BALLAD TO THE KING.

At Wurzburg, by the minister, there sleeps a singer well;

His harp was skilled in lyrics that martial prowess tell;

His songs of flowers echoed from Danube to the Rhine;

Of Liberty and Justice, of Kaiser and of Crown,

And how the German honor none equalled in renown.

His spirit bovers near me, and every German woe I carry to Herr Walter, who hears my pining low.

But when, yesternight at gloaming, I wandered to his grave,

I said, "Aha, Herr Walter! this day our land will save.

Hear ye the bells' loud pealing, see ye the banners gay?

Hear ye the Main, the ancient, how loud he laughs today?

See ye the hill tops gleaming with many a flaming brand?

The young King of Bavaria is riding through his land."

Then spake Herr Walter, softly: "I see, but yet am sad.

His eye beams only kindness, his people's heart is glad;

But there come olden memories, when others ruled the main;

Would ye your King petition, bate not the ancient gain?

We bade him cordial welcome, and festal offerings paid,

But loyally before him the truth in candor laid.

We said to him, "O King, the land is sore oppressed,

For many things are ordered against thy good breath.

The fearful wreaths withhold thy eyes from many a shaken wall,

But when the future storm comes, who knows if it may fall?"

Then search and sift, we pray thee, and help us with thy might,

That when the house is beat upon it fall not in the night."

Thus speak before your ruler, and quit not in your heart.

Of the home which ye owe him truth is the noblest part."

Meeting of the Spectacles.

The old girls have been having a good time again.

This time it was in Chicago. It was a sarge cargo that met and abused the horrid men,

and sipped tea, and perhaps just a little French cordials, together.

They waxed eloquent upon equality in family rights and rights as citizens;

wanted to vote, a nuisance which many men would like to get clear of;

wanted to go to college as well as the boys, to which we have no objection,

only demanding that it shall not be at the same college—that would never do for old girls nor young, old boys or young, you know.

They claim that all labor shall be open to them. All right; let them dig ditches or peac-

the gospel, put themselves out on the lee-yard-arm in a rale of wind, or ride an express pony from Eiko to Virginia City; gather oysters with a pair of heavy tongs, or conduct a nasty divorce or breach of promise case in Court. This would exactly suit some of the Revolution women,

judging by some of the obscenities of that journal; would just suit such women as Mrs. Stowe, who digs down forty-five years into the graves of the buried dead, in order to regale her diseased and morbid horror-hunting internal demon, and so bring up the lice conceived in the very brain of jealousy itself.

The simple fact is, that a reform in favor of woman is right and necessary. But these old girls carry their views into the extreme, some of them throwing dis-

favor and ridicule upon the idea that women should be content with bearing and rearing children. As men cannot do this exactly, and the women refuse, where is the next generation to come from? It is plain-

ly evident that with much in their content that all right minded men will endorse, they mix ideas that are subversive of a healthy moral tone.

Child murder is common enough, and the average of children in native-born families is small enough now, with-

out any of this preaching by childless wives and unwired mad against the dignity, decency and happiness of having and teaching little curly heads.

Ladies, claim all the rights that will better the sex, and we will join in the effort. But please do not make women despise the conditions which nature has imposed, do not endeavor to disgust mothers with their lot, and prevent those who are not from becoming so. These women who hate, or pretend to hate men, and denounce the position of wife and mother as beneath the dignity of woman, and urge them to aspire to something higher and more worthy, are usually those who have been jilted, or who never had the chance of becoming either, and vent their disappointment in denouncing what they cannot themselves be. Their influence in this respect is, as far as it goes, pernicious and demoralizing.

Be a womanly woman. Do not try to be a man, you will only disgrace both sexes, and do no good for either.

It is difficult to keep one's temper in a hot day, but getting under a shady tree is the best way of taking umbrage.

