NEW STOCK.

I AM NOW RECEIVING MY

FALL AND WINTER STOCK:

Of Goods of every kind and description.

REBELLIOUSLY THE MAKER OF THE HATS, and

in some respects the most remarkable fig-

ure among the condemned, devoted his

last hours to drawing up a memoir on the

life of his associate in crime, which he ad-

dedicated to the High Court of Justice, in

the document he avowed his desire that his

name should be immortalized, and he made

a gift of his invention to the State, on the

condition that the State should give to the

amplification of the lot of the children of

political criminals.

THE EXECUTION.

The execution took place at nine o'clock

in the morning, on Simonofsky plain, the

same place on which Mowbray was execu-

ted. The scaffold was a rough wooden

structure, painted black, consisting of a

high platform, upon which were three

posts, each with a chain and manacle, and

one long horizontal beam with iron rings

for ropes, supported by two perpendicular

posts. In front was a low platform for the

officials. The large plain around was

covered with a fine carpet of grass, and

the morning sun shone brightly on the

prisoners. The condemned man, who was

in the center of the scaffold, was dressed

in a black coat, and wore a pair of

black trousers, and a black cap. He was

looking towards the gallows with a

calm and steady gaze. The executioner

stood by his side, holding a long sword

in his right hand. The crowd of specta-

tors was large, and the air was filled

with the sound of voices. The execution

was completed in a few minutes, and

the body was thrown into a hole in the

ground. The executioner then turned

to the gallows, and the execution was

completed. The executioner then turned

to the gallows, and the execution was

completed. The executioner then turned

THE Nihilist Executions.

THE EXPIATION ON THE SIMONOFSKY PLAINS.

SOPHIE PEROFSKY'S STOICAL COURAGE.

HOW THE CONDEMNED SPENT THEIR LAST MOMENTS ON EARTH.

AN VERY IGMINIOUS BURIAL.

The following additional details of the

execution of the Nihilists have been re-

ceived: Raskodoff asked for three wax

tapers, such as are carried to church, a copy

of the New Testament and one of the small

concordances. These were made up by the

monks. When not praying he smoked

cigarettes. In the course of the day he of-

fered his services to the government as a

spy. Naturally enough he met with a re-

spect, for he belonged only to the outside

circle and could be of little use. Jelaboff

spent his time in dictating page after page

of his memoirs, and committing to paper

what he would not be allowed to say in

speech. Sophie Perofsky wrote to her

mother to waste no time or trouble in as-

sessing the wrath of her father for what

she had done. He would never forgive

her. She wrote to her mother to be kind

and in some respects the most remarkable

figure among the condemned, devoted his

last hours to drawing up a memoir on the

life of his associate in crime, which he ad-

dedicated to the High Court of Justice, in

the document he avowed his desire that his

name should be immortalized, and he made

a gift of his invention to the State, on the

condition that the State should give to the

amplification of the lot of the children of

political criminals.

The Oregonian and the Bar.

The Oregonian, Mr. Pittock's paper,

but unfortunately edited by one Scott,

who has betrayed everyone and every-

thing but his purse, take exceptions to a

telegram sent us by our Portland agent.

The argument used against us and in de-

favor of the Columbia River bar is thin-

ning as the quibbles of this North-

western ologian. He bolsters his weak-

ness by giving us the lie, a fact we over-

look, coming from the very dishonorable

source it does, and knowing full well that

this quasi champion of the death-dealing

Columbia river bar is doing its cause no

good with its subservience of vice-presi-

dent B. Engdahl. He only succeeds in

sinning himself with his own dirty ex-

ecution. The dispatch we published was

MURDER. SHOT AND KILLED. J. M. Hedrick Killed by J. Stevens on the Potlach.

[SPECIAL TO THE STATESMAN.] LEWISTON, May 11.—J. Stevens shot and killed J. M. Hedrick, on the Potlach, Nez Perce County. This morning Stevens has surrendered and will take his trial on Friday. The above dispatch will give and shock our citizens who knew the deceased from intimate acquaintance extending over a number of years. He was an old settler in the country, and had a good reputation as a free and energetic man, honest, open and fearless. At the last election in Nez Perce County he was elected by a good majority to represent his county in the Idaho Legislature. He performed his duty to his constituents and gained the respect of his fellow members to such an extent that he was presented with a cane of black and white in token that he had acted impartially and fairly irrespective of party feeling. How and under what circumstances he met his death, the telegraph fails to inform us, but the news will be laid before our readers as soon as it can be obtained.

