at a Small Advance on San Francisco Prices. Dalles City, Oregon, February 23d, 1867. 10-ly

## What a Republican thinks of the Republican Party.

Ex-Governor Randall of Wisconsin, the present Postmaster General, who was one of the original founders of the Republican party, pending the recent election wrote a letter to a friend in Wisconsin, from which the following is an extract:

"You ask me what you ought to do about supporting the Republican State ticket. I hesitate to give advice about your own action, but I have no hesitation in telling you what I would do if there to vote this fall. I should never vote for any man, on any ticket State or local, who endorses the resolution of the Republican State Convention, favoring the impeachment of the President. There is neither reason nor excuse for this war upon President Johnson. All investigations and researches have failed to discover any 'high crimes or misdemeanors' committed by him. There is no case to be found where he has violated the Constitution. He has endeavored to bring a riot, upon just terms, a complete restoration of the Union. He has followed the policy of Mr. Lincoln, which all Republicans approve. He has had no other policy. He never has made a speech, or said a word, or done an act favoring disloyal representation in Congress. If his policy, which is the same that Mr. Lincoln's was, had been carried out, to-day there would have been perfect peace; the Union would have been fully restored, and representatives, loyal all through the war, from the Southern States would be filling the vacant seats in the House of Representatives.

The Republican party of Wisconsin today does not favor a single principle upon which the Government carried on the war for suppressing the rebellion. Southern rebels said they could take States out of the Union. The Government said they could not. The Republican party said they could. We had a war to prevent States from going out. The Government was successful; and now the great Republican party, through its leaders in Congress, say the States did get out, and we went on to legislate to them. Leading Republicans openly avow that the restoration acts are outside of the Constitution. In other words, they admit that with their oaths fresh upon their lips to support the Constitution of the United States, they violated those oaths, and passed laws outside of the Constitution. Because the President is supposed to be a traitor, he is denounced as a renegade and traitor, and threatened with impeachment. He is to be impeached because he is opposed to violations of the Constitution, and the Republican party of Wisconsin favor this. If a majority of the people of Wisconsin are not mad, they will follow the example of Connecticut and California, and Ohio and Pennsylvania, and join New York in rebuking this wild mischievous course. If our people want ten States of the Union put into the hands of men unfit to handle the machinery of Government, all business prostrated, and all rights of person and property destroyed, they will continue to uphold the President that has been lately pursued by the dominant party of the country. It is time such work stopped, and the country restored, as it ought to have been, and would have been long ago, if the Republican party had not abandoned its own principles, and made war upon the President because he was true to the principles upon which the people elevated him to his office."

The Boston Journal, the leading organ of the Radical tax-grinders of New England, shows off all disguise, and openly brags of the success of the radical party in making the negroes equal socially and politically with the Germans. The Journal says: "Although it has taken a great deal of time, and cost us a vast amount of money, we have at last got the stolid Dutch of the Western States educated up to the higher law standard. When a few years ago they spat upon us, the 'despised Abolitionists' we determined that 'negro' (as they called the colored man) should be made their equals or we would crush the Union. Colored suffrage is a fixed fact. The foot of the negro is now on the necks of our ancient rulers, and those who are not in our toils must stand from under."

"Amelia for thee—yes, at thy command, I'd tear this eternal firmament into a thousand fragments—I'd gather the stars, one by one as they tumble and put them in my trower's pocket; I'd pluck the sun; that oriental god of day, that traverses the blue arch of Heaven in such majestic splendor—I'd tear him from the sky and quench his bright effulgence in the fountain of my eternal love for thee. Amelia—Don't, Henry, it would be so very dark."

An editor wrote an article on the fair sex, in the course of which he said: 'Girls of seventeen or eighteen are fond of beans.' When the paper was issued he was rather shocked to discover that an unfortunate typographical error had made him say: 'Girls of seventeen or eighteen are fond of beans.'

In a free country, and under a just system, the cheaper everything is the better for the people; but in a despotic country, with gigantic monopoly, everything is too high as compared with labor, which is pauper paid, and the toiler starved in order that nabobbery may flourish.

A PERSON, who was sent to prison for marrying two wives, excused himself by saying that when he had one she fought him, but when he got two they fought each other.

The ancient cooks carried their art to the most whimsical perfection. They were able to serve up a whole pig, boiled on one side, and roasted on the other.

In Kansas the Democracy gain two members of the Senate and twelve members of the House. Negro suffrage is defeated by about 7,500, and female suffrage by about 8,500. Disfranchising disloyal persons is carried by about 600.

THEIR CHOICE—A vote was taken for President of the United States at a Fair in Missouri, and the choice fell upon Lucy Stone.

What is the difference between the door of a barn and an over talkative person? One is a barn door, and the other is a barn bore.

An exchange says: One reason why Gen Grant don't say more is because he cannot smoke and talk at the same time.

The world's experience preaches in vain, every man thinking himself an exception to all general rules.

## A Curtain Lecture to Mrs. Mark Twain.

'Oh! go to sleep you old fool.' 'Mr. Twain, I am surprised and grieved too—'

'Don't interrupt me, woman! I tell you it's absurd—you learn to skate! You'll be wanting to play the fairy in the 'Black Crook' next. I tell you skating is an accomplishment suited only to youth and comeliness of face and symmetry of figure. Nothing so charming as to see a beautiful girl, in the poetical costume of the ranks, with cheeks rosy with exertion, and eyes beaming with excitement, skimming the ice like a bird—and scooping down upon a group of gentlemen, and pretending she can't help herself, and landing in the arms of the very young man her father don't allow her to know—and darting away and falling on her head and exposing herself—exposing herself to remarks about her bareness. Madam—hold your tongue—and always taking care to fall when that man is close by to pick her up. It is charming. They look pretty and interesting, too, when they are just learning—when they stand still a long time in one place and then start one foot gingerly out, and makes a break for the other side of the pond, and leaves the balance of the girl sprawling on this side! But you—you look fat and awkward, and dismal enough any time, and when you are on skates you waddle off as stuffy and stupid and ungainly as a buzzard that's had half of a horse for dinner. I won't have it, Madam! And you get under a little precarious head way and then put your feet together and drift along, stooping your head and shoulders and holding your arms out like you expected a church was going to fall on you; it aggravates the life out of me! And Tuesday, when I was ass enough to get on skates myself, and kicked the Irish Giant's eye out the first dash, and lit on my head and cracked the ice so that it looked like the sun, with all its rays, had dropped where I struck, and they fired me ninety-two dollars for ruining the man's pond. I was terrified with the conviction that I had gone through to the inside of the world, because I saw the parallels of latitude glimmering all around me; and what was it but you, in your awkwardness, fetching up over me with your confounded 'tilers' on? You've got to discard those things. I can't stand the pew rent, and I won't.'

'Mr. Twain, I am surprised—'

'Hold your clatter. I tell you, you shan't bring odium upon the family by your disgraceful attempts to skate, sprawling around with your big feet like a cow plowing her way down hill in slippery weather. May be you wouldn't be so handy about displaying these feet of yours if you knew what occurred when I took your shoe down to get me d-d-ed.'

'What was it? Tell me what it was? tell me what it is this minute? I just know it's one of your lies.'

'Oh! don't mind; it ain't of any consequence; go to sleep!'

'But it is of consequence! You've got to tell me; you shan't aggravate me this way; I won't go to sleep until I know what it was.'

