Chapter 1, Section 1

Election Administrator Certification

RCW 29A.04, RCW 36.22, WAC 434-260

State law requires at least two certified election administrators on staff in each county. For initial certification an applicant must:

- Complete E101 within 5 years of the certificate application. (E-101 does not qualify toward training hours for initial certification)
- Pass the written Election Administrator Certification examination.
- Complete 40 hours of education within the previous five years.
- 30 hours must be election-specific training.
  - 20 hours of the 30 must specifically address Washington State elections and must include training hours from attending an annual Washington elections conference.
  - 4 hours for visiting other county elections departments is allowed.
  - 2 hours for participating in elections panels or committees is allowed.
- 10 hours may be for professional development courses, approved by the county auditor or elections director.
- All other training must be pre-approved by the OSOS to be counted as election-specific.
- Submit an online application for initial certification.

To maintain certification, an administrator must:

- Work as an election administrator continuously during the 2 years for which maintenance is required.
- Complete 40 hours of additional education, as pre-approved by the Secretary of State
  - 30 hours must be election-specific. 20 hours of the 30 must specifically address Washington state elections and must include training hours from attending an annual Washington elections conference.
  - 4 hours for visiting other county elections departments is allowed.
  - All other training must be pre-approved by the OSOS to be counted as Election Specific.
- Submit an application for renewal by December 31 of each odd-numbered year.

Training Opportunities
Visit the Election Administrators page on the State Elections website for training registration, applications for certification, and tracking your training.

Chapter 1, Section 2

Election Laws

State Constitution
The State Constitution consists of 32 Articles. Each Article is denoted by a Roman numeral. Example: Article VI
Articles are divided into Sections. When referring to a specific section, you will see either:
- Article VI, Section 4, or
- Art. VI, Sec. 4, or
- Art. VI, § 4
Articles I, II, III, IV, VI, VII, XI, XIV, XXII, and XXIII all contain provisions related to elections.

State Statutes
The official name is the Revised Code of Washington, commonly known as “RCWs.”
- Numbered Titles divide state statutes by subject.
  - Example: RCW 29A
- Titles are divided into chapters and the chapter numbers appear after the title number, separated by a period.
  - Example: RCW 29A.24
- Chapters are divided by sections and the section number is listed after the chapter number, separated by a period.
  - Example: RCW Title 29A, Chapter 24, Section 031 would read as RCW 29A.24.031.

You will find most election laws in Title 29A, however many other chapters associated with specific offices and issues contain such laws. (See the chart found at the end of this chapter).

State Rules
The official name is Washington Administrative Code, commonly known as “WACs.” WACs are organized in a manner similar to RCWs.
- Numbered titles divide state rules by subject.
  - Example: WAC 434
- Titles are divided by chapters and the chapter numbers appear after the title number, separated by a dash.
  - Example: WAC 434-250
- Chapters are divided by sections and the section number is listed after the chapter number, separated by a dash.
  - Example: Washington Administrative Code Title 434, Chapter 250, Section 030 would read as WAC 434-250-030.
Rules for the Secretary of State are located in Title 434. Election rules are found in WAC chapters 434-208 through 434-381.

**Federal Election Laws**

Federal election laws affect the administration of elections, including:

- MOVE Act—Military and Overseas Voter Empowerment Act of 2009
- HAVA – Help America Vote Act of 2002
- NVRA – National Voter Registration Act of 1993 (Motor Voter)
- Voting Accessibility for the Elderly and Handicapped Act of 1984
- Voting Rights Act of 1965

**Litigation and Attorney General’s Opinions**

- An opinion is requested when the interpretation of an existing law is in question. While not as binding as law, Attorney General Opinions affect election administration.
- Supreme Court and Court of Appeals decisions override current law.
- State and federal court cases affect the administration of election law for the jurisdiction in question. Such decisions, while may or may not be binding for the entire state, influence interpretation of state law.

**Search Tools**

- The RCWs and WACs may be found on the Secretary of State’s website at [https://www.sos.wa.gov/elections/election_laws.aspx](https://www.sos.wa.gov/elections/election_laws.aspx).
- The state also provides a search option for RCWs, WACs, and the State Constitution at [search.leg.wa.gov/search.aspx#document](https://search.leg.wa.gov/search.aspx#document).

Chapter 1, Section 3

Accessibility Awareness

RCW 29A.12, RCW 29A.40, WAC 434-250

HAVA (Help America Vote Act)

HAVA, the Americans with Disabilities Act of 1990 (ADA) and state law require election officials provide voters with disabilities the same access to voting as other citizens. These laws give voters an equal opportunity to vote privately and independently.

How do you make voting by mail accessible?

Every county must provide:

- An Accessible Voting Unit (AVU) in at least one voting center. The unit must be wheelchair-accessible.
- Election materials in alternate format, e.g. audio, larger fonts, etc.
- Voting centers that meet all requirements of the Americans with Disabilities Act (ADA). The AVU must be positioned in a way to protect voter privacy. The voting screen of the AVU should not be viewable by staff or voters in the center.

The “ADA Checklist for Event Accessibility” provided at the end of this section will assist you in determining the accessibility of any voting location.

Disability Advisory Committee

RCW 29A.04

All counties are required to establish and maintain a Disability Advisory Committee (DAC) or a County Accessible Community Advisory Committee (ACAC). The committee must include persons of ‘diverse’ disabilities and persons with expertise in providing accommodations for persons with disabilities. Counties may share a committee provided no more than one of the participating counties has a population greater than seventy thousand.

What does the committee do?

The Committee must work with the County Auditor to create a plan and implement changes to improve the accessibility of elections for voters with disabilities with regard to:

The number and location of voting centers and ballot deposit sites and/or ballot drop boxes. (Example: locate drive-up ballot deposit boxes on the driver’s side of a car and pedestrian boxes at wheelchair height.)

- Outreach to voters regarding the availability of accessible voting accommodations.
- Transportation of AVUs to locations convenient to voters with disabilities.
- Implementation of the Help America Vote Act.
• Reviewing and updating the plan on a yearly basis.

**Accessibility Awareness**
The YouTube video, “Disability Sensitivity Training” produced by the District of Columbia ([https://www.youtube.com/watch?v=Gv1aDEFIxq8](https://www.youtube.com/watch?v=Gv1aDEFIxq8)) addresses communication with members of the disabled community.

The “Voting with a Disability in Oregon” video produced by Disability Rights Oregon ([https://www.youtube.com/watch?v=NOuGDrlcdos](https://www.youtube.com/watch?v=NOuGDrlcdos)) illustrates ways to help people vote privately and independently at home.

Disability Rights Washington’s YouTube voting series ([https://www.youtube.com/watch?v=4SHvXahfDnM&list=PLLSb3deWSkYyHjsWFdeMYGmJTHf-tou-z&index=1](https://www.youtube.com/watch?v=4SHvXahfDnM&list=PLLSb3deWSkYyHjsWFdeMYGmJTHf-tou-z&index=1)) explains to viewers that voters in various communities retain voting rights and how to exercise those rights.

**Voter Assistance**
A voter has the right to request assistance from whomever the voter chooses. Staff members may assist voters upon request or offer assistance when it appears that a voter is having difficulty casting a vote.

> Maintain voter privacy - always ask the voter if assistance is needed prior to approaching.

**Interacting with People with Disabilities**

**Be Respectful** - A person with a disability is a person like anyone else. Treat people with the same respect and consideration.

**Meeting Someone** - Try to avoid actions and words that suggest the person should be treated differently. People who use wheelchairs may have a variety of different disabilities. When you meet someone, extend your hand to shake if that is what you normally do. A person who cannot shake hands will let you know. If you are meeting a blind person, identify yourself. Use a normal tone of voice. Do not raise your voice unless requested.

**Helping** - Do not automatically give assistance. Ask first if the person wants help. Offer assistance, quietly and tactfully, but do not overdo it or insist on helping. Respect the person's right to reject help or to indicate the kind of help needed.

- If the offer is accepted, listen to instructions. The person may refuse your offer of assistance or may not wish to discuss their disability.
- If you cannot assist in the way that is requested, discuss it with the person. You have a right to set limits on what you can and cannot do. Your relationship with a person with a disability should be, like any other relationship, a reciprocal one.
Appreciate what the person can do. Remember that difficulties the person may be facing may stem more from society's attitudes and barriers than from the disability itself.

Communicating - Talk directly to the person, not to an aide, friend, or interpreter. When talking with a person in a wheelchair for more than a few minutes sit down and converse at the same level. Offer to make basic information available in large print, Braille, electronic or audio formats.

- Relax. If you do not know what to do or say, allow the person who has a disability to help put you at ease.
- Do not assume anything. If you have a question about what to do, how to do it, what language or terminology to use, what assistance to offer, ask the person with the disability. That person should be your first and best resource.
- Talk about the disability if it comes up naturally, without prying. Let the person guide you. Be considerate of the extra time a person with a disability may need to say or do things. Let the person set the pace in walking or talking.
- Give whole, unhurried attention to the person who has difficulty speaking. Don't talk for the person, but give help when needed. Keep your manner encouraging rather than correcting. When necessary, ask questions that require short answers or a nod or shake of the head.
- Don't pretend to understand a person with a speech difference when you do not. Don't be afraid to let the person know that you do not understand. Be patient, not only with the person with the disability but also with yourself.
- Speak calmly, slowly, and distinctly to a person with a hearing problem or other difficulty understanding.
- Stand in front of the person, speak directly to the person, and use natural gestures to aid communication.
- When full understanding is doubtful, try writing notes.

Touching - Do not pat or touch a person with a disability unless there is a good reason (such as shaking hands in greeting or if the person has requested assistance).

- Gently touching a deaf person to get their attention is permissible.
- Do not touch someone’s cane, wheelchair or other device.

Environments - Provide wide & clear paths of travel for people who use wheelchairs or are blind.

- Be alert to architectural barriers. Inadequate lighting is difficult for those with hearing and sight problems.
- Be aware that some people may be sensitive to smoke, perfumes, or any other irritants that may be in the air.

Wheelchairs or mobility aides - Never push a wheelchair without first asking the occupant if you may do so. Do not move wheelchairs, crutches, or other mobility aids out of the reach of the owners.
Do not invade personal space by leaning on a wheelchair. Do not patronize a person in a wheelchair by patting them on the head.

**Service Animals** - A service animal is NOT required to have any special certification. Federal law protects the civil rights of persons with disabilities who are accompanied by their service animals in all public places.

Do not make noises at the service animal; it may distract the animal from doing its job. Never touch a service animal, or the person it assists, without permission. Do not pet or otherwise distract dog guides - they are working.

**ADA Checklist for Event Accessibility**

**Is this location/event accessible?**

Answer the following questions. If any answer is negative, or needs qualification, select a new location or make accommodations.

A detailed checklist for polling places, voting centers and public access is available from the U.S. Department of Justice website at [http://www.usdoj.gov/crt/ada/votingck.htm](http://www.usdoj.gov/crt/ada/votingck.htm)

**PARKING**

- The required number of parking spaces are designated as accessible with signs using the access logo. (See the checklist referenced above to determine requirements.)
- One out of every six accessible parking spaces is designed with an access aisle for van parking.
- The accessible parking is located as close as possible to the entrance.
- If accessible parking is not visible from the street, directional signs with the access logo are pointing the way.
- Voters can be dropped off at a curb cut providing adequate and direct access to the building.

**PATHWAYS**

- Paths are no less than 48 inches wide.
- The slope of the path is no more than one inch of rise for every 20 inches of run.
There is at least 80 inches of clearance over the pathway at all points.

All thresholds are no more than one-half inch for interior or three-quarters of an inch for exterior doors.

Carpets are no thicker than one-half inch.

If there are gratings in the walking surface, the grating is no more than one-half inch in width.

Directional signs are visible along the accessible route and at the entrance.

All doorways are at least 32 inches wide.

If the location requires movement between floors, an elevator access is in close proximity to the entrance and the training room.

All stairs are supplemented with ramps of no more than a 1-foot rise for every 20 feet of run.

BUILDING/TRAINING ROOM

Doors to building and rooms are designed with lever handles, automatic openers and room to move to the side.

Drinking fountains, telephones and other convenience facilities are designed for wheelchair users or those with mobility issues.

The restrooms include wide stalls and grab bars, and are in close proximity to the meeting room.

The room arrangement is such that all persons will be able to participate visually and physically.

The room can accommodate additional space requirements by those with mobility issues.

If computers are to be used, computer stations are designed to accommodate wheelchairs.

MEETING ANNOUNCEMENTS

Accommodations such as interpreters, handouts, and presentation copies are available in alternate formats.

There is a statement regarding availability of accommodations in all publicity for the meeting.

There is a statement that alternate formats are available upon request.

Election Administration Toolkit

Tools
Every election administrator should assemble a ‘toolkit’ consisting of items to keep the office running smoothly. Take time to assemble your ‘toolkit’ to include:

- Elections Contact Information
- Office Procedures (written)
- Policy & Training Resources
- Elections Tools
- Elections Forms & Templates
- Guidelines for implementing the Americans with Disabilities Act.

Office Procedures
Written procedures ensure consistency in completing a task, provide a timeline for processes, and give direction to new employees or for infrequent activities. Procedures also document compliance with state laws and office policy. Written procedures may include:

- Title with initials of author and date of last review.
- Brief statement of the purpose for the procedure.
- List of controlling statutes, rules, or policies.
- List of forms used in the procedure.
- List of records created during the process.
- Step by step instructions necessary to complete the procedure.
- Times and deadlines (including retention schedules)
- Actions to take in special circumstances, e.g. lack of compliance or an emergency.
- Position responsible for the completion of each task or procedure.