DISTINGUISHED VISITORS.—Messrs. Allen & Lewis, of Portland, accompanied by C. Foster, Esq., of Umatilla, are our prominent visitors. They are well known to all our citizens as honorable and enterprising citizens, who, while they have looked closely after their own business, have ever had the welfare of our common country at heart. Of Mr. C. H. Lewis we cannot speak too highly. He is the concentration of integrity combined with everything that goes to make a gentleman. His name has been identified with the upper country from the earliest days, and no fault can be found with him. Every one speaks of him as a fair upright man. He has kept pace with the progress of the country and enjoys the wealth he has so honestly earned.

BIDS.—The following bids have been received by the quartermaster of the post at Fort Walla Walla: Dolson.....100 cords wood \$ 6 25 Driver.....100 " " 6 30 D. C. Moore.....270 " " 6 35 D. W. Small.....100,000 barley 68 D. W. Small.....150,000 oats 1 48 C. Russell.....150,000 " 1 48 D. W. Small.....600,000 " 1 45 A. W. Sweeney.....40,000 " 1 50 Schwabacher.....100,000 " 1 50 C. TERRIBLE ACCIDENT.—About four days ago, while Conductor EVANS, son of Mr. Evans the old blind man who is so well known in this neighborhood, who is engaged as conductor on the N. P. R. R. between Ainsworth and the front, was coupling the engine of train No. 2 to the baggage car, the draw-bar slipped and fell, breaking his legs, the unfortunate man fell causing the loss to protrude through the flesh of his left leg. He was immediately brought to the Hospital at Ainsworth where proper care is being taken of him. It is supposed that amputation will be necessary. Dr. Fingham has been called upon to consult in the matter. Mr. Evans is suffering untold misery.

ALWAYS ON THE MOVE.—Gen. Tammert returned from Dayton on Tuesday evening and left for Portland on Friday night. We are informed that by the 22d inst., the flume will be working right down to the depot grounds. Dayton is now in the ascendancy and there is a glorious future before her. The town proprietors should give intending localities every encouragement. Promising towns have never been killed beyond reconstruction by the high prices prevailing for business and dwelling lots.

THE CATHOLIC CATHEDRAL.—Already the magnificent sum of nearly \$10,000 has been subscribed toward the Catholic Cathedral and much more will naturally come in when needed. All the members of the different committees are requested to be in attendance next Sunday at St. Patrick's school house at 12:00 o'clock to make arrangements toward settling the preliminaries. A full attendance is requested.

INSPECTOR.—Col. Mason, inspector general of this department, held in-petition yesterday afternoon at two o'clock. The bailiff, Capt. McGregor, commanding, showed to advantage and executed their movements with but some of the officers lacked some what in that respect so becoming to an officer. We would suggest that the commanding officer infuse more vitality into his naturally able confederates.

CHARLES T. TIMES.—The popular Blue Ribbon club have now in preparation the grand affair of "Charles the Second," and the laughing and entertaining play of the "Irish Attorney." Several of our favorite local artists, Messrs. Beale, Leslie, Schmeck and others will take part. Star service took place on Tuesday and Wednesday evenings. Star service took place on Tuesday and Wednesday evenings. Star service took place on Tuesday and Wednesday evenings.

THE OW ORDNANCE.—The cow orifice is at its latest and purposes a dead letter for the reason that, as the City Marshal informs us, there is no pond forced in. He says he will do his duty if the City Council will only provide a proper place to impound the stray animals. The cussed brutes are turned loose every night and no property is safe from their depredations.

The Flume Case. DR. NICHOLS' RESIDENCE. From the Toils of the Devourer—Good and Efficient Work—Small Loss.

At about twenty minutes to eight on Friday morning, Washington's bell gave forth the alarm of danger. In an incredibly short space of time the different companies had reached the scene of conflagration which proved to be the property of G. Roberts on Sumach street between Second and Third, and occupied by Dr. S. A. Nichols. On arriving at the grounds Washington's found that the cistern was empty necessitating their return to the creek, and then upon feeling the hose it was found that it fell short about 100 feet. By this time the carriage No. 2 came up and then Washington's played with good effect through SIX HUNDRED FEET OF ROSE.

Meanwhile Tigers ran their heads down Third street, and from there sent a good stream on the house whose whole roof was enveloped in flames. Vigilant, as is their custom, were camping on the grounds when the boys came up with their heavier machines. But short work was made of the hungry flames after the boys had got down to their work. The fire originated near the chimney passed through the roof, and before it was discovered it had made considerable headway. Dr. Nichols managed to save all his furniture and fittings without sustaining much loss from breakage. Mr. Roberts' loss on the building will not exceed \$300. Building and furniture insured.

