**Vigilance Committee Notice Reviewed.**  
WALLA WALLA, June 21, 1866.  
No. STATESMAN—Your paper has, to my knowledge, very respectable circulation in the State of Iowa and in the northern part of Missouri. In addition thereto, many friends here send copies to persons in each of those States and elsewhere to persons who are induced thereby to immigrate to our valley. I have now in my mind the names of a number of persons from the States, respected citizens of this valley, who have been induced to come here solely from a perusal of the facts and local items published in the STATESMAN. My object in writing this communication is to enquire whether (your paper being an acknowledged advocate of the interests of this valley) the publication of such articles as the notice of last week, entitled "Vigilance Committee Notice," has a tendency to make this valley their place of destination on leaving the States or elsewhere. A person reading that notice would naturally suppose that we had in this country no courts or officers of justice, and that we were dependent upon an association of individuals composed of all classes of men, for the protection of our lives and property; and who, I would ask, would willingly risk his life and property to the arbitration of men who meet at the hour of midnight, and upon the unsworn testimony of one or more individuals assailing the character of a citizen—perhaps in one or two cases which I might mention—acted by the desire to get rid of the persons whom they are testifying against, in order that they might jump his land claim, and have the fearful question as to whether he should live, or be torn from his family and dragged to death, determined by a bare majority vote, the witness, or rather, informer, himself, contrary to all usages of judicial tribunals, voting against the accused, and the many instances that the so-styled vigilance committee made—one or more of them causing the death of innocent persons—and the return of Judge Wyche to his labors that the organization would be disbanded, and if those persons really desired the punishment of criminals, that they would make themselves efficient by appearing before the grand jury, and securing indictments, and holding themselves, as law-abiding citizens, in readiness to act as petit jurors, to try such criminals, and see, if guilty, that they did not escape punishment. But it appears that there is to be a continuation of the atrocities of last summer, without the excuse of want of courts, and it is for the law-abiding citizens of this country, to say whether they will tolerate the continuance of an organization in the midst, which has a tendency to prevent the settlement of our valley, and the introduction of capital to develop its resources.

There is no difference whatever in the treason that seeks to overthrow a government, and that which tempts the laws of a commonwealth to defiance. John Brown attempted to set at naught the laws of Virginia, and a Virginia jury said he was guilty of treason, and his life paid the penalty. Jefferson Davis undertook to set at defiance the laws of the United States, and the civilized world has pronounced him a traitor worthy of death. The vigilance committee of Walla Walla County, under the leadership of one who perhaps as richly merits the same fate, are now tampering with the law, guarding and attempting to overthrow the laws of Washington Territory and of the United States, and are as guilty of treason as was either John Brown or Jefferson Davis, though, of course, their treason does not go to the same extent; but the principle is the same. It is the duty of the Prosecuting Attorney to prevent every person assisting in forming unlawful combinations, and it remains to be seen whether he will perform his duty, and thus by the conviction of the leaders of the movement, free our country from the stain of a standing vigilance organization—a county subjected to the expense of three terms of court a year, and presided over by a Judge of eminent ability, and well known to be unfriendly to the perpetrators of crime. I hope, Mr. Editor, that your columns will not, hereafter, be disgraced by any more notices of vigilance committees, and that the person who penned that notice will be held to answer before the next term of our District Court.

