An Island Farmer's Fancy.
The heat of the sun fell down, fell down—
The heat of the sun fell down on me,
As I shaded my eyes with a trembling hand,
And gazed through the haze at the sea.
And the sea shimmered, and lifted, and fell,
All brightly blue; till the swell of the wave
Broke down on the sands into foam-floods white,
That weltered by crag and bay.

From the sunny shallows it deepened down—
Gathering evermore deep and dark—
Till it changed to a shuddering vast Profound,
On the dizzy ledge of the hoary cliff.

The sea-birds fluttered in restless flock—
And their piercing shriek rose in a shrill cry
Rang sharp through the air from the rocks.
The lead wind, scented with thyme and heath,
Flowed down from the moor to the edge of the
bay,
And mixed with the dense salt-breaths that
clung.

Where the shells and the sea-weed lay.
Far out where the sky swept down to the sea,
And the sea swept smoothly up to the sky,
Where the Doors of Space that are backward
to the ships when the winds are high.

In the bay below swung a summer boat,
With a helm, and a flag, and a tiny sail;
But all unfit for the wrestling rush
Of the surge and the strength of the gale.

I dropped my hand to my reaping hook—
How mournful the sea-birds cried in my ears!
I gathered my corn in the sweat of my brow,
And moistened my bread with my tears.

And I thought of the land that lies far away,
And I thought of the dawn as it is in the dream;
Where the fruit and the flowers, the rest and the
love,
Are all that they ever seem—
A Land where the breath, now drawn and spent
In toil, on these fields salt-strewn by the blast,
Might have time to stay in a bosom that swelled
With satisfied wonder at last.

The heat of the sun fell down, fell down,
And it smote on the field, and the cliff and
the sea.
But I thought of a ship with shadowing wings,
That will sail past day call for me.
And then to sail past the Doors of the Flood,
O'er a narrowing sea to a rising shore,
Till the prow runs up on the golden sand,
And Life shall know Labor no more.

FAST LIFE IN PARIS.—A correspondent asks:
"Could you guess who has given the most mag-
nificent of a season's parties, in France? A
distinguished member of the Aspasian sisterhood.
In a gorgeously furnished house in the Champs
Elysees, she, a few nights back, received be-
tween two and three hundred persons at a ball—
the men belonging to the highest families, or
occupying the foremost places, in France; the
women, young and pretty, (or with pretensions
to be both,) with dresses which, for magnificence,
must have realized the wildest dreams of woman-
kind, and with diamonds that, for number and
splendor, would with difficulty be exceeded by
the finest, hitherto, of the 1865-7 season. Every-
body who was at it is boasting of his or her
good fortune; everybody who was not at it is
dying of envy of the people who were there.
The truth is, that Madame Aspasia and her like are
crushing all before them in this fair city of Paris.
They have long set the fashion in dress; have
long had the pick of the very best society in
men; have long had furniture and equipages
equal to the best found anywhere; and now they
give fetes that surpass all others, and make all
the town-talk. Though nominally out of society,
they really direct and control it. What will be
the end of all this?"

THE NEW EAGLE CREEK GOLDS.—Mr. M. Hol-
way, recorder of the Eagle Creek Gulch, of
which we have before given several brief ac-
counts, paid us a visit on Monday, and furnished
us with the following interesting facts: The Dis-
trict embracing Eagle Creek discovery is styled as
the "Union" district, and the town which has
been lately located adjacent to this rich
mine, has been christened Yankton, although
the discoverers were from California, yet they
were originally from New England, and revere
their native realm.

Eagle Gulch, Mr. Holway informs us, is about
25 miles from Helena; empties into Canyon
Creek (instead of direct into Prickly Pear) six
miles up from the Little Prickly Pear. Some
twenty claims will be prospectively opened
within the next fifteen days. The shaft on this
discovery claim is down to the bed rock, and dis-
covers five feet of gray gravel which yields \$1.10
to the pan on the lower strata. There are, as
we have before said, about one hundred men in
this new gulch, and with their tools and equip-
ment, they are busy in building or opening their
claims.

