

National Democratic Nominations.

FOR PRESIDENT, HORATIO SEYMOUR, of New York. FOR VICE-PRESIDENT, FRANK P. BLAIR, of Missouri.

THE AGRICULTURAL FAIR.

The Fair, now in progress, is eminently a success, and has been the means of drawing out full representations from all parts of the country. The display of horses and horned stock is particularly fine, and affords the very best evidence that our climate and soil is particularly well adapted to the growth of stock.

The vegetable department exhibited a surprising display of huge squashes, pumpkins, turnips, cabbages, beets and potatoes—such a display as is no where to be found on the Pacific coast. The fair is a highly creditable display of fancy knedels work, embroidery, &c., and thus materially contributes to the interest of the Fair.

The greater part of Thursday was occupied in entering articles for exhibition, and thus the Fair may be said to have just commenced. This afternoon, the address will be delivered by Philip Ritz, after which, the election of officers will be had. We have not the time to give full sketches of the very many articles on exhibition worthy of note.

The display of stock is greatly in advance of any former year, and parties who are just up from Salem, do not hesitate to say that the Walla Walla exhibition is ahead of the State Fair. The improvement over former years is more particularly in the line of blooded stock. Some very fine two and three year old colts are on exhibition. A three year old colt, raised by John Fudge, on the Touchet, is a particularly fine animal.

Legal Tenders.

The journals are discussing the probability that a forthcoming decision of the Supreme Court of the United States will be in opposition to the constitutionality of the act making green backs legal tenders for all debts, dues, and demands. Some of the journals argue that such a decision would be beneficial; others, that it would not.

Since the close of the war in 1865, the radicals have expended, over and above the amount of interest paid on the public debt, over one thousand millions of dollars. This is more than one-third of our National debt. Is there any wonder that the radical party and speakers are anxious to cover this up, and prevent the people seeing these facts by constantly harping about the questions at issue during the existence of the war?

LEATHER.—Grant's knowledge of leather reminds us of a man who once in a stage coach tried to get into conversation with his only fellow passenger, but could get nothing from him beyond a disclaimer of any knowledge on any of the subjects introduced. At last he said: "Sir, I like to talk to pass away the time in traveling. Is there any thing you do know any thing about?" The silent man replied, "Try me on Leather." Grant is similarly situated.

WHAT IT COST.—The expenses of the general government for the past three years amount to fifteen hundred million dollars. Estimating the population at thirty millions, there has been fifty dollars paid for every man, woman and child in the country. The man with a family of three persons has paid one hundred and fifty dollars; with a family of six, three hundred dollars; with a family of eight, four hundred dollars.

Description of Goose Lake Valley.

CAMP WARNER, Oregon, Sept. 30, 1868. EDITOR STATESMAN:—In the following lines I desire to lay before your readers a short account of Goose Lake Valley, a new district, lying partly in Oregon, and partly in California, which has been rendered available for settlement by the exertions of General Crook, and the troops serving under him.

EDITOR STATESMAN:—Mr. Geo. Deeres, who has just returned from Kootenai to the Semiquiten, writes to me the following, relative to the new diggings, lately discovered on the St. Mary's River, which, from what I can learn, is distant some 25 miles from Kootenai: "There was quite an excitement in that camp about new diggings, that had been struck lately, on the St. Mary's River, a stream that puts in at the head of the Kootenai. The miners of Wild Horse fitted out, some time since, three men, for a prospecting tour; their names, the discoverers, are Dan Kennedy, Little Sullivan, and a half-breed named Frank. They panned out in four days, \$225. They represent the diggings far better than ever Kootenai was. (This sounds most too good.) Mr. Phillips, Hudson Bay trader, had four ounces of the dust; it resembles the Kootenai gold. There was a great rush thither from Kootenai, and the miners are big with expectancy. Eureka is the word now. Well, it is to be hoped that something valuable has turned up at last. There are many miners returning from the Blackfoot country, some of whom, I am sorry to say, have little laid up to carry them through the coming winter. Some, too, have 'nary red.' But such is the fate of many who follow mining as a profession. The bump of hope is so fully developed in some that they spend years in prospecting merely, and disappointment cannot check their endeavors. I learn too, from the same source, that a small party have received encouraging prospects on the divide, between the Kootenai and Pen d'Oreille rivers, but in the Kootenai slope. These prospects were obtained in a north-east direction from the Callis Spells; I think it is the party of whom I spoke in a former letter. They sent out to get some provisions, and attempted to cross the mountains on their return, but were unsuccessful. They had to retrace their steps a considerable distance on the Kootenai trail. I understood a contract has been let to cut and clear out the timber from the trail leading from the Cabinet Landing, to Thompson River. The storms last winter and spring filled it up so much that it was difficult for loaded trails to pass over it. The steamer Mary Moody is still running. The owners, at one time, had thought of laying her up, but it has been decided to keep her running until the business season closes. Yours, D. J. S.