2.0 Pre-tabulation packing preparation (prior to Election Day tabulation)

- Test procedures with inexperienced staff.
- Adopt procedures only after testing.
- Review and update office procedures annually.
Contact Information
Gather your own quick reference guide or an updated set of Outlook contacts with the following:
- Vendors, political parties, county contacts
- VoteWA Support, C&T Support, and all OSOS Staff (see the VoteWA ‘Help’ tab)

Your Elections Community & Government Entities
One of our best tools and resource for elections is usually a phone call or email away. Do not be shy to contact your government partners to ensure elections are conducted well:
- Any County Auditor’s Office or Sec. of State official
- Local government sites, e.g. cities, ports, schools

Policy and Training Resources
Law, policy, and advisories are your first and ultimate authority and responsibility:
- RCWs & WACs
  - https://apps.leg.wa.gov/rcw/default.aspx?Cite=29A
- OSOS Webpages / Clearinghouse & Advisories

- Budgeting, Accounting and Reporting System (BARS) for (GAAP)> manual search “elections”

Election Tools
Election tools are driven by policy, not the other way around. They help you execute the law.
VoteWA

VoteWA is our statewide voter registration and election management system.

- Live Production Link: [https://admin.votewa.gov/](https://admin.votewa.gov/)
- QA or Practice Link: [https://qa-admin.votewa.gov/](https://qa-admin.votewa.gov/)
- VoteWA Manual and Videos: [https://osos.service-now.com/county](https://osos.service-now.com/county)

VoteWA includes:

- Increased access to election results
- Online voter registration
- Individual voter information
- Online ballot access
- Standardized voter education notices
- Online voter guides
- Archived election information
- Candidate Filing Management

Your Vendors and Tabulators

Your vendors and tabulation systems are a tool that you will need to ensure compliance with state law. Be sure to identify your vendors:

- Tabulator Manual
- Ballot Print Vendor & procedures
- Pamphlet Print Vendor & procedures
- US Post Office representatives (participate in daily election calls to speak with them consistently)

Additionally:

- Lexus Nexus (requires a license)
- DOL lookup (requires an account)
- Public Disclosure Commission (PDC)

Election and Voter Registration Costs

Elections cost money. Participating minor taxing jurisdictions pay their share of election costs. The state reimburses for its share of election costs only starting in July 2021. Some examples of recoverable expenditures are:

- Printing costs for ballots and envelopes.
- Postage for mailing outbound ballots and charges for undeliverable ballots.
- Staff time dedicated to the election.
- Annual maintenance for the tabulation system software and hardware.
- A portion of annual maintenance for VoteWA software and hardware.
Examples of voter registration costs:
- The voter registration system (VoteWA) maintenance.
- Printing or postage for required NVRA notices.
- Staff time dedicated to voter registration.
- A portion of annual maintenance for election management hardware.

Do not include expenses covered by federal and state grants.

Bill voter registration expenses to the county and cities/towns based on voter registration totals. The county is responsible for its share based on the number of voters in unincorporated areas.

**Tracking Expenses**
There are several methods for tracking expenditures:
- Using budget line items attached to warrants.
- Retaining copies of all invoices.
- Maintaining an itemized spreadsheet during the election.

You may use any combination of these methods to document your expenses. Track registration expenses separately from election costs.

Chapter 1, Section 5

Public Information and Record Requests

RCW 42.56

The Public Records Act determines if a document is a public record. Upon receipt of a public records request, you must provide any documents not exempted by the Act.

Information may consist of a number of formats including letters or memos, films, videos, photographs, audio recordings, symbols, discs, and emails.

State and local retention schedules determine how long documents and records must be retained. Retention schedules are found on the Secretary of State’s website under Archives.

Counties use two schedules:

- Records management assistance, current schedules, and information may be found at http://www.sos.wa.gov/archives/RecordsManagement/records_local.aspx.

Keep documents without a prescribed retention period indefinitely.

What You Need to Know About Public Information Requests

- Any member of the public may request a document.
- Provide records during normal business hours.
- Do not require a reason for a public records request.
- The law restricts the use of public lists for commercial purposes, but not the release of information.
- An agency must provide the fullest assistance to the requestor.
- Unless exempted, agencies must provide a record if it exists. This includes records held beyond the retention period.
- Fulfill the request in as short a period of time as possible.

Do not charge a fee for viewing or searching for documents. You can charge the actual cost for copying documents up to 15 cents per page or for scanning paper documents into electronic format provided you meet all conditions of WAC 44-14-070.

What should you do when you receive a public information or record request?
Respond no later than five business days after the request by:

- Providing the record,
- Notifying the requester with an estimate of when the document(s) will be provided, or

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________
• Seeking clarification of the request.
• Denying the request with an explanation why you cannot or will not comply.

Are there any exempt records?
The Public Records Act exempts records disclosure, such as:
• Personnel files that are closed.
• Ongoing investigations by law enforcement agencies.
• Preliminary drafts or notes expressing opinions or formulating policies.
• Create an exemption log that identifies denied records by date, author, title, and exemption statute and reason.
• Cybersecurity and physical security plans to prevent or mitigate threats to the office.
• Voter signatures, phone numbers, and email addresses on ballot return envelopes, declarations, and signature correction forms.
  o The requestor may inspect these records in person but may not take photographs or recordings.

A denial may lead to a lawsuit, so keep good records.
Elections Security

A critical part of election administration is security. Security comprises physical and cybersecurity. Physical security lays the foundation for cyber security. These protect against unauthorized access to elections physical locations and computerized systems.

Chapter 2, Section 1

Physical Security

RCW 29A.40, 29A.60

Physical security expands beyond the perimeter of the building and includes laptops and mobile devices.

Security Layers

**Physical Security**: refers to policies, procedures, and actions taken to protect voting systems, equipment, required documentation, ballots, and related facilities from natural hazards, tampering, vandalism, and theft from both internal and external sources.

**Secure Storage** employs physical security and the use of numbered seals and logs or other security measures that detect any inappropriate access to secured materials.

Multiple layers of safeguards create the most effective security. Evaluate the physical security and secure storage of your office by answering these five questions:

- How does the elections department restrict public access?
  - Digital Data, Tabulation Systems, Storage Areas, Processing Areas, Ballots in Custody?
- Do you have tamper-evident seals and logs always documenting who accessed ballots?
- Are your seals and logs appropriate for the application/environment?
- Who reviews the access log/documentation and how often?
- Have you conducted trainings on your security policies and procedures?

**Physical Security**

WAC 434-256-045

**Physical Security Examples**

- Electronic surveillance such as video
- Electronic keycard systems with automatic logs.
- Tabulator sign-in logs (not a seal)
• Other methods that detect and document access to secured materials.

Secure Storage of Ballot Images
Seals and logs must be used for the storage handling of ballots and tabulation systems.

• Seals
  o Uniquely numbered
  o Seals retained and logged when broken
  o Written procedures should stipulate how seals are to be installed, tested upon installation, and how to identify tampering before removal. Training should include identifying tampering on each type of seal that’s used.

• Logs
  o Chronological dates of application and removal
  o Seal number
  o Identifying information of persons attaching or removing seal
  o Documentation as to why a seal was removed after tabulation

What materials must be secured?

Ballots
The term “ballots” is not restricted to printed ballots. Ballots may mean:

• Any voted ballot.
• Scanned ballot images.
• Emails, including deleted emails, containing voted ballots.
• Tally documents.
• Data, such as mobile ballot boxes (MBBs, Zip Drives, USB drives, V-drives).
• Programmed tabulators.

Voted ballots and ballot images must be in secure storage except during:
• Initial and final processing.
• Duplication.
• Inspection by the Canvassing Board.

Following tabulation, seal ballots in containers that identify the primary or election. Only open containers sealed after tabulation for the following reasons:

- Canvass of ballots prior to certification.
- Recounts conducted per Canvassing Board directive.
- Manual audit per RCW 29A.60.170 (3).
- Order of the superior court.
- Consolidation into one container for storage purposes.

Be sure to document access. This can be included on the seal log. When the Canvassing Board opens a ballot container, include a full record of the additional tabulation or examination of ballots in the Canvassing Board documents.

Notify political parties and request observers whenever unsealing ballots.

**Voting Devices**
Preparation of a voting device for a primary or election should include:

- Complete test logs which indicate precincts tested.
- Sealing the device with a uniquely numbered seal.

**Ballot Deposit Sites**
During an election, keep ballot deposit boxes locked and sealed at all times. Document each time a box is sealed and/or a seal is broken. Two people, either employees or appointees of the County Auditor, must empty ballot deposit boxes together.

At exactly 8:00 p.m. on Election Day, all ballot boxes must either be:

- Emptied, or
- Secured with a numbered seal to prevent deposit of ballots after 8:00 p.m.
Transport ballots to the counting/processing center by either:

- At least two authorized people together, or
- One person with the ballots in containers secured with seals and logs.

**Ballot Tabulation Programming**

*Security measures apply to ballot tabulators.* Secure tabulation equipment (including AVUs), databases, and data. Limit access to authorized personnel only and document all access.

> Optical scan systems must follow an approved security plan when scanning before Election Day.

### Physical Security Best Practices

#### Seals
Seals are only as good as their use protocol. Written procedures should stipulate how seals are to be installed, tested upon installation, and how to identify tampering before removal. Training should include identifying tampering on each type of seal that’s used.

- Select a type of seal that is compatible with the application:
  - Sticker seals should generally be no residue or low residue stickers. Left over residue can impede tamper evidence if not cleaned before the new seal is applied. Sticker seals should be tested to resist common chemicals.
  - A low strength plastic pull tight seal should be reserved for indoor controlled environments. Plastic seals are susceptible to heat, cold and prolonged outdoor exposure. Being easily broken, these seals can be used to support a narrative of unsecure elections due to ease of removal.
  - A steel cable seal should be used when the container to be sealed is left outdoors or unattended. These seals are designed to resist exposure to the elements and add an increased barrier to entry. Tampering with these seals requires a much higher threshold of effort.
- When possible, employ seals and locks that meet or exceed current ISO (the International Organization for Standardization) 17712 standards. When applicable, manufacturers should be willing to provide certificates of compliance and test data to support their claims.
- It’s preferable, but not necessary, that the vendor for seals will sell only to governmental agencies and not the public.
- If video cameras are used, schedule regular checks to make sure they are operational.
- Implement two-person integrity policies when setting up a voting system. Never allow a vendor or employee uncontrolled access to equipment.
- Only authorized election staff should be allowed in the scanning and tabulation areas.
• Unless actively processing, ballots are always stored in a secured area with restricted access.
• Provide visitors with clear procedures when observing logic and accuracy tests, ballot processing, recounts, and other election activities. These procedures should include the use of employee monitored entrances and exits, a sign-in/sign-out log, and physical identifiers such as visitor name tags, badges, colored lanyards, etc.

**Locks**

• Door locks should be graded by the American National Standards Institute (ANSI) grade, with Grade 1 the most secure and Grade 3 the least. Grade 1 should be specified.
• When purchasing padlocks, utilize locks with CEN (Central European Norm) 4 or higher rating for high security.
• Practice adequate key control. The number of keys to access a secured area or to empty drop boxes should be kept to a minimum and all keys should be tracked. Audit keys and key holders regularly to assure all keys are accounted for. Similar protocols should be employed with badges.
• If video cameras are used, schedule regular checks to make sure they are operational and that there is sufficient video storage for the purpose of the review of footage.
• Implement two-person integrity policies when setting up a voting system. Never allow a vendor or employee uncontrolled access to equipment.
• Only authorized election staff should be allowed in the scanning and tabulation areas. Video cameras provide an extra layer of security.
• Review chain-of-custody procedures, the use of tamper-evident seals and inventory control/asset management processes.
• Unless actively processing, ballots are always stored in a secured area with restricted access.
• Provide visitors with clear procedures when observing logic and accuracy tests, ballot processing, recounts, and other election activities. These procedures should include the use of employee monitored entrances and exits, a sign-in/sign-out log, and physical identifiers such as visitor name tags, badges, colored lanyards, etc.
Chapter 2, Section 2

Cybersecurity

Cybersecurity is the practice of reducing the risk of cyber-attacks. Computers, mobile phones, servers, electronic systems, and networks are at risk for attack. Systems critical for election security include:

- IT infrastructure and systems used to manage elections.
- Voter registration databases and associated IT systems.
- Voting systems (tabulation equipment).
- Storage facilities for election and voting systems.
- Vendor Security.

Cybersecurity is important for everyone because digital products play a central role in our daily lives.

Core Security Principles

One of the basic principles of providing a secure system is to manage risk and protect sensitive information. The goal is to keep data private, unchanged, and available. This concept is known as the Confidentiality, Integrity, and Availability (C.I.A.) Triad. Each attempted cyber-attack seeks to violate one or more of the triangles attributes.

Confidentiality – Private information is kept private by preventing unauthorized access.

- Make sure that everyone and everything that accesses data verifies identity in some way. Methods include a password or PIN, smart card, or fingerprint.
- Permissions allow access to data only to authorized users and no one else.
- Encryption scrambles and conceals the data in a format where the only way you can see the data is if you have a key.
Integrity – Protecting data from unauthorized changes.