Roberts was not far behind. The exhibition made by both these gentlemen was very fine, and we doubt whether any fair on the coast could make a better showing. Messrs. Metzger, Stowell, Denay, Hall and Holbrook, also made fine exhibits of fruit, and came in for their full share of premiums. For the best exhibit of fruits of all kinds, Mr. A. B. Roberts was awarded the first premium. For plums and grapes, Mr. A. B. Roberts took the first premium. On raspberries, blackberries, gooseberries and currants, Mr. W. Shelton took the first premium.

Mrs. Bingham, first premium for hair work.

In closing our notice of the Fair, we again refer to the splendid exhibition of stock. Mr. Dan Drumbler had a cow on exhibition that for beauty and all the fine points of an animal we have never seen surpassed. A bull calf from the Touchet, eighteen months old, and weighing over 1300 pounds, attracted universal attention. The display of horses was very fine, and we doubt whether any county fair on the coast could show a better exhibit.

The result of the Fair is gratifying as showing an increased interest over all previous exhibitions, and as such is cheering to all who are interested in the growth and prosperity of Walla Walla Valley.

In the proper place we omitted to state that the premium for the best and most graceful lady rider was awarded to Miss Nanette McAuliff, but owing to some informality her entering the award was reconsidered. The general expression was that all four of the ladies—Miss McAuliff, Miss Barber, Miss Coonover and Miss Johnson—rode exceedingly well, and were each of them deserving of premiums.

OREGON FLOUR is quoted at \$5 @ \$6 75 in the San Francisco market.

W. T. A. M. & A. F. SOCIETY.

The Washington Territory Agricultural, Manufacture and Art Exposing Society, filed articles of incorporation on the 24th inst., with the following gentlemen as incorporators: Jacob Yarlott, Orley Hall, Moses Wright, A. B. Roberts, Wm. Glasford, D. M. Jesse, Anderson Cox, J. A. Perkins, Chas. W. Frush, Daniel Stewart, Edward Shell, William Bruce, Jos. C. Painter, Wm. M. Shelton, W. Fudge, Mark A. Evans, J. C. Smith, P. B. Johnson, Jonas McConell, David Fudge, Wm. H. Newell, Wm. Cock.

Messrs. Jacob Yarlott, Anderson Cox, D. M. Jesse, A. B. Roberts and Chas. Frush, acting trustees. Capital stock \$20,000, divided in shares of \$25 each.

A meeting of the trustees was called at 12 m., on Saturday, the 25th inst., and the following action was decided: To open books for subscription to the capital stock immediately. Mr. A. H. Simmons was instructed to open said books, and only to admit of one share being taken by each individual at the present time. As soon as fifty shares were taken, to call a meeting of the stockholders, for the purpose of permanent organization. The requisite number of shares being taken, Mr. Simmons called a meeting, as per order of the Trustees, of the Stockholders, at Dr. Shell's building, in Walla Walla, at 7 p. m., on Saturday the 25th inst.

The meeting met pursuant to call. On the roll of stock being called, 54 shares were called, 32 answered in person, 15 by proxy. After an animated discussion, it was ruled that no verbal proxy would be accepted. The election of officers resulted as follows: Hon. Ed. Shell, President; S. M. Wait, Vice President; A. H. Simmons, Secretary; O. P. Lacy, Treasurer. Directors—D. M. Jesse, D. Stewart, R. P. Olds, John Fudge, and W. M. Shelton. On motion, agreed to request the papers to publish a synopsis of these proceedings. After some other business being transacted, the meeting adjourned to meet Saturday, the 2d of October, at one P. M.

