PASSING AWAY. The sweet Summer roses are passing away; Their beauty is wasted, their fragrance has fled. And withering they lie in their damp, lowly bed.

OUR WASHINGTON LETTER. WASHINGTON, Oct. 25, 1877. EDITOR STATESMAN.—Since my last letter there has been presented in the senate several bills providing for the coinage of silver dollars, and making them a legal tender for all debts, public and private, where neither contract or express law made payment in gold necessary.

Municipal indebtedness. The abuse of the municipal credit system, the facility with which debts are contracted, the payment of which is relegated to coming generations, while the inevitable tendency of the custom is to obstruct present legitimate growth, is one of the crying evils of the day.

THE OPERA HOUSE OF LA SCALA. I have said that La Scala terminated one end of this great glass-roofed avenue. It is the largest opera house in the world, exceeding that of San Carlo, in Naples, by some four hundred seats, while both are superior in seating accommodations to the new house in Paris, although the latter has been in the past.

A LADY IN PRISON.—Mysteriously is a woman's ways. Several days ago, a lady, with a bright and pleasing manner, elegantly dressed, arrived in Columbus, O., and after breakfasting at a hotel, went to a station-house to apply for a lodging. She was given a cell on the first floor, with the privilege of the prison, and she immediately began to brighten the lives of the poor prisoners. She made a decisive onslaught on the roaches and bed-bugs by scrubbing her cell again and again.

PERU-TURKISH.—Public opinion in London is strongly in favor of the Turks. At the music halls and other places where songs form part of the nightly programme, the Turkish anthem is nightly hissed, and the star flag hoisted at, while the crescent and star are flown for an enormous amount of cheering, and the Turkish national hymn is applauded to the echo.

THE WALLA WALLA VALLEY. EDITOR BEDROCK DEMOCRAT.—As the Walla Walla country has attached to it a somewhat historic record, it being the home of the justly famous non-treaty Joseph, chief of a band of Nez Perces, I presume an article from an eye witness of the country would be of interest to your readers.

NEVER FORGETS.—A woman never quite forgets the man who has once loved her, says a distinguished writer. She may not have loved him; she may, indeed, have given him the love of the eyes he hoped for, but the remembrance that he desired a yes always softens her thoughts of him, and would make him, were he so minded, a friend forever.

AN INCIDENT OF THEIR HONEYMOON.—An amusing incident occurred on board the Golden State about a week ago, on its way to Albany, when a slight fire caused considerable consternation among the passengers. The story is a very good one, and we give it publicly, as it demonstrates the true nature of many individuals who, claiming to be men, disprove their right to the title at critical moments by losing their wits and forgetting all else save their own personal aggrandizement.

A PROFITABLE PAIR-OFF.—William T. Coleman, of San Francisco, was talking the other day of his old partner, Edward Mott Robinson, of New Bedford, Mass., whose partnership was a matter of common talk.

SOME OF THE REPUBLICANS are complaining that Senator Sharon is not doing his duty to the party, as he is nearly always absent from his seat. If these growlers had sent him the same sums of money for a seat in the senate that Sharon did, they would think they were entitled to use it as he does.

A SENSIBLE YOUNG LADY admits that although the kiss by telephone may be a great scientific achievement, so long as the hug of the fond arm, and the tickle of the adorable moustache are left out it will never be popular with the girls who have known the good things of life in their natural state.

FINISH PAINTING and very low prices at the Statesman office.

LOST HIS NAME. A somewhat remarkable claim is being filed in the courts of this county, founded upon apparently equitable grounds. A recently released convict from the state penitentiary, who served a term of ten years under an assumed name, now desires to claim his wife, his own name, and his property, which he left in the care of his partner and friend ten years ago.

THE WALLA WALLA VALLEY. EDITOR BEDROCK DEMOCRAT.—As the Walla Walla country has attached to it a somewhat historic record, it being the home of the justly famous non-treaty Joseph, chief of a band of Nez Perces, I presume an article from an eye witness of the country would be of interest to your readers.

THE WALLA WALLA VALLEY. The climate varies. In the northeastern portion on the Joseph, Imnaha creek and on some other creeks peaches and other tender fruits can be successfully produced. Snow scarcely ever lies long on these localities.

THE WALLA WALLA VALLEY. The hills and flats are as a general thing of a deep black loam and do not need irrigation to produce the cereals. The valley lands have a coarse gravel mixed in the soil, in many places, and that may be an objection to much nice level land, but I am informed that that kind of soil will produce fine crops and is warmer than other lands possessing much less gravel.

