The Beauty of Quiet Lives. There are great multitudes of lowly lives lived on this earth which have no name among men.

WHAT A FLY DID.—James Howard, of Walker (Illinois), married an interesting young lady named Symonds about a year ago.

PLAIN TALK TO A GIRL.—You're every-day toilet is a part of your character. A girl who looks like a "fury" or sloven in the morning is not to be trusted.

THAT WONDERFUL STOVE.—A fat citizen, having in view the purchase of a coal stove, was recently in front of a hardware store.

HOW TO HARDEN BUTTER.—A method of the best butter-makers in England for making butter during the hot weather is as follows: Carbonate of soda and alum are used for the purpose.

IT IS SAID THAT DURING SEASONS OF epidemic, the bite of insects is contagious. This is not a sensational item.

Our Washington Letter. WASHINGTON, September 19, 1878. EDITOR STATESMAN:—The nomination of Butler by a democratic meeting—claiming to be a state convention—at Worcester yesterday, was not unexpected.

As I have before said, one inevitable and happy result of these things is to attract the attention of radical leaders to affairs in their own states.

IN THIS DISTRICT, in August, the annual death rate among the whites was about twenty-one per thousand per annum.

THAT WONDERFUL STOVE.—A fat citizen, having in view the purchase of a coal stove, was recently in front of a hardware store.

HOW TO HARDEN BUTTER.—A method of the best butter-makers in England for making butter during the hot weather is as follows: Carbonate of soda and alum are used for the purpose.

IT IS SAID THAT DURING SEASONS OF epidemic, the bite of insects is contagious. This is not a sensational item.

"Nine Times—Take 'Em?" Harry Haley, in the little village of Willowtown, was left an orphan, thrown on the world without either money or friends.

Between Harry and Jennie there existed a feeling of the most earnest love, and many were their secret meetings, despite the protestations of the old gentleman.

He then rushed frantically to the railway office, purchased a ticket, and in an hour afterward Miss Jennie, heavily veiled, was driven to the depot in a covered carriage.

ONE DAY HARRY happened to drop into a saloon, seated at a table in which were Squire Greene, Deacon Edginton, Judge Jacobs, and an old wood-sawyer, nicknamed "Lucky."

THE SQUIRE WAS fortunate enough to secure a first-class hall, all hearts, and yelled out.

"I'm beat, I'm ruined," said the squire with a disheartened look, "hearts are trumps and—"

"I take the game," interrupted Harry, as he threw his arm around the waist of Jennie, who had managed to escape from the boarding-school in time to play the part of a heroine in "The Snug."

JENNIE REMARKS, as she dandles her little blue-eyed darling on her knee: "Father, tell me how it was that you fortunately furnished me with a husband."

THERE HASN'T BEEN a United States for many years. This is something work for a living to think.

What Kindness Did. Some years ago there was a good man, living in the city of Philadelphia, whose name was Isaac Hopper.

A good while after this, Friend Hopper met Cain again on the street. The poor fellow's looks showed that he had been growing worse instead of better.

UNSHOD HORSES.—I have used bare-footed horses on the average hard, gravelly New England road, at intervals of several months at a time.

NEW CONFIDENCE GAME.—A new kind of confidence game has been developed in Philadelphia. Two men, calling themselves a delegation, waited upon the Hon. Henry M. Watts, ex-minister of Austria.

THE DEVOTED MOTHERS.—Many a poor mother in a humble cot, with no money or position, has struggled hard to feed and clothe her little ones.

FOR CHOLERA INFANTUM.—The whites of two eggs well beaten; then mix with pure water (we melted ice), add one tablespoonful of orange flower water.

A LITTLE BOY from New York went into the country visiting. He had a bowl of bread and milk. He tasted it, and then hesitated a moment; when his mother asked him if he didn't like it.

RAMPS.—The ram is a very useful animal. It is not only a source of food, but it is also a source of amusement. It is a very amusing animal to watch.

BLANK DEEDS at the STATESMAN office.

THE PHILOSOPHY OF STRIKES.—"Where are you going with the puppies, my little man?" asked a gentleman of a small boy recently whom he met with three pups in a basket.

THE DEAREST WOMAN TO LOVE.—Some one has written beautifully to the boys in the following manner. Here is a whole sermon in a few sentences: "Of all the love affairs in the world, nothing can surpass the true love of a big boy for his mother."

THE NEW YORK HERALD reads the result in Maine as follows: The mortifying check encountered by the Maine republicans is of broader significance than its local effect in New England.

THE MEANEST MAN STILL LIVES. He is not dead. Jennie Jackson, an actress, left in New Orleans without friends or money, was smitten by the yellow fever.

ONE OF OUR MAJOR-GENERALS, NOW A PRIVATE.—Of the 158 men who have lately enlisted in Washington City, only twenty-seven were formerly soldiers.