- Use specialized software that monitors for suspicious activity and notifies someone if there are unauthorized changes to data.
- Keep systems current and upgrade when necessary.

Availability – Ensuring data and services are available only to authorized users when needed.

- Tune network devices to monitor for Distributed Denial of Service attack.
- Keep systems current.
- Back up and store data in an offsite location.

> Just the appearance that system access was gained will cast doubt on an election’s integrity.

Social Engineering

Social engineering is when cybercriminals trick individuals into breaking normal security procedures and best practices to gain access into systems, networks, or physical locations.

Social engineering is accomplished in many ways (online, telephone, shoulder surfing, simple persuasion) and is one of the hardest attacks to protect against and is the most prevalent. It is dangerous because the malicious actor does not need any technical skills. Social engineering is effective because people are the weakest link.

There are several methods to launch a social engineering attack.

Phishing

Phishing is a social engineering tactic used to persuade individuals to provide sensitive information and/or take action through seemingly trustworthy communications. Phishing emails may attempt to appeal to a recipient’s fear, duty, obligation, or curiosity.

How to Identify a Potential Phishing Attack

Ways to recognize phishing emails include:

- Be aware of someone that wants too much information.
- Urgent action warning of major consequences.
- Spelling and grammar errors.
- Link to a website.
- Request for personal information.
- Pop-up ads.
Signs an attack could be in progress include:

- Computer is unresponsive.
- Drives or files are unavailable.
- Data files are transferring at a higher than normal rate.

**How to Avoid a Phishing Attack and How to Respond**

There may not be any indication of an attack at all. You can reduce the likelihood of an attack by:

- Not opening any attachments or following links included in emails unless you are sure it is safe. Consider contacting the sender via an out-of-band communication. For example, consider contacting the sender of a suspicious email by calling a known phone number.

If you think you are the victim of a phishing attack, take action immediately:

- Follow county procedures for reporting a potential phishing attack.
- Unplug the network cable.
- DO NOT turn off the computer.

**Distributed Denial of Service (DDoS)**

**Distributed Denial of Service** (DDoS) uses multiple compromised computers to overwhelm a network causing network traffic to stop, much like a traffic jam causing a gridlock on a highway. Computers are often infected through phishing attacks that trick the user into downloading malicious files.

**Ransomware**

**Ransomware** is an advanced form of malware that can encrypt all data saved on a computer. In order to unlock the data, a payment is demanded. In elections, cybercriminals seek not only monetary gain but to cast doubt on the democratic process and integrity of elections.

Ransomware uses social engineering tricks to exploit potential victims. Spam emails are a typical method to send out attacks to potential victims. They are designed to look like they are from a legitimate source. Once a user clicks a malicious link or attachment it is downloaded and installed on the computer. It then begins to encrypt data so only the hacker can reit.
Chapter 2, Section 3
Vendor Security

Attackers may attempt to bypass security in a state or county government facility by targeting a vendor first. For this reason, there is a need to address cyber threats associated with vendors and other third-parties that have trusted permissions. Evaluating a vendor’s security policies is a way to assure data security on their end and it helps to define what actions to take if a breach occurs.

Questions to ask vendors include:

- How do the vendors and their employees understand and practice security?
- How and where do they secure data?
- What is the vendor’s Disaster Recovery Plan?

An active and dedicated information security team can make a huge difference when things “hit the fan.”
Chapter 2, Section 4

Mobile Devices

Mobile devices have a huge impact on our day-to-day lives and the way we communicate with the world. We shop, communicate with friends, bank, play games, watch movies, and work. It is common for employees to use their smartphones to check emails, access shared drives, or to share information with others.

With smartphones used as an all-in-one computing device for work and personal use, they make an attractive target for cybercriminals. What people are targeting on a desktop, they are now targeting more on mobile devices.

“Mobile Device Security” refers to the measures taken to protect sensitive data stored on portable devices, such as smart phones and laptops. It prevents unauthorized users from using mobile devices to access your network.

Mobile Device Best Practices

Best practices for mobile devices include:

- Avoid public Wi-Fi. Often when connecting to Wi-Fi networks, the assumption is they are safe for use. However, hackers can easily access the network and steal data.
- Use strong passwords. Just as within the network, mobile devices should also require strong passwords.
- Use different passwords for all accounts, including email and social media.
- Do not download any unauthorized applications. Often the user believes the site is reputable, but instead it is a bogus app designed to look like it is genuine.
- Include mobile device security in training programs.
Chapter 3, Section 1

Voter Registration Services

RCW 29A.04.205

Our guiding principle: **State policy.** It is the policy of the state of Washington to encourage every eligible person to register to vote and to participate fully in all elections and to protect the integrity of the electoral process by providing equal access to the process while guarding against discrimination and fraud.

What constitutes discrimination or fraud?

RCW 29.84

- Refuse or neglect to perform any duty required by law.
- Intentionally deny any person eligible to vote the right to register.
- Knowingly alter, destroy, or discard a completed registration form.
- Knowingly destroy, mutilate, conceal, change, or alter any voter registration record except as authorized by voter registration law.
- Deliberately fail to return a registration form in a timely manner.
- Knowingly provide false information on a voter registration application.
- Offer to pay another person a fee per registration.
- Accept payment based on a fixed amount per registration.

**Penalty:** “A person who willfully violates any provision of this title regarding the conduct of all ballot primaries or elections is guilty of a class C felony punishable under RCW 9A.20.021.”

Who is eligible to vote?

Washington State Constitution, Article VI, Sections 1 & 3

An “elector” is any person qualified to vote. To register to vote, the person must meet these requirements:

- United States citizen.
- Legal resident of Washington State.
- 18 years old at time of voting. Voters may pre-register to vote starting at age 16. Voter pre-registrations are pending until they turn 18.
  - If a Future Voter is pre-registered to vote and will be 18 by the November General Election, they may vote for candidates in the August Primary Election.
Elections 101
Chapter 3, Section 1: Voter Registration Services

- Not currently serving a sentence of total confinement in prison under the jurisdiction of the Department of Corrections (DOC) for a Washington felony conviction.
- Not currently incarcerated for a federal or out-of-state felony conviction.

Is a voter’s registration information public?

RCW 29A.08.710

Following items are public information and available on request:
- Name
- Address
- Political jurisdiction (precinct/district)
- Gender
- Date of birth
- Voting record
- Date of registration
- Registration number

Following items are not available to the public:
- Source of registration (Dept. of Licensing, state agency, etc.)
- Declination of registration
- Phone number, email address
- Service or Overseas Status
- Anything else on the registration form that isn’t specified as public information
- All 16- and 17-year-old Future Voter registrants - personally identifiable information for individuals under the age of 18 are exempt from public inspection and copying.

Voter Registration Deadlines

Voters must register in order to participate in an election.

The date of receipt by any election office or the Secretary of State is the date of registration for mail-in applications.

Eight-Day Deadline

New applications, changes of address (transfers), name changes and voluntary cancellations that are submitted by mail, online, email, or fax must be received by any election office or the Secretary of State by the 8th day before an election.
Same-Day Voter Registration
After the 8-Day deadline, new applications, changes of address (transfers), name changes, and voluntary cancellations may be submitted in person at any County Auditor designated location until 8:00 p.m. on Election Day.

Exception – Service and Overseas Voters
If members of the armed forces (as defined by RCW 29A.04.163 as service voter) and overseas electors (defined in 29A.04.109) consider Washington State their last residence, new applicants are exempt from the in-person requirement and may submit their application remotely (online, email, fax) until 8:00 p.m. Election Day.

If they are already registered in Washington State, then current same day registration and 8-day deadlines apply.

This exception does not automatically apply to dependents and spouses of military and overseas voters.

Voter Applications

Acceptable Applications and Methods of Registration
- Washington State mail-in/paper form.
- Online voter registration (OLVR).
- Department of Licensing.
- Agency-based form.
- Health Benefit Exchange.
- In-person (registration drives, over the counter).
- Federal applications.

Required Information for New Applicants
- Name.
- Residential address.
- Date of birth.
- Affirmation of US citizenship.
- Signature attesting to truth of information provided on the form.

ID is not required information to register an applicant.

Processing a Completed Voter Registration Application
RCW 29.08, WAC 434-324

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
______________________________________________________________________________________
After confirming an application contains all five pieces of required information, register the voter:

- Enter the applicant’s information into VoteWA.
- If it is a paper form, scan it and save an image of the signature.
- Confirm VoteWA verified the state driver’s license, state ID, tribal ID, or Social Security Number. (When the ID is not confirmed or provided, register the voter provisionally.)
- Send an Acknowledgment Notice (voter ID card) to the voter within 60 days of receiving the application. See “Notices to Voters” section for more detailed information on Acknowledgment Notices.
Processing a Voter Registration Application that is Missing Information

RCW 29.08.110

When the application is missing one of 5 required pieces of information:

- Do not register the applicant.
- Send a Verification Notice to the applicant requesting the missing information.
- Hold the application until the missing required information is received or the deadline of **45 days** has passed.

Never send a Verification Notice to a voter that is already registered!

If the applicant responds within 45 days:

- Change the voter’s status to active in VoteWA and send an Acknowledgment Notice.
- The date of registration for the voter is the date the original application was received.

When an applicant fails to respond within 45 days, the applicant cannot be registered and the registration application is not valid.

The Verification Notice must **not** be used for requesting identification.

Is ID required to register a new voter?

WAC 434-324-045
No, ID is not a required piece of voter registration information.

When an application is missing ID, or the ID cannot be verified, the voter must be registered **provisionally** and issued a ballot.

- A provisional registration (temporary) is dependent on receiving ID eventually.
- All provisionally registered voters must receive ballots, however the ballots cannot be counted until the voter provides identification.

  *Except: Overseas and service voters are not required to provide ID when registering to vote. Meaning, they are never registered provisionally.*

**Identity Verification**

HAVA requires verification of ID through VoteWA. The ID numbers **requested** on the form are from the Department of Licensing (DOL) or Social Security (SSN).

If the voter does not provide a DOL or SSN number, or VoteWA is unable to verify the ID numbers provided, the County Auditor should follow these steps:

1. Provisionally register in VoteWA and flag the registration.
2. Use other government resources and public records to confirm the voter’s ID. If confirmed, remove provisional status from the registration.
3. If unable to verify using other sources, you may contact the voter by phone, email or other means. If the voter provides valid ID, remove provisional status from the registration.
4. If after these attempts you are unable to verify the voter’s identity, send an **ID Notice**.
5. When the voter provides ID, remove the provisional registration status and change to active.
6. The county elections department should cancel any provisional voter registration that has been consistently flagged as provisional through two federal elections.

**Alternative Forms of ID are Acceptable!**
- Valid photo ID.
- Valid tribal enrollment card of a recognized tribe in Washington.
- Current utility bill.
- Current bank statement.
- Current paycheck.
- Current government check.
- Any government document that shows the registrant's name and current address.

When a voter provides an alternate form of ID, save a notation or scan of the document source in the voter's registration record.

**Registering Service and Overseas Voters (UOCAVA)**
Citizens overseas or on active duty service are protected by the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA).

To qualify as a UOCAVA voter in our state, the voter must use their most recent residential address in Washington, or the most recent residential address in Washington of a family member.

An overseas voter, as defined in RCW 29A.04.109, is any elector of the state of Washington outside the territorial limits of the United States on Election Day.

Deadlines for new voter registrations do not apply to citizens overseas or active duty service electors, dependents, or spouses that are away from their residence due to an active duty assignment.

A service or overseas voter may register to vote by providing one of the following items:
- A voter registration application issued by Washington State.
- A federal post card application (FPCA) issued by the Federal Voting Assistance Program (FVAP).
- A federal write-in absentee ballot (FWAB) issued by FVAP.
- A national mail voter registration form issued by the Election Assistance Commission (EAC).
- A ballot (envelope) with a valid signature on the ballot declaration.

Deadlines for voter registration updates apply to currently registered UOCAVA voters.
**Processing Applications for Service and Overseas Voters**

If an application from a service or overseas elector lacks a Washington State address, contact the applicant to request the address of the applicant’s last known residence in Washington State. An address of a relative may be used if the applicant has never lived in the United States.

If there is insufficient time to obtain the missing registration information prior to an election, or the voter does not respond to your attempt to make contact, precinct the registration using the County Auditor’s Office address. Only offices that are countywide or in the courthouse Congressional District can be counted for the voter.

After the election or primary, if the voter does not provide a Washington address, the County Auditor must place the voter on inactive status and send a confirmation notice to obtain the voter’s correct residential address.

A service or overseas voter is not required to provide ID when registering. Service and overseas voters’ dependents are not included in the exemption and must provide valid identification.

Service and overseas voters must be offered the option of receiving ballots electronically or by postal mail. If the registration application does not indicate a choice, you must try to contact the voter. Send the ballot by mail if the voter has not responded by the UOCAVA ballot mail date.

Rules for processing service and overseas (UOCAVA) voter registrations and issuing ballots are located in the "Service and Overseas Voters" Clearinghouse.

**Registering an ACP Voter**

**RCW 40.24, WAC 434-840**

Address Confidentiality Program (ACP) voters must not be entered into VoteWA.

The Address Confidentiality Program protects victims of domestic violence, participants in the legal system, and election officials facing cyber harassment or stalking. Participants of the program may register to vote, but their registration and balloting information is strictly confidential. Their information must not be coded into VoteWA.

ACP participants must document they are in the program and a special voter registration form is used.