Eureka Gulch is the name of a tributary to
Eagle Gulch, and is now being prospectively
flattered into some one mile this side of Eagle
Gulch is Rocker Gulch, where, our informant
tells us, to his personal knowledge, eight men
took out last summer, on the sly, in just six
weeks' time, the handsome sum of \$60,000. It
was the knowledge of this fact—communicated
to Mr. Holway by one of the lucky parties, be-
fore they took Mackinnon passage for the States
last fall—that induced him to search in that di-
rection, and which led to the discovery of
"Eagle" and "Eureka" Gulches, both of which,
he thinks, will prove abundantly rich in a first-
class quality of gold.—Helena Gazette.

TERRIBLE FIGHT AT BULL.—Chandler, the ex-
pressman, arrived at this afternoon with ten days
later news from Rocky Bar. A bloody fight oc-
curred there, on the 16th inst., at which a no-
torious rough, named Harry Seymour, was killed,
and another rough named McQueen, and Sheriff
McClaren wounded—the latter in the leg. It
appears that McQueen and Seymour raised a
band at a dance that was taking place at the
boarding-house of Mr. Vroom. Mr. Derrick and
McClaren tried to quiet them, whereupon Sey-
mour commenced firing at them. Another man,
named Gettle, fired twice at McQueen, and then
shot Seymour, who was about to seize his whole
party sympathize with Gettle, who is now
undergoing an examination for killing Seymour.
The examination had been going on three days
when Chandler left, and it would likely continue
two days more. It is now said that Seymour
was a sort of a bully and "chieftain" among the
roughs of the Bar.—Idaho Statesman.

Washington Letter.
WASHINGTON, D. C., Feb. 14, 1867.

Dear Sir:—Having a few leisure moments, I
concluded to drop you a few lines from this
place before starting back for the Pacific. In
this city a person can see almost at a glance, a
concentrated reflection of the whole American
habits.

The wealth, talent, and resources, and the wit,
beauty, and fashion, together with the crime and
poverty, are all here on Pennsylvania Ave-
nue almost any day of the year. Such is
the mixture of society here at this time.

It is not surprising, therefore, that there is
perhaps anything else, is the almost entire lack
of prejudice against the freedmen. I had expected
to find the most bitter animosity and vindictive-
ness shown them by their former owners. But
such is not the case. The whole community
appear to have become reconciled in a remark-
ably short time. There are any amount of freed-
men here. They are found in almost every sit-
uation; some working for others, and some for
themselves; a great many males and females
are going to school. They generally work for
quite low wages. A bright boy, 17 years old,
in the house where I am boarding, is working
for his victuals and clothes. Yet they all
appear to be cheerful and happy, and have an
idea that after awhile something will turn up
when they can do better of the thousands I
have seen. I have yet to see the first one in-
toxicated, or the first one speak insultingly to
a white person. They mostly work with a will
and an energy, and appear to step erect, with a
consciousness that they are now men and wo-
men, instead of chattel property.

CONGRESS.
Both Houses are holding sessions every night,
and are getting a large amount of business dis-
posed of. I think there will be some important
and very proper changes made in the Indian
Department this session. There will be nothing
done with the Northern Pacific Railroad this ses-
sion, but the friends of the bill hope to have it
up immediately after the 4th of March.

MAILS.
Several important mail routes in Washington
and Montana are bid on, and I think will be let.
If the contracts are let, and the routes estab-
lished, they will be of great service to the peo-
ple residing in the eastern portion of Washing-
ton Territory. The bids will be published on the
23d of this month.

OUR DELEGATE.
Mr. Denny has made us a most excellent De-
legate. By his quiet, unassuming, dignified man-
ner, he has now the confidence and esteem of
every member, and the heads of Departments
with whom he has had business. It has been
universally remarked to me by members of Con-
gress and of the different Departments, that he
has more influence than any other Delegate in
Congress. I have had occasion to go with him
to the heads of the different Departments, and
have felt proud that we have a delegate who is
so universally respected.