THE WALLA WALLA VALLEY. The name is purely of Indian derivation meaning a cross. The old Indians say that long time ago an Indian built a fish trap and crossed the upright poles to sustain its weight, hence the name Wallowa, which means cross. The Wallowa is about four times as large as the Grand Ronde river and used to bear the name Wallowa below the junction of the Grand Ronde river.

THE WALLA WALLA VALLEY. The name is purely of Indian derivation meaning a cross. The old Indians say that long time ago an Indian built a fish trap and crossed the upright poles to sustain its weight, hence the name Wallowa, which means cross. THE RECEIVER.—Stolen goods eventually bring the possessor to grief and shame, and Mr. Hayes is gradually realizing the inevitable doom.

THE SOUTHERN STATES, counties and municipalities, owe in round figures about five hundred millions of dollars, upon which, as a rule, no interest has been paid since the beginning of the war.

ELECTIONS.—Dispatches have been received indicating that New York, Pennsylvania and New Jersey have gone democratic, and that the republicans carried Massachusetts and Wisconsin by smaller majorities than usual. In New York the democrats elect their state ticket, and the republicans carry the legislature.

REPUBLICAN POLICY.—It will be the policy of the republican senators not to attempt to overrule Mr. Hayes' action in the South, as that would be an impossibility, but to prevent the South from benefiting by it to any further extent, and by all sorts of implications to condemn it. Covert attacks and severe insinuations will be the order of the day.

TOTTERING.—Nothing but a miracle can save Mr. Hayes' administration from utter breakdown. His situation is already that of John Tyler; that of Millard Fillmore, that of Andrew Johnson; that of an executive unsupported by a coherent majority in the legislature, and without a strong, compact party organization in the country recognizing him as its leader and chief.

POLITICAL SUICIDES.—They did the dishonest thing, which, in politics, nine times out of ten, is the silly thing, and their hopes are blighted forever. Conkling, Edmunds, Blaine, all are men of power; but they are political suicides, killed by the fraud that counted at Hayes in the elections in Ohio, Pennsylvania, New York and New Jersey, are only the beginning of a storm that will leave them all stranded high and dry.

CLINGING TO POWER.—The radicals in the senate have, it is now conceded, resolved to keep out the democratic members from Louisiana and Florida till the meeting of the regular session. The party cannot be expected to vote its power away, as, with the present absence of Sharon, the admission of Spoford and Eastis, of Louisiana, and Butler, of South Carolina, would make a tie vote, counting Davis, of Illinois with the democrats.

REPUBLICAN UNEASINESS.—Our republican friends are giving themselves unnecessary uneasiness concerning democratic calculations for 1880. Democrats are not worrying about 1880. Sufficient for the day are the blessings thereof, but they must be made as big as possible. In 1880 we expect to control all the returning boards, and will see to it that they are honestly employed. At present the democracy have to complete their mission of making fraud infamous.

THE LESSON OF NEW YORK, NEW JERSEY, PENNSYLVANIA AND OHIO will be misunderstood by none who are not stone-blind to the irresistible logic of such sweeping revolutions. It means the utter overthrow of the republican domination, and assures democratic ascendancy until democratic folly shall make history repeat itself in democratic defeat. It is a crushing rebuke to Hayes, for it spurns him from the republican temple and bids him worship at altars.

THE RESUMPTION ACT IN THE HOUSE.—The test vote in the House seems to indicate the probability that the repeal of the resumption act will not be carried by such a majority as will render it possible to pass it over the president's veto, supposing that it should get through the Senate. We regard this vote as showing that the repeal of the act cannot be effected this session, for it may be considered as certain that if it should find its way to the president he will veto it, and if he does it is clear that there will not be strength enough to carry it.

THE OFFICIAL RETURNS.—The official returns of the vote of Ohio, at the election of the 9th ult., are finally at hand. The total vote for West was 248,945; for Bishop 271,625—Bishop's plurality over West, 22,680. Bond, the Cincinnati nominee for governor, on the workingmen's ticket, received a total vote of 12,489. Johnson, candidate of the greenback and national workingmen's coalition, had 16,912. Thompson, the prohibitionist candidate, had 4836. Adding 90 scattering votes we find the total outside the republican and democratic parties to be 34,327. The total vote cast for governor is 534,879; so that Bishop lacks 5824 of having a majority of the whole vote, while West, lacks 28,504.