N. P. R. R. THROUGH IDAHO.—It is a matter of quiet interest to us in Walla Walla to know the progress of the Northern Pacific all along the line. The Lewiston Teller says: "H. M. McCarty, Esq., did it of the construction on the Potlach division of the N. P. R. R., and came to Lewiston on Saturday last and remained until Monday. He came on business connected with the recent survey made by the government in the vicinity of the Pen d'Oreille. He reported about 300 men employed on that portion of the road between Spokane Falls and the lake, and that a good portion of them were across the Idaho line. The company want 1000 more men on this portion of the road, but men are difficult to access for the business. They have plenty of teams but not sufficient men."

A GOOD MAN.—Joseph H. Sime a gentleman of Eastern Oregon, who is a shining light of the country and can hold his head high up among his fellow men as one, with every chance is never been a candidate for the Legislature, is in the city. In spite of all temptation Joe has always preserved his natural and inborn sense of honor and resisted the wish of a vast majority of his fellow citizens by staying at home in preference to achieving the questionable honor of becoming a member of the Legislature. Mr. Sime is one of these men who have the good of the country at heart and has always worked most earnestly for the material benefit of his section. He is a true and honorable gentleman and one who never forgets a friend. He is now on his way to Portland on business. We wish him a pleasant trip.

OUT AGAIN.—The quail fiend, who was rather brusquely introduced to the Game Club, Justice of the Peace and the game law all at one and the same time, and which in fact, has sufficiently recovered to be on the street again. He quietly tells his friends that he will no longer frequent the haunts of the Bob White for "O my, what a shaft, at random's end, 'Fink mark and under the wing! And many a word at random spoken, May soothe or wound a heart's broken."

OLD TILDEMS.—E. S. McCoules, formerly of the Mountain Sentinel, and Mr. Miner, of Snodgrass & Miner, general merchants of Lattaface, surprised us with their presence in this office. Mr. Miner has been away from home for some time past recuperating from the effects of a severe accident, and Mr. McCoules, the only regret we have is that he has severed himself from the craft. Mr. McCoules is one of its brightest gems and when he and Hay "stood for the right" the Thunder clashed and the mountains reverberated the echoes of justice. We hope soon to welcome McCoules back into the fold of "mountain truth."

TESTING OILS.—The Chicago Mining Review gives the following simple method for testing oils: If the prospector in the field finds a specimen and wishes to test it, he may let him proceed as follows: Pulverize the rock in question, take one part of that and two parts of gunpowder—that from a cartridge will answer. Add sufficient water to make a thick dough; knead and make in a pyramid shape; let it dry in the sun or near the fire; when dry set on a flat stone, and apply a large coal to the summit of the cone. When the combustion has ceased, if mineral was contained in the ore, you will find a button on examining the ash.

GOV. McFILLIN.—I regard to the paragraph in Wednesday's Daily Enquirer, the whereabouts of Governor McFilling in the Governor of this Territory under the Buchanan administration we are informed by Delegate Beards that he was and talked with him several times during the extra session of the 46th Congress. About one year after Mr. Beards says he read an account in the papers of his being killed by a railroad accident near Petersburg, Virginia which was his adopted State.

A BASK SLENDER.—The Chicago Times says: "Emigration to Oregon is not active, for there no man is allowed to take a drink at a public bar without taking out a \$5 license, and the newspapers publish lists from time to time of the men who have obtained licenses. It is a painful offense for a saloon keeper to take a man unprovided with a license, and the saloon-keepers on Oregon, had the Times man known Harvey Scott and several other confirmed imbibers, he would never have published a \$5 license racket."

ESTEP'S PETARD. A Fatal Explosion of the Electro-Polaric Machine. The Power of the Snake River Bridge.

Our readers will remember that some weeks since the STATESMAN published a detailed account of a wonderful bridge which was proposed to be built by the Northern Pacific Company across the Columbia river at Ainsworth. The STATESMAN's article was published far and wide and many were the encomiums lavished upon the head of the designer and projector. He was hailed as the coming man in engineering science for which the world had waited so long. Stevenson, Brunel, Eads, De Loewe, Ames and George and others whose names will descend to posterity pale before the gigantic intellect who dared to wrest power and genius from the GODS THEMSELVES.

