Washington Territory. 112-4f.  
**W. L. GASTON,**  
COUNTY SURVEYOR.  
51.] OFFICE AT THE COURT HOUSE. 11-4f

**A Prayer for Guidance.**  
Father! the skies are dark above me,  
Before me lies a trackless waste,  
Long thus thou hast seen good to prove me;  
O God! to my deliverance haste.

I do not ask that thou shouldst lighten  
The clouds impending o'er our way;  
I only ask that thou wouldst brighten  
Their darkness with one guiding ray.  
I pray thee not to make less weary  
The waste through which my pathway lies;  
I would but see that path, though dreary,  
And feel 'tis leading to the skies.  
Guide me, my Father! if before me  
The angels of thy presence go,  
I will not shrink though clouds are o'er me,  
And sound gather many a foe.

I do not falter at the distance  
Between me and my heavenly home;  
Weary as seems this earth-existence,  
I know 'tis bounded by the tomb.  
Nor do I dread the hills that gather,  
Thick from the cradle to the grave;  
Nor from earth's cares and griefs, my Father,  
Do I implore thy power to save.

Only from this darkness brooding  
O'er every path of life I tread;  
And from the gloomy fear intruding  
That thou my spirits ne'er hast led.  
I seek thy aid—I ask direction—  
Teach me to do what pleaseth thee;  
I can bear toil, and endure affliction,  
Only thy leading let me see.

Saviour! thou knowest the earth is dreary,  
For thou hast tread its thorny maze;  
Guide me through all its wanderings weary,  
Keep me forever in thy ways.  
O God! my God! make no delaying,  
Haste thee to help me when I cry;  
O! let me hear thy spirit saying,  
"This is the way! Thy guide is nigh!"

**Salmon Correspondence.**  
LEWISBURG, SALMON RIVER,  
March 11, 1867.  
Our much-talked-of trail, leading from here over the mountains to Salmon River, a distance of eighteen miles, through snow varying from five to twenty feet in depth, was completed on Friday last, and yesterday we were greeted by the appearance of eight head of fine beef cattle which, I suspect, these gentlemen were subjected to this (the present) isolated, but being town. Several pack animals have also arrived since the opening of the trail. Messrs. Smith, Porter & Co., deserve credit for the almost superhuman task they have accomplished in opening communication between these points. The rates of toll charged are moderate considering the enormous distances these gentlemen were subjected to. They only charge for pack animals, seventy-five cents each way, which, every reasonable man will admit, is not too much, considering that the mountains would be impassable until July next, were it not for the construction of the trail. Immigration is beginning to come here by the middle of May, and I sincerely hope they will all do well, but the future of this camp is as yet uncertain. There are some claims here which are known to be good, but the greater portion of the discoveries under them are not sufficiently prospected to warrant anybody else in telling the public that they are all rich. There are now in the neighborhood of sixty gulches struck in this vicinity, and I believe most of them contain gold, but whether in paying quantities or not remains to be seen. The snow is so deep over all mountains that prospecting to advantage is out of the question. We are now having the coldest weather which has been experienced here this winter, and no appearance of its moderating. That we are going to have a late spring is unquestionable.

Our town is progressing finely, there are some very fine buildings up, and the streets are nearly all built up already. There are several cross streets, some of which will be good business streets.—Montana Democrat.

**HOPE.**—Hope is a wonderful gift of God, and one of the most powerful principles in the human mind. It is the grand support of all mankind in tribulation; it is the mainspring of action throughout the earth; nothing like hope inspires courage in difficulty and danger; and what but hope can wipe away tears and cheer the sorrowful heart? Hope for better things in time to come, is the support of all sufferers in the world; it is the life and vigor of all adventures. We all find this principle at work everywhere. It is inscribed on the prison door, on the merchant's vessel, on the warrior's banner, on the pilgrim's staff, and on the pillow of the dying. It animates the lawyer at the bar, the preacher in the pulpit, the parent at the head of his family, and the starving poor, while passing through the dreary winter. We plow in hope, we sow in hope, we reap in hope, and we die in hope. Fill the earth with hope, and you will fill it with life and light, with vigor and exertion. Banish hope from the earth, and you fill it in a moment full of darkness and despair. Where hope dies excretion ends, and man is buried in gloom and despondency. While a hopelike man looks forward and strives to rise to happiness and glory.

**THE TRUE LIFE.**—The mere lapse of years is not life. To eat and drink and sleep; to be exposed to darkness and the light; to pace round the mill of habit, and turn the wheel of wealth, to make reason our book-keeper, and turn thought into an implement of trade—this is not life. In all this but a poor fraction of the consciousness of humanity is awakened, and the sanctities still slumber which make it most worth while living. Knowledge, truth, love, beauty, faith alone can give vitality to the mechanism of existence, the laugh of mirth which vibrates through the heart, the tears that freshen the dry waste within, the music that brings childhood back, the prayer that calls the future, the doubts which make us meditate, the death which starts us with mystery, the hardships that force us to struggle, the anxiety that ends in trust, are the true nourishment of rational beings.