The great wounds of the nation, caused by
the rebellion, are fast healing up. A person sees
but few crippled men, and these almost invariably
have some light occupation in the different
Departments of the Government. The nation is
making the most gigantic strides to wealth and
greatness. The great tide of emigration is now
setting with a permanent and steady flow to the
West, and an immense wave of civilization is
in an unbroken column, from the Gulf of Mexico
to the 49th parallel, is rolling on westward every
year, at the rate of thirty or forty miles, and in
a very few years will meet the advance column
from the Pacific.

Everything in the shape of merchandise is fast
declining in price. But real estate rents, in-
stead of coming down to the prices before the
war, are actually advancing all the time, making
it very oppressive to the poor. I think the Pa-
cific delegation will leave New York on the
steamer of March 11th. I am glad of this coun-
try, and to be glad to get back to our own
nest, or to independent western home again.
I have seen no better place than our own sweet
little Valley of the Walla Walla.

Yours, truly,
PHILIP RITZ.

EXTRAORDINARY.—The five leading journals of
Paris contain long and circumstantial accounts
of a distinguished engineer whose head was
turned perfectly white by a most frightful dream.
The engineer had visited a rough and unfre-
quented mineral region for the purpose of ex-
ploring and reporting to a company of capitalists
upon the richness of a certain mine. The night
of his arrival, and before he descended into the
mine, he lodged at a small inn, and after devour-
ing a pound or two of pork, went to bed. He
dreamed that he had visited the mine and was
being hauled up, when he discovered that the
rope was almost severed, and there was only a
single strand to support his weight and that of
the bucket in which he was being hauled up.
Suddenly, when he had ascended two hundred
feet, the rope gave way, he dreamed, and he ut-
tered a fearful shriek, which aroused the inmates
of the house, and when they burst in the door
they found the engineer lying on the floor, and
a man in place of the black haired young gen-
tleman who had retired a few hours before. The
story is well authenticated, and his is the first
instance on record of a man's hair having been
turned white from the effects of a dream.

A MAN and his wife, who had been married
ten years, disagreed and determined to separate.
The terms of their separation were to be decided
upon by the judge of the arrondissement in
which they lived. They were Parisians. "Have
you any children?" said the judge. "Yes, Mon-
sieur." "How many?" "Three—two boys and a
girl—and it is with them lies our difficulty.
Madame wishes to have two of them, so do I."
"Have you agreed to abide by my decision?"
"We have," said both of them. "Very well, my
friends; I condemn you, then, to have another
child, so that you may have two. When you have
obtained that, you may return to me." Two
years afterwards, the worthy magistrate, who,
in the meanwhile, had heard nothing of the hus-
band or wife, met the former. "Ah, Monsieur,
how about that separation?" "Still impos-
sible, Monsieur. Instead of four children, we
now have five. She had twins."

WRITING IN CYPHERS AND IN SHORT HAND.—
These abbreviated modes of writing are not of
modern invention. The ancients had ingenious
cyphers for their secret dispatches, and sent
private orders to their commanders and amba-
sadors, which could not be opened so as to be
legible, without a peculiar contrivance of the
key. Cimar's usual method was to write by
agreement, the fourth letter of the alphabet for
the first; for example, D, for A and so on, vary-
ing the arrangement occasionally. The Romans
had also short hand writers, a chosen number
of whom were employed by Cicero to take down
a speech of Cato. Martial said Annius bear
testimony to the surprising skill of some of
them.

Daring Indian Outrage.
BOISE CITY, I. T., March 25th, 1867.

