HER CONFESSION.

BY EDWARD CLARENCE STEEDMAN.

If I had been a rich man's girl, With my tawny hair, and this wanton art Of lifting my eyes in the evening whir! And looking into another's heart; Had love been mine at birth, and friends Cressing and guarding me night and day— With doctors to watch my sugar-cups, And a parson to teach me how to pray;

If I had been reared as others have— With but a tithing of those looks, which came From my reckless mother, now in her grave, And a father who grudged me eyes his name— Why I should have station and tender care, Should ruin men in the high-bred way, Passionless, smiling at their despair, And marrying where my vantage lay.

As it is, I must have love and dress, Jeweled trinkets, and costly food, For I was born for piteousness— Music and flowers, and all things good. To that same father I owe some thanks— seeing, at least, that blood will sell, And keep me ever above the ranks Of those who wallow where they fell.

True, there are weary, weary days In the great hotel where I make my lair, Where I meet the men with their brutal praise, Or answer the women, stare for stare, 'Tis an even fight, and I'll carry it through— Pit them against me, great and small: I grant no quarter, nor would I sue For grace to the softest of them all.

I cannot remember half the men Who show sin has tangled them in my toils— All are alike before me then. Part of my early-conquered spoils: Tall or short, and dark or fair, Rich or famous, haughty or fond, There are few, I find, who will not forever The lover's oath and the wedding bond.

Food! What is it drives them on, With their perjured lips on poison fed— Vain of themselves, and cruel as stone, How should they be so cheaply left: Surely they know me as a law— Only a cook at the best, Watching, careless of hate or shame, To crush myself in another's nest.

But the women—how they flatter and flout, The stupid, terribly virtuous wives, If I but chance to move about Or enter within their bustling lives! But best! In the scandalous gatherings, When a strange queen lights amid the throng, And their tongues have a thousand angry stings To send her traveling, right or wrong.

Well, the earth is wide and open to all, And money and men are everywhere: And I do not gain my lawful share, One drops off, but another will come With as light a head and heavy a purse; So long as I have the world for a home, I'll take my fortune, better or worse!

About Divorces.

In Australia divorces have never been sanctioned. Divorces are scarcely ever known to occur in modern Greece.

In Hindostan either party, for a slight cause, may leave the other and marry. Divorces are scarcely allowed in Thibet, unless with the consent of both parties. Remarriage is forbidden.

Among some tribes of American Indians pieces of sticks given the witness of the marriage are broken as a sign of divorce. In Cochin China the parties desiring divorce break a pair of chopsticks in the presence of witnesses, and the thing is done.

If the wife of a Turkoman asks his permission to go out, and he says "go," without adding "come back again," they are divorced. Two kinds of divorces are granted in Circassia. By the first the parties can immediately marry again. By the second, not for a year.

In Spain the first wife may be divorced, but not sold, as the others may be. She may claim the first child. The others belong to the husband. In Liberia, if a man becomes dissatisfied with the most trifling acts of his wife, he tears a cap or veil from her face, and that constitutes a divorce.

In the Arctic regions a man who wants a divorce leaves home in anger and does not return for several days. The wife takes the hint and departs. In China divorces are allowed in all cases of criminality, mutual dislike, jealousy, incompatibility of temperament or too much idleness on the part of the wife.

Among the Tartars, if the wife is ill-treated, she complains to the magistrate, who, attended by the principal people, accompanies her to the house and pronounces a divorce. An Intemperate Snake.

Owen Hatch, who keeps a grocery saloon in Marian county, Georgia, has a stock of liquor on hand in jugs. One day a two-gallon jug of corn liquor was left sitting on the floor behind the counter. Hatch stepped behind the counter and was surprised to see a large black snake coiled around the jug with its head inside. He watched it for a moment and soon discovered that the snake was drinking liquor. It was not disturbed and after several minutes it slowly uncoiled itself from the jug and attempted to crawl away, but was too drunk, and stretched itself out on the floor, where it remained apparently asleep until next day. The gentleman examined the jug and found that the snake had drunk more than a quart of liquor. Two days later the same snake returned and when it crawled under the counter Mr. Hatch watched it. By coiling itself around the jug and giving its neck a twist around the stopper it was able to remove the cork, and again thrust its head inside and began to drink the liquor. It was allowed to drink its fill again, after which it was killed.

RAILROAD "SPOTTERS."

All Sorts of Ways for Robbing and Swindling Railroads.

Ingenuous Methods of Employees and Outside Sharpers Who Deal from the "Soulless Corporations."