**NEGRO SUFFRAGE IN OHIO.**—A vote was taken in the Ohio House of Representatives on the proposition to submit the question of striking the word white from the Constitution; and notwithstanding that the Republican party is committed in favor of the proposition by the votes of its members of Congress, of its leaders throughout the North, and the further fact that this very Radical Legislature passed resolutions thanking Congress for its passage of Negro Suffrage bills, but 28 members of the House Radicals, a bare majority, could be mustered that was willing to vote Yes. The noes 50.

If you had gone half crazy at not having won your sweetheart as a wife, remember you might have gone the other half had you succeeded.

The loveliest faces are those seen by moonlight, when one sees half with the eye and half with the fancy.

**Escaped from Prison.**  
The four prisoners confined in the Territorial prison made their escape last Wednesday night. The facts, as we learn them, are as follows: There were confined in the prison the following convicts, viz: Hiram Kurtz, of Iowa, aged 40 years, sentenced for life for killing a Chinaman in this city more than a year ago; Michael Dunn, an Irishman, aged 32 years, sentenced to 20 years for killing McKay on Buena Vista Bar early last Spring; Victor Boley, an American, aged 35 years, sentenced to 20 years for killing Jakey Jordan in Boise City last year; and Michael Deal, of Iowa, aged 28 years, sentenced for 2 years for stealing horses in Owyhee, in 1865. Deal's term of imprisonment would expire in a month or two more, and it is known that his part in the escape was forced upon him by his desperate comrades at the peril of his life. For some days the prison has been under the immediate care of Jos. Rowse and Robt. Griffith, the jailers. On Wednesday morning Rowe was in the city on business, and Griffith was alone on guard. About 10 o'clock, Dunn asked permission to be let into the prison yard for a necessary purpose. Agreeably to the custom, Griffith let him out and back. Dunn was followed, as were Boley and Kurtz, with shackles on the ankles. As Griffith was unlocking the heavy iron grating door separating the prison cells and hall from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled Griffith. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. One took his pistol, another his knife, and the third struck at Rowe with a ball from the outer room, Dunn stood a few feet from him, and as the door was unlocked, leaped and grasped him about the arms and body. By concerted plan, at that instant those inside pulled the door open towards them, and immediately grappled

Walla Walla Statesman.

FRIDAY EVENING, APRIL 19, 1907.

REDUCTION IN FREIGHTS.—It will be seen on reference to the advertisement, that the O. S. N. Company have materially reduced the rates of freight and placed them on a scale that will enable our producers to supply all the trading points on the Columbia side of the Cascades. The advance noticed in our last issue was almost immediately abandoned. At the rates now ruling produce can be shipped from Walla Walla to Portland, and enter into competition with the produce of the Willamette Valley. In thus furnishing the producers of the interior with an outlet for their surplus flour and bacon, the O. S. N. Company have acted wisely, and inaugurated a measure that will largely contribute toward filling the Company's coffers. Appreciating the advantages now offered us, steps should be taken to build up a trade between Walla Walla and the Dalles. The leading merchants of the Dalles will gladly receive our flour and bacon in exchange for general merchandise, and in that way we can build up a trade that will be mutually profitable. There is a large extent of mining country immediately south of the Dalles that for years must depend upon other localities for supplies of breadstuffs, and it will require but little exertion on our part to secure this trade. The Dalles is the point from where the miners receive their supplies, and by inaugurating the system of exchange here indicated we can at once secure this outlet. It should also be our aim to supply Umatilla with the flour and bacon required to meet the demands of that locality. Following up the idea here suggested we should build up a large and important trade with the leading towns on the Columbia, and secure for ourselves the business which has heretofore enriched the Willamette.

FREIGHTS.—We call attention to the teamsters' card, published in our issue of this week. The O. S. N. Company, whilst reducing the charge on down freights, and on freight to Lewiston, has actually made an advance of \$2.50 per ton on all freights delivered at Wallula. This discrimination against a particular locality is felt to be oppressive, and already our merchants are discussing the question as to how they can best avoid the new exaction. The teamsters' card solves the whole difficulty. Under their proposition merchandise can be laid down at Walla Walla at lower figures than are charged by the O. S. N. Company. The party who handed us the card for publication, has thirteen six mule teams, which he will at once place on the road between here and the Dalles, provided the freight offers. A vast number of teams now in this valley, and unemployed, can readily be engaged to freight at the same rate suggested in the card. We trust that our merchants will give this proposition prompt attention. The teamsters mean business, and by patronizing this class our merchants will keep the money in the country that otherwise will go to enrich other communities. Teams can be profitably employed in freighting the surplus produce of our valley to the Dalles, and in return bringing back assorted stocks of merchandise. Practical men assure us that the teamsters can make money in this trade, and certainly the proposition is worthy of a trial.

MAIL CONTRACTS.—We understand that the contract for carrying the U. S. Mails between Walla Walla and Missoula City, has been awarded to Mr. John Allan, the gentleman who has been carrying the mail for several months past. The price to be paid is not stated. The service will be semi weekly, and is to be by stages. We understand that Mr. Allan will at once proceed to stock the line, and that in a very brief time we may expect to be in communication with Missoula City by means of a line of stages. The contract for carrying the mail between Walla Walla and Pierce City, has been awarded to Mr. King, the owner of the Lewiston line of stages—compensation \$6,500 per annum. We are glad that King secured the contract; for many months he carried the mails free of charge, and if there is anything to be made out of the service he certainly is entitled to it. In regard to the Colville mail, we are unable to learn anything certain beyond the fact that it has been awarded. Who the lucky contractor is, and what the figure at which it has been awarded, is a matter which at this writing is shrouded in mystery.