STATE ELECTIONS.—Pennsylvania, Ohio, and Indiana hold their elections for Congressmen and other officers, on Tuesday next, October 13th. The elections in these three great States will practically decide the Presidential election. The democratic organs and presses are all sanguine of carrying these States.

BANISHING BLAIR.—The New York Sun is responsible for the statement that the radicals, wherever practicable, have banished Blair's Rhetoric from the public schools. But it adds that they find it impossible to keep it out of the newspapers. THE HOUSTON TELEGRAPH says: To day there is not as much crime in Texas as among the same amount of population in any part of the North. Men of the North are just as safe in Texas as in one of their own churches at home.

Judge Wycho's Charge to the Grand Jury.

The Court, in its charge to the Grand Jury, devoted a good deal of attention to the affairs of the county, and said among other things that he had been informed that the Territory had sent a statement to the county, claiming that the county was indebted to the Territory about five thousand dollars, but the Court thought if the account of the county with the Territory was properly kept, the county would not be charged with a cent, and it was probable this amount arose from a failure to report to the Territory the amount of delinquent taxes, for which the county should be credited, and from a failure of the county to report the cost bills in criminal cases, for which the county was entitled to a credit in its settlement with the Territory, and the Court read the provisions of the law on these matters, and directed the Jury to inquire into the facts and report. The Court said also, that a law had been passed in 1865, levying a Chamberlain tax, which the County would not be charged with a cent, and it was probable this amount arose from a failure to report to the Territory the amount of delinquent taxes, for which the county should be credited, and from a failure of the county to report the cost bills in criminal cases, for which the county was entitled to a credit in its settlement with the Territory, and the Court read the provisions of the law on these matters, and directed the Jury to inquire into the facts and report.

REGISTRATION IN MISSOURI.—We have already referred to the effort being made in Missouri to disfranchise all those who are opposed to granting radicalism a new lease of power. To show how far the radicals dare go, we give the following synopsis of instructions from the Superintendent of Registration of Missouri, to the separate Superintendents in their respective localities: "The instructions to superintendents of registration provide that the oath of loyalty shall not be administered to those who sympathized with the south in the late rebellion; a proceeding calculated to perpetuate rebellion and make new rebels. They stipulate that persons whose associations or personal feelings, in the remotest degree, or in the most abstract manner, were understood to be with the rebellion, shall be regarded as disloyal and debarred from the privilege of taking the oath. They provide that young men who have become of age since the registration of 1866, and who are suspected of having entertained disloyal sentiments at any time, 'cannot nor will not, be registered as qualified voters.' They provide that any man guilty of the acts specified by the new radical constitution and registry laws of Missouri shall not be allowed to register; and every man who presents himself must prove that he has not been so guilty. They require from all men who present themselves for registration full evidence that they have not only been uncompromising, unconditional union men from the inception of the rebellion to its close, but that they have since the suppression of the rebellion, demeaned themselves as active 'haters and opponents of the rebel cause, and have not been united and affiliated politically with rebels, secessionists, and southern sympathizers since the putting down of the rebellion.' They assert that taking an oath never to have been guilty of acts against the constitution of Missouri 'shall not be conclusive evidence of loyalty,' but that proof of the stipulation given above must be adduced. They provide that a general reputation for disloyalty shall be sufficient for the board of registration to reject. They provide that naturalized citizens who cannot present naturalization papers must bring evidence as above. They declare that the so-called amnesty proclamation shall be disregarded. They declare that a 'doubt, suspicion, or belief that a man is a southern sympathizer, shall be sufficient to refuse him the right of registration unless he can prove to the contrary.'