NOR HIS ROBBERS.—A certain man complained to Facino Cane, who was a cruel man, and one of the best generals of our time, of having been robbed by one of his soldiers of his cloak.

PRESERVE THE PRIVACIES OF YOUR HOUSE, marriage state, heart, from father, mother, sister, brother, aunt, and all the world.

HOW IT WORKS.—The people of Victoria, British Columbia, without waiting to see whether the Home Government opposes or disapproves of their "head tax" law against the Chinese, are giving it inexorable enforcement.

BLANK DEEDS at the STATESMAN office.

THE JEWISH HOLIDAY.—All the Jewish business houses were closed Saturday last on account of the Jewish New Year. It was celebrated in the usual old time style.

THE DOCTOR.—H. Montgomery, who it will be remembered was thrown from the Dayton stage last week, is getting along finely, and is able to be about in a very few days.

THE DOCTOR.—The explosion of the boiler at the Monday last, by the explosion of an engine, we hope to see the doctor well on his feet.

THE DOCTOR.—On account of the miscarrying of the baby, Dr. C. H. Kilbourn, lady physician, is rapidly taking the place of gentlemen in the late cities, and one has long been in this place. We commend the Doctor to the STATESMAN readers.

THE DOCTOR.—The Idaho World has the name of George Anshie at the head of its column as the democratic candidate for delegate, and in the same issue denounces Mr. Anshie as a drunken fellow, altogether unfit for the place.

THE DOCTOR.—The Idaho World has the name of George Anshie at the head of its column as the democratic candidate for delegate, and in the same issue denounces Mr. Anshie as a drunken fellow, altogether unfit for the place.

MARRIAGE.—On reference to the marriage notices it will be seen that our former publisher friend, Mr. William Mackeyline, has taken his wife, and is now comfortably established in decent quarters, and enjoying the bliss of matrimony. We yesterday had the pleasure of dining to the health of the bride and groom, and as we gazed upon the most handsome presents, the gifts of dear friends, we mentally exclaimed that our friend William had struck a big "boom."

A FAREWELL.—At the fire, Thursday afternoon, the general expression was unfavorable to the new building, purchased at a cost of \$2000. A competent judge, who watched her working, says that she is less efficient than the old one, and that it requires a little more fuel to heat the same amount of space. At the same time, the experience of Thursday's fire fully confirms that opinion. To purchase a new building at any price is questionable policy, but when it comes to paying \$2000, it is better to buy a new one than to have the old one burn.

THE FIRE.—The alarm of fire, Thursday afternoon, was caused by the burning of Mr. Z. K. Stralder's handsome residence, at the lower end of Dupar street. The fire originated in the wood shed, and is understood to have been started by a child who had in some way become possessed of a box of matches. It was discovered almost immediately, but owing to the difficulty of obtaining water and consequent delay in getting the engines to work, the fire communicated to the main building and wrapped it in flames before a single stream of water was turned on. The firemen and citizens worked heroically, and had the proper means been at hand the main building would have been saved. The building destroyed was one of the handsomest private residences within the city limits, and an ornament to that quarter of the town. Fortunately much of the furniture was removed, and to that extent the loss of the family lessened.

FERRY IN THE FIELD.—A private letter, written by a gentleman who is well posted in politics, as conducted in the Sound country, claims that it is the intention of the republicans in that section to force the nomination of Ferry by all means within the reach of unscrupulous politicians. He says that if the republicans in the eastern counties expect to accomplish anything they must enter the convention with a solid vote. Ferry has been making his wires for a long time to divide the eastern counties, and is now confident of success. We refer to this matter for the reason that it is desirable that both the candidates come from this section. In that event, whichever party wins, our local interests will be attended to, and, with the co-operation of Senator Shaver, an eastern Oregon man, we may expect to secure liberal appropriations towards opening the Columbia river, and other improvements necessary to the development of the country.

A LESSON.—The fire at the lower end of Dupar street, and the destruction of Mr. Z. K. Stralder's handsome residence, should impress upon the city authorities the importance of placing fire engines at suitable intervals along all the more important streets. When destroyed, the fire had made little headway, and if water had been convenient, the dwelling could have been saved with little effort. As it was, the engines were compelled to force water through nearly a thousand feet of hose, and the delay in putting down this long line and endeavoring to work gave the fire such a start that it was impossible to save the building. Had a high wind prevailed at the time, the whole lower part of the city most likely would have been swept away. As it was, the city made a narrow escape. After this experience, the city authorities should lose no time in providing fire engines, and otherwise providing for the extinguishment of fires. Instead of forever neglecting the fire department, funds should be provided and set apart for the payment of the engineer and firemen in working order. Police men may be employed, but it is of the first importance to take measures for the safety of the town, and, in the event of a fire, it will be time to provide for the firemen whose main business is to attend to the fire, and attract the attention of school girls by the exhibition of "stars."