'Oh! it wasn't anything!'

'Mr. Twain, I know better! You're just doing this to drive me to distraction.'

'Well, if you must know he—he—how- ever, it's of no consequence.'

'Mr. Twain!'

'Well, he—he took it and gazed upon it a long time in silence, and put his handkerchief to his eyes and burst into tears.'

'Why, you born fool! Twain are you going stark, staring crazy?'

'He just stood there and wept as if his heart would break, poor devil! There now let let's go to sleep!'

'Sleep, you fanatic! I'll never close my eyes till I know what that idiot was crying about—and you won't either, I can tell you that, come!'

'Oh! it don't matter.'

'Mr. Twain, if you say that again I'll make you sorry for it; what was that nun skull crying about?'

'Well, he—he—'

'W-e-h-l, he. Out with it! Do you want me to—to. Twain! I'll snatch them pet fringes off till the sides of your head's just as bald as the top of it.'

'Well, he—poor fellow—he said he doted on his grandmother—fairly doted on her. She had nursed him, you know, because his mother was feeble, and so—well, he came to this country fifteen years ago, and first he set up in the vegetable line, and got along pretty well, and was about to send for the old lady, when hard times came and he broke. He went into fruit then, and after that into milk—into all sorts of things, you know; but he got disappointed every time till his present business fettered him out at last, all right off for the old woman. She landed here four weeks ago, but died the very same night. It was hard, very hard, after all his waiting and toiling for fifteen years to get her over here at last and have her die on his hands. He—he—well, he was disgusted. However, he laid her out, and he and his friends sat up with her, and by and by the memory of her virtues softened his bitterness and turned it to a tender grief—a spirit melancholy, that hung about his spirits like a pall for many days. However, by patiently striving to keep his thoughts out of his mind, he was finally beginning to regain some little of his old time cheerfulness, when your shoe reminded him so painfully of his poor ailing grandmother's coffin—'

'Take that, you brute! and if you dare to come back here I'll kick you out again, you degraded old ruffian.'

'I am afraid,' said a lady to her husband, 'that I am going to have a stiff neck.' 'Not at all improbable, my dear,' replied the spouse, 'I have seen symptoms of it ever since we were first married.'

## BE TRUE.—Be true. True to ourselves

—true to each other—true to God. What more abhorrent vice than deception? The face covered with smiles, and the heart rotten as a sepulchre. The hand first blinding your eyes, and then leading you to the brink of the precipice. The tongue beguiling your face with honeyed words, and shaping its arrows to launch at your back.

Oh, that inextinguishable jewel of truth—truth in the tongue, in the life, in every manifestation of the reason—she loves the passions of humanity.

Terrible to the young heart is the first deception. She who looked all purity, an angelic goodness, betrayed her trust, and left the soul desolate. Heaven only knows through what depth of darkness the bruised spirit struggled to light and joy again. But the light has never been as pleasant, the joy rekindled burns not like the bright fires of long ago. The tears, the sleepless nights, the hours of keen despair, when a hand seemed even on your throat, and a dagger at your heart—for what would you live them over? Death would be more welcome.

We could bear with patience, smile at unkindness, the assaults of harsh temper, or the moody silence of a frowning brow; but treachery, faithfulness, trust betrayed—thank God that we have never yet known the full import of these terrible words.

Be true, then, if you would be respected. No power on earth can change the flat that even the world gives the deceiver. He may weep tears of blood, but the monuments of his shame still stand to testify against him. Once a liar, always a liar. A very child can tell where deception conceals itself, and a casual thought, lightly expressed, terrifies it from the foul hiding place.

Be true if you would be loved. The heart is like an armory; beautiful and harmless seem the long rows of bristling steel, but every one of those polished shafts may be used as an instrument of torture. So if you deceive, the heart that bests warmest for your love, your appreciation, may be converted into a gallery of deadly weapons, and you will be responsible for the mischief that results through life's long battle. Let truth be as near to you as the apple of your eye; and when the blush springs not to your cheek, and your tongue falters not even at the unuttered thought of deception, then be sure that you are fit for either earth or heaven, for the society of men or angels.

A hypocrite may spin a fair a thread to deceive his own eye. He may admire the cobweb, and not know himself to be the spider.

Give us what you think the finest specimen of gold in the world, and we will wager its value that it can be beaten.

A punster passing by the shop of a certain Mr. Taswell, observed that his name would be As-well without the T.

A short time ago a man became wrapped in thought, and he was tied up, labelled, and sent off on the train of ideas.

Naval architects are discussing the question what shape is best for a vessel. Undoubtedly it should be ship-shape.

There is an efficacy in calmness of which we are unaware. The element of security is one which we peculiarly need.

A physician's rule of reversion—patient under monument.

Slanders coming from beautiful lips are like spiders crawling from the blushing heart of a roan.

No man has a right to do as he pleases except when he pleases to do right.

The love that has nothing but beauty to sustain it soon withers away.

Be careful how you jest. The richest joke of the season may be a very unreasonable one.

Jones fell out of a saddle, and he lay sprawling on the ground he remarked, 'I thought I had improved in horsemanship but I find I have fallen off.'

'Ah, my brother,' said a Tennessee radical to a freedman, 'you must not judge always by appearances; my face is white, but my heart is black.'

Sometimes on musing upon genius in its simplest manifestations, it seems as if the greatest of human culture consisted chiefly in preserving the glow and freshness of the heart.

Some malicious person asserts that the letters M D, which are placed after physicians' names, signify 'Money down.'

A henpecked husband says that 'Before marriage I fancied w-d-d-d life would be all sunshine; but afterwards I found out that it was all moonshine.'

## PREPARING GROUND FOR ONIONS.—In a

recent number of the Iowa Homestead, 'O. A. S.' of Dubuque, gives his practice in the autumnal preparation of the ground for onions: Prepare it in the fall by manuring and plowing, working it till the soil is well mixed and commingling with the manure to the depth of eight or ten inches. Then roll or tramp the ground hard, top dress it with ashes, and leave it till the ensuing season. When the frost is out in the spring and the ground is sufficiently dry to work, rake it over with an iron tooth rake to the depth of three or four inches, and put in the seed. This is all the spring preparation required. The most successful onion grower we ever saw, 'nauced about in the way here recommended, though the fall preparation was omitted. The onion beds were well manured, and the ground stirred to a good depth. It was then raked and tramped down compactly. An onion planter, with two iron shovels teeth, set apart the width of the onion rows, and handled like a hoe, was drawn across the beds, and the seeds dropped in the furrows and covered an inch deep, or thereabouts. The result was that the onions grew upon the ground—profuse in quantity and excellent in quality. We should think the Iowa plan, of the fall preparation of the ground, an improvement. It is certainly worth a trial.

## PROVERBS vs. FOOLS.—Dinner was spread

in the cabin of the New World, and a splendid company was assembled about the table. Among the passengers thus prepared for gastronomic duty was a little creature of the genus fox, doctored daintily as an early but-terfly, with kids of an irreproachable character, 'miraculous' necktie, and spider-like quizzing glass on his nose. The delicate animal turned his head affectedly aside with—

'Waitah?'

'Bring me a propellah of a female woa-stah.'

'Yis, sah!'

'And, waitah, tell the steward to wub my plate with a vegetable called onion, which will give a delicious flavor to my dinnaah.'