Some railroads use a steel rail, and some roads are of pure steel throughout, from first to last. Many of them commence by swindling the public; then the officers and managers swell their private bank accounts from the company's earnings; finally the conductors and other employees "knock down." Not infrequently the citizen, with a conscience as attenuated as his real or supposed grievance is exaggerated, satisfies poetic justice by getting a verdict for large-sized damages for a small-sized injury to person or property.

The gigantic frauds on tax-payers, perpetrated by legislative and congressional subsidies, are too well known to require special attention in this connection. Members of congress and

RUCCOLIC LAW-MAKERS.

Have been paid millions in the aggregate for their votes given to insure the passage enactments legalizing these wholesale plunderings. Living as they are in such a tainted atmosphere, where the traditions are against honesty and square-dealing, where double-dealing is considered shrewdness, and where theft, robbery and jobbery are sugar-coated, gilt-edged synonyms of success, what wonder that the conductors and other minor employees should fall from grace? Hardly any other class of men, of whom so much is expected in the matter of qualifications as from conductors, whose duties are exceptionally exacting and responsible, receive so inadequate compensation for their services. They must be shrewd, sharp, affable, popular, must dress well and live in good style. In times past

"KNOCKING DOWN."

By conductors was more openly and easily accomplished than now. It used to be taken for granted a conductor would steal, and so long as he was good enough to turn in a respectable percentage of his cash fares the practice was winked at. It is only within a few years a tidal wave of reform in this respect has influenced railroad managers to call their train officials to a stricter account, and has resulted in the introduction of numerous safeguards against dishonesty.

The rule adopted by the Northern Pacific company of giving rebate tickets for cash fares as a precautionary measure to prevent so much money being handled by conductors, as well as for other motives, has a tendency to hamper the dishonest ones; but this is easily gotten around. The main thing pilfering conductors have to fear is

THE "SPOTTERS."

Or railroad detectives, who "check-up" a car and send in their report, and if it does not tally with the conductor's report, the latter is liable to get the "hounce." The O. R. & N. and Northern Pacific systems of roads employ their spotters through Thiel's detective agency, of which M. C. Sullivan, of Portland, is the manager of the Pacific branch; and the frequent change of conductors on these roads is an indication that the spotters are actively and constantly engaged.

THE OLD STORY.

Is told of an Erie conductor whose train had been "tested," and whose cash was found wanting. He was summoned before the president and confronted with the facts. "Yes," said the man, who was one of the oldest and best conductors on the road, "I have a handsome home, finely furnished; my wife has silks, laces and diamonds; I have a span of trotters. I associate with the best people, and spend money freely in entertaining my friends. I have money in the bank, and I own some shares in this road. I have had on \$1200 a year, for I have had no revenue outside the Erie. I've got all I want. You discharge me and put on a new man and he'll have to do the same thing." They kept the conductor.

DISHONEST CONDUCTORS.

Encourage the payment of cash fares on the train in a variety of ways. One of these is to pass a man whom they know has a ticket, and purposely fail to collect it during the entire trip. The next time he goes over the road he naturally supposes he may be neglected in the same manner and does not buy a ticket, hoping to get a free ride. The conductor "strikes" him for a cash fare. The first thorough test by skilled detectives, shows up the thieves, and the stealing of fares is at once detected. So well is this fact known and appreciated that railroad secret service operatives make a specialty of this branch of the business, and all first class, well managed roads make constant use of their services. The changing of tickets has been practiced to some extent. The genuine ticket for a short distance is purchased; the destination is erased, and a station a long distance off is printed in its place. The resale of unpunched tickets is a great and growing evil, from which roads all over the country are suffering large losses. This method of stealing is one of the HARDEST TO DETECT.

It requires the connivance of the conductor and some outside party. The conductor purposely fails to punch the tickets; he hands them to a "scalper," and the two divide. There are almost innumerable

HOW ABOUT YAKIMA?

Why, It's the Banner Section of Central Washington.

A Country That is as Fruitful as the Favored Portions of California with a Climate Far Superior.

Of all the different localities on the Pacific coast whose claims upon the future are made with supporting facts, none present better inducements to the settler and to investment than the Yakima country.

Owing to the lack of transportation facilities in the past and its great distance from the older and more thickly settled portions of the Union its peculiar characteristics as a country have not, until the past few years, been known except to a favored few. But of late, with the great influx of immigration, its balmy climate, prolific soil and adaptability, from a railroad, manufacturing, and agricultural standpoint, to becoming a thickly settled and wealthy section, is being fast disseminated. The following excerpts from an article in the Portland West Shore, will give an idea of how "The Great Yakima" is viewed with other eyes than those which, on account of their greater knowledge of present conditions and future possibilities, are wholly and thoroughly bound up in Yakima:

"North Yakima is the name of a flourishing young city of fully two thousand inhabitants, situated in the very central portion of Washington territory, on the west side of the Yakima river, near its confluence with the Natchez, and in one of the most promising valleys in the west. It is not yet four years of age, but from commanding position which it occupies with reference to the surrounding rich country its growth thus far has been rapid, and all indications point to still greater prosperity in the future.