N. W. SPAULDING of the Francisco, the Patentee of the well known Spaulding's Patent Inserted Tooth Circular Saws, has commenced suit in the U. S. Circuit Court of San Francisco, before Judge Field against Wm. J. Tucker, agent for an American Saw Co., for infringement of his Patent. Alleged damages \$5,000. Contingent not exceeding three times the actual damage.

A LADY picked up a pocket-book, apparently well filled, in the New Haven depot, but before she had time to examine it, a well dressed man stepped up to her, and with exceeding politeness informed the lady that he had just dropped it. A minute after it was handed to him the lady who had dropped it came out of a car looking for the lost article, but the polite gentleman was gone. THE novelty of a 'fat man's clambake' came off at Gregory's Point, Conn. Any man weighing 200 pounds and upwards was requested to participate. Thirty-five assembled. But two, on weighing, proved to be of that sylvan standard. The roast ranged up to 238, and the five heaviest were of 268, 208, 304, and 315 pounds. The cloudy, smoky weather still continues all over the coast.

The Public Debt—Striking Illustrations.

The Louisville Democrat has taken to illustrating the public debt, with a view of showing up its immensity. It says that the statement of the public debt published August 1, 1868, confesses that the amount of the great 'national blessing' foots up \$2,523,534,480! These figures represent an amount of indebtedness that few can comprehend. Its immensity is barely within the bounds of human calculation, and would prove appalling to a nation of Rothschilds, Baring and Peabodys. It stands upon the ruin of the Constitution, amid the crumbling pillars of the American Republic, a monument of radical misrule, incompetency, villainy and despotism. While it represents the price of our national ruin and degradation, it is eloquent of national bankruptcy, intolerance, and eternal taxation, and of selfish subjugation of the poor to the rich. The tax-gatherers, of whom it is the fertile parent, are now busy, in every street, lane, highway and by-way in the land, and are as disastrous to the prosperity of the country as the seven plagues to which Pharaoh was compelled to succumb. They demand taxes for— The hat on your head, The boots on your feet, The clothes on your person, The food you eat, The tea and coffee you drink, The pot it is cooked in, The cup you drink it out of, The implements on your farm, The tools you work with, The paper you write on, The pen and ink you use, The papers and books you read, The furniture in your house, The gas or oil you burn, The coal you consume, The stove you burn it in, The match you light it with, The medicine you take, The tobacco you smoke, The pipe you smoke it in, The dishes on the table, and All you eat off them. Those of our readers who deal in money, and who are in the daily habit of inspecting piles of greenbacks, may be interested with the following illustrations, which we find in the Frankfort Yeoman: The highest mountain in the world is a peak of the Himalaya Mountains, in India, which reaches the altitude of 28,178 feet, or a little less than five and a-half miles. The public debt of the United States, according to the official statement of the Secretary of the Treasury, amounted, on the first of the present month, to the sum of \$2,523,534,480. Now, let us for illustration suppose this debt to be in one dollar bills, and piled up before us. Do you imagine it would reach 'mountain height?' Let us see: Allow one hundred notes to the inch, and we have its height To be.....\$5,235,344..... inches! or.....2,102,945.....feet!! or.....700,981.....yards!!! or.....208.3.....miles!!! Or, if the notes were of the denomination of \$100 each, instead of \$1, we should have a pyramid of money reaching about four miles high! whilst the highest mountain peak in North America (Mount St. Elias, in Russian America) is but 17,900 feet, or less than 2 1/2 miles! Still further; let us suppose the debt to be in silver instead of notes, and estimating \$16 to the pound, we have a weight of debt amounting to just 157,720,905 pounds! or 9,857 car loads (at 15,000 pounds to the car), which would make a train of cars 50 miles in length, allowing but thirty feet to the car!!! But let us illustrate a little further; and suppose it were necessary to take the silver dollars from the mint, employing porters for that purpose, requiring each man to carry forty pounds. In that case it would take about 4,000,000 men, who, standing three miles long; and marching at the rate of three feet apart, would make a line about 3,000 miles long; and marching at the rate of three miles an hour it would require about forty days for this debt-burdened army to pass a given point! And the task of counting the debt, in silver dollars, would be one of almost endless duration. Let us see: A man commencing August 1st, 1868, and working ten hours each day and counting sixty dollars each minute, would accomplish the job A. D. 4368. But there are other illustrations of the magnitude of this great 'national blessing,' which cannot fail to arrest the attention of farmers, to whom the following is addressed: At \$2 per bushel the public debt represents 1,261,767,245 bushels of wheat, or 37,853,017 tons. To transport this amount in two horse wagons, allowing one ton to weigh, would require 37,856,017 wagons and 75,706,034 horses! Give each team thirty feet space, and you have a cavalcade which would encircle the globe! But we tire of these illustrations, as we do of everything pertaining to radical rule, which in a brief period has crewed their work with immortal infamy by a monument of debt which, like the pyramids, are more conspicuous from the desolation that surrounds them.

