

THE YAKIMA HERALD.

VOL. IV.

NORTH YAKIMA, WASHINGTON, THURSDAY, MAY 12, 1892.

NO. 16.

NORTH YAKIMA, Wash., Sept. 23, 1891.

I have resided in the Yakima Valley for 12 years, engaged in general farming, fruit and hop culture. I raise all my products by irrigation, and have never failed a single year in obtaining bountiful crops.

I farmed formerly in the State of Kansas. I find all kinds of husbandry here much more profitable than in Kansas. And as to climate, such things as blizzards and cyclones are not known. Our winters are very short, and the spring and fall are perfectly delightful. All our farmers who are industrious are prosperous and happy.

JOSEPH STEPHENSON,
President Board of County Commissioners, Yakima County.

FRED R. REED & CO.

Invite Strangers to call on them. Write them if you want to see the Great Yakima Country. We will show it to you. We invite strict investigation of any statement made over our signature. We are here to stay, and are responsible for our acts and statements.

NORTH YAKIMA, Wash., April 18, 1891.

D. E. Lesh, proprietor of the celebrated fruit farm called "Fruit Vale," swears that on one Alexander peach-tree grew, during the year 1890, five hundred and twenty pounds of peaches, which he sold for \$52; that off four apple-trees twenty oz. pippins, he sold 100 boxes, 4,600 pounds, at \$125. My whole orchard, between six and seven acres of peaches, apples, plums, pears and apricots, brought me, during the season of 1890, about three thousand dollars.

D. E. LESH.
Subscribed and sworn to before me this 18th day of April, 1891.
J. B. PUGSLEY, Notary Public.
Residence, North Yakima.

FRED. R. REED & Co.,

REAL ESTATE.

Lock Box K.

NORTH YAKIMA, WASH.

NORTH YAKIMA, Washington.

D. J. Stevens, being first duly sworn, states that he resides in the Ahtanum Valley, about seven miles from North Yakima; that during the season of 1890 he raised on 80 acres of land as follows:

Three and one-fourth acres of Hops, 6,400 pounds	\$2,100
Ninety tons of Hay	950
Thirty tons of Carrots	300
Fifteen tons of Onions	675
Four hundred bushels of Corn	300
Twenty-four hundred bushels of Potatoes	1,440
Total	\$5,675

Besides supplying twenty-five head of hogs and nine head of horses during the said year.

D. J. STEVENS.
Subscribed and sworn to before me this 24th day of April, 1891.
J. B. PUGSLEY, Notary Public.
Residence, North Yakima.

FOR CASH.—We have several inducements to offer for cash, both in city lots and acreage. We are not at liberty to give location or names, but direct inquiry will satisfy all we mean business.

CITY PROPERTY.—We desire particularly to call attention to this, as we have absolute bargains on good inside business property.

The Board of Immigration of North Yakima, Yakima County, State of Washington, authorizes the following statement as to crops and prices generally prevailing in the Yakima Valley:

Wheat, 50 to 60 bushels per acre, at 70 cents
Oats, 50 to 100 " " " " 50 "
Barley, 40 to 50 " " " " 60 "
Potatoes, 300 to 600 " " " " 50 "
Onions, 300 to 500 " " " " 60 "
Hops, 1500 to 2500 lbs. from 12 to 30 cts. per lb.
Tobacco, from 800 to 1000 pounds at \$1.00 "
Alfalfa, 6 to 9 tons per acre, at from \$8 to \$15
Clover, 2 to 9 " " " " 8 to 15
Timothy, 2 to 4 " " " " 10 to 18

Peaches, Apples, Plums, Apricots, Prunes, Nectarines, Grapes, Pears, Sweet Potatoes, Peanuts and all kinds of small fruits grow in great perfection. Eggs sell the year round at an average of 25 cts. per doz.; Chickens at from \$3 to \$5 per doz.; Butter at from 30 to 40 cts. per pound; Hogs from 4 to 6 cts. per pound on foot. Watermelons yield from \$150 to \$200 per acre.

PROFESSIONAL CARDS.

H. J. SNIVELY,
Attorney at Law.

Office over Yakima National Bank, North Yakima. Will practice in all the courts of the State and U. S. land offices.

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Indigestion, Constipation, Sour Stomach, Diarrhea, and Feverishness. Thus the child is rendered healthy and its sleep sustained. Castoria contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any preparation I can use."—Dr. A. A. Abbott, M. D., 111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children."—Alex. Rosecrans, M. D., 167 3d Ave., New York.

"From personal knowledge and observation I can say that Castoria is an excellent medicine for children, acting as a laxative and relieving the pain of bowels and general system very much. Many mothers have told me of its excellent effect upon their children."—Dr. G. C. Osborn, Lowell, Mass.

The CHAPMAN COMPANY, 77 Murray Street, N. Y.

Notice to Creditors.

NOTICE IS HEREBY GIVEN BY THE UNDERSIGNED administrator of the estate of Hazel Gwendoline Chapman, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within one year after the first publication of this notice to the said administrator at his drug store on the southeast corner of Yakima avenue and Second street, the same being the place for the transaction of the business of said estate in the city of North Yakima, state of Washington.

W. F. CHAPMAN,
Administrator of the estate of Hazel Gwendoline Chapman, deceased.
Dioclet North Yakima, April 25, 1892. 14-15

A Sure Cure For Piles.

Itching Piles are known by moisture like perspiration, causing intense itching when warm. This form as well as Blind, Bleeding or Protruding, yield at once to Dr. Rossank's Pile Remedy, which sets on parts affected, absorbs tumors, allays itching and effects a permanent cure. Solely. Druggists or mail. Circulars free. Dr. Rossank, 329 Arch St., Philadelphia, Pa. Sold by J. S. S. Pharmacy.

New Goods! New Prices!