To further his designs, The London Times in commenting on the description as published in the STATESMAN said of the engineer: "He is God like in conception, Titanic in ideas and is the coming man." The New York Herald in a leading editorial described him as "the engineering star of the Western horizon, rapidly ascending to the clear heavens at large, for the benefit of mankind," while the Revue des Deux Mondes, published in France says: "Les sciences fait des progres extraordinaires. M. Estep, de Walla Walla dans le Territoire de Washington vient de decouvrir un pouvoir electro-polaric magnetique qui sera une revolution dans le monde scientifique. Il y a un an d'apres le Dr. M. Estep, l'Indeseeption dans l'usage d'une machine M. Clark's." All this combined reflects on the STATESMAN. It was the first newspaper and only daily in the Northwest who thought was a child of genius, but our doubts were, when lately dashed by an article which recently appeared in the New York papers describing the death of a great but

Who was killed by his own device. This man was discovered dead in his room in the city of Washington and is thus described: "The inventor was a mysterious man, and he had hired this little house on the outskirts of the Capital in order to be safe from interruption. He was presumably of Polish origin, his name he went by being Clarkinsky. He had evidently met his death by an explosion of the electro-polaric machine, but exactly how the machine did explode will probably remain a mystery. He had promised to cause one of his machines to make 600 to 700 revolutions per minute, and it is probable that in his eagerness he drove it to even greater speed, and so, by inducing too powerful an exchange of polarity, sealed his own doom and delayed the perfection of one most brilliant of discoveries by

AMONG HIS EFFECTS were discovered papers and plans which proved beyond a peradventure that the unfortunate man was the designer and inventor of the wonderful railway bridge across the Columbia river at Ainsworth in Washington Territory, a full account of which, recently published in the STATESMAN of Walla Walla, attracted the attention of the civilized world. The STATESMAN was barely imposed upon by an obscure engineer named H. E. Estep, who stole the thunder of his own plan in the child of his own brain that of the unfortunate whose lamentable death we chronicle above.

THE DICKENS FESTIVAL.—The Dickens festival on Thursday night at the Olympic Hall, was fairly a tangle and after the ice was broken and people warmed up every one started in to enjoy themselves. The characters looked as if they had walked out of Dickens' novels, and showed that great care had been taken to arrive at a proper conception of the characters which were taken by the following ladies as follows: Mrs. Nowell Mrs. Mearns Mrs. Thurman Mrs. Nickley Mrs. Lasater Mrs. Dolly Varden Mrs. Daniele Mrs. Stenberger Mrs. Barrell and boy Mrs. Sanze Mrs. Mandini Mrs. Kelling Edith Dunsmuir Mrs. Stenstrom Nancy Stokes Mrs. Welsh Rosa Mrs. Miller Mrs. Mary Martin Mrs. Burgess Miss Nuzer Mrs. Marion Dora Mrs. Washwoman Lavinia Russell Mrs. McFilling Mrs. Nell Fay Boy Harry Russell

INVITATION.—The following invitation has been received by Mr. Jaz West, inviting through him the Walla Walla Sportsman Club: "Your presence will give pleasure on the occasion of the first annual tournament held under the auspices of the California Sportsman's Association, on the handsome appointed and newly enclosed shooting grounds at Sacramento, California, on the 17th of July next. CHITTENDEN ROBINSON, President.

FOR SPENCER, go to Straights. Wolf-foot Oil can be had at your druggists. Wolf-foot Oil is a sure cure for Dysentery or Eczema. Wolf-foot Oil is a priceless jewel in your family. It speaks for itself. Wolf-foot Oil cures pain in from one to fifteen minutes, warranted. Wolf-foot Oil cures the crying baby. Mothers attention is called to the Wolf-foot Oil in cases of cramp, spasms or colic, that the little ones are subject to. 33 6m

Slaven's Cherry Tooth Paste. An aromatic combination for the preservation of the teeth and gums. It is far superior to any preparation of its kind in the market. In large handsome Orial jars, price 50 cents. For sale by H. E. Holmes.

THE HORSE OAK. How long clear master, O, how long? Will you continue to use the tree and force me to gnaw the bark of the trees when you can have me fed for two bits at Uncle Tom's stable on Third street, Walla Walla, W. T. 50-3m

FIERY FORKS. The Fire Boys Again to the Front and this Time to Save.