PARACATION AGAINST FIRE.—In looking around the city, we notice in many places lumber, old boxes, straw, &c., littered around in admirable confusion, and so arranged as to be exceedingly dangerous in case of fire. Take the rear of the buildings fronting on Main street, and extending from First to Second streets, and it will be found that the most inflammable material is ready prepared for the hand of the incendiary. There are other localities little better. We refer to this fact by way of suggesting to the Fire Warden the propriety of visiting the different quarters and directing the removal of any and everything that is likely to prove dangerous in case of fire. In some instances, we are told that stables filled with hay and straw are left open at night, and are resorted to by a class of bummers, who think nothing of lighting their pipes in the midst of the most inflammable material. These are matters that should be looked to. "An ounce of prevention is worth a pound of cure," and a little timely precaution may be the means of averting a terrible calamity.

MONTANA MARKETS.—The Helena Herald of the 28th ult., gives the following quotations: St. Louis flour, \$12 @ \$14; Salt Lake do., \$8 @ \$9; bacon 37 @ 40 cents; lard 35 @ 40 cents; hams, 45 @ 50 cents; corn meal, per 100 lb sacks, \$12.50; butter per lb \$1.10 @ \$1.25; beef 15 @ 25 cents.

CATHOLIC BURYING GROUND.—The blessing of the new Catholic Burying Ground will take place on Sunday next, April 21st, at 4 o'clock, p. m. The sermon on the occasion will be delivered by Rev. Father Mack.

From the Spokane.

EDITOR STATESMAN:—During the last week, under the influence of a warm sun, the snow has entirely disappeared from the Spokane Prairie, the side-hills are quite bare, and the green grass fast springing up. The Prairie presents a very lively aspect; pack trains pouring in daily, Blackfoot bound. The trains of Joachim, Pat. McGraw, Portuguese Frank, Joe Davis, Pat. Mahoney, and others, are camped on the river. Also several parties of miners, all expecting to start in a day or two, after laying in their supplies of grain to take their animals through the snow above. Considerable work has been done during the winter on Lee's Bridge, across the Spokane, a mile above Col. Wright's Ford, and it is now a very strong, substantial structure. The owners are very accommodating to the traveling public, their rates of toll being very reasonable; the entire travel crosses their bridge. The report from the Steamboat Landing is to the effect that Mr. Hogue, the Agent, has employed men to break the trail where snow is an obstacle in the way of travel. They say that there is no snow now at Horse Plains, and but little at Thompson's Prairie. Between Vermilion Creek and the Cabinet, there is more snow than at any other point, but there will be undoubtedly a trail open in a day or two. The steamer Mary Moody left Pen d'Oreille Landing April 12th, for the Cabinet, with a few miners and pack animals. This is the second trip of the boat. She did not have any difficulty in going up to Cabinet. Across the Portage, one steamboat, the Missoula is ready to launch, and the other, The Cabinet, ready to receive her machinery. There is considerable talk of some diggings on the point. The Spokane is yearly receiving favorable reports for discoveries, and was prospected some last summer; as it is on the route to Blackfoot, via the steamboat, many miners intend stopping to prospect. Whether diggings or good prospects have actually been found, is not yet known here, but many men are very sanguine on the point. The Spokane is yearly receiving additional settlers, and of the right sort—farmers. I think the country will soon be settled, if Government puts the Indians on a reserve, and gives the mail contract to some one who will carry it through punctually. SPOKANE.

FIRE.—On Friday afternoon, about three o'clock, a fire broke out in the carpenter shop of J. W. Smith, on Alder street, next to the corner of Second street. The fire caught in a pile of shavings, and in almost an instant the whole building was wrapped in flames. Mrs. Smith occupied the rear of the shop as a dwelling, and with her children was barely able to escape with the clothes she had on. All her furniture, clothing, &c., was destroyed. Nothing was removed from the carpenter shop, and several carpenters who had their tool chests in the building lost all their tools. The fire communicated to the blacksmith shop of Mr. J. F. Abbott, but anticipating the destruction of the building, nearly all the tools and iron had been removed to a place of safety. The building adjoining the carpenter shop on the South side, and owned by Mr. Ward, was also destroyed. Mrs. J. W. Schull, who lived in this building, was fortunate enough to save all her furniture and clothing. The total loss by the fire will foot up \$2,000, divided about equally between Mrs. Abbott, Ward and Smith. The same property was burned over at the time of the great fire last Fourth of July, at which time the same parties were heavy sufferers. About the origin of the fire nothing is known, with certainty, although it is supposed to have originated with children who were carelessly allowed to have matches, and in this way fired the carpenter shop. Mrs. Smith was in a rear room at the time, but knew nothing of her danger until the whole building was on fire. The engine, manned by volunteer firemen, was early on the ground, and did good service in preventing the fire from extending to adjoining buildings. It fortunately happened that there was very little wind at the time, and thus we were spared what for the moment threatened a destructive conflagration. On this, as on a former occasion, the little stream that flows down Alder street, was the main means in enabling the firemen and citizens to stop the progress of the fire, and looking to its usefulness in this respect, we think it would be well for the city authorities to arrange to have a full supply of water flowing along the street at all times. At the Fourth of July fire, it was this stream that prevented the conflagration extending to Main street, and it was owing to the same agency, that the fire was so readily extinguished on Tuesday last. It not infrequently happens that the flame at the upper end of town breaks and the water is shut off for days at a time. In cases of this kind it would be well for the city authorities to arrange to have the repairs made, and thus secure at all times, an abundant supply of water for the extinguishing of fires.

