

# THE YAKIMA HERALD.

VOL. IV.

NORTH YAKIMA, WASHINGTON, THURSDAY, APRIL 7, 1892.

NO. 11.

## YAKIMA COUNTY BOOMS!

Not as a Speculative Proposition, but as a Solid and Legitimate Agricultural growth. And why? Because Yakima County has

↔ The Soil & Climate, Abundance of Water for Irrigation, Geographical Position, Cash Markets for Produce in All Directions. ↔

The Public is Beginning to Find Out

That Yakima County has some other Resources than Coyotes and Real Estate Agents.

That it is the Home of the Peach, Prune, Plum, Pear, Grape and Apple.

That we grow Six Tons of Alfalfa to the Acre during the Season.

That the choicest Vegetables grown in Washington are raised here.

That it is the Hop-growing section of the State, producing 2000 Pounds to the Acre.

That every Citizen of Yakima County who Rustles and Saves, is Prosperous.

That a Crop is never lost here by Pests.

That Cyclones, Tornadoes and violent Storms are unknown.

That great Irrigation Companies are spending millions of dollars reclaiming our Arid Lands.

That 40 Acres of our Volcanic Ash Soil, well handled, will net more money each year than 160 Acres in the Middle West.

That YAKIMA COUNTY IS TO-DAY THE BANNER AGRICULTURAL COUNTY OF THE STATE!

== To the Home-Seeker ==

We say that you do not consult your own interests if, in examining the Northwest for a Location, you fail to inspect Fertile Yakima. You can purchase tickets direct to North Yakima of any railroad ticket office in the United States, and on arriving the undersigned will take pleasure in showing you a land of plenty, bubbling over with prosperity and success for all who will work to attain it.

Yours Truly,

**FRED R. REED & CO.,**  
NORTH YAKIMA, WASHINGTON.

### Yakima Artesian Well Boring Co.

CONTRACTS MADE FOR SINKING  
Artesian Wells.  
H. B. SCUDDER, Manager.  
Office, Lewis-Engle Building, North Yakima.

### Casteria

For Infants and Children.  
Casteria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Perverse Sleep. Thus the child is rendered healthy and its sleep natural. Casteria contains no Morphine or other narcotic property.

"Casteria is so well adapted to children that I recommend it as a superior to any preparation known to me."  
H. A. AUSTIN, M. D.,  
111 South Oxford St., Brooklyn, N. Y.

"I use Casteria in my practice, and find it especially adapted to children of all ages."  
ALEX. HENNINGSON, M. D.,  
107 1/2 Ave., New York.

"From personal knowledge and observation I can say that Casteria is an excellent medicine for children, acting as a laxative and relieving the bowels and general system very much. Many mothers have told me of its excellent effect upon their children."  
DR. G. C. COOPER,  
Lowell, Mass.

The Celebrated French Cure,  
"APHRODITINE" or "MONEY"  
It is sold on a  
POSITIVE  
GUARANTEE  
to cure any  
form of nervous  
disease, or any  
disease of the  
generative organs  
of either  
sex, arising from  
excessive use of Stimulants, Tobacco or Opium,  
or through youthful indiscretion, over  
excitement, such as Loss of Brain Power, Wakeful  
nights, hearing drops falling in the back, Seminal  
Weakness, Hysteria, Nervous Prostration, Prolapsus  
of Testicles, Leucorrhoea, Discharges, Weak Mem-  
ory, Loss of Power and Impotency, which if ne-  
glected often lead to premature old age and insur-  
mountable infirmity. Price \$1.00 a box, 6 boxes for \$5.00 Sent by  
mail on receipt of price.  
A WRITING GUARANTEE for every \$5.00  
order, to refund the money if a Permanent  
cure is not effected. Thousands of testimonials  
from old and young, of both sexes, permanently  
cured by APHRODITINE. Circular free.

SOLD BY W. H. CHAPMAN, Sole  
Agent, North Yakima, Wash.

### Why Irishmen Love the Green.

The early Celts worshiped the dawn and the sunrise. It is more than probable, therefore, that their liking for the color green, which we see in their flags, sashes, etc., arose from a mistake among those who had lost a thorough knowledge of the Irish language. The sun, in Celtic, is called by a word pronounced exactly like our "green," and it is likely that the Irish fondness for that color arose through the striking similarity of the two words. In the same way, when we talk about a greenhouse, we think they are so called because plants are kept green in them during the winter; yet it is far more probable that the word is derived from the old Celtic word for sun, because greenhouses are so built as to catch the rays and heat of the sun and store them for future use.

### He Carried a Valise.

"An amusing contretemps occurred the other day in Old Orchard," said a suburbanite to the St. Louis Republic's man about town. "A certain devoted hubby remarked to his spouse on their homeward way from a party:

"My dear, you didn't seem to enjoy yourself this evening."  
"Whereupon the lady explained that one of those things which Job had so many was located upon her shapely shoulders."

"Oh, that's nothing," returned her liege lord; "Call in Dr. — and have it lanced."

"I don't want Dr. —," answered the lady; "he is an old flame, but, hubby dear, you might call in that young doctor who passes our door with the little satchel every morning."

"Well, the young man was called in the next morning and solemnly conducted into the lady's bed-chamber, where the voluptuous shoulder and malignant boil were only exposed to view. He gazed at the eruption long and abstractedly.