At about twenty minutes to eight on Friday morning, Washington's bell gave forth the alarm of danger. In an incredibly short space of time the different companies had reached the scene of conflagration which proved to be the property of G. Roberts on Sumach street between Second and Third, and occupied by Dr. S. A. Nichols. On arriving at the grounds Washington's found that the cistern was empty necessitating their return to the creek, and then upon feeling the hose it was found that it fell short about 100 feet. By this time the carriage No. 2 came up and then Washington's played with good effect through SIX HUNDRED FEET OF ROSE.

Meanwhile Tigers ran their heads down Third street, and from there sent a good stream on the house whose whole roof was enveloped in flames. Vigilant, as is their custom, were camping on the grounds when the boys came up with their heavier machines. But short work was made of the hungry flames after the boys had got down to their work. The fire originated near the chimney passed through the roof, and before it was discovered it had made considerable headway. Dr. Nichols managed to save all his furniture and fittings without sustaining much loss from breakage. Mr. Roberts' loss on the building will not exceed \$300. Building and furniture insured.

N. P. R. R. THROUGH IDAHO.—It is a matter of quiet interest to us in Walla Walla to know the progress of the Northern Pacific all along the line. The Lewiston Teller says: "H. M. McFILLIN.—I regard to the paragraph in Wednesday's Daily Enquirer, the whereabouts of Governor McFilling in the Governor of this Territory under the Buchanan administration we are informed by Delegate Beards that he was and talked with him several times during the extra session of the 46th Congress. About one year after Mr. Beards says he read an account in the papers of his being killed by a railroad accident near Petersburg, Virginia which was his adopted State.

A BASK SLENDER.—The Chicago Times says: "Emigration to Oregon is not active, for there no man is allowed to take a drink at a public bar without taking out a \$5 license, and the newspapers publish lists from time to time of the men who have obtained licenses. It is a painful offense for a saloon keeper to take a man unprovided with a license, and the saloon-keepers on Oregon, had the Times man known Harvey Scott and several other confirmed imbibers, he would never have published a \$5 license racket."

GRAND DISPLAY!! OF THE LATEST NOVELTIES IN DRESS GOODS, DRESS TRIMMINGS, FANCY GOODS. LATEST STYLES OF SPRING CLOTHING

SCHWABACHER BROS. THE ONLY HOUSE IN WALLA WALLA HAVING A RESIDENT BUYER IN NEW YORK. F. F. ADAMS, WHO IS NOW RECEIVING AN IMMENSE STOCK, DIRECT FROM FIRST HANDS. Costin, Philip Yemas, Lew Howell, Virgil Marx, Walker, Umalla Company. For sale by Wm. Jones, dealer in Farm Machinery, wagons, etc., corner Second and Alder streets, Walla Walla. 4-2

Slaven's California Fruit Salt. Is prepared from sound ripe California Fruit, by an experienced analytical chemist, who has spent years in experimenting on its preparation. It is made up by a special process known only to the proprietor. This preparation is a safe, simple and effective remedy for regulating the action of the stomach, liver and kidneys. It is particularly recommended for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Habitual Constipation, Nausea, Sea Sickness, Kidney and Gall Troubles, over-indulgence either in eating or drinking, etc. As a purifier of the blood in all venereal diseases, it has no equal. It removes all eruptions of the skin, and has a cooling and invigorating effect on the system. The Fruit Salt is entirely different from any other salt.

THE STANDARD BRED TROTTER STALLION, "ALWOOD!"

WILL SERVE TO A limited number of names best owners of the Season of 1881, at "Elect Season Stock Farm," on the Potlach, south of (old Hardman Ranch) 3 miles below Walla Walla. TERMS.—Single service, \$25, payable at time of service, or \$40 for the season. Service payable when mare is taken away. Special rates for insurance. ALWOOD is a rich bay, no white, 16 1/2 hands high, with all the cardinal points of a horse good; was bred and raised at Lexington, Kentucky, and is a son of that most fashionable sire of trotters, "The Great Almond." ALWOOD's dam was by "Blackwood," 2 1/2 dam by Alexander's "Abdalla," sire of "Goldsmith Maid," record, 2:18, and the great "Almond." Thus he is bred to Alexander's "Abdalla," also bred to "Mambrino Chief," sire of "Lady Thorn," record, 2:18, with an outcross to Alexander's "Norman," sire of "Lola," record, 2:18, and an outcross to "Fido," Jr., sire of the dam of the wonderful "Maid S," queen of the trotting turf, record, 2:10. No horse in America is better bred for a trotting sire. His color, coming yearling, are large and fine and are young trotting sires. He is standard under rule 6th, and as a "Bullfounder" in a matter of fact, he has sired colts of Alwood from dams by "Bullfounder" are also standard under rule 7, and eligible to registry in the Trotting Register as standard bred trotting stock. Those having mares by "Bullfounder," should not fail to patronize Alwood. Excellent pasture for mares and good fence. Not responsible for accidents or escapes. C. H. MACK, Proprietor. 17-3m