A. H. SIMMONS, Secretary.

RETURNED FROM HIS TRAVELS.—Mr. H. Parker, who for several months has been absent in the Atlantic States, has returned home, and may again be found to his old quarters. During his absence, Mr. P., by means of lectures, circulars, &c., done much toward attracting attention to this country, and for his labors in this behalf is deserving of public thanks. Mr. Parker traveled all through the New England and Middle States, and everywhere found the people anxious for information in relation to the climate, soil and general advantages of this section of country, and to meet the demand was obliged to have several thousand circulars printed, in which, was set forth the inducements Walla Walla and Washington Territory offers to immigrants, and such other information as was thought to be useful to the class seeking new homes. He also delivered an address before the New York Farmers' Institute, in which was embodied a large amount of information relative to the topography, climate, soil and character of the country. The effect of this agitation was to awaken new interest in regard to this part of Uncle Sam's pre-emption, and to turn the tide of immigration this way. Mr. P. also gave his attention to mail irregularities, and succeeded in procuring orders from the head of the Department which, if properly seconded by his subordinates, cannot fail to obviate the annoyances to which our people have been subjected in their mail matters. Active and energetic, Mr. P. has accomplished more for our people than was ever dreamed of by the do-nothing Delegates who for the last decade have represented the Territory in Congress. He fully confirms what we have so often stated, that the public willing to favor the country and do everything for its development, and that all that is required is to make our wants known in an intelligible manner to secure their prompt recognition. In his own case, Mr. Parker has shown that more than half a dozen drowsy Delegates—a lesson that our people will well heed in future. We have only to add that Mr. P. returns to his old business, and is again a resident of Walla Walla.

THE TERRITORIAL LEGISLATURE MEETS AT OLYMPIA, ON MONDAY NEXT, OCTOBER 4TH.

There being a tie in the House, it is expected there will be considerable delay in the organization. The most important business to transact will be the revision of the code, although the usual number of winding-up road bills may be expected. The members from this county will understand that they are expected to defeat all these windies.

JAMES H. MILLS, appointed Superintendent of Public Education by Gov. Jim Ashley, of Montana, has declined the appointment. Ashley removed the regularly elected officials and attempted to substitute appointees of his own, but now finds himself snubbed by the respectable members of his party who refuse to aid him in his usurpation.

THE LATE STAGE ROBBERY.

One of the victims of the stage robbery by which Wells, Fargo & Co., suffered so heavily, furnishes the Helena Gazette with the following account of the robbery:

On the night of the 6th, between eleven and twelve o'clock, about one mile north of Summit station, between Port Neuf canyon and Malad, four persons halted the coach, calling a halt. The driver stopped; and the passengers were doing at the time. The first words I heard were a demand for the treasure boxes, one of the agents saying: "driver, I will call on you for those treasure boxes again." He then called on the passengers for their arms, saying they would not further molest them. The arms, consisting of three pistols, were thrown out as he demanded, and the treasure boxes taken. He then told the passengers to get out of the coach as he wanted to search the coach. I was in the back and so was the last to get out. He then ordered us to form in line, military style, and said, as he stepped back, we were a pretty good looking crowd. He then said: "gentlemen I am making a collection for the widows and orphans, and want each of you to shell out your loose greenbacks," saying if refused he would be compelled to search us. Thinking there was no use parleying we threw out our wallets and he picked up the greenbacks. He got about \$1,500 from the passengers—about \$150 from me. The four were armed to the teeth, cool and deliberate. There were six passengers, including one China-woman; with her they did not interfere.

Three of the robbers were caught at Winnemucca, on the 14th, and are now safely jugged. Wells, Fargo & Co., had offered a reward of \$10,000 for arrest.

NEW SMELTING FURNACE.—The Virginia Republican furnishes an account of a new furnace designed for reducing silver ores, which promises to work a revolution in the business of smelting ores. It says that Mr. Harrison, of Argenta, has constructed at that place a furnace for smelting the silver ores of that district, which dispenses with blast and charcoal, and is operated by a wood fire and draft. The fire boxes surround the reservoir, and the flames unite and by means of a draft are thrown upon the ore with all the power and intensity of the blow pipe. The melted matter remains in the reservoir and aids the process of smelting. The slag is drawn from the metal through an orifice above it, the metal remaining perfectly pure in the bottom of the reservoir, whence it is drawn through the tap when the run is completed. Two and a half or three cords of wood are required every twenty four hours, and four hands, constituting a day and a night shift of two each, to attend to feeding the furnace and fires. Major Veale left Argenta after the furnace had been forty-eight hours in operation as an experimental test, and it was running without the slightest difficulty. The whole cost of construction will not exceed \$1,000. The cost per ton of smelting silver ore by this process will be reduced to four dollars and fifty cents.