The County Auditor sends a ballot to the registered program participant at the mailing address provided. Neither the name nor the address of a participant is included on any list available for public disclosure.

Your office should have staff designated to accept and process these registrations as well as send and process the ballots.

16- & 17-year-olds may preregister as an ACP voter.
Registering a Future Voter

An applicant can preregister to vote as long as they are at least 16 years of age, a US citizen, and a Washington State resident. Preregistrations can be submitted by mail, online, or through the Department of Licensing. These registrations are pended as future voters until they are 18 years old for the next election.

Information on preregistered individuals is exempt from public disclosure and cannot be released or included on any official list of registered voters. To protect future voter personal information, do not send any correspondence or notices until the future becomes officially registered at 18 years of age.

Legislative changes to Future Voter qualifications to register and participate in primaries and file as a Precinct Committee Officer became effective in 2022 and 2023. See the "Voting Opportunities through Education Act (ESB 6313)" Clearinghouse for more details.

Notices to Voters

NVRA, HAVA, RCW 29A.08.030

Whenever a voter’s registration is accepted or updated in any way, the voter receives a notice. Applicants must be notified when an application is incomplete, a residence address appears to be incorrect, or an ID check fails. For these purposes, we use:

- Acknowledgment Notices
- Verification Notices
- Confirmation Notices
- Identification Notices

Which notice should I use?

Each type of notice serves a distinct purpose. To understand which notice to send, start with the application.

- Is required information missing?
- Did the ID check fail?
- Did you receive undeliverable mail or an undeliverable ballot from a registered voter?
- Did the voter update a name?

Each answer requires a different notice.

Acknowledgment Notice

When a voter registers, transfers (address change), changes their name, orreactivates an inactive registration, the County Auditor must mail a notice to the voter.
The County Auditor sends an **Acknowledgment Notice** whenever a voter is assigned to “active” status. It must be:
- Sent by first-class, non-forwardable mail.
- Mailed to the voter within 60 days of receipt of the application.

A voter registration card may serve as the Acknowledgment Notice. It must list:
- Voter’s full name.
- Mailing address.
- County name.
- Precinct name and/or number.
- Registration date.

The County Auditor may include additional information.

**Verification Notice**

A registration is not valid until it contains all five of the required pieces of information, (see Chapter 3, p. 7).

Before contacting the voter with an official notice, try to locate the missing information through the following methods first:

- **Exceptions: a signature or a mark confirming citizenship.**
  - A government resource such as LexisNexis, DOL, etc.
  - A public resource.
  - Phone or email the applicant.

A **Verification Notice** must be sent when the form is missing a signature, a citizenship affirmation, or when you’re unable to obtain missing information any other way. The purpose of the notice is to obtain the missing piece of information and to notify the applicant that a **45-day deadline** exists in which the application is viable. The notice must:
- Be sent by forwardable mail.
- Include a postage paid, preaddressed return form/envelope.
- Notify the applicant that they must respond within 45 days or the application is void.

Request missing information only. Applicants are not obliged to provide required information more than once. The Verification Notice must only ask for the information missing from the original registration application.

**Confirmation Notice**

The County Auditor inactivates a voter and sends a **Confirmation Notice** whenever a piece of official election mail from the County Auditor is returned by the postal service as undeliverable.
or with an address outside of the county. For addresses inside the county, transfer the voter’s registration the new address.

The Confirmation Notice provides the voter an opportunity to update their address.

Required elements:
- Request voter to verify their current residential address.
- Request voter sign the oath in RCW 29A.08.230.
- Include either the voter’s date of birth or state voter ID number.
- Inform voter that if they fail to confirm or update the address with the County Auditor, or does not vote (remains on inactive status) within two federal general elections, the registration will be cancelled.
- Mailed as first class, forwardable mail.
- A postage paid, preaddressed return form/envelope.
- Mailed to the address of registration and each address where the voter could reasonably expect to receive mail.

When the voter responds, a Confirmation Notice may update a voter’s address within the county, or transfer the voter’s registration to another county in Washington State.

**Identification Notice**
The County Auditor sends an **Identification Notice** when a voter is registered provisionally. This occurs when ID is not provided with the application or the ID provided could not be verified.

Before sending an official Identification Notice, the County Auditor may attempt to obtain ID information by contacting the voter or utilizing other government sources (i.e. DOL records, LexisNexis, etc.).

If after these attempts, you are still unable to verify the provisionally registered voter’s ID, send the Identification Notice prescribed in WAC 434-250-045.

**Voter Registration Status**

A voter’s registration status falls into one of the following categories:
- **Active** – Voter is fully qualified to vote.
- **Provisionally Registered** – The voter is registered and issued a ballot, but must provide ID prior to the ballot being counted.
- **Pending** – The record is processing or an issue must be resolved.
- **Inactive** – When notification is received from the USPS, Dept. of Licensing, or other designated agency that a voter has moved out of county or out of state, or when election mail sent to the voter is returned undeliverable.
**Active and Inactive Status**

The default status for voters is **active** – meaning, they are eligible to vote.

**A voter’s status changes from active to inactive when:**

- USPS provides an out-of-county change of address.
- Any undeliverable document mailed by the County Auditor is returned by the postal service without address correction information.
- Any official state agency that registers voters reports an out-of-state address for an active voter. This includes information from the USPS, Department of Licensing and Department of Human Services.

In these cases, send a Confirmation Notice.
Elections 101
Chapter 3, Section 1: Voter Registration Services

Inactive Status

Send Confirmation Notice to voter’s registration address and other possible addresses.

Active Status

USPS provides change of address

USPS returns as undeliverable official mail sent by Auditor to voter
(jury summons is no longer included in this category)

Department of Licensing, or any other state agency providing voter registration services, indicates voter has moved out of Washington

Update voter registration

In county

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
______________________________________________________________________________
Reactivate a voter by changing the status from inactive to active when the voter:

- Attempts to vote.
- Requests a mail ballot.
- Updates registration information.
- Responds to a Confirmation Notice by providing a residence address located within the same county.

Unless specified by law, only the number of active registered voters determine qualifying numbers such as voter turnout or the number of votes needed to validate (see Chapter 6 section 2).
When the Inactive Voter Responds to a Confirmation Notice
When an inactive voter responds to the notice by providing a residential address within the county or confirms the current address is correct, update the voter’s address and status to active.

When an inactive voter responds to the notice by providing a residential address outside of the county, but within Washington, the voter’s status remains inactive:
- The former county of residence does not cancel the registration; and
- Should immediately forward the notice to the new county.

The new county confirms the transfer and activates the voter.

For detailed requirements and procedures, see the Clearinghouse “Voter Registration Transfers”.

When the Inactive Voter Doesn’t Respond to the Confirmation Notice
The County Auditor must wait for the inactive voter to take any of the following actions:
- Voter attempts to vote - change status to active.
- Voter confirms the address or provides a new residential address within the state - follow procedures for transfers.
- Voter makes no contact through two federal elections - cancel registration.

VoteWA Statewide Voter Registration System

The official record of each voter resides in the VoteWA statewide voter registration and election management system. Each county is connected to VoteWA.

Voters move, change their name, register, pass away, or become ineligible to vote daily. Voter registration data is fluid, not static. For this reason, VoteWA is a dynamic system and requires daily review by counties.
VoteWA Voter Registration Data Entry
Voter registration data entered into VoteWA:
- New voter registrations
- Updates to existing voter registration information
- Cancellations

Online Voter Registration and Address Corrections
Online voter registration and motor voter registrations depend on the Department of Licensing (DOL) for all required voter information, including the signature of the voter.

Process online registrations the same as other types of voter registration.
VoteWA Data Integrity Processes
WAC 434-324-045

VoteWA reduces opportunities for fraud and mistakes by conducting periodic data integrity checks. The integrity checks identify potential issues. The county then researches and resolves each of the flagged records.

- **Validate Voter ID**: For new registrations, VoteWA must validate DOL ID, state ID, or Social Security numbers with the issuing agency. If the ID verification fails, the voter record must be assigned a status of provisionally registered, pending verifiable ID. County Auditors may verify voter ID using other governmental information or the acceptable documents listed in WAC 434-250-045.

- **Duplicate Voter Search**: VoteWA constantly runs duplicate record checks to identify possible duplicate records, including voters transferring between counties. Review and resolve duplicate and transfer reports daily and whenever new registrant information is added.

- **Cancellations**: VoteWA compares lists of deceased voters with the Department of Health, and Social Security Death Index. The county must research those matches for potential cancellations.

- **Felony Screening and VoteWA**: The Secretary of State handles the cancellation of all felons through VoteWA and the Washington State Department of Corrections. For more information, see the “Restoration of Voting Rights After Felony Conviction” clearinghouse. If you receive notification of a felony conviction, contact the Secretary of State’s Office (OSOS). Voters with felony convictions should not be cancelled at the county level.

Daily VoteWA Data Maintenance
Counties must resolve data integrity tasks noted on their VoteWA dashboard.

Daily maintenance should include the review and resolution of daily dashboard tasks.

See the VoteWA User Guide for more complete information.

Maintenance of Voter Records

*How does a voter transfer within the same county?*
To transfer (change residence address) **within the county**, the voter may:

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
• Update their address by contacting the County Auditor in writing, in person, by phone, or by email.
• Submit an update through VoteWA online portal, DOL, Health Benefit Exchange, or designated agencies.
• Submit a voter registration application.
• Respond to a Confirmation Notice with a new address within the county.
• The US Postal Service provides a new address within the county.

How does a voter transfer to another county?
To transfer into a new county, the voter may:
• Submit a new paper registration application.
• Submit an update through VoteWA online portal, DOL, Health Benefit Exchange, or designated agencies.
• Respond to a signed Confirmation Notice that will be forwarded by the former county to the new county of registration.

The County Auditor of the new county will use VoteWA to verify whether the registration is a transfer.

For county-to-county transfers, a voter is only required to provide the minimum information necessary to complete the transfer:
• Name.
• Residential address.
• Signature to the oath in RCW 29A.08.230.
• Either the voter’s DOB or voter ID number.

Affirmation of citizenship is not required.

The County Auditor must not transfer a voter out of another county without first obtaining the minimum information listed above. If the minimum information is not supplied, correspondence may be sent to the voter to obtain it, but the voter’s registration record in the current county shall not be flagged or pended in such a way that will trigger a void/cancellation after 45 days.

For detailed procedures regarding Confirmation Notices and transfers, refer to the “Voter Registration Transfers” Clearinghouse.

What if a voter requests a name change?
Voters must provide the following information to the County Auditor in writing (written note, voter registration application, etc.):
• Name on current registration
• New name
• Residence

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________
• New signature

A signed ballot envelope or a Confirmation Notice containing all the required elements is acceptable for updating a voter’s name. Retain a copy of the envelope or notice for updating the record in VoteWA.

Cancelling Voters

**What cancels a voter’s registration record?**

**Active and inactive voter registrations:**

- A signed request for cancellation from the voter.
- A completed transfer out of your county.
- Duplicate records in VoteWA.
- Successful challenge to a voter’s registration.
- Notification of death from the registrar of vital statistics, Social Security Administration, or published obituary information.
- Notification of death with signature from another registered voter.
- OSOS receives information from the Department of Corrections (DOC).
- Incapacitation or Guardianship.

**Inactive voter registrations only:**

- Failure to vote or confirm registration address for a period of two federal general elections.

**Cancellation Due to Felony Conviction**

**RCW 29A.08.520**

OSOS compares records in VoteWA with records from the Department of Corrections. The OSOS places the voter on a “pending – potential felon” status and sends a letter to the voter. The voter has 30 days from the date of the letter to respond before the registration is cancelled by the OSOS.

**How are voting rights restored?**

**RCW 29A.08.520**

For the purposes of this section, a person is under the authority of the DOC if the person is serving a sentence of total confinement in the custody of the DOC.

Voting rights are automatically restored whenever that person is no longer under the authority of the DOC. The person with a felony conviction must register to vote after leaving total confinement to receive ballots again.
Chapter 3, Section 2

Precincts and District Boundaries

RCW 29A.16

Precinct Boundary Rules

Each precinct must be entirely within a single:

- Congressional district
- State legislative district
- County legislative district
- City

Physically, a precinct must (as nearly as practicable) be:

- Contiguous or “touching” -- A single precinct may not be made up of separate parts.
- Compact -- For instance, precincts should not be long, narrow, or have parts that significantly extend beyond the main precinct body.

Use visible physical features to describe precinct boundaries such as:

- Streets
- Power lines
- Bodies of water
- Ridges

Exceptions:
- City/town boundary lines
- Use of physical features would substantially impair election administration in the involved area.

Precincts cannot exceed 1,500 active registered voters.

The county legislative authority may establish a different limitation, but it must be less than the maximum established by state law.

Making Changes to Precinct Boundaries

The county legislative authority adopts precinct lines (unless otherwise stated in a county charter).

Precinct line changes must follow certain rules:
• Changes cannot be made starting 14 days before candidate filing through the General Election.
• Permanent changes may be adopted as long as sufficient time exists to make the changes.
• Temporary precinct changes may accommodate a city or town annexation.
• Cities and towns may annex at any time. If the annexation affects an election, the voters are eligible to vote in the city or town election even if the annexation is just a few days before Election Day.

