

THE WAR UPON THE PRESIDENT.—The attentive newspaper reader cannot fail to have noticed that a fierce warfare is being waged against President Johnson by a class of newspapers that have heretofore claimed to be pre-eminently loyal. The plea for these attacks—as venomous as they are uncalled for—is the President's refusal to confer the right of suffrage upon the emancipated negroes. They make no account of his declaration that under the Constitution he has no right whatever to meddle with the suffrage question, it being left to the States to fix the status of voters. In the face of this admitted Constitutional provision these harpies of the press are hounding the President for refusing to do an act the commission of which would render him liable to impeachment. In a warfare of this kind the sympathies of all good men will be with the President. It is a maxim that "power is ever grasping," and when the ruler of a great nation refuses to usurp authority he gives the very best evidence of his honesty of purpose. Partisan bigots may howl and rave, but the great mass of the people, recognizing the patriotism of the President, will sustain him in adhering to the Constitution he has sworn to support. The question of the extension of suffrage is one about which good men will differ, but all can unite in sustaining a patriotic Executive in the discharge of his constitutional duty. On this coast two papers—the San Francisco Flag and Stockton Independent—are particularly distinguished for their abuse and vituperation of the President. The first named paper, with the instinct of the hyena, has even ventured to insinuate that he who profited most by the assassination had a hand in it. Sympathizing in this warfare, but lacking the courage to openly take sides, the Oregonian is content to copy from these papers their most objectionable articles. The flimsy veil deceives no one, and the public already understand that the Portland paper is enlisted in the war against the Administration. Opposition from that quarter is to be courted rather than deprecated, and for every hollow-hearted supporter thus lost the President will gain scores of devoted friends. Even the most determined advocates of negro suffrage will prefer to have the change brought about legally, and in conjunction with all true friends of the country will rally in support of the President and triumphantly sustain him in the faithful discharge of his high duties.

EARLY VEGETABLES.—It so happens that our Spring is from five to six weeks earlier than in the Willamette Valley, and as a consequence our farmers can get early vegetables that much sooner into market. Heretofore the people of Portland, as also those of the Dalles, have mainly depended upon California for their supplies of early vegetables, brought up by ocean steamers. With proper enterprise the whole of this trade can be secured to Walla Walla, and thus a new source of wealth opened up to our citizens. The O. S. N. Company, always disposed to encourage industry and aid in the development of the country, will arrange to ship produce by their steamers at a rate that will barely cover the expense of handling. Under this arrangement we can readily secure a monopoly of this trade, and with another season we trust the effort will be made. Our facilities for producing early vegetables are quite equal to those of California, while in the matter of transportation and nearness to market the advantages are altogether in our favor. Let our farmers see to it that with another season these advantages are improved.

DISMISSED THE SERVICE.—Col. Geo. B. Curry, late in command of the Department of the Columbia, has been dismissed from the service. Lieut. Col. Drake succeeds to the vacant command. This dismissal has not been unexpected and came none too soon. The only recommendation the ex-Colonel had was that of a foolish politician, and being too lazy to work, it was necessary to provide for him at the public crib.

SPECIAL ELECTION.—An election was held in Wasco county, on Monday last, for a member of the Legislature, to fill a vacancy. Dalles Precinct gave Gates, (dem.) 57 majority. Hood River, 5 majority for Gates. Tygh Valley, 26 for Gates. Celilo gave Hogue (union) 11 majority. Canyon City remains to be heard from, but the impression prevails that Col. Gates has been elected by a handsome majority.

FROM KOOTENAI.—We are indebted to Mr. Chas. Curran, for the following information from the Kootenai country: Everything in that region is very dull. Business has almost entirely suspended, most of the merchants having left there and taken nearly all their goods to Blackfoot. The miners are leaving there daily, and he thinks there will not be more than sixty men stop there during the winter. He predicts that Kootenai will be entirely deserted in another season, and that the place will resume the appearance it had before the mines were discovered.

Geo. F. Thomas & Co., are having their passenger sleds put in repair for winter travel across the mountains.

The Annexation Question.