While the delicate exquisite was giving his order, a jolly Western drover had listened with open mouth and protruding eyes. When the diminutive creature paused, he brought his fist down upon the table with a force that made every dish bounce, and then thundered out—

'Here, you gaul darned ace of spades!'

'Bring me a thundarin big plate of skunk's gizzards?'

'Sah?'

'And, you old ink pot, tuck a horse blanket under my chin, and rub me down with bricks while I feed.'

The poor dandy showed a pair of strait coat tails instantaneously, and the whole table joined in a tremendous roar.

## A DAREY JURY.—A friend of ours vouches

for the truth of the following: At a recent session of one of the courts in South Carolina, an entire colored jury was empaneled. A case was brought before them—the witnesses examined, and the attorneys made their respective arguments. The Judge, after laying down the law, and recapitulating the testimony, gave the papers into the hands of the Foreman—an intelligent looking darkey—with instructions that, as soon as they found a verdict, to bring it in without delay.

Thirty minutes or more elapsed when the Jury returned, headed by the Foreman, and stood before the Judge.

As the Foreman appeared to hesitate, and to wear a disappointed look, the Judge asked—

'Mr. Foreman, have you found a verdict?'

'No, Massa Judge, we haben't found 'em,' replied the ebony juyman.

'It's a very plain case,' said the Judge. 'Can't help it massa, couldn't see it.'

'On what grounds?'

'We didn't look into the grounds, Massa Judge,' replied the foreman. 'de ossifer didn't take us into de grounds, and he told us into a room, and looked us in, and told us when we found a verdict, he would let us out. So we began to find de verdict, and searched ebery nook, corner, crevice, and every ting dar was in dar, was in dar room, but we found no verdict—no, noffin ob de kind dar?'

A Freedman, being about to remove his shop, his landlord inquired his reason, stating at the same time that it was considered a very good stand for business. The Freedman replied: 'Oh, yis, be's very good stand the business—by gar, me stand all day, for nobody come to make me move.'

An Irishman was

ABUSE.—The Vancouver Register is in 'mortal agony' because the STATESMAN and other papers of the democratic persuasion don't abuse Davis, or Lee or Valandingham! Abuse is better suited to radical taste and style, and democrats leave this field of billingsgate pretty much entirely to the party of 'great moral ideas.' But what has all this abuse amounted to? Why, Valandingham is simply a popular candidate for the U. S. Senatorship in Ohio, and notwithstanding the infinite deal of radical abuse showered upon him. Davis gets his trial put off from time to time and seems to be in a fair way to enjoy popularity among the radicals yet. Lee, 'the noblest Roman of them all,' is not making headway so fast in popular favor, owing, doubtless, to the fact that he does not get his full share of radical abuse. He is to be plittied, poor man. But he will have a good chance for promotion, as the radical ire is not anything like all expended yet. The celebrities noted, are either great and popular men in spite of radical abuse, or else radical abuse is making them great and popular. We shall not attempt to solve the question but will leave it to the study of profound thinkers such as is he of the Register.

NEW ORDER OF THINGS.—President Johnson announces to Congress that a new order of affairs has been instituted in the military district of New Orleans by Gen. Hancock—he having restored there the habeas corpus, the civil courts and freedom of the press. So far so good. But why did not his excellency, the President, inaugurate this move in the direction of civil liberty months ago? Why did he not remove the petty tyrants who ruled the South with a rod of iron, and place such conservators of the peace as Hancock, in their stead at the beginning? The President is always too slow. He lets a world of mischief be enacted under his very nose, and after every conceivable damage has been inflicted on a people, he begins the slow work of repairing. Better late than never. With such officers as Hancock in command, the Southern people would soon be able to shake off the despotism that hovers over them, and occupy their proper position in the Union.

'NEGRO EQUALITY AND DEMOCRACY.—The democracy of Washington Territory have adopted negro equality as a popular measure.—Boise Statesman. Not much. On the contrary, the rump at Washington, D. C., forced negro suffrage on the democracy of Washington T., and the mongrels here seconded the motion by electing radical Flanders to Congress. There is not, we venture to assert, a democrat in this Territory who would vote for negro suffrage or negro equality on a direct issue. These are matters—sweet scented dogmas—that catch radical votes. We opine that the rump papers will find it slow business in endeavoring to shift the responsibility of negro equality measures and enactments, to democratic shoulders.

Pshaw.—Mr. Bradshaw has introduced a series of resolutions in the Council, of the radical type, and among the batch, one to the effect 'that all men are created equal.' That means, with the radicals, that the negroes ought to have, and are entitled to all the privileges given white American citizens. That is good for the old Clo's, but what about the poor Los? Were they not created equal, too? Of course they were, about equal to a wild boar. Then give 'em the ballot, you cutting cusses.

WAR EAGLE MILLS.—We get the following description of the establishment bearing the above name from the Boise Democrat of a late date. It will be a matter of interest to the people of this section to learn that our townsman, Mr. H. P. Isaacs, has had the large mill described built at Boise City:

'A day or two since we made an editorial visit to the establishment bearing this name. We were taken bodily thither by the gentlemanly proprietor himself, Mr. H. P. Isaacs. The mill building is situated on the south side of Boise river, about one mile from town, and is a large and conspicuously four storied structure, roomy, and stoutly and conveniently put together. Next by is the granary of the capacity of six thousand bushels, at present nearly full of Boise valley wheat. The farmer dumps his load of grain from the outside, through a great wooden spout which empties into a receptacle within the mill where the grain is weighed, and thence is passed by means of elevators and wooden pipes to the granary, there to await the convenience of the 'dusty miller.' On the first floor is a set of fine French burrs for grinding, and flour chests. On the second floor is the huge bolting chest neatly, almost elegantly, constructed and so arranged that a skillful workman can produce from it any quality of flour desired. On the ground floor is an apparatus, consisting of screens, separators and smut machines, for cleaning the wheat of any foreign material that it may contain, after having been sifted and fanned by a similar apparatus on the third floor of the building, at which latter place the grain is first subjected to the cleaning process. On the ground floor it receives its final preparation for being ground into flour. To make first class extra flour, it is necessary that all superfluous matter, like chaff, barley, cheat, all superfluous matter, like chaff, barley, cheat, and other impurities should be removed from the grain before grinding. The apparatus for this business in the War Eagle is the most complete we ever saw. It is impossible that any extraneous particles should remain among the sound wheat after it has undergone the process used by Mr. Isaacs. Indeed, we predict that with a little better quality of wheat than can now be obtained in this valley, the 'Imperial Family Flour' turned out at these mills, will be equal to any brand used in this market without exception. The capacity of these mills is from 75 to 100 barrels per day, with water-power sufficient to double it if needed. The machinery is of a superior character in weight and solidity of frame work. The perfection of proportion, and convenient arrangement visible every part of this magnificent establishment is due to the careful superintendence and workmanlike skill of Mr. Wm. Metzger, millwright and machinist. The machinery, works with faultless precision and smoothness, as is from the Wallametie Iron Works at Portland, Oregon.

