VOL. IV.

NORTH YAKIMA, WASHINGTON, THURSDAY, FEBRUARY 18, 1892.

NO. 4.

YAKIMA COUNTY BOOMS!

Not as a Speculative Proposition, but as a Solid and Legitimate Agricultural growth. And why? Because Yakima County has

↔ The Soil & Climate, Abundance of Water for Irrigation, Geographical Position, Cash Markets for Produce in All Directions. ↔

The Public is Beginning to Find Out

That Yakima County has some other Resources than Coyotes and Real Estate Agents.

That it is the Home of the Peach, Plum, Pear, Grape and Apple.

That we grow Six Tons of Alfalfa to the Acre during the Season.

That the choicest Vegetables grown in Washington are raised here.

That it is the Hop-growing section of the State, producing 2000 Pounds to the Acre.

That every Citizen of Yakima County who Rustles and Saves, is Prosperous.

That a Crop is never lost here by Pests.

That Cyclones, Tornadoes and violent Storms are unknown.

That great Irrigation Companies are spending millions of dollars reclaiming our Arid Lands.

That 40 Acres of our Volcanic Ash Soil, well handled, will net more money each year than 160 Acres in the Middle West.

That YAKIMA COUNTY IS TO-DAY THE BANNER AGRICULTURAL COUNTY OF THE STATE!

— To the Home-Seeker —

We say that you do not consult your own interests if, in examining the Northwest for a Location, you fail to inspect Fertile Yakima. You can purchase tickets direct to North Yakima of any railroad ticket office in the United States, and on arriving the undersigned will take pleasure in showing you a land of plenty, bubbling over with prosperity and success for all who will work to attain it.

Yours Truly,

The Inventor of the Key Chain.
The key chain worn by many gentlemen is the invention of a noted burglar, who spent many years of his life in a dungeon cell for plying his vocation in the hotels in Philadelphia. While at work one stormy night, trying to turn the lock of a Walnut street door, the false key dropped in the snow, and while searching for it a watchman came along and locked the burglar up and had him sent to Moyamensing. Having some ingenuity, he thought of having keys fastened to a chain, so that when a limb of the law appeared, he could fly without a thought about the keys, and found it worked like a charm. He has now seen the error of his ways, and lives comfortably on a royalty from manufacturers.
Such is Fame.

E. Meeker's monthly hop report states that the hops on hand in Washington and Oregon will not aggregate more than 1500 bales, and as the stocks in the "World's market" are light, it is evident that the new crop for 1892 will meet an active market.

H. Keuchler has submitted to the builders the plans of his new nine-room residence, of which he intends to begin the construction next month. Mr. Keuchler is his own architect and the drawings indicate that he has much talent in that direction.
Parties claiming title to timber lands will hereafter be required to produce the original estyemen and their witnesses at local land offices for further examination with reference to any contracts or arrangements which may have been made prior to entry for the conveyance of the land to corporations or syndicates.
It is claimed that nowhere in central Washington is a larger or finer stock of boots and shoes carried than at Lee's, on First street, opposite the Guiland house. An immense invoice of kangaroo and fine calfskin footwear has just been received direct from the factories of the east, and customers cannot help but be suited.
The goods now in stock also include a special line in extra widths and for persons whose feet are unusually fleshy. For quality, finish and fit, call at Lee's Boot and Shoe Store.

Mr. G. M. McKinney relates a singular coincidence which occurred in his trip of a year ago. It is of local interest as it illustrates how favored Yakima is in the way of winter climate. Mr. McKinney left this city on the 29th day of January and as he was on his way to the train he glanced at the thermometer and noted that it registered 59 degrees above zero. Having passed through snow storms, tornadoes, and the severest kinds of weather he arrived at New Orleans on February 6. Hunting up a thermometer he found that the temperature there was the same to a degree that it had been in Yakima, two thousand miles to the northwest.
Portland Telegram: The local newspaper should be, and many of them are, a local index of the character of the people among whom it is published. As a rule it is an institution that deserves liberal and generous patronage. It should never be an object of charity, and should fairly earn what it receives, but it almost invariably does this and more. We can make no invidious or critical comparisons, but can say as a rule the local newspapers of the northwest are of a character to be proud of, and to be commended and generously supported.
Chas. W. Hobart writes THE HERALD that a special meeting of the State Historical society will be held at Tacoma, Monday Feb. 22nd, at which a paper will be read by Hon. He expects to be absent a month, and the object of his trip is said to be the obtaining of the approval of the war department to matters bearing on the harbor lines; but as aspiring politicians now go east to be interviewed and quoted in furtherance of their projects, the colonel may have his cap set for some fat office.