I beg to call the attention of the public to the following goods and the extremely low prices they are offered at:

- Twenty yards of standard prints for \$1.
- Sixteen yards of extra choice zephyr styles for \$1.
- Fourteen yards of German indigo blue for \$1.
- Eight yards of German indigo blue (long cloth) for \$1.
- Ten yards of best check gingham for \$1.
- Nine yards of best plaid or striped gingham for \$1.
- Seven yards of best zephyr gingham for \$1.
- Ten yards of "Fruit of the Loom" bleached muslin for \$1.
- Ten yards of Lonsdale bleached muslin for \$1.
- Ten yards of "Silver Crest" bleached muslin for \$1.
- Twelve yards of "Bound to Win" bleached muslin for \$1.
- Fifteen yards of unbleached L. S. muslin for \$1.
- Twelve yards of unbleached Aurora B. muslin for \$1.
- Ten yards of unbleached Dwight (best made) for \$1.
- White goods from eight cents to \$2.50 per yard.
- Delux cloths for wrappers, latest thing out, at twenty cents per yard.
- Domest flannels, outing cloths, at twenty cents.
- Silkoline for draperies, thirty-six inches wide, at twenty-five cents.
- We have the best assortment of black satens in the city.
- The attention of carpet weavers is called to our peerless warp, the best made.
- Ladies' undercosts from 12 1/2 cents to \$1.50 each.
- Unsanctified shirts, extra good quality, at seventy-five cents each.
- Dress patterns in eight yard lengths ranging from \$6.50 to \$16.50. No two alike.
- Give me a trial and you will be convinced that it pays to buy from a dry goods house that buys its goods in the eastern markets for spot cash.
- Very respectfully,
HENRY DITTMER.

Lombard & Horsley are making a specialty of \$18 and \$20 bedroom suits, of three pieces. They are of hard wood, with a 20x24 inch German bevel-plate mirror. No such bargains have ever before been offered in this city. Call and make a personal inspection, for if anyone wants a fine bedroom set without expending much money he is sure to be captured by Lombard & Horsley's offer. 11-12

THE LOCAL NEWS MARKET.

Interesting Items of News from Yakima and Its Suburbs.

Hits of Gossip, Facts, Fancies, Personal, and a Hodge-Podge of Paragraphs of Every Description.

Mrs. S. C. Henton left for Tacoma Monday on a brief visit.

Harry Voorhes spent several days in Ellensburg last week.

Rev. Father Garrard spent a couple of days in the city last week, returning to Seattle Sunday.

S. J. Lowe and E. M. Reed are summoned to Walla Walla on May 19th to act as U. S. jurors.

Harry Hampton is no longer the clerk of the Hotel Horton, Ellensburg, but has gone to Seattle.

W. H. Chapman and L. V. Janeck attended the druggists' convention at Seattle the fore part of this week.

Rev. W. H. Cornett, of Spokane, arrived in the city Monday to spend a few days with friends and relatives.

The Piety Flat Ditch company, of Kennewick, has filed articles of incorporation with the secretary of state; capital, \$3,000.

The state society of Christian endeavor will meet at Walla Walla next Tuesday. Rev. S. H. Cheadle will represent Yakima and Kittitas counties.

A Puyallup cigarmaker named Oppenheimer has purchased the tools, boxes and stock of the Morse cigar factory and moved them across the mountains.

Anthony Krober, of Ellensburg, who was married to Mrs. Hannah Schanno last week, has concluded to remove to Waterville, where he will take a partnership in his brother's business.

A couple of drunken coons had a team of Tucker's horses out Sunday, and drove them into a barbed wire fence. The animals were so badly cut that it is believed their days of usefulness are over.

Among those who were in attendance from Yakima at the Odd Fellows convention at Walla Walla this week, were J. K. Ward, H. Spinning and wife, J. M. Stout, Dr. C. J. Taft, H. O. Nevin, C. W. Henry and E. S. Duster.

Fred R. Reed left for Tacoma Monday, returning Wednesday.

John Reed, representing the Sons of Veterans, left for Walla Walla Monday night on inspection duty.

The west-bound morning train now arrives at North Yakima at 2:35 o'clock, instead of 2:40 as formerly.

Col. Will L. Vischer has sent his lithographs over to North Yakima, and promises to lecture here at an early date.

Miss Wheeler, who has been visiting her sister, Mrs. T. M. Vance, for some months past, left for Portland on Sunday.

There has been such an unusual amount of rain this spring that a common form of greeting among friends is, "Do you want to buy an irrigating ditch?"

C. E. Lum, of Kennewick, arrived in the city Monday with the information that active work had started on the line of canal from the Yakima at Prosser to Priests Rapids. About forty teams are engaged in the grading.

The Olympia correspondent of the Tacoma Ledger states that Col. W. F. Prosser is an aspirant for the republican nomination for governor. Central Washington is modest. It only asks for places on the state ticket for Eugene Wilson, Col. Prosser, R. K. Nichols and a few others.

While Mr. C. E. McEwen was cutting a piece of leather in his harness shop, Saturday, the knife slipped and the blade entered his left hand, inflicting an ugly flesh wound, which Dr. Heg was called upon to stitch and dress. Mr. McEwen will not have much use from the injured hand for some time to come.

The following is a list of Fechter & Ross' sales for April: Julia Bartholet to Francis Lemon, lots 13 to 16, block 190, \$500; W. F. Jones to Fechter & Ross, neig sec. 10, 12, 19, \$5,000; G. J. Rock to W. W. Atherton, 10 acres in sec. 31, 13, 19, \$1,500; Fechter & Ross to Walter Walton, lots 17 and 18, sec. 30, 13, 19, and 20 acres in school section, \$3,000; Sarah L. Monroe to Sarah McKinney, 10 acres in sec. 15, 19, 19, \$4,000.

S. F. Shidler and family, of Hamilton, Wash., are among the number who have recently located in North Yakima. Mr. Shidler was engaged in the grocery business in his old home, and is accredited with being a shrewd and successful business man.

Mr. C. R. Rockwood, late of the N. P. Y. & K. I. company, proposes to remain with Yakima at least for some time to come, as he looks upon this place as the center of irrigation development in the northwest, and he has some extensive projects on foot that give promise of realization.

Puyallup Herald: Pete Belles, proprietor of the Hotel Yakima, was in the city several days last week on business connected with his interests here. The patronage of the Hotel Yakima since purchased by Mr. Belles has exceeded his most sanguine expectations, and he has been forced to rent twenty-five rooms as an annex to accommodate guests.

Sheep Commissioner Sam Cameron reports that there are now 70,000 sheep in the county, an increase of 100 per cent since a year ago. This has been the best lambing season known for years, and the sheep are in splendid condition, only three bands being afflicted with the scab, and they will be dipped at once. There will be a big wool crop, and the wool is clean and of long staple.