WAR EAGLE MILLS.—We get the following description of the establishment bearing the above name from the Boise Democrat of a late date. It will be a matter of interest to the people of this section to learn that our townsman, Mr. H. P. Isaacs, has had the large mill described built at Boise City:

'A day or two since we made an editorial visit to the establishment bearing this name. We were taken bodily thither by the gentlemanly proprietor himself, Mr. H. P. Isaacs. The mill building is situated on the south side of Boise river, about one mile from town, and is a large and conspicuously four storied structure, roomy, and stoutly and conveniently put together. Next by is the granary of the capacity of six thousand bushels, at present nearly full of Boise valley wheat. The farmer dumps his load of grain from the outside, through a great wooden spout which empties into a receptacle within the mill where the grain is weighed, and thence is passed by means of elevators and wooden pipes to the granary, there to await the convenience of the 'dusty miller.' On the first floor is a set of fine French burrs for grinding, and flour chests. On the second floor is the huge bolting chest neatly, almost elegantly, constructed and so arranged that a skillful workman can produce from it any quality of flour desired. On the ground floor is an apparatus, consisting of screens, separators and smut machines, for cleaning the wheat of any foreign material that it may contain, after having been sifted and fanned by a similar apparatus on the third floor of the building, at which latter place the grain is first subjected to the cleaning process. On the ground floor it receives its final preparation for being ground into flour. To make first class extra flour, it is necessary that all superfluous matter, like chaff, barley, cheat, and other impurities should be removed from the grain before grinding. The apparatus for this business in the War Eagle is the most complete we ever saw. It is impossible that any extraneous particles should remain among the sound wheat after it has undergone the process used by Mr. Isaacs. Indeed, we predict that with a little better quality of wheat than can now be obtained in this valley, the 'Imperial Family Flour' turned out at these mills, will be equal to any brand used in this market without exception. The capacity of these mills is from 75 to 100 barrels per day, with water-power sufficient to double it if needed. The machinery is of a superior character in weight and solidity of frame work. The perfection of proportion, and convenient arrangement visible every part of this magnificent establishment is due to the careful superintendence and workmanlike skill of Mr. Wm. Metzger, millwright and machinist. The machinery, works with faultless precision and smoothness, as is from the Wallametie Iron Works at Portland, Oregon.

FOR GOVERNOR.—The President has appointed W. H. Gibbs for Governor of Idaho.

HIGH WINDS.—When we went to press last week the ground was covered with snow, but under the influence of a wind it rapidly disappeared. On Sunday afternoon old Chinook swept down upon us with terrific force and caused everything in the shape of sign-boards and fancy wooden fronts to rattle and shake. The front of Mr. Wm. Stevens' store came near tumbling down, and was only saved by being speedily bolstered up with props. Hats and caps flew around in all directions, and woe to the female that ventured out in that wind—she "went up" instantly. But the gale finally ceased and all was calm for a while, but on Monday evening it commenced again, more furious than before. Fences in some parts of the valley were blown down and the rails scattered in every direction. Here in town no great damage was done, for a wonder. The door of the STATESMAN office was blown open on Monday night, and old Chinook, from appearances on Tuesday morning, had had a gala time tossing papers, books, &c., about the room. We thought all was right side up with the type, and put the outside to press; but judge of our surprise on discovering, when about half the paper was worked off, that Fred. Colman's eagle had been blown wrong end up. It was righted at once, so that all our subscribers will not be able to see the effects of the wind in this instance.

'LEG BAIL.'—Early this morning our citizens were aroused by pistol shots fired in the vicinity of Chisholm's lodging house. On repairing to the scene of the disturbance it was found that Constable Rittenhouse had fired the shots in attempting to arrest a prisoner for whom a warrant had been issued the night before. The cause leading to this decisive action on the part of the officer is about as follows: This morning the constable, after looking about for his man during the greater portion of the night, discovered that Daly was sleeping at the above mentioned lodging house. Thence he proceeded, and making known his business, he at the same time presented the warrant charging him with having unlawfully disposed of a horse belonging to N. & E. Brown. At this juncture, Daly tried to make his escape and ran out the back door. Rittenhouse followed after and commanded him to stop. This he refused to do, whereupon the constable commenced shooting, and at the third discharge his pistol exploded. Finding that the prisoner still paid no heed to his demands more than to increase his speed, he started in pursuit, and after an exciting chase of about a mile and a half he came up with Daly and brought him back to town. The accused then gave bail to appear before Justice Lay on to-morrow when an examination will be held in the case.

SALT LAKE AND SNAKE VALLEY BRANCH RAILROAD. The Boise Democrat of the 21st inst, has the following in relation to this road:

The newspapers and inhabitants of Oregon and Northern Idaho seem to be largely in favor of the proposed branch railroad from some point in the vicinity of Great Salt Lake, via Snake River Valley, to the Columbia. The Walla Walla STATESMAN is strongly in favor of this route, but asks for information in regard thereto. We have already through the columns of the Democrat, given publicity to whatever knowledge we possess on the subject. To this place, there is absolutely no difficulty to be encountered, and from Boise City to any terminus on the Columbia, that paper, and all others of those sections feeling an interest in the proposed enterprise, is well or better than we what are the facilities and advantages of far the largest portion of the route. We can assure the people of Oregon and Northern Idaho that this end of the road is in the highest degree practicable. We are glad to see that the Oregonians are taking a sensible and practical view of this important enterprise. Its completion would place Portland in communication with the Atlantic States as immediately as San Francisco. As the Herald's correspondent justly remarks, the mining and agricultural resources traversed by the Snake River route, are infinitely superior in every respect to those on the line of the Humboldt route. Indeed, after leaving Willamette Valley, there is scarcely an inducement of any kind to justify the building of a railroad over that line, before reaching Humboldt valley; while a road in this direction would not only pass directly through the best of Southern Idaho's rich mining districts, but it would thoroughly tap the agricultural sections of Northern Idaho, Eastern Oregon and Washington Territory, and give them a never failing outlet for their productions and almost a continental market for their consumption. A single glance at the map shows the feasibility of the Snake river route over all others.

The La Crosse Democrat, looking ahead to the Presidential Campaign of 1868, says: And remember this! Where Democracy has been the boldest we have won our greatest victories, where Democrats have dared stand up to defend the poor, there have our greatest gains been made. The people love the kind power which protects them in life and earnings, and Democracy alone does this.

Then higher with the banner—white men to govern! Equality of states, with no Congressional interference. Light and equal taxation. No Military rulers in time of peace. Protection for the poor. The old Constitution and the good old Union. These are our bars—the stars are the Democratic victories of 1867!

Then brothers, up with the bars, and follow the stars to victory.

batling for principles, united for the right we are invincible!

HIGH WATER IN OREGON.—The Oregon papers give accounts of recent high water throughout the Willamette valley. Considerable damage occurred in consequence, and the town of Monticello is said to have been nearly all swept away.

SPECIE PAYMENTS.—Bills have been introduced in Congress, containing various propositions looking to the resumption of specie payment.

Mr. Manton Marble, the conductor of the New York World, is described as "the handsomest of the prominent editors of New York."

EDITOR STATEMAN.—I believe it is customary for all scientific and literary "gosses" when they get out from home to write "notes by the way-side," leaves from my diary. "What I say in blank," or some other general information for the people, forward the same to the papers for publication. A la mode, allow me to say to the people of Walla Walla that I left said city—no matter what day or hour—and in due time arrived at Dry Creek—should have said, we, for the Capt. was along. Dry Creek was crossed in safety, and passing into the rolling country beyond we were surprised to see so many fine farming locations yet vacant—hundreds of acres of fine wheat, corn or timothy land, surrounded by thousands of acres of bunch grass, all unoccupied. Surely, there is on these small spring creeks 4 or 6 miles north of Dry Creek, fifty good farms where the soil was never turned. All this was a matter of great surprise to the Capt., for "said he, "I thought Walla Walla was all settled up and the emigrants would be compelled to go on to Webfoot.