**LAW-ABIDING CITIZENS.**  
**INDIAN THEFTS AND MURDER IN FLINT.**—It harrows our feelings to madness to be obliged from week to week to fill our columns with fresh Indian atrocities. Early on Tuesday morning, Flint District was visited by these hell-hounds. The result of their raid was the stealing of twenty-five horses and some other stock and a number of saddles and bridles, and the murder of C. G. Gasset, Miller & Overmier, of the Oregon Stable, lost six animals and the saddles and blankets. O. R. Johnson lost one and others whom we do not know, the remainder. The circumstances of the murder are briefly these: Mr. Gasset was alone in his tent about one-half mile or more below Ore. The savages crept through the willows and attacked him with a long handled steel shovel, cut his head, shoulders, arms and body in a sucking manner, and afterwards cut his head and neck almost in several parts with an axe. To finish up, he was shot through the body and left a-maze—the muzzle of the gun burning his shirt into cinder near the entrance of the tent. Every circumstance connected with the murder of the body to this conclusion. Being attacked with a shovel, he would naturally throw up his arms to ward off the blows, and the flesh was cut downwards in strips four to six inches long on his arms, his head and shoulders also bearing evidence of this method. The shovel was found lying double from the blows. In the death struggle, he was outside of the tent, and was found still bleeding after daylight. Nothing but the most damnable and brutal beings could murder a man by literally cutting him into strings—as in this case. He was buried on Tuesday near the place of his death. At 7 o'clock, A. M., of the same day, fifteen men started in pursuit of the devils, followed them twenty miles, and, believing they could not overtake them before reaching the main body, returned. They estimate the number of Indians at twenty. They found where an ox had been freshly butchered and mostly eaten and removed.

A party at work in South Mountain—fifteen miles distant—being a timber lot for Mr. Brown were fired into the same night. They escaped unhurt and have abandoned the work. The attacking party were undoubtedly the Flint raiders, as a straight trail from the Ore. to the Owyhee would lead that way. There can be little doubt but a dire war is opened by the Indians.

This is a heavy blow against the prosperity of Flint. Families of women and children as well as citizens are in a state of feverish alarm. If speedy protection is not given, the district will be depopulated—either by removals or the ruthless savage.—Owyhee Avalanche.

A POLYGLOT.—Caleb Cushing, at a recent dinner at the Marquis de Menthon's, addressed the French Minister in elegant French, the Spanish Minister in Castilian, the representative of Denmark in Danish, of Holland in Dutch, of Victor Emanuel in Italian, and it is believed he could have talked Chinese with the representative of the Brother of the Sun and Moon, had there been one present.

**Degeneracy of Public Morals.**  
Modern girls' "education" having been completed for girls, now, by dotting mothers who admire "accomplishments" which they think queer, but accept as the fashions of the "best society," the next thing is to "get into" this wonderful "good society." To do this, Yankee ingenuity has devised living in city hotels in winter, and at watering places in summer. Perhaps the kind mother would urge their daughters to observe carefully, and copy the manners of the "fine ladies" they see. Perhaps the daughters exert their tact in doing it themselves. A lady friend from the country came to town last week, and told a near friend of ours that she had tried to get a corset made, but was told that it could not be done under two weeks, because all hands in the large establishments she visited were engaged in making false calves for "ladies" who were the titling fools!

What are we exhibiting, from Church women walking with tilting skirts from where they had been pretending to say their prayers; and on all the corners, and hotel-fronts, we saw rows of well-dressed blackguards standing about and laughing and commenting on what these women were exhibiting.

Out on this indecency that would disgrace honest Pagans! Let every modest woman who has been tricked into getting these traps of the harlot as the latest "fashion," pull them off and burn them! Let every parent see to it that his guiltless daughter is not disgraced by "following this fashion." Let masters of households do the charity to a servant-maid that has kept up with the "fashion," to provide her with such an art modest, and forbid her, while in his house, to play the airs of a wanton!

Why, even in Pagan times, when the men abandoned themselves to the most vile practices, they tried to keep their women uncorrupted, and if we are coming to? Is it not here a question of Republicanism or Imperialism? It is not a question of free government or despotism. It is a question of the existence of families and of society. By the memories of our virtuous mothers, by our love for our wives and daughters, let us stop these public outrages, and put under the surveillance of the police impudic women.

Let us make a remark on the latest outrage and indecency of "fashion." A few weeks ago, on a muddy day, we saw walking, some ways before us, a pitiable object. In the distance, it resembled a poor German peasant woman, with her short petticoat coming below the knee. There is nothing immodest in that peasant dress. The German peasant walks with her ankles exposed, but there is no illusory pretence of covering them. The poor creature, we saw, was dressed in such a way that she seemed to be carrying various gawdaw dresses for different people. She seemed to be the humble errand-girl of some dress-maker's establishment.