Alex McAfee, formerly of this city, has a faculty of mysteriously disappearing every once in a while. He has made two disappearances in quick succession lately. The first was from Portland, where he was keeping a saloon; then he turned up at Stocktown, Cal., and took a job of driving a cab and now the despatches report his mysterious disappearance while drunk. His faithful wife, who will be remembered as Miss Cordie Benton, sticks to him through all his wild pranks.

The Great Northern has filed another map of definite location with the secretary of the interior, and it is claimed that the route named will be followed unless the interior department interferes or Hill purchases the branch of the Seattle, Lake Shore & Eastern running from Spokane to Coulee City, both of which are unlikely to happen. The line will run from near the mouth of the Snohomish river along the south bank, leaving Snohomish City two miles to the north and Cathart a mile to the south. Thence directly east following the north bank of the Skykomish river and going through the mountains at Stevens' pass. From Stevens' pass the road runs east by south, crossing the Wenatchee at Lake Klakim, thence southeast to Wenatchee, crossing the Columbia close to Wenatchee City. From Wenatchee the course is southeast for a distance of ten miles, almost to Coulee ferry, and from there directly east to Crab lake. From that point it proceeds north by east to the source of Crab creek and thence to Chatteroy, via Spokane.
Spicer Leaming, of Cape May, N. J., a nephew of E. R. Leaming of this city, is the possessor of a beautiful antique, gold finger ring which was given by Gen. George Washington to Lieut. Richmond Somers, of the early United States navy, just before that officer embarked for the Tripolitan war in 1805, when he lost his life. Lieut. Somers was an ancestor of the Leamings. The ring is of rare workmanship, and the setting is a box of glass containing a lock of the first president's hair, surrounded by pearls and ornamented with blue and white enamel.
"Bangem," the horse raised by Wesley Jones and sold to Al Lillie, is said to have won nearly every race in which he has been entered in Dakota and Minnesota, and cleaned up a lot of money for his owner. About the same experience was had several years ago with "Thick Neck," another Yakima horse. Bert Parton and Joe Bartholet bought him from Billy Splawn and taking him to Walla Walla and Pendleton went broke. The animal was then sold and taken to California, where he proved a big money winner and was re-sold for \$16,000.
The well on the Miller ranch in Wide Hollow has been abandoned. The workmen were unable to recover the lost drill, so the casing was pulled up and the plant moved about ten feet distant, where the drilling was recommenced on Tuesday. It is ardently hoped that this well will be a success, as it means much for the west side.

REPRESENTATIVE JOHN L. WILSON, according to a press dispatch, has a scheme on foot to create a new state out of eastern Washington by adding to it the panhandle of Idaho.

THE SPOUTING ARTESIAN WELLS.

A Visit to Redville, the Camp of the Well Borers--The Reclamation of a Beautiful and Fertile Valley.

It is generally understood throughout the northwest that there is more material development now in progress in Yakima county than in any other section of the state.

On Sunday last THE HERALD representative paid a visit to the scene of operations in order to more fully inform the readers of this paper as to details.

Three miles this side of the wells the clearing of sage-brush begins, and is marked on one side of the valley by the residence of J. H. Bradford, Jr.

Water in the first, or well No. 1, was struck in August last at a depth of 325 feet, and it is a night well worth the trip.

PROCEEDINGS FOR CONTEMPT.

Judge Smith Has Auditor Ellis Before Him on This Charge—Rochford and the Commissioners Involved in the "Wampus."

A highly interesting case, which has created some feeling, was developed in court this week, growing out of the Altanum water suit of H. M. Benton vs. P. A. Johnson, involving the rights of 128 persons. The proceedings have been going on for a long period, and Judge Smith was of the opinion that he could not properly discharge the duties devolving upon him without the testimony being taken by a stenographer, and he therefore engaged Mr. Slemmons to take and transcribe the same for the benefit of the court, and, as the case progressed, ordered Auditor M. H. Ellis to issue county warrants to Mr. Slemmons in the sums of \$27.00 and \$144.75.

Under instructions of Prosecuting Attorney Rochford and the commissioners, Auditor Ellis refused to issue the warrants, and when this was reported to the court by Mr. Slemmons, in an affidavit, Judge Smith ordered Ellis to appear before him and show cause why he should not be punished for contempt.