"In order that there may be a definite conception of the region under consideration let the reader understand that the Yakima country, of which the city of North Yakima is the central and chief commercial center, comprises that part of Washington lying between the Cascade mountains on the west and the Columbia river on the east, drained by the Yakima river and its tributaries. It includes thirteen valleys, besides a large area of table land and hilly border land, and also takes in a considerable portion of the broad plain of the Columbia. The main stream that drains this region is the Yakima river, which takes its rise in two or three small lakes near the crest of the Cascades and meanders down the mountains and through the valleys in a southeasterly general course, joining the mighty Columbia a few miles above its confluence with the Snake, which comes from the opposite direction. From source to mouth this is a rapid stream, having an average fall of fully twenty feet to the mile. It receives a number of tributaries from both sides so that when it emerges from the foot hills and enters the great Columbia plain it is a river of no mean volume.

Intoxicated by Water.

A prominent military man who had drunk moderately during the war and had abstained from that time on, while attending a dinner with his old comrades where most of them with his old comrades, suddenly became hilarious, made a foolish speech and settled back in his chair in a drunken state, and was finally taken home quite stupid. He had not drunk any spirits, and had only used coffee and water, and yet he had all the symptoms of the others, only his was intoxication from contagion—the favoring soil had been prepared long ago in the army.

Another case was that of a man who had been an inebriate years ago, but had reformed. He was recently elected to office, and gave a big dinner to some friends. Among them was a physician, who had been greatly interested in these studies. He sent me a long report, the substance of which was this:

On the occasion referred to many of the company became partially intoxicated, and the host, who drank nothing but water, became hilarious and finally stupid with them. He was put to bed with every sign of intoxication, but recovered, and next morning had only a confused notion of these events.

The third case occurred four years ago. A reformed man of twelve years' sobriety went on a military excursion with a military company, and although he drank nothing but lemonade, became as much intoxicated as the others. This event was the subject of much comment and laugh to him, socially and otherwise, as though he protested, and others confirmed his statements, that he did not take any spirits at this time.—Popular Science Monthly.

SUICIDE OF YAKIMA'S PIONEER NEWSPAPER MAN.—Austin A. Bell, son of Wm. Bell, of Belltown or North Seattle, committed suicide April 24, in his office at Seattle, by shooting himself in the head. Bell was 35 years of age and was the second white child born in the Queen City. He also has the distinction of publishing the first paper printed in the Yakima valley. In 1877 in company with H. M. Bryant, now auditor of Kittitas county, Bell crossed over the Cascades via the Snoqualmie pass, and stopped at Ellensburg, where he started a small weekly which he named the Kittitas Wah-Wah. Bell was very poor at the time and the paper was not a financial success and soon ceased to exist. By the rise of property valuations at Seattle Bell was worth \$400,000 at the time of his death. His suicide, it is said, was the result of ill health.

SUDDEN DEATH OF DR. MONROE.—This community was greatly shocked to-day to learn of the sudden death of Dr. W. A. Monroe, which occurred last night. Dr. Monroe has not been well for some time, but was up and around and was on the street yesterday. Dr. Gunn states the cause of death as fatal syncope. The deceased leaves a wife and seven children to mourn his loss. The funeral arrangements will be in charge of the Odd Fellows and Masons, he being a member of both organizations. The funeral services will be held at the family residence Friday at 3 o'clock p. m.

W. C. T. U. OFFICERS FOR EASTERN WASHINGTON.—On the last day of the W. C. T. U. convention for Eastern Washington the election of officers was held which resulted in the choice of Lucy A. Switzer, of Cheney, president; Mrs. H. Maria Peet, of Spokane Falls, corresponding secretary; Mrs. Lucy B. Thomas, of Yakima, assistant recording secretary; Mrs. J. McArthur, of Davenport, treasurer; Mrs. S. Lou Monroe, of Yakima, and Mrs. Amanda Strong, of Walla Walla, delegates to the national convention at San Francisco.

THE REPUBLICAN CONVENTION.—The republican county convention was held Wednesday. There were but two candidates in the field for delegate to the constitutional convention. One was L. S. Howlett, and the other and successful one, W. F. Prosser. The Howlett forces carried the city primaries but neglected the outside precincts and were out-generaled in the convention. There are claims of fraud in running in the Yakima city delegation and it is asserted that the Wenatchee precinct primaries were held in this city the night before.