A FIRE COMPANY.—The experience of Tuesday last, teaches most unmistakably the necessity of having a thoroughly organized Fire Department. At the late fire our citizens worked nobly and manfully, but being without organization and a directing head, much energy and labor was expended without any corresponding result. Under the most favorable circumstances great confusion and excitement will prevail at fires. To obviate this condition of affairs, all towns, when they attain any considerable growth, find an organized Fire Department a necessity. Walla Walla in this regard is no exception to the rule. Why it is that with an engine and all the apparatus necessary for the extinguishing of fires, we are without a fire company is difficult to understand. One thing, however, is certain, that property holders and those interested in the prosperity of the town cannot allow the present condition of affairs to continue. The writer is neither young nor active, but is still capable of taking a hand at the "brakes," and will gladly place his name on the roll of a fire company. There must be fifty others who feel the same way—a number sufficiently large to organize an efficient fire company. Let a meeting for this purpose be called and we are quite sure that an organization will be effected. It is possible that additional legislation may be required at the hands of the City Council, and if so this can readily be had. The members of the Board, sympathizing in the wants and feelings of their fellow citizens, will gladly co-operate in whatever measures may be deemed necessary to place the company on an effective and permanent basis. Let us see to it that another conflagration does not find us without the means wherewith to combat the destroying element.

WOOD.—Several cords of wood will be taken in payment for subscriptions, if delivered immediately.

Dalles Correspondence.

DALLES, April 13, 1907. A WOOLEN FACTORY. EDITOR STATESMAN:—The citizens of the Dalles have at last waked up to the importance of taking measures looking to the improvement of their natural advantages. For years our property holders have been content to lay idle, and flatter themselves that, inasmuch as they were located on the great channel of communication with the mining regions, that, therefore, trade and wealth was bound to flow in upon them, without any effort on their part. In pursuance of this do-nothing policy, we have seen our town steadily recede, until now it can scarce claim to have half the business importance it had three years ago. It is true, that great efforts were made to have a Branch Mint established at this point, and on this measure our citizens depended for a revival of trade. But having failed in the attempt to secure this desirable institution, our property holders and business men have arrived at the conclusion at last, of doing something to bring back a portion of the trade, and enhance the value of property. As the result of faithful co-operation, I am happy to inform you, that the Dalles can now boast of having organized an efficient company for the purpose of manufacturing woolen goods, such as blankets, flannels, yarn and clothes. In connection with this, there is to be a knitting apparatus, and the company propose to manufacture "Shaker hose," and all kinds of under garments. The capital stock is already subscribed, and the project of a woolen mill at the Dalles is no longer a vision. At a meeting of the stockholders on Tuesday last, a board of directors were elected as follows: Col. N. H. Gates, President; W. P. Abrams, Vice President; H. J. Waldron, Treasurer; F. M. Stocking, Secretary; Henry Marlin, W. P. Abrams, Col. N. H. Gates, Thos. Smith, Z. Donnell, E. S. Joslyn, and H. J. Waldron, Directors. There will be a meeting of the Directors during the week for the purpose of telegraphing to the East for the necessary machinery. The building, now in progress, will be of stone and made fire proof. Vic. Trevis, Esq., one of our most enterprising citizens, has donated to the Company, a large piece of land, situated on Mill Creek, where sufficient water power can be procured to run the factory.

ANOTHER ENTERPRISE. Now that the woolen factory is an established fact, some of our enterprising citizens are looking to other branches of manufacturing and trade. Robt. Pentland, Esq., proprietor of the "Dalles Water Works," is putting up a flouring and grist mill, on Mill Creek, and judging by the spirit which the enterprising gentleman displays, the mill will soon be in operation.

RUMORS. It is said, that Messrs. Robbins & Weaver, of this City, have succeeded in securing the mail contract from Dalles to Boise City, via Canyon. It is to be a tri-weekly service, and to carry the great "Overland Mail." If rumors are to be credited, the good resulting from this arrangement can scarcely be overestimated. Messrs. R. & W. intend to put on a stage line, and make fast time. Another report says that Wells, Fargo & Co., will run a tri-weekly line from Salt Lake to the Dalles, via Walla Walla. If all these rumors are correct, the people of the Columbia Basin need not complain at the P. O. arrangements.