Mr. Ellis appeared on Monday with Attorney Whitson as his counsel, and the court appointed Attorney Snelvy as prosecutor. Mr. Ellis was found guilty of contempt; but it appearing that he had acted under the advice of Prosecuting Attorney Rochford and the county commissioners, judgment and sentence was suspended, and Mr. Snelvy, as court prosecutor, was directed to examine into the question as to whether or not Mr. Rochford and the commissioners were guilty of contempt, and if they were to institute proceedings. Auditor Ellis was again commanded to issue the warrants to Slemmons, and this was the situation of the case until Tuesday, when it took on a new face, coming up under the head of D. E. Lesh, plaintiff, vs. M. H. Ellis, defendant. Mr. Lesh was represented by Attorneys Morford and Jones, and brought suit on the grounds that the county of Yakima was not liable for the fees of the stenographer contracted in civil proceedings, and therefore they could not become a legal charge against the county, and that there was no law authorizing the court to make the order on the auditor, and that the same was without jurisdiction and therefore void. The plaintiff alleged that he was a citizen and taxpayer, and asked for a restraining order to prevent the issuance of the warrants. The court stated that this cause was an action begun for the purpose of interfering with an order of the court for contempt, and that Prosecuting Attorney Rochford, having advised disobedience, was by virtue of that advice incompetent to appear for the defendant, Ellis, who is only the nominal defendant, and as it was necessary to preserve the authority and dignity of the court, Attorneys Whitson and Snelvy were appointed for the defense, for whose compensation the auditor was instructed to draw a warrant when the value of the services were fixed by the court.

The case was heard in chambers, and the injunction was not allowed. An appeal was taken from the decision, and thus the matter rests at present.

THE FAIR COMMISSIONERS AND STOCKERS.

They Hold a Business Session and Adjourn to Meet March 22—Important Matters Canvassed.

The three hundred stockmen, like the "immortal six hundred," faded away when they came to be counted and but a tithe of that number answered to the roll call. The delegation from the east was extremely limited, but the west made a fair showing. The hotels were well filled and the landlords consequently happy. Of the fair commissioners there were present Dr. N. G. Blalock, of Walla Walla; S. B. Conover, of Port Townsend; L. R. Grimes, of Ellensburg; Percy W. Rochester, of Seattle; Wm. L. LaFollette, of Pullman; Thomas H. Cavanaugh, of Olympia; Dr. G. V. Calhoun, of LaConner; Secretary Edward S. Meany, of Seattle; and Mrs. Alice Houghton, of Spokane, who is in charge of the women's department.

Jordan at Toppenish for some time past, and she has many friends in this city who wish her every happiness in her new life.

—D. M. Jesse, of Walla Walla, chairman of the state horticultural board, was in the city Tuesday and inspected the fruit in the various stores and found all of the Sicily lemons covered with the aphid. Mr. Jesse ordered that they be either cleaned or destroyed. The dealers in every instance preferred the former means of getting rid of the pest.

—The coal land suits of The Government vs. The Northern Pacific Coal Company, Thomas Johnson et al., embracing nine filings, which have been pending before the land officers of this district for many months past, were decided on Tuesday in favor of the government. The land embraces about 1500 acres in the heart of the Roalyn district and is easily worth \$700,000.

—Agent Jay Lynch, of the Yakima reservation, is in the city for a couple of days this week. He says the Indians held a big council over the recent killing of Abraham by Olney and requested the agent to disbar the latter, who is a half-breed, from the reservation. Olney is now keeping an eye on Pasco and awaiting the time when the bitter feeling shall have blown over.

—John W. Milburn, the ex-train robber, is not yet out of his troubles. For two months Deputy Sheriff Dilley has been working on a case involving the breaking into a room and the theft of a rifle, and now he has the details and proof in shape, and yesterday, at the expiration of his short sentence, Milburn was re-arrested on the charge of burglary. Mr. Dilley thinks he is ticketed for a trip over the road.

—THE HERALD is in receipt this week of the largest and most complete line of new faces of job type to be found in any printing office in central Washington. The invoice includes all of the novelties in types, as well as the best and most approved of standard faces, and, carrying an immense stock of papers, it can conservatively be said that no office between Spokane and the cities of the Sound is equipped to compete with THE HERALD in job work.

—The net proceeds of the charity ball amounted to \$47. This was tendered to the St. Elizabeth hospital, but was declined, as it was stated that a recent order prevented the managers from accepting the proceeds from any ball. The executive committee then met and decided to turn the money over to the library association. The proposition of dividing the funds with the fire department was canvassed, but as this would leave each such a small amount that it was decided to give another ball in April, the proceeds of which will go to the firemen.

—The irrigating ditch affairs in the lower end of the county are getting more lively with each succeeding week. An interesting episode is related as occurring only a few days ago, when an engineering corps went onto the land of a Mr. Black for the purpose of running lines. The owner ordered them off, but they paid no attention to him, and he left with the remark that he would "soon fix 'em." Shortly afterwards Black appeared mounted on a fiery cayuse and swinging a rope to which was attached a long strand of barbed wire. Running his horse into the group of men he scattered them right and left and chased every one of them off of the field with the exception of Engineer J. G. Fairfowl, and then taking after that gentleman he ran him for more than a mile with the dreaded barbed wire wishing around his heels at every jump. Mr. Fairfowl was in the city Monday looking anything but robust after his recent exertions, and his friends aver that his normal weight is reduced over twenty pounds.