FURTHER FROM LOON CREEK.—A letter from David McCranor, Esq., to several of our citizens, under date of September 1st, from this new camp, states that the placer so far is not very extensive, though there is some very good ground. There are but five sluices running. All the ground is taken and can only be obtained by purchase at very high prices. Three or four buildings have been erected and others soon to be. About three hundred men are in the camp. All provisions are brought from Boise City, 125 miles distant, on pack animals. The roads, the worst in the world, and the camp, when snow falls will be inaccessible.—Montana Republican.

ROBBERS CAUGHT.—The robbers who recently robbed the express near Malad, on two several occasions, were discovered in Marsh valley a few days ago, by a party headed by Dan Robbins. An attack was made, one of the robbers killed, another wounded and captured, and \$10,000 of the money taken by them recovered. We regret to learn that Dan Robinson received a serious wound in the rencontre. The other persons engaged in the robbery will probably be taken, as parties were in hot pursuit.—Montana Republican.

UNDERWOOD, the Postal Agent, was at Walla Walla several days last week, but being under the constant surveillance of one or two scabby politicians, really learned nothing of the business that brought him here. If weak, controlled many like Underwood are to control the mails, prudent persons will prefer to patronize the express.

GREAT RUSH.—It is estimated that over two thousand persons were on the Fair grounds on Saturday, to witness the trials of speed. Another evidence of the taste people have for fast horses, despite the homilies that are constantly being preached against horse racing.

JUDGE BLEWETT has got back from Puget Sound, and although somewhat extatic in his admiration of "the most beautiful sheet of water in the world," still thinks that Walla Walla is the place to live in.

Hot.—The thermometer at 2 o'clock, yesterday afternoon, stood at 84° in the shade. This great heat coming so close upon a cool spell was very oppressive.

SALUTE.—The salute on Sunday evening, was in honor of Frank Stone, Mayor of Walla Walla, who had just returned from a trip to San Francisco.

EASTERN BUTTER.—The Illinois Farmer, published at Chicago, sees in the Pacific coast a market for the surplus butter of the Western States. It says:

"A commercial item of much interest in San Francisco, at the present time of writing, is the reception of several car loads of butter from Illinois dairies. The firm of DeWitt, Kittle & Co., have consigned to them 753 firkins, and Platt & Newton, 250 firkins. The butter arrived at San Francisco in splendid condition, and is reported to be equal to the very best Orange county (N. Y.) butter. Consumers and the trade are delighted with the idea of having fresh Western butter placed in their markets at reasonable rates, as the dairy product of California is limited, and of an inferior quality. Heretofore, the shipments have been from New York, by sea, the butter greatly deteriorating in the passage through the tropics. Our friends in the butter trade must make a note of this, and be prepared for a large trade with California. The freight from Fremont to San Francisco was 4c. gold. The California demand for shipment by this route must in future be immense.

What have our farmers to say to this? Here in Walla Walla Valley are grazing lands for stock to supply the whole coast with butter and cheese, and the question is, will our own producers meet this want, or leave it to Eastern men to reap the harvest?

"If the jury believe from the evidence that the plaintiff and defendant were partners in the grocery, and that the plaintiff bought out the defendant, and that the defendant paid the note by delivering to the plaintiff a cow, which he warranted not to be a cow, and the warranty was broken by reason of the breachness of the cow, and he drove the cow back and tendered her to the defendant, but he refused to receive her, and the defendant took her home again and put a heavy yoke on her to prevent her from jumping fences, and by reason of her yoke she broke her neck and died; and if the jury believe that the defendant's interest in the grocery was worth anything, the plaintiff's note was worthless, and the cow good for nothing, either for beef or milk, then the jury must find out for themselves how they will decide the case; for the Court—if she understands herself, and she thinks she does—doesn't know how such a d-d case should be decided."