THE CITY HEALTH.—The people of Walla Walla are an enterprising, industrious people. Their work is progress. The little low houses with a pane of glass for a window are being rapidly replaced by substantial dwellings. The yards and gardens are assuming an air of neatness and order. It is no longer considered "boiled shirt" and good clothes, and blackened boots are rapidly coming into fashion. Our farmers are buying their wives sewing and washing machines and wringers. The old bars have been replaced by substantial gates. The class of stock raised on our farms is rapidly improving. In fact, everything that can be improved upon is replaced by the newest and best that can be bought. All these things indicate advancement in knowledge, and knowledge means civilization. It is a desire in every man's heart to better his condition; to place his children one notch higher in social position than the parents started in. This change has been brought about by example. The energy of one man has kindled that of another. Industry, economy and prudence are as contagious in a community as small pox. Few men are pioneers. They may be among the first, but are not the first, whether it be in opening up farms in remote places or in developing new ideas. The force of example is important and, as it is with individuals, so it is with communities. The advancement of one, in its government, its fire department, its sewerage, etc., is rapidly imitated by others. But proximity is required for the rapid adoption of new methods. Therein lies our excuse, and only excuse for many of our deficiencies. We hear of cities and towns in the East doing many things without bestowing upon them much thought. Let them be adopted in Portland, and we would soon imitate our Westfoot friends. But Portland is behind the times as well as we are, and there is no use in waiting for her to set us an example in sanitary regulations. Let us inform ourselves of what ought to be done and do it, and not allow weeks and months to pass by with the sacrifice of whole families from the effects of diseases that science has demonstrated to be preventable. It is a work that devolves upon our city government. Trust it to individuals and defeat and disappointment are certain. Our city council has inaugurated a movement of street cleaning. This is all very good, but it does not and will not reach the root of the trouble. It will occupy too much space to enter into a detailed account of how to do even this. This is the duty of men appointed to attend to such matters. The health board should consist of men well informed on such subjects, and their instructions should be carried out to the letter. There should be a mortality register. A permit should be required before any funeral is allowed to take place, and an accurate record should be kept of the name, sex, age and disease from which the person dies. Weekly reports should be published of the mortality of the city and at the same time an accurate record of the temperature, amount of rainfall, and other items of importance. Statistics of this kind are invaluable in controlling and extinguishing epidemics. These records can be kept for a trifling expense, and are of great importance. Like the journal and ledger of the counting house, they tell us how we stand; they warn us of danger. An effort in this direction cannot be inaugurated too soon. Our city is rapidly growing. Houses are being erected, and people too much crowded to remain healthy. We should have sewers and, above all, a water supply like that of every one. Our wells should be filled up, and a supply should be declared a nuisance within certain limits of the city. These reforms are not luxuries, they are necessities, and the sooner we adopt them the better for us. All cannot be done at once but we must commence soon or some terrible scourge like typhoid or typhus fever will visit us and make our town as unenviable in its reputation for human longevity as Memphis or Granada.

REPAIRING OFFICIALS.—The city of San Francisco has lost in round figures the sum of \$300,000 through the defalcation of Alexander Austin, late city treasurer. The money is supposed to have been lost in stocks, there being no evidence to show that it was stolen. Just previous to the discovery that the money was gone, the late treasurer committed suicide by shooting himself through the heart. The case of San Francisco is not unlike that of Walla Walla county a few years since when all of a sudden the then county treasurer discovered that his safe had been forced open and county funds stolen to the amount of over \$19,000. All the investigations subsequently made went to show that the alleged forcing of the safe was a sham, and that the funds—if any were in the safe at the time—had been removed by parties who had free access to the premises. The trials that followed, the reward offered for the discovery of the guilty ones, were all part of a sham, and now that time has cleared away the mystery in which the affair was clothed at the time, public opinion has passed judgment in the case and the guilty parties are designated just as clearly as though a jury had passed upon the question of their guilt or innocence. We revive this reminiscence of times past and gone for the reason that political parties are about to place in nomination candidates to fill the different offices, and it is important that only the best and most reliable men are placed where their duties will call them to handle public funds. It is now certain that Kyger and his associates took the county money and appropriated it to their own use. Doubtless when they first commenced to use the county money they intended to replace it, but gradually they were drawn in deeper and deeper, until at last a stimulated robbery was their only means of safety. They were of the class of men who will be honest if they can have all the money they want. The men who are dishonest from inherent love of office are rare. But this county and this coast have been cursed with a class of genial, generous, showy good fellows, who made the possession of money the first consideration, and the methods of obtaining it the second. These men have built up reputations for liberality on the earnings of others, and even when the end came, as come it always will, the glamour of a showy generosity has served in some measure to mitigate the sentence the world otherwise would have passed upon them. There are indications that the reign of this class of men is about over. One by one they have passed out of public view; some by pathos and some in the full blaze of publicity. Their brief and dishonorable careers seem less attractive when viewed from the point of egress than in the heyday of their apparent prosperity. In time the better tone of the community will assert itself, and hold men who desire to be respected to their responsibility as men and citizens. This better sentiment must be cultivated at whatever cost to individuals. It is essential to the permanence of the republic and the stability of society.