"What do you think of it?" queried hubby, growing anxious.  
"I think it requires the services of a physician," was the reply.  
"Why, aren't you a physician?"  
"No; I'm a piano tuner."

### YAKIMA AND THE STATE.

Interesting Items of News from Yakima and Its Suburbs.

**Bits of Gossip, Facts, Fancies, Personalities, and a Hodge-Podge of Paragraphs of Every Description.**

Fred R. Reed made a business trip to Tacoma this week.

Died, on the Wenas, Monday, March 28, the 8-year-old son of L. French.

Councilman Clarence Palmer, of Ellensburg, boasts of a 10 1/2 pound daughter.

Louis Carpenter has sold to A. L. Fix & Co. one-half of block 9, Barker's addition to Yakima City; consideration, \$300.

Receiver Hare, of the land office, spent Sunday in Tacoma. He was impressed with the way the democrats were turning out.

The department has made an appropriation for clerk hire for the Yakima land office, and Charles Hare has fallen heir to the position.

John Golden has resigned the office of constable, and will accompany the geological survey party. A. L. Fix is acting constable, and has been recommended for the appointment.

A correspondent of the Ellensburg Register thinks that the normal school of that place is being run on a political basis as an asylum to harbor and give employment for republicans only.

The B. Strobach Irrigation Canal company has been incorporated with a capitalization of \$3,000. The object is to take water from the Schanno ditch and carry it onto school section 36 south of this city.

Attorney Carey, of Ellensburg will hereafter have charge of the Northern Pacific's legal business in this city. He says he anticipates considerable litigation that will require him to be here more than half of the time.

County Assessor E. A. Shannafelt, with two deputies, started on the work of enumeration Tuesday. In addition to making the assessment and collecting the poll tax—so have your two dollars ready—the census has to be taken and World's fair statistics gathered. Mr. Shannafelt requests that heads of families be prepared with statistics regarding the number of acres they had under irrigation for the year 1891; also for the present year; the acres of products, whether grain, hops, wool, small and large fruits, vegetables, etc., and the value of the crop as near as can be estimated. In this huge task that the assessor has before him the people can and should aid him in every way in their power, for these statistics, if full and complete, will be of incalculable value.

The mistress of a gambler named Ed Leighton either committed suicide or was murdered by her paramour on Thursday last week at Spokane. Leighton claims that she was jealous and shot herself in his presence. After the tragedy he was found clinging to some logs in the Spokane river, and said that he had jumped from the bridge and tried to drown himself. The deceased was formerly the wife of the cashier of the London and San Francisco bank of San Francisco, and moved in the best circles of that city. The charge of murder against Leighton will probably be dismissed.

The explosion in the Roslyn coal mine, which THE HERALD chronicled last week, occurred as follows: Henry Gregory, a negro driver, entered the slope with a safety lamp in his hand, but as he exposed one in his hat. A frightful explosion followed his entrance into the chamber, and he was instantly killed, almost every bone in his body being crushed by the concussion. Peter Hartman and Edward Dunston, white miners, who were changing their clothing near the entrance, were badly injured. The mule Hartman was driving has not been found.

George J. Miller, a cattleman, shot and killed Frank Kraus, proprietor of the Oakesdale saloon, last week. It was another case of the over-ready revolver, and the only provocation was that Kraus refused to pay for a beef that Miller had delivered, and ordered him to take it away as it had not been properly dressed.

The past winter has been a very favorable one for stock interests in eastern Washington. The sheep men have seldom had such a favorable season, and the loss of cattle and horses was kept down to the minimum.

Princess Angeline of Seattle has turned prophetess. She says the world will come to an end in June, and that the important intelligence was communicated to her by the spirit of the great Wah Kee Wee Kum, who was long ago a powerful and influential medicine man of her tribe.

That Spokane has a very energetic, pushing lot of people was again evidenced last week when James N. Glover, president of the First National bank of that city, was granted a divorce from his wife and the next day crossed the Idaho line and was again married and started on a wedding trip through the east.

The saloonkeepers of Payallup have made the following proposition to the mayor: That if the council will return the money for the unexpired terms of their licenses, they will close all but three saloons in town. The question was brought up at the Murphy temperance meeting and discussed, and on motion was laid over until next Sunday. Public sentiment is against the proposition.

Samples of the Ellensburg fire brick have been submitted to the contractors having the work of lining the Stampede tunnel, and should they prove satisfactory the Ellensburg manufacturers expect to get an order for 17,000 brick, the number required to complete the work. The brick now being laid are procured in Japan, and if our sister city gets the contract a large plant will at once be secured to admit of the speedy filling of the order.

At O'Brien, on the Northern Pacific road twelve miles from Seattle, late in the evening of March 27, during a barroom row, Mike Crowley, a barkeeper, shot and instantly killed Richard Horn. Crowley then put the pistol to his own head and fired three shots. The last shot was fatal. Horn was aged 34. He leaves a wife and four small children. There was no enmity between the men. The tragedy was the result of over indulgence in liquor.

The Ellensburg Register has entered upon a crusade against Landlord Steiner of the Hotel Horton. It gives him credit for running a clean house of entertainment, and with setting a good table, but objects to his criticisms of the town and the people. While THE HERALD is not posted on the two faces of the controversy, it might be well for the Register to take the note from its own eye, for in placing its strictures on a citizen and his place of business it is doing just what it disapproves of in Mr. Steiner.