HORSE TRAINING.—Professors Wallace and Wilson, both celebrated horse trainers, have arrived in town, and will give an exhibition of their skill in training horses, at Kraft's ivory stable, on Friday) afternoon, at 2 o'clock. These gentlemen claim to have improved on the Rarey system of training, and in their hands the most wild and vicious horses at once become tractable and gentle. Their system, as we understand it, combines kindness with firmness—the only proper treatment for such a noble animal as the horse. THE wheat market remains unchanged. Money Market. San Francisco Legal Tender rates. 71@72 New York Gold Quotations. 140

FINED.—The man Sheets, who was arrested on the charge of disturbing a house worship, pled guilty before the District Court, and was fined \$100 and costs.

NIGHT SCHOOL.—Mr. Cross, of the lower District School, proposes to open a night school for the benefit of young men whose early education has been neglected.

POLITICAL.—Messrs. Slater and Meacham, the democratic and union candidates for Presidential electors, are announced to speak at Walla Walla Crossing, on Monday next, at 1 p. m.

ADJOURNED.—Judge Weche adjourned the District Court over from Thursday to Monday, in order to afford jurymen, witnesses, lawyers, &c., an opportunity to attend the Valley Fair.

AT HOME.—H. E. Johnson, our worthy and popular Postmaster, after an absence of several months in the Atlantic States, is again at home, glad to get back to the "grasshopper" country.

ACCIDENT.—Last Monday, as Mr. Alexander Blackall, who is in charge of the ranch of Philip Ritz, was endeavoring to kill a hawk with a revolver, it was accidentally discharged, the ball tearing the flesh from the left hand between the thumb and fore finger, making a very painful wound, but not breaking any bones. The wound was dressed by Dr. Steinberger, and the patient is doing well.

PERRY CREEK DUST.—Dr. J. H. Day has assayed a portion of the dust brought down by Hon. D. M. Drumheller from the newly discovered mines on Perry Creek, near Kootenai. He reports the dust 90% fine, and worth \$18 72 per ounce. This assay is higher than the Kootenai and about equal to Big Bend dust. The dust was unusually clean and probably showed a higher rate of fineness than may be expected from the ordinary yield of the mines.

SOLD OUT.—The photograph establishment of P. T. Shupe, late of this city, was sold out on Tuesday last, to meet the claims of his creditors. No public notice having been given of the sale, the things sold for a mere song. The building, worth probably \$200 or \$1,000, sold for less than \$300, a camera that a few months since cost \$100 gold coin, sold for twenty in currency, and so on to the end of the list. In the language of Cheap John, the "sacrifice was terrible," and the proceeds will go but a short way toward meeting Mr. Shupe's liabilities.

FINE POTATOES.—Messrs. Jacobs & Green have sent to this office a specimen lot of potatoes, grown on their ranch. They are of the variety known as the "Irish Cap," and are of recent introduction. The "seed" for these potatoes was brought from Washington by General Palmer, and the present is the first season they have been cultivated in this Valley. They are of unusual large size, 37 of them selected almost at random weighing 5 1/2 pounds. All of this year's crop will be received for "seed," the object being to introduce the variety.

MONEY ORDERS.—The postal money order system, which has been constantly growing in public favor since its establishment, has been still further improved by a reduction in rates. Under the new regulations, on orders for sums not exceeding \$20, a fee of ten cents is charged; over \$20 and not exceeding \$30, fifteen cents; over \$30 and not exceeding \$40, twenty cents; over \$40 and not exceeding \$50, twenty-five cents. The old charge was twenty-five cents on all sums between \$20 and \$50. All that remains now to perfect the law is to make provision for orders payable in coin. In the Atlantic States this may not be necessary, but on the Pacific slope it would be a great convenience.