A GOOD ADVERTISING MEDIUM.—W. F. Lucas is soliciting for a Trade Review which the Herald believes will redound to the benefit of the Yakima merchants and business men. The paper will be circulated in conjunction with the Herald and in addition the issue will be so large that it will be sent to all parts of the country, and to Mr. Fee, general passenger agent of the Northern Pacific, for distribution on west bound trains, which will be most advantageous to the advertiser.

BAD BOYS.—Peter Gervais, Jr., and Henry Bunting, two boys, are now in the Yakima jail serving out a fine of \$15 and costs each for breaking down the fence of J. P. McCafferty; and awaiting the action of the grand jury charged with various and sundry offences including burglarizing the houses of P. A. Bounds and Harley Taylor, several range camps, and for entering and maliciously destroying \$150 worth of belting in Sulpes mill.

THE SELAH DITCH.—The logs for the fluming of the Selah ditch are now in the boom at Yeates' mill, and work is progressing all along the line. Forty-two men are at present employed and five additional teams and men are engaged for next week, and besides this work will commence Monday on a mile contract at this end which will require twelve or fifteen additional hands.

A VALUABLE ACQUISITION.—Mr. F. M. Meeker, of Puyallup, has purchased the interest of Messrs. Frank and Byron Young in the Selah ditch, and has invested \$7,000 in other Yakima property. It is the intention of Mr. Meeker to build a residence in Yakima and make this his home. Mr. Meeker will be a valuable acquisition to our population.

DEAD.—At North Yakima, Tuesday, April 23, Cutie, son of Alvah and Dorah Churchill, aged 3 years, 7 months and 22 days.

BORN.—In Yakima county, April 28, 1889, to the wife of H. E. Crono, a son.

DEAD.—At North Yakima, April 26th, Mrs. Marcia Needham, aged 63 years.

BORN.—North Yakima, May 2nd, to the wife of Rev. S. C. Head, a son.

President Samuel Collier, of the Tacoma Clearing House, says the National Bank Association of this territory will be formed about the middle of June. Just when the convention of bankers is to be held can not be decided until a selection among four places Seattle, Tacoma, Ellensburg and Yakima has been decided upon.

After writing up Ellensburg in a most fulsome manner, the Farmer man now cannot say mean enough things about it. The change is due to the Ellensburg Board of Trade refusing to take some copies of his papers, per agreement. A broad-gauge paper, surely.

The local lodge of the W. C. T. U. have elected the following officers to serve during the ensuing year: President, Mrs. Lucy A. Flint; corresponding secretary, Mrs. G. W. Rodman; treasurer, Mrs. Rena Beck; secretary, Mrs. Lou Cary.

Miss Ida K. Hinds will give two evenings of readings and impersonations at the Opera House Monday and Tuesday, under the auspices of the Ladies Aid Society of the M. E. church.

LOCAL BRIEVITIES.

—The city election will occur Monday, May 13th.

—Yakima strawberries will be ripe in about ten days.

—W. H. Chapman is an aspirant after mayoralty honors.

—Mike Schorn is building a dwelling house on Front street.

—The wife of John Wendt of this city died on Tuesday the 23d ult.

—L. MacLean is building a handsome residence in the north end of the city.

—Spinning & Robertson's new buggy was demolished last week in a runaway.

—Chas. Ditter, of Moorhead, Minn., is among the late arrivals who have located here.

—The delinquent tax list for 1889, for Yakima county, foots up a little less than \$7,000.

—Don't forget the lecture on woman suffrage at the opera house to-night. Admission free.

—The I X L team ran away yesterday, with the usual result of spilling the tail-board and upsetting the seat.

—The barber shop of Messrs. Allinger & Shearer is being repainted and otherwise improved in appearance.

—Charles A. Bishop and wife are here from California to locate. Mr. Bishop is a brother-in-law of Joseph Sinclair.

—The locust trees herabouts have been in bloom for a week past and the fragrance of the flowers burdens the air.

—Look out for counterfeit half dollars. They have made their appearance in Yakima and are plentiful on the Sound.

—Myron Meeker and Fechter & Law bought this week 40 acres of the Wilson tract lying east of the city. Consideration \$7,500.

—Everybody should turn out to hear the brilliant lawyer and orator to-night at the opera house, Miss Laura De Force Gordon.

—Sheriff Lesh reports the fruit crop of the Ahitangum as gajinjured. Encouraging reports are being received from all sections.

—Messrs. Renfro & Kremer started the first brick in a new kiln of 300,000 bricks. They will all be needed and many thousands more.