### LATE REPORTS REGARDING HOPE.

The Theory that Lice Are Hatched in the Ground Knocked Out—The Yakima Acreage Increasing.

Mr. Barrett, of Payallup, who recently purchased 160 acres of land on the Moore of W. F. Jones, is putting out 20 acres to hops. G. W. Roberts, one of the school land purchasers, is also putting out five acres to hops. This makes a total of 1,047 acres of new land that have been dedicated to this industry so far as reported this year.

Prof. Riley, of Washington D. C., knocks in the head the new theory that hop lice are found in the ground. In a letter dated March 19 to C. A. Tonneson, secretary of the state board of horticulture he says: "A careful examination of the earth in the tin box shows no trace of the hop-louse. The insects mistaken for this species are quite different, and belong to the genus Tychea."

I cannot give any better advice in reference to the treatment of this hop louse than that which I have already published. If some systematic effort is made to destroy the earlier generations on plum trees, both wild and cultivated in the district, that is one of the best ways of preventing injury, and I cannot advise any better preventative measure. If the destruction of the early generations on plum trees have not been attempted, then spraying of the hop yards in the very beginning is the only way to avoid later trouble and disaster."

There seems to be very little activity in the hop market judging from the reports published in the various trade papers. The market shows the same general features that have characterized it for the past month. Business is on a small scale, receipts are not excessive and absence of any pressure to sell has an important bearing in sustaining prices. Dealers can not replace their stocks for less money and consequently see no reason for urgent sales. Brokers are buying as their wants occur and show no disposition to anticipate future needs. In New York prices are quoted at 20 @ 23. Speculative dealings in futures have been very light of late. If there has been any changes whatever it has been in the way of a shade of weakness although no reason can be assigned for this. The Kentish Observer of March 10th says "trade in English hops shows little improvement, the impending coal strike and the continued winter weather operating against revival," while advices from Nuremberg are that the tone of the market is very much depressed.

Official Paper of North Yakima.

DEMOCRATIC STATE CONVENTION.

Call for Democratic State Convention to Assemble at Vancouver, Wednesday, May 25, 1902.

A general convention of the Democratic party of Washington is hereby called to meet in the city of Vancouver, Clark county, Washington, on Wednesday, May 25th, A. D. 1902, at 10 o'clock a. m., for the purpose of selecting eight (8) delegates and eight (8) alternate delegates to represent the Democracy of Washington in the Democratic National convention which meets at Chicago, Tuesday, June 24th, 1902, to nominate a candidate for president and vice president.

The mode of representation shall be as follows: One delegate for every 10,000 inhabitants, and one delegate for each one hundred votes, and one delegate for each fraction thereof in excess of fifty votes for the State of Washington, Democratic National convention.

Upon the following basis counties are entitled to representation as follows: viz.

Table with columns for County, Delegates, and Votes. Lists counties like Adams, Asotin, Benton, Blaine, Bellingham, etc.

It is recommended by the state central committee that the county conventions in the respective counties call primaries for election of delegates to a county convention to be held on Saturday, May 14th, and that the county conventions be held in the several counties on Saturday, May 15th, for the election of delegates to the state convention in Vancouver, as herein provided.

Another convention will be held later in Olympia, the time to be fixed hereafter by the executive committee for the purpose of nominating two congressmen, a democratic state ticket, constituting a new central committee, and for the transaction of such other business as may be proper and necessary.

By order of the democratic state central committee. Dated, Monday, April 4th, 1902.

C. H. WARREN, Chairman, Seattle. D. H. GILMAN, Vice-Chairman, Colfax. GEORGE HARRARD, Secretary, Tacoma.

THE TACOMA ELECTION.

The Tacoma city election on Tuesday resulted in H. S. Huson being elected mayor by a majority of 155, and the success of the larger part of the republican candidates by lower majorities. This result was only brought about by the expenditure of a large sum of money and the aid of all of the corporate machinery centered in and about Tacoma.

The democrats have much cause for congratulation. They not only showed their strength and wiped out a troublesome lesson to Mr. Parker, who had forced his nomination against the wishes of a large wing of the party.

The prohibitionists are very much exercised over the proposition to permit the brewers and distillers to make an extensive exhibit, at the World's fair, of the process of making beer and whisky, and to open a German beer garden to sell their wares.

There is a thing in the life of a woman so suggestive of the absolute equality of all humanity as that simple act men

perform every day of their lives, exchanging cigar lights. The most battered specimen of masculinity living doesn't mind asking a millionaire for "a bit of your fire," and he always gets it.

The doubt as to Cleveland's nomination at Chicago is disappearing. His splendid reception in Rhode Island, the spontaneous demand for his nomination from all over the country, and the recent set back to the pushing New York men have all had a tendency to confirm the faith that in him the party will have a successful leader.

As announced by THE HERALD last week Peter Bellus, of Puyallup, has succeeded W. Wallace Atherton in the proprietorship of the Hotel Yakima, one of the best and most popular hostleries in the state.

THE HOTEL YAKIMA IN NEW HANDS

Peter Bellus Purchases and Takes Possession of This Valuable Property.

GRAND RE-OPENING ON FRIDAY, APRIL 5

Numerous Invited Guests to be Present From the Sound--To Close With a Ball and Supper in the Evening.

As announced by THE HERALD last week Peter Bellus, of Puyallup, has succeeded W. Wallace Atherton in the proprietorship of the Hotel Yakima, one of the best and most popular hostleries in the state.