The friends of the annexation movement are still at work, and claim that the measure is gaining ground. The fact that our people are left literally without anything like the administration of justice, is claimed of itself as sufficient to justify the desire for a change. Outside the neglect of the District Judge, there are other reasons at work that induce very many of our people to favor annexation to Oregon. With the Sound country we have no identity of interests, and as a consequence have little sympathy. On the other hand, we are only separated from Oregon by an imaginary line, and all our interests harmonize with that part of Oregon east of the mountains. The section of the State to which we are so nearly allied already polls one-third the vote of the State, and with the addition of Walla Walla Valley, will be able to control the legislation and shape the policy of the State. It is thus the inducement presented is not only an escape from Territorial vassalage, but the still higher privilege of controlling a sovereign State, and with that control an influence in the Congress of the Nation from which we are now entirely excluded. Those who are familiar with affairs at Washington know that a Territorial Delegate exercises little or no influence, and that for all useful purposes he is little better than the fifth wheel to a wagon. Executive officers and heads of Departments defer to those who have votes, and whose power they are likely at any moment to require; but the non-voting Delegate is powerless to reach those who dispense favors and patronage, and hence he ever so industrious he is able to accomplish but little for his constituents. It is thus that the citizen of the Territory has no voice in shaping National legislation, neither has he a voice in the selection of the Chief Magistrate—privileges which must forever be dear to the American citizen. If the Territory was rapidly settling up and gave promise of early becoming a State, the present condition of nonentity might be endured. But instead of this, we have the fact that the Sound country, by far the larger portion of the Territory is in a torpid condition, and at the present rate of growth, will require half a century to reach the proportions of a State. To chair a rich and growing county like Walla Walla to the half dead carcass of Puget Sound is a condition not to be endured, and hence it is not strange that the proposed change is favorably regarded by so large a portion of our citizens.

There are other considerations of great importance which are being agitated and which tend no little to give encouragement to the friends of this measure. Among men of means, it is urged that in Walla Walla County there is no security to the money lender against those who choose to take advantage of the existing situation of affairs. The man who has money to loan runs great risk of loss if he puts it out at interest; for the borrower frequently pays in greenbacks at par, that which he agreed to pay in gold. Consequently, it is claimed (and it appears plausible) that large sums of money have gone out of this valley and Territory for investment for no other reason than that we have no special law here to enforce the payment of debts in gold or silver which are contracted so to be paid. And merchants and business men, generally, frequently, after having waited for the payment of debts a year or two, are finally paid off in greenbacks, at their face value. But the worst of it is, there seems to be no remedy in the Territory for abating this evil.—The Governor stands ready to veto any Specific Contract Law that may be passed; and what is equally bad, the Territorial Legislature, (at least the Puget Sound portion of that body) stands ready to prevent the passage of any such law. Therefore, to get rid of this evil complained of, there is no prospect, except by annexation.

A great many well disposed people advocate annexation upon the ground that we have no Penitentiary building in the Territory for the confinement of criminals. Persons convicted of crime and sentenced to penitentiary for life, are cooped up in shackling County Jails, which it is said, are not capable of keeping a spirited chicken secure a week. In Oregon they have a splendid Penitentiary which by annexation would be of great benefit to this section in the way of securing prisoners in confinement, as well as tending greatly, by the terror felt by evil doers for such an institution, to lessen crime itself. Like getting a contract law, it is said there is no probability of ever securing a penitentiary building for the Territory.

The only plausible objection urged against the annexation, is the public debt of Oregon—some \$200,000—which for a growing State, having all the elements of wealth, is the veriest trifle. Another objection, is the Blue Law legislation of the last Legislature, in relation to the observance of Sunday.—This attempt to inject religion into politics has been very generally reprobated, and it is understood that one of the very first measures to be introduced at the called session of the Legislature will be the repeal of the obnoxious laws. This accomplished, we are quite sure that all opposition to annexation will vanish, and Walla Walla will take her place as an integral part of a great and growing State, having a voice in the election of the President, and sending voting members to both Houses of Congress.

Sources of Future Prosperity.