It is reported that the Great Northern now has 7,500 men working in this state, 1,500 of whom are on the west side of the mountains. The entire line between Spokane and the Columbia is now being worked by graders. In order to gain time time work between Spokane and Chatteroy has been suspended, Hill having made arrangements for temporary entrance into Spokane by means of the Spokane & Northern. Between the latter point and the mountains it is estimated that 8,000,000 feet of timber will be required for bridges, of which amount 1,000,000 feet will be used in bridging the Columbia.

That the "Scrap of Paper" dramatic entertainment given on Thursday evening of last week by members of the Girls Guild was thoroughly appreciated is evidenced by the amount of favorable comments since heard. Much of the success was due to the hard work and ability displayed by S. C. Henton in the management. The stage settings were his special care and design, and in the third and fourth acts nothing more complete and attractive have been seen here. After the close of the performance Mr. John

Roaf took a flash light photograph of a scene from the last act, in which all of the performers and handsome stage settings are clearly shown. Mrs. Joseph Bartholet, Miss Jennie Wright and Miss Dora Allen also contributed largely to the happy issue of the entertainment, from which \$108 was realized for the cause. The ladies of the guild provided a supper which was enjoyed by the actors and one or two invited guests after the audience had dispersed. A novel feature of this spread was a Scrap of Paper—ragged and scorched by fire, but handsomely embellished with gold on which there was inscribed a name. These souvenirs designated the place of the guest at the table. The Herald editor acknowledges the receipt of one of these appropriate remembrances of this pleasant occasion, but was not present to enjoy the good things set forth.

Advertised Letter List.

Letters uncalled for at the postoffice at North Yakima for the week ending May 7, 1892:

Carney, Chas.	Fairchild, W.
Harkow, L. A.	Hawkins, A. A.
Miller, Ernest	Miller, William

Spata, Mrs. Geo. (Indian)	

E. LORSON, Postmaster.

Another One About Barnum.

"If you have \$10 to spend," said Barnum, "spend one for the article and the other nine in advertising it." The old man knew a thing or two when it came to advertising. Barnum said some years ago: "I can out talk any body on earth but the printer. The man who can stick type and talk next morning to thousands of people while I am talking to one is the only man I am afraid of. I want him for my friend."

HOW IT HAPPENED.

A thousand years ago, I guess— At any rate it can't be less— A mountain broke itself in two And let a sea go rushing through.

HERALDINGS.

Wm. Ker returned from Tacoma Thursday morning.

Register L. S. Howlett has gone to Seattle on a brief business trip.

Mrs. Chas. Worth, of Ellensburg, is in the city visiting her mother and sisters.

Miss M. McBride, of Ellensburg, is in the city attending the teachers' institute.

Richard Strobach left for Adams county Wednesday, to make selections of state lands.

Messrs. Dudley Estelzmann, M. H. Ellis, S. C. Henton and Samuel Vinson will attend the grand lodge, K. of P., at Tacoma next week.

A. N. Short received on Monday the sad news of the death, on the previous day, of his mother, at her home in Pennsylvania.

Charles E. Warn, who has been connected with the Oakland, Cal., Tribune, arrived in Yakima a few days ago and proposes to remain.

Do not forget Col. Will Viescher's lectures on Saturday and Monday evenings. Go the first night and you will certainly be there the second.

Col. Will L. Viescher will lecture at the opera-house Saturday evening, his subject being "Sixty Minutes in the War." On Monday evening he will give his views on "Seven Wise Men."

Wm. Ham. Hall says that down in California they claim that the climate is changed by irrigation, but Yakima is a very previous country and you have only to threaten to irrigate in order to bring about the change.

Thomas Lund and Wm. Browitt, of Roslyn, were in the city Thursday closing up a sale by which the latter transfers his interest in the Roslyn saloon to the former, when a telegram was received announcing the death of Mr. Browitt's father through the great coal mine disaster.

Attention is called to the new advertisement of P. Jordan, who has moved into the Steiner building, on Yakima avenue. He has fitted up a neat and attractive barber shop, with bath rooms, where patrons will receive every care and consideration.

Mrs. Wm. Rowe, of Indianapolis, who has been defending a contested desert claim at the land office, left for Tacoma Wednesday, after hearing the decision of the land officers which favored her claim as to three forty and the contestant's to one forty, which the testimony showed had some timber on it.

Levi Ankeny, of Walla Walla, and Jules Prickett, of Spokane, of the executive committee of the Bankers' Association, met in this city on Monday to confer with Messrs. Steinweg, Connert and Nichols regarding the time and place for holding the next annual meeting of the association. Seattle was the place agreed upon and the dates the 16th, 17th and 18th of June, although the time may be changed by Banker Ankeny, who has gone to Seattle to see if the arrangements are satisfactory to the members there.

The wedding of Mr. James D. Stewart to Miss Ida Jackson was celebrated Sunday afternoon, May 8th, at the residence of the bride's mother, Mrs. Mary Jackson. The Rev. Mr. McConaughy officiated, and the ceremony was performed in the presence of the family and a few intimate friends only. The bride looked charming in a gown of gray cashmere and white silk. After the wedding service those present enjoyed a splendid repast, to which sitting justice was done. Many very handsome presents were received, a number of which were from relatives and friends at a distance. Mr. and Mrs. Stewart have started in on their new life auspiciously in the home that Mr. Stewart has thoughtfully fitted with every comfort and convenience. THE HERALD is the recipient of some delicious wedding cake, as a remembrance of the occasion, and records the hope that every pleasure and success that the union promises may find a happy fulfillment.

The government geological survey party has been working around North Yakima for the past few days, after zig-zagging across the country to the Columbia, down through the Horse Heaven country, and over the reservation to Mt. Adams. Mr. Storow informed THE HERALD representative that the surveys had been very complete. The artesian basin through the Moxee country had been found remarkably perfect, but this was not the case in the Horse Heaven district and the reservation where the formation was very much broken. It is the opinion of the engineers that no artesian water will be found in the county and state well near Prosser, and that further prosecution of the work is money thrown away. Mr. Storow states that the location must have been chosen by a person without the least knowledge of the conditions required. From here the party will work up the Abitain to Soda Springs and then across the country to Ellensburg, taking in the Natchees, Selah and Wenaw valleys.