BEGINNING TO CRAW-FISH.—Hayes has begun to feel that the pressure of the radicals is beyond his power of resistance or endurance, and has weakened before it. But he does not conduct himself like a candid, earnest man, under the circumstances. Instead of honestly admitting that his civil service reform policy was an error, he endeavors to crawl-fish out of the Arkansas water the poor plea that it has not been rightfully interpreted, and thus seeks to shift the onus from his own name upon the shoulders of his party. He has not the pluck which John Tyler displayed in his stand against the whig party, nor the resolution which distinguished Andy Johnson in his break with the radicals, and now that the strong men of his party have overcome him he will henceforth be with them like clay in the hands of the potter.

SENATOR MORTON breathed his last on Thursday, November 1st. His death, although so long expected, caused quite a sensation. Both houses of Congress adjourned out of regard to the dead Senator, and every mark of respect was paid to his memory. Deceased was not a favorite with us during his life time, and we have no manly tears to shed over his grave. A man of great force of will, he had no scruples about the means used to accomplish his ends. The chief in the conspiracy, to force a defeated candidate into the presidential office, he more than any other man must be held responsible for that great crime. As a warning to the living, it is right to place upon record the fact that there are crimes for which even death affords no atonement, and the memory of which will follow the perpetrator beyond the grave. The rule may seem a harsh one, but it is necessary for the class of men who having no fears for the present can only be restrained by apprehensions of the hereafter.

VERY CIVIL SERVICE.—Attorney General Devens' letter to the Boston politicians is a document without which it will be impossible to write the history of the way in which a president has been bullied into the admission that he never had any intentions; or, if he had, that they were very little ones. Civil service reform started under this administration with its meaning defined by the phrase about 'dis-establishing the machine.'—a good phrase which presented, happily, the great evil that the reform was intended to remedy. By the present system of office-holding the professional politicians have become, in this country, a caste apart from the people—a kind of bogus aristocracy, with exclusive privileges, rights and powers. Their dominancy is maintained by the offices they hold; the patronage they control, so that the people, in the taxes they pay, support and keep alive the power that defests in party caucuses the pretence of the law that the will of the people declared at the polls is sovereign. It was a good move in civil strategy to strike at the existence of this power by cutting off its supplies, for if absolute separation is ever secured between office-holding and the trade politics this trade will perish and the power of the people at the polls will be again as real in fact as it is presumed to be in theory. But this separation will not be made by president Hayes, for the simple reason that he has not the kind of backbone that is necessary for such a purpose. Gen. Devens' letter is a formal surrender "for the sake of the party."

THE SITUATION.—A correspondent describing the condition of affairs at Washington, says that Hayes is sadly deficient in backbone, and among his cabinet officers there is not one who possesses it. Sherman has more of it than any other, but in his disposition to substitute craft for candor he has lost the courage of his conscience. Evarts has no more backbone than an eel, and Schurz, who is to him the next most influential cabinet officer, is proverbially supple in the ways of those who eke out the lack of physical courage with diplomacy. If the radicals had now in either house of Congress a leader with the vim and boldness which characterized Thad. Stevens, the administration would not stand against them another day, but would surrender at discretion. Conkling has not the pluck to lead a vigorous assault—he prefers argument rather than action, and with him words are more ready than deeds. Blaine has the spirit of daring in him, but he flags too soon, and is not the man to lead a long and steady assault to successful issue. Gen. Garfield is measurably benumbed by the chill of his own defeat for the senate, and the result of the Ohio election, and the power or knack of leadership has gone from Banks and Kelley, while Ben Butler sits indifferent toward all, with his hat full of bricksbats to throw right and left, as the devilishness of his nature or the temporary streak of wicked or mischievous humor prompts him. He will worry rather than help Hayes and his party.

JOHN WELCH, the newly appointed minister to England, is a very respectable Philadelphia merchant, who made the importation of sugar his principal line of business, and has lived seventy-two years without attracting public eye. Let us not assume, in consequence of Mr. John Welch's obscurity, that he is not a proper man for the place. He is said to have maintained a high character, in spite of the opportunities the sugar business afforded for increasing the weight of one's merchandise without adding to its virtue. We may at least rest assured that Mr. J. Welch will not write a treatise on drapery while in London, nor give oral instruction to London ladies in its mysteries. He will be a respectable minister, and his wealth enables him to support the state in which foreign ministers in London are expected to live. It does not appear that Mr. Welch has any special knowledge of the art of diplomacy, or that there is any reason why he should receive the appointment in preference to a hundred other retired and worthy merchants, except that the mission had been promised to Pennsylvania, and Cameron would not do. There are few things in this world so beautiful as civil service reform, when its principles are rigidly adhered to.