GENERAL RAWLINS.—The Tribune, in a note of General Rawlins, says: General Rawlins was twice married. His first wife died before he entered the war. In his war speech at Galena, in alluding to this bereavement as an event which left him free to dedicate his life and services to his country, his emotion so choked his utterance that he could scarcely proceed. The present Mrs. Rawlins was engaged in teaching school at the South when he made her acquaintance, during the Vicksburg campaign. They have resided in a very plain manner at Washington, the General having been always, since his accession to a prominent position, too much occupied with his public duties to give much attention or effort to the accumulation of a private fortune.

GENERALLY in the South there is no legal protection for a white man's property. If a steer is missing from a farmer's herd, he knows it has been taken to feed his hungry rulers; and aware of the dangers of complaint, he passes it by in silence. Men hide their provisions where they can, and bury what they have of value, to preserve it. White brigands also abound, as they always do, where laws operate feebly or not at all; and the very effect of this lawless condition into which radical reconstruction has forced this people, is imputed as their crime, and made the control many like Underwood are to control the mails, prudent persons will prefer to patronize the express.

Belmont and Tweed.

The fact that the Tweed faction in the city of New York are trying to displace Mr. August Belmont from his position as Chairman of the National Democratic Committee, is after all, of some significance. Who Mr. William M. Tweed is, and what he amounts to, is a question with ninety-nine out of every hundred democrats outside of the city of New York.

We fail to see any good reason why Mr. Belmont should be displaced from the chairmanship. He is a good democrat, a sagacious leader, a hard worker, and is liberal with his means to aid the cause. We know of no other qualifications that are required in the chairman. It does not follow that Mr. Belmont is the only man in the country who ought to be Chairman, or that he is the only one that can fill the position. There are many others, but Mr. Tweed is not one of them.

If there is to be a change, we wish it distinctly understood, as far as we are concerned, that we want no New York politician substituted. We have no faith in the average New York politician. He is a fraud and a humbug, full of guile and selfishness. New York politicians gave us a Presidential defeat 1868; they are figuring for the same thing in 1872. They will not be accommodated, however.

The real objection to Mr. Belmont seems to be that he is a friend of Hon. George H. Pendleton. The question of Presidential candidacy in 1872, is not discussable, but if Mr. Pendleton is to be attacked at so early a day, his friends will see that it is not done with impunity. We give it as a unanimous voice of the democracy of Pennsylvania, as well as the whole West, that the Young Eagle of the West is our choice for the President in 1872. Moreover, he will get the nomination, and be elected. The democracy of the country will not again be wheedled by the vagaries and impracticabilities of New York politicians. The whole country is tired and disgusted with them. They are as unwise as they are selfish. With Mr. Pendleton, who is the exponent and representative of a grand system of political principles, at the head of the column in 1872, success is sure.

If the only objection of Mr. Belmont is that of friendliness to Mr. Pendleton, it is not looked upon as an objection in this region. Mr. Hoffman's friends, if they are wise, will not try to stir up the lion of Western democracy."—Pittsburg Post.

THE EUROPEAN WHEAT CROP.—Latest European news contradicts the former reports by telegram of immense harvests in England. The Mark Lane Express says the English crop is less than was expected, while there are failures enough in Europe to cause as great a deficiency in the supply as

DULL TIMES.—The Mountaineer says that the iron foundry and work shop of the O. S. N. Company at the Dalles is closed, and the workmen discharged.

A RADICAL friend, the other day, boasting called our attention to the fact that after all the talk about A. J. Butler's immense wealth, his estate had turned out insolvent.

INFORMATION.—For the benefit of members who appear for the first time at Olympia this fall, we state that voting for swindling bills will not improve any man's chances for Congress.

POSTAL AGENT.—Our Willamette exchanges make frequent references to Postal Agent Underwood, and urge him to do this, that and the other for the benefit of their respective localities.

AN OLD EXPRESS FIRM.—We see it stated that Wells, Fargo & Co. are about to withdraw from the express business. This is the oldest express firm on the Pacific coast, if not in the United States.