OFF FOR THE GOLD HILL MINES.

Mrs. Emily Knight, With a Dozen Miners, Leaves for the New Eldorado—A Big Outfit.

Mrs. Emily Knight, the mining expert, arrived from Spokane on Monday, and from that time until Wednesday morning she had more work on her hands than any three men in the city. She is a queer genius, vigorous, energetic and daring. Early last fall she arrived here from the Round country, and after seeing some of the quartz from the Gold Hill district and making several assays—for she is an experienced mineralogist and has had years of practical work in the mines of Virginia City, Arizona and other places—she bonded eight or nine claims and began the work of development, which was only stopped by the deep snows and inclement weather of winter. Mrs. Knight spent several thousand dollars in Yakima last fall in outfitting and in the prosecution of work, and promised to return in the spring as soon as she thought the trail could be opened, and here she is. A Mr. Myers arrived with her, bringing a portable sawmill which will be set up in the timber this side of the mines and used in getting out the supports required in the mines.

Since Mrs. Knight's arrival she has been engaged in buying horses, employing men and laying in supplies, and on Wednesday morning the start was made. There were a dozen saddle and pack animals, as many men, and two wagons loaded with the mill machinery and supplies. Mrs. Knight was well equipped and clad for the hard journey, and wore a full woolen suit, including pants. Over this bifurcated garment was a woolen skirt, but even this was to be thrown aside once civilization was passed, and she will straddle her horse and bear the hardships with the strongest and toughest of her companions. In her journey she always goes well armed, and is reported to be a splendid shot with rifle or revolver. The journey to Gold Hill or Bumping river is under the best conditions a difficult one, but at this season of the year the trail is very near impassable. The wagons will be abandoned at a point thirty-five miles from here, and from thence on to the destination the pack animals will be used entirely. It is feared that the outfit will be unable to get through, as the Natchees, which must be forded many times, is unusually high and turbulent even for this time of year, and many old mountaineers maintain that the journey cannot be made. Mrs. Knight was aware of this, but as she is very anxious to get a start on the work, was willing to run the risk. She is a great enthusiast over the proposed narrow gauge road up the Natchees, and avers that if the road is built this year that she will be ready to ship in a big stamp mill on the first through train.

The Washington State Medical Society convened in this city on Wednesday. There were not as many present as at previous meetings but more and better papers were read and discussed than ever before, and two pleasant and profitable days were spent in session, closing with a reception at the Yakima club rooms Thursday evening. The members of the society who answered to the roll call were Doctors G. S. Armstrong, Olympia; F. M. Bell, Kelso; Charles G. Brown, Spokane; Thomas L. Catterson, Spokane; F. H. Coe, Seattle; W. G. Coe, North Yakima; J. B. Eagleson, Seattle; N. Fred Essig, Spokane; Thomas B. Gunn, North Yakima; A. B. Kibbe, Olympia; C. K. Merriam, Spokane; D. G. Russell, Spokane; David Rosser, North Yakima; H. P. Tuttle, Tacoma; H. C. Willson, Port Townsend; P. B. Wing, Tacoma; Harvey Spokane; H. G. Mauzev, Spokane; R. L. Thomson, Spokane; Elmer E. Heg, North Yakima and Fischer, Seattle. The officers elected were, president, Dr. N. Fred Essig, Spokane; first vice president, Dr. G. S. Armstrong, Olympia; second vice president, Dr. Frank M. Bell, Kelso; secretary, Dr. G. D. Shaver, Tacoma; treasurer, Dr. J. B. Eagleson, Seattle. The next annual meeting will be held at Tacoma on the first Tuesday in May, 1903.

The election on Monday resulted in the re-election of Mayor Weed and all of the members of the council excepting Bartholet and Reed, whose places will be filled by E. F. Vaughn and W. H. Chapman. There was no contest excepting on John Reed. It is claimed that Mr. Reed, after agreeing to the return of the old council, made an effort to get up another ticket with three or four new names. Mr. Reed denied this, but there was a strong belief that it was true, and it was due to this that the majority of the voters scratched Reed's name and substituted that of W. H. Chapman. Mr. Chapman has before been a member of the council, and the duties devolving upon him will not be new. Of the officers to be appointed by the council there will probably be little change other than the electing of another attorney.

The rotary well on the Moxee is now down 700 feet and grinding away in sandstone. The well on the Miller place is down 500 feet, and the last 240 feet has been in sandstone. The contract was finished at this distance, but Contractor Stout has offered to go down another fifty feet free of charge if fuel is furnished.

The case of Berg vs. the Hinkle homestead occupied two days in the land office this week, and stands continued to permit the hearing of one more witness. The land in contest is on the north fork of the Abitain at the lower soda springs, and its value is not sufficient to quarrel much over.

Ten carloads of Presbyterian divines from the east will pass through Yakima on Saturday, bound for Portland to attend the general assembly.

W. N. Granger returned from Montana yesterday, and reports that it was snowing in Helena, Wednesday.

33 per ct. difference. ROYAL BAKING POWDER Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent. to 60 per cent. more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third, besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable—advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.

A treat is in store for the good people of Yakima who attend the lectures which Col. Will L. Viescher will give at the opera-house, on Saturday and Monday evenings, for the benefit of the free reading room. Col. Viescher—poet, humorist, dramatist, author and newspaper man, is a unique character, and he can interest and please an audience as it is seldom favored. Regret will be the portion of those who fail to hear this versatile genius.

Have you visited Curran's new cash grocery store? If not you should do so at once and inspect the splendid line of canned goods as well as staple and fancy groceries. Mr. Curran buys and sells for cash and the customer gets the benefit of the discounts.

The county commissioners at their recent session decided to offer \$40,000 of 6 per cent bonds, to cover the warrant indebtedness of the county. These bonds will be advertised at once, the bids to be opened on the 27th of June. Auditor Ellis has already received an informal proposal to purchase them at a premium.

All those indebted to me, either by note or book account, will please call at once and settle. HENRY DITZER.

Just received at H. H. Allen's drug store—an immense invoice of painters' materials, including brushes and the Sherman-Williams family, house and floor, ready mixed paints. Those who are posted on paints prefer this make to all others. They are said to have no equals in the market.