THE LEMBI DISTRICT.—The Lembi mines seem to awaken more attention the present season, than any other. Parties who have wintered in San Francisco and other towns in California, as also in Portland, affirm that the principal talk about emigration to new mines, is centered to the Lembi country, and the first notices in the papers of the lower country of a movement towards the mines, is for the most part limited to those who are bound for Lembi. And yet that little has been placed on record of the real character of these new mines. The reports are generally vague and indefinite, and inferences are drawn from a few prospects made there before the snow fell there last winter. There is not much doubt that "distance lends enchantment to the view," and as usually the case many will go there only to be disappointed. That section has good reason to believe that many will go there and do well. All reports from there confirm the belief that the area of that mining section is quite as large if not larger than the Blackfoot region, but no reports make the mines as rich. There is no doubt that the country is getting rich, and that the country West and South of the present camps of Lembi, is comparatively an unprospected country. The country bordering on Salmon river and immediately South between the big bend of Salmon near the mouth of the Lembi river, and the South fork of Salmon river near Warren, is known to contain evidence of gold. Prospecting parties have been there for some time, and in many places spots where from fire to eight dollars per strike could be made with sluices; but no big strikes were made, and hence the remoteness of that section from the settlements, imposed objections to making camps there, where only small wages could be made. The mouth of the Lembi river is about one hundred miles North of East from Warren's camp. There is an Indian trail leading from Warren to the Lembi valley. This trail extends across the South fork of Salmon river near Warren, and South of the North fork behind the first range of mountains next to the North fork, and is reported to pass over a country bearing abundant evidences of gold. It is not an unprospected, and some report that in 1862 one of the mountains at night gave unmistakable evidences of being volcanic and in active operation.—Lewiston Journal.

THE MINING TRADE.—The discovery of mines on the Pen d'Oreille, and the various discoveries that followed, gave an immense impetus to the trade of Portland, and soon elevated that place to the position of the second commercial town on the Pacific Coast. Owing to the development of the Northern country, Portland has been gradually losing this trade, as is evidenced by the following paragraph clipped from the Oregonian: Thus far, this season, the shipments of merchandise and produce up the Columbia river have been very light, with the exception, perhaps, of half a dozen trips. At this time last year, there was large shipments of produce for the mining regions—mostly flour and bacon. This year, very little of either has gone forward, and very few orders have been received for anything. These are indications that our dependence upon the mines as a market, is less reliable, and that these regions are about to get along without our produce. The mining territories and Eastern Oregon adjacent thereto, are producing more extensively, while the mines are fewer, than in former years. The mining market for Oregon is getting played out, and we might as well face the fact and make the best of it. Portland must hereafter depend chiefly on the Willamette valley and such outside markets as we may be able to find, for its prosperity. Business policy may as well shape itself to this fact at once.

MONTANA NEWS.

From the Helena Gazette of the 28th ult. we extract the following: FROM BENTON—STOLEN STOCK—INDIANS. Mr. La Fayette French, a citizen of Benton, arrived in Helena on Saturday last, in search of five head of horses, run off by the Pen d'Oreille Indians, while on their return from their late winter hunt. A war party of twenty-six of these Indians came in to Benton to trade, and were known on their leaving, to have taken the said stock. Mr. French informs us that between the different tribes of Indians that have visited the Fort this winter they have succeeded in raising off every animal owned in the vicinity, with the exception of three. These Pen d'Oreille are now straggling along through this region on their return home to the Western Slope. They have succeeded in killing a large number of buffalo, and in an engagement with the Blackfeet, they have come out five hundred good ponies ahead, with the loss of one lodge, containing two squaws, and some children taken captive. The grand skirmish occurred on a branch of the Musselshell River, about one hundred miles east of this point. Mr. French says that the ice on the river at Benton when he left was twenty-five inches thick. The new military post at the old crossing on Government Gulch, as soon as the commanding officer should arrive from below by steamer. The snow in that region was not as deep as here.

A PROBABLE SUICIDE. On Monday afternoon, between the hours of five and six o'clock, p. m., a man by the name of Bennett Marsh was found dead in the cabin of Messrs. Pease & Ward, situated on Bowery Gulch, some two or three hundred yards east of Fort Gulch, and a short distance to the left of the main stage road leading to Virginia City. He was a native of the State of Connecticut, about 50 years of age, and unmarried. He had been sick for a long time, and there is no doubt but that he had become insane from disease and the powerful medicine he was taking. Mr. P. was horrified on entering his cabin to find Marsh lying dead upon the floor, in a pool of blood. Mr. P. says that Marsh had undoubtedly taken a navy six-shooter out of a pair of holsters and loaded it himself, then placing the muzzle of it to the left side of his head, just above the temple, no doubt pulled the trigger. He was evidently in a state of delirium, and in so doing had got the fleshy part of the band over the muzzle, causing the ball to pass through it into his head and coming out at the crown.

FROM THE MUSSELHELL. Several gentlemen have arrived in Helena this week, from the great mining district of the Musselshell. The report is that the weather and deep snow, yet the work of sinking down on various ledges has been prosecuted with vigor. The only new discovery since our last report upon this district, is the "Newland," located by Mr. Newland, and which is said to be very rich in copper.

THE MINING PROSPECT. During the next thirty days there will be an immense amount of gold washed out in the immediate vicinity—at least half a million of dollars. Almost every claim owner along Dry Gulch and Last Chance, has been at work much of the time during the winter in drifting and taking out pay dirt to be run through the sluices upon the opening of spring. This extensive work will soon begin in earnest; and within three days thereafter, a permanent and lively revival of business will be experienced. It will soon be all life, all animation, all excitement, and plenty of money circulating in this locality.