PERSONAL.—During the week we have had quite a number of distinguished visitors, attracted here by the Fair, or having business before the Court. Among them we notice S. D. Howe, Assessor of Internal Revenue. Mr. H. is accompanied by his lady. John W. Brazee, Chief Engineer of the O. S. N. Company, is here to look over the line of the proposed railroad. Hon. Leander Holmes put in an appearance early in the week, and is attending on the District Court. Marshal Huntington is here, and having with him the greenbacks to pay off witnesses, jurors, &c., has been warmly welcomed. Last of all is our old friend Butler and lady, of Olympia, who have been visiting the State Fair at Salem, and now come here to witness what Walla Walla Valley can furnish in the line of fine stock, big squashes, pumpkins, potatoes, &c. We trust that the "grasshoppers" will treat kindly these representatives from the land of "clams."

FOR THE NEW MINES.—For the past week there has been a constant stream of persons leaving this Valley for the newly discovered mines, an account of which, furnished by Mr. D. M. Drumheller, we published last week. One of the original discoverers, a Frenchman, has written to his friends to come up, and the result is a general stampede of Frenchmen from this Valley. We have only to repeat the advice already given—that is for parties to get with full stocks of provisions. The supplies at Kootenai are limited, and with a rush will soon be exhausted. Those who have the means to go with suitable outfits will doubtless find it to their advantage to visit the mines this fall—their chances for securing good claims will certainly be better than if they defer the trip to spring. Under the impetus of the rush, horse-flesh is in demand, and good Cayuses are quoted at from \$20 to \$30.

MARRIED.—At Walla Walla, on the 7th inst., by Rev. Mr. Chamberlain, Mr. CHARLES FLECKER to Miss KATHARINA HATER, all of this city.

At the residence of Jesse Drumheller, Esq., October 5th, 1868, by Rev. Mr. Ross, Hon. D. M. Drumheller to Miss S. E. WARREN, all of Umatilla county, Oregon. [Sacrament papers please copy.]

DIED.—At Walla Walla, on the 5th inst., ELIZABETH P. wife of Thomas Crawford, aged about 50 years; a native of Clarkburg, Harrison county, Virginia, and for the past year a resident of this Valley. Deceased for a number of years was a consistent member of the Christian Church, and died in the hope of a blissful immortality. [Missouri Republican and Clarkburg, (Va.) papers please copy.]

LATEST EASTERN NEWS.

Dates to October 1st.

[COMPILED FROM THE OREGONIAN.]

INTERNATIONAL POSTAL REGULATIONS.

Washington, Oct. 3.—An arrangement has been concluded between the postal departments of the United States and Great Britain to take effect on the first of January next, for the registration of letters conveyed between America and the British West Indies and Columbia, Bolivia, Peru and Chile in the British mail; the registration fee to be collected in the United States is eight cents on each letter in addition to the ordinary postage.

STEAMSHIP MATTERS.

New York, Oct. 3.—It is reported in Wall street to-day that the opposition line of steamers to California has been withdrawn. There is no confirmation of the report.

CONVENTION OF COLORED MEN.

Boston, Oct. 3.—The National Convention of Colored Men, in session here, has made arrangements for a mass convention on Monday night. The convention is composed of thirteen delegates, two each from Florida and North Carolina, three from Virginia, one each from Texas, Kentucky, Georgia, Massachusetts, New York and Maine.

STORM IN LOUISIANA.

New Orleans, Oct. 3.—A storm of wind and rain commenced here on Thursday night and has raged ever since with but a short interlude. It shows no signs of cessation. A continuous east wind has backed the waters of Lake Ponchartrain through the canal and swamps until the whole of the rear part of the city is inundated with an unbroken sheet of water from Claiborne street to the lake. The water is pouring over the banks of the canals and is still rising. The Ponchartrain Railroad and several street railroads are obliged to stop running.

Aberly, Oct. 1.—The jury in the case of Samuel Eaton, prosecuted for manslaughter in the matter of the Aberly railroad disaster, acquitted the prisoner. The trial aroused much excitement.

BY ATLANTIC CABLE.

London, Oct. 3.—Perfect order reigns in Madrid. At Barcelona, the people sacked the town hall and publicly burned the statue of Queen Isabella. Col. Chess, who sought to repress the riot with his gang, was fired on by the mob, but fled and escaped under cover of night.