On passing the unhappy creature, we noticed that she was walking with the idea that the dresses hanging around her, and in public parlance, and at hotel tables, and in the streets, are letting the fashion of dress and behavior for the daughters of this people. It seems it is enough to say it is the "fashion" to make it a plea for following it.

One of the latest fashions has been to have dancing soirees at domestic in a wretched street, and to give us a "ball" in a room that no parents or guardians are to be admitted. We did not believe the statement when it was first made in some of our city papers. But we have it now on good authority that it is true, and that, this past winter, fathers and mothers have permitted their daughters to go to those soirees with young men, and to dance in the same room with them at three or four o'clock in the morning. Just put it in plain language: young girls in this city do not find it a bit on their characters to go with young men, unaccompanied by their parents, to a public tavern, to dance and eat and drink with them, and to come home with an untroubled daylight!

There are not the least in the world who are called "the better classes" of society, there has been a prodigious falling off of marriages. The marvel is, among any classes of society that do not draw sharp lines of non-intercourse with this whole world of indecencies and with all that goes along with it, that so few of the "better classes" are not surprised that the number of divorces should exceed the number of marriages.—N. Y. Freeman's Journal.

**THE OVERLAND TRAVEL.**—Holladay's overland stage and express line from the Missouri river to Salt Lake, and up to Montana and Idaho have been consolidated with the Butterfield opposition, and the whole put into a grand joint stock company. Nearly two million dollars were paid Holladay for his interest; but he retains for the present a majority of the stock. The company bears the name of "The Overland Express Company," and Mr. Holladay is President. Daily stages will be run from the termini of the several branches of the Pacific railroad out from the Missouri river, as they progress westward, meeting at a common point near Fort Kearney, where the railroads themselves are to meet, and where they will be the grand station of the line, and from there westward over the Plains to Denver will be run two lines of stages daily, and more, indeed, if necessary, to accommodate the large and increasing travel. The stations on the line have been put in fine condition, the stock increased and improved, the Indians are likely to behave well this season, and the trip by stage to Colorado will henceforth be a quick, safe, inspiring and delightful journey. Besides the great flow of travel for business purposes to Colorado and beyond to Montana and Idaho, there is likely to grow up this summer a large pleasure travel to the Rocky Mountains; and another season, when the route opens to Salt Lake by the Berthoud Pass and the Middle Pass is finished and put in good order, this will be stimulated, by the facilities of the route, and the enthusiasm of those who have gone over it heretofore, or shall go this year, to a degree almost incalculable, and very useful to our national interests. Henceforth, "Across the Continent" will divide fascinations with "Across the Ocean," for the sight-seers and health seekers of the Atlantic States.—Springfield Republican.

**APPROPS OF THE LIQUOR-ABOLISHING AT THE CAPITOL.**—Honest John Covode used to make his boasts that he could at any time break up a quorum in the House by passing word among the members that he had some nice "Overhold" on tap in the Committee Room.