SPRING.—The weather has been quite warm for a few days past and the snow has almost entirely disappeared from the hills within fifteen or twenty miles of this place. The grass is springing up finely. The Snake river is slowly rising, and the Clearwater begins to rise. The water of these streams is sufficiently high to render navigation by steamers perfectly safe, and if the Columbia has sufficiently swollen to admit steamers over the Homely rapids we may expect a steamer soon.—Lewiston Journal.

WE learn that a steamer went up to Lewiston on Friday last, and that semi-weekly trips will be made to that place during the remainder of the season.

MILL PROSPECT.—The proposition sent down from Warren relative to the method of raising the means for the purchase and erection of a quartz mill for testing the ledges in that camp, with favor here among the holders of claims there. A subscription was circulated on Friday last, and in three hours time \$3,300 was subscribed towards the enterprise; no subscriber taking more than \$200 of stock.—Lewiston Journal.

A NEW GOVERNOR.—A private letter from Washington to Governor Ballard, of Idaho, contains the news, that Mr. Ward, of Kentucky, a brother of Gov. M. L. Ward, of New Jersey, has been appointed and confirmed as Governor of this Territory, vice Geo. E. Cole, rejected by the Senate. The new Governor is a Radical Union man in politics, which fact, however, was not known to the President at the time of the appointment. We state this upon the authority of Judge Cummins, of Idaho.—Vancouver Register.

TEAMSTERS' CARD.

EDITOR STATESMAN:—We notice that the O. S. N. Company have raised freights to Wallula to \$35 per ton. We have teams in abundance standing idle, and want freight. We propose to the merchants of Walla Walla to haul from the Dalles for the same price, by weight, as is now charged by the O. S. N. Company, thus saving to the merchants the difference between measurement and weight. There is now in this valley a large number of teams unemployed, and if the merchants of Walla Walla will give us their freight from the Dalles they will patronize their own citizens and all parties will be mutually benefited. By giving this place in your columns you will show most obliging.

EASTERN NEWS.

Dates to April 11th. COMPILED FROM THE DAILY OREGONIAN. WASHINGTON NEWS. Washington, April 9.—In the Senate the resolution of Mr. Trumbull was adopted asking the Secretary of War how many volunteer officers were retained in the service, under what law they were retained, and why some may not be discharged without detriment to the service. Thayer called attention to the resolution of the last session on the Thirty-ninth Congress, calling for information from the President in regard to the absence of Alex. Cummings, Governor of Colorado, which resolution was subsequently modified so as to extend the inquiry in regard to other territorial officers. The President of the Senate said no response had been received to the resolution. Thayer then introduced a resolution requesting the President to inform the Senate when Cummings was appointed; how much of the time he had been absent from the Territory, and whether his salary had been paid during his absence. Thayer said he was informed that Cummings had been absent nearly the whole time since his appointment. The absence of territorial officers had become so habitual as to require the attention of Congress. Buckalew said an explanation can be given for Cummings' absence. The resolution went over. In Executive session nominations of J. H.

Stockton as Minister to Austria, and Horace Capron of Ill., as Commissioner of Agriculture, were received.

Chicago, April 10.—The Times says the Senate has agreed to adjourn on Friday, 12th. The greater number of the regular army officers protest against the confirmation of Rousseau. The protest of the regular officers appears to do him good among the Senators. New York, April 10.—The Herald says the vote on the Russian treaty was 31 ayes and 2 noes, the latter being Fessenden of Maine and Yates of Illinois. The Tribune says Morrill, of Maine, made a violent speech, and Anthony, of Rhode Island, Trumbull, of Illinois, and Patterson, of New Hampshire, spoke against the treaty, but dodged the vote or affirmative. The same journal calls on the House to nullify this action. It is stated that Conness, of California, Corbett, of Oregon, and Stewart, of Nevada, will return to the Pacific coast. The Herald, has the text of the Russian treaty. Article first fixes the eastern line as established by Russia and England, and the western line including the Aleutian Islands east of 193 meridian. Article two cedes all the public buildings except the churches, and cedes the archives and documents relative to the territory. Article three provides that the inhabitants who choose to remain, except uncivilized tribes, shall enjoy all the rights, advantages and immunities of citizens of the United States. Article four provides that the cession with the right of possession shall be complete on the ratification. Article five provides that immediately after the change the military posts shall be given up, and as soon as practicable the troops will be withdrawn. Article six says the cession is hereby declared free and unencumbered by any reservations, privileges of franchises granted by Russia.

Trenton, April 10.—In the House of Representatives, on the question of striking the word "white" from the Constitution, the vote stood—ayes, 20; noes, 35. Thirteen Republicans voted "no."

NEW YORK POLITICS. Albany, April 10.—The Democratic State Convention met and elected a temporary organization by choosing D. A. Ogden as chairman. The Tammany delegates were admitted, and all others from New York city excluded. Syracuse, April 10.—The Republican State Convention has met. John A. Griswold was elected permanent President.

NEW SENATOR FROM DELAWARE. Wilmington, April 9.—James A. Bayard has been appointed a Senator to fill the vacancy caused by the death of Riddle. Senator Saulsbury has gone home. Should he resign he will probably be succeeded by a brother of the new Governor.