Under this caption we have already endeavored to impress upon settlers living in this Valley the importance of giving increased attention to the rearing of sheep and growth like the administration of justice, is claimed that they can build up lasting sources of wealth, without involving exhaustion of the soil. In this same connexion we have to impress upon our producing classes the advantages that will result from giving their attention to kindred branches of industry. It so happens that our industrial pursuits are not sufficiently varied. In early days there was a demand for oats and barley, and every body rushed into the cultivation of these staples. These growing unprofitable, the cultivation of wheat was resorted to and followed up until to-day Walla Walla Valley is one of the greatest grain producing countries on the Pacific coast. So far as the mining market is concerned, we have stopped the shipment of flour from below, and until intercepted by the grain growing districts in closer proximity to the mines, we may fairly expect to monopolize the trade. Other branches of industry—less liable to be interrupted—are open to us, and it is to these that we desire to direct the attention of our producing classes. First and most important is the dairy business, including its various branches, which has thus far been almost entirely neglected. With proper exertion, in a very few months, we should be able to produce the butter and cheese required to supply the mining trade. We have here a grazing country of boundless extent, and the Valley is watered by streams flowing direct from the mountains, which for purity and coldness are all that the most fastidious dairyman could desire. Favored with all these conditions, and in close proximity to a market that for all time to come will be more than equal to the consumption of all the surplus butter and cheese that we can produce, we should make the most of our advantages. It is on present boast that with scarce an effort we have stopped the shipment of flour from below. With even still less effort we can arrest the shipment of the products of the dairy and turn into our Valley the streams of wealth that now go to enrich other communities. The history of Goshen, in the State of New York, shows that the dairy business properly followed can be made a mine of wealth. In the early part of the century few districts within the limits of the State were less promising than Goshen; for the most part it was a low marsh fit for the habitation of neither man or beast. A few resolute men, however, went earnestly to work, and after providing a system of drainage, next turned their attention to the dairy business, following it up systematically. In a few years the products of Goshen dairies became famous, and the people rapidly acquired wealth until to-day no other rural community of any thing like the same numbers boasts the possession of an equal amount of wealth. We have here no barren wastes to reclaim, and for all the butter and cheese that can be produced we have a never failing market at our doors. It is only by improving our opportunities that we properly discharge the duties of life, and here is an opportunity to acquire a sure independence. There is another branch of productive industry to which we can only briefly advert. The experiment has already been tried or is limited scale, and the result shows that the climate of the Valley is particularly well adapted to the growth of hogs. During the winter season bacon can be cured to rival the famed Westphalia, and there is no good reason why we should not produce pork in sufficient quantity for domestic use and to supply the mining trade. Let choice breeds of stock be introduced, and the business entered upon in earnest, and the best results will be sure to follow. No farmer's arrangements should be deemed complete that does not embrace a pig-stye. It is here that he can turn into wealth much that otherwise will go to waste, and the proceeds of which will figure largely in his ledger at the end of the year. We have at our hand the elements of wealth scattered in rich profusion, and all that is necessary for us is to improve the gifts which nature has so bounteously bestowed.

BOISE ITEMS.—Mr. H. Bledsoe, W. F. & Co.'s Boise Messenger furnishes us the following items: Snow fell on the 16th of Nov. in Idaho City to the depth of three inches. Kurtz, the Chinaman murderer, was found guilty of murder in the first degree on the evening of the 13th. The jury were out over fifteen minutes in making up the verdict; it being the first conviction of the kind in that city. The prisoner was to be sentenced by Judge McBride, on the following day. The weather along the road has been very stormy for the past ten days, and as a consequence, the road is in a bad condition. There are some two hundred wagons and pack trains on the road to Boise, loaded for the different points.—There is no snow on the mountains in the pass through which Thomas & Rucker's new road runs, but it has been raining there for the last ten days. Grass is luxuriantly green about the Warm Springs, and on this side, looking more like summer than winter.

We are again under obligations to H. Bledsoe, W. F. & Co.'s Messenger, for late Boise papers, also, Mr. Theo. Cann, for Oregon exchanges, for which they will please accept our thanks.

Reconciliation.

