The law is still in force which debars ex-Confederates from holding commissions in the military and naval service of the United States. Whatever memories linger of the struggle which ended at Appomattox there is no longer any question of the loyalty to the government of the ex-Confederates and this law should be repealed at once.

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

A Germ Disease. The phlegm that is coughed up in those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alike just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin.

These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alike just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin.

Then they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expels them, heals the places they leave, and so nourish and soothe that, in a short time consumptions become germ-proof and well. 51-21

A SHEPHERD'S EXPERIENCE.—On Saturday John Sinkert, commonly known as "Hindoo John," arrived in the city from the hills, where he had been herding sheep so long that when he quit his employer paid him off with a bank check for the sum of \$125. When John got the check cashed and felt the heavy twenties clicking in his pocket against the more modest silver he felt rich. He invested eight dollars in a light plaid suit, took several mixed drinks, and felt still more wealthy. By the middle of the afternoon he had an elegant jag on him, and imagined he was the mayor of the town and had unlimited coin at his command. As he was throwing a \$20 gold piece on a bar to pay for some drinks he was espied by "Big Frits," who took him under his protecting wing and escorted him to the domicile of the fascinating but frail Annie Fairfield, where his companion left him. Here he bought several rounds of drinks, paying for them in silver, but when this was exhausted, and he sought for his gold, he made the horrifying discovery that that also had disappeared. He accused his hostess of robbing him, but she denied it, and indignantly ordered him out of the house. Burning for revenge, he hunted up the officers of the law and swore out a warrant for the arrest of the woman on the charge of feloniously relieving him of \$80. The trial was held Tuesday before Justice Gardner, but the evidence was not sufficient to hold the prisoner. Hindoo John has returned to his sheep herding with nothing left of his \$125 but a whole lot of experience and a light plaid suit of clothes.

FORGER LEVERING BROUGHT BACK.—Sheriff Dan Simmons returned from New York on Wednesday morning with E. E. Levering, alias Fred Hefeker, who is charged with having obtained \$600 from the First National bank on a forged draft. Levering claims to have never been in Yakima before, but Assistant Cashier Henry Teal, who had excellent opportunities for becoming acquainted with him at the time the draft was cashed, readily identified him when he saw him in the cage at the jail. This is not the first crime of the kind that the prisoner has committed, as he is wanted in California and Pennsylvania for forgery. The costs to the state for bringing him back amount to a neat little sum, Sheriff Simmons having made two trips, and the costs already taxed up aggregate \$716.10. At the preliminary examination held Thursday afternoon, Attorneys J. B. Reavis and John G. Boyle appeared for the defendant and Attorneys Rochford and Fred Parker for the state. On account of the gravity of the offense and interpreting the intention of the law that the defendant appears for trial, Justice Henton placed the bail at \$10,000. Levering is a good appearing young fellow, faultlessly attired and his kid gloves and patent leather shoes quite outlasted anything in the court room.

A DREAM LOCOMOTIVE.—Northern Pacific locomotive No. 571 is looked upon by all conductors, engineers and brakemen on the road as the rankest kind of a hoodoo. She was brought on to this division about three years ago and has spent the greater part of that time in the repair shops. Her first wreck was at Prescott, the crew escaping with slight injuries. The next was a head-end wreck one mile east of Buckley. The third was a frightful collision at Eagle Gorge, at which time Engineer Young and Fireman Cooper were killed. Then in trying to butt a train from the track at Palmer she was hurled into Green river, and so throughout her life she seems to be possessed of the spirit of the evil one. Strange stories are told of a goblin perching itself on the pilot of 571, of the hoarse spitting blood when an attempt is made to draw water from the tank to wet down the coal, and of various mysterious pranks and caprices that the old engine is given to. "You may call it superstition if you want to," said an old N. P. employe to a HERALD reporter, "but there isn't a railroad man on this division but what fears 571, and they will all rest easier when she finds her way to the junk shop."

COL. HOWLETT'S APPOINTMENT.—The president on Monday sent to the senate the nomination of Luther S. Howlett for the registration of the U. S. land office for this district. This action of the president is generally approved here at home and throughout the state where Col. Howlett's abilities are acknowledged and his many good qualities admired. There will be no difficulty regarding his confirmation, as his record before the general land department is of the highest character, and his indorsement for the office was one of the most glowing tributes that could be paid to a man. Governor Ferry and most of the state officers indorsed him in his candidacy, as did also the leading public men and politicians of Seattle, Spokane and other places. The HERALD is of the opinion that with Register Howlett and Receiver Hare presiding over the land office of this district there will be no just cause for complaint, and cordially welcomes the change.

