A MEMORABLE INTERVIEW.—One of the most memorable and important interviews which ever took place between two individuals in this world, was held on a raft in the middle of the river Nieman, at the little town of Tilsit, in Prussia.

THE VIRTUE OF FRUGALITY.—The Creator of the world is infinitely bountiful; and yet in all his provisions he allows no waste.

A MINNESOTA gardener has tried the Paris green and ash remedy for potato bugs, and says it is effectual.

LITTLE BROWN HANDS.

They drive home the cows from the pasture, Up and through the long shady lanes, Where the quails whistle loud in the wheat field.

They toss the hay in the meadow; They gather the elder bloom white; They find where the dusky grapes purple In the soft tinted October light.

Those who toil bravely are strongest; The humble and poor become great; And from those brown-headed children Shall grow mighty rulers of State.

OUR DAILY BREAD.

A beggar-boy stopped at a rich man's door—"I am homeless and friendless and faint and poor."

The rich man went to the parish church, His face grew grave as he trod the porch; And the thorough poor, the outcast mass, Drew back to let the rich man pass.

Danger of Envelopes Marked, "To Be Returned."—If not called for within ten days to be returned.

Such is the legend on many business envelopes at present, but they are not adapted to all kinds of business.

But an incident interposed to verify all her former suspicions, and transform corroding doubts into established and despairing facts.

Learning and Science of the Jews.

Among the various influences that have produced the present state of Biblical knowledge throughout Christendom, we are not to overlook the element that has been contributed by the Jewish Rabbis from the twelfth century downward to the period of the Reformation.

There is a strong and wide spread prejudice against the literature and intelligence of the Jews, and even among Christian men, it has been too generally supposed that, leaving out the Hebrew Scriptures, wisdom has entirely perished from the sons of Abraham.

But an incident interposed to verify all her former suspicions, and transform corroding doubts into established and despairing facts.

SAVED BY AN "OLD MAID."

"Oh, yes, he loves me! Of course he does! Why, hasn't he told me so a thousand times, auntie?" and pretty Bella Congdon buried her head among the sofa cushions with all the abandon of a spoiled child.

There is a strong and wide spread prejudice against the literature and intelligence of the Jews, and even among Christian men, it has been too generally supposed that, leaving out the Hebrew Scriptures, wisdom has entirely perished from the sons of Abraham.

THE ALEUTS.

The natives, both Creoles and Aleuts, are a peaceable, honest and hospitable people, very industrious and energetic.

There is a strong and wide spread prejudice against the literature and intelligence of the Jews, and even among Christian men, it has been too generally supposed that, leaving out the Hebrew Scriptures, wisdom has entirely perished from the sons of Abraham.

MALE FASHIONS.

The female fashions of to day are absurd enough; but if anything more absurd than a man's "stove-pipe hat" was ever invented, I would like to see it.

For the Rose-gold chap who runs the Onion

is frightened at the apparition of a death's head

and cross-bones. The fellow has evidently been

slipping in the glass and caught a glimpse of

the ugly mug.

Public School.—The old Public School, under

the direction of Superintendent McMechen, is

now open, and we are gratified to learn in a

surprising condition. Mr. McM. is a veteran

teacher, and never fails to make thorough

scholars of those he instructs.

Deputy Sheriff.—It will be noticed that

James B. Thompson has received the appointment

of Deputy Sheriff. We have known Mr.

Thompson for several years, and have always found him

quiet, courteous gentleman. The appointment,

we believe, will give general satisfaction.

Cheap Goods.—N. & E. Brown have reduced

the price of every article in their store, and are

offering great inducements to customers. Pur-

chasers should call and examine their stock of

clothing, ladies dress goods, dry goods, grocery

provisions, etc., all of which they are offering

at great bargains, and without regard to cost.

Give them a call.

Hot.—For the past week the thermometer has

ranged throughout the day all the way from 98°

to 104°. On Tuesday it reached the highest, and

in the shade the thermometer marked 104°. An

offset to these hot days we have had cool

nights, and thus have been enabled to rest

pleasantly after sweating all day under a burning

sun.