BOSTON STARRMAN: To-day, at about two
o'clock P. M., the Owyhee stage was captured by
the Indians, just as it was coming into the can-
yon, about seven miles from Snake river (at
Fruit's Ferry). The stage was bound from Ruby
City to this place, with the driver Bill Younger,
who used to drive out of Walla Walla to Warm
Springs (for Geo. Thomas,) about one year ago,
and four others, as passengers. Bill Younger
and through the West Arm, through the right arm
of the apron holding him from pitching off on the
ground. The man on the seat beside him, then
took the reins, and put the team in a full run,
down the canyon, and, by inexperienced driving,
let one of the wheel-horses fall (or trip up),
which after stopping the stage entirely, the men
tried to get out of the balance of the team, and a
Mr. Bennett got Bill Younger up behind him on
one horse, but he fainted from his wounds and the
former was compelled to put him off in the
sage brush. At Bill's own earnest request to go
after help to the Ferry, from which point a mes-
senger has just brought the above intelligence
to us here.

It was not expected that Bill or the other
passengers, left with the stage, will be found
alive when the party from the Ferry reaches
them! A buggy was immediately sent to bring
Bill Younger into town from the ferry, if the re-
devels have so much as left a piece of him, alive
or dead. The man who escaped and got to the
Ferry, saw an Indian on the wheel-horse (which
had been thrown under the coach) pursuing
one of the passengers on foot; and was within
three hundred yards of him, when he last saw
him. This news has created a great excitement
in town, on Younger's account as he was well
known by us all here, and the traveling com-
munity will remember Billy!

Your own town's people will share with us
this great loss of a noble man and the peerless
stage driver, Bill Younger. I will drop you a
line with full particulars, when I get them to-
morrow. It may turn out that Younger will
live, yet every thing was against him at the last
sight our informant had of him.

While writing this, Cayuse George has re-
turned with the buggy, and says Billy was dead
when the party from the Ferry reached him.
His body will be here in a half hour.

H. BENDSON.

Further Particulars.
From the Boise Statesman extra, we have the
following additional particulars relating to this
act of tragedy:

BOISE CITY, Tuesday, 6 P. M., 26th.
Since the Statesman was issued this morning,
the full particulars of the Indian massacre of
yesterday have come to hand, and they are of
the most heart-rending character. So far as can
be learned, there were but eight Indians in all.
Bennett, Reichenberg and Pomeroy, all ar-
rived this morning, from whom we get the facts
as follows: The attack was made about eleven
o'clock in the forenoon yesterday, as the stage
was coming down the canyon near where the
tack was made on the team. The fall, Wun-
Younger, were over, but eight Indians sur-
vived. Younger and Ullman were both killed,
also a Frenchman named Bucher, of Silver City.
Our account of the terrible affair, this morning,
was entirely wrong in one respect, that we got
the names of Bennett and Pomeroy transposed;
and there were but eight Indians in all.

B

J. McCARTY, Secretary of the Fenian Brotherhood, is requested to call at this office.

DELINQUENTS.—Jos. Misener & Co., of Boise City, are indebted to this office in the sum of \$18. The bill has been forwarded to them several times, but receiving no response we take this method of notification.

MARBLE WORKS.—We learn that Mr. A. B. Roberts, the pioneer marble cutter of Oregon, has ordered a stock of marble, and is going into his trade again, in this city. Those wishing tombstones, &c. can be supplied.

RELIGIOUS NOTICE.—The blessing of the Catholic Burying Ground, on Mr. McCool's claim, will take place on Palm Sunday, April 14, at 4 o'clock, P. M. The sermon of the occasion will be delivered by Rev. Father Mans.

BARGAINS.—Those who desire bargains are referred to the card of Messrs. Dusenberry Brothers. These gentlemen are determined to close out the whole of their very large stock of dry goods, groceries, provisions, &c., without regard to cost.

FOR THE NEE PARCES MISSES.—Three four-mule teams left Walla Walla on Tuesday morning for Lewiston, loaded with Chinamen. They were crowded in so closely that we could not count them, but should judge there were not less than 45 or 50 men. There is a large camp of these celebrities just below the city, awaiting transportation for Warrens and Florence districts.

