of Government subvention, against ninety five thousand dollars expenses. THE *Record* says that the State Legislative Committee, which is appointed to investigate the charges against the directors of the Pacific Mail Steamship Company, will commence their labors next week. They will proceed to New York to take evidence, and adjourn to Albany should a considerable amount of testimony be required. GEN. SICKLES TAKES COMMAND AT CHARLESTON. CHARLESTON, S. C. March 25.—Gen. Sickles issued an order today, taking command of the Second District. He says that the local tribunals will be permitted to take jurisdiction and try offenders, except in cases referred by order of the governor ending in February. He solicits the cordial co-operation of the civil officers in the discharge of his duties, and the aid of all good citizens for the preservation of peace. He urges the people to be unreserved in their obedience to the authorities now established. "VICE PRESIDENT" STAVENS' ORIGIN.—SOUTHERN DEFLECTIONS. NEW YORK, March 24.—The friends of Alexander H. Stevens say that he counsels the Southern people to remain quiet and await the issue. He wants nothing done by the South which can influence the policy of the dominant party. Advice from Northern Alabama represents the people living at a distance from the coast as crying of starvation. Unless relief reaches them the whole range of counties in the Sand Mountain section will be depopulated. The floods have destroyed a large quantity of the food stock by the relief association to the sufferers.

WALLA WALLA HAMS.—Our friend Brown, (firm of N. & E. Brown) has sent us a specimen of Walla Walla cured hams, which, on trial, we find to be most excellent. Mr. B. will accept our thanks.

REVIVAL.—The United Brethren have been holding a series of revival meetings at the M. E. Church, in this city, and their labors have been rewarded by a number of conversions. The good work is still progressing.

DECLINES.—B. L. Sharpstein, Esq., wishes us to say that the use of his name as candidate for the City Council is without his authority or consent; he cannot serve in that position. Dr. A. J. Thibodo declines a similar honor.

MILITARY.—A rumor is current, and believed to be well founded, that Lieutenant Converse, late in command at Fort Walla Walla, has been arrested and is now confined to his quarters at Vancouver, on charges seriously reflecting upon his integrity. The charges are being investigated, and for many reasons, we hope they may prove unfounded.

HOMEWARD BOUND.—Captain John F. Noble, late in command at Fort Walla Walla, and a most estimable gentleman, took leave of our citizens, on Tuesday last, and is now on his way to the Atlantic States. Capt. Noble came to this coast in 1847, and during the twenty years that have elapsed, has been continuously connected with the military service. A genial, kind-hearted man, he leaves behind him a host of friends who wish him health and high fortune.

WALLA WALLA MINSTRELS.—A company composed of young men, residents of this place, and bearing the above title, gave two performances at Van. Worthington's Hall, on Tuesday and Wednesday evenings last, in a manner highly creditable to themselves and satisfactory to the large number of our citizens who attended. We understand that they propose to give another entertainment in a few days, and all who desire to see something really good, should not fail to attend.

Coppel Precinct. The Democrats of Coppel precinct, Walla Walla county, met on Saturday, March 23d, pursuant to call. The meeting being called to order, H. B. O'Bryant was elected chairman, and J. M. Chase secretary. The following resolutions were adopted: Resolved, that the following names be put in nomination for the election of Delegates, which resulted in the selection of the following gentlemen: H. B. O'Bryant, A. G. Lloyd, G. T. Pollard, and Samuel Galbreath.

Council Proceedings. March 26th, 1867.—Council met at the usual hour, Mayor Whitman in the chair. Present, Messrs. Phillips, Cook and Stead. Minutes read and approved. Finance Committee reported the following bills correct and recommended payment: A. J. Miner, labor on fifth street, \$12.50 coin. W. P. Fisher, labor on Fourth street, \$12.25 coin. C. S. Vincent, labor on streets, \$12.00 coin. On motion, report adopted and warrants ordered. The following claims were allowed, and warrants ordered: A. J. Miner, Fire Warden, (fee) \$25.00 curr. A. J. Thibodo, medical services, \$38.00 coin. O. P. Lacy, Night Watch, \$100.00 coin. H. M. Chase, Clerks salaries, \$50.00 currency. Ordinance No. 33, in relation to City licenses, was read for the third time, and passed.