**SLAKE RIVER CATARACTS.**  
About two hundred miles up Snake River from a point opposite Boise City are two falls in the river, neither of which are unquestionably the greatest wonders in nature on the American Continent. They are about four miles apart—the upper being one hundred and sixty-seven, and the lower two hundred and thirty feet—making an aggregate fall of near four hundred feet. The magnitude of these falls entitle them to actual visits by special artists and correspondents. The latter profess to have done so and attempted to describe the great wonders accordingly. "A. D. R., of the New York Tribune and Goldrick of Vedette, are two who have, humbugged their readers in this way. The former says he visited the falls, and the latter dexterously conveys the impression that he did visit them, though credits Edward Colman with whatever of interest his sketch contains. "A. D. R." undoubtedly got out of Kato Lyon and Lyon from some one else. Neither he nor Goldrick are anywhere near correct, and millions of readers—by other papers copying their articles—will be imposed upon. We have never visited the scene in question but have positive and convincing evidence made as incorrect in essential particulars. It is Niagara, say, in comparing these with the Niagara, says: "The volume of water is more than one-fourth as large, for its crested summit is only 800 feet in width; but the descent (200 feet) is one-third greater." He makes no mention of another fall nearly equal—and this we will undertake to deliver to the world, says: "Through this gap the confined mass of water precipitates itself in one ominous abyss, about three hundred feet in depth." He also ignores the existence of the upper or real "Shoshone Falls." The lower and greater are chiselled into the great falls. That the readers of the Statesman may see a plain and true account of these truly great wonders, we give the following extract from a private letter to H. M. Swinford of Idaho City, written by E. N. Sanford, (and published in No. 8 of the Boise News—a file of which we have before us), who purposely made the trip in '64 to examine the falls, and went prepared with means of measurement:—

"We measured the distance that the whole volume of water falls in one sheet, and found it two hundred and three feet. Then above, I would judge it to be about twenty-five to thirty feet fall before it reaches the grand fall. The width of the grand fall I should judge to be about 2,500 feet. I have visited Niagara many times, and this fall surpasses it far. Four miles further above we found another set of less note, where the water divides in two parts and falls a distance of one hundred and sixty-seven feet." Frank Almon, now in Owyhee, made a personal inspection of them in '63. He was then attached to Capt. Drake's Oregon Volunteers, and communicated his observations to the Walla Walla Statesman. (See Boise News of the 5th inst.) In doing so, Mr. Sanford's report. The soldiers of the names of some of Capt. Crawford's Emigrant Escort on a piece of paper sticking in the rocks at the upper or Shoshone Falls—the authors having been there in '62. Around the lower or Great Falls there were no traces of a visit by any human being previous to that of the Oregon Statesman. (See Boise News of the 5th inst.)

"I have seen the falls, and I have seen the falls 2000 years previous while in the employ of the Hudson's Bay Co. These falls are not noted on any map."

Very rarely we noted the unreliability of the statements of our observations.—Owyhee Avalanche.

**The Plight of a Freedman.**  
The following unvarnished story, says the Ohio Eagle, was brought to the Richmond Dispatch, office, by an aged and polite colored man, who had evidently seen better days, and who had enjoyed the comforts and kindly treatment of life among very good Virginia people. No man who knows anything of the character of that kind of human existence will for a moment doubt the old man's story. He speaks but of the experience of thousands.

"What is freedom?—I have been free nearly nine months, and was off now, but I ever was for the vacation. During the fedecy, I use to hear the niggers always talking about freedom, saying Lincoln would free us if the fedecy went up. I prayed for that day to come, cause I was told that we should have all we wanted; dat de yankees would bring us money, and give us land, and make us free, and give us white rags, and told me dat we would not have to work less we chose, and said we niggers would be better-off. When I heard de yankees had cum, I said well, it is possible dat de yankees has got Richmond and Petersburg; so I went in de great house and axed miss, if de yankees had wiped, and you give us land, and make us free, and give us white rags, and told me dat we would not have to work less we chose, and said we niggers would be better-off. HOME PRODUCTIONS.

Less than a score of years since the whole country east of the Cascades was practically unproductive. The food that was then consumed, even the oats and barley required for the Government animals, was imported from abroad.

We notice that Sheriff Neel offers \$500 reward for the arrest of the two prisoners who were let out of the county jail a few nights since.

TO BE ABANDONED.—We learn that orders have been issued directing the withdrawal of the Government troops from Fort Lowell.

A WOOLEN MILL.—It may interest our readers to know that parties having the necessary capital are taking the preliminary measures toward the establishment of a woolen mill at Walla Walla.