—J. J. Murphy, while in an intoxicated condition, jumped off the moving cars at this place, last Thursday, which injudicious act resulted in a badly sprained ankle. Murphy is now a county charge.

—Messrs. Dickerson and Rice, of this city, have applied to the municipal fathers of Goldendale for a permit to conduct a saloon at that place. The application was taken under consideration.

—Messrs. I. H. Dills and Harry Hampton have sold their stock of gents' furnishings to Myron Ellis. Mr. Dills expects to take a trip to Alaska, while Mr. Hampton proposes to engage in the real estate business.

—The Cle-Elum Natural Ice Co., has been incorporated by Ike Harris of Tacoma, August Sames of Cle-Elum and Hyman Harris of North Yakima. The company's headquarters will be at Tacoma.

—The Tacoma News has it "upon reliable authority that a company of Tacoma men intend to begin, as soon as possible, the construction of a street railway in North Yakima. The principal streets will be the one benefited."

—Walla Walla Journal: Sam Cregor, formerly of this city, writes from Ellensburg to a friend, that business is awful dull in that city, and that he is contemplating removing back to Walla Walla with his stock of dry goods.

—A Yakima avenue saddler has gone into the manufacture on a large scale of a novel leather picture frame. A young lady of this city received one and went into ecstasies over it—it contained the photo of her "best young man."

—Mother Godfried, of Montreal, the mother-general of the Sisters of Charity, is making a general visit among the institutions of charity along the coast, and is at present visiting the towns along the Sound. She is expected here within a few weeks.

—Dave Wilson is in the city. He states that the matter of the tenant for the Hotel Yakima is not yet settled, but will be in a few days. A. D. Whitney is seeking the lease of the new hotel being built in Olympia, and failing in that, he will take this hotel.

—An effort is being made to have the commissioners move the Union Gap bridge to the old ferry crossing so as to give greater convenience to the Konnewick people. A little money expended on the road leading from the bridge would answer every purpose and be comparatively inexpensive.

—Judge George Turner is in the city, and says: "I read the Herald regularly, and take great pleasure in saying it is a most excellent paper." The general verdict of the people coincides with the judge, as evidenced by the encomiums pronounced from all quarters and the large and growing subscription list.

—H. R. Bevil representing L. B. Wood & Co., Room 33 Koon Block, Seattle, was in the city last week endeavoring to establish an agency here for the Louisiana lottery, and for the Little Louisiana lottery of Seattle. It is to be hoped that he was not successful, as money enough already leaves this town on lottery schemes, never to return.

—Robert Scott returned from the Sound country Wednesday and reports that he has made the necessary arrangements to obtain a large and complete supply of lumber from South Prairie and Tacoma mills and will maintain a lumber yard here. Mr. Scott has been promised from three to five car loads a week, commencing with the coming week.

PERSONAL.

Manager Gillette, of the Alpha opera house, Tacoma, was in the city last week conferring with Mr. Switzer regarding the including of Yakima in the Washington territory theatrical circuit.

W. K. Widell, of the Post-Intelligencer, has been in the city for several days past but so much under the weather that he has been unable to look after the interests of the paper he represents.

James Hamilton Lewis, of Seattle, arrived in the city Monday, in all his repugnance of clothes and rhetoric. He came on legal business, but was persuaded to stay over to deliver an address on Inauguration day.

M. V. B. Stacy is back from the east looking after his Yakima property interests. Mr. Stacy journeyed to Pasco Tuesday to meet some Colorado capitalists who are on the outlook for realty investments and for localities in which to build narrow gauge railroads.

The one hundredth anniversary of the United States fell on Tuesday last, and was appropriately celebrated by the people of North Yakima. A proclamation was issued by Mayor Whitson in the morning requesting a suspension of business in the afternoon. This was generally complied with and impromptu exercises were held at the opera house.

Quite a large procession, headed by the Yakima band, and composed of the Odd Fellows' lodges, the fire company, the children of the public school and citizens of the city and vicinity on horseback and in carriages, formed at the court house and moved through the principal streets to the opera house. Fred R. Reed was marshal, assisted by Fred Parker and Wallace W. Atherton. At the opera house the exercises began after invocation by Rev. Mr. Head with a suitable introduction by Mayor Whitson, followed by music and the reading of a poem by Dr. W. F. Morrison, when Hon. James H. Lewis, of Seattle, was introduced as the orator of the day and delivered an eloquent speech. Appropriate remarks were made by Hon. J. B. Lewis and J. B. Reavis. The vocal music was furnished by the public school pupils and was highly creditable and added much to the interest of the occasion. The benediction was then pronounced by Rev. J. E. Eshelman. The house was crowded to overflowing all the time with a large and enthusiastic audience.