Radical School Books.—The book that more

especially attracted our attention as being little

better than a radical tract, has the title of the

"Primary Union Speaker." We are now informed

that this book is not used in either of our public

schools, and further that the teachers are

determined that the boys and girls committed to

their care shall not have their youthful minds

poisoned in this way. Glad to hear it.

Information Wanted.—Of Thos. C. Johnson,

who came to Walla Walla valley, in 1860, in

company with Thos. Estes, senior, and went to

Florence in 1862. Was last heard from at

Florence, in 1863, since which time his friends

have had no tidings from him. His brother,

Wm. Johnson, living at Evening Shade, Arkan-

sas, desires to hear from him. Any information

addressed to his brother as above, or to David

R. King, Walla Walla, W. T., will be thankfully

received. 23-6w

Pardoned.—John McLaughlin, convicted of

robbery, and sentenced to one year's imprison-

ment, has been pardoned by Gov. Flanders, and

on Saturday last was set at liberty. His term of

imprisonment would have expired on the 10th

of next October. McLaughlin will be recollected

as the man who was convicted of robbing David

R. King of a sum of money. His pardon was

petitioned for by several of the jury that tried

him, and by a large number of persons who had

doubts as to his guilt.

Old Sniveler, report has it, is tired of his

Olney, but can't get rid of it. He first tried to "put

it on" a respectable farmer, living in the lower

part of the valley, but the old operator was too

smart for that. His last attempt was to "sell

out" to a gentleman somewhat celebrated for

his speculation in Government axes, but Sny-

lock finally became apprehensive that the axe

speculator was not altogether reliable, and so

that arrangement fell through. The result is, old

Snylock continues to hold on to his West-

field, and this notwithstanding the decayed veg-

etables gives off none but the foulest odors.

Escaped Jail.—On opening the Jail at an

early hour on Wednesday morning, Sheriff

McAuliff found that one of his prisoners, a man

named John Weaver, had escaped. He was con-

fined on the charge of having killed a valuable

horse the property of S. M. Wain. He had man-

aged in some way to obtain a cold chisel, and

with this he cut away the iron-bar of his cell-

door, and made his escape. A prisoner

Returned.—Rev. Mr. Claxton, of the Railroad

party, returned to Walla Walla after having gone

out as far as the Toukanon. The slow rate at

which the party traveled discouraged Mr. C.,

and hence his return. He now proposes to re-

turn home, going by way of Boise City, and

thence by railroad to Philadelphia. It is to be

regretted that the party was not fitted out so as

to make the trip comfortably; but as it is, we

trust that those who continued on will get

through in safety.

POLITICAL GOSSIP.

Chicago, July 15.—The Republican's

special says that at a cabinet meeting

yesterday, Secretary Boutwell took a decided

stand in favor of vigorous efforts by the

Administration for the republicans in Mis-

issippi and Texas. He thought none but

organizations which sent delegates to Chicago,

are entitled to admission as republicans.

He considered that democrats and rebels

would take advantage of an undemonstrative

course on the part of the Administration

New York.—Mayor Hall in his message

to the New York City Council states that the

assessed valuation of the real and personal

estate in the city for the current year will be

about \$1,000,000,000. This is an increase

of nearly \$90,000,000 over the assessment

valuation of 1898, which is however, only

the average increase from year to year. Last

year the percentage for taxation was 2.69;

this year it will be about 1.96.