IMMIGRANT TRAINS.—The Overland Railroad Company is now running immigrant trains through from New York to San Francisco. Time 14 days; price of tickets \$50.

GOBLING UP LAND.—It is of the first importance to the people of this Valley that we should attract immigration from abroad, and to do this it is necessary that it should be understood that we have public lands open to settlement.

The System of Government Spies.

During the last session of Congress, says the S. F. Call, some inquiry was had as to the Special Agents, which the Secretary of the Treasury, or Commissioner of Internal Revenue, had been sending out east, west, north and south, as spies and detectives; and it was found that there was no authority at all for their appointment or pay.

WORDS OF TRUTH.

Hon. D. W. Voorhies said in a speech before the Indiana Democratic State Convention, after stating that the magnificent plantations were worth over one thousand four hundred millions, while all the real estate of New England was appraised at four hundred and seventy-five millions.

AN OLD EXPRESS FIRM.—We see it stated that Wells, Fargo & Co. are about to withdraw from the express business. This is the oldest express firm on the Pacific coast, if not in the United States.

IMMIGRANT TRAINS.—The Overland Railroad Company is now running immigrant trains through from New York to San Francisco. Time 14 days; price of tickets \$50.

GOBLING UP LAND.—It is of the first importance to the people of this Valley that we should attract immigration from abroad, and to do this it is necessary that it should be understood that we have public lands open to settlement.

CUBAN MATTERS.

Chicago, Sept. 25.—A Washington special says that advices from Cuba are discouraging to the revolutionists. They say two Cuban Generals have been assassinated, which compelled Céspedes to take command of the army.

NEW YORK, Sept. 25.—The Junta is blamed by the Americans who have gone to Cuba under its auspices. The trouble on Wall Street.

Chicago, Sept. 25.—A Times special says a crowd proceeded to the office of Smith, Gould, Martin & Co., during the Wall street excitement yesterday, and the active efforts of the police prevented its being gutted.

REPORT OF AGRICULTURAL DEPARTMENT.—Washington, Sept. 24.—The Monthly report of the Department of Agriculture for August, says of corn: "Unless the close of the season is very favorable, there must be a hundred and fifty million bushels less than a full crop."

A TRIBUNE special, dated at New York last night, thinks yesterday's transactions will reach \$500,000,000. Many of the "bears" refuse to settle, on the ground that the "bulls" knew the action of the Government, and had conspired with Jay Cooke and others having influence at Washington City.

A TRIBUNE special says the corner in gold was manipulated by Wm. Woodward, Jas. Gould, Jas. Fisk, Jr., Marvin Bros. & Co., Smith, Gould, Martin & Co., and other prominent operators.

A Sadder Disappointment.—The Chicago Times says: "And now comes California, echoing back over the mountain roof of the continent the glad tidings of democratic victory that saluted her unwavering people from Tennessee and Virginia."

THE POSTAL TELEGRAPH.—Every day, says the Philadelphia Post, adds to the strength of the movement in favor of the postal telegraph; many Senators and Representatives have promised to support a good bill, and it is certain that the example of Great Britain in establishing a postal telegraph system will soon be followed by the United States.

ANNEXATION.—The people of Woodstock, Canada, were greatly excited a few days since over an American flag which was nailed to the top of the highest flag-staff in the town, and bore the inscription, "Annexation."

THUNDER ACCIDENT.—Last Sunday a miner, named John Sparrow, fell from the third level in the Golden Charles mine to the bottom of the shaft, a distance of ninety-four feet, breaking both legs, and one great toe, dislocating one ankle, and otherwise bruising him in a terrible manner.

THE GOLD PANIC.—The excitement in the gold room resulted this morning in an absolute panic. The price rose rapidly from 137 1/2 to 153. The bulls offered to settle with shorts at about 151, few however, accepted being intensely anxious to hear whether something could not be done at Washington.

Money Market. San Francisco Gold... New York Gold Quotations...

From Thursday's Tri-Weekly. Best.—We called on our friends, Johnson & Rees, yesterday, but found them too busy waiting on customers to spare a moment for social chat.