Passing over the divide we descended a gentle grade toward the Coppi, and at a distance we could distinctly see the enterprising village of Waiilatpu, and as we neared the plain, we were pleased to see the beautiful dwellings all neatly painted, with surroundings well planted in trees, shrubs and vines. Good and substantial fences, barns &c., all indicating a most healthy state of improvement. Nearer the town the fields became smaller, and from hundreds of acres came down to tens, fives and ones, and at last, town lots. But all healthily improved and showing the permanency of the settlers.

Waiilatpu is located on the Tonoliet, and we are sorry to say part on one side of the creek and part on the other side. This the Capt. says is all wrong. The south side is a beautiful site for a town, and the north is probably the best for milling. Therefore the Capt. moves that they move their stores, restaurants, &c., all on the south side. We second the "motion."

Washington Correspondence. WASHINGTON, Nov. 23d, 1867.

For the past two weeks the community of this city have been in a state of feverish excitement. People were daily arriving from the North, and immediately the more prominent might have been seen in confidential conversation with those who were known to be in favor of the impeachment question. It was surmised that these gentlemen represented the business men of the Eastern States, and were sent here for the purpose of urging that the voice subject be dropped. Ashley on the other hand, assisted by numerous others, were at work endeavoring to obtain a majority of the Judiciary Committee to report in favor of impeaching the President. Up to within twenty-four hours of submitting the reports it was known that a majority were in favor of reporting a resolution to the House to lay the subject on the table, and that the committee be discharged from its further consideration. Great influence and power were brought to bear upon Mr. Churchill, and on Sunday evening he was induced to change his views on the question and sign the impeachment report thus giving them a majority. Nothing was known as to the character of the report and many were the rumors set on foot during Sunday evening, and early Monday morning the galleries of the House were densely packed, and all were anxiously waiting for the Speaker to call the committee. When the Judiciary was called, every eye was turned upon Mr. Boutwell, it being understood that if the committee should report in favor of impeachment he would offer the report. Mr. B. was in his seat and presented a report favoring the impeachment of Andrew Johnson, President of the United States. It was received with mingled applause and hisses, the latter predominating, and the applause was very faint coming entirely from the negro gallery. Two minority reports were received, and the whole subject postponed until December.

The report is regarded as a perfect farce, no evidence of a trustworthy character having proved anything upon the examination that would be received in a court of law. Only forty-three members of the House are in favor of receiving the report. The minority report will undoubtedly be adopted.

TIS WELL.—We noticed in our last issue that a party of Indians had driven off some fifteen or twenty head of cattle from the valley on last Sunday night. We understand that they were overtaken shortly after and two, all that were seen, of the adventurous devils lost the much prized tassel that generally adorns the extreme apex of the Lo family's cranium. The stock were all recovered. On hearing of this, Gen. Elliott, commanding the post Fort Boise, promptly dispatched a squad of soldiers to thoroughly scout the lower portion of the valley in search of any redskins that may be lurking in that vicinity. We have heard nothing of the success of the expedition.—Boise Democrat, Dec. 12th.

A SECOND FATHER.—Our radical Territorial Council has passed a resolution to the effect that as George Washington was the Father of his country, and was elevated to the Presidency in consequence, therefore U. S. Grant, (who saved the Nation's life) is another father, and ought to be made President too. That is nearly good enough for a genuine 'Lincolinism.'

The Boise Democrat prefers Pendleton and Seymour as democratic candidates for the Presidency. That's the ticket; it suits us. They are statesmen, and good reliable democrats. George H. Pendleton for President, and Thomas H. Seymour for Vice President. A ticket like that would be invincible and couldn't help winning.

MAIL SQUABBLE.—It is stated on reliable authority, that C. C. Huntley, contractor on the mail route from Walla Walla to Missoula, has been sued by John Allman, for one hundred thousand dollars, and his mail pay garnished. Allman, we understand, was the original contractor on this route, and claims that he is damaged, by the contract having been subsequently let to Huntley, in the above mentioned sum.

Judge Kelley, of Pennsylvania, is out in a letter in which he says that General Grant will not carry a single state unless the platform he stands upon will recognize manhood suffrage, and that all of Grant's acts prove that he favors that doctrine.

Washington Correspondence. WASHINGTON, Nov. 23d, 1867.

EDITOR STATEMAN.—On Thursday the 2d session of the 40th Congress was called to order. This had the tendency to call to this city thousands of persons who were brought hither upon all kinds of business more or less connected with the meeting of Congress. Washington has not for several years past presented such an active, busy appearance as it does to-day. The whisky men are in great force. Their object is to prevent a reduction of the tax on that very necessary article of consumption. Prominent men from the South are daily arriving, brought here, for the purpose of endeavoring to have the tax upon cotton removed. Office seekers from all portions of the country are besieging the White House. It is represented that there are at least one thousand applicants for every vacancy. The President is being urged to make immediate changes in his cabinet, and from present indications it is quite probable that several changes will be made in that body shortly. The National Banks are well represented and from the manner they are spending money you would judge that some important measure in which they are interested is soon to occupy the attention of Congress. They are acting rather mysterious, and it is hard to conjecture what new scheme will be brought forward. Little or no business was transacted on the first day, and both branches of Congress adjourned over until Monday. The only item of interest that occurred was in the House. When the Tennessee delegation were about to be sworn in, Mr. Brooks, radical, objected to the swearing of Mr. Butler, democrat, on the grounds of disloyalty. It appears that Butler was a member of the convention which passed the ordinance of secession, taking Tennessee over to the rebels. After some discussion his case was referred to the committee on elections. As he is a double dyed radical of the darkest hue, it is safe to say that he will soon be allowed to take his seat. No business will be transacted before December.

IMPEACHMENT. The Judiciary Committee, of the House, will hold a meeting on Monday for the purpose of forming a report on the impeachment question. Mr. Wilson, chairman of the committee, has written an extensive report. Messrs. Eldridge and Marshall, democrats, have both reduced their votes to writing. Active measures are being taken by Ashley and others favoring the impeachment to get a majority of the committee to report in favor of impeaching the President. This scheme cannot succeed as a majority of the members are proven to be opposed to the measure in toto. The whole question will probably end in publishing the testimony.

MAIL MATTERS. In view of the recent complaints that have reached here from Walla Walla in relation to the irregularity of the mails between that point and Portland, quite an interest has been taken in your welfare. A movement, headed by Mr. Flanders, has been initiated looking to the investigation of all the mail facilities of that portion of the Territory. It is the intention of Mr. F. to leave nothing undone until the mail of your Territory is placed upon a proper scale, and some warrant given by the contractors that they will fulfill their contracts to the letter, or be compelled to throw up and allow the government to make such arrangements as will insure speedy and reliable mail facilities for your people. In this matter your Delegate is deserving much praise for his early action in this important matter.

THE MINT. Once again allow me through your columns to urge upon the people of the Dalles to evince the desire to have the money appropriated for the building of a mint at that place, expended. In connection with prominent men, I was informed that the measure might be carried to a culmination this winter, and that work on the mint could be commenced in the Spring. They also inform me that the people of the Dalles have shown a little desire in the matter that they had supported the people had given the question up. Some immediate action should be taken by the Dalles people. Strike while the iron is hot.