A SAD CASE.—Yesterday the Commissioners of Lunacy examined a man named Richard W. Cook, aged twenty-two years, and a native of Iowa, on a charge of insanity. During the investigation the mother of the unfortunate man stated that she was a niece of Dr. Warren, author of "£10,000 a Year," and had followed her husband to Illinois, thence to Iowa, and finally to Utah, as the wanderings of the Mormons, to whom he had allied himself, necessitated. In Utah they accumulated considerable property, which, as is generally the case in Mormonism, was given to Brigham Young for safe keeping. Even the dearest of every piece of real estate owned by Mr. Cooke, were in some manner or other mixed up with Brigham Young. About one year ago the husband and father died, and then the family began to look about to see what belonged to them, but turn which way they would they could find nothing without Brigham Young had not only a claim upon it, but also a vested right in it. After numerous interviews the widow and her children were informed that all the property she believed to be her husband's, and which she had helped to earn, belonged to other parties, and that she had nothing in the world. This intelligence afflicted the poor woman sadly, but his influence upon her son was still more sad. He became greatly excited, and it was with the greatest exertion that he could be prevented from seeking out those who had been instrumental in depriving him of his birthright, taking the law in his own hands and wreaking upon them the vengeance of an outraged and tottering reason. So terrible did the anguish of the young man become, and so fearful that he would be guilty of some tragic act did his mother become, that she scraped such funds as she could together and came to California, in hopes that a change of scenery and climate would restore him to his normal condition. She arrived here three weeks ago, but the change she fondly hoped for did not take place. Her son's fierce and excited manner gave way, but not to reason. That bright gen had been forever dimmed, the mind has been dethroned, and the once hardy, energetic boy is a child without intellect sufficient to answer questions when they are propounded to him. He was ordered to Stockton.—S. F. Call.

"HOW CAN I COOM?"—The following story is good because it is true. We had it from the lips of a good woman, who was told it by the principal actor herself: "Ven I first come to Filadelfy to serve, I was very unucivil," said Katrina, now a tidy servant in a respectable family; "I laugh mooth, and I feel ashamed to remember I behave ven I know so little. Shon, tat was my beau—Shon, he took me to that teater one night, ven I been in Filadelfy but tree weeks. We sits in to gallery, and we not see goot, and Shon said he would get a better seat. So he puts his leg round der post, and shildes down mid der pit, and looks up and calls out: 'Katrine! Katrine! coom down! tish a good place here' and I lean over, and said: 'How can I coom down, Shon?' And he said: 'Shust shild der pillar, and I shildes down. Dander! how do teater laugh! Dey laugh so dey play no more dat night upon de stage. Everybody laugh, and yell, and whistell all over der house. I was much ashamed den, tough I knew not any harm. But now I plushes red every time I think mit it."

NATIONS WITHOUT FIRE.—According to Pliny, fire was a long time unknown to some of the ancient Egyptians; and when Exodus (the celebrated astronomer) showed it to them, they were absolutely in rapture. The Persians, Phoenicians, Greek and several other nations, acknowledge that their ancestors were once without the use of fire, and the Chinese confess the same of their progenitors. Pompanon, Mola, Plutarch, and other ancient speak of nations who, at time they wrote, knew not the use of the fire or had just learned it. Facts of the same kind are also attested by several modern nations. The inhabitants of the Marian Islands, which were discovered in 1551, had no idea of fire. Never was astonishment greater than theirs when they saw it on the desert of Magellan, in one of their islands. At first they believed it was some kind of animal that fired and fed upon wood. The inhabitants of the Philippine and Canary Islands were formally equally ignorant. Africa presents, even in our own day, nations in this deplorable state.

A good story is told of a German shoe maker, who, having made a pair of boots for a gentleman, of whose financial integrity he had considerable doubt, made the following reply to him when he called for the articles: "Der boots ish not quite done, but der beel ish made out."

The Cable finds it embarrassing to collect \$40,000 for a single Alabama dispatch sent to Reverdy Johnson by Secretary Seward. Seward himself wouldn't pay it. Fish wouldn't pay it, and the President said the Attorney General whether he must pay it.

The Union Pacific Railroad bridge over the Missouri river will cost \$2,000,000. It will be elevated on eleven piers 250 feet apart and seven feet above high water mark.

MORE THAN 100,000 PERSONS

Bear testimony to the

Wonderful Curative Effects

Of Dr.