Redistricting
RCW 29A.76

Redistricting apportions congressional, legislative, and internal director/commissioner districts’ population based on the US Census. This happens at least every 10 years to guarantee equal representation and starts the year after the US Census is taken. The county legislative authority must adopt new precinct lines to comply with the State Redistricting plan and the county commissioner or council internal district boundaries.
**Chapter 4, Section 1**

**When are elections held?**

RCW 29A.04, 29A.52

**Types of Elections**

*State Primary*

Held the first Tuesday in August.

A Primary reduces the number of candidates in a race to two for the General Election ballot. Voters may vote for any candidate in a race.

*Nonpartisan* races *skip* the Primary to appear only on the General Election ballot:

- When it is a cemetery district or a park and recreation district.
- When fewer than three candidates file for office. This applies to all nonpartisan positions, including Superintendent of Public Instruction and judicial offices.

Partisan races have a Primary regardless of the number of candidates filed unless the office is an unexpired county race.

*General Election*

Held the first Tuesday after the first Monday in November.

A General Election is an election scheduled on a fixed date at regular intervals for a specific purpose, such as electing the officers for any of these jurisdiction types. General Elections include:

- Federal offices
- State offices
- County offices
- Municipalities
- Special purpose districts (School, Fire, Water, etc.)

If a voter must own land to participate in a district election there may be a different election date. Refer to the RCW title specific to the jurisdiction.

*Special Election*

Issues or races not regularly scheduled may appear on a special election ballot. There are four dates available for special elections.

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________________________________________
_________________________________________________________
When are elections held?

- February - 2nd Tuesday
- April - 4th Tuesday
- August (Primary) - 1st Tuesday
- November (General) - 1st Tuesday after 1st Monday

Issues concerning levies, bonds, levy lid lifts, annexations, changes in government structure, and even advisory issues may appear on the ballot on any of these dates.

What triggers a special election?

A county or district submits a resolution or measure to the County Auditor by the deadline specific to the election. District law may have different deadlines. Refer to the specific district RCW title.

- Spring special elections - 60 days prior to the election date.
- August Primary - Friday before regular candidate filing.
- November General Election - the day of the preceding Primary.

Special Circumstance Elections

RCW 29A.56

Presidential Primary - The Presidential Primary is held on the 2nd Tuesday of March. The law permits selection of an alternate date.

Recall Election - Respond to all requests for information on recalling elected officials by providing copies of RCW 29A.56.110 through RCW 29A.56.270. Notify the Secretary of State whenever your office files a recall charge.
Chapter 4, Section 2

What is on the ballot?

The races and measures that appear on the ballot are determined by:

- The type of election
- The year of the election
- The type of office
- The term of office
- The number of candidates in a race
- Jurisdiction resolutions requesting measures (issues) appear on a ballot

Election Types

RCW 29A.36, 29A.52; WAC 434-230

Each election type serves a different purpose. The races & issues on the ballot will vary.

*The following races skip the Primary: Park & recreational, cemetery, some judicial districts, any unexpired county partisan race with one candidate and PCO with fewer than two candidates.

Internal districts representing a geographical sub-district (often defined as “District No.”) may require different Primary ballots within that jurisdiction. Refer to a jurisdiction’s statutes to learn more.

Judicial offices may have different rules. Always refer to the chart Judicial Offices in Washington State located online and within the “Candidates” section below.

Presidential Primary Ballots
RCW 29A.56

The Presidential Primary does not determine the actual Presidential candidates appearing on the General Election ballot. It operates under different rules than the state top-two Primary.

- A political party may choose to use, or not use, the results of the Presidential Primary to determine the delegates sent to the national conventions.
- Only major political parties may participate.
- The voter is required to declare a major political party by signing an oath.

Elections Requiring Property Ownership

Some special purpose district elections require voters to own property in the district. Diking, drainage, and flood control districts are such district types. When conducting a General Election for these districts, always refer to that jurisdiction’s statutes.

Election Year
RCW 29A.04, 29A.52, 29A.80

The year of an election determines the jurisdictions participating. For example, U.S. President and Vice President appear only on the General Election ballot every four years. Charter counties may adopt different schedules for county or special purpose elections.
# Year of Election

## Scheduled jurisdictions

### Odd Year
- City, town and special purpose districts
- Vacant partisan offices
- Vacant judicial offices (other than district court)
- Regularly scheduled charter county and judicial offices

### Even Year
- Federal & state offices
- Judicial offices
- Partisan county offices
- Public Utility Districts (PUD)

## Primary

### Odd Year
- Nonpartisan offices (except cemetery & park) w/ 3 or more candidates
- Partisan offices except unexpired term county offices with a single candidate
- Judges — use Judicial Offices in Washington State chart
- Local measures

### Even Year
- Partisan offices — all races
- Nonpartisan offices w/ 3 or more candidates
- Judges — use Judicial Offices in Washington State chart
- Local measures
- PCO w/ 2 or more candidates in major party race

## General Election

### Odd Year
- The top two vote-getters from the Primary
- Any races skipping the Primary
- State initiatives and referenda (provided by the Secretary of State’s Office)
- Judges — use Judicial Offices in Washington State chart
- Local measures

### Even Year
- The top two vote-getters from the Primary
- Any races skipping the Primary (except PCO)
- State initiatives and referenda (provided by the Secretary of State’s Office)
- Judges — use Judicial Offices in Washington State chart
- Local measures
- Presidential nominees

**Office Types**

**RCW 29A.04**

**Classifications of Elective Service**

Two classifications apply to elective offices.

---

**NOTES:**
Partisan – Any public office where a candidate may indicate political party preference on the ballot. State executive officials, federal senators and representatives, state senators and representatives, and most county officials hold partisan offices.

Candidates may indicate a party preference when filing, but this declaration is not a political party affiliation. Candidates are not nominees of that party.

President/Vice President and precinct committee officers affiliate with political parties. These candidates have the party affiliation printed on the ballot.

Nonpartisan – Any public office where a candidate does not indicate political party preference on the ballot. Includes the State Superintendent of Public Instruction, justices and judges, cities, towns, special purpose districts (school, fire, water, etc.) and some charter county officials.

Designation of an office as partisan or nonpartisan will determine when, or if, an office appears on the ballot. Remember, whenever considering judicial offices for the ballot; refer to the chart Judicial Offices in Washington State, available on the OSOS website and at the end of this section.

Office Terms
RCW 29A.24

The term of office describes the length of time an elected official will serve.

Regular Term – Also described as full term.

○ For most offices, the regular term is two, four or six years.

○ The length of regular terms does not need to be printed on the ballot.

○ Winners assume the office at the official beginning of the new term which is usually:
  • Second Monday in January for state offices.
  • January 1 for other elected officials unless determined by statute or charter.

Unexpired Term – A vacancy occurring more than one year before candidate filing for the regularly scheduled election.

○ An appointee may temporarily fill the vacancy.

○ Unexpired terms are at least one year in length. If the unexpired term is less than one year, the unexpired term is considered a short term.

○ It is required to list the length of the unexpired term on the ballot.

○ Winners assume office immediately following certification of the General Election.
PCOs do not have elections for unexpired or short terms. All vacancies are filled by party appointment, not by election.

Short Term – The brief period starting upon certification of the General Election and ending with the start of the next full term. (Short terms last about one month.) By definition, an appointee should be filling the office or the office is vacant at the time of candidate filing.

- A short term appears on the ballot in conjunction with a full term and is printed on the ballot as a single phrase (short and full term).
- The winning candidate fills both the short term and regular term. The same candidate swears to an oath and takes office immediately after certification of the General Election and again when the regular term begins.

School directors never have a short-term position. All school director regular terms begin as soon as the election is certified.

Candidates
RCW 29A.04, 29A.24

The number of candidates filing for an office may determine if a race appears on the Primary ballot, the General Election ballot, or skips to the next scheduled election (see “Election Year” in this section).

¹ RCW 29A.52.220
² RCW 29A.36.170
³ Article IV, Section 29 Note: When applied to multi-county jurisdictions, all counties in the jurisdiction must meet the population threshold.

An election to fill a vacancy in District Court may not occur in an odd-numbered year, per AGLO 1973 No. 76 and RCW 29A.04.321(1).

Measures
RCW 29A.24, 29A.36
A measure on the ballot requires a **ballot title**. Ballot titles include the name of the jurisdiction asking the question, a concise description of the measure, and a question. Upon accepting a resolution, request a ballot title from one of the following:

- The city attorney, if a city or town passed the resolution.
- The county Prosecuting Attorney for all other local jurisdictions.

**i**  *When sending the resolution to your Prosecuting Attorney, set a deadline for receiving a ballot title.*

After receiving the ballot title, you must send a copy to the jurisdiction for review even if there were no changes to the title submitted with the resolution. The jurisdiction has 10 working days to appeal to the Superior Court.
Chapter 4, Section 3

Candidate Filing

RCW 29A.24, WAC 434-215

In order to appear on a ballot, candidates must file an official declaration of candidacy with the designated filing officer. Filing officers may only accept declarations of candidacy during specific periods.

Pre-filing Considerations

Public Disclosure Commission

RCW 42.17A

The Public Disclosure Commission (PDC) monitors state and local candidate campaign financing, financial compliance with state law, and political advertising. Candidates running for US Congress or President/Vice President report directly to the Federal Election Commission (FEC).

County election administrators must notify the PDC of the following information:

- The names of incumbents and the number of registered voters in each jurisdiction based on the last General Election. The PDC requests counties provide this information each January.
- Names of all candidates filing for, or withdrawing from, the ballot/election. (Filings for cemetery districts and districts where voters must meet special qualifications such as ownership of land are exempt.)

The Secretary of State’s Office will use information in the VoteWA system to notify the PDC of candidate filings and withdrawals. Ensure complete and timely data entry into VoteWA.

PDC Reports

The County Auditor must retain any copies of PDC reports provided by candidates according to the Local Government Retention Schedule.

PDC contact information: www.pdc.wa.gov or (360) 753-1111.

Candidate Packets

The PDC provides candidate packets electronically and online. Printed forms are available if requested by the County Auditor around January first of each year.

___________________________________________________________________
Lists of Offices Open for Election

Information from Jurisdictions
Prior to February 1, the County Auditor sends a questionnaire to each local jurisdiction scheduled to elect officers in the next General Election. The questionnaire confirms information regarding open offices. At a minimum, jurisdictions need to confirm:

- The offices open for the General Election of that year, including vacancies.
- The names of incumbents currently in those offices, including appointees.
- The annual salary for each office at the time of candidate filing.

Additional information may be included.

The questionnaire should request response from jurisdictions prior to March 1.

Political parties are not considered jurisdictions.

Offices Open for Filing
Prepare a list of offices sorted by jurisdiction. This list must include office positions or district designations and filing fees. Post the list online or distribute to the public at least two weeks before candidate filing.

Offices open for filing during the regular filing period:

- An office regularly scheduled for the ballot that year.
- A vacancy open prior to the first day of candidate filing and the jurisdiction notifies the County Auditor of the vacancy prior to the last three days of candidate filing.

Refer to Special Three-day Filing Period in this section (pg. 15) to learn about voids and vacancies.

Filing Fees and Filing Fee Petitions
Some offices require a filing fee. The salary at the time of filing determines the filing fee for an office. Salary does not include compensation based on meetings attended or expenditures covered as per diem.

A candidate lacking sufficient funds to pay a fee at the time of filing may submit a filing fee petition with the declaration of candidacy.

A sufficient filing fee petition must have one valid signature of a registered voter in the jurisdiction for each dollar of the filing fee. The filing officer is responsible for checking each petition signature against the voter registration signature. A signature is not required for portions less than one dollar. Do not round the amount up or down.

<tr>

</tr>
</tbody>
</table>

Example: The filing fee is $406.98, so the petition must have 406 valid signatures of voters registered within the jurisdiction of the office.

**May I accept a combination of money and signatures?**
No. The candidate either pays the full filing fee or submits a petition with the required signatures. Candidates filing with a filing fee petition may not file online.

**May I accept a copy of petition signatures?**
Petitioners must submit the original signatures.

**May a candidate bring in more signatures after submitting a declaration?**
The candidate must submit all signatures at the time of filing the declaration of candidacy. Do not accept signatures later.

**Who may sign the filing fee petition for candidates of an internal nominating district?**
If voters of the entire jurisdiction are allowed to vote on the position in the General Election, any voter in the jurisdiction may sign the filing fee petition. For example, port commissioner races are restricted in the Primary to voters of the internal district, but all voters of the port district may sign the petition (no voter may sign two petitions for the same office).

**Where to File**

*Office of the Secretary of State (OSOS)*
Candidates file with the Office of the Secretary of State for:
- Federal offices
- Statewide offices
- Supreme Court Justices
- Multi-county State positions
- State Senators
- State Representatives
- Court of Appeals Judges
- Superior Court Judges

**County Auditor**
All other offices not filing with the Secretary of State file with the appropriate County Auditor. These offices include but are not limited to:
- State offices and districts that are entirely within a single county.
- City and town elected offices.
- Minor taxing district offices.

In multi-county districts (joint districts) other than school districts, the county with the most registered voters is the filing officer. The superintendent of public instruction designates the county filing officer for all shared school districts.

**When to File**

**Regular Filing Week**
The filing office must be open all five days of candidate filing week, even if Friday is not a normal business day. Candidate filing:
- Begins Monday, two weeks before Memorial Day.
- Ends at the close of business the following Friday.
- Filing offices maintain regular business hours.