AN AVALANCHE OF BUSINESS.—It is stated that over 800 bills have already been introduced in the House of representatives. There is some doubt whether public business would be taken up at the extra session, but if it does not indicate business, the average member of congress can boast of little experience in that line. The referring power of committees comes into play in the disposition of this vast number of bills. Very many of them will never be heard of again. In common parlance, they will be killed in committee. In other cases a dozen bills will be merged into one and a new bill reported by the committee. It may bear some other member's name, but is pretty sure not to be any one member's work. The bills to renege silver are almost as numerous as the silver advocates. Private bills are mostly definitely considered in committee. The House is guided by the recommendations of the committee, who are supposed to have examined into the merits of each bill referred to them. It is only by some such process of committee work that the House can transact any business. It certainly cannot examine any portion of the bills that come before it except through a regular or special committee.

BLAINE, it seems, has postponed the hopes of the republican party until 1884, and considers that he himself will then be the Moses who will lead them out of the wilderness and jangles through which they are now wandering and groping, into the promised land of office and spoil oncemore. He abandons all anticipations of a republican triumph in 1880, conceding that the election of a democratic president in that year is a foregone conclusion. Sensible Blaine! But the wonder is that he admits such a result as being possible. However, the logic of events is incontrovertible, and even he who runs may read.

THE SIZE OF IT.—The Cincinnati Commercial prints official returns from all but three countries in Ohio, showing the following result of the vote for Governor: West (republican).....242,976 Bishop (democrat).....281,101 Bond (socialist workingmen).....12,489 Johnson (greenback).....15,736 Thompson (prohibition).....4,630 Bishop's majority over West.....38,124 Bishop's majority over all.....5,270

THE POST OFFICE DEPARTMENT has directed that all the employees connected with the postal railway service must be uniformed. The object of the order is to secure greater safety in the service, and is a very proper one.

WASHINGTON LETTER.

TALK OF AN ADJOURNMENT.—MEMBERS ASKED REGARDING THEIR DUTY AS POLITICIANS.

WASHINGTON, Oct. 26, 1877. Though two weeks have already passed of the extra session, and nothing is yet accomplished in the way of legislation, there is some talk among the republican members of the House to press an adjournment on Friday, the 21st of November, till Monday, the 12th of November, in order to allow the members an opportunity to go home and vote. The Massachusetts republicans, remembering the value of a single vote in the Constitutional campaign which elected Morton by one vote, will urge the adjournment. The other hand democrats incline to the belief that they have come here to transact business, but are puzzled how to avoid election duty, the regular session of congress always beginning after the fall elections.

THE PAY OF THE NAVY.—SECRETARY ROBESON'S ADMINISTRATION TO BE THOROUGHLY PROBED.

The prospect gets no better for the early payment of money due the officers and men of the navy for the closing quarter of the last fiscal year. It was supposed that with the assembling of congress in extra session the matter would be adjusted at least as soon as the 1st of November, but a leading congressman, in sketching the probable future of the session, said to-night that with the announcement of the committee on Monday next the appropriation committee would be ready to report the army bill on Tuesday morning, and the House could pass it and send it over to the senate, congress could adjourn sine die, for it would take all the interval until the first Monday in December for the naval committee to investigate what ex-Secretary Robeson did with the money intended to pay the navy. "You may rest assured," said the congressman referred to, "the House will never vote a dollar of this deficiency until it explores the rashness of the transaction and brings to light all the secrets connected with the making away of that money. The committee can make the inquiry just as well during the recess, and be ready to report to the House at the regular session in December. As there is nothing to be done therefore but pass the army bill, and as that will not take over a day or two, there is no reason that I can see why congress cannot adjourn over, not only the interval to the regular session, but the whole time to the regular session. I have not heard that the democrats contemplate doing the former, but they are able to do the latter."

THE PENNSYLVANIA DELEGATION AND THE PRESIDENT.—HOW SIMON CAMERON CAME TO BE RECOMMENDED FOR THE ENGLISH MISSION.

One of the republican congressmen from Pennsylvania said to-day that it was a great mistake to suppose that the delegation had the slightest ill will toward the administration because their choice for the English mission did not seem to meet the approval of the President. On the contrary, a majority of the members, had they been left to express their choice, would not have named Mr. Cameron. His selection was rather the result of acquiescence on the part of those who questioned the propriety of his being named, and as the meeting to be called at Senator Cameron's house it was, to say the least, not a pleasant task to tell what those opposed to him thought of the ex-Senator. In a word, had the selection been made by ballot Mr. Cameron never would have been chosen.