CAPT. LEX WRIER, of the steamer Forty-Nine, passed up, a few days since, on his way to Colville. Capt. W. informed us that he expected to have his boat in readiness to make the first trip of the season about the middle of April. Paris's who desire to try their luck at Big Head or Forty Nine Creek will now have the opportunity to make the trip pleasantly and with every convenience.

FOR THE MINES.—Pack-trains are constantly leaving Walla Walla, bound for the different mining districts. The bulk of the trade thus far has been to Boise, but Blackfoot, Lemhi and the Nez Perce country have each come in for their share. The movements of these trains has materially enhanced the flour and bacon market, and should the demand be kept up for any length of time it promises to rid this market of these two great staples.

AT HOME.—E. Brown, Esq., (firm of N. & E. Brown), after an absence of nearly a year, spent his foreign travel, is again at home where he has been warmly welcomed by numerous friends. That Mr. B. has not altogether traveled in vain, is evidenced by the fact that he brings back with him, all the way from the fatherland, a fair young bride who comes to gladden his first western home. To him and his companies, we extend a cordial welcome.

FORTY NINE CREEK.—Last advice as to the progress of the recent excitement in Colville Valley in relation to the mining discoveries on Forty Nine Creek, and that the settlers are abandoning their claims and seeking what to the new gold fields. So great is the excitement that many of the farmers have neglected to put in their spring crops, and dropping everything else have struck a line for the mines. Owing to this fact, it is believed that the crops in the Valley will prove a failure this season, and that Walla Walla will be called upon to furnish the supplies for all that section of country. It is more than probable that in this way we shall find a market for our surplus products, and if our Colville neighbors prefer to dig gold rather than raise bread and meat we shall not lose by the operation.

DISASTER BY FIRE.—An accident from the careless use of fire occurred about ten o'clock, yesterday (Thursday) morning, which may possibly be an interesting child, daughter of Justice Law, the loss of life. It appears that some boys had kindled a fire in the open yard for the purpose of melting down old cans and obtaining the solder. Whilst the boys were thus engaged, the wind made its way to the fire, and before being noticed the flames had communicated to her dress burning the whole of the lower part of the body in a shocking manner. Mrs. Kerr, the child's grandmother, was attracted by the cries of pain, and fortunately had the presence of mind to at once smother the fire. Dr. Stevenson was called to the relief of the little sufferer, and at last account she was still alive with but faint hope of recovery.

THE WOOLLEN FACTORY.—In the midst of the political excitement which just at this time occupies the public mind, to the exclusion of matters of infinitely greater importance, we trust that the suggestion in relation to a woolen factory will not be overlooked. Should Mr. Isaac's proposition—which by the way is a very liberal one—be accepted, we can readily have a woolen factory under full headway before the close of the current year. The building, land and water power secured, all that remains is the machinery, and this we have shown can be obtained at a cost not to exceed \$10,000. With so trifling a cost to be raised, the company should be organized, and the machinery ordered inside of a week. A glance at the map will show that Walla Walla is the great central point for all the vast region stretching from the Cascades to the Rocky Mountains—a country rich in mineral and agricultural resources, and destined to sustain a population of hundreds of thousands of hardy American citizens. With this future opening before us, it requires no argument to show that manufacturing enterprises located at this point will pay back in a matter of this kind, but every man should come forward and subscribe in proportion to his means toward an enterprise in which all are interested.

HOUSE AND GARDEN FOR RENT OR SALE! The undersigned will either sell or rent CHEAP, a good commodious HOUSE and a good GARDEN of five acres of land. The Premises corner with the City of Walla Walla, (15 1/2 m) W. G. LANGFORD.

Dry Goods. LATEST Spring and Summer Styles just received and for sale at very low prices! at BROWN, BROS & CO.

S. F-1860-X.

A GREAT many hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. Its all of no use. The people won't be imposed upon long. The Plantation Bitters are increasing in use and popularity every day, and is that what's the matter? They are in the same sized bottles and made just as they were at first, and will continue to be, or we shall stop making them. The Plantation Bitters purify, strengthen and invigorate.