**Special Three-Day Filing Periods**

What happens if no one files for an office during the regular filing period?
Provide a second opportunity for that office by opening a three-day special filing period if:
Elections 101
Chapter 4, Section 3: Candidate Filing

- A void in candidacy occurs. A void happens if no one has filed for an office after the end of the official filing period.

- A vacancy occurs prior to the first day of regular filing week but was not open for filing during regular candidate filing.

The County Auditor determines when to open a special three-day filing.

PCO vacancies do not trigger a special three-day filing period. The parties are responsible for filling any PCO vacancies.

What happens if an office has no candidates after the regular and special filing periods?
The office lapses and skips the current year’s ballot. These vacancies appear in the next election scheduled for that type of office as an “unexpired” or “short term.” The incumbent stays in office until then.

For detailed information on managing voids and vacancies, refer to the Clearinghouse, “Filing for Office.”

How to File

Candidates may file a Declaration of Candidacy in person, by mail, electronically, or online.

Deadlines and rules apply to regular filing and special filing periods. A declaration received after the filing period has closed must be denied.

In Person
A candidate may submit an official Declaration of Candidacy form in person or by messenger. Candidates should fill out their own declaration forms, refrain from doing it for them.

By Mail
By mail means delivery through the US Postal Service or other commercial mailing service.

- Declarations submitted electronically (fax, email) are not considered by mail.
- Do not accept declaration forms earlier than 10 business days before the first day of filing week.
- Wait until the first day of the filing period to process and publicize mailed declarations.

The Elections Division must receive declaration forms no later than the end of the last day of candidate filing. Delivery to another department in the county or state does not qualify as valid delivery.
Electronic (Fax, Email)
RCW 29A.24.255
With the exception of filing fee petitioners, candidates may submit declarations of candidacy electronically. The filing officer should accept faxed or emailed declaration forms during the filing period.

- The same deadlines apply.
- If payment of a fee is required, electronic filing is not complete until receipt of the fee.

Online Filing
The VoteWA online candidate filing function is available to all counties for all races. Post a link on your county website for candidate access.

All online filing systems must be available 24 hours a day.

- Online filing begins exactly at 9:00 AM on the first day of filing and ends precisely at 4:00 p.m. on the day filing closes.
- Online candidate filings must be reviewed and approved prior to publication on your website.
- Candidates filing online must pay any applicable filing fee before the filing is complete.

Special Three-Day Filings
Apply the regular filing period rules and methods when conducting special three-day filing periods.

Special Considerations

Special Purpose Districts
Districts requiring land ownership may conduct candidate filing according to that jurisdiction’s laws and it may occur at a different time of the year. The district may also require use of a different candidate declaration form and have different qualifications. Always refer to the specific RCW Titles and Sections for that jurisdiction first, before following RCW 29A.

Precinct Committee Officers (PCOs)
RCW 29A.80, WAC 434-230
Precinct Committee Officers (PCOs) are political party positions voted upon and elected in the Primary of every even-numbered year. Candidates compete against other candidates of the same political party within a single precinct.
• Each major political party has an elected position in every precinct. Minor political parties do not have elected precinct committee officers.
• If a single candidate files for a PCO position in a precinct, the candidate is considered elected. The position does not appear on the ballot.
• If no candidates file for a PCO position in a precinct, the party fills the position by appointment.
• PCOs may not submit a Voters’ Pamphlet profile and do not appear in pamphlets.
• Write-in candidates are not permitted for PCO races.

Do not open a special filing period for voided or vacated PCO positions.

Filing Procedures
WAC 434-208, 434-230

At the time of filing, a candidate must be:
• Registered to vote in the district of the office, and any applicable internal district. You must confirm the candidate’s voting residence lies within the jurisdiction and internal district, if applicable, of the office prior to approving the declaration.
• Qualified to serve if elected. It is the responsibility of the candidate to know if they have all the qualifications required for the office (e.g., residency). The County Auditor does not determine if the candidate is qualified.

Prospective candidates may register to vote or transfer at any time prior to filing.

1 Remember to confirm internal taxing district boundary lines with the taxing districts prior to filing week.

17 year-olds (Primary-Only Voters) are eligible to participate solely in races subject to the primary process for winnowing candidates to a final list of two. They cannot vote for PCOs.

Processing a Declaration
For each declaration, you need to:
• Verify the receipt of the filing is within the filing period, particularly if the candidate files online, electronically or by mail.
• Confirm the applicant is currently a registered voter within the jurisdiction of the office. The information on the declaration must match the information on the voter registration. If the candidate has moved, transfer the candidate before accepting the declaration.
• If the office requires a candidate registration in an internal sub-district (e.g., county commissioner district or school director district) you must verify this also. Possible resources: maps, assessor’s lookup system or other county graphic information system.
• If necessary, accept and receipt the filing fee.
• Make any notations on the declaration required by your office procedures.
• Notify the candidate of the deadline for withdrawing from the ballot and that filing fees are not refundable.

Send candidate declaration information for legislative, court of appeals, and superior court candidates electronically to the Secretary of State and the PDC the same day the declaration is accepted. This is accomplished by entering the information into VoteWA.

**Party Preference**
Candidates for partisan office, other than US President/Vice President and PCO, may indicate a party preference. This is the candidate’s preference and does not indicate if the candidate is endorsed by or affiliated with that political party.

• If no choice is indicated, apply the default phrase “states no party preference” to the candidate’s ballot information.
• Except as described in WAC 434-215-120, there are no restrictions to the name of a political party.
• If a candidate indicates both a party preference and “states no party preference,” use the party preference written in.

President/Vice President and PCOs must declare a party affiliation.

• Political supporters nominate candidates for US President/Vice President using a convention process. These candidates affiliate with a political party or convention. In this case, party preference language is not used.
• PCO, a political party office, requires candidates indicate political party affiliation when filing. Party preference language is not used.
• Exception: While nominated by convention, independent Presidential candidates do not affiliate with a political party.

**Write-in Candidates**

*Declared Write-in Candidates*
Any qualified person may become a declared write-in candidate by filing a Declaration of Write-in Candidacy with the appropriate filing officer.

Write-in candidates must file a declaration to have votes tallied for a race. They may file a declaration of candidacy form up until 8:00 p.m. on Election Day.

Write-in candidates that file more than 18 days before an election do not pay a filing fee. Those that file 18 days or less before an election must pay a filing fee. For offices with a fixed annual salary of more than $1,000, the filing fee is 1% of the annual salary. For offices with a fixed annual
salary of $1,000 or less, the filing fee is $25. Candidates for offices without a fixed annual salary must also pay the $25 filing fee, including those paid on per diem or per meeting basis.

Declared write-in candidates may submit a filing fee petition in lieu of the filing fee.

**Who may not file as a write-in candidate?**

RCW 29A.24.311

Do not accept a write-in declaration when:

- The candidate has already filed for another position on the ballot.
  - **Exception: office of precinct committee officer, charter review board member, or freeholder.**
  - The candidate filed as a regular candidate or a declared write-in candidate for the same office in the Primary. This candidate may file a write-in declaration for a different office in the General.

**Undeclared Write-in Candidates**

Voters may cast votes for a person simply by writing in the name on the ballot; however, votes for these names will not be tallied without a timely declaration of write-in candidacy filed by the candidate.

- **State law prohibits write-in candidates for PCO elections.**

**Processing Filing Fee Petitions**

1. Verify each voter signing the petition is a valid voter in the district (not the sub-district if all voters in the district vote on the General Election ballot).
   - Count the first valid signature — Reject any subsequent signatures of a voter on the same petition.
   - No voter may sign two different petitions for the same office. Reject both signatures.
   - You may stop checking signatures when the number of valid signatures equals the number required.

2. Certify the petition as:
   - Sufficient — If the number of valid signatures equals or exceeds the number of filing fee dollars required.
   - Insufficient — Reject the petition because there are not enough valid signatures. Once submitted, do not accept additional signatures.

3. Notify the candidate of the sufficiency or insufficiency of the petition.

What happens when a petition is missing essential information?
If the petition did not accompany a declaration of candidacy, or the petition did not meet the filing deadline, the petition is invalid.

May I reject a candidate’s declaration?
Yes, but only if the declaration is ‘defective as to face.’
- Example 1: A candidate lists an address outside the district on the declaration form.
- Example 2: The candidate is not a registered voter.
- Example 3: A candidate has already filed for another office on the ballot (with the exception of PCO or temporary position).

May a candidate submit two declarations?
A candidate’s name may not appear more than once on a ballot unless one of the positions is for the following:
- Charter review board.
- Freeholder.
- Precinct committee officer.

Additionally, a filed candidate cannot also be a declared write-in candidate for another office appearing on the same ballot.

A candidate must withdraw the initial candidate filing before filing for another position. This rule applies to all instances including candidates filing for the wrong office, or candidates submitting more than one filing electronically. **Filing fees are not refundable.**

A candidate may not reactivate or resubmit any declaration of candidacy that the candidate has withdrawn. In this instance, the candidate must file a new declaration and pay the filing fee (if any) again before candidate filing ends.

May an individual hold more than one office?
A person may serve in more than one office during the same time as long as there is no conflict of interest as determined by the courts.

**Withdrawals**
**WAC 434-215**

Candidates wishing to withdraw from the ballot may do so no later than on the **Monday** following the regular candidate filing period. Special three-day filing periods do not have withdrawal periods.
At the time of filing, candidates must be informed that:
- The last day to withdraw is the Monday following regular candidate filing.
- The filing officer must receive a signed request for withdrawal.
- A candidate may not revoke a withdrawal.
- Filing fees are not refundable.

When a candidate withdraws, unless using the VoteWA candidate filing module, you must notify:
- The Public Disclosure Commission.
- The Secretary of State when the office is for state legislature, court of appeals, or superior court.

If a race has no candidates after the last day for withdrawals, a void in candidacy exists and you must conduct a special three-day filing period.

**Can I accept a withdrawal after the deadline?**
No candidate may withdraw from the ballot after the close of business on the Monday following the last day of filing week.

If a candidate wishes to withdraw after the deadline:
- A court must remove the name from the ballot.
- The candidate may contact the PDC to declare that, if elected, they will not serve.

**Ballot Order**

*RCW 29A.36*

**Primary Election Ballot**
Determine the order of candidate names on the Primary ballot by lot draw. Order of the lot draw also applies to the ballot order for Primary sample and provisional ballots.

Conduct the lot draw immediately following the close of Candidate Filing Week.

**Who conducts the lot drawing?**
Secretary of State determines the order of names:
- Federal offices.
- Statewide offices.
- Multi-county Legislative and Judicial offices.

County Auditor determines the order of names:
- Single county Legislative and Judicial offices. Immediately notify the OSOS of the ballot order for those offices.
Cities, towns, and minor taxing districts. The lead county (county with the majority of voters) determines ballot order for shared jurisdictions. Notify joint counties of the ballot order.

General Election Ballot
The top vote-getter of a Primary race appears first, followed by the second place vote-getter.

Exceptions are:
- If an office did not appear in the Primary, the names appear in lot draw order.
- Presidential/Vice Presidential nominees order is determined by political party. The candidates from the major party which received the most votes in the last Presidential election are listed first, then the candidates from the major political party with the second most votes are listed second. Minor party and independent candidates are listed in the order that the nominations were processed by the Secretary of State.
- If the top two vote-getters have the same number of votes in a Primary, determine the order of names for the General Election ballot by lot.

Appearing on the Ballot – Special Cases

Judicial Offices
With the exception of Superior Court, you should manage judicial offices as you would any nonpartisan office. Judicial offices may appear on the ballot in any year.

For more information, refer to the “Judicial Elections” Clearinghouse.

Precinct Committee Officer (PCO)
- Only PCO races with two or more candidates for the same party office appear on the ballot.
- The order of the PCO races depends on the number of votes cast statewide in the last Presidential election for each major political party. PCO offices are listed in the same order as Presidential candidates.

The Office of President and Vice-President
RCW 29A.04, 29A.56
Declarations of candidacy and filing fees are not required.

Major Political Party – A major political party is one whose nominees for President and Vice President received at least five percent (5%) of the total votes cast at the last preceding Presidential election. For major political parties:
Elections 101
Chapter 4, Section 3: Candidate Filing

- National conventions nominate candidates and submit official nominations to the Secretary of State.
- Nomination certificates must include names of official electors to serve at the Electoral College.

**Minor Political Party** – A political organization other than a major political party; and
- State conventions nominate candidates and submit official nominations to the Secretary of State.
- Petitions signed by at least 1,000 valid Washington registered voters must be signed at the conventions.

**Independent Candidate**— A candidate nominated by convention without a party affiliation.

**Lapsed Election**

If a nonpartisan race is without a candidate after both the regular filing period and special filing period, the scheduled election for that office lapses.
- The office is not printed on the ballot.
- No write-in votes will count.
- The incumbent remains in office until the election of a successor in the next regularly scheduled election for such offices.
- At the next regularly scheduled election, the office will appear on the ballot for the remainder of the term.

If the incumbent resigns after the special filing period, an appointee fills the position until the next election for that position.

Notice of Special Filing Period
RCW 29A.24.171, 24.181
Deadline: No later than 24 hours prior to conducting special filing period.

Must Include:
- List of offices open for filing.
- Dates, times, and location for beginning and ending of filing period.

Notify:
- Newspapers.
- Radio.
- Television in the county.
• Post online (optional).

Notice of Recount
RCW 29A.64.030
Deadline: At least one day before recount.
Must Include:
• Dates, times, and location of the recount. Recounts begin when you begin sorting ballots by precinct (WAC 434-264-090).
• Each person entitled to receive notice may attend accompanied by counsel.
• Any observer rules you have adopted or addressed in WAC 434-264.