WILL IRRIGATE THE RAINIER BELT.—A dispatch from Portland dated Jan. 26th says: The Yakima Irrigation & Improvement Company has awarded a contract to the Portland Construction company for constructing a ditch 28 miles long, from the Yakima river to Kennewick, on the west bank of the Columbia, and 16 feet wide on the bottom. This ditch will furnish water for irrigating 30,000 acres of land, on the west bank of the Columbia and both banks of the Yakima river. The irrigation company was incorporated and is controlled by Portland people, and the Mason Mortgage company of Tacoma is its financial agent. The land to be irrigated is the only rain belt in the state, the soil and climate resembling that of Fresno, Cal. The construction company will ship a plant to-day and work to be begun as once and to be completed in four months.

—Notwithstanding the prevailing dullness in business circles last year, the receipts at the postoffice exceeded those of 1920 by about fifty dollars. For 1922 Postmaster Dunn looks for a material increase, and the receipts for January give strong indications for this expectation.

—By a very ingenious and original process, Dr. J. C. Ayer & Co., of Lowell, Mass., are enabled to extract the essential properties of the materials used in the preparation of their famous "Ayer's Sarsaparilla," thus securing a purity and strength that can be obtained in no other way.

—A contest was recently instituted against Sam Vinson's homestead at Roslyn, but the affidavit has been thrown out by the general land office on the ground that it is too general and sweeping and not specific enough, and instead of swearing to what he claims the contestant only "believes" such to be the case.

Miss Campbell, of Pennsylvania, was the guest of Mr. and Mrs. Wm. Keo Wednesday, she having stopped over on her return home from a visit to her brother at Tacoma.

Assistant General Land Agent George P. Eaton, of the Northern Pacific, returned to Tacoma Tuesday after spending several days in making arrangements for improving his Sunnyside ranch.

Indian Agent Lynch says the newspapers have an erroneous impression regarding the building of a dam across the Yakima river by the N. P., Yakima & Kittitas Irrigation Co., where said river forms a boundary stream. He refrains from expressing any opinion on the subject until called upon by the department, but thinks the question under the existing treaty is: Can the waters of the boundary stream be divided and appropriated without the consent of the Indians, when Indians have been arrested and incarcerated in the Yakima county jail for obstructing this same stream? Mr. Lynch says it is a question to be decided by the courts and not the agent, adding that when the reservation is thrown open for settlement the water necessary for irrigation must be procured from this river and at a point above the dam, and that rights must be secured with this end in view.

—There is little danger of an ice famine for Yakima this coming summer, over fifteen hundred tons having been housed as follows: Shardlow & McDaniel, 150 tons; M. G. Wills, 130 tons; Chappell & Cox, 50 tons; M. H. Ellis, 8 tons; H. H. Allen, 35 tons; Walker & Redmon, 19 tons; H. A. Griffin, 16 tons; P. A. Stanton, 10 tons; H. Harris, 800 tons; Geo. Henderson, 150 tons; Savage, Brooker, Scott, and others, 120 tons.

—The Baptist church is fast approaching completion and gives evidence of being a very sightly house of worship. G. M. McKinley received a letter on Tuesday stating that the American Baptist Home Mission Society had voted an appropriation of \$500 for this church, which, with the local subscriptions, will complete and leave it free from debt. The dedication services will probably be held on the first or second Sunday in March.

—Attention is called to the advertisement of J. T. Eshelman, who has opened a real estate, insurance, abstracting and loan office over F. D. Eshelman's stationery store. Mr. Eshelman has a fine lot of business, residence and farm property on his list, including some bargains, which it would be difficult to improve upon. He also represents several solid insurance companies, and has a complete set of abstract books.

—At Rosalia, the other day, a jack rabbit appeared on the main street, and every man, woman and child in town turned out with guns and dogs to give chase. At Coulee City the conditions are quite different, for there the jack rabbits eat out of the farmers' wagons along with the town cows and no one minds it sufficiently to molest them or make them afraid.

—John Reed has established an office and wood and coal yard on the west side of the track. Telephone 17 if you are ready to pay cash for fuel.

All Experts Use Royal Baking Powder

Perfect and uniform success in making finest food is more certain with Royal Baking Powder than with any other. Use it in every receipt calling for a baking powder, or cream of tartar and soda, and the best results in pure, wholesome, appetizing food are assured. Experts use it because it adds to their success. Physicians and Health Officers recommend it because it adds to the wholesomeness of the food.

MARION HARLAND: "I regard the Royal Baking Powder as the best in the market. Since its introduction into my kitchen I have used no other."

MISS MARIA PARLOA: "It seems to me that the Royal Baking Powder is as good as any can be. I have used it a great deal and always with satisfaction."

MRS. BAKER, Principal of Washington, D. C., School of Cookery: "I say to you, without hesitation, use the 'Royal.' I have tried all, but the Royal is the most satisfactory."