FOR LIFE.—Lewis, the man who was arrested in the neighborhood of Walla Walla, last winter, on the charge of killing his partner, and removed to Grant county, Oregon, for trial, has been convicted of murder in the second degree and sentenced to imprisonment for life.

STRAUSE.—Printing paper is now higher in price than at any time during the war.

THE FOURTH OF JULY.

Before another publication day rolls around we will have passed the portals of four score years and ten of our National Independence.

Five years of bloody strife has swept over our fair land and has made desolate many fields—demolished many old homesteads—and made many widows and orphans.

After eighty-five years of unexampled prosperity and happiness, and five years of unprecedented disaster, disruption and anarchy, cannot we, the survivors, gather round the old family altar on this natal day and exclaim the bonds of Union?

With the multitude of objects of charity and benevolence that surround us on all sides, why pick out the negro and make him the exclusive object of our benefactions? Instead of this, let us treat all the objects of charity alike, and with the same liberal hand.

Committees have been dodging about here and there with paper and pencil in hand, soliciting from the trader a portion of his day's profits, or stopping on the street the unvarying Farmer, with a polite salutation, and the question: how many chickens, \$7 or, give us a pig, a calf, or a sheep—pigs, calves, or anything good.

But, Mr. Editor, there is to be a profession of good things, and I advise every body to fast three days before the time, so as to have a grand feast on independent principles.

SUSPENDED.—The publication of the Daily Mountaineer has been suspended. Hereafter the paper will be published weekly.

A WET SEASON.—The rains that have characterized the season thus far, will continue.

With occasional clear, sunshiny days, we have rainy nights. These continuous rains seem to have spread over an immense extent of country. From our Salt Lake exchanges, we learn that the "main," since their settlement in that country, have never before experienced so much rainy weather in the Spring and Summer.

No FIRE DEPARTMENT.—We learn that the City Council Board, which have had in contemplation for some time past a bill for the organization of a fire company, at their last meeting quashed the whole thing.

THE DAY WE CELEBRATE.—EDITOR STATESMAN.—In this time of general business depression, our City is set in motion by a goodly portion of our worthy citizens, in making extensive preparations for the celebration of the approaching anniversary of our National Independence.

HOOROOK FOR CONGRESS.—We learn from the Idaho World, of June 23d, that the Democratic Territorial Convention, held at Boise City, 1. T. June 18th, nominated the Hon. E. D. Hoobrook for Delegate to Congress.

FOURTH OF JULY BALL.—Persons who propose to enjoy themselves on the Fourth should not fail to include in their arrangements a ticket to the Independence Ball.

LETTERS.—The publication of the Daily Mountaineer has been suspended. Hereafter the paper will be published weekly.

Letter From Farmer.

ED. STATESMAN.—Dropping the subject of Pork and Beans for a while, I will take up the request of the County Commissioners, for the people of Walla Walla to meet and organize an Agricultural Society.

And there is still another thing, that if the merchants only knew, they might do and still increase their own profits largely in the course of a year or two.

AGRICULTURAL LITERATURE AND AGRICULTURAL SOCIETIES are the same in regard to producing a healthy state of prosperity in a farming country.

PORTLAND MARKETS.—The Herald of June 24th, has the following quotations: Wheat, new, milling, per bushel 95c @ \$1; oats, per bushel, 75c to 70c; corn meal, per 100 lbs, \$2 00; flour, ordinary brand, \$3 00 @ \$2 25.

A PAYING BUSINESS.—The Trustees of Plymouth Church have increased the salary of their pastor, Henry Ward Beecher, to \$25,000 per annum.

A BAD EGG.—In every county in Oregon, with the exception of Benton, George L. Woods, the union candidate for Governor, ran behind his ticket.

VALUABLE.—A blood purifier Hall's Sarsaparilla, Yellow Dock and Iodide Potass has no equal. Sold by all druggists everywhere.

MARRIED.—On the 12th June, at the residence of Mr. Commins, Lower Tulehot, by Rev. H. Spaulding, Mr. JOHN ROGERS to Miss ANNETTE WILSON.