WHY PRICES OF HOPS SHOULD ADVANCE.

Louis E. Scarsie, of New York, Gives Some Very Interesting Figures on the Situation.

It is interesting to note the hop situation today in connection with the figures of the last previous crops.

On September 1, 1890, the stock carried over was considerably less than on September 1, 1889, and consisted of 1885 and 1887 hops, all the crop of 1888 and 1889 having disappeared.

There is a thing in the life of a woman so suggestive of the absolute equality of all humanity as that simple act men

ing, charting and developing the harbors of Washington. Government aid is sought by way of appropriations to be expended and provision of engineering skill to be exerted in connection with the commission's labors.

Among the excursionists from the Sound in attendance upon the opening of the Hotel Yakima, are: D. E. Stewart, Seattle; A. E. Barret, Puyallup; R. E. Farren, S. G. Crandall, Tacoma; A. M. Crandall, Puyallup; C. W. Whedon, Fred N. Trotter, Tacoma; J. H. Spencer, Puyallup; James Dorsey and wife, M. A. Dillon, A. E. Lawrence and wife, Mrs. T. S. Harmon, Wm. H. Adams, Hon. Elwood Evans, Tacoma; S. B. Dushberry and wife, Puyallup; T. F. Leader, Tacoma; Ira Pearsall and wife, A. G. Mathers and wife, C. L. Stewart, Puyallup; J. M. Hayes, Frank Ayborn, Tacoma; A. B. Buck, E. H. Fisher, Seattle; C. K. Clarke, Tacoma; W. S. Thompson, Sumner; Will Turner, Tacoma; J. C. Nixon, H. Foster, Seattle; Col. J. M. Steele, Tacoma; E. M. Pine, H. E. McGowan, W. M. Wray, F. G. Potter, Puyallup; A. G. Rogers, editor of the Herald Puyallup; C. Lamsart, Tacoma; Dr. P. Frank, Puyallup; H. I. Ballard, Blanchard.

The Oregon republican state convention nominated Binger Hermann of Roseburg and W. R. Ellis of Portland for congress. The presidential electors nominated were John F. Caples, of Portland; H. R. Miller, of Grant's Pass; D. M. Duane, of Portland, and Rev. G. M. Irwin, of Union. The convention was a mild affair, and the Harrison administration was endorsed in a half-hearted manner.

New York Press: Col. W. F. Prosser, of the new state of Washington, is in New York and the East on a mission as chairman of the Harbor Line Commission of his state. Colonel Prosser has lived in Washington for thirteen years. He was formerly a citizen of Nashville, Tenn., and represented that congressional district in congress for one term, in 1868, when General Grant was president. The commission of which he is a member was constituted for the purpose of improv-

ing, charting and developing the harbors of Washington. Government aid is sought by way of appropriations to be expended and provision of engineering skill to be exerted in connection with the commission's labors.

Public Debate. The Francis Murphy club at their hall, next door to the Hotel Bartholet, at the regular Tuesday evening meeting, next week, will entertain the public with the following question: Resolved, That the drinking of intoxicating liquors is a habit and not a disease.

The Francis Murphy Club Meets every Tuesday evening at 7:30 o'clock p. m. at their hall on First street, two doors north of Hotel Bartholet. Free reading rooms open every day from 8 o'clock a. m. to 10 p. m. All are cordially invited. J. T. KROSSBURY, President.

That slumbering volcano will soon be in active operations again. One thousand new people in less than 12 months. Mill, breweries, hotels, banks are all now getting ready to start up.

Warning to Fishermen. You are hereby warned, if you go fishing and not have the proper appliances for catching the finny tribe you will be sure to have the fisherman's look, but if you first repair to W. H. Chapman's drug store you can get all that is needed in that line, as he has the finest assortment of tackle ever come to the town, direct from the manufacturer.

Wanted. 100,000 pounds of onions. Apply to R. Saupson, N. P. depot. 7-1f

For Accommodation of Sunnyside. N. H. Lillie has opened a grocery and general merchandising stock at Toppenish, and also carries a line of lumber, building material and fence posts. Teams furnished for delivering goods in the Sunnyside country. 6-1f

A Great Liver Medicine. Dr. Gunn's Improved Liver Pills are a sure cure for sick headache, bilious complaints, dyspepsia, indigestion, constiveness, torpid liver, etc.

Shardlow and McDaniel now keep Pabst's Milwaukee beer on draught. "It has no superior" it is the verdict of all who have tried it.

Billiardists, give attention; the billiard table at Shardlow & McDaniel's has been completely overhauled and is now as good as when it came from the factory, for it not only has been newly covered but a splendid set of genuine ivory balls have been purchased.