To effectually keep out the flies it is time the window and door screens were up. W. D. Scott manufactures these necessities and as they are hand made they are much more durable than those made by machinery.

—If any of THE HERALD readers are desirous of getting a saddle that is both handsome and substantial they should call at C. E. McEwen's, on Yakima avenue. He has some beauties.

Keep out the flies by ordering your window and door screens of W. D. Scott.

Billiardists, give attention: the billiard table at Sharrow & McDaniel's has been completely overhauled and is now as good as when it came from the factory, for it not only has been newly covered but a splendid set of genuine ivory balls have been purchased. A game of billiards and a glass of Pabst Milwaukee beer is a pleasant way to spend an evening and these are inducements which Messrs Sharrow & McDaniel have to offer.

Thousands of rolls of the latest pattern and tints in wall papers just received at Lombard & Horsley's. Purchasers will find the prices exceptionally satisfactory.

Sharrow and McDaniel now keep Pabst's Milwaukee beer on draught. "It has no superior" is the verdict of all who have tried it.

H. L. Walen, the shoemaker, has bought out the Trayner stock of boots, shoes and tools, and is prepared to give the public the best of satisfaction.

The lieutenant colonel, major and a surgeon of the Second regiment are expected here next week to examine the officers recently elected by Company E. It is expected that the regiment will go into camp at Spokane about the middle of June, and members of Company E are anticipating this with great pleasure.

ALLIANCE-INDUSTRIAL UNION CONVENTION.

Delegates are Here From all Over the State—Secret Sessions—Election of State Officers.

North Yakima has been entertaining the reformers during several days of this week. They are close-mouthed people as to their deliberations in convention, and only a few of the details have leaked out; but they are sufficient to warrant the belief that if the Farmers Alliance and Industrial Union could get into power that there would be such an overhauling of present laws and methods as would rattle the dry bones of the old parties and cause their followers to flee to the hills.

The convention met on Tuesday with some thirty or forty delegates present and fourteen counties represented. The delegates from abroad were H. F. Hesse, Spokane; A. J. Williamson, Spokane; J. M. Smith, Garfield; Joseph Hill, Spokane; J. W. Galbraith, Spokane; Orton P. Haight, Whatcom; J. A. Helman, Spokane; J. S. McLain, Stevens county; E. G. Noyer, Pomeroy; B. F. Pankey, Harvey; M. F. Knox, Seattle; Carrie J. Knox, Seattle; J. R. Wicks, Colfax; E. A. LaDow, Palouse; C. W. Young, Pullman; M. V. Crabtree, Garfield; A. Manning, Garfield; James Hopkins, Spokane; T. H. Burns, Spokane; J. J. Brown, Sprague; M. L. Smith, Farmington; Phil R. Simmons, Lewis county; H. Copley Colfax; Tom Bryant, Roslyn; A. Collins, Vancouver; Geo. A. Robinson, Elma; Samuel E. Jones, Bnoods; Ralph Hanna, Tacoma, and Phil R. Simmons, Lewis county.

The day sessions have been behind closed doors, but it is known that the state association adopted the St. Louis platform, and a set of resolutions denouncing the action of the present congress, the common school system by which the producers paid the greater part of the taxation and realized the least benefit, and the exorbitant and unjust tariff imposed by the railways. A movement was placed on foot to control the reform press of the state, and the Industrial World, of Spokane, was made the official organ of the party for the state. The election, which was held on Tuesday, resulted as follows: President, A. Manning; vice president, O. P. Haight; secretary-treasurer, Samuel E. Jones; chaplain, G. E. Noyer; lecturers, M. F. Knox and J. A. Helman; steward, A. J. Williamson; doorkeeper, J. S. McLain; assistant doorkeeper, D. F. Pankey; executive committee, H. F. Hesse, G. A. Robinson and C. W. Young; judiciary committee, M. L. Smith, E. A. LaDow and H. Copley; delegates to the national convention, J. M. Smith and J. W. Galbraith.

The evening sessions were public and were fairly well attended. The speakers mixed up a lot of startling figures and wholesome truths with absurd theories and equally startling grammar, and seemed well satisfied with the result. Their stay here was prolonged beyond the time intended because the railroad company refused to give the reduced return fare which the officers of the Alliance maintained had been promised, but which the company said they knew nothing of.

Thomas Lawler and wife, and Miss Goshan, of New Prague, Minn., arrived here on Saturday last with the intention of making their home in Yakima.

Summons by Publication.

In the Superior Court of Yakima County, State of Washington.

MARY B. VICKERY, Plaintiff, vs. EDWARD G. VICKERY, Defendant.

Action brought in the Superior Court of Yakima County, State of Washington, to dissolve the marriage of the Plaintiff and Defendant, and for such other and further relief as the Court may deem equitable.

The nature and object of this action is to obtain a decree of divorce from the bonds of matrimony existing between the Plaintiff and the Defendant, and for such other and further relief as the Court may deem equitable.

Witness my hand and the Seal of said Court, at this city, this 22d day of March, A. D. 1902.

W. E. EISELMAN, County Clerk and Clerk of the Superior Court. H. J. SHIPLEY, atty for Plaintiff.

Physicians Couldn't Cure Him. One bottle of Pastor Koening's Nerve Tonic cured me entirely, after physicians had tried unsuccessfully for 6 months to relieve me of nervous debility.

A Child's Life Saved. My little girl, 8 years old, had St. Vitus dance so severe that she was perfectly helpless, lying on the bed and crying when awake and had to make 3 or 4 attempts to even speak or swallow. One physician was in daily attendance, but she continued to grow worse until I began to use Pastor Koening's Nerve Tonic; then she improved rapidly and now she is perfectly well. I am confident my child's life was saved by this medicine and I recommend it to all who have nervous trouble of any kind and no one can say too much in praise of it.

FREE. A valuable book on Nervous Debility sent free to any address. One bottle of Pastor Koening's Nerve Tonic cured me entirely, after physicians had tried unsuccessfully for 6 months to relieve me of nervous debility.

KOENIG MED. CO., Chicago, Ill. Sold by Druggists at 50¢ per Bottle, 6 for \$5.00. Large Size, \$1.75. 6 Bottles for \$9.00.

NEWS GERM OF WASHINGTON

Chronicles of Matters of Importance Throughout the Evergreen State.