Notify:
• Applicant or affected parties.
• Candidates for that office.
• Media.

Less Frequently Used Notices

Not all required notices are found in RCW 29A. The following are some of the notices required for special purpose elections:
• Notice of election for organization/reorganization of school districts (RCW 28A.315.275).
• Election on question of incorporation (RCW 35.02.100).
• Notice of election to disincorporation (RCW 35.07.050).
• Election of charter adoption for first class cities (RCW 35.22.070).
• Notice of election for annexation by code city (RCW 35A.14.070).
• Petition and notice of election for transfer of city harbor (RCW 36.08.010).
• Notice of election for removal of county seat (RCW 36.12.030).
• Notice of election for bonds to fund roads and bridges (RCW 36.76.100).
• Notice of special Primary and special election to fill congressional vacancy (RCW 29A.28.050).

Ballot Design
RCW 29A.36, WAC 434-230

Depending on the county tabulation system, an election may need the following types of ballots:
• Official ballots.
• Accessible ballots (Accessible voting units (AVUs) must be programmed and available for voters).
• Provisional ballots.
• Sample ballots.
• Special absentee ballots.

All ballot types and styles must use the same format and must include:
• Title – Name of election, date of election, county name.
• Ballot instructions - including specific instructions for:
  o Partisan Primary.
  o Partisan General Election.
  o General Election for office of U.S. President and Vice President.
  o PCO races.
• Races and candidates
• Ballot style or precinct identifier
• Clear delineation between instructions and the first measure or office.

For more information about ballot formatting and design requirements, refer to the “Election Preparation” Clearinghouse Notices and the OSOS Ballot Format & Ballot Packet Materials Checklist on the OSOS website.

Order of Offices/Measures/Candidates

RCW and WAC specify the order for countywide and state races and measures. Written county procedures determine placement of local jurisdiction measures and offices on the ballot.

Measures for creating a district by resolution of the county legislative authority appear as a county measure. Following creation of a district, measures and offices will appear according to county policy.

Policies and procedures should provide instruction for placement when receiving more than one measure or type of measure from a district.

**Creating the Perfect Ballot**

**WAC 434-230**

A ballot must meet specific design standards set by the type of voting system and state standards. Comply with WAC 434-230-012 in font size and style, alignment, capitalization, spacing, and use of color and shading.

The perfect ballot relies on functional design and careful proofing.

Try the following proofing techniques:

- Maintain a checklist for every proofing session.
• Proof from the original documents, such as online candidate filings in VoteWA, hardcopies of candidate filings received through the mail, and the certified lists from the Secretary of State for statewide candidates and measures.
• Check the candidates/races on ballot against the VoteWA list/report.
• Isolate proofers from distractions or move to a different room or location.
• Use two or more people and switch roles.
• Read to each other. This makes you concentrate on each word.
• Repeatedly proof using an entirely different set of eyes.

Primary-Only Voter Ballots
WAC 434-232

In Primary Elections, including the Presidential Primary, voters who will be 18 years old in time for the next General Election are eligible to vote in Primary contests.

Primary-only voters must receive a ballot that only includes eligible contests and excludes all ballot measures and any candidate races that are elected during the Primary, such as precinct committee officer, freeholder, charter review, and commissioners elected to a newly formed jurisdiction.

For a Primary that includes contests prohibited to primary-only voters, create primary-only voter ballot styles as needed. Primary-only voter ballots should be issued at the same time as other ballots, 30 or 45 days before Election Day for service and overseas voters, or 18 days before Election Day for other voters.

Sample and Provisional Ballots
RCW 29A.36, WAC 434-230

Use the same design principles and layout for sample and provisional ballots.

Sample Ballots
Sample ballots contain all issues and/or races within the county. If a county’s population is one million or more, sample ballots may represent a region.

• A printed copy must be available through the Auditor’s Office.
• Same format as official ballot.
• Easily distinguishable from regular ballots (e.g. different color).
• Available 15 days prior to election.
• If the county provides a local voters’ pamphlet with a sample ballot, separate sample ballots are not necessary.

Review RCW 29A.36.151 and WAC 434-230-010 for “sample ballot” rules, WAC 434-250-105 for an “example of an actual ballot,” and 52 USC 21082 for “a sample version of the ballot.”

Provisional Ballots
Provisional ballots must differ from the official ballot by being:
• Visually distinguishable from the official ballot.
• Incapable of tabulation by a voting system.
You may use sample ballots as provisional ballots, provided the sample ballot complies with both requirements.

Staffing
Base staffing on the anticipated number of returned ballots. Increased staffing for an election requires:
• Training – Signature verification has a mandatory training requirement. Workers need training in public information, office procedures and policy, document management and specific tasks.
• Oaths – Signature checkers and ballot box attendants require oaths.
• Equity – If possible, appointees working at voting centers and staffed deposit sites should represent both major political parties. Obtain a list of potential workers from each party.

Do not forget to allow for unplanned absences.

Tabulation Equipment
Good maintenance is essential to proper tabulation.

Best practice: Have maintenance service on the tabulation equipment every year.

Pre-Testing
You must pre-test all programming and tabulation equipment before the official tests. Thorough pre-testing of the tabulation system (including AVUs) includes testing:
• Hardware
• Software
• Reporting results (look at all reports)
• Retesting following any changes in programming
• Send results reports to VoteWA Support to verify upload to VoteWA

Test and verify all:
• Ballot styles
• Formats (alternative languages, electronically duplicated, ballot on demand)
• Voting responses
• Printers (from any printing source you will use)
• Special AVU considerations include proofing the text and audio

Official Logic and Accuracy Tests
The Logic & Accuracy (L&A) Test is an official test of a tabulation system. The test must verify that the system will correctly count and report the votes as cast.

The event is open for public observation. The County Auditor conducts the test prior to each election. For Primary and General Elections, a representative of the Office of the Secretary of State must attend when state offices and measures are on the ballot. In this instance, the State will schedule the test date and time.

To prepare, the county shall:
• Provide the official test matrix and a complete ballot packet sample to the OSOS at least 14 days before the test.
• Mark test ballots in the manner required in WAC.
• Invite political party observers.
• Draft and review all observer conduct rules.
• Notify the press, candidates, and public of the date and time of testing.

Logic and Accuracy Test Requirements:
• Conduct the test exactly as you count ballots during the election.
• Use the same machine operators.
• Issues, offices, and candidates must appear in all appropriate precincts.
• The system must accumulate votes accurately.
• Test the system reporting of votes against the test matrix.
• Verify the upload of test results to the statewide VoteWA system.

AVUs and Electronic Duplication Systems:
Test AVUs prior to the official testing of the tabulation system. You may not use any untested AVU in the election.

Test the programming on one AVU. Test every other AVU once the base programming has been loaded.
Elections 101
Chapter 4, Section 4: Election Preparation

- Test functionality of every machine.
- Test reporting and accumulation of votes.

The County Auditor must provide a log of the testing at the official L&A Test.

ALL tabulation equipment used in an election must pass the L&A testing before tabulating ballots for that election.

What if a tabulation system fails the official L&A test?
Take the following steps if the system fails:
1. Identify and correct the issue.
2. Pretest to verify that all issues are corrected.
3. Conduct an emergency Logic and Accuracy test.

Emergency Logic and Accuracy Test
For any failure, the County Auditor must schedule an emergency L&A pursuant to WAC 434-335-310. At least one additional County Canvassing Board member or an OSOS representative must be present.

Official Observers
RCW 29A.40.100, 12.130, WAC 434-261-020, 250-110

Major political parties may appoint official observers to watch the election process. Prior to every election, the County Auditor must submit to the major political parties in writing:
- A request for observers to observe all mail ballot and counting center activities.
- The request must state the maximum number of observers allowed to observe ballot processing for each processing location.

County Auditors must provide training for official observers. Do you provide written guidelines to your observers? Anticipate their questions and concerns with a set of written instructions to describe:
- Duties and responsibilities of observers.
- The processes they will observe.
- Legal requirements for the various processes.

Be a considerate host:
- Set the boundaries. Clearly define the areas observers may freely access. If you have restrictions on activities (such as potlucks) make it known early on.
- Prepare and share staff schedules. Knowing when staff takes breaks or takes lunch will help observers arrange their day.
• Have sign-in sheets and name badges ready.
• Provide a space for observers to call their own. Designate a table, locker or shelf for purses, coats, and personal items.
• Outline the appropriate ways to ask questions. Providing written guidelines allows for effective and accurate information and speeds up communication between observer and the elections department.
Chapter 5, Section 1

Issuing Ballots

RCW 29A.40, WAC 434-250, -235

In Washington State, we deliver a ballot packet to every active registered voter. A voter may request their ballot be delivered to:

- The voter’s residence,
- A mailing address, or
- An address specific to the election (may be electronic).

The County Auditor must record the ballot issue date and report the total number of ballots issued by legislative and congressional district for every election.

Protecting Voter Secrecy

If a voting system prints sequential numbers on ballots, the County Auditor must put a procedure in place to prevent ballots from being issued to voters sequentially.

If necessary, change the sequential order of ballots by shuffling prior to inserting them into envelopes. See the “Protecting Secrecy of the Vote” Clearinghouse Notice.

Service and Overseas Voters (UOCAVA)

Send UOCAVA ballots 30 days before a special election and 45 days before a Primary or General Election.

Under UOCAVA, an overseas or service voter may request the delivery method of their ballot (postal mail, electronic). This preference applies to every election until the voter changes the information or the ballot is returned undeliverable.

If the voter does not indicate a preference, mail the ballot through the US Postal Service. If a UOCAVA ballot sent electronically returns as undeliverable with no alternate delivery email address, a ballot must be sent by postal mail.

If an overseas or service voter submits a registration application that is missing a residential address and there isn’t enough time to contact the voter to obtain an address, place the voter in the precinct encompassing the County Auditor’s office for the current election.
• If the ballot is returned, count only federal races and countywide offices/issues.
• If the voter’s precinct is still undetermined following the primary or election, place the voter on inactive status and send confirmation notices to obtain the voter’s correct Washington residential address.

Special Absentee
RCW 29A.40.050

Issue a special absentee ballot for a state Primary or General Election when:
• A voter submits a Special Absentee Ballot Application (example available on the OSOS website) or provides information indicating they will be unable to vote and return a regular ballot by normal mail delivery within the period provided for regular ballots, and
• The election is within 90 days.

If a regular ballot is not available, issue a paper ballot with blank lines for each office and issue and provide a list of known candidates and measures. The voter will write-in their choices on the blank lines.
• Do not wait to issue special absentee ballots; provide the voter with something as soon as you receive a complete request. If the voter did not indicate they are unable to vote and return a ballot by normal mail delivery on a special absentee form, you may contact the voter to verify they qualify for a special absentee.
• Include a list of known candidates and measures at the time of the application for that election.
• Instructions accompanying a special absentee ballot must state the voter may also cast a regular ballot that, if received, will count in lieu of the special absentee ballot.

The voter is entitled to request a regular ballot in addition to the special absentee ballot.

Inactive Voter Requests a Ballot

When an inactive voter requests a ballot, issue an official ballot (not a provisional) for the precinct listed on the current registration.

An inactive voter may submit a change of address that is received no later than 8 days prior to the day of the primary or election and receive a new ballot based on that new precinct. After 8 days and until 8:00 pm Election Day, inactive voters may update their voter registration in person at a county election office, vote center, or Auditor designated location, and receive a new ballot based on their new address.
A voter who fails to update their residential address by the 8-day registration deadline and does not appear in-person at a county designated vote center to make the update may still vote according to their previous registration address. Too late address changes will be processed following the election.

Inactive voters shall be placed on active status when a request for a ballot or registration update is received.

**Identification Required**

WAC 434-250

When the County Auditor has not yet verified a voter’s identification, issue the provisionally registered voter an official ballot.

The voter record shall be flagged in such a way that indicates a ballot shall not be processed until identification is provided. The return ballot envelope may also indicate that the voter is provisionally registered. Send an Identification Notice in compliance with WAC 434-250-045 at the time of the election or with the official ballot (this is not the Acknowledgment Notice).

The notice informs the voter:

- How to include a driver license number, state ID card number, tribal ID, the last four digits of a SSN number, or a photocopy of valid identification (include a list) with the voted ballot.
- How to return the required identification without compromising the security of the ballot.
- Notify voter, “If you fail to provide identification, your ballot will not be counted.”
- Be sure to open any ballots received from provisionally registered voters to determine if the voter provided identification.

**Replacement Ballot v. Reissued Ballot**

When a ballot is requested and a ballot has not yet been accepted for that voter, you will need to determine if a replacement or reissued ballot is required:

- Replacement Ballot means a ballot that is the same type or style and precinct as the most recently issued ballot. The ballot contains the same races and measures.
  - Voters may request replacement ballots by telephone, in writing, electronically, or in person by the voter or a family member.
  - Issue replacement ballots to both active and inactive voters until 8:00 pm on Election Day.
  - Keep a record of each replacement ballot issued, including the date requested.

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________
• Reissued Ballot means a new ballot issued to a voter as a result of a residential address update and the voter’s ballot has changed — different precinct, different races, and/or different measures. This update can be a result of in-county address change or a registered voter transferring into a new county.
  o Voters may receive reissued ballots by submitting registration updates by telephone (if an in-county transfer), mail, online, electronic submission, or in-person no later than 8 days prior to Election Day. After the 8-day deadline, voters must appear in person at a county election office or vote center to update their address and receive a reissued ballot.