The war being closed, it would naturally be supposed that with it would have perished all of that bitter enmity that existed during its prosecution. In some quarters this is not the case. The radicals still exhibit the same enmity and hatred that they did when actual hostilities existed between the two sections of the country, and the roar of cannon, the rattle of musketry, the shrieks of the dying and wounded were echoed throughout the land. In our opinion this is wrong. The radicals not only persecute the southern people, but also throw obstacles in the way of President Johnson in his efforts to reconstruct the Southern States upon their former basis, by opposing all of his measures looking toward reconciliation. This should not be. Instead of making the wound worse, we should endeavor to cure it. The Southern States have suffered for their sins. Their noblest and most promising sons have perished during the late struggle, and their blood swallowed up by the green sward. The homes and firesides of her people have been laid desolate by the merciless fire and sword of war; walling and mourning for the loss of father, son and brother has taken possession of those once happy homes, and moans and sobs are now heard where once laughter, joy and happiness reigned. The people, who once were possessed of means to enable them to live comfortably, are now unable to keep hunger from their door. Fathers come home and hear their offspring crying piteously for something to stop the cravings of an empty stomach, and are unable to give to them the food necessary to sustain life. Hundreds of such cases actually exist in the Southern States to-day. It is no part of magnanimity to triumph over a fallen foe.—They were in the wrong and bitterly have they suffered for it. It should never be recorded in history that the American nation persecuted a fallen enemy, who had stood up and fought bravely, even though it be in a bad cause. We are glad to say they never have, and we hope they will not commence this late in the day to institute anything of that kind. We speak in this manner not as a partisan, or for the gratification of any personal feeling; but because our conscience dictates to us that it is the right course to pursue.

There is something else that should be looked at also, and that is, we must make the Southern people respect us and the government. Could we adopt any other policy than a conciliatory one, and make them return to the old role which they once bore for the old Union? The answer to this query must be emphatically "no." We must win them over to us by kindness, and show them that our enmity died with the closing of the rebellion and that we no longer bear them ill-will. If we pursue the policy of not making any conciliations whatever, we make the bed that probably at some future day, we may have to lay in. The proposition stands thus, shall there be a union of the States? If we treat them kindly the answer will be "yes;" if otherwise, "no." Whenever we commence a system of persecution, we raise in the bosoms of the Southern people a feeling of bitter resentment which will lead to future trouble. Let us meet them as brothers, with outstretched arms and welcome them back to their place in the Union. Let us have the harmony that existed in the olden days, when we were united in the bonds of Union by the ties of affection. Our own safety demands that this should be the case. It would not be sound policy to foster a feeling of resentment in such a population as the South has got, and become engaged in a foreign war. It would insure the enemy great advantages over us. Self preservation is the first law of nature, and looking to the preservation of the Union, and the great hopes that are bound up with it, all true friends of the country will favor a conciliatory policy and sustain President Johnson in his patriotic efforts to restore the seceded States to the position from which in an unhappy hour they strayed.

MONTANA ITEMS.—The Post talks of 16th. turkeys, sold and good eat through, raised on Mill Creek, 20 miles from Virginia.

Mr. James McNitt shot and wounded Thomas J. Johnson, it is thought mortally, the latter having avowed his intention to entice Nutt's wife away. Johnson was a Justice of the Peace—a very pretty justice.

The dead body of Ed. Wall was lately found, dead in the water, near Cape Ferry.

A new rich guich, called "One Eye," had been discovered in the vicinity of the Jacko Mission. Apprehensions are entertained of the fate of nine prospectors, operating on the Yellowstone. They were last seen by Mr. J. H. Haynes and party, 100 miles from Bozeman city, both parties having lost their reckoning. The Haynes party, however, had safely reached Virginia.

Nov. 1, witnessed the first sleighing of the season at Virginia. Drinks are raised to fifty cents each in Virginia. The Bacchanalians are "indignant over it." An amorous young couple proceeded to a hotel at Helena and engaged a "room for two" at the H. House, after having been declined accommodations at the L. Hotel. The boys "smelt a nice," and a delegation waited on the couple and advised the assistance of priest or justice, which was consented to and the proper ceremonies were put through in quick time and legal manner.