33 per ct. difference. ROYAL BAKING POWDER Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent. to 60 per cent. more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third, besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable—advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.

A SHORT AND SWEET SESSION.

That Was the Character of the Last Regular Meeting of Yakima's City Council.

The council met in regular session Monday evening with all members present excepting Bartholet.

A communication was received from M. P. Kay regarding what he claimed to be a double assessment. It was referred to the committee on assessment and taxation to make immediate report.

The committee on sewers reported that the first plans for the extension of the sewers was not found feasible, as the pipe could not be covered to the depth required without great expense. The plan now is to change the direction of the extension and outfall, making it over 800 feet in length instead of 582. The engineer's estimate is that the cost of construction of the long distance will be about \$75 less than that for the short distance.

The following bills were allowed and warrants ordered drawn for the respective amounts: Sawyer & Pennington, \$3.55; THE YAKIMA HERALD, \$12.15; C. M. Hauser, \$13.50; Tacoma Novelty Co., \$1; Anderson Lithographing Co., \$193; J. C. Leach, \$1.75; H. H. Allen, \$1; W. L. Jones, \$2.75; W. H. Redman, \$264; Alex. McLean, \$2.50; J. B. McCafferty, \$35; Sawyer & Pennington, \$6.50; G. W. Gardner, \$20.50.

The city clerk reported that there was a difference of \$53 between Ex-Marshal McMurtry's report as tax collector and the amount of funds turned over by him to the treasurer. Referred to the committee on police for investigation.

Tickets for this entertainment, including supper, have been placed at \$2 and are on sale at various business places. The party promises to be one of the most successful of the season.

THEY WERE AFTER MONEY.

John Morrissey's Residence Burglarized, but the Thieves Got Left, and Skip Out Under a Shower of Bullets.

Sunday night, while John Morrissey was in the city and Mrs. Morrissey was visiting a neighbor, two men appeared at their home on the Natchees and one entered while the other kept watch on the outside. There were two children, a boy and a young girl, at home at the time, and they knew of the presence of some one in the house; but the boy quieted his sister's fears, and without exhibiting his knowledge of the presence of the burglars, made his way to a neighboring house and returned with Jasper Gilliano, both well armed. At their appearance the outside guard took to his heels, and the fellow on the inside, who had been ransacking the rooms of the upper story, appeared at the window, boots in hand, and leaping to the ground nimbly cleared the nearest fence and made for the north, followed by a fusillade of bullets.

The thieves secured nothing, and they were in luck to get away with their lives. This is the second raid that has been made on Mr. Morrissey's residence within the past six months, and the object on both occasions was evidently money, for nothing else was taken, and Mrs. Morrissey is supposed to be possessed of her proportion of legal tender, but she emphatically declares she will keep it in a place "where thieves shall not break in and steal nor mortals corrupt." Mr. Morrissey has purchased a heavy navy revolver and laid in a good supply of cartridges with the expectation of giving the next nefarious visitant a still warmer reception.

—Attention is called to the professional card of Wilson & Arnold who have formed a co-partnership for the purpose of attending to civil engineering. They have secured offices in the Lewis & Engle building, second floor. Orders for blueprints promptly filled.

—The state medical society will hold its next meeting at North Yakima early in May.

THE SHAM AND THE REAL.

Every good thing has its imitators, every genuine article its counterfeit. The Ammonia and Alum Baking Powders sold over the counters are no more like Dr. Price's Cream Baking Powder, than the paste is like the real diamond, or a counterfeit is like one of the old master's genuine paintings.

When greedy and merciless manufacturers claim their adulterated and harmful baking powders are as good as Dr. Price's, they know they are not telling the truth. These people know they are destroying the stomachs and the complexion of the consumers, and there are many grocers recommending such powders over their counters—knowing same to be injurious and worthless—simply to make a large profit.

Dr. Price, a conscientious physician, has spent a lifetime in perfecting and popularizing his Cream Baking Powder, the only Pure Cream Tartar Powder now to be obtained. Multitudes of imitators all over the land have sprung up, not to imitate the purity of Price's Cream Baking Powder, but to see how cheap they could make their counterfeits and hoodwink the public.

Some use Ammonia and others Alum, but all these shams cry in chorus, "Buy this, it's just as good as Dr. Price's and much cheaper."

Price's Cream Baking Powder is the standard for purity and perfection the world over, and is beyond comparison. Dr. Price stands for Pure Food and a foe to all shams.