M. GORJU, late Chef, Delmonico's, New York: "In my use of Royal Baking Powder, I have found it superior to all others."

A. FORTIN, Chef, White House, for Presidents Arthur and Cleveland: "I have tested many baking powders, but for finest food can use none but 'Royal.'"

—The pow-wow of the Indians regarding the recent survey of reservation boundary lines resulted in the selection of Chief Joe Stwire, Rev. Thomas Pearse and Captain Ennes to represent their claims at Washington. They will take an interpreter with them, but have not as yet named the date for starting, as the matter of expenses must be provided for, and for this they must depend upon their own resources, the government probably realizing that if it made provision for expenses of Indian delegations the capital would soon be overrun by them and the treasury bankrupt.

—The entertainment given by the Girls' Guild of St. Michael's church, at the Hotel Yakima Tuesday evening, was a complete success artistically, socially and financially. Each number of the program as published was rendered to the entire satisfaction of the large audience as was evidenced by the unstinted applause. The gross receipts were \$78 which netted a neat little fund for the Guild.

—Contractors King & Dickinson have received instructions to double their contract on the Kiona ditch and build twenty miles instead of ten. They have now 100 men and fifty teams employed on this work and the force is to be largely increased. The ditch will be fifteen feet on the bottom and twenty-six to thirty feet wide on top.

—A gentleman named Sharpless, who has had considerable experience in the growing of sweet potatoes in the south, is looking around for suitable land for the purpose of planting ten acres to this toothsome crop. He says there is no reason why the growing of sweet potatoes should not become an important industry in Yakima.

—There is no excuse for any man to appear in society with a grizzly beard since the introduction of Buckingham's Dye, which colors a natural brown or black.

—If any of THE HERALD readers are desirous of getting a saddle that is both handsome and substantial they should call at C. E. McEwen's, on Yakima avenue. He has some beauties.

—If you have property to sell list it with A. L. Fix & Co.

—Attend the slaughter sale at J. J. Carpenter's. Bargains in every department, and especially in ladies' boots and shoes, and in overcoats, caps, mufflers and gloves.

Newspapers and Soap. Frank Siddalls, the soap manufacturer, was once asked why he did newspaper advertising altogether, and did not follow in the footsteps of other manufacturers, putting up sign boards, etc. He replied that in his experience he found that the man that does not read the newspapers never uses soap.—Detroit Free Press.

Does it Contain Ammonia?

The charge is being made that the Royal Baking Powder contains ammonia. We would have supposed that the emphatic condemnation of ammonia baking powders by the most eminent physicians throughout the land, and the fact of the three leading chemists of Minnesota making their report to the Senate Committee recently showing that bread baked with the "Royal" contained ammonia and the hostility now being manifested by the public against all ammonia and alum baking powders would have driven them permanently from the market.

In view of the fact that Baking Powder has become an indispensable article in every kitchen, it is gratifying to know that there are brands in the market to which no suspicion of any kind has ever attached. Dr. Price's Cream Baking Powder is a pure cream of tartar powder free from every taint of ammonia, alum or other harmful substance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

Managers in Children.

If we desire children to be courteous we must treat them with respect. They will infallibly copy our manners; so we must take care that they are the best. Let us be as careful of their feelings as we wish them to be of those of others. When it is necessary to administer reproof, let it be given in private. Many children are very sensitive on this point, and they feel acutely, although they cannot put their emotions into words...

A Singular Sponge.

"Some of the most beautiful things that live in the ocean are the sponges of great depth, which have often very curious and interesting forms," said a naturalist. "Not least remarkable are the so-called 'sea nests,' which are in the form of spheres or sometimes egg shaped. The outer coat of one of these specimens is a complicated network over which a delicate membrane is spread. An ornamental frill adorns the upper part, while the lower portion throws out a mass of glossy filaments like fine white hairs. These hairs penetrate the semifluid mud in every direction, thus holding the sponge in its place, while a continuous current of water is drawn by waving 'cells' through all parts of the mass, passing out by a hole at the top. In this manner the animal absorbs whatever food may be afloat."—Washington Star.

It doesn't make any difference which United States senator it was...

It doesn't make any difference which United States senator it was, so long as the story told of him cannot be fixed upon anybody he can get his hands on. Suffice it to say it was a United States senator, and he had come to Washington to be inducted into his high office. He was out in a committee room with two or three senators during the preliminaries. "By the way," inquired one, "have you got your credentials?" "You bet I have," he replied on the spot, yanking a big wallet out of his pocket and slapping it down on the table. It was a clean give away, but they never told anybody about the massive session, and that is how it leaked out.—Detroit Free Press.