COL. CHAS. PAINTER, late receiver of the land office, is named as likely to have a place on the republican ticket, either for sheriff or auditor. Charley has many friends, and is one of the men we are sorry to see training with the republicans. As receiver of the land office he made lots of friends, and if placed in the field will prove a formidable competitor for any position.

Hox. H. M. Hodges was in town yesterday.

THE FIRE DEPARTMENT.—At the last meeting of the city council the following petition was presented: To the Mayor and City Council.—The undersigned were appointed at the last meeting of Washington Engine Company No. 1, to confer with your honorable body in relation to the compensation of the engineer, and we desire to suggest: That a large proportion of said company are not only old residents of Walla Walla, but are tax-payers therein, and are much interested in the means necessary to extinguish fires in our midst, should any such occur. From observation and experience, the company are satisfied that to render effective service at fires, a competent engineer, and one thoroughly versed and acquainted with our steamer is an absolute necessity. The members of the company work better because they have confidence and feel safe. Such an engineer the company find Charles F. Kraft to be. We feel assured from your past favors to the company, and your readiness at all times to aid us in keeping up our organization, with your sympathy, and the funds of the city; and this, by the way, we fully appreciate and feel grateful for, that you understand our situation and feelings on this subject, and will do all in your power in keeping up the organization to its greatest effective force. Should we lose our engineer, we cannot tell what the result may be. Certainly, confidence would be lost, until the same was produced in a new engineer. We feel no disposition to try the experiment. The amount of compensation demanded by Mr. Kraft, may, in your opinion, be more than you ought to pay, but we beg of you to take into consideration the foregoing reasons, and if the financial condition of the city, will at all justify you, we urgently request you to continue the compensation of Mr. Kraft at the old figure, and in return we can cheerfully promise you all the ardor and zeal, in case the city is visited by that terrible enemy, fire. In any event, we cannot afford to part with our engineer.

In any event, we cannot afford to part with our engineer.

DEMOCRATIC CONVENTION.—Pursuant to call, the delegates to the democratic county convention met at the court house, Thursday last, at 11 A. M. Major R. R. Hess, chairman of the central committee, called the convention to order. On motion, J. D. Mix was called to the chair, and H. E. Hardy appointed secretary. Committees on credentials and order of business were then appointed, after which the convention took a recess. On reassembling reports from committees were received and adopted, after which the convention proceeded to make nominations, with the following result: Councilman, J. D. Mix; representatives, J. H. Lassater, W. P. Barnes, Wm. Martin, D. J. Stover; sheriff, J. B. Thompson; auditor, Duncan McGilvrey; probate judge, R. Guichard; assessor, Sam Jacobs; treasurer, Fred Stine; coroner, Dr. McCurdy; surveyor, Mr. Chapman; school superintendent, L. K. Grim; commissioners, A. C. Macintosh, Joseph Braden and John Tolson; Messrs. R. R. Rees, A. G. Lloyd, Joseph Braden, John Bryant, Fred Stine, James Driver, and John Scott were appointed the democratic central committee. H. E. HARDY, Secretary. J. D. MIX, Chairman.

Hox. N. T. Cayton addressed his fellow citizens at the court house, Saturday last, and was well received. Mr. Cayton is not an eloquent speaker, but he is always sensible, and on this occasion made some excellent hits. He referred to the platform of the Vancouver democratic convention, and emphatically declared that he had always opposed the annexation of any part of Washington territory to Oregon. He favored the admission of Washington as a state as soon as we had the requisite population, and would vote for the adoption of the state constitution. The constitution in many respects was defective, but he would trust to time to remedy these defects. Tampering with the jury system by proposing a special jury had, he doubted the wisdom of allowing nine men on a jury to bring in a verdict, and thought we had better adhere to the usages of our fathers. Minority representation was another experiment he objected to. This was a radical innovation, and he was not prepared to accept it. The acquisition of Northern Idaho was desirable and would soon give this section control. Congress will not act as previous to the presidential election, and on the question of adopting or rejecting the constitution has no political significance. He favored the extension of the rail-road lands to be sold at not to exceed \$2 50 an acre. He was the author of the memorial to congress asking an appropriation to lock and dam the Columbia river, and if elected would press the measure in season and out of season. The Indian reservation system had proved a failure and cannot too soon be abandoned. Indians who so desired should hold lands in severalty, and those not sufficiently civilized to take their place along side of white men, should be turned over to the care of the military. He would labor to secure for the people of the territory increased postal facilities, and in all his movements would be governed by an honest desire to serve the people. The slurs of a nameless paper published at Seattle were referred to, and the editor characterized as a very dirty fellow who was likely to be done brown before the canvass is over. The speaker then referred to his long identity with Oregon and Washington territory, his familiarity with our wants and resources, and the fact that all his interests are bound up with us. In conclusion he remarked that when he left Washington to take his seat among the assembled wisdom of the nation, he would leave behind him his wife and children as pledges for his good conduct. [Great applause.]