BIRTH.—On the 18th June, the wife of Wm. Rexford, of a son.

LOST.—On June 26th, 1866, in going from W. H. to the miller's house, on Birch Creek, to John & PROMISSORY NOTE, on Wm. H. Whites, calling for \$100, payable to A. Frank & Co., per order, at thirty days from Dec. 24th, 1865.

WALLA WALLA VALLEY.—Solah Smith, the intelligent and truthful correspondent of the San Francisco Examiner, is disposed to speak fairly of the resources and prospects of our Valley.

Land Surveys in Walla Walla County.

MEERS, LAMETER & LANGFORD, Walla Walla, W. T.—Gentlemen:—Your favor of the 12th inst. enclosing petition signed by sundry citizens of Walla Walla County, residing upon lands surveyed by U. S. Deputy Surveyor D. C. Major, and setting forth some of the difficulties and inconveniences to which the petitioners are subjected by reason of the errors and inaccuracies made in the survey by the said Deputy Surveyor, is duly at hand.

I will take pleasure in forwarding to the Commissioner of the General Land Office, your petition as further evidence of the great annoyances and delays to which the settlers in that region are subjected, together with such recommendations as may be deemed proper and advantageous in hastening the adjustment of those surveys.

1776. 1866. PROGRAMME.

ORDER OF EXERCISES, FOR THE CELEBRATION OF THE Ninetieth Anniversary of American Independence.

AT WALLA WALLA, W. T. The citizens of Walla Walla and the surrounding country are invited to assemble on WEDNESDAY MORNING, July 4th, at 11 o'clock precisely, near the Public School House, and form into

LINE OF PROCESSION, under the direction of James McAniff, Esq., Marshal of the Day.

Order of Procession. The Procession will form in the following order: MUSICIANS.

- List of participants in the procession including W. P. Horton, J. K. Yoder, J. D. Cook, J. W. McKeen, B. Shelden, O. P. Lucy, D. S. Baker, and others.

Route of Procession. The procession will move in the above order through Main street to the Methodist Church, through Alder street to Central Grove, on A. N. Roberts' land, where ample arrangements will be made to accommodate two thousand people.

Order of Exercises. Opening Address by the President, J. W. McKeen, Pastor of the Church, Rev. Mr. Dearborn, M. S. C.

After the above Exercises the audience will adjourn to a sumptuous dinner. Gentlemen, Ladies, and Children in the whole country are cordially invited to unite in the coming Celebration and Festivities of the day.

FIRE-WORKS. A splendid display of Fire-Works will take place in the evening; the time and place will be published hereafter.

1776 {Fourth of July} 1866 GRAND ANNIVERSARY BALL!

WEDNESDAY EVENING, July 4th, 1866. M. HARTMAN respectfully announces that he has procured the use of Mr. A. Kiger's large Warehouse, for the purpose of giving a GRAND BALL!

WEDNESDAY EVENING, JULY 4, 1866. The best Music has been engaged, and no pains will be spared to make this the best Ball of the season.

FIRE WORKS! H. WOLFSTEIN & BRO., next door to Walla, Fargo & Co.'s office, have just received a large assortment of FIRE WORKS!

THE FOURTH OF JULY! All and every one wishing to celebrate the coming Fourth of July, the Ninetieth Anniversary of American Independence, can procure FIRE WORKS of the following description: ROMAN CANDLES, 9 & 4 stars; ROCKETS, M. & L. B.; COLUMBIANS; CONSTITUTIONS; PIN WHEELS; TRIANGULAR WHEELS; VOLCANOS; TORPEDOS; FIRE CRACKERS (large and small).

ST. VINCENT'S ACADEMY. THE ANNUAL EXHIBITION of the Pupils of St. Vincent's Academy will take place on MONDAY, July 2d, at 10 o'clock, a. m., and the Representatives of the Ladies and Gentlemen of this county, at 7 o'clock, p. m. Parents and those interested in the education of youth are invited to be present.