Dr. Savage will be found at his office on Yakima avenue from 10 a. m. to 4 p. m. Residence in Wide Hollow, at the old Shaw place. 15-1f

H. Keuchler received lately a large invoice of the latest patterns in jewelry as well as bargains in the line of watches, silverware and clocks. Give Keuchler a call and see the many handsome things he has to offer. 11-2f

Lombard & Horsley are making a specialty of \$18 and \$20 bedroom suits, of three pieces. They are of hard wood, with a 20x24 inch German bevel-plate mirror. No such bargains have ever before been offered in this city. Call and make a personal inspection, for if anyone wants a fine bedroom set without expending much money he is sure to be captivated by Lombard & Horsley's offer. 11-1f

The prices at H. Keuchler's, the jeweler, are as low as ever. Go and examine the goods and note prices. They will tempt buyers. 11-2f

Just received at H. H. Allen's drug store--an immense invoice of painters' materials, including brushes and the Sherman-Williams family, house and room, ready mixed paints. Those who are posted on paints prefer this make to all others. They are said to have no equals in the market. 11-1f

A Newspaper With Nine Lives. All papers have some object in view, principally making a living. It was left for the Daily Tom Cat, of Hot Springs, Ark., to cap the climax. Its motto is, "God help the rich, the poor can beg." It also states that it is of the people, for the people, and to be paid for by the people, and its object is to live in pomp and oriental splendor. It supports Susan E. Anthony for president and Dr. Mary Walker for vice president. It closes by saying that it has come to stay, and, like other cats, has nine lives. 11-1f

For fine stationery you can be supplied by going to M. A. Chapman's news stand.

There is a thing in the life of a woman so suggestive of the absolute equality of all humanity as that simple act men

ED. F. WHITE, FASHIONABLE TAILOR!

SHE ASKED ALTOGETHER TOO MUCH.

A Husband of a Month Would Grant Anything Reasonable, but His Bride Was Over-exacting.

They had been married a month and the world had been turning for them upon its axis of gold lubricated with honey.

The harmony of happy hearts filled their souls with a divine rapture and the hours flew by on melodious wings.

This day the first shadow had touched with gray the rose leaves on their path.

"No, Ethel," he said firmly, yet kindly, "I cannot do it."

"But, George," she pleaded, "I—your Ethel—your bride—make you do it for her sake," and she came and laid her soft white arms about his neck and turned her appealing eyes to his.

He bowed his head and kissed her golden hair.

"I know, I know, Ethel," he said in tender, protesting tones, "but this I can not do. You should not ask it; you who are all the world to me."

The young wife's hands fell to her sides; she shook under a storm of sobs, and a shower of tears wet the sweet pink roses on her cheeks.

The young husband was not less moved, but the determined look did not leave his face.

"And you will never, never grant your Ethel's request?" she asked, stepping back from him.

"Never, Ethel, never," he replied in a harsher tone than he had yet used, "I am willing, only too glad and willing to do anything you ask in reason, but never, never, NEVER will I consent to call your father papa, and that ends it."

George had spoken.

THE ARID REGION OF THE UNITED STATES.

Millions of Acres to be Reclaimed By Irrigation—Possibilities and Future of This Tract of Land.

The arid region of the United States covers an area of 1,500 miles in its widest part from east to west, and 1,000 from north to south. It embraces the area between the 100th meridian and the coast range, and from the British possessions on the north to Mexico on the south. This space contains over a million of square miles—one-third of the area of the United States, including Alaska—equal to more than 400,000,000 acres. All of Arizona, New Mexico, Utah, Wyoming, Idaho, Colorado and Nevada, and portions of California, Oregon, Washington, Texas, Kansas, Nebraska, North and South Dakota and Montana lie within this belt. It is estimated in the report for the year ending June 30, 1891, of the Hon. John Noble, secretary of the interior, that "120,000,000 acres that are now desert may be redeemed by irrigation so as to produce the cereals, fruits and garden products possible in the climate where the lands are located."

When it is remembered that 120,000,000 acres, about equal in area to the states of Ohio, Illinois and Indiana combined, the gigantic possibilities and future of so great an extent of fertile and productive land, now lying fallow, may be imagined, and it is made to "laugh with a harvest." The four states above named now have a population of about 15,000,000, and could easily support thrice that number; so that estimating the cultivable area of the arid area at 120,000,000 acres, and doubtless it greatly exceeds that amount, the United States has in that desert land an empire awaiting development in comfort and almost equal to the now existing population of the entire republic.

THE GREAT NORTHERN CHANGES ROUTES.

New Pass Across the Cascades to be Selected—It is 500 Feet Lower Than the One Surveyed.

There is strong probability that the line across the Cascades selected by the Great Northern railroad may yet be abandoned, says a Spokane dispatch. The Stevens pass, which was chosen, was thought to be the lowest pass through this bothersome range, but lately it is rumored that Engineer Beckler has become convinced that a lower pass to be found further north. What has brought about this change of sentiment on his part is very easily told. Billy Stillwell, an old prospector in the Okanogan country, claims that he knows of a pass at least 400 feet lower. Major Gwydir heard him speak of it, and informed Mr. Beckler, who promptly interviewed Mr. Stillwell. He was offered \$10 a day to guide an engineering party to the pass, but Mr. Stillwell is a high priced guide and demanded a further bonus of \$15,000 in case the Great Northern should utilize the pass in question. Mr. Beckler, it is understood, refused to consider the proposition, but pumped him for all he was worth. He got a good deal of fragmentary information, which gave him a clew as to where the pass is located, and it is believed that a party of nine which left Cootee City a few days ago with packhorses has started out to find it.

A Suggestion.

"I could sit beside you for ever," he said as they sat together in front of the dying embers of the cherry logs.

"I believe you," she said yawning and glancing at the clock, "and you intend to, don't you?"

There was a deeply thoughtful expression on his face as he stole softly into the twilight and hurried himself in the direction of his home.

A Paritancian Postmaster.

The editor of a journal in the northern part of the state, says the San Francisco Call, chanced to be at the railroad station early one morning as a sleeping-car went

THE NEW RULES OF POKER AT BUTTE.