REPUBLICAN TACTICS.—The republicans delayed their nominations until after the democratic candidates were in the field, the object being to take advantage of any mistakes made by the democrats. We now hear that they intend to bring out their strongest men, and in that way expect to carry part if not the whole of their ticket. The writer advised conciliation and harmony in the democratic convention, but his advice was disregarded, and now the republicans propose to charge upon the strength of democracy. It is never safe to allow men with less brains than a cocoon to rule.

GRAIN MARKET.—Owing to unfavorable advices from below the grain market has receded, and 40 cents a bushel is the offering price for wheat. For a very choice article the millers pay 42 cents, but this is an outside figure, 40 cents being the ruling price.

LAST WEEK the O. S. N. Co. put an extra boat on the Cascade and Portland route. It will be run until the close of the wheat season. The work of excavating rock from the channel of the Snake river at Pine Tree rapids is rapidly progressing; 1300 cubic yards in all will be removed from the river this season.

JOHN F. BOYER is named as likely to be the republican candidate for county treasurer. Mr. Boyer fully comes up to the highest standard, and may fairly be characterized as the "Noblest work of God, an honest man."

NOW IS YOUR TIME!

50 Tons of Merchandise

ARRIVED THIS WEEK,

All debts due the late firm must be paid to Antoine Besette, who will also pay all outstanding indebtedness. A. BESETTE, V. LEBOUCHER. Walla Walla, Sept. 13, 1878. 41-1m

1000 BLANK DEEDS ON EXTRA fine paper, just printed and for sale at the STATESMAN office. Dealers and other purchasers by the quantity will have unusually low rates. See in your orders.

CHICKENS FIT TO EAT.—Don't imagine that it makes no difference how your Thanksgiving chickens have been brought up. Don't suppose that they will be good anyhow. Chickens that have been carefully dressed, deliciously stuffed, and tenderly roasted, and yet they were not fit to eat. There was a flavor about them that no soda raisings could cleanse and no seasonings conceal. These were chickens that had picked up their living around pig sties and other unclean places. A chicken may be spoiled in dressing it to cook. If killed with a full crop, and allowed to lie for hours before it is "drawn," (or relieved of its internal organs,) it gets an unpleasant flavor. Fowls should be caught and shut up without food for twelve hours or more before they are beheaded. Then the crop and intestines will be empty, and the task of picking and dressing it will be greatly lessened. Old fowls are not necessarily tough—only cook them long enough. They are more tender twenty-hours after they are killed, than if eaten immediately.

THE AFFABLE MAN.—A mother and her baby were among the many passengers waiting at a Western depot recently. She had eight children wrapped up, and this fact attracted the attention of a big fellow with a three-story overcoat, and a rusty satchel in his hand. Sitting down beside her he remarked: "Cold weather for such little people, isn't it?" She faintly nodded. "Does he seem to feel it much?" continued the man. She shook her head. "It is a healthy child," he asked, seemingly greatly interested. "He was up to a few moments ago," she snapped out, "but I'm afraid he has smelled whiskey so much around here, that he'll have the demon tremors before long." The man got right up and walked out of the room, and was afterwards seen buying clove.

TO PREVENT CATTLE THROWING FENCES, HOOKS, ETC.—To prevent a cow from throwing fences or hooking other cows, make a wooden strip 2 1/2 inches wide, and 3/4 of an inch thick, and attach it to the horns by screws; to this is fastened, by a small bolt, a strip of hard wood, 3 inches wide, 1/2 an inch thick, and of a length sufficient to reach downward within an inch of the face, and within 2 or 3 inches of the nostrils. In the lower end of this strip are previously driven several sharp nails, which project about 1/4 of an inch. The strip, when properly attached, allows the animal to eat and drink with all ease, but when an attempt is made to hook or to throw a fence, the sharpened nails soon cause an abrupt cessation of that business.

MANY years ago a gentleman called on Mr. Hoby, then the most fashionable, most extravagant, most flourishing of London boot-makers. "I bought a pair of straps here last week," said he, "and think they turned out shamefully; I will never buy another pair of straps in this shop." "Put up the shutters, John," said Mr. Hoby, turning to one of his men; "it's no use our going on with the business; this gentleman will never buy another pair of sixty-sixty straps here. This applies nicely to those who come into the office of a journal and pompously leave orders "to stop my paper," on account of some article at which they have taken offense.