ASSAY OFFICE. A bill will be shortly introduced in the House for the establishment of an assay office at Boise City. A bill of this character passed the 39th Congress, but failed in reaching the President in time for his signature.

NORTHERN PACIFIC RAILROAD. A large number of gentlemen are here upon the business of the road. They seem sanguine that Congress will pass a bill this winter in the interest of the road. Any facts that may be in possession of the people of the Territory that would be of any benefit in furthering the ends of this important measure, should be sent immediately to your Delegate in Congress.

PERSONAL. Mr. Flanders and lady are here and apparently enjoying good health. Mrs. F. remains here during the winter. Senator Corbett, of Oregon, has rated a magnificent residence on 13th st., where he will receive his friends. Senator Williams and lady are stopping at the National. Jno. M. Murphy, Gov. Geo. F. Curry, Wm. H. Farrar and others from the Pacific, are in the city.

HILL BRACEY, arriving last night on the stage from Silver, furnishes us the following interesting Indian item: A party of scouts from Camp Lyon last Saturday found a camp of about twenty Indians on the Owyhee. The soldiers immediately attacked the Indians, killing five and taking five or six prisoners. Among the latter were three squaws, one of whom it is said were the stockings of Mrs. Donoille. One of the horses that were hitched to the ambulance in which Mrs. Donoille and her husband were riding was also captured at or near the Indian camp. The captured squaws were taken to Camp Lyon, and a messenger sent for McCandless, the interpreter, to see if the precise fate of Mrs. Donoille can not be ascertained. McCandless was over on Catharine creek and it would take two days for him to reach Camp Lyon. Nothing can be learned till he arrives. It is understood there were two bucks among the captives; if so, let rope be administered to them until they will "talk," and then hang them for good.—Idaho Statesman, Dec. 17th.

The Boston Post truly observes that 'the party that forces negro supremacy on ten States, will force anything it chooses on the rest, unless overthrown. It is not the Union for which it labors, but a longer lease of power in Congress.'

Seek for the soft answer 'that turneth away wrath.'

Legislative Correspondence. OLYMPIA, Dec. 16, 1867.

EDITOR STATEMAN.—The Legislative Assembly of Washington Territory has now been in session two weeks, and in the whole of that time have done little more than effect an organization. The main cause of this delay has been the unwillingness of members to proceed with the transaction of business until the question of contested seats is settled. This more particularly has been the case in the Council, where Louis McLean, defeated before the people of Lewis and Washington counties, holds the seat that properly belongs to James Longmire, who the proofs show, had a majority of the legal voters. From the first, the democrats in the Council endeavored to bring the contest to an early decision, but have constantly been obstructed by the radicals, who have shown a disposition to keep McLean in his seat, without any regard to law or justice. The case has finally been made the special order for to-day. What the result may be is difficult to determine, but this thing is certain, that if justice is done, the radicals will lose a member and the democrats gain one.

BILLS OF LOCAL IMPORTANCE. As specially interesting to your readers, I notice a new apportionment bill introduced by Councilman Tripp, of Clark county. This bill gives the river counties one half the representation in the House, and of this number Walla Walla gets seven out of fifteen. The apportionment is based on the vote cast for Delegate to Congress at the last election, and from the examination I have given it, I feel warranted in saying that it is fair and just. The bill will pass the Council by a two-third vote, and I think will get through the House without difficulty. Mr. Vauxyke, of Walla Walla, has introduced in the Council a memorial asking the annexation of Northern Idaho. Some of the Sound members oppose the annexation, fearing that it will eventuate in a removal of the Capitol, but this feeling is not general. A count of noses shows that the memorial will pass the Council. What will be its fate in the House is another matter, but the friends of the measure are confident that it will squeeze through the popular branch of the Legislature. A memorial has already passed both Houses, asking increased pay for carrying the mail between Walla Walla and Colville. The compensation was cut down by the Department to \$1,500. The memorial asks that the pay be increased to \$3,000. Even at this figure it is doubtful whether the contractor will be able to make it pay. I notice that a writer in the STATESMAN advocates the passage of a law permitting hogs to run at large certain months in the year. Mr. Lamb, of your delegation, favors this measure, but being earnestly opposed by a majority of his colleagues, it is doubtful whether it will pass. Mr. Ping, who is himself largely engaged in the business of raising hogs, is opposed to the movement, and backed by his colleagues is quite sure to kill the bill whenever it comes up. Several bills have been introduced providing for a repeal of the change of venue law, passed at the last session. The whole subject has been referred to the Judiciary Committee, who most likely will report a substitute for the present law. Mr. Horton, of Walla Walla, has introduced in the House a bill modifying the license law, and giving Justices of the Peace cognizance of all violations of the license law. The bill when it comes up to the Council is quite sure to be modified. The rate of license will not exceed \$200 per annum, and applicants will have the privilege of taking out licenses for any term not less than three months. Nothing as yet has been done in relation to "fee bills," but all the members are agreed that the time has come for a material reduction.

THE WALLA WALLA DELEGATION. Old members of the Legislature, men who have been here since the organization of the Territory, assure me that Walla Walla was never before so well represented in the House. You five members in that body are constantly in their seats, and if untiring exertions will accomplish anything, they are bound to get through the measures in which their constituents are more immediately interested. Four out of the five are strictly temperance men, and that fact more than anything else, astonished the people down here, who from previous observation had been led to think that in Walla Walla was only used for culinary purposes. Thus much of the members of the House. Modesty will not permit me to repeat what is said of the Councilmen from Walla Walla.

THE CLARK COUNTY MEMBERS. This letter would be incomplete if I failed to notice the Clark county members. In the Council, Messrs. Tripp and Struve, and in the House, Messrs. Cochran and Jones, although differing politically, have at all times been ready and willing to aid our members in measures of a local character. They are fast friends of the annexation movement, and indeed of all the measures in which we of Walla Walla feel a special interest. Certainly Clark county has reason to be proud of her delegation. At another time I will furnish you a sketch of the more prominent members of both Houses.

THE JUDICIARY. The Supreme Court has been in session here for the past two weeks, and it is thought will remain in session two weeks longer. I hear it mentioned that a memorial will be introduced asking the removal of Judge Hewitt, on the ground of want of capacity. The Chief Justice seems to be intensely unpopular hereabouts, and from the feeling manifested, I think his judicial days are numbered. A movement is also on foot looking to the removal of Judge Darwin—the objection in his case being a question of morals. He is conceded to be an able jurist, but the fact that he believes in the doctrine of free love, and carries his belief into practice, has given great offence to the moral and right thinking portion of the community. Judge Wyche expresses a desire to be transferred to the Sound, and the proposition now is to transfer Judge Darwin to the Walla Walla District. Some of your members favor the change, others oppose it. How it will be arranged is uncertain.

THE WEATHER. I have now been at Olympia sixteen days, and during the whole of that time I have not seen a single clear day. When you get up in the morning you find it raining; and when you go to bed at night you find it raining, and so all through the live long day and night, it is "rain, rain, pour down rain!" The natives here seem to like it, and are constantly boasting of their climate. I am willing to concede that Puget Sound has great natural advantages, and has a vast amount of undeveloped wealth, but when it comes to climate—well, count me out.