ARRIVED.—Jarvis J. Bush, who with his brothers, George and Edward Bush, in a row at the Lower Cascades, some eighteen months since, killed the Sheriff, Edward Sullivan, and J. P. Dennison, has just been arrested and indicted in Portland, for the murder of Sullivan. Since the murder, says the Oregonian, he has been to Mexico, and returning was recognized, and is arrested under the law of Oregon which provides that where a party is mortally wounded in another State, and is brought into this State and dies of his wound, the murderer is subject to arrest and trial in this State. George and Edward were arrested and acquitted at Vancouver, but Jarvis Bush made his escape at the time of the murder, which was the result of a feud of long standing between the "Bush party" and Sullivan. Dennison was the keeper of the house where the fight took place, and we believe, was killed while making efforts to separate the men, and preserve the peace.

CALIFORNIA FARMING.—General Bidwell in an address before the agricultural association of the northern district of California, at their late fair, says that on his farm in Chico, Butte county, "In thirty-six and a quarter days, forty thousand six hundred and eighteen, bushels of wheat was thrashed and cleaned, being over eleven hundred bushels per day."

Eastern News.

News of Nov. 14th.—The President today appointed Gen. John A. Logan, of Ill., Minister, and Adam M. Browning, of Tenn., Secretary Legation to the Republic of Mexico. Gen. Logan is well known as a strong and earnest friend of the Liberal cause of that country. Gov. Hamilton, of Texas writes to the President that he expects to call a State Convention in December.

The intelligence of the death of Hon. Preston King has occasioned much regret in official circles. New York, Nov. 14.—The Tribune's correspondent at El Paso, under date of Oct. 30th, says: "The Government of President Juarez is strengthening every day by the addition of the population that inhabit the surrounding villages, who seem disposed to assist him in every way they can, and by giving a regular organization to the various branches of his administration. He will remain at El Paso for some time."

Marshal Bazaine, desirous to avoid complications with our Government, has given express orders to the officers of his command not to let any detachment of French troops approach the Rio Grande. New York, Nov. 14.—Thurlow Weed states that Preston King, Collector of the Port, was seen to jump off a ferry boat yesterday morning by a little boy and girl. They picked up his hat which has been handed to Weed, and recognized. There are no traces of the body yet.

New York, Nov. 14.—The World's Columbia correspondent under date of November 13th says: Resolutions were reported from the Committee on Federal Relations to the Legislature to the effect that South Carolina had fully complied with the requirements of the amnesty proclamation of President Johnson, and having emancipated her slaves is entitled to the benefits of the said amnesty, and acknowledging their position as a conquered people and accepting the terms offered them; they ask the withdrawal of military rule to which they say the Government stands pledged. The report says: They have with honest purpose and entire loyalty, given solemn pledges to be henceforth loyal citizens. The resolutions will probably be adopted unanimously.

The Board of Common Council has passed a resolution almost unanimously, that should any bill be introduced into Congress for the admission of the colored men of Washington to the right of suffrage; the Mayor be authorized to call the Council together for the purpose of taking into consideration measures for holding a special election to ascertain the sentiments of the people on the subject. The Aldermen have not yet acted on the resolution.—Oregonian.

QUICK CURES AND MODERATE CHARGES. DR. L. C. KINNEY'S Private Medical and Surgical Institute, Main Street, Walla Walla, Opposite Duaneberry & Bro. Established expressly to afford the afflicted sound and scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, Syphilitic cases of Secrecy, and all Sexual Disorders. TO THE AFFLICTED.