All Sections Are Treated Impartially That Can Furnish Items of Interest for "The Herald's" Thousands of Readers.

Stevens' sawmill at Badger mountain, Douglas county, was burned to the ground on April 28th. It will be rebuilt.

Judge Graves writes from San Diego, Cal., that Mrs. Graves stood the journey very well and felt fully as well as when she left.

A steamer is being built at Ballard for a syndicate of eastern capitalists, who will use her in the Yakima river, where they intend to go into hydraulic mining on a large scale.

Wenatchee Advertiser: Two inches of snow fell at the sawmill Monday. The weather clerk may know his business, but his methods of administration are eccentric, to say the least.

The effort to reduce the liquor license at Ellensburg from \$1,000 to \$600 was a failure. There are now six saloons in the town, but two or three of them are preparing to close down when their license expires.

The Overland Evergreen, published at Enumclaw, Wash., has suspended publication. The editor says it has never been a paying venture. It is understood that the plant will be removed to Yakima City.

A Kansas artificial rain company offers to send its men to Kittitas county for \$250, on condition that they are to receive \$750 if the experiments are successful, in which event they will sell the county the right for \$5,000.

The work of clearing the Columbia of obstructions to navigation at Rock Island rapids has ceased, and the government boats will be hung up at Pasco. The appropriation was exhausted like dew before the morning sun.

The steamer City of Ellensburg has been newly refitted, and is now navigating the upper Columbia river, making two trips a week from Port Eaton to Bridgeport, a distance of 100 miles. She leaves Port Eaton Mondays and Thursdays, returning Wednesdays and Saturdays.

One of the neatest congratulatory telegrams received by Mayor-Elect Drumheller, of Spokane, over his recent great victory, was from James Hamilton Lewis, of Seattle, who will doubtless be the democratic nominee for governor. It reads: "My old friend, while I send you my sincerest congratulations, I none the less congratulate you people for the honor they have done themselves."

J. W. Wells, of Seattle, offers to build an immense ditch around the east end of Kittitas valley, carrying water sufficient to give one-half inch to each acre of land under the ditch, and to be commenced by August 1st, 1892, and finished by June 1st, 1893, provided that the settlers mortgage their lands for ten years to pay \$1 and \$1.25 per acre annual water rental, and the pro rata cost of the ditch at the end of the ten years, when, if the conditions are fulfilled, it will be turned over to them. The proposition was made at a mass meeting, but the farmers were slow to sign, the representative of only 6,500 acres signing the agreement. The matter was left in the hands of W. H. Peterson to sell the farmers.

Captain A. B. Wyckoff, commandant of the Puget sound naval station, has his headquarters on the government vessel Nelpic, stationed at Port Orchard. On July 5th the contract for the erection of a drydock will be awarded, which Captain Wyckoff believes will be the inception of a navy yard. He predicts that whatever improvements are made at Port Orchard by the government will redound to the benefit of Puget sound country, not only in its actual money expended for such improvements, but in drawing war vessels to the dock. The captain has selected the site for the drydock and is anxious to prosecute work vigorously on its construction.

Walla Walla Union-Journal: The bright, balmy weather for the past few days has filled the needs of the growing crops. The ground is now thoroughly soaked, and if no more rains fall there will be no trouble experienced from drought. Grain is in excellent condition, and a few warm days is all that is wanted to cause it to grow and mature rapidly. The cold weather has done the most damage to fruit, but with no further injury from this or any other source an average crop may be looked for. Strawberries will not be as abundant as last season, owing to the earlier blossoms having been nipped by the frost; the crop will be about two weeks later than usual. Peaches were not injured by the frost, but were benumbed by the cold weather which prevented the sap from flowing, and the buds in only some localities died from want of nourishment. About half a crop is expected. Of other fruits no material damage has been done beyond the delaying of the maturing season several weeks.

Chickens as Pincer Miners. The chicken raising industry is likely to have a boom in Montana. A citizen of Butte, in that state, who killed a rooster for dinner the other day found several nuggets of gold in its crop and gizzard. He at once staked out a claim on the thirty-one remaining members of his flock and began mining them. The result of this operation had a cash value of \$877. The successful miner is now buying up all the chickens he can find and setting them to work at scratching for their death.

THE HERALD'S WEEKLY HOP REPORT.

The Yards all Doing Nicely-The Meteor Weather Favors the Lice - Revised Acreage List.

From all sections of Yakima county the report is received that both the old and new yards are doing nicely. Planting is still going on, but owing to the greatly increased acreage there is a shortage of strong, vigorous roots, and several of the growers have sent orders away. There are frequent reports of lice but no damage from them is anticipated. Mr. T. F. Maher says the conditions here are the same as in the Sacramento valley, where lice can always be found, but that the hot weather prevents them from working or doing any damage. Capt. Dana scoffs at all fears from lice. He says we have always had the vermin since hop growing was started, but that the long, dry, hot summers with frequent breezes is a bar to their doing any harm. The unprecedented rains of this spring have favored the vermin, and there is little doubt but that they are here, although many growers maintain that it is not the true hop louse.

The call has been issued for a meeting of the Yakima Hop Growers Association in this city on Saturday afternoon, and it is hoped that there will be a general attendance, as many matters of interest and benefit to the growers will come up.

Puyallup Commercial: Hop vines in the Puyallup district are now making their usual good growth, and the usual difference of opinion exists in regard to lice, some growers saying they have already seen lots of them, while others say they have hunted in vain for them. All agree, however on the necessity of thorough spraying, and most growers are examining into the features of the different spraying machines.

The Cherry Valley, N. Y., Gazette of April 28th says: Hops are slowly but steadily increasing in value. At this writing they find ready sale at 32 or 33 cents. The probability is they will be higher before June. The hop exchange continues to get in its work or 40 cents would have been paid before this time.

The New York Commercial Gazette of April 25th quotes prime Washingtons, June delivery, at 25 1/2 @26c.

The Slaughter Sun reports that growers are finding a number of roots dead this spring, and that an observant grower reports that the vines most affected with vermin last year are the ones that died. In some instances vines in one-third of the hills have died.

At Samner William Hammon exhibited a young hop vine only eighteen inches in length on which were hundreds of active, vigorous lice; and at Slaughter Dave Hart exhibited a large bunch of plum trees from a plum tree that were completely covered with the vermin.