High-Bred Trotting Stallion ORIENT, PROPERTY OF J. S. HARRIMAN. Will be allowed to serve a few mares at \$30 the season. He is now in training at the Walla Walla Driving Park. DESCRIPTION AND PEDIGREE: ORIENT is a dark bay, 15 1/2 hands high, fine standing, sired by the lively horse Sultan M. Clay, Jr., by old General M. Clay, by Andrew Jackson, by young Bashaw, by Imperial Arabian Bashaw. 1st dam by Releye by the 2d dam by the 3d dam by the 4th dam by the 5th dam by the 6th dam by the 7th dam by the 8th dam by the 9th dam by the 10th dam by the 11th dam by the 12th dam by the 13th dam by the 14th dam by the 15th dam by the 16th dam by the 17th dam by the 18th dam by the 19th dam by the 20th dam by the 21st dam GUILTY.—The case of the Territory vs. two Chinamen for robbing the store of C. Davis is concluded. The jury found them guilty as charged.

ANNUAL INSPECTION.—Major Edwin C. Mason, 21st Infantry, Acting Assistant Inspector General of the Department, will proceed to and make the annual inspection of the post of Fort Walla Walla.

ASSESSING.—Mr. Jacobs, the County Assessor is now marking the roads. Unfortunately he fell into his tools. This is about the only period in the year when we don't like to have Mr. Jacobs call around to see us.

FOR WHAT USE?—Friend Hammond of the Pataha Spire, while in Walla Walla, made an agreement to publish an advertisement for a certain stated period in consideration of which he is to receive a brand new tomahawk.

"BALSAZZER."—The Artillery company have sent to San Francisco for the books necessary to produce "Balsazzar." It is the intention of this company to make this the greatest musical treat ever witnessed in Walla Walla.

PICNIC.—The Verien Eintracht propose giving a grand picnic in the near future, probably at Evans' grove a short distance above the city. A large crowd will surely attend as the Verien boys are a popular set of fellows. We wish them success.

THE BRIGHTEST.—The Kansas City Star says in reference to our synopses heads: "The alliterative ass of the STATESMAN is at it again." It is all right gentlemen, but we claim to be the brightest ass of the two. There is no question but that we can give more from the Evening Star without clipping due credit than you can from us.

GOVERNOR N.—The last President of the United States was R. B. Hayes, of Fremont, O. The present President of the United States is J. A. Garfield, of Mentor, O. We cannot tell you who the next President of the United States will be, as it is understood that the other towns in Ohio have not agreed upon a man.

EUREKA PLAT.—From the lower Eureka flat we learn that the fall and spring snow what is doing nicely. The land that was summer fallowed is covered with grain one foot high. It is thought that the average yield in that section will be from 39 to 40 bushels per acre. This is one of the richest sections in our country.

FACT.—A machine to invent plausible excuse for a man whose business detains him "down town" until midnight, and whose wife always salutes him upon his return home with the comment, "Where in the world have you been this time o'night?" would make the inventor richer than Vanderbilt in less than two years.

SMART.—A member of the legal fraternity from the Willamette Valley leaves himself open to correction, when, as was stated yesterday, he makes a sneering allusion to a respectable married lady who is unfortunately to be a witness in the District Court. We don't believe that any exhibition of "smartness" aids a case, and especially in this city, for we pride ourselves in having just as refined and as respectable society as any other in the Northwest.

EPISCOPAL REUNION.—Rev. E. Woods preached at the Episcopal Church last evening to a large congregation. Mr. Woods is the first minister ordained by Bishop Paddock. On Sunday next Bishop Paddock will preach morning and evening. It is possible that confirmation will be held on Sunday evening next. Bishop Tuttle will preach on Sunday the 22nd, morning and evening. Bishop Morris will preach here on Friday the 20th. Subject: "Relations of the Parish to its Bishop," by request. The committee of reception are making active arrangements to receive their Bishop.

A NEW LEGAL REUNION.—On Saturday, in the case of the People vs. Leo Chinamen, who were indicted for entering Chin Davis' store and stealing some goods, Mr. Upton wished to have one of the Chinamen who was put on the stand, questioned as to whether he understood the nature of an oath. Judge Wingard's ruling was to the effect, that under the new treaty, recently ratified, Chinese subjects were to be treated as those of the most favored nations. Hence the Court has no right to test them in relation to their religion.