MISCELLANEOUS. Chicago, April 10.—An abandoned woman named Mary Branigan yesterday murdered her little girl 5 years old, by throwing it into a barrel of rain water. She threw another child into a privy vault, and attempted to murder another. One was arrested after a desperate struggle. The woman had been socially ostracized for bad conduct by her neighbors and committed the murder in a fit of rage. The case is a most horrid one, and great indignation is manifested by the community.

Chicago, April 10.—At the municipal election in Springfield, Ill., yesterday, the Democrats were successful by 200 majority.

Albany, April 9.—The Democratic city ticket was successful by 1,630 majority. New York, April 10.—The Herald's Buffalo special dispatch says the commander at Fort Erie has notified the authorities that a prominent engineer has been taking plans of the frontier below the suspension bridge, and asks that reinforcements be stationed at the village of Niagara. It is feared that the Fenians intend another movement. St. Louis, April 10.—The Union Pacific Railroad, Kansas branch, applied to the Government to-day for commissioners to examine the seventh section of the road, extending to Saline river, 45 miles west of Fort Riley. The track is being laid at the rate of half a mile daily. The cars will be run to Saline, 47 1/2 miles west of St. Louis on Saturday.

Democratic Candidate for Sheriff.

H. M. HODGIS, Is a Candidate for SHERIFF OF WALLA WALLA COUNTY, SUBJECT TO THE

Decision of the Democratic County Convention. Walla Walla, April 18, 1907. 18tc

Money Market. San Francisco Legal Tender rates... 74 1/2 @ 75 New York Gold Quotations... 134 1/2

PRIMARY ELECTION.—Our democratic friends will bear in mind that the precinct meetings for the election of delegates to a county nominating convention will be held on Saturday, April 27th.

CRAB CHINAMAN.—A crazy Chinaman passed through Walla Walla, on Monday last, on his way to the lower country. He was accompanied by several of his countrymen, and had to be tied hand and foot to keep him from injuring himself.

WALLA WALLA MINSTRELS.—On Tuesday last, the Walla Walla Minstrels gave an entertainment for the benefit of W. M. Whitney, and, as on previous occasions, were greeted with a crowded house. For amateurs, the performance of the company is certainly remarkable, and vastly superior to the entertainments that have been given in this town by trained artists.

CERTAINLY.—The daily Washington Chronicle, one of the best and ablest papers published at the national capital, comes to us marked "Please X." Of course we will. And here it seems to us that the San Francisco dailies might take a lesson in liberality from the Eastern papers.

EXTRA SUPERFINE FLOUR.—Mr. I. T. Reese, of the "Standard Mills," is manufacturing just at this time, a very superior article of flour, and such as will favorably compare with the more celebrated brands.

THE CASH SYSTEM.—Read the advertisement of J. D. Cook in another column. It will be seen that Mr. C. has boldly declared in favor of the cash system, and we think it would be well if mechanics and business men generally would follow his example.

VOLUNTEER FIREMEN.—Among those who distinguished themselves at the late fire, and yet are scarcely to be termed citizens, were Messrs. John Justice and Moss Stormon, both of them old San Francisco firemen, and trained to combat the destroying element.

Council Proceedings.—April 16, 1867. Council met at the usual hour. Present, full board. Mr. Winsel in the Chair. Minutes read and approved.

Independent Candidate for Sheriff. A. SEITEL will be a Candidate for the office of Sheriff of Walla Walla County at the June Election, subject to the voters of Walla Walla County, 17-1c.

County Assessor. IRELAND will be a Candidate for COUNTY ASSESSOR, subject to the decision of the Board of County Commissioners, 17-1c.

Democratic Candidate for Sheriff. C. P. WINSETT, IS A CANDIDATE FOR SHERIFF OF WALLA WALLA COUNTY, SUBJECT TO THE

Decision of the Democratic County Convention. Walla Walla, April 5th, 1867. 16-1c.

Democratic Candidate for Sheriff. A. L. BROWN, IS A CANDIDATE FOR Sheriff of Walla Walla Co'ty, SUBJECT TO THE

Decision of the Democratic County Convention. Walla Walla, March 22, 1867. 14-1c.

DUSENBERY & BROS., Brick Building, WALLA WALLA. OFFER THEIR WELL SELECTED STOCK OF DRY GOODS, Clothing, Boots & Shoes, HATS & CAPS, GROCERIES, &c., &c. AT— SAN FRANCISCO COST! In order to Close out Business.

Main Street Property for Sale! The BRICK BUILDING, fronting on Main Street, now occupied by Dusenbery & Bros., and the best location in the city for business, is offered for sale at a great bargain. Also, the FRAME HOUSE and LOT adjoining, either separately or together.

Puget Sound and Columbia River.

As an abstract proposition it makes no difference, whether the territorial delegate to Congress, to be elected by our people next June, comes from Puget Sound, Walla Walla or this section of the Territory. There are good, honest, and competent men, residing in all the various sections, who, if elected, would faithfully discharge their duties and properly represent the whole Territory in our national councils.

FROM PUGET SOUND. From 1855-57 J. Patten Anderson. 1857-59 I. I. Stevens. 1859-61 W. H. Wallace. 1861-63 W. H. Wallace. 1863-65 A. A. Denay.