The Biochemic system of medicine is fast pushing its way to the front in the United States. These remedies may be found at Allen & Chapman's, C. B. Bushnell's, and C. J. Taft's. Every one should read the pamphlet on the "New Treatment of Disease."

Call for Democratic Convention.

All democrats and persons desirous of co-operating with the democratic party will take notice that primary conventions will be held in the various precincts on Saturday, May 4, at 4 o'clock p. m., to select delegates to the county convention to be held in the court house at North Yakima on Tuesday, May 7, at 2 o'clock p. m., to nominate candidates for the constitutional convention. The primaries will be held in the various precincts at the usual places for holding such meetings, except that the primary for North Yakima will be held at the court house, and the primary for the Wenatchee at Furd's hall.

The basis of representation is one vote for each precinct and one additional vote for each ten votes cast for the democratic candidate for delegate to congress at the last election. Upon this basis the precincts will be entitled to the following delegates:

Horn 1, Bedrock 1, Prosser 3, Alder Creek 1, Parker 2, Moxee 2, Wenatchee 6, Yakima City 4, Ahlanum 2, Cowshee 3, North Yakima 17, Kennewick 1, White 1, Mt. Pleasant 1, Tampico 1, Ft. Simcoe 2.

By order of the democratic executive committee, this 30th day of April, 1889.

H. J. SNIVELY, Chairman.

W. F. JONES, Secretary.

The Governor's Staff.

Governor Moore has made the following appointments on his staff.

Inspector general, J. R. Hayden.

Judge advocate general, John F. Gowey.

Quarter-master general, Henry Landes, of Port Townsend.

Commissary general, E. H. Morrison.

Paymaster general, C. H. Kittenger.

Surgeon general, H. R. Keylor.

Chief of ordnance, H. W. Fairweather.

All with the rank of colonel.

Aides de camp, W. J. Milroy and Chas. E. Claypool, with the rank of lieutenant-colonel.

Assistant adjutant general, J. K. Stott, with the rank of major.

Card of Thanks.

We hereby tender our heartfelt thanks to the many friends who so kindly assisted in caring for Our Mother, Mrs. Marcia Needham, at different times of her long continued illness; and especially to those who attended in her last decline and so generously and freely assisted in the performance of the last act of respect that can be shown for those who have passed the line that divides the here from the hereafter.

RELATIVES OF THE DECEASED.

"My Country, 'Tis of Thee."

Rev. S. F. Smith, author of "My Country, 'Tis of Thee," has written the following stanza of this national anthem in honor of the anniversary of Washington's inaugural. He calls it the centenary stanza:

"Our joyful pride to-day
Their grateful tribute pay,
Happy and free,
After our toils and fears,
After our blood and tears,
Strong with our hundred years,
O Land, to Thee."

Woman Suffrage Lectures.

Miss Clara B. Colby, editor of the Woman's Tribune, and national vice-president for Nebraska, with Miss Matilda Hindman, national vice-president for Pennsylvania, will lecture in the opera house at North Yakima Thursday evening, May 9. Miss Hindman will speak at other places in the county as follows: Ahlanum, May 10; Wenatchee, May 12; Yakima, May 13. Meetings at 7:30 p. m. Admission free.

Stocks for Sale.

There will be a public sale of 34 first-class Short Horn cattle at the domestic and fat stock pavilion at Portland, Oregon, on Thursday, May 23. The cattle consist of 12 cows and 22 bulls, drafts from the herds of B. F. Winn, J. N. Winn, J. W. Pickett and W. Z. Durr, well known breeders of Missouri. This will be a splendid opportunity for bargains as the stock will be sold without reserve. Catalogues will be sent upon application.

The New System of Medicine.

The Biochemic system of medicine is fast pushing its way to the front in the United States. These remedies may be found at Allen & Chapman's, C. B. Bushnell's, and C. J. Taft's.

Every one should read the pamphlet on the "New Treatment of Disease."

ASTOUNDING FACTS ABOUT STAMPS.

A Look at the World's Great Collections—Enough to Drive Small Boys Crazy.