A Tenderfoot's Introduction to a New Feature—Loses His Money and Walks Back Home.

It was a gambling saloon in Butte. The tenderfoot from Chicago had taken to the warpath and announced his determination of relieving a few of the miners of what spare change they happened to have about them. Without much trouble he found a victim who was willing to try a hand or two at poker. Luck favored the stranger from the start, and he won steadily. Finally he drew four aces, and after the stakes had been run up to a comfortable figure he magnanimously refused to bet further.

"This is downright robbery," he exclaimed, "and I don't want to end the game here by bankrupting you. So, here goes." He threw down four aces and reached for the money.

"Hold on," cried his antagonist. "I'll take care of the dust, if you please."

"But I held four aces—see?"

"Well, what of it? I've got a looloo."

"A looloo—three clubs and two diamonds."

The stranger was dazed. "A looloo!" he repeated. "Well, what is a looloo, anyway?"

"Three clubs and two diamonds," coolly replied the miner, raking in the stakes. "I guess you aren't accustomed to poker rules out here. See there?"

As he spoke he jerked his thumb towards a pasteboard card which ornamented the wall of the saloon. It read:

—A LOOLOO— BEATS FOUR ACES.

The game proceeded, but it was plainly evident that the unsophisticated young tenderfoot had something on his mind. Within five minutes he suddenly braced up, his face was wreathed in smiles, and he began betting once more with his former vigor and recklessness. In fact he staked his last dollar on his hand.

Just at this juncture the barkeeper stopped in the midst of the concoction of a Manhattan cocktail and quietly hung up around each behind the bar and above the dazzling array of glasses and bottles.

The stranger threw down his cards with an exultant whoop. "It's my time to howl just about now!" he cried, as he reached for the money. "There's a looloo for you—three clubs and two diamonds."

"Tut, tut!" exclaimed the miner. "Really this is too bad. You evidently don't understand our rules at all. You certainly don't mean to tell me that you play poker in such a fast and loose, slipshod way down east, do you? Why, look at that rule over there."

He pointed directly over the head of the busy barkeeper. The Chicagoan read his doom in the handwriting on the wall; it was the Rebalaxhar case over again. The bit of pasteboard bore this legend:

—THE LOOLOO CAN BE PLAYED BUT ONCE IN A NIGHT.

The young man has not reached home yet, but as the walking is said to be pretty fair nowadays he will be due in Chicago about the middle of next week.—Chicago Mail.

Thin or gray hair and bald heads, so displeasing to many people as marks of age, may be averted for a long time by using Hall's Hair Renewer.

Badly Located.

The Walla Walla Union-Journal prints the following interview with Mr. Bocey as to his opinion as to the location of the agricultural college and school of science.

"What about the agricultural college and experimental station of this state; will they not help to engender our fruit growing industries?" He replied:

"They would have done so had they been properly located, but as they are now located I think the benefit we could have derived from them is likely to be wholly lost. They might as well have been located in Idaho as far as any good to horticulture in this state is concerned. They are away off in the east side of the state, in a section visited by severe cold in the winter and dry weather in the summer."

It has been conjectured that the secret of antediluvian longevity was some method of keeping the blood pure, warm and vigorous. Moderns accomplish the same purpose by using Ayer's Sarsaparilla—the best blood medicine ever brought to light.

The Union Pacific is arranging to abandon the Sound, and will soon move their fleet of boats, consisting of the Victorian, George E. Starr, North Pacific, Hassaio and Seloune, to the Columbia river. The railroads have created a revolution on the Sound and driven the boats from the waters.

How's This? We offer One Hundred Dollars Reward for any case of catarrh that can not be cured by Hall's Catarrh Cure, F. J. CHENEY & CO., Prop., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRAUZ, Wholesale druggists, Toledo, O. WALNOR, KINNAN & MARVIN, Wholesale druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all druggists. Testimonials free.

WORDS OFTEN USED INTERCHANGEABLY.

The Formidable Construction of the English Language as It Appears to Foreigners.

The construction of the English language must appear most formidable to a foreigner. One of them looking at a picture of a number of vessels said: "See what a flock of ships!" He was told that a flock of ships was called a fleet, and that a fleet of sheep was called a flock. And it was added for his guidance in mastering the intricacies of our language that a flock of girls was called a pack, and a pack of thieves is called a gang, and a gang of angels is called a host, and a host of porpoises is called a shoal, and a shoal of buffalo is called a herd, and a herd of children is called a troop, and a troop of partridges is called a covey, and a covey of beauties is called a galaxy, and a galaxy of ruffians is called a horde, and a horde of rubbish is called a heap, and a heap of oxen is called a drove, and a drove of blackguards is called a mob, and a mob of whales is called a school, and a school of worshippers is called a congregation, and a congregation of engineers is called a corps, and a corps of robbers is called a band, and a band of locusts is called a swarm, and a swarm of people is called a crowd.

A Deadly Dilemma

color had faded now out of her pretty red cheeks. Her eyes were dim and swollen with crying. She was almost half dead. Ughtred couldn't see her just then, she was covered with a bright long spell of brooding. Even her bright print dress and her straw hat with the poppies in it couldn't redeem, she felt sure, her pallor and her wretchedness.

As she walked or rather groped her way (for she couldn't see for crying) down the path by the hedge, at every step she grew fainter and fainter. Ughtred was gone, the world was a blank, there were tramps and dogs, it was getting dark, she loved him so much, and mamma would be so angry.