Disraeli has issued an address to his constituents of Buckinghamshire upon the course pursued by the Ministers on the questions of reform, national finance, the relations between England and foreign nations and the triumphant termination of the Abyssinian war. He comments at length on the reform progress and gives its history and recounts his objections thereto. He holds that the ministry had the right to expect that Whigs would wait and learn the temper of the new Parliament on that question before pressing its consideration, but they saw fit to bring before the House of Commons at the last moment a proposition severing the Church and State. The dismemberment of the Irish Church was meant and included in this movement. It involved also the stirring up of additional rancor and bitterness in England. It would unsettle property, make confiscation contagious, and worse than all, would give England over to Popery and practically the rule of Foreign Powers.

Paris, Oct. 2.—The French Guards have been withdrawn from the Spanish frontier. The *Moniteur* says that the reason Marshal Serrano has not arrived at Madrid is, he is afraid to leave the army in its present disordered condition.

It is reported that when the Queen of Spain left San Sebastian, she took all the crown jewels and royal regalia, together with 23,000,000 rials in gold. The leading bankers and the leading merchants of Andalusia have offered a loan of 85,000,000 reals to the Provisional Government.

Madrid, Oct. 1.—Proclamations will soon be issued for elections to be held throughout the Kingdom to those members to the Provisional Junta, to meet at an early day in Madrid. The leaders of the revolution are acting together in accord.

Marquis Navolichiez died in this city this morning from his wounds. General Colony, while preparing to fly to France, was arrested and handed over to the Revolutionary Junta at Burgos. Madrid is quiet. Generals Prim and Serrano have not yet arrived. San Sebastian has advised the Queen to inaugurate civil war, but Basque refused to supply men to organize for that purpose. Basque provinces have since given in their adhesion to the revolution.

Madrid, Oct. 2.—An election for members of the new Junta is in progress. Perfect order is maintained. General Colony has been arrested and sent to Fortress San Antonio, where he will be confined till his trial commences.

Paris, Oct. 2.—The latest reports from Spain state that Marshal Serrano will not go to Madrid, because the national guard hold possession of the city and refuse to admit the troops of the regular army under his command. It is rumored that a republic has been proclaimed, and that a proclamation has been issued in Catalonia which demands a republican form of government for Spain.

Bremen, Oct. 3.—The *Messermarck* says that the Federal Government of North Germany has made a contract with the North German Lloyd's Steamship Company for establishing a money order system between the United States and Germany.

GREAT FIRE. Victoria, Oct. 5.—Further particulars of the Barkerville fire were received here last evening. It is thought that the losses will not exceed \$700,000. The total number of buildings destroyed was 116. The following parties are the heaviest losers: Stronach & Co., \$100,000; Hudson Bay Co., \$65,000; Adler & Barry, \$18,000; J. H. Todd & Co., \$10,000; Adamson & Hurd, \$15,000; Leeny & Brun, \$20,000; Manetta, \$6,000; J. Weill, \$10,000; A. Campbell, \$12,000; Greenbaum Bros., \$25,000; Cohen & Holman, \$32,000; Bank of North America, \$1,000; N. Cunio, \$40,000; Kerony, Lee & Co., \$40,000; F. Castagnelle, \$33,000; Bank of British Columbia, \$3,000. Stronach & Co. were insured for \$40,000. Nearly all the others were uninsured. New buildings are being erected as rapidly as possible, and all the department of mining and trading will progress as if nothing had occurred to disturb the prospects of the country.

The Oregon Senators Repealed.

The following preamble and resolutions passed the Oregon State Senate by a vote of 12 to 9, and in the House by very nearly a two-third vote:

WHEREAS, Geo. H. Williams and Henry W. Corbett, now holding seats in the Senate of the United States from the State of Oregon, have misrepresented the people thereof in this, that amongst many other grievous wrongs, they have supported and voted for measures in the Senate which were in plain and palpable violation of the Constitution of the United States, among which measures are those known as the Reconstruction Acts of Congress, which acts, in their enforcement, have overthrown and subverted civil liberty and free government within eleven States of this Union, and consigned the citizens thereof to odious and despotic military dictatorship, unknown to our Constitution, and in derogation of its most sacred guarantees; depriving the citizens of those States with out trial or conviction, of the sacred rights of trial by jury and the elective franchise; consigning their lives, their liberty and their property to the mercies of those who are without responsibility to the people over whom they exercise their authority, and obedient only to those who hold the power to command them for their oppressive acts; said pretended reconstruction acts give the people of those States the alternative of a perpetual wearing of the galling yoke of military power and oppression, or submission to the more degraded fate of being governed by the hordes of ignorant, deluded negroes. The said Williams and Corbett have betrayed and misrepresented the people of this State in their support of measures calculated to destroy the constitutional powers and prerogatives of the Supreme Court of the United States, and to usurp the constitutional functions of the Executive. They have been actuated by unworthy partisan motives in their efforts to impeach and remove the President of the United States for pretended high crimes and misdemeanors. In the case of Senator Williams, comparing his speeches in the Senate upon the Tenure of Office Bill with his subsequent votes for the impeachment of the President for a pretended violation of that act, we are constrained to believe that he acted from improper and unworthy motives; therefore be it.

Resolved, By the Legislative Assembly of the State of Oregon: 1st. That George H. Williams and Henry W. Corbett, now holding the offices of U. S. Senators from the State of Oregon, be and are hereby instructed to resign the same, to the end that persons may be selected as their successors, who will faithfully and honestly represent the State of Oregon in the United States Senate.

2d. That copies of the foregoing preamble and resolutions, signed by the President of the Senate and Speaker of the House of Representatives, be forwarded by the President of the Senate to said George H. Williams and Henry W. Corbett, to the President of the Senate and the Speaker of the House of Representatives of the Congress of the United States of America, at as early a day as practicable.

PRIVATE MEDICAL AID. QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY. PRIVATE MEDICAL AND SURGICAL INSTITUTE, Sacramento Street, Below Montgomery, opposite the Pacific Mail Steamship Company's Office. (Private entrance on Leidesdorff street.) SAN FRANCISCO.

Established Expressly to Afford the Afflicted Sound and Scientific Medical Advice in the Treatment and Cure of all Private and Chronic Diseases, Cases of Secrecy, and all Sexual Disorders.

To the Afflicted. DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to do so at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases; Syphilis in all its forms and stages, Gonorrhea, etc., etc.; and he has not his long experience and successful practice will continue to insure him a share of public patronage.

DR. W. K. DOHERTY's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret inordinately affects the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory celibacy, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tastes long afterwards; patients laboring under this complaint will claim of one or more of the following symptoms: Nocturnal Emission, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory causes, Ideas are clouded, and there is a disinclination to business, or even reading, writing or hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, fainting, coughs and slow fever, while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and aching in different parts of the body. Patients suffering from this disease should apply immediately to Dr. Perrault, either in person, or by letter, as he will guarantee a cure of Seminal Emission and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Stricture, Ballo Urethra, Catarrhus Urethrae, etc., will be treated successfully. All Syphilitic and Mercurial taints entirely removed from the system.

DR. PERRAULT'S diploma are in his office, where patients can see for themselves that they are not or the celebrated female doctor, W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delusion prevent you, but apply immediately and save yourself from painful suffering and premature death. All married ladies, whose delicate health and honor-able way, and the increase in their families, should visit or call at DR. W. K. DOHERTY'S Medical Institute, and will receive every possible relief and help. The Institute is so arranged that the case can be consulted without fear of observation.

To Females. When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, in Europe, and the United States, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, she should go to Dr. W. K. DOHERTY, at the celebrated female doctor, W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delusion prevent you, but apply immediately and save yourself from painful suffering and premature death. All married ladies, whose delicate health and honor-able way, and the increase in their families, should visit or call at DR. W. K. DOHERTY'S Medical Institute, and will receive every possible relief and help. The Institute is so arranged that the case can be consulted without fear of observation.

To Correspondents. Patients residing in any part of the State, lower or distant, who may desire the opinion and advice of DR. DOHERTY in their respective cases, and who will prefer to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred and confidential. If the case be fully and candidly described, personal communication will be unnecessary; as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey the object of the letter or parcel so transmitted.

Spermatorrhoea. DR. DOHERTY has just published an important pamphlet, embodying his own views and experience in relation to Impotence or Virility, being a Short Treatise on Spermatorrhoea or Seminal Debility, Nervous and Physical debility consequent on attention, and other diseases of the sexual organs. This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.

Conventions—by letter or otherwise—FREE. Permanent cure guaranteed or no pay. Address: W. K. DOHERTY, San Francisco, Cal.