They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent malarial and intermittent fevers. They purify the breath and acidity of the stomach. They cure Constipation and Dyspepsia.

They cure Diarrhoea, Cholera, and Cholera Morbus. They cure Liver complaint and Nervous headache. They make the weak strong, the languid brilliant and are an exhausted nature's great restorer. The recipe and full circular are around each bottle. Chemurgians, merchants and other persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find immediate and permanent relief in these Bitters. But above all they are recommended to weak and delicate females, and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States stamp over it. Beware of re-filled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and imposter, should be immediately reported to P. H. DRAKE & CO., 24 Park Row, New York. Smith & Davis, Portland, Gen'l Ag'ts for Oregon.

BARNES MAGNOLIA WATER. A toilet delight! The ladies' treasure and the gentleman's boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face, hair, &c., to render the skin soft and fresh, to prevent eruptions, to perfume clothing, &c.

It overcomes the unpleasant odor of perspiration. It removes tan, redness, freckles, &c., and invigorates the system. It cures nervous headache and allays inflammation. It cools, softens and adds delicacy to the skin. It yields a soothing and lasting perfume. It cures mosquito bites and stings of insects. It contains no material injurious to the skin. It is what every lady should have. Sold everywhere. Try the Magnolia Water, once, and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

DEMAS BARNES & CO., Props. Exclusive Agents, N. Y. Sold by druggists and dealers on the Pacific Coast.

Mustang Lintment. Have you a hurt child or a lame horse? Use the Mexican Mustang Lintment. It cures all kinds of cuts, sprains, bruises, swellings and raked breasts. The Mexican Mustang Lintment is a certain cure. For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Lintment.

For sprained horses, the hoof, ring bone, and swollen fetlocks, the Mexican Mustang Lintment never fails. For wild galls, scalds, hog head and spunk, the Mexican Mustang Lintment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Lintment is the best investment that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor and should never be dispensed with.

"In hitting the kettle from fire, it tipped over and scalded my hands terribly." "The Mustang Lintment extracted the pain, and caused the sore to heal rapidly, and left a very little scar." CHAS. FOSTER.

Mrs. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Lintment, I have had him for a fact." Your Lintment is doing wonders with me. All genuine is wrapped in steel plate engravings, signed by W. Westburg, Chemist, and also has the private S stamp of Demas Barnes & Co., over the top. Look closely. \$1.11 by all druggists, 25, 50 cts., and 1/2 m.

LYON'S EXTRACT GINGER. LYON'S EXTRACT OF JAMAICA GINGER.—For Indigestion, Heartburn, Sick Headache, Colic, Mors, Flatulency, &c., where a warming stimulant is required. For colds, catarrhs, and all other pulmonary affections, it is a cheap and reliable article. For culinary purposes, Sold everywhere at 10 cts. per bottle. Ask for "LYON'S" Pure Extract. Take no other.

FACTORY.—See that the private S stamp of the Demas Barnes & Co. is over the cork of each bottle. None other is genuine. 45 1/2 m.

LYON'S FLEA POWDER. DEATH TO FLEAS.—It is well known that Lyon's gentle Magnolia Powder will perfectly destroy every thing in the shape of fleas, ticks, bed bugs, roaches, &c.; that it is perfect poison to the insect tribe. It is perfectly safe to the human species and domestic animals. The genuine has the name of E. T. Lyon on the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine, if you insist you will have no other. 45 1/2 m.

LYON'S KATHAIRON. It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the hair cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling off. It keeps the hair from becoming thin and falling out. This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the ear load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it. E. T. LYON, Chemist, N. Y.