FROM ALL OTHER PORTIONS OF THE TERRITORY. From 1855-55 G. Lancaster. 1855-55 Geo. E. Cole.

It will be seen at a glance, that the division of the perquisites of that office has been a very unfair one to us, as Puget Sound has had ten out of fourteen years. We understand that at this time the candidates from Puget Sound are very numerous and we have little doubt, from the disposition manifested, but what one from that section would be nominated if all their votes could be united upon one man, in which event they have the strength to do so.

EXCITING NEWS FROM BIG BEND.—We have letters from French and McCullough creeks to the 31st January. Great diggings have been struck on French Creek; two men in the Discovery claim took out 175 ounces in one week. There are 75 men on the creek. On McCullough Creek the Dart company have tunneled 250 feet and struck the richest kind of pay. Great confidence is felt in the future of the diggings by the miners, of whom there are 75 on French and 12 on McCullough Creeks.—Victoria Colonist.

ELECTION NOTICES.

Mustang Liniment. Here you can get a cure for a lame horse? Use the Mexican Mustang Liniment. For cuts, sprains, tumors, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure. For Rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment. It cures aches, sprains, the poll evil, ring bone, and swellings, the Mexican Mustang Liniment never fails. For wind falls, scratches, big head and splint, the Mexican Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with. In lifting the leg from a horse, it tipped over and scalded my hands terribly. \* \* \* The Mustang Liniment extracted the pain, and caused the sore to heal rapidly, and left a very little scar. CHAS. FOSTER, 439 Broad street, Phila.

Mrs. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment, I have sold him for \$150. Your Liniment is doing wonders up here. All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist, and also has the private U. S. stamp of Deans Barnes & Co., over the top. Look closely. Sold by all druggists, 25, 50 cts., and \$1.00.

Lyon's Extract Ginger. LYON'S EXTRACT OF JAMAICA GINGER.—For Indigestion, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold every where at 50 cts. per bottle. Ask for "LYON'S Pure Extract. Take no other. CAUTION.—See that the private U. S. stamp of Deans Barnes & Co. cover the cork of each bottle. None other is genuine. 48-1y.

Lyon's Kathairon. It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the hair cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling off. It restores hair upon prematurely bald heads. It is just what "TONIC" KATHAIRON will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it. E. T. LYON, Chemist, N. Y.

Valuable Hotel Property for Sale. THE UNDERSIGNED OFFER for sale their valuable HOTEL PROPERTY, at PALOUSE LANDING. The improvements include the HOTEL BUILDING, a substantial structure, Stable, Root House, &c., all conveniently arranged. The travel from Colville and the Big Bend country, as also to various other sections, passes this way, thus rendering it a most desirable hotel stand. To a person desiring to engage in the business, the terms will be made most reasonable. For further particulars, enquire of A. Frank & Co., Walla Walla. WILLIAM BRENNICE, HENRY WILD, 16-1m

Ayer's Ague Cure. For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chills Fever, Dumb Ague, Periodical Headache, and Bilious Fevers, induced, for the whole class of diseases originating in bilious derangement, caused by the miasma of malarial countries. FEVER AND AGUE IS NOT THE ONLY CONSEQUENCE of the malarial poison. A great variety of disorders arise from its irritation, in malarial districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Painful Affection of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originated in this cause put on the intermittent type, or become periodical. This "Ayer's" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest, and moreover, is perfectly safe. No harm can arise from its use, and the patient, when cured, is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over-estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood. Prepared by J. C. AYER & CO., Lowell, Mass., and sold at Wholesale by SMITH & DAVIS, Portland, and by all dealers. 4-2c.

LAWS OF THE UNITED STATES, Passed at the Second Session of the Thirty-Ninth Congress.

As Act to amend an act entitled "An act to extend the time for the reversion to the United States of the lands granted by Congress to aid in the construction of a railroad from Amboy, by Hillsdale, to some point on or near Traverse Bay, in the State of Michigan, and for the completion of said road," approved July three, eighteen hundred and sixty-six.

TO THE UNFORTUNATE NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary, 616 KEARNY STREET, CORNER COMMERCIAL ST. ESTABLISHED IN 1854, FOR THE TREATMENT OF SEXUAL AND SEMINAL DISEASES, SUCH AS GONORRHOEA, GLEET, STRICTURE, SYPHILIS, IMPOTENCY, ETC.

DOCTOR GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited some of the principal hospitals of Europe, among them those of Dublin, London and Paris.

DOCTOR GIBBON has also visited Doctor Acton, of London, Parker of Birmingham, England, and Ricord of Paris, who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases.

DOCTOR GIBBON has obtained from them their new mode of treatment, which cannot be surpassed. DOCTOR GIBBON has also secured a number of new medicines in seeking out new remedies and has returned with new facilities for the alleviation of human suffering.

Horrible Diseases. How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system.

Seminal Weakness. Seminal emissions, the consequence of self-abuse, the solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an extent limited extent, producing, with unerring certainty, the following train of morbid symptoms, unless counteracted by scientific medical measures.

Female Monthly Pills. DR. PERREAU'S Female Monthly Pills. His immense sale has established their reputation as a female remedy for all the irregularities of the monthly course, and other obstructions in females.