ORDINANCE NO. 33. To amend an ordinance, entitled "An Ordinance in relation to City Licenses." The people of the City of Walla Walla do ordain as follows, to wit: Sec. 1. That Section 1st, of Ordinance No. 32, of which this is amendatory, shall be so amended as to read, "The price or rate of license for Hardly Guards, Pandango, or Dance Houses, shall be One Hundred Dollars per month." Sec. 2. All ordinances or parts of ordinances, in conflict herewith, are hereby repealed. Sec. 3. This ordinance shall take effect and be in force from and after April 1st, 1867.

Pug Races Again. To occur, March 24, 1867. Various Statesmen.—Having seen a paragraph in your paper, written by J. M. Hedrick, concerning "pug races," and, having my name in it, I deem it my duty to let the community know how much J. M. Hedrick is concerned in "pug racing." On March the 9th, some "pug racers" put a horse up at auction, and proceeded to sell the same to J. M. Hedrick for \$3, and then gave him \$150 in greenbacks, to catch his friends with. J. M. Hedrick brought the horse out to the Touchet, and said he bought him of Bill McKinney; said he bought him at auction, and he paid him \$3, \$36 and \$15. His telling so many different stories, and being such a notorious liar, we concluded that he was acting for "pug racers," and that we would catch him if we could. So we took the horse and tried him, a thing that is often practiced, no matter how dishonest it may appear. If you will publish this, it will show the public how much our Justice of the Peace is concerned in the dishonest tricks of "pug racing."

Ayer's Aque Cure.

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chills, Fever, Dumb Ague, Periodical Headache, and Bilious Fever; indeed, for the whole class of diseases originating in bilious derangement, caused by the malaria of miasmatic countries.

NEVER AND AGUE IS NOT THE ONLY CONSEQUENCE of the miasmatic poison. A great variety of disorders arise from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Painful Affection of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralytic and Derangement of the Stomach, all of which can be cured as healthily as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over-estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures, a whole neighborhood.

ST-1860-X.

A GREAT many hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. In all of no use. The people won't be imposed upon long. The Plantation Bitters are increasing in use and popularity every day, and it is that's what's the matter. They are in the same sized bottles, and made just as they were at first, and will continue to be, or we shall stop making them. The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent malarial and intermittent fevers. They purify the breath and soothe the stomach. They cure Constipation and Dyspepsia. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver complaint and Nervous headache. They make the weak strong, the languid brilliant and the exhausted nature's great restorer. The recipe and full circular are around each bottle. Clergymen, merchants and other persons whose sedentary habits induce weakness, lassitude, palpitations of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find immediate and permanent relief to these Bitters. But above all they are recommended to weak and delicate females, and mothers. They are sold by all respectable merchants. See that each bottle has our private United States stamp over the cork and steel plate side label. Beware of re-filled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon to a wholesaler and importer, should be immediately reported to us. P. H. DRAKE & CO., 31 Park Row, New York. Smith & Davis, Portland, Gen'l Ag'ts for Oregon.

Mustang Liment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liment. For cuts, sprain, burns, swellings and caked breasts, the Mexican Mustang Liment is a certain cure. For rheumatism, neuralgia, stiff joints, aches and bites, there is nothing like the Mexican Mustang Liment to relieve the pain. For sprained horses, the poll evil, ring bone, and swellings, the Mexican Mustang Liment never fails. For wind galls, scratches, big head and splint, the Mexican Mustang Liment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liment is the best investment that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with. In lifting the kettle from fire, it tipped over and scalded my hands terribly. \* \* \* The Mustang Liment extracted the pain, and caused the sore to heal rapidly, and left a very little scar. \* \* \* Mrs. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (sprain) but since the use of the Mustang Liment, I have sold him for \$150. My Liment is doing wonders up here. All genuine is wrapped in steel plate engravings, signed by W. Westbrook, Chemist, and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely.