FALL AND WINTER STOCK.—Mr. A. Frank has just returned from San Francisco with a magnificent stock of goods suited to the fall and winter trade.

ASSAULTING A WOMAN.—An old man named Boise, who has been better days, visited the house of his former wife on Monday night, and beat her in a shocking manner.

THE PREMIUM LIST OF THE FAIR, as published is imperfect, but the best we could obtain. The reports of committees, in many instances, were difficult to decipher, and the papers, as turned over to us, were in a mass of confusion.

PROGRESS.—The walls of Mr. Brechtel's new fire-proof brick building are now well up to the first story, and begin to indicate what the massive structure will be when completed.

THE ASSOCIATION formed to take the place of the late Agricultural Society is progressing finely, and already, as we are informed, very nearly one hundred shares have been subscribed.

THE ROBBERIES.—140 more of the Robinson victims—Messrs. W. B. Stangler and J. H. Conklin, of New York—arrived here yesterday, and report that no tidings have been obtained of the villain who led the party into the mountains and there deserted them.

DOUBLE ELOPEMENT.—A couple of young ladies, all the way from Umatilla county, arrived at Walla Walla on Monday, accompanied by their lovers, and at once sought to have the nuptial knots tied.

DECEASED.—After the riding at the race course, on Saturday last, a purse of \$43 was made up and presented to Miss Johnson, as an expression of the estimation of the audience of her skill in the management of her horse.

ASSAULT ON A WOMAN.—The case of Mr. Boise, charged with assaulting his former wife, was heard before Justice Frush, who ordered the accused to find bail in the sum of \$300, to keep the peace for six months.

CITY TRADE.—Trade continues fair, although possibly not as brisk as a week back. Messrs. Jordan & Co., and J. T. Reese report having landed the following trains and teams:

TO GEORGE L. RUCKLE, first premium for best exhibit of corn. To Mrs. M. J. McGuire, first premium for tomato preserves, peach preserves, hop rising bread, and cake.

NEW YORK DEMOCRATIC PLATFORM.

Syracuse, Sept. 22.—The Democratic Convention, at its evening session, adopted a platform reaffirming the former pledge to the people in regard to questions of public policy; proclaiming democratic devotion to the interests of the Government; fidelity to its honor; their nationality, patriotism, and unwavering loyalty to the Constitution; demanding the restoration of the State governments; general amnesty; abolition of the freedmen's bureau, and the subordination of military to civil power. Upon the question of finance the resolutions take ground for equal taxation of all Federal securities; the payment of the debt according to contract; the restoration of a sound constitutional currency. They favor internal improvements; the enlargement of the State canals, and the reduction of the tolls thereon. They oppose the Fifteenth Amendment as debasing and demoralizing to the representative system; denounce the administration of Grant as false to its pledges and promises of peace, and lowering to the tone of our nationality upon foreign questions. They oppose the registration and excise laws; enjoin Governor Hoffman's administration, and oppose the amended State constitution.

SPEECH OF SENATOR SUMNER.

Worcester, Mass., Sept. 22.—Senator Sumner, in his speech at the Republican Convention to day, in discussing our foreign relations, said in reference to the Cuban insurrection. The manifest policy of the United States is strict non-intervention, except in the way of good offices in regard to the recognition of the belligerent rights of the Cubans. He said we find no government, no judiciary, nothing to authorize such recognition. In reference to England he said while we had suffered shamefully as a nation at the hands of England, in view of England's complicity he would not attempt to set a price on the debt, nor make a formal demand for a dollar nor in apology, but leave it to England, after due consideration of the subject, to offer such reparation as she deems proper. It then remains for our country to decide what reparation we shall require. On the subject of the proposed annexation of Canada he expressed his opinion that the day is already drawing near when we shall see the whole land under the Government of the United States.

MASSACHUSETTS REPUBLICAN PLATFORM.