On the west side L. Pincus & Son are loaning considerable coin to growers, taking a chattel mortgage on the coming crop and the privilege of handling it at one cent per pound.

According to E. Meeker's hop circulars the estimated yield of Oregon last year was 16,000; Washington 40,000 bales. The exports for the season were 65,900 bales—more than twice the amount exported the previous year.

HOP ACREAGE REVISED AND CORRECTED.

Table with columns: Name, Acres, Acres. Lists various growers and their hop acreages.

Not many physicians make great therapeutic discoveries. For the most part they content themselves with administering judiciously what is prescribed in the books. To Dr. J. C. Ayer, however, is due the credit of discovering that greatest of blood purifiers—Ayer's Sarsaparil.

Newspapers to Be Proud Of.

Puyallup Herald: The Republic and Herald of North Yakima are two of the brightest papers in the state of Washington. That city should be proud of them. They are doing splendid work in the up-building of the Yakima country.

Bessie H. Bedloe, Burlington, Vt., had a disease of the scalp, causing her hair to become very harsh and dry, and to fall so freely that she scarcely dared to comb it. Ayer's Hair Vigor gave her a healthy scalp, removed the dandruff, and made the hair thick and glossy.

Honest workmanship is the best advertisement C. E. McEwen can have for his harness, bridles and saddles. They are cheaper than inferior articles because they have the lasting qualities and always look well.

A NEW ERA IN COOKING.

How Electricity Is Applied to the Problems of the Kitchen.

Details of the Culinary Utensils and the Car-Heater Principle That Is Applied-The Adaptations are Limitless.

Recently there was an exhibition of electrical cooking at the Crystal Palace, and a representative of the Pull Mall Budget writes of it thus: The first thing that struck me is the simplicity of the apparatus employed. Even with a gas cooking stove, which is an immense improvement on the best of coal ranges, there is always a heavy iron structure to begin with, and this must be supplemented by the usual equipment of saucepans and kettles. But with electrical cooking each saucepan or kettle, or frying pan contains within itself the means of imparting heat. And so simple and insignificant in size is the heating contrivance that an electrical kettle is barely heavier than a gas stove kettle. But the gas stove kettle necessitates at the very least a gas ring; the electrical kettle will boil away on a polished floor or on an afternoon tea table.

What, then, is the contrivance? To begin at the beginning, it is the utilization of the fact that the electric current in passing through a thin wire causes that wire to grow hot—provided always that the current is sufficiently powerful, and that the wire offers sufficient resistance.

This fact has long been familiar to the general public as well as to electricians. It is the basis of the ordinary electric glow lamp, where a thin wire of carbon is heated to incandescence. To get heat without light is, however, the object of the electrical cook; for the extra energy that is required to produce the lighting rays is, from his point of view, waste. The first attempt to secure heat in a convenient form, without light, was made with platinum wires. And in many ways platinum is an ideal metal for the purpose; it offers great resistance to electricity, and it does not oxidize. You may heat it up to a red glow as often as you like and it will never rust or burn away.

But platinum is expensive—so expensive that only American millionaires could afford to use it in their household utensils. Other cheaper metals there are in plenty, that, from an electrical point of view, do almost as well as platinum, or perhaps even better; but they corrode when heated in the open air. This difficulty has been gotten over by coating one of these vessels with a special varnish of cement that protects it from the air, but yet allows the metal to expand freely when heated by the passage of the electric current. How this device is applied can best be realized from the railroad foot warmer. The plate is about eighteen inches long by four broad, and perhaps one-tenth of an inch thick; it has a metal backing for strength, but the important part is the cement face, with the wire just visible underneath.

The current is conducted to the plate by ordinary insulated copper wires, and there connected by ordinary connecting screws with very fine wires of platinum, or some other convenient alloy; over these fine wires is the thin semi-transparent cement. When the current is turned on the resistance in the fine wires causes them to grow hot, up to a temperature more than sufficient to boil water. But the cement expands equally with the wire, and therefore does not crack, while it completely protects the wires from corrosion.

These adaptations are almost limitless. Instead, for example, of adapting your electrical heater to the bottom of your kettle, you can carry heat by means of an electrical plugger into your water jug, or bath can, and heat your supply of cold water up to the temperature you desire. The electrical device can also be applied to an oven. The sides and the back, the top and the bottom of the electrical oven could all be heated independently, so that when the pie showed signs of burning on the crust the cook could shut off the top heat without checking the progress towards perfection of the fruit beneath. Nor need we limit our ambition to electrical cooking. Were electricity only cheap enough we might warm our rooms with exactly the same device. On ceilings, on floors, on walls would be laid ornamental plaques warmed to a gentle heat by the electric current. Chimneys would then be banished, and with them the chimney sweep; while the housemaid in the morning would no longer disturb our sweetest rest by her fierce raking at the coal grate, nor cover books, pictures and draperies with coal dust. Instead, she would touch a switch, and instantly walls and ceiling would glow with a genial warmth.

100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional remedy. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by druggists, 70c. 15-1m

Do not wear impermeable and tight-fitting hats that contract the blood-vessels of the scalp. Use Hall's Hair Renewer occasionally, and you will not be bald.

SOMETHING FOR THE SCRAP BOOK.

How to Find the Dates of New Moons for Any Year in the Nineteenth Century.

The Golden number is the place of a given year in the lunar cycle, which is nineteen years; that is, every nineteen years the new moons come around on the same dates.

To find the Golden number add one to the date and divide the same by nineteen; the remainder is the Golden number for that year. When there is no remainder the year is the last of the lunar cycle, and of course its Golden number is nineteen.

Example: To find the Golden number for 1890, add one and we have 1891; divide by nineteen and the remainder is ten, hence ten is the Golden number for 1890.

To use the table, find the Golden number for the given year, then whenever it occurs in the table it gives the date of a new moon. The first column is the date of the month; each of the other twelve columns is headed by the name of one of the months.

Table with columns: DATE, JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE, JULY, AUGUST, SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER. Shows dates of new moons for years 1888-1900.

For instance, suppose you wish to find the date of the new moon in November, 1888. Using the rule above, we find the Golden number for 1888 was 8. Look in the column headed November, and the 8 is found opposite the 3d day of the month. Hence the November new moon in 1888 was on the 3d. By this table we can find the dates of all the new moons for any year.