Turning over with thoughts with a whirling brain, for she was but a girl after all, she reached the little swing gate that led to the railway, and pushed it aside with vague, numb hands, and stood gazing vacantly at the long curved line in front of her.

Suddenly a noise rose sharp in the field behind her. It was only a colt, to be sure, disturbed by her approach, dashing wildly across his paddock, as is the way with young horseflesh. But to Netta it came as an indefinite terror, magnified ten thousand fold by her excited feelings. She made a frenzied dash for the other side of the railway. What it was she knew not, but it was, or might be, anything, everything—mad bulls, drunken men, footpads, vagabonds, murderers.

Oh, how could Ughtred ever have taken her at her word, and left her like this, alone, and in the evening? It was cruel, it was wicked of him; she hated to be disloyal, and yet she felt in her heart it was almost unmanly.

As she rushed along wildly at the top of her speed her little foot caught on the first rail. She knew what had happened she had fallen with her body right across the line. Faint and terrified already with a thousand vague alarms, the sudden shock stunned and disabled her. Mad bull or drunken man, they might do as they liked now. She was bruised and ached. She had no strength left to rise or recover herself. Her eyes closed heavily. She lost consciousness at once. It was a terrible position. She had fainted on the line, with the force of the situation.

CHAPTER II.

He stretched it at last full across both rails. As for Ughtred, from his seat on the telegraph post on the side of the line five hundred yards farther up, he saw her pause by the gate, then dash across the road, then stumble and trip, then fall heavily forward. His heart came up to his mouth as once at the instant. Oh, thank heaven he had waited! Thank heaven he was not a man who would have crossed the line, and a train might come along before she could rise up again. She seemed hurt too. In a frenzy of suspense he darted forward to save her.

It took but a second for him to realize that she had fallen and was seriously hurt, but in the next moment he had even as he realized it all, another and more pressing terror seized him. Hark! what was that? He listened and thrilled. Oh, no; too terrible. Yes, yes, it must be—the railway, the railway! He knew it. He felt it. Along the up line, on which Netta was lying, he heard behind him—oh, unmistakable, unthinkable, the force whir of the express dashing madly down upon him. Great heavens, what could he do? The train was coming, the train was almost this moment upon them. Before he could have time to rush wildly forward and snatch Netta from where she lay, full in its path, a helpless weight, it would have swept past him resistlessly and borne down upon her like lightning.

The express was coming—to crush Netta to pieces. In these awful moments men don't think, they don't reason, they don't even realize what their actions mean; they simply act and act instinctively. Ughtred felt in a second, without even consciously feeling it, so to speak, that any attempt to reach Netta now before that devouring engine had burst upon her at full speed would be absolutely hopeless.

His one chance lay in stopping the train somehow. How or where or with what he cared not. His own body would do it if nothing else came. Only stop it, stop it. He didn't think of it at all that moment as a set of carriages containing a precious freight of human life. He thought of it only as a horrible, cruel, devouring creature, rushing headway on at full speed to Netta's destruction. It was a senseless wild beast, to be combated at all hazards. It was a hideous, ruthless, relentless thing, to be checked in its mad career in no matter what fashion. All he knew, indeed, was that Netta, his Netta, lay helpless on the track, and that the engine, like some madman, puffing and snorting with wild glee and savage exultation, was hastening forward with fierce strides to crush and mangle her.

At any risk he must stop it—with anything—anything. As he gazed around him, horror struck, with blank, inquiring stare, and with this one fixed idea possessing his whole soul, Ughtred's eye happened to fall upon the dismantled telegraph post, on which but one minute before he had been sitting. The sight inspired him. Ha, ha! a glorious chance. He could lift it on the line. He could turn it around in place. He could upset the train! He could place it in the way of that murderous engine.

No sooner thought than done. With the wild energy of despair the young man lifted the small end of the ponderous post bodily up in his arms, and twisting it on the big base as on an earth fast pivot, managed, by main force and with a violent effort, to lay it at last full in front of the advancing locomotive. How he did it he never rightly knew himself, for the weight of the great bulk was simply enormous. But horror and love, and the awful idea that Netta's life was at stake, seemed to supply him at once with unwonted energy. He lifted it in his arms as he would have lifted a child, and straining in every limb stretched it at last full across both rails, a formidable obstacle before the approaching engine.

Hurray! hurray! he had succeeded now. It would throw the train off the line—and Netta would be saved for him. To think and do all this under the spur of the circumstances took Ughtred something less than twenty seconds. In a great crisis men live rapidly. It was quick as thought. And at the end of it all he saw the log laid right across the line with infinite satisfaction. Such a splendid obstacle that—so round and heavy! It must throw the train clean off the metals! It must produce a fine, first class catastrophe.

For a moment or two the driver only knew that he was shaken and hurt, but not severely. The engine had left the track and the carriages lay behind slightly shattered. He could see how it happened. Part of the pole in falling had rebounded on to the line. The base of the great timber had struck the near side wheel and sent it off the track in a vain effort to surmount it. But the brake had already slackened the pace and broken the force of the shock, so the visible damage was very inconsiderable. They must look along the carriages and find out who was hurt. And above all things, what had become of the man who had so nobly rescued them? For the very last thing the engine driver had seen of Ughtred as the train stopped short was that the man who flung the pole from the track before the advancing engine was knocked down by its approach, while the train to all appearance passed bodily over him. For good or evil, Ughtred had made his decision as last at the risk of his own life. As the train dashed on with its living freight aboard his native instinct of preserving life got the better of him in spite of himself. He couldn't let those innocent souls die by his own hand. He had to get the pole and Netta was killed he didn't know himself how he could ever outlive it.