NEW LUMBER YARD. YOUNG & LUX WOULD RESPECTFULLY IN- vite the Citizens of Walla Walla Valley that they have established a LUMBER YARD on Main Street above the bridge, in Walla Walla City, where they will be prepared at all times to furnish lumber of every description required for building purposes, at the following price: Clear Lumber, per thousand, \$19 00 Common Lumber, per thousand, 40 00 They will take in exchange for building purposes, Oats and Barley. Thankful for the liberal patronage extended to us during the past year, we hope by continuing to supply our customers with good lumber and full measurement to deserve a continuance of the same. Office at Messrs. PLYMING Mill, 11 1/2 m.

GENERAL ITEMS.—A Jewish synagogue is soon to be built in Walla Walla, to cost half a million dollars. The whole number of bodies of Federal soldiers officially reported as buried is 341,670, at an expense of \$1,144,761 61. It is estimated that the cost of fences in nineteen Northern States is \$750,000,000, with an annual cost for repairs of \$50,000,000. The product of British iron appears to be inexhaustible. They dug up 1,560,000 in 1840, and dug up 4,500,000 in 1860. In Baltimore there were 324 John Smiths. The Passamaquoddy tribe of Indians is thinning out at the rate of 20 per cent. a year. The last of these "Mohicans" can't be very far off at that rate. The newest skating novelty at Chicago is that of a Russian who skates on stilts. The advertising receipts of the St. Louis newspapers for the last year, were \$500,137. Recent scientific investigations show that a square inch of diseased swine contains exactly fifty-seven thousand eight hundred and forty-one poisonous reptiles. Who wants a slice? The largest diamond in America, valued at \$20,000, is on exhibition at New Orleans. In the Indian army at Fort M. Kearny, one soldier who was murdered, had one hundred and twenty-five arrows in his body. The last new gun invented in Paris sends out 8,555 balls in a minute. The Long Bridge and another one across the Potomac were swept away on February 5th by the breaking up of the ice. Railroad communication with the South is thus suspended.

TOO MUCH FOR HER.—A good story is related of a prudish old maid who applied at a certain fashionable photograph gallery in this city, to have her picture taken. An old maid is generally of a very inquisitive nature, always poking around where they have no business, she accidentally looked into the machine, and to her horror discovered that objects are reflected inverted, or, as she expressed it, "upside down." She promptly refused to sit any more, and adjusting her bonnet ribbons, remarked that "that was played out. She wasn't going to be stuck up in that manner, if she never had a picture," and with a swing of the "tilter" which would have done credit to a New York Broadway fashionable, she sailed from the room with an air of insulted dignity.—Rock Island Argus.

ST. AUGUSTINE, Florida, is said to be a delightful residence. The Examiner of that place, speaking of the great crop of oranges, says that 60,000 will be picked from one grove. A gentleman there writes that "they hang in rich yellow clusters from trees on the sides of the streets, and the soft air is redolent of their rich perfume."

It is not generally known that the leaves of a geranium are an excellent application for cuts, where the skin is rubbed off, and other wounds of that kind. One or two leaves must be bruised and applied to the part, and the wound will be cicatrized in a short time.

KANSAS has a population of 250,000, and forty-one newspapers, which is two less papers than Maine; seven more than New Hampshire; two more than Vermont; twenty-five more than Rhode Island, and three more than Connecticut.

SAYS THE NEW YORK correspondent of the Cincinnati Commercial: "Certain public officers in the city seriously contemplate the importance of proposing the organization of a secret detective male and female police to search out the details of abortions, so as to secure the testimony necessary to bring parties to the bar of justice, with a view to their conviction."

A NEWLY married couple, from Boston, went to Troy to spend the honeymoon, recently, and enjoyed themselves so much that their first night was spent in a police station, instead of at the hotel. They had to hand over \$10 to a magistrate the next morning.

Some of the Ohio towns the retail dealers threaten to charge a fee to women who come there to look at goods without buying.

In Cairo, Ill., a strange animal, half man and half ape, is on exhibition. It is supposed to be one of the original inhabitants.

LAWYERS OF THE UNITED STATES, Passed at the Second Session of the Thirtieth Congress. [Public-No. 22.]