Worcester, Sept. 22.—The resolutions of the Republican Convention reaffirm devotion to the principles and policy of the republican party; declare that the democratic party has forfeited forever all claims to the confidence of the people; assert that the reconstructed States are not beyond the watchful care of the national Government; welcome repentant rebels back to the privileges of citizenship, and while insisting on complete protection to loyal whites and blacks, express the utmost confidence in the administration of President Grant; require a just distribution of the burdens of taxes; rigid economy in the public expenditure; less special legislation; a material abridgement of sessions of Legislatures; asserts the right to protection of labor; and that legislation on the subject of temperance should be left to the Legislatures.

Washington, Sept. 22.—

Contrary to European telegrams, there is no reason for supposing that the Spanish Government took offence at the proposed mediation of the United States in the Cuban matter, or has sought to involve other governments in its action. The Spanish Government, after mature deliberation, has thanked the United States Government for its friendly disposition, but is not willing to accept the terms proposed. The gist of the matter simply is, the mediation is declined.

NEW YORK DEMOCRATIC NOMINATIONS.

Syracuse, Sept. 22.—Allen C. Beach was chosen permanent Chairman of the democratic Convention. The following ticket was nominated: For Secretary of State, Homer A. Nelson; Comptroller, W. F. Allen; Attorney General, M. R. Champlain; State Treasurer, Wheeler H. Bristol; Canal Commissioner, William W. Wright; State prison Inspector, F. Ladin; of Ulster; Judges of the Court of Appeals, John A. Scott, of Kings county, and Robert Earl, of Herkimer county.

MURDER AND SUICIDE.

Madison, Sept. 22.—A terrible tragedy occurred near this city, yesterday afternoon. Wm. Moody, an old and respected farmer, murdered his wife with a hatchet. He then dragged the body from the house and set fire to the dwellings and out-houses, standing guard with a gun and allowing no one to interfere or save anything until all was consumed. He then shot himself dead. A considerable amount of money was burned.

ILLICIT DISTILLERS ARRESTED.

Louisville, Sept. 22.—The United States special agent to-day brought seven farmers from the interior counties who have been engaged in illicit distilling. They say the revenue laws never reached their section of country, and consequently it is full of illicit distilleries. The parties were bound over before the Commissioner.

ORTON'S PREPARATION.

ESTABLISHED, 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, in any case, and in any form. It is perfectly safe, and it is almost impossible to get the habit of using it. It is a true medicine, and it is a true cure.

With the help of the medicine, the habit of using tobacco is destroyed, and the appetite for it is gone. It is a true medicine, and it is a true cure.

The time taken to effect all desire for Tobacco by the use of the Preparation varies slightly in different persons, the average time being about five days. Some have no desire whatever for tobacco after using the Preparation.

The health and purse of every tobacco user in the country calls loudly for the use of tobacco.

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession:

W. P. Head, Bangor, Maine; J. Moody, Southport, Louisiana; E. Adams, Knoxville, Tennessee; John Morrill, Bangor, Maine; J. Hanch, Springfield, Tennessee; W. D. Harrington, West Point, Georgia.

[From Samuel Cassidy, editor of Journal and Argus.]

Petaluma, California, Dec. 14, 1868.

For about twenty years I had used tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the extensive use of this narcotic seriously impaired my health, I determined if possible to break myself of the habit. Hearing of Orton's Preparation for destroying the appetite for tobacco, I sent to Portland, Maine, for a box of the medicine, which I received through the mail on the first of November. A month has not elapsed, and yet the medicine has effectually relieved me from my craving desire to use tobacco in any form. The Preparation is not more difficult or unpleasant to take than common chewing gum, and conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an earnest desire to assist others who wish to break away from the slavish appetite for Tobacco, I offer this testimonial.

BEWARE OF COUNTERFEITS and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the proprietor, or his fully authorized agents.

The price of Orton's Preparation is \$2.00 per box, or six boxes for \$10.00 sent by mail to any part of the country, securely sealed from observation, with postage paid on receipt of price.

How to send money by mail. Enclose the amount in a letter, seal carefully, register the letter and take receipt for it of your Postmaster. Money sent by mail as above directed at any risk.