LOST BOOK. THE PERSON who borrowed a BOOK-DOWN-ING ON ARCHITECTURE—from the subscriber, will please return it.

Walla Walla, May 31, 1866.

Money Market. San Francisco Legal Tender rates. New York Gold Quotations.

CONCERT.—A concert of vocal and instrumental music was given at Cain's Building, on Thursday night last, which was numerously attended and proved a pleasant affair.

SPRING STREETS.—During the hot months of summer the residents on the various streets should procure the services of a scavenger to remove the filth and offal that necessarily accumulates.

DOWN.—A little boy, son of Mr. W. P. Chesler, and some three years old, was drowned in the Walla Walla river, June 23d, under the following circumstances: Mr. Chesler had just crossed the river with his wagon, and was driving slowly along, when he heard a child behind him give a violent scream.

WHITMAN SEMINARY.—We learn that subscriptions in aid of the Whitman Seminary fund are flowing in quite freely, and that with the amount already on hand and the money promised, the Trustees—Messrs. McKee, Campbell and Bayor—feel justified in commencing building operations.

ESCAPE OF PRISONERS FROM THE COUNTY JAIL.—This week we have the unpleasant duty of recording the escape of two prisoners from the jail, namely: Lewis Allerton (sentenced for one year for highway robbery) and Thomas Donahue, (who was to have had a second trial in July for the killing of Peril Patterson—the jury, as is well known, not agreeing at the former hearing of the case.)

The people begin to ask, is Congress only a permanent caucus? Does it sit to legislate for the benefit of the country? It is true that our national legislators should take account of the state of public opinion, and that they should give due consideration to the effect of public measures upon the interests of their party, for if they are honest men they believe that the welfare of the country will be promoted by the continued ascendancy of their party.

A Monitor.—Quite a sensation was produced in the harbor this morning by the arrival of the U. S. naval steamer Vanderbilt, which is to be the flag ship of the Pacific squadron, accompanied by the double-turreted monitor Monadnock.

GENERAL GRANT'S BIDS.—That all our white volunteers are anxious to be mustered, and that the blacks are willing to discharge them. Will it be believed that the Tribune actually finds in this fact an argument to prove the superiority of the black over the white race!

FACTS IN BRIEF.—Out of every thousand men, twenty die annually. The number of inhabitants of a city or country is renewed every thirty years. The number of old men who die in cold weather is to the number of those who die in warm weather, as seven to four.

Wagon Work. We have also greatly reduced our prices of Wagon Work. Having been to the expense of putting up machinery, we will do it for less money than any other shop this side of Portland.

FOR MONTANA. THE STEAMER MARY MOODY. Will leave her Landing, on PEN DOREILLE LAKE, DAILY, (Sundays excepted), for CABINET RAPIDS.

Walla Walla Statesman.

A FABLE IN STAMPS.

"Now put your nags upon their speed, And let them dust the mail-road; We have no time we do not need, To get 'em to the railroad. Spare lash, nor goadings, nor halloo— 'Whate'er may make the pair go!'"

A DISINFECTANT.

A contemporary urges the use of chloride of lime freely as a disinfecting agent, and the thorough renovation of all cellars, garrets, sink-holes and out-houses. A writer in an English paper says: "Some years ago I read in a French scientific periodical that chloride of lime would rid the house of vermin."

THE LAST PROPHECY.

A book which has just appeared in London, under the title of "Louis Napoleon, the destined Monarch of the world," etc., by Rev. M. Baxter, author of "The coming battle."

HOW TO EXTRACT A NEEDLE.

Dr. W. Porter, of Goddard, recently extracted a needle which had been for nearly four weeks deeply imbedded in the muscles of the hip of a child two years of age, by passing the positive pole of a horseshoe magnet, highly charged, over one extremity of the needle.

BRIDGE OVER SNAKE RIVER.