DAYTON.—From the only Burk, or "Tom Burk of ours," as the case may be, informs us that Dayton is beginning to show up, and that business now is improving daily. We informed him that the railroad was doing that, whereupon he intimated that the railroad had nothing to do with it, and he added, "Hanged if I know when the railroad will get there." One word led on to another until a wager of \$10 was made. Burk being that the first locomotive would not reach Dayton on or before the Fourth of July 1881. So the matter stands. E. Kestler B. is out \$10.

CHINESE PLEASANTS.—The British ship Oatwood, lying at Greenwh dock, brings an immense hambo cage containing 90 beautiful pheasants sent by Judge O. N. Deeny consul at Shanghai, to be distributed in Oregon and Washington.—Oregonian. We suggest that the Walla Walla Rod & Gun Club immediately call a special meeting for the purpose of getting a few of these rare birds to be distributed in this valley. As the Gun Club are the only ones taking an interest in these matters it behooves them to act immediately before the birds are distributed through other sections. Gentlemen don't delay in the matter.

MARK'S SUIT.—The suit of Mr. Marks vs. the Columbia River Railroad Co., was brought up on Thursday afternoon. The prosecution was conducted by Messrs. Harper and Sharps, and the defense by Messrs. Bingham and Anders. The first witness was Mr. Marks. Several other witnesses were examined. The line of defense was gross carelessness on the part of the plaintiff. Some strong evidence and law was put forth by both sides. The judge's charge to the jury was very strong and on a jury allowed the jury in case they intend awarding damages to take into consideration the plaintiff's suffering. The jury after being out for two hours rendered a verdict for the defendant.

COMPLIMENTARY.—The Union says that "the senseless vapors of a paper in this city contributed more than all other things combined to prevent a happy termination of the difficulties." Thanks, Johnson, we didn't expect this compliment from you. No doubt the "happy termination" of your speak of means an undisputed right of way for the Flume company, acquired either justly or unjustly, which ever way would be more profitable to the principals and hirelings of the enterprise. If the STATESMAN had a sufficient power to influence people in such a case of principle we would have bowed down and out long ago. But, Johnson, probably you are aware that there is a great difference between fighting for principle and fighting for pay. The Hessians were good fighters and good fighters. They had "no influence." Sabot?

Around Town.

Sunday turned out beautiful. Park street is putting on airs, being graded, sidewalked, etc.

A great many people visited the Garrison yesterday afternoon in the picnic valley.

Rich street holds its own well as the Boulevard of Walla Walla.

Not a team or saddle horse could be had in the stables yesterday.

Judge Laman celebrated the Lord's day as well as the wedding.

Many of the young men of the city passed the day horseback riding.

Our people will miss the Garrison band during their visit to the picnic valley.

Dr. Day's drug store is being nicely fixed up and painted in the most elegant style.

Berries of all kinds and fruits generally promise a large yield this season.

John Stahl's brewery on Second street is all completed, and is the finest in the territory.

Quite a number of Walla Walla's prominent ladies have volunteered to take part in "Balsazzar."

Rev. Jim Swensen is building a large two-story frame dwelling house on his property on Second street.

It is a pity a railroad should run down Rose street. It promises to be the finest street in the city after the grading.

Father Brulle left for Vancouver last evening, and Father Paup leaves for the same place by this evening's train.

The Artillery and Guards were out to target practice yesterday. As the Artillery boys were returning they went through the school of the company.

A Reeves Ayles is getting well along with the leveling up of his large piece of land at the south end of Park street preparatory to subdividing in lots.

The potatoes and other vegetables touched by the frost lately has taken a new start and is doing well in the fine weather that we are now blessed with.

District school No. 1 has been putting on frills by having a nicely painted net pocket fence placed around it. It adds much to the appearance of the property.

The grading of Rose street is progressing well under the efficient management of Mark F. Colt, and when finished Rose street will be one of the prettiest in the city.

Pay day for the men who have been working on the flume today. As a general rule now that their work is accomplished the O. I. Co. will employ them elsewhere.

Mrs. Clara, at the camp on Blalock's mountain, was badly injured by a horse falling upon her. Dr. Swan has been sent for and forthwith proceeded to see her.

The upper end of east Main street in the vicinity of Dorell's house, is a credit to Walla Walla, with the comfortable cottages and grounds of Capt. Andrews and Mr. Beardsley just finished.