As a contribution to the history of human folly, the prices which a parcel of old postage stamps has just realized at a London auction are not unworthy of notice. The collection consists of 296 "lots," the most valuable being a set of rare British Guiana labels, and for these the bids ran to figures which must seem to any one not bitten by the mania little less than monstrous. A "blue four-cent" of 1856 excited eager competition, and was finally knocked down to a dealer for £37. This specimen, however, had been used, so that when a stamp "much finer," and without the defacing marks of the sorter on its surface, was put up there was nothing left but for the buyer of the £37 specimen to acquire it at £13 advance. After this a strip of four one-cent Magenta, issued in 1851, on the original envelope, from the same colony, at £7; four of the one-cent 1853 issue at £1 each, and a pair of four-cent magentas, thirty-three years old, at £12, are barely worth notice, though their prices are so much in advance of what the first owner paid for them over the postoffice counter in Georgetown. Yet a book of 4,000 old issues of English stamps—postage, revenue, law, bill, railway and receipt, brought less than eight guineas, and a thousand Mexican ones only £3 5s., while a collection of 380 Russian local stamps seem, to the uninitiated, to be simply given away at 90 shillings. We may, however, take it that this collection, large as it is, did not, even if genuine, contain any of the rarer ones. For, as the student of M. Kopyrowski's volume must be aware, some Russian stamps are so scarce as to cause the most ardent collector many a heart-ache in his futile endeavors to obtain a specimen which will pass the narrow scrutiny of the expert. These and all other high-priced stamps are forged by the wholesale, and with such ingenuity that only the experienced connoisseur can detect the knaveries. The presence of such impostors in the company of honest specimens is the reason why the amateur at sales finds to his amazement, a wretched square inch of paper going for a thousand times its weight in gold, while he can secure an album containing it, and a host of similar rarities, almost at his own terms.

The collection of M. Philippe de Férari is said to contain a quarter of a million specimens, and to be worth almost as many pounds. Mr. Philbrick is understood to have sold this wealthy Parisian virtuoso one collection for £10,000, while Sir Daniel Cooper, an Australian collector, wisely transferred to the same gentleman the fruits of sixteen years' hoarding for £2,000. Mr. Burnett's albums are currently reported to have brought something like £22,000, and it is nothing uncommon to dispose of a respectable lot, but by no means remarkable, set of stamps for £500, £700 or £1000. The collection made by the late Duchesse de Galliera is affirmed to have cost, up to the year 1885, in acquisition and arrangement, £57,000; the value of 9,000 volumes in which it was contained has since that date been put at £18,000 more. Yet it is believed that both in England and on the continent there are public and private hoards very little inferior to it in interest and value.

At the Paris mint there is a remarkable collection, and that of the Admiralty is famous throughout the world, while the Rothschild collection in Paris is second only to the owner, with the true jealousy of the collector, reserves the pages containing his rarest specimens for the delectation of special friends.—London Standard.

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption. Am now on my third bottle, and able to overcome the work on my farm. It is the finest medicine ever made." Jesse Middleton, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at C. B. Bushnell's drug store.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters along the same song of praise. Entire satisfaction guaranteed or money refunded. Price 50 cents and \$1 per bottle at C. B. Bushnell's drug store.

Foster Gray, Ogn., March 8. I have been troubled many years with weakness of the kidneys, and have tried many different remedies, sought aid from different physicians, and even changed climates to obtain relief, but have met with indifferent success. Hearing through a friend of the value of the Oregon Kidney Tea, I obtained a box of it, and have derived more benefit from it than from anything else I have yet found.

Sold by Allen & Chapman. A lady who was afflicted with salt rheum on the face and other parts of the body for many years, and who was treated by the best physicians on the Pacific coast without any but temporary relief, says: "Dr. J. Eugene Jordan's Histogenetic cure of my troublesome complaint, and although I have not used the medicine for many months, I have had no return of the disease. I shall always feel grateful to you." Sold by Allen & Chapman.

AN AGE OF WONDERS.

After Centuries of Bigoted Darkness, Light!

Every Assault Upon the Impregnable Citadel of True Science Adds Numerous Recruits to Its Cause.

The ammunition of calumny has been expended. The deadly projectiles hurled have missed their destination. The shafts and arrows lie broken at the feet of victory. And when Aurora's rays shall have pierced the smoke of the battlefield, the name of the histogenetic system of medicine will gladden a bright and imperishable star in the diadem of science, when those who tried to wind their ally coils around the snowy throat have mouldered in oblivion and their epitaphs have vanished from the face of the earth.

Seattle, Washington. My little boy, when four years old, was taken sick with scarlet rash. We had competent medical aid but he never fully recovered. For three years he was sick, could retain nothing on his stomach, sometimes would vomit incessantly for a week, not retaining even water. He dwindled away to but a shadow of his former self. At last his mind gave way. For two weeks he clung to me begging me not to bury him in the ground. He recognized nobody, not even me. We all concluded that death would be a relief to him. There was no use trying the old school doctors, of that we had had enough experience. Their medicines failed to kill me when every one of them gave me up with consumption, saying that I could not live a week. That was three years ago. They would have had their say, too, if I had not called in Dr. J. Eugene Jordan. I had then been bedfast for over a year, could not turn over, suffered with excruciating pain and spat bloody pus. As by the aid of the god-sent Histogenetic Medicines I recovered from the verge of the grave and was able to do considerable of my housework in ninety days. Well, we got Dr. Jordan's medicine for our little boy and his reason returned and so did his health, and in two months from first taking his medicine he went to school. We are convinced, as is everyone who has used the unprecedented Histogenetic Medicines, that it accomplishes the apparently impossible, and that to compare them to all the other medicines is like comparing bright sunlight to Egyptian darkness. MARGIE McDANIEL.