\$20,000 IN HIS CLOTHES.—There is a soldier in this camp who is a strange fish. He has been in the army, as far as any one knows, all his life, and yet he is rich. Never less than \$20,000 in stored away in his clothing. Dan, of the Bank saloon, knows him, and says that while stationed at Fort Benton, he, in 1855, bought a pair of trousers made to order, and which he has worn ever since. The trousers were made of blue cloth, and lined with blue cloth, and were so made that they would hold up to the knees. The trousers were made in such a way that they would hold up to the knees. The trousers were made in such a way that they would hold up to the knees.

REMARKABLE MISPRY.—A Scotch clergyman has pointed out a remarkable mispry occurring in all the editions of Shakespeare's works, and never before noticed, by which the bard is made to say: "Books in the running brooks, sermon in stones, and good in everything," when what he really said was undoubtedly, "Stones in the running brooks, sermons in books, and good in everything."

WHILE Adam and Eve were yet in Eden, when our fair young grandmother knew there wasn't another living soul in all the wide world, but herself and her smiling husband, we don't suppose she ever went to sleep without first looking under the couch of moss and leaves "for a man," and rousing Adam from his first sweet nap to ask him if he was sure he had locked the front door!

COLOR OF BERKSHIRE PIGS.—Several have asked what is the proper color of the pure Berkshire. It is not entirely black, but has a white spot on the face, and white feet. If there is a white splash on the side near the shoulder, it is not a disqualification, but this is not desirable. Pure Essex pigs are entirely black.

A LADY of twenty-five was lately throwing out affected snobs at matrimony, when a gentleman in the company observed that "marriages was made in Heaven." "Can you tell me, sir," rejoined the crafty nymph, "why they are so slow in coming down?"

HER EVERY PRAYER.—A little five-year-old daughter of one of our prominent business men, in offering up her evening prayer, recently, uttered the following: "God bless mamma; bless papa, and make him buy me a dog—a great big one, that'll whip the devil out of all of 'em."

WHAT THE COUNTRY HAS PAID GRANT.—During the eight years Grant was president he was paid \$300,000 in salaries, besides probably as much more to cover incidentals. As general of the army for five or six years previous thereto he received probably \$100,000 more. Why should he be poor?

MIGHT BE BETTER.—A Buffalo minister has been preaching a sermon about "The Truly Beautiful Woman," upon which an exchange remarks that it might be better, all things considered, for the clergy to let "The Truly Beautiful Woman" alone.

GEORGE COGGAN'S large band of horses at his ranch in Union county have been arranged at \$50 per head. They will all be sold.

FARM FOR SALE. WE OFFER FOR SALE OUR RANCH, consisting of 400 acres, 280 of it tillable and 200 enclosed and in cultivation, located in Pataha valley, 20 miles north of Dayton, and from 5 to 8 miles of steamboat landing. For grazing, grain and fruit growing, this ranch is the best in Columbia county. For terms apply to L. C. MIDDLETOWN, 36-3m Takamian P. O., W. T.

WEDDING NOTE PAPER, extra fine. For sale at the STATESMAN office.

A PROCLAMATION.

BY THE GOVERNOR.

I, ELISHA P. FERRY, Governor of the Territory of Washington, do hereby declare that a General Election will be held in said Territory, on Tuesday, the fifth day of November, A. D. one thousand eight hundred and seventy-eight, at which the following named officers will be elected, viz: A Delegate to represent said Territory in the Forty-sixth Congress of the United States. An Adjutant General. A Brigadier General. A Commissary General. A Quartermaster General. A Prosecuting Attorney for the First Judicial District. A Prosecuting Attorney for the Second Judicial District. A Prosecuting Attorney for the Third Judicial District. Members of both branches of the Legislative Assembly.

And all County and Precinct officers provided for by the laws of said Territory. The electors will also at said election vote "For" or "Against" the Constitution of the State of Washington. "For" or "Against" Separate Article No. one of said Constitution. "For" or "Against" Separate Article No. two of said Constitution. "For" or "Against" Separate Article No. three of said Constitution.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the Territory to be affixed. Done at Olympia this twenty-eighth day of August, A. D. one thousand eight hundred and seventy-eight, and of the Independence of the United States the one hundred and third.

ELISHA P. FERRY, By the Governor. N. H. OWINGS, Secretary of the Territory. 40-41

A. REEVES AYRES, CLERK DISTRICT COURT, (First Judicial District.) WILL GIVE PARTICULAR ATTENTION to making ABSTRACTS OF TITLE To Real Estate in Walla Walla County, to Drawing Proposals for Government Contracts of all kinds, and GENERAL CONVEYANCING. FIRE INSURANCE: Will also effect Insurance in the following reliable Fire Insurance Companies:

Table with columns for Insurance Companies and their respective amounts. Includes Commercial Union, American Central, etc.