As Act making appropriations to supply deficiencies in the appropriations for the first year of the United States for the fiscal year ending June thirtieth, eighteen hundred and sixty-seven. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be, and the same are hereby, appropriated, out of any money in the treasury not otherwise appropriated: For miscellaneous items, forty thousand dollars. For folding documents, twenty-seven thousand five hundred dollars. For fuel and lights, including pay of engineers, firemen, and laborers, repairs and materials, seven thousand dollars.

As Act to fix the pay of the Quartermaster Sergeant of the battalion of Engineers. Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That from and after the passage of this act, the pay and allowances of the Quartermaster Sergeant of the battalion of Engineers of the army of the United States shall be the same as those allowed by law to the Sergeant major of that battalion. Approved, February 12, 1867.

A STORY, now current in Paris, is as follows: A lady, in the first society, was recently obliged to dismiss her nurse on account of an excess of iremen and private soldiers too often repeated. After choosing an successor to the battalion of engineers of the army of the United States shall be the same as those allowed by law to the Sergeant major of that battalion. Approved, February 12, 1867.

TO THE UNFORTUNATE NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary, 616 KEARNEY STREET, Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin diseases (of years standing) and Ulcerated Legs, successfully treated.

DOCTOR GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited all the hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated hospitals of London are among those visited by the doctor: Guy's, High St., Borough, St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street; St. George's, London; Whitechapel road; Royal Free, Gray's inn road; King's College, Portland street.

DOCTOR GIBBON has also visited Doctor Acton of London, Father of Birmingham, England, and the Record of Paris, who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases.

DOCTOR GIBBON has obtained from them a new mode of treatment, which cannot be surpassed. DOCTOR GIBBON has spared neither money nor time in seeking out new remedies and has secured with new facilities for the alleviation of human suffering.

How many thousands of persons, both male and female, are there who are suffering under a miserable disease from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrible situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these terrible, life-destroying maladies—see that they are cured for cure the cure is too late. Send them immediately to Dr. Gibbon, a physician who has made private discharges his special study for years, and who is certainly to cure the most inveterate case, without mercury, or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent men from Europe and other places. Be therefore careful and make strict enquiry, or you may fall into the hands of these charlatans.

Seminal Weakness. Seminal emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless counteracted by scientific medical measures, viz: Sallow complexion, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rattling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furrowed tongue, fixed and morose countenance, night sweats, monomania and frequent insanity. If relief is not obtained, the sufferer should apply immediately either in person or by letter, and have a cure effected by his new and scientific method. In this disease, which never fails of effecting a quick and radical cure. Dr. G. will give one Hundred Dollars to any person who will prove satisfactory to him that he was cured of this complaint by either of the San Francisco quacks.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge. Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating symptoms, length of time the disease has existed, and have medicines promptly forwarded, free from damage and expostion, to any part of the country, with full and plain directions for their use. The medicines, sent in registered letters, or through Wells, Fargo & Co. Address DR. J. F. GIBBON, 616 Kearney street, near Commercial, San Francisco. Post office box 272. Consultation FREE.

Prevention Better than Cure. The newly invented patent French Safe, a sure preventive against Diseases and Pregnancy, sent by Dr. Gibbon, 616 Kearney street, near Commercial, San Francisco. Post office box 272.

Caution to the Unfortunate. Beware of the San Francisco quacks and pretenders who will beguile you with their promises of a cure. Some of the self-styled Doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are fraud-men and became too lazy to work at their trades. Some are tin-smiths, shoemakers, newspaper carriers, intelligence office keepers, &c. Look over the San Francisco Directory, and you will not find their names in the Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry of their past and present occupations, and what they are doing, and may be exposing by exhibiting bogus titles, certificates, pretended patients' letters, &c. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure. Consultation FREE.

Correspondents will please inform Dr. Gibbon that they read his advertisement in the Walla Walla Statesman. 23-y