LOCAL CELEBRITIES. I find Elwood Evans, Ex-Governor, Ex-Secretary, and I know not what else, flourishing around here as happy as a clam at high tide. Evans is a man of superior attainments, and if

he had fixed political principles, might readily attain high position. I meet Frank Clark here attending the Supreme Court, and looking exceedingly well. Frank takes his late defeat like a philosopher, and promises with the next canvass to give the radicals another touch of his metal. He is of the true grit, and whether the standard be a good account of himself, or whether he give the old democratic war horse, and his friends, a good account of himself, he is also here attending Court, and looking hale and hearty. The Judge is a true democrat, who for his long and unselfish devotion, deserves well of his party. When honors are to be distributed, such men as Judge McFadden should not be forgotten. My sheet is full.

From Olympia. OLYMPIA, Dec. 6th, 1867. EDITOR STATEMAN.—"Cumtux" has effected a change of base, having left the sands and gravel of Walla, and settled for the present, on the classic shores of Puget Sound; and having changed my diet from Walla Walla Turkey (bacon) and beans, for that of 'kavama' and oysters, I am happy to be able to inform my constituents, that in consequence of my change of base, I feel quite "skookum." While en route for this "classic precinct," I passed through the town of Portland, which you will remember, lies mouldering on the muddy banks of the great Wallametie. In that town, we were quite amused to see the little children playing some game they called "Walt-water," which consisted chiefly in holding their hands under their water spouts and throwing the same into their faces; then getting small sticks, tying strings to them, and going through the motions of fishing from the edge of the sidewalk of the street.

I noticed also, that the ladies whilst in the street persisted in carrying their dresses under their arms! although I was assured by my Portland acquaintances that the "weather was quite pleasant comparatively speaking."

During my stay at Portland the Fenian Brotherhood, had a fine ball at the Oro Fino Hall, which was quite a success. A dance, a concert, and a lecture, were given, and a large number of the Fenian boys, were present, and went—by enjoyed himself hugely. Leaving Portland Friday morning before day light for Monticello, we found ourselves on board the John H. Couch and face to face with our old irrefragable friend, Clerk Stone, who we soon became entangled in a heap of conversation, which was very interesting. We were accompanied by a small boat for Cowitz landing, a place we did not reach by some seven or eight miles. Our point of embarkation was at a point known as "Pumfrey." We were landed amid the most profound darkness, with a perpendicular bill to climb, and this task was accomplished in fair shape by all the delegation save myself, except the Hon. Wm. H. N. His preponderant body overbalanced his foothold and he fell belly down in the soft and slimy mud. By the assistance of two stalwart delegates he was soon righted and we proceeded to the house, to what appeared to me to be a subject of great interest. We feasted 5. We took what is called a stage across the country to the Capital, distance 90 miles. I will not now attempt to give you a description of the road. I am as yet too much excited on the subject to do it justice. I am looking up authority on the subject, and when I find language sufficiently strong to express my feelings, I will endeavor to do so. I have had a memorable occasion you may expect to hear from me.

ANOTHER DEFAULTER.—J. H. Misner has been declared by the department at Washington City a defaulter. This announcement will not much surprise the majority of people in Boise City. The reasons it will not surprise them are these: Owing to some little business transactions not very creditable to him, and to the peculiar manner in which he left Boise some two months ago, it was suspected that his accounts with the O. P. Department were not all right. Such has been the general suspicion ever since he left here. Special Postal Agent Brooks lately received orders from the department to come to Boise City and investigate the matter. The result of his inquiries is that there is a deficit in Misner's account in the money-order business of \$3,100.20, and Mr. Brooks has demanded the amount of his surpluses. How his accounts stand with the postoffice is not yet a certain. It is stated by those who had the best means of knowing that when he left here he had the money to respond to the above deficit in his accounts, but whether he now has is more doubtful. At all events Mr. Misner is guilty of the basest ingratitude to numerous persons in Boise, who have been his friends, by subjecting them to the mortification of acknowledging him public defaulter, to say nothing of the pecuniary consideration of settling up his bonds. He is said to be now in Olympia. It is stated that he has repeatedly said he was about to come back and settle up the whole matter, but he don't come. The above disclosures indicate that he had better come quickly.

Misner formerly resided at this place, and managed to bilk this office at various times out of sundry dollars. He is a very 'loyal' knave. Pass him around.

MARRIED. At the City Hotel on the 24th inst., by the Rev. I. Dillon, Mr. W. P. Adams and Miss Elvira Trimble, of Walla Walla. On Christmas day, commitments of the couple were received by the printers. They endeavored to do full justice to the subject and occasion, by imbibing frequently and tossing the happy couple numerous toasts. The toast was well put, but we will not now reproduce them. However, below will be found an impromptu verse or two that rattled from the lips of an invited guest. He imagined that he had 'got off a good thing, but as poetry is out of our line, we couldn't see it. May be some one else can though: Since the days of Adam's it's ever been so; Old bachelors and madams, will bill, coo and fawn; Let the young folks have their way, and we will let them go; and marry, you bet, and so did our Bill; Just so in this case—Adams never would marry; He could say so in truth, not woman's no, first; Yet lady complete, elastic and nimble; Has captured Sir William—we leave him to Trimble.

BIRTH. On Monday morning, Dec. 23d, the wife of Thomas Tierney—a son. Much joy to you Tom—its all very fine, we drank to the boy that bottle of wine.

Sheriff's Sale. TERRITORY OF WASHINGTON, ss. COUNTY OF WALLA. BY VIRTUE OF AN EXECUTION ISSUED out of the District Court, First Judicial District, W. T., and to me directed, in favor of SAMUEL LINKTON, and against W. J. TERRY, I am commanded to sell all the right, title and interest of said W. J. TERRY, in the following described real property, to-wit: Lot No. 1 in block No. 4, fronting 90 feet on Rose street, by 120 feet in depth, in the city of Walla Walla, and the building erected thereon to satisfy said execution and cost. Notice is hereby given that I will sell the above described real property to the highest bidder, for cash, on the 27th day of the month of JANUARY, at the hour of 1 o'clock, P. M. Sale to take place on the premises. A. SEITL, Sheriff W. W. Co. W. T. Dec. 27, 1867. [2-4w] By A. J. GREGORY Dep.

OUR ANNUAL CAKE.—It came as usual, on Christmas, and from O. Brechtel's Bakery—the prettiest wreathed, finest sugar-coated, handsomest flowered cake that ever graced the sanctum table of the STATESMAN office. In well defined lettering around the gorgeous surface and among the sweet flow, are, in the words, "HAPPY CHRISTMAS."

THANKS to the gentlemen of the Bank Exchange, for that pitcher of egg-nog sent to the printers on Christmas day. Its quality was of the best, and at least one G. T. T. envied the recipients their present. We were just tempted enough to taste everything that came in our way on Christmas day. Visited the Gem, and found the lunch table and ceteras sparkling and gorgeous. Of course we "gorged"—couldn't resist. The Montana, fell in our path, and 'come out.' Fearing too many good things at once might spoil even an "excellent appetite, a retreat was hit upon and effected in remarkably good order.

CHRISTMAS TREE.—This institution, under the management of the M. E. Church here, was a grand affair with the little folks. The tree was handsomely decorated with an almost endless variety of toys suited to the tastes of little girls and boys. The occasion and the various performances connected therewith, is spoken of by those who were present, in terms of the highest praise. A gentleman volunteered to report the proceedings for the paper, at length, but from some cause or other, has neglected to do so.