Edmund, Washington. I have been sick for the last 15 years with a complication of diseases. Rheumatism and kidney troubles were very bad, but heart disease was the worst of all. Many times I thought I would not survive it. The sharp, agonizing pain in my heart would take my breath and make me dizzy. I had to catch at things to keep from falling. In fact, I was an utter wreck. I tried doctors in Terra Haute, Indiana, Bloomington, Ottomwa, Charlton and Burlington—allopathic, homoeopathic, and every other kind of doctors. They used batteries, baths, and all manner and kinds of nasty tasting drugs, but I received no benefit at all. I gave it up in disgust. Every doctor told me another tale as to what he thought was the matter with me, but that did not cure me. Going to Seattle, I heard of nothing but the new Histogenetic system and of Dr. J. Eugene Jordan, its author. Having tried all the old, I concluded to try the new, and after a few weeks' use of the above medicine I completely recovered. This was last October, and I have been able to attend to my duties ever since. I make this statement from gratitude to Dr. Jordan and the Histogenetic system, and also from a spirit of sympathy for kindred humanity. JOSEPH PENNINGTON.

Slaughter, Washington. My boy, ten years old, was broken down with rheumatism. His limbs were all distorted out of shape from the baneful effect; he suffered great agony, and could not turn in bed. The worst of all his heart was greatly effected from it and it almost stopped his breath. We gave him up, also did our neighbors. As a last resort I went to Dr. J. Eugene Jordan, whose medicine performed apparently impossible cures in our neighbors. After giving my boy those medicines for three weeks he entirely recovered, his limbs all straightened out again, and he is perfectly well in every way. That was ten months ago. As for myself I had an injury to my finger which turned into caries of the bone. Several doctors were employed, but the result was that the bone kept on eating away. At last they concluded that in order to save the hand the finger had to be amputated. I thought myself to Dr. Jordan, obtained his medicine, and in two weeks' time it cured the bone disease and I retained my finger. How much suffering and expense we might have saved had we known of the Histogenetic Medicine and Dr. J. Eugene Jordan. N. KRIGLAUNE.

My daughter, Mrs. E. Richard, Sterling, Washington, was pretty bad with consumption, bleeding from the lungs, and cough generally characteristic of the dreaded malady. The disease was of four years' standing. I came to Dr. J. Eugene Jordan, my daughter being too feeble to come. She took the medicine a week and she began to feel better, and in about two months time from first taking the medicine she had entirely recovered. J. E. SMITH.

CAUTION.—The Histogenetic medicines are sold in but one agency in each town. The label around the bottle bears the following inscription: "Dr. J. Eugene Jordan's Histogenetic Medicine." Every other device is a fraud. C. L. Gano, sole agent for Dr. Jordan's Histogenetic Medicine. Mr. Gano has been appointed in place of Mr. G. W. Carey, whose connection with Dr. Jordan and the Histogenetic Medicines have ceased. Medicine depot at May's dry goods store.

DON'T READ THIS!

Unless You Have Time To Make Some Money at Once.

BUT JUST NOTE A FEW FACTS.

TO-WIT: It is often said, and truthfully, too, that it is not so much what we make as what we save that makes us rich—or, in other words, the person who makes the dollar go farthest gets the best value out of it. The value of the dollar is known by its purchasing power, and not alone by the given quantity of 100 cents. In certain places in Europe, one dollar will purchase twice the amount of life's necessities that it will in the United States. The consumption being no more, it there provides for twice the length of time, or is worth 100 per cent. more in actual value. The prudent person will always consider the value of a dollar in relation to its purchasing power, and before spending it will ask himself, "Where will this dollar go farthest in the way of buying necessities and comforts?" A moment's reflection will answer, "At Vining & Bilger's," where 80 cents has about the same purchasing power as a dollar in most any other place here.

The way to prove this is to call and examine goods and prices, which will be cheerfully shown to all. They have the newest and best selected stock in town, and it is certainly the place to go to find all you want very cheap in the line of Hardware, Cutlery, Tin, Granite, Iron and Woodware, Bird Cages and Lampware, both stand and hanging lamps. You can save money by comparing prices, and satisfaction guaranteed at