He prayed with all his heart that the train might kill him. The guard and the driver ran hastily along the train. Nobody was hurt, though many were shaken or slightly bruised. Even the carriages had escaped with a few small cracks. The Humberly smash was nothing very serious. But the man with the pole? Their preserver, their friend. Where was he all this time? What on earth had become of him? They looked along the line. They searched the track in vain. He had disappeared as if by magic. Not a trace could be found of him?

After looking long and uselessly, again and again, the guard and the driver both gave it up. They had seen the man distinctly a moment ago, but—and so had several of the passengers as well. But no sign of blood was to be discovered along the track. The mysterious being who, as they all believed, risked his own life to save theirs had vanished as he had come, one might almost say by a miracle.

And indeed, as a matter of fact, when Ughtred Carnegie fell on the track before the advancing engine he thought for a moment it was all up with him. He was glad of that, too, for he had murdered Netta. He had saved that train, but he had murdered Netta. It would dash on now unretarded and crush his darling to death. It was better he should die, having murdered Netta. So he closed his eyes tight and waited for it to kill him.

But train passed on, jarring and scraping, partly with the action of the brake, though partly, too, with the wheel digging into the ground at the side; it passed on and went over him altogether, coming as it did not to a sudden standstill. As it stopped a fierce joy rose up in Ughtred's soul. Thank heaven, all was well. He breathed once more easily. He had fallen on his back across the sleepers in the middle of the track. It was not really the train that had knocked him down at all, but the recoil of the telegraph post. The engine and carriages had gone over him safely. He was only bruised and sprained and jarred and shaken.

Rising up behind the train as it slackened, he ran hastily along the off side toward where Netta lay still and unconscious on the line in front of it. No body saw him run past, and no wonder, either, for every eye was turned toward the near side and the obstruction. A person sleeping in the middle of the track was very little likely to attract attention at such a moment. Every step pained him, to be sure, for he was bruised and stiff, but he ran on none the less till he came up at last to where Netta lay. Where he bent over her eagerly. Netta raised her head and looked at him. He looked in a moment the vague sense of a terrible catastrophe averted came somehow over her. She flung her arms around his neck. "Oh, Ughtred, you've come back!" she cried in a torrent of emotion.

"Yes, darling," Ughtred answered, his voice half choked with tears. "I've come back to you now forever and ever." He lifted her in his arms and carried her some little way off up the left hand path. His heart was very full. "I was a terrible moment. For as yet he hardly knew what harm he might have done by his fatal act. He only knew he had tried his best to undo the wrong he had half unconsciously wrought; and if the worst came he would give himself up now like a man to offended justice.

But the worst did not come. Blind fate had been merciful. Next day the papers were full of the accident to the Great Southern express, equally divided between denunciation of the miscreant who had placed the obstruction in the way of the train, and admiration for the heroic but unrecognized stranger who had rescued from death so many helpless passengers at so imminent a risk to his own life or safety. Only Ughtred knew that the two were one and the same person. And when Ughtred found out how little harm had been done by his fatal act—an act he felt he could never possibly explain in its true light to any other person—he thought it wisest on the whole to lay no claim to either the praise or the censure. The world could never be made to understand the terrible dilemma in which he was placed—the one-sided way in which the problem at first presented itself to him—the deadly struggle through which he had passed before he could make up his mind, at the risk of Netta's life, to remove the obstacle. Only Netta understood, and even Netta herself knew no more than this—that Ughtred had risked his own life to save her.—Strand Magazine.

CHAPTER III. And yet he must face it and act or remain passive, one way or the other. With a desperate effort he made up his mind at last just as the train burst upon him, and all was over. He made up his mind and acted accordingly. As the engine turned the corner the driver looking ahead in the clear evening light saw something in front that made him start with sudden horror and alarm. A telegraph pole lay stretched across the track, and the engine stood agonized by its side, stopping down, as he thought, to catch and move it. There was no time left to stop her now; no time to avert the threatened catastrophe. All the driver could do in his haste was to put the brake on hard and endeavor to lessen the force of the

inevitable concussion. But even as he looked and wondered at the sight, putting on the brake meanwhile with all his might and main, he saw the man in front perform, to his surprise, an heroic action. Rushing full upon the line, straight before the very lights of the advancing train, the man unknown lifted up the pole by main force, and brandishing its end, as it were, wildly in the driver's face, hurled the huge bulk back with a terrible effort to the side of the railway. It fell with a crash, and the man fell so nobly rescued them! For the very last thing the engine driver had seen of Ughtred as the train stopped short was that the man who flung the pole from the track before the advancing engine was knocked down by its approach, while the train to all appearance passed bodily over him. For good or evil, Ughtred had made his decision as last at the risk of his own life. "August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used Relieved in your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class."

Two Days ago, if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. Constipation While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis, Ind.

M. G. WILLS' SALOON, New Beck Block, Yakima Ave.

The new fittings and furnishings, comfortable quarters and courteous treatment are held out to the public as inducements for patronage, and the most popular and purest makes of fine

Wines, Liquors and Cigars Are always to be had at his Bar.