THE CHRISTMAS social party, we learn was a success. A large company of ladies and gentlemen assembled at Hartman's in the evening, notwithstanding the inclemency of the weather, and enjoyed themselves in the dance during the greater part of the night. Accounts agree that all who attended the party went away well satisfied with the entertainment.

Poultry and eggs appears to be in good demand at present. Turkey fowls are selling at from two to four dollars apiece; ducks, one dollar a pair; chickens, 75 cts a pair; eggs, 50 cents a dozen, with an upward tendency.

Ayer's Cherry Pectoral.

HAS LONG BEEN MANUFACTURED by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the urgent remedy for the common cough, croup, whooping cough, bronchitis, and every other pulmonary complaint; for Coughs, Colds, Hoarseness, Asthma, Croup, Whooping Cough, Bronchitis, Incipient Consumption, and for the relief of consumptive patients in advance stages of the disease. As time wears these facts wider and better known this medicine has gradually become the best reliance of the afflicted. From the ice cabin of the American present to the palaces of European kings. Throughout the entire country, in every State and city, and indeed almost every hamlet, it contains, CHERRY PECTORAL is known as the best of remedies for discharges of the throat and lungs. In many foreign countries it is extensively used by the most intelligent physicians. If there is any dependence on what can ever be known, in short, if there is any reliance upon anything, then it is infrequently proven that this medicine does cure this class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its infallible and the unmistakable character conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, they have failed and been discarded, this has gained credit by every trial, conferred benefits on the afflicted which they can never forget, and produced cures too numerous and remarkable to be forgotten. Ayer's Cathartic Pills, for the cure of Constipation, Jaundice, Dyspepsia, Indigestion, Dysentery, Pains arising from Disordered Stomach, Pains of Mercurial Infection of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and as a Dinner Pill, are unequalled. They are sugar coated, so that the most sensitive can take them with pleasure, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by Dr. J. C. AYER & CO., and sold by all druggists and dealers in medicines everywhere. SMITH & DAVIS, Portland, Oregon. Wholesale Agents. 49-2m

S.T-1860-X.

A GREAT many hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. In all of no use. The Plantation Bitters are imposed upon long. They are in the same sized bottles, and made just as they were at first, and will continue to be, or we shall stop making them. The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of indigestion and late hours. They strengthen the system and subvert the mild. They prevent miasmatic and intermittent fevers. They purify the blood and acidity of the stomach. They cure Constipation and Dyspepsia. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver complaint and Nervous headache. They make the weak strong, the languid brilliant and are exhausted nature's great restorer. The recipe and full circular are around each bottle. Clergy, men, merchants and other persons whose sedentary habits induce weakness, lamitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find immediate and permanent relief in these Bitters. But above all they are recommended to weak and delicate females and mothers. They are sold by all respectable merchants. See that each bottle has our private United States stamp over the cork and the outside side label. Beware of re-filled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and imposter, should be immediately reported to us. P. H. DRAKE & CO., 81 Park Row, New York. Smith & Davis, Portland, Gen'l Ag'ts for Oregon.

BARNES MAGNOLIA WATER.

A toilet delight! The ladies' treasure and the gentleman's boon. The "sweetest thing" and largest variety of perfume. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, to render the skin soft and fresh, to prevent eruptions, to remove the unpleasant odor of perspiration. It removes tan, redness, blemishes, &c. It cures nervous headache and allays inflammation. It cools, softens and adds delicacy to the skin. It yields a subdued and lasting perfume. It cures mosquito bites and stings of insects. It is what every lady should have. Sold everywhere. Try the Magnolia Water once, and you will use no other Cologne, Perfumery, or Toilet Water afterwards. DEMAS BARNES & CO., Props, Exclusive Agents, N. Y. Sold by druggists and dealers on the Pacific Coast.

Mustang Liment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liment. For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liment is a certain cure. For Rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liment. For sprained horses, the poll evil, ring bone, and swoony, the Mexican Mustang Liment never fails. For wind galls, scratches, big head and splent, the Mexican Mustang Liment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liment is the best investment that can be made. It is more certain than a top doctor—it saves time in seeking out the doctor. It is cheaper, but when the doctor, and should not be dispensed with. "In hitting the kettle, from fire, it tipped over and scalded my hands terribly." The Mustang Liment extracted the pain, and caused the sore, to heal rapidly, and left a very little scar. CHAS. FOSTER, Mrs. S. Litch, of Hyde Park, Vt., writes: "My boy has a sore throat, (sprain) but when the doctor, and should not be dispensed with. "In hitting the kettle, from fire, it tipped over and scalded my hands terribly." The Mustang Liment extracted the pain, and caused the sore, to heal rapidly, and left a very little scar. CHAS. FOSTER, Mrs. S. Litch, of Hyde Park, Vt., writes: "My boy has a sore throat, (sprain) but when the doctor, and should not be dispensed with. "In hitting the kettle, from fire, it tipped over and scalded my hands terribly." The Mustang Liment extracted the pain, and caused the sore, to heal rapidly, and left a very little scar. CHAS. "In hitting the kettle, from fire, it tipped over and scalded my hands terribly." The Mustang Liment extracted the pain, and caused the sore, to heal rapidly, and left a very little scar. CHAS. FOSTER, Mrs. S. Litch, of Hyde Park, Vt., writes: "My boy has a sore throat, (sprain) but when the doctor, and should not be dispensed with. "In hitting the kettle, from fire, it tipped over and scalded my hands terribly." The Mustang Liment extracted the pain, and caused the sore,

HEALTH OF COWS.—Good health in domestic animals is always a matter of primary importance.

As bad health in parents transmits a tendency to disease in the offspring, it is important that every kind of animal we desire to continue on our farms should be kept vigorous and healthy.

As domestic animals are a source of human food, it is of great importance to preserve them in a healthy condition.

Each of these circumstances is a sufficient reason for guarding with scrupulous care the health of the animals we feed; but when we derive milk from animals, it is doubly important that they are kept free from every objectionable taint.

If she has sores about her, pus may be found in her milk. If she is fed upon decayed or diseased food, her milk, since it is derived from her food, will be imperfect.

A small boy out West was assisting his father to mark sheep with paint and brush. The father would catch a sheep, and say to the boy, "Mark that." After the job was done the boy started for his home, which was at some distance, and was overtaken by a minister on horse-back, who, seeing the boy had paint, invited him to a ride behind him.

After many more remarks of this kind, the boy replied: "I have marked your back all over now, and it looks like thunder."

The reverend gentleman was somewhat astonished when he examined his coat.

DOING BETTER.—A few days since, as a lady connected with a certain mission was visiting one of the public institutions for the reformation of juvenile delinquents, she would ask the differenturchins for what misdemeanor they were in there.

Silk culture promises to be an important part of the future industry of California. Silk worms have been bred in California regularly since 1860, and the weather having been favorable, the increase has been rapid, and next year the total production will, it is expected, reach as high as 15,000,000 cocoons.

The Panama Railroad, it was some time ago announced, was re-leased to the company at present operating it, for a period of ninety-nine years.

SENATOR SUMNER, smarting under the publicity given to his domestic affairs, has cancelled all his lecture engagements.

THINK OF IT, white men of the North—the South is full of negro vigilance committees, which perpetually threaten the lives of white men, women and children!

THE SUNDAY before election in Massachusetts all the moral ministers in the State prayed for the success of entire prohibition.

"Net, what are you leaning over that empty cask for?" I am mourning over departed spirits.