THE REMONETIZATION OF SILVER.—SENATOR JONES ON THE FEELING OF THE SENATE.

Senator Jones expresses his confidence that his silver remonetization bill will pass the Senate by a considerable majority. He will oppose the repeal of the resumption act in case his bill or some similar one goes through but he will use his influence for its repeal in case of its failure. The elaborate silver commission report prepared by the Senator will appear in book form to-morrow from the government press.

DEMONSTRATIONS BY THE PRESIDENT. It is stated by a friend of the President that of the large number of appointments made of his ten democrats have been selected, and of this number seven had the support of the republicans living in their neighborhood.

OLD WHIGS AND CIVIL SERVICE.—The civil service reform scheme of Mr. Hayes is a very poor imitation of that which was suggested by Henry Clay in 1842, during the presidency of John Tyler. He advocated "an honest and economical administration of the general government, leaving public officers perfect freedom of thought, and of the right of suffrage; but with suitable restraints against improper interferences in elections." This doctrine, as set forth by the great whig statesman, is essentially different from that promulgated by Hayes. It left the public officer free to think and vote as he pleased, but simply restrained him from offensive partisanship, and its prime requirement was honesty and economy in the public service. The Hayes false pretence scheme of civil service reform professes to inhibit the office-holder from offensive partisanship while it allows men notoriously dishonest and unworthy to remain in important positions. Of the appointees under Hayes, so far, a large proportion are even worse than those appointed by Grant. The de facto president has appropriated the idea of the illustrious Kentucky statesman, but dwarfed the practice of it to his own small mind and delusive purpose.

HIS CHARACTERISTICS.—Of all the senators in public life, Morton was the most uncompromising in his political views. He led in the inception and completion of the various measures which constituted the republican policy of the South, and in nearly all important issues carried his party with him. He was to the Senate very nearly what Thaddeus Stevens was at one time to the House. Now there is a prospect that his seat will be occupied by Van Voorhis, a politician whose sympathy with the right has kept him for many years out of public life.

CROP PROSPECTS IN CALIFORNIA.—We learn that the later rains extended throughout the state, and the farmers are now afforded opportunity to put their ground in condition for crops. So far, there is a bright promise, and if a copious rain-fall shall succeed in proper season, a luxuriant harvest next year will be realized to cheer all and revivify every branch of trade and business. With a prolific wheat crop, according to present indications, the depressing effects of the drought of the past season will be very much relieved. The war in Europe is quite certain to be prolonged into the latter part of the coming year, and the Russian crop will undoubtedly be light, because of the tremendous strain upon her hard-bodied population to recruit her armies in the campaign, which takes from the agricultural regions the best workers.

CAMERON AND CONKLING represent a class of stunted statesmen who have never attained a stature above that of party leaders. They have dwarfed themselves to the caucus and the convention. They have stooped to the low work of distributing patronage until they can reach no higher. Perhaps it would be correct to say that they naturally and exactly fit the caucus and convention, and that they are just upon a level with the business of office distribution. In either event they shut out from public life men who might become statesmen of a larger growth.

HAYES has one chance of saving his administration from absolute ruin and disgrace. If he will recognize the judgment of the people as pronounced in Ohio, New York and Pennsylvania, and in obedience to that judgment, dismiss his present incongruous and ridiculous cabinet, organize one composed of able and experienced democrats and boldly throw himself into the arms of the democratic party, he will save his administration and be able even now to accomplish much good for the country.

THE LOSS.—What a vast amount of money honest people lose by bad debts. During the first nine months of the present year the amount of money involved by failures in the United States and Canada, was a fraction over one hundred and twenty-two millions of dollars. How large a portion of this amount will be entirely lost is not known, but probably two-thirds of the whole amount. This is a fearful loss for those who have to bear it.

FATALITY.—The death of the little hybrid, after an existence of six days, suggests the question: "If I was so soon to be done for, I wonder what I was begun for?"

SENATOR PATTERSON, of South Carolina, stands a very good chance of being invited to step down and out. Fifty ex-members of the legislature that elected him have testified that he bribed them.

ROLL OF HONOR.