DR. J. WALKER'S

VINEGAR BITTERS,

A CURE FOR EVERY DISEASE.

DR. J. WALKER'S

VINEGAR BITTERS,

Manufactured from the Native Herbs and Koots

of California, is

THE GREAT BLOOD PURIFIER

and

Life-Giving Principal.

PURIFY THE BLOOD and the health of the

whole system will follow. Nothing has ever

been offered which can compare with these BITTERS.

By their peculiar virtues they stimulate the liver

function, and thus expel the impurities which lurk

within the system.

The Life of all Flesh is the Blood Thereof.

Cleanse the vitiated blood whenever you find its im-

purities bursting through the skin in pimples, eruptions,

or sores; cleanse it when you find it obstructed

and sluggish; the value it cleanses it when it is full,

and your feelings will tell you when. Keep the blood

healthy, and all is well.

Dr. Walker's Vinegar Bitters,

Are a true medicine, placed in the hands of the peo-

ple for their relief, and no person can take them

without to directions, and remain long unwell.

They are a perfect Renovator of the System, as they

carry off every particle of poisonous matter. Every

family should have a bottle of Vinegar Bitters at

hand. No sailor, soldier, mechanic, farmer, profes-

sional man, or traveler should ever be without it.

Its timely application may often be the means of

saving life.

For Female Complaints

Whether in the young or old, married or single, at

the dawn of womanhood or the turn of life, these

Tonic Bitters display so decided an influence that a

marked improvement is soon perceptible in the health

of the patient.

For Inflammatory and Chronic Rheuma-

tism and Gout.

These Bitters have been most successful. They are

caused by vitiated blood, which is generally produced

by derangement of the digestive organs.

It is a Gentle Purgative as well as a Tonic.

Possessing, also, the peculiar merit of acting as a

powerful agent in relieving Congestion or Inflammation

of the Liver, and all the Visceral Organs. In this

respect, these Bitters have no equal.

Pin, Tape, and other Worms.

Lurking in the systems of so many thousands on this

Coast are effectually destroyed and removed.

Dyspepsia or Indigestion.

This disease, in a measure, is occasioned by the ir-

regularity and want of action in the Liver, Biliary ducts,

gall bladder, etc. Headache, Pain in the Shoulders,

Coughs, Tightness of the Chest, Dizziness, Sour Eruc-

tion of the Stomach, Biliousness, Dropsy, Bilious

Attacks, Palpitation of the Heart, Inflammation of

the Lungs, Copious Discharges of Urine, Pain in the

regions of the Kidneys, and a hundred other painful

symptoms are the offspring of this Dyspepsia. For

these troubles take Dr. Walker's Vinegar Bitters, and

quickly all painful symptoms will disappear. These

Bitters stimulate and invigorate the Stomach, Liver,

and cleanse the blood of all its impurities, and

imparting new life and vigor to the whole

system, carrying off, without the aid of calomel or

other mineral medicines, every particle of humor

which is the cause of all the above troubles, and the

allow will become fresh and vigorous.

Morbid Condition of the Blood.

This is the fruitful source of many diseases, such

as Letter or Salt Rheum, Ringworm, Boils, Carbun-

cles, Sores, Ulcers, Pimples and Eruptions of all

kinds. For the cure of these various affections, it

is merely symptoms of a morbid condition of the

blood, medical science and skill have not, as yet,

discovered a Blood Purifier equal to Walker's Vin-

egar Bitters.

Diseases of the Blood, Liver, Kidneys and

Bladder.

It thoroughly eradicates every kind of humor and

bad habit, and restores the entire system to a healthy

condition. It is perfectly harmless, never producing

the slightest injury.

Let it be distinctly borne in mind that Dr. Walker's

Vinegar Bitters is not a glib pill, to de-

ceive the eye or please the fancy; it is a medicinal

preparation, designed to cure the blood of all its im-

purities, and to impart new life and vigor to the

whole system. It is a medicinal preparation, and