The brick work for the basement of Charlie Boyer's fine residence on the corner of Catherine and Dr. Newell streets, is completed and is now being finished with lumber. It will be a nice place when finished.

In ten years from date Walla Walla will be an excellent place for heavy and comfortable homes. See the case of L. L. Boulton left to his son Paul Boulton and his family.

He has built a little cottage on Rose street for his family who will be here on Wednesday's train. The numerous friends of Mrs. and Miss Boulton will welcome them back. The Professor has a nice little income from his property and is a live man.

Library and Lyceum Association Meeting.

The annual meeting of the Walla Walla Lyceum and Library Association was held at the Library Rooms, May 8th, 1881, pursuant to a call of the President.

Dr. J. E. Bingham, president of the Association, called the meeting to order.

To assist a. R. L. Sharps, made a report of the moneys received and paid out during the year. Showing cash on hand \$18 88. On motion report of Treasurer adopted and approved.

There being a quorum 178 at the meeting, the following were elected members to the Association.

On motion P. B. MacKinnon, E. H. Morrison and Miss Mary E. Morrison were elected members of the Association.

The members then proceeded to elect officers for the ensuing year.

H. M. Chase was nominated for President and on suspension of the rules was declared elected by an unanimous vote.

P. B. MacKinnon was nominated and elected Vice President.

J. D. Dix was nominated and elected Secretary.

B. L. Sharps was nominated and elected Treasurer.

Miss Magie Welsh was re-elected as Librarian.

The Secretary was directed to have the articles of incorporation of the Association filed in the office of the Secretary of the Territory.

The Association also resolved that the salary of the Librarian be increased to \$15 per month.

On motion the meeting adjourned.

A VISIT TO THE TRACK.—On arriving at the Driving Park, the first thing we noticed was the unusual good condition of the track.

Mr. Collins has paid much attention to this and by the time the horses have been making over it we may expect good lively heats in the three days' tournament in June next.

We saw "Dexter" speared at a rather rapid cut, now that his able driver has broken him from "hitching" and trots on the square we hope to see the rapid trio come together at the park, namely: "Dexter," with a record of 2:23, "Milton Medium," with a record of 2:31, and "Belt Foster," with 2:33.

Whenever these three horses do come together, which we hope will be soon, there will be hung out on the blackboard at the Walla Walla Driving Park two or three of the fastest heats ever run in Oregon or Washington territory. All of the horses are working nicely and looking well, "Travel Dollar" among the rest. Mr. Collins says he will commence to sprinkle the track next week and continue to do so until the June meetings. Our lovers of the sport can expect one of the most successful races ever held at that track in June next.

GUIDE BOARD.—A law of the Territory requires Road Supervisors to "erect and keep up in the forks of every highway and every cross-gate of public roads within his road district, a guide or finger board containing an inscription in legible letters directing the way and specifying the distance to the next town or public place situated on each road, respectively." The penalty for neglect to perform the duty is from \$5 to \$50.

We have seen very few guide or finger boards in Walla Walla county. There are so many cross roads now that strangers are liable to lose their way in moving from one point to another, and the County Commissioners should require Supervisors to comply with the law.

A WELCOME VISITOR.—Mrs. Bailey Gatzert, sister of Mr. Sig. Schwabacher is at present visiting this city, having arrived from Seattle on a recent train. We trust that she will be pleased with her visit for when strangers visit her home over on the Sound she does everything in her power to make their visit pleasant and agreeable. The doors of her beautiful home are thrown open with generous hospitality and particular pains taken to give her guests a favorable opinion of the citizens of the city.

BRIDAL TURE.—We learned from a passenger on the down train last night, says the Standard, that an old gentleman named Conner, of Jefferson, with a \$40,000 named Humphrey, from Eugene City, whom he had just married and whom he was taking on a bridal trip to Walla Walla, crest d tons of amusement for the travelers by a demonstrative affection and tender solicitude. "Uncle Jake and Aunt Liz" are now visiting friends near this city.

DANGEROUSLY HEET.—Mrs. Clay, who was dangerously hurt at Blalock's camp, it is feared is fatally injured. It appears that the horse upon which Mrs. Clay rode slipped his footing and began rolling down an embankment a distance of 40 feet. At the time of the accident Mrs. Clay had her child in her arms but fortunately, as if by miracle, it was not in the least injured. Dr. Swan and Blalock are attending on the sufferer.

BUY YOUR GOODS, AT Dusenbery BRO'S. BEDROCK PRICES EVERYTHING