THE INDIANAPOLIS BOARD OF HEALTH.

They are After the Ammonia and Alum Baking Powders.

Indianapolis Sentinel, Dec. 26: The subject of pure food, and especially the adulteration of baking powders by the use of ammonia and alum, is causing no little discussion.

The legislators of New York, Minnesota, Illinois, Georgia, Florida, etc., have taken up this question, and it is attracting the attention of physicians and boards of health throughout the country. Our own city board of health ordered an examination of all the baking powders to be found in this market; instructed Dr. Lutz to make an examination and analysis and report the result to the board.

BAKING POWDER ANALYSES.

City Chemist Dr. Lutz transmitted to the department of public health a lengthy communication, in which he gives the result of his analysis of the several brands of baking powders that are on sale in this city. In his report Dr. Lutz says that baking powders designated as being free from deleterious substances may be recommended, as their healthfulness cannot be questioned. The report is as follows:

The samples of baking powders you have sent to our laboratory for investigation as to the purity and healthfulness of the various brands I have subjected to a qualitative examination, and now report the following result: Atlantic & Pacific contains ammonia and alum.

Bon Bon contains alum. Calumet contains alum. Crown contains ammonia and alum. Early Rising (Empire) contains ammonia and alum. Forest City contains ammonia and alum. Kenton contains ammonia and alum. Dr. Price's free from deleterious chemicals. Queen contains ammonia and alum. Royal contains ammonia. Regal contains ammonia and alum. Beckelban's contains ammonia and alum. Season (made by Day, Indianapolis), contains alum. Dr. Lutz says: "Physiologists of high standing consider ammonia and alum deleterious substances, unfitted for use in foods."

Yakima City.

That slumbering volcano will soon be in active operations again. One thousand new people in less than 12 months. Mill, breweries, hotels, banks are all now getting ready to start up. It was a bold stroke, a bold stroke indeed, that was made here on the morning of June 1, 1864.

It was a bold stroke, a bold stroke indeed, that was made here on the morning of June 1, 1864.

It was a bold stroke, a bold stroke indeed, that was made here on the morning of June 1, 1864.

It was a bold stroke, a bold stroke indeed, that was made here on the morning of June 1, 1864.

LOVELORN LIZZIE.

"Oh, it's you, is it, Lizzie?" was Mrs. Priscilla Kane's ejaculation as her pretty daughter, a black-eyed, curly-haired, roguish-faced girl of seventeen, who worked in one of the big Kensington factories, walked into the kitchen, swinging her dinner basket in her hand and humming a merry tune.

"Yes, dear mother, it is I," said the girl, and she kissed the wrinkled face of the hard-worked woman.

"I'm glad you've come," said Mrs. Kane, glancing admiringly down into her daughter's pretty face. "Mr. Mercer is in the front room. He's been waiting for you for about two hours, and Lizzie, striking her voice, "he had a long talk with your father, in which he said that he loved you and wanted to make you his wife. I'm sure it almost took my breath away when your father told me about it, for he's got a good business and owns lots of property besides. He told your father that as soon as you were a wife he'd satisfy the mortgage on this house and make us comfortable for the balance of our lives. Lord knows, it will seem strange enough to rest, for I've seen nothing but work since I was a child of a girl, and I've grown old before my time trying to make ends meet. Now put on your gingham dress and go in to see him. He is in the front room."

Mrs. Kane paused suddenly and stepped back with a startled cry, for, happening to glance at her daughter's face, she saw such a marvelous change in its expression that she grew alarmed.

"Now, Lizzie," she continued, "don't fret me and say you won't do it, for I've got a raging headache, and a little more excitement will drive me crazy. I am sure it's not much that your pa and I ask you to do. You ought to be willing to make some sacrifice for our sakes."

"I am!" answered Lizzie, and the hard lines in her face softened; "I'm willing to do it early and late for you, but when you ask me to marry a man whom I hate it is too much."

"There, then," began Mrs. Kane. "I know you'd only have one of your tantrums as soon as I told you of your good fortune, but your father would go to the moon and leave me to face it all," and sinking into a chair she threw her apron over her head and began sobbing and crying and rocking herself back and forth in a manner suggesting hysteria.

"So father has gone to the moon again, after promising me to remain away," said Lizzie, and her eyes snapped.

"It's because he's in trouble," apologized the mother, wiping her eyes. "If you'd only marry Mr. Mercer and lift us out of our poverty, your pa would be a different man."

"I doubt it!" muttered Lizzie; and then, speaking loud, said: "Well, I won't marry Mr. Mercer—that settles it. I'll go out and beg first!" and, seizing her shawl and hat, she quickly donned them before her mother could interfere, rushed out of the door, and had reached the end of the alley before that lady could get to the gate.

"That girl will be the death of me," Mrs. Kane moaned, re-entering the kitchen, and then rolling down the sleeves of her faded calico dress she smoothed her hair and walked into the front room, where Mr. Isaac Mercer, a fat, pudgy man of fifty, with a smooth and very red face and a bald head, sat vacantly staring at the big, pattern in the cheap Ingrain carpet.

Later, haltingly, she apologized for her daughter's absence, saying that the latter would not be home until late, having to do overwork at the mill, and Isaac Mercer left, promising to call on the morrow.

Charlie was the particular friend of Ned Howell, a brakeman on the railroad, who had been Lizzie's lover since they were children together, and whom she had promised to marry when she should have saved enough to give her a home.

"Charlie," she said, tapping on the window to attract his attention, "will 83 be down tonight!"

At sound of her voice Charlie raised his head from his work, and catching sight of the girl's pretty face, sprang to his feet.

"Great Scott, Lizzie! Is it you?" was his ejaculation, and then, without meaning to be harsh or cruel, he told her in excited, disjointed sentences about a terrible accident that had taken place on the railroad at the other end of the division.

As he proceeded the in fancy saw the terrible scene, but she uttered no sound, and continued staring into his face with dry, wide open eyes.

"Poor Ned was caught between two cars, and the doctors say one of his legs will have to come off. He's pretty badly mangled and may die. All the wounded were taken to the Presbyterian hospital and—"

He stopped suddenly, and