OFFICE AT THE COURT HOUSE, 64f EVERTS & ADEL, MANUFACTURERS AND DEALERS IN

Window Shades, Picture Frames, MOLDINGS, MIRRORS, &c. UPHOLSTERING &c Done in a workmanlike manner. Furniture Repaired and Varished. 63f WAREROOM, Main street, Walla Walla below Third street. 29-4f

SOLDIER'S Homestead Scrip. SOLDIER'S ADDITIONAL HOME-STEAD Scrip can be located without settlement upon any Government lands subject to entry by homestead or pre-emption, and is the only paper that can be located without settlement on such lands. To all who desire to purchase I will sell the only first class of such paper offered at \$3 25 per acre for 80's and 120's; \$3 75 per acre for 40's; fractions at special rates. Deed can be issued same day of location. Patent is issued to the party holding the receipt. No other can supply a deed for the lands located direct from the original claimant to whom the Scrip was issued, and as much of that class is now on the market, I would advise caution in purchasing. Buy only that which will stand the strictest scrutiny and is guaranteed to the purchaser. The other class of Additional Homestead, known by its dealers as "floats," can be supplied at \$2 20 to \$2 85 per acre. The class I will cannot be sold at any such rate, and I will pay to any one in this section who is the original claimant, and desires to dispose of the same, \$2 80 per acre, and in addition pay all the fees. Do not fail to see my agents and investigate this matter fully, as this is the only way to become convinced of the purity of the scrip offered, and its advantage in making location. My agent at Walla Walla is M. C. MOORE, Esq., to whom any wanting scrip may apply. D. H. TALBOT, General Land, Scrip and Warrant Broker, 42 1m Sioux City, Iowa.

MAGIC PUMP! THE BEST PUMP IN MARKET—Its simplicity and durability are not equalled by any other Pump in existence. It took the first premiums at the New York State Fair in 1876-7. It is a perfect Water Drawer, the most Durable and the CHEAPEST and the BEST PUMP in use. It will pump a barrel of water in a minute. It has the good qualities of all other pumps combined. It draws water directly from the bottom of the well, so that it is always pure and fresh. It ventilates the well, so that there is no danger of the water becoming stale, and it never freezes even in the coldest climate. It is expansive, and can be adjusted to take up the wear. Manufacture at Glasgow's Planing Mill, Walla Walla. For sale by H. B. MIDDLETOWN & CO., General Agents for Oregon, Idaho and Washington Territory. 33-4f

Expanding Rubber Buckets. THE BEST PUMP IN MARKET—Its simplicity and durability are not equalled by any other Pump in existence. It took the first premiums at the New York State Fair in 1876-7. HAWLEY, DODD & CO., PORTLAND, OREGON.

Offer for Sale at the Lowest Possible Prices. HARDWARE, IRON AND STEEL AND AGRICULTURAL IMPLEMENTS.

Consisting in part of PLOWS HARROWS & Seeders.

We have been particularly careful to recommend no implements save such as are really the "me plus ultra" of their class, believing the best are not only the cheapest but safest to consumer and dealer. Our price lists will be furnished on application, and we sell no goods that we are afraid to guarantee. We would call especial attention to the

Deere Sulky Plow, Over 1,000 Sold in Oregon and W. T. in the last 3 years. The peculiar arrangement of this unrivaled implement needs only to be seen to be appreciated. Ask your neighbor what he thinks about it. No complication of levers. A boy can manage it, and do better work than a man with a walking plow, and twice the quantity per day. We have paid especial regard to the improvement of our implements and we only import such as have the very latest improvements and best styles. As our line is too extensive to particularize, we would call attention to the following list:

- DEERE'S MOLINE PLOWS, Buckeye Broad Cast Seeders, Deere's Gang Plows, Moline Gang Plows, Buckeye Seed Drills, DEERE'S CULTIVATORS, Farm, Grist and Feed Mills, Schuttler Farm, Freight and Spring Wagons

With the new TRULLENGER Pat. BRAKE, the Latest Device: No Brake Bar used: No shoes to wear out tires, will hold a wagon anywhere from backing or going forward. We are also Sole Agents for STUDEBAKER WAGONS, With Patent Roller Crank. Too well known to need comment. Send for Circulars and Price Lists.

HAWLEY, DODD & CO. JOHN BERRY, Manager of the Walla Walla House.

HOLMES' DRUG STORE! BECAUSE

- 1. HOLMES' DRUG STORE has a full stock; 2. HOLMES' DRUG STORE guarantees satisfaction; 3. HOLMES' DRUG STORE has saved the Valley

\$ Hundreds of Dollars \$ And still continues doing the same.