AVERAGE STANDING OF THE PUPILS IN THE DISTRICT SCHOOL OF MILWAUKEE FOR THE MONTH OF OCTOBER. George A. Nichols.....91 Samuel A. Miller.....95 Henry A. Bronson.....93 Marion D. Crow.....95 Horace J. Sullivan.....91 Alphonso D. Sullivan.....99 Morris A. Crow.....98 Willie M. Spence.....99 Sonner B. A. H. REYNOLDS has closed his bank, and it is understood, will retire from active business.

HAWLEY, INDO & Co. are friends of the farmers, and lend them money on favorable terms. See notice.

SHRIMPERS are now shipped up from Portland and sold in this market at lower figures than the inferior shrimps that are brought in from the mountains.

MAJOR VICTOR TREVITT, one of the best known men in the country and esteemed by all who know him, is visiting his Walla Walla friends. Welcome, old boy!

HANDSOME PRESENTS.—Persons wishing to make birthday or holiday presents, will find a very fine stock of jewelry, silverware, etc., at Mr. Z. K. Straight's store from which to make selections.

FRAUDULENT HAYES has appointed Tuesday, November 29th, as a day of thanksgiving. We presume the old fraud will return thanks for having been permitted to steal the presidential office.

Mrs. ANDREW McCALLEY was taken very ill yesterday, and for a time her condition was such as to occasion alarm. A most estimable wife and mother, we trust that she will soon be restored to health.

THE RACES.—Owing to continuous rains in the early part of the week and a death in the family of Mr. Bush, the races were postponed. The first race will come off to-day (Saturday) and be continued next week.

MORE LIGHT.—Dr. McCurdy has placed a lamp in front of his residence, on Rose street. This lamp will point the way to Dr. McCurdy's office, as also serve the purpose of lighting up the street.

SCHOOL MEETINGS.—An adjourned meeting of the citizens of district No. 1, will be held at the school house, on Monday evening next, for the purpose of electing a director, and the transaction of other business.

CITY LAMPS.—The members of the city council should lose no time in ordering the city lamps lit up at night. As a protection against burglars these lamps are worth a score of sleepy policemen and their cost is but a trifle. Let us have light.

P. REED, a former resident of the Dalles, and a gentleman in comfortable circumstances, has removed to this valley and proposes to become a permanent settler. He has already purchased a tract of land on Dry Creek, and will at once engage in the business of farming and stock raising.

THE SQUAMISH STEAL.—The house by a vote of 16 to 13 has defeated the bill appropriating \$3000 towards opening a road by way of the Squamish Pass. This was emphatically a "steal," and the house deserves credit for voting it down. If the people of King county wish to open local roads, let them do it with their own money.

L. F. HOLMAN, the man who sought to murder his wife, is still at large, and the impression gains ground that his escape was a "put up job." Sheriff Thomas has offered a reward of two hundred and fifty dollars for his arrest, but up to writing no clue has been obtained as to his whereabouts. Evidently Holman had outside assistance, and it now looks as though he has left us for good.

SIM ATTENDANCE.—The school meetings held on Friday night of last week were but thinly attended. At the upper district the number was so small that it was deemed proper to adjourn over without transacting any business. At the lower district possibly one dozen persons were present, and the business was proceeded with. It is a subject for regret that such little interest is taken in the public schools.

RAINING WHEAT.—In passing along Dry Creek one day this week we noticed that many of the old hay ranches were being converted into wheat farms. Some of the finest hay ranches on the creek were seeded to wheat last year, and a number of others are now being plowed up preparatory to putting in wheat crops. The limited demand for hay and the active demand for wheat has led to the change.

MISS MAGGIE BUTTERFIELD, for the past two years employed in the STATESMAN office as a compositor, is about to leave us to assume other relations in life. We regret to part with Maggie, and in taking leave of her we can bear witness to her kindness of heart and many excellent traits of character. She will ever have our best wishes for health, happiness and every blessing that mortal can desire.

AMATEUR FARMERS.—Dr. J. E. Bingham, one of our leading physicians, turns from the active duties of his profession, and finds relief in tilling the soil. As an earnest of his industry as a farmer he is now engaged in fencing in 1000 acres of wild land, near town, and intends to put the whole to wheat. Dr. Clowe, the dentist, has also a bucolic turn of mind, and quite recently has let a contract for "breaking" 500 acres of wild land. When professional men become tillers of the soil the profession of agriculture must be looking up.