The Montana Democrat says: the Eagle Rock Bridge over Snake River is now completed and wagons are crossing regularly. This is said to be one of the most important improvements on the road from Salt Lake to Montana.

SILK.

The city of Lyons consumes annually 2,000,000 pounds of spun silk. Four cocoons and a fraction are necessary to produce a gramme (the five hundredth part of a pound); consequently the consumption of Lyons alone requires 4,200,000,000 cocoons.

EXTERMINATION OF THE NEGRO RACE.

If Thad. Stevens, says the Memphis Bulletin, was furnished with an accurate map of the negro graveyards around this city; of those at Helena; if corpses from the pest house, which pave the bottom of the Mississippi, and the disfigured ghastly victims of loathsome diseases everywhere encountered, were carted into the House of Representatives, radicalism would confess that the term is properly applied.

A prominent bachelor politician remarked to a lady that soapstone was excellent to keep the feet warm in bed.

"Yes," said the young lady, who had been an attentive listener, "but some gentlemen have an improvement on that which you know nothing about." The bachelor turned pale, and maintained a wistful silence.

Fruits of the War.

The country is reaping the benefits of the protracted civil war. The land is desolate with hideous outrages. For this the authors of the rebellion are responsible. All this was foretold. It was known that at the close of the great struggle many thousands of soldiers, on being released, would have no ready resources for gaining a livelihood, and having their vicious propensities encouraged by the experiences through which they had passed, would, in all probability, resort to desperate measures.

ESSENTIALS TO SUCCESS IN FARMING.

Luther H. Tucker of the Country Gentleman, and Professor of Agriculture in the New Jersey Scientific School, in a recent lecture on the subject of agricultural education, stated that an advanced condition of agriculture requires four essentials—two of them in the man and two of them in the circumstances under which he is placed. They are: 1. Energy; 2. Intelligence; 3. Good markets; 4. Capital, Energy, perseverance, and determination are among the primary requisites of successful agriculture.

TRAINING HEIFERS.

If you want a heifer or young cow to break in kindly to the milking process, make friends with her at the outset. Be soothing and gentle with her. If she is skittish, fretful or uneasy, the milk should be patient and cool. Refrain if possible, an application of the milking stool. It may make her stand shivering in her place, but the milk will be rendered grudgingly and greatly in diminished quantity.

WORSE AND WORSE.

We hear from Paris that gambling is not only more fashionable than ever there, but that it is becoming an ungovernable rage. Cheating follows, as a matter of course. Recently a Creole of high family was expelled the clubs for this crime. He had been fortunate enough to win several hundred thousand francs. He was kicked out sans ceremony. The morals of the French Metropolis seem to decline more and more every day.

SINKS AND outhouses will, in hot weather become foul, it is almost impossible to prevent it, unless some chemical preparation is used.

SAM BRANNAN was recently egged at Napa. He had a fight with Bill Fisher, stage-driver at Calistoga, and broke a decanter over his head, and when he passed Napa, enroute to San Francisco, Fisher's friends attacked him with eggs, and lacerated him from head to foot.

DR. HOSTETTER'S STOMACH BITTERS.

Wherever there is dyspepsia, they are in demand. Nor is it for indigestion alone that they are a specific. Every disorder of the stomach, the liver, the bowels, and the nervous system, seems to yield to their influence. They are an antidote to pain; they refresh and re-inforce the exhausted animal powers; they counteract the morbid principles of disease; they regulate the whole vital machinery, and may be justly termed the strongest ally that science has ever brought to the aid of nature in her struggle with sickness.—Sold by all Druggists and Dealers everywhere, and by HODGE, CALLEY & CO., Agents, Portland, Oregon.

The Remedy for Curing

Consumption, Coughs, Colds, Asthma,

CROUP,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPERTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGING SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that IT IS WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN FEW HOURS TIME, if not of too long standing. IT IS WARRANTED TO GIVE ENTIRE SATISFACTION IN THE MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT TO PRODUCE CONSTIPATION (which is the case with most remedies or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price \$1 per bottle.