N. B. A few of those "NICE BAITS!" Left and one given to each customer.

DON'T FORGET. Agent for Averill's and Imperishable Mixed Paints. Opposite Schwabacher's, [31-4f] H. E. HOLMES.

Stine House, ESTABLISHED 1862. GEORGE SAVAGE, Watchmaker, Jeweler AND DEALER IN FINE FISHING TACKLE.

THANKING THE PUBLIC of Walla Walla and vicinity for the confidence placed in him during the last fifteen years, and assures them that he will be as careful to give satisfaction in the future as he has been in the past. Particular attention given to FINE WATCHES. Work by Express, promptly and properly done. Shop, one door above T. Taylor's Candy Manufactory, Main street. 35-4f

PRINTERS' STOCK. BOOK PAPER—We have now on hand a full stock of fine book paper, 50 pounds to the room, and are prepared to print pamphlets, constitutions, etc., in extra style. 35-4f

HARVEST OF 1878.

FARMERS OF WALLA WALLA VALLEY Are unanimous in their expression that the

Agricultural Implements — SOLD BY — PAINE BROS.,

ARE THE PERFECTION OF MECHANICAL SKILL, AND ARE, IN ALL respects, the only articles of farm machinery adapted to the wants of this locality. For the harvest of 1878, MESSRS. PAINE BROS. invite the attention of farmers to

THE HARVESTER KING! The Champion Self-Raker!

This Binder is recognized by all experienced persons as the only one yet invented free from serious defects. The Automatic Crane Binder Attachment, having been thoroughly tested, is admitted to be superior to all others in the market. A comparison will satisfy any one that the HARVESTER KING is the only one now in existence that has stood the test, and we caution farmers against purchasing any other.

Is the simplest, yet, at the same time, most durable and effective ever invented. Its merits are too well known to require any word of commendation from us. Every farmer who has used it is its friend; and to the hundreds to whom we have sold this implement, we refer, confidently believing that in every instance it will receive unqualified praise.

Buffalo Pitts "Challenger" Thresher! This machine, combining many improvements, and manufactured expressly to meet the wants of this country, stands at the head of all other machines, and by long experience, in which its reliability has been thoroughly tested, has deservedly earned the title of

KING OF THRESHING MACHINES. An intelligent farmer, one who has any knowledge of his calling, would not think of purchasing any other. Go anywhere in the Walla Walla Valley, and ask which machine has proved the most durable, the best adapted to the climate and the work to be done, and the universal answer will be the BUFFALO PITTS CHALLENGER. This machine can be relied upon. Can as much be said of others?

The new and valuable improvement added to the Haines' Single Gear Header, Makes it superior to any now in the market, and purchasers should see that no inferior article is forced upon them, as there are many machines offered, which, when tested, prove to be utterly worthless. An examination of this Header is earnestly requested.

PAINE BROS., 26-4f Cor. Main and Second Streets.

J. H. DAY, W. N. WALLACE, J. H. DAY & CO., Wholesale & Retail Druggists.

SINGER SINGER SINGER

Sewing Machines! Sewing Machines! Sewing Machines!

Proven by the verdict of over 2,000,000 Pure User To be the Best, Simplest and Most Practical Sewing Machine IN THE WORLD.

Our Sales for 1878 were 262,316 Machines! More than double that of any other Company.

Save Money and Buy the Best! REMEMBER That we are PERMANENTLY ESTABLISHED

And can always be relied on to keep Machines in repair and to supply needles and accessories.

The Singer Manufacturing Co. WILLIS B. FRY, Manager, Corner First and Yamhill Sts., Portland, THOS. RONAN, Agt. Walla Walla. 43-4f

THE DOMESTIC! C. SCHUMACHER, AGENT FOR THE Domestic Sewing Machine

calls attention to this Machine as embracing all the latest improvements, and superior to any other Machine now before the public. Its merits are: 1. It is the lightest running Machine now made. 2. It is a Sewing Machine. 3. The room under the arm is greater by one-half than any other Machine. 4. The Shuttle holds more thread than any other Machine, and it is made on a different principle from any other Shuttle. 5. The Machine is constructed so that the last motion or wear can be taken up. 6. The Shaft which drives the Needle is straight, which gives it more power. 7. The Machine has got no cog-wheels or gears. 8. The Table is made of seven layers of wood, laid crosswise, making it proof against splitting or warping. 9. SURETY MACHINE, after a long experience with the mechanical quality of Sewing Machines, has selected this one.

Best Sewing Machine! now in use. The different varieties of Grover & Baker's celebrated Sewing Machines are on hand for sale at the lowest prices. Main street, Walla Walla, at San Francisco prices, with freight added. I will guarantee to keep these Machines in perfect order, free of charge to the purchaser. 38-4f