CULTIVATING BENCH LANDS.—One day this week, in company with Messrs. Lee and Rudo, the writer took a short trip into the country. Passing over to Dry Creek we were surprised to find that the bench lands that for years have been regarded as unproductive, were nearly all taken up, and scores of gang plows were at work breaking up the virgin soil preparatory to putting in crops. The experience of the past year shows that these bench lands will produce excellent wheat crops, and hence the rapidity with which they are being brought under cultivation.

THE RAINS of the past week have been beneficial to farmers, and have left the ground in excellent condition for plowing. For 1877 the country east of the mountains has a surplus of 50,000 tons of grain for shipment abroad. From present appearances, 1878 will double their figures, and show a surplus of 100,000 tons. The men who raise these immense crops naturally wish to know where they can buy these dry goods, clothing, groceries, provisions, etc., to the best advantage, and the answer is at Dusenbery Bros., who at all times keep immense stocks of goods and always sell at the lowest prices.

Wealthy Farmers.

As a matter of curiosity the writer has been enquiring into the circumstances of many of the well-to-do farmers of this valley. The result of these enquiries is such as will astonish those who judge of the circumstances of our farmer friends by their everyday appearance. To head the list, we commenced with a farmer who came to this valley 15 years since with no other capital than his two hands and a disposition to pitch in and work. For a time he was employed as a hired hand, but soon took up a claim for himself, and pushed along absorbing land that adjoined his original claim, until he has now 1200 acres of land under cultivation, and in money and property is estimated to be worth fifty thousand dollars. This man, too, has denied himself none of the enjoyments of life. He has taken himself a wife, is raising a large family of children, and is surrounded with every comfort, all the result of his own unaided labor. He has never speculated, or sought to make money by unusual means, but sticking close to his farm, he has found himself at the end of each year richer than he commenced it, until now at middle age he is master of a handsome fortune, every dollar honestly earned. We cite this man's success as an earnest of what can be accomplished by well directed industry.

Another is the case of a man who in the early part of 1862 was broke up in the Willamette valley from the great freshet of that year, and came up to this country with a few head of cattle and not a dollar to pay a grocery bill. This man went to work, was plodding and industrious, wasted no time in idleness, and now within the past few months has settled up his business, disposed of his real property, and as the result is the possessor of over \$30,000 in hard cash. As in the other case, none of this money was the result of a lucky speculation, but all made by close attention to the farm and stock raising. Continuing our inquiry, we found another man who at the time of establishing the Umatilla agency, in 1861, came up here for the purpose of working for the government, and for several years was employed by Mr. Abbott, then Indian agent. Whilst thus employed he invested the few dollars he saved in stock, then took up a land claim, and between stock raising and farming, he is now worth \$40,000, and can draw on his banker for at least half this sum on sight. This man, too, has raised a family, enjoys all the comforts of life, and is anything but penurious. Is liberal in his contributions to all matters of public concern, and fully meets the idea of a public spirited citizen.

Another is the case of a farmer employed as a teamster on the portage between the Dalles and Deschutes. He subsequently came to this valley and drove team between Walla Walla and the landing. He next rented a farm and in a few years made money enough to buy one of the best farms in the valley. This success he followed up until now at the age of possibly forty years he is in independent circumstances, owns a handsome residence near town, has five boys that call him father, and is literally as independent as a lord. We could add to the list a score of others—all farmers—who came to this valley within the last fifteen years, and sticking closely to stock raising and farming, within that time have accumulated fortunes ranging all the way from \$15,000 to \$30,000. We have grouped these facts together for the purpose of showing that in this country there is money in farming—as Lord Duncray would say, "Millions in it!"

PROSECUTING ATTORNEY'S OFFICE.—We have now before us the bill passed by the legislature increasing the fees of the prosecuting attorneys in the several judicial districts. Section 17 of the law provides that each prosecuting attorney shall receive an annual salary of \$1500, in lieu of \$1000 now paid. They are also to receive \$125 yearly from counties having a population of four thousand and upwards, counties having more than two thousand are to pay \$100, and counties with less than two thousand are to pay \$75 yearly. In addition to his pay from the territory and counties, the prosecuting attorney is to have \$15, in each and every divorce case in which the party sued fails to defend. Under the provisions of this bill, the prosecuting attorney for this district will be paid as follows:

Table listing salaries for various counties: Territory \$1500, Walla Walla county 125, Columbia county 125, Whitman county 125, Yakama county 75, Stevens county 75. Total yearly salary \$2025.