DR. KINNEY returns his thanks to his numerous patients for their patronage since locating here in 1859, and takes this method of notifying the public that he has leased the large and commodious building of Mr. Joseph Hellmuth, on Main street, and has had the same fitted up for the purpose of a Hospital, with every comfort for the care and attention of those who require Medical or Surgical assistance. Special attention will be paid to affections of the Lungs, Liver, Digestive Organs, Kidneys and Diseases of the Genitals—Urinary Organs. Disorders of a private nature will receive prompt attention and managed successfully. Diseases peculiar to women and children will receive his unremitting attention, also, affection of eyes and ear, and in short all the maladies to which human flesh is heir will claim his assistance. Letters from persons unable personally to communicate with the Dr. accompanied by the usual fee, will receive prompt attention. The Doctor would state that he has had an experience of more than thirty years in treating cases of disease occurring in Northern and Southern climates; besides, having enjoyed a large hospital practice both in civil life, and with our army in the Mexican War—where he was engaged in the army. It too often occurs that persons requiring Medical aid arriving here from the various mining towns in the upper country, at the instance of friends, are induced to go to San Francisco, thinking that they will not find proper treatment abroad. That city, thus involving an unnecessary expenditure of both time and money. To show that there is no necessity to do this, the Doctor refers to parties whom he has treated, and those now under his care in hospital.

W. H. A. B. Those indebted to Doctor Kinney, by note or account, are requested to call at his office and settle their bills. All accounts not paid before the 1st of January, 1866, will be placed in the hands of an officer for collection. 49th.

HURRICANE.—On Sunday last Walla Walla Valley was visited by the most destructive hurricane ever known in this section of country.

With little exertion on the part of our business men east of the Cascades, the new Company could be induced to land their Steamers at Astoria, and discharge at that point the freights destined for the Columbia river.

Are once more the terror of travelers to Canyon City. Almost every day we are startled by the news of some horrible murder. It is now beyond doubt, that in order to bring those fiends to terms, there must be waged a lively winter campaign against them.

At the late Democratic Convention, in this City, the following resolution was unanimously adopted: "That we will extend a friendly greeting to the people of Walla Walla, who are desirous of becoming annexed to our State, and will gladly aid in the annexation."

MAN KILLED.—A man by the name of Wm. Pox, was killed by a blow from a flat iron, on Sunday evening, the 19th inst., by another man by the name of Boyce.

READ THE NEW ADVERTISEMENTS.—They are always interesting, and often the best part of the paper. Business men having bargains to offer invariably advertise.

SUNSHINE.—After several days of stormy, blasey, rainy weather, that would have done credit to the Willamette, or any other accursed region, the sun shone out yesterday, and we are again revelling in the delights of a climate, which, in the language of Caleb, of Calebsdale, can only be compared to that of Italy.

GIFT ENTERTAINMENT.—Those desirous of procuring tickets for Mr. J. Rosenthal's Gift Entertainment, to take place on the 18th of next month, should do so at once, as the chances are nearly all taken, and the last of the tickets, at the rapid rate at which they are selling now, will soon be disposed of.

Dalles Correspondence.

DALLES, Nov. 22d, 1865.

A NEW STEAMSHIP COMPANY. Late advices from New York report the organization of a Joint Stock Company, to take charge of the steamship business on the Pacific coast.

A NEW COMMERCIAL CITY. With little exertion on the part of our business men east of the Cascades, the new Company could be induced to land their Steamers at Astoria, and discharge at that point the freights destined for the Columbia river.

THE SNAKE. Are once more the terror of travelers to Canyon City. Almost every day we are startled by the news of some horrible murder.

THE ANNEXATION QUESTION. At the late Democratic Convention, in this City, the following resolution was unanimously adopted: "That we will extend a friendly greeting to the people of Walla Walla, who are desirous of becoming annexed to our State, and will gladly aid in the annexation."

THE BRANCH MINT. I notice in one of your late issues, that the people of Walla Walla are anxious to have the Mint established at an early day.

FORGED GOVERNMENT DRAFT. A few days back a man went in one of our stores and bought a complete outfit. He presented in payment a government draft for \$140.

THE WEATHER. Rain rain rain, and nothing but rain. Web-foot seems to be drawing near us; as a matter of course we would rather be excused.

ATTENTION COMPANY. The Drills of Washington Engine Co. No. 1, will hereafter take place on the 1st Saturday of each month at 5 o'clock, P. M.

FOR SALE. ONE FINE RESIDENCE, with or without the furniture. Also the building, stable &c., now occupied by Wells, Fargo & Co., as an Express office.