The fees in divorce cases will amount to at least \$2000 more, making a yearly compensation of \$4025. In our issue of last week we pronounced this bill a swindle, and now that we have examined the provisions we characterize it as a direct robbery of the people. In the hurry to fasten this thieving measure upon the public, it is provided that the "law shall take effect and be in force from and after its passage." The rascals who passed this bill desire a special session of the legislature. We suppose they have failed to complete all their thieving measures, and desire a special opportunity to complete their work of robbery.

BARBERS.—The fraternity of barbers, including "black spirits and white," have had a meeting for the purpose of considering their mutual interests, and previous to adjournment passed the following resolution: Shave, brother, shave with care. But shave in a hurry each customer. Jam him down in the big arm-chair. Fill his mouth with the warm lather. Suggest the need of a restorative. On account of the thinness of his hairs. Never mind if he's cross or sneaky. Shave, brother, shave with care. And charge each victim a full quartar.

NEWSPAPER PUBLISHERS are not always gentlemen, and hence it happens that in making up lists for receipts, etc., their names are omitted. This, however, should not prevent editors from making proper notices of society affairs.

AMUSEMENTS.—C. Moring, the celebrated actor, manager, etc., will open at Central Hall next week, with a double company, when the public may expect a series of excellent entertainments.

FINE PICTURES.—A number of very fine pictures, handsomely framed, will be on sale at Lacy & Whitman's auction room, this (Saturday) morning.

THE DOGS AND MONKEYS have been at Central Hall this week and afforded much amusement.

LACY & WHITMAN have a desirable property for sale. See their notice in another column.

County Commissioners' Court.

NOVEMBER TERM, 1877. Commissioners D. J. Storms, Dion Keefe, Joseph Braden, in attendance; T. P. Page, clerk; Geo. F. Thomas, sheriff.

District Court Summons.

TERRITORY OF WASHINGTON, 1 S.S. County of Walla Walla.

In the District Court of the First Judicial District of Washington Territory.

NANCY A. PRESCOTT, Plaintiff, vs. SAMUEL PRESCOTT, Defendant.

THE UNITED STATES OF AMERICA—To SAMUEL PRESCOTT, Defendant: You are hereby required to appear in an action brought against you by NANCY A. PRESCOTT, Plaintiff, in the District Court of the First Judicial District of Washington Territory, holding terms at the City of Walla Walla, and for the County of Walla Walla and Columbia, to answer the complaint of Plaintiff, filed in Walla Walla County, within twenty days after the service of this summons, exclusive of the day of service. If not served in said County, but in said District, in thirty days; otherwise within sixty days, or the said Plaintiff will take judgment against you for the relief demanded in the prayer of the complaint.

The said action is brought to obtain a divorce from Defendant and for the custody of the minor child of the parties, and to have exclusive control of her separate property, on the grounds of habitual drunkenness of Defendant, his cruel treatment and abandonment of Plaintiff, and his failure to provide the necessities of life for the family for a great number of years and his immoral character making him unfit to have the care and custody of said child, and you are hereby notified that unless you appear and answer the said complaint as above required, the Plaintiff will apply to the Court for the relief demanded therein.

Witness, the Hon. E. C. Wineman, Judge of the District Court of the First Judicial District of Washington Territory, and the seal of said Court affixed, this 25th day of October, A. D. 1877.

W. G. LANGFORD, Clerk. A. REEVE AYERS, Plaintiff's Attorney. 30-6w

STRAY HORSES.

STRAYED FROM THE HEAD OF Dry Creek, three horses described as follows: One BAY COLT, 3 years old, branded "W" on the left shoulder; a SOBBEL HORSE, no brands recollectible, white in his forehead; a year on his left foot just above the hoof, and some white on his feet; about 5 years old. A SOBBEL MARE, white in the forehead; branded "M" on the thigh; also some blotched brand near the "M" on her hind foot, and 1 band high. These horses left the ranch of J. M. Lamb, on Dry Creek, about five weeks ago.

A REASONABLE REWARD! Will be paid for the return of said Horses, or any information so that I can get them again. D. LAMB, Dry Creek, Oct. 17, 1877. 46-1w

Administrator's Notice.

ESTATE OF HENRY PETER MAUS, DECEASED. NOTICE IS HEREBY GIVEN BY THE UNDERSIGNED, administrator of the above named Estate, to the creditors of, and all persons having claims against said deceased, to exhibit the same with the necessary vouchers, within one year from the first publication of this notice, to be held at his office in the Court House, in Walla Walla City, JAMES B. THOMPSON, Administrator.

Walla Walla, October 29, 1877. 46-1w