If you are unable to find a voter’s record, or if the voter indicates this is their first registration, register the voter and issue a ballot.

Address Confidentiality Program

Send official ballots to Address Confidentiality Program (ACP) participants as soon as possible no later than 18 days before the election. It takes longer for ACP ballots to reach the voters as the ballots are mailed to the Secretary of State’s ACP program. Repackaging the ballot and mailing to the voter can add 2-3 days. Mailing these ballots first class and putting all ballots for a household in an envelope or box can reduce the mailing time.

Mark the return envelope for delivery to authorized county personnel.

Ballot Packets

WAC 434-230, -235

Postal Mail Packets

For All Voters
• Ballot — specific to a voter’s precinct.
• Security envelope/sleeve.
• Pre-addressed, postage-paid return envelope with ballot declaration.
• Outer mailing envelope with required postal information. Provide postal endorsements that forwards ballots, send updated address information, and return undeliverable ballots to the County Auditor.
• Instructions — specific to the election, how to mark the ballot, and type of ballot.
Overseas and Service (UOCAVA) Voters

Packets mailed to overseas and service voters have additional requirements.

Use return envelopes that use the federal prepaid return postage account when mailing through the US mailing services — do not use the business reply account for regular ballots.

Two additional items must be included:
1. A ballot privacy (secrecy) sheet; election information printed on this sheet must not verify nor identify the voter in any way.
2. A space for the voter to provide a telephone number.

UOCAVA voting instructions must specify:
- How to return the ballot by email, fax, or postal mail.
- How to use the ballot privacy sheet when returning a voted ballot electronically.
- The need to sign the ballot declaration on or before Election Day.
- How to obtain information about the election — e.g., county website and email addresses.
- How the voter confirms their ballot arrived at the elections office.
- County Auditor's complete contact information: website, mailing address, email address, phone number, and fax number.

Ballots – Delivered Electronically

Overseas and Service (UOCAVA) Voters

UOCAVA voters may choose to receive ballots via email or fax. All ballot packets must include:
- Information required for every mail ballot packet.
- A ballot declaration.
- Voting instructions specific to voting an email/fax ballot.
- A privacy sheet to separate the voted ballot from the signed declaration.
- County Auditor website information.
- Instructions for returning the ballot electronically by 8:00 pm PST Election Day, or by mail and postmarked on or before Election Day.

Non-UOCAVA Voters

While any voter may request to have their ballot delivered to them electronically, non-UOCAVA voters must return a paper ballot by mail, ballot drop box, or in person. No exceptions.
Undeliverable Ballots

NVRA

An undeliverable ballot is one that the USPS could not deliver to the voter. The USPS may return mailed ballots to the election office as “undeliverable.”

You must request address change information from the USPS and use that information to update voter registration records. This information qualifies under the Federal National Voter Registration Act (NVRA) for changing the status of a voter.

If a ballot is returned as “undeliverable” or forwarded, the county auditor must process these ballots following certification of the election.

- If the updated address is within the county, transfer the voter registration and send the voter an acknowledgment notice, or
- If no updated address information was received or the updated address is outside the county, place the voter on inactive status and send the voter a confirmation notice to all known addresses.

Reconciliation Tip: Undeliverable ballots are not reported as “ballots returned” in election reports. They are just blank forms that did not reach voters as intended.

### Certificate of Mailing

**RCW 29A.40, WAC 434-250**

Before a primary or election, counties must certify ballot-mailing dates to the Secretary of State. The certification verifies your county mailed ballots no later than:

#### UOCAVA:
- The 30th day prior to special elections.
- The 45th day prior to Primary and General Elections.

#### All Other Ballots:
The day all other non-UOCAVA ballots are sent to the Post Office to be delivered, but no later than the 18th day prior to all primaries and elections.

Blank [certification forms](#) are available on the OSOS Administrators web page.
Chapter 5, Section 2

Receiving Ballots
RCW 29A.40, WAC 434-250, -235

You may receive voted ballots by mail, electronically *(overseas and service voters only)*, or at a ballot drop box. From the time of receipt until opening, place all received return envelopes in secure storage.

*i For ballots deposited by voters at ballot drop boxes or voting centers, see requirements in the “Voting Centers and Ballot Deposit Sites” Clearinghouse Notice.*

Ballot Drop Boxes

Eighteen days before every election, the County Auditor must open a minimum of two ballot drop boxes in different geographical locations. However, each county must provide at least one ballot drop box in each city, town, and census-designated place with a post office as well as one ballot drop box for every 15,000 registered voters. These locations may be either a ballot drop box or a voting center.

State law prohibits electioneering, campaigning, or petitioning within 25 feet of any ballot drop box.

Procedures for managing ballot boxes are the same at drop boxes and voting centers:

- Secure boxes at all times with a lock and uniquely numbered seal. The seal, in conjunction with a seal log, documents access to the ballots. Seal logs must record when the box was opened and by whom.
- Deposited ballots must be accessible only to the County Auditor, assigned staff, or people appointed by the County Auditor.
- Transport ballots to the counting center. Two authorized people can do this together or one person can transport ballots in a container already secured with a seal and log.
- At exactly 8:00 pm, empty or seal all ballot drop boxes to prevent late ballot delivery on Election Day.

Allow voters in line at 8:00 pm to vote (or finish voting) and accept their ballots.
Review ballot drop box seal logs immediately following Election Day. Are you missing a log or is the log incomplete? It is important to verify that the ballot drop box is empty.

Unstaffed Ballot Drop Boxes

Availability

Unstaffed ballot drop boxes are available beginning 18 days prior to the election. The County Auditor may set specific hours of availability. Many unstaffed boxes are available 24 hours per day.

Secure an unstaffed ballot drop box located in a building with a lock, seal, and seal log.

Outdoor unstaffed drop boxes must be:
- Tamper-proof.
- Weatherproof.
- Anchored to prevent removal.
- Located in convenient, well-lit areas.
- Accessible.

Operations

Empty the drop boxes:
- Frequently enough to prevent damage to ballots.
- Frequently enough to prevent the box from becoming too full.
- Frequently enough to prevent unauthorized access.
- With no fewer than two staff members or appointees.

Staffed Ballot Drop Boxes

Availability

The County Auditor establishes the dates and times that staffed ballot drop boxes are available to voters. Staffed ballot drop boxes must be open on Election Day and remain open until 8:00 pm.

Operations

At least two people must staff the box and subscribe to an oath regarding the discharge of duties. They must be:
- Employees of the County Auditor's office, or
- Representatives of different major political parties appointed by the County Auditor.
Staff must record the seal number of the box prior to the first deposit. The seal must be intact when returned to the Auditor.

**Ballots returned** after 8:00 pm Election Day **must** be sent to the Canvassing Board for rejection. Deliver the sealed, unopened ballot box/container to the County Auditor upon closing.

**Student Engagement Hubs**  
**RCW 29A.40.180**

ESB 6313 requires several counties to provide Student Engagement Hubs on college campuses. Each state university, regional university, and The Evergreen State College, as defined in RCW 28B.10.016 must provide both voter registration services and ballots via the Public Voter Portal (VoteWA) to Washington citizens. Higher education campuses as defined in RCW 28B.45.012 (branch campuses) only need to provide ballots via the Public Voter Portal.

Student Hubs may be open during county business hours starting up to eight days before an election through 8:00 pm on Election Day or until all voters in line at 8:00 pm have voted and deposited their ballots. Hubs are only required to be open during November General Elections.

A list of all Student Engagement Hubs must appear in the printed State Voters’ Pamphlet and the printed Local Voters’ Pamphlet produced by the applicable counties. Institutions must contract with the county for Student Engagement Hub operation.

For further information, refer to the “ESB 6313 Advisory #2 — Student Engagement Hubs” advisory.

**Voting Center Requirements**  
**RCW 29A.40.160, WAC 434-250-105**

**Availability**

At least one voting center, typically the County Auditor’s Office, must be open during regular business hours during the entire voting period, starting 18 days prior to the election and ending at 8:00 pm Election Day. In addition to the location requirements outlined in RCW 29A.40.160(2), the County Auditor may determine the days and hours of any additional voting centers.

**Operations**

Requirements for staffed ballot drop boxes also apply to voting centers.
Additionally, voting centers must:

- Be in an accessible location (ADA).
- Be located in a public building or building leased by a public entity including, but not limited to, libraries.
- Be marked with signage outside the building indicating it is a place for voting.
- Issue ballots, including all appropriate ballot packet materials (ballot declarations), for all Washington voters both in and out-of-county.
- Offer disability access voting, ensuring voter privacy.
- Provide provisional ballots.
- Require identification or a signed ballot declaration prior to voting on a DRE.
- Voters’ pamphlets — state and local when applicable.
- Provide real-time voter registration services via VoteWA for all Washington voters both in and out-of-county (Universal Registration). Offer conditional registration and balloting services if the system is unable to process applications.
- Display voter information required by the Help America Vote Act (HAVA), including election-specific information and an example of an actual ballot or a sample ballot in substantially the same format as an actual ballot.
- Display appropriate partisan office notice.
- Provide instructions on how to mark the ballot properly.
- Provide election materials in alternative languages, if required.
- Assist voters.
- Provide a ballot drop box.
- Secure the ballot drop box at exactly 8:00 pm on Election Day, or after all voters in line have cast a ballot.

For more information regarding voter registration and issuing ballots for out-of-county voters, refer to the “ESB 6313 Advisory #1 — Universal Registration” advisory.

Electronic Voting on a DRE

A direct recording electronic voting device (DRE) records votes electronically on a device. A printout shows the voter how the votes were recorded, but the device does not produce a paper ballot. The votes are uploaded from the device into the tabulation system.

Prior to voting on a DRE:
• Staff must verify in real-time that the voter does not already have an accepted ballot for the current election by accessing VoteWA. Voting centers not located at the County Auditor’s Office must have access to VoteWA.
• All voters who vote on a DRE must sign the ballot declaration.
• At the time the voter signs a ballot declaration, issue the ballot in VoteWA.
• To vote, the voter must provide valid photo identification, or the county may compare the signature on the ballot declaration to the voter registration record.
• Immediately after casting a ballot on a DRE, prevent double voting by crediting or flagging the voter’s registration as having already voted in the election in VoteWA by changing the status of the voter’s ballot to “accepted.”

You may either verify the voter’s signature on the declaration to the voter registration signature OR require the voter to provide photo identification prior to casting the ballot. If the voter does not have identification and the signature does not match, offer the voter a provisional ballot. Valid photo identification for voting on a DRE includes a driver’s license, state ID card, student ID card, tribal ID card, and an employer ID card.

A voter registration card is not photo identification.

How to Vote on an AVU that is not a DRE

Accessible voting units (AVU) allow a voter to mark and print a paper ballot. The voter places the ballot into a security envelope and a signed ballot return envelope. Some systems require the voter to bring the ballot they received in the mail while others print the ballot on blank paper.
• Voters do not need to provide identification, nor do they sign a declaration other than the one on the envelope.
• If the system requires the voter to bring their ballot with them, the voter simply uses the device to mark the ballot.
• If the system prints the ballot, election staff must consult VoteWA for the correct ballot style and load the ballot into the system for the voter.
• For either system, marked ballots are placed in a security envelope and a signed ballot return envelope, then deposited in the ballot drop box.
• The ballot is processed the same as ballots returned through the mail or ballot drop box.

Provisional Ballots

When to issue a provisional ballot?
• The voter’s record shows an accepted ballot, but the voter asserts they have not yet voted and requests a new ballot.
• A voter is registered in another state.

A provisional ballot packet includes:
• A ballot that cannot be read by the tabulation system.
• A secrecy envelope.
• A provisional ballot outer envelope.
• Written notice about the free access system.

The voter must:
• Sign the declaration.
• Provide addresses (registered address, both present and former if applicable).
• Include date of birth.
• Insert the ballot inside the secrecy and outer envelopes and return to the elections staff.

Elections staff will verify that all required information is on the outer envelope of the provisional ballot.

Free Access System

At the time of voting, provide the provisional ballot voter with written information on how to ascertain the status of their provisional ballot without cost to the voter. Access to this information must be restricted to the voter and not open to view by others.

Through a free access system or voter notification, every provisional voter must be able to learn if their provisional ballot was counted.

Requirements:
• Instructions on how to determine if their ballot was counted must be given to the voter at time of casting a provisional ballot.
• Information must be available to the voter one week after certification.
• Must be free to voter.
• Must be exclusively available to voter.
• Information on the system or voter notification should show the disposition of the ballot was determined as valid and counted, not counted, or an explanation of why it was rejected, or sent to another county for determination.

See 52 USC 21082, RCW 29A.60.195, and WAC 434-261-125.
Chapter 5, Section 3

Initial Processing

RCW 29A.40, .60, WAC 434-250, -261

The three phases of ballot processing: initial, final, and tabulation.

Initial processing refers to all steps taken to prepare ballots for tabulation. When a voter moves from one precinct to another, or if the voter’s ballot style changes, the first valid ballot that matches the voter’s current ballot is the ballot to count.

Initial processing begins upon receipt of the ballot, including:

- Postmark verification.
- Signature verification.
- Crediting voters.
- Opening and separating envelopes.
- Manual inspection of ballots.
- Scanning (if applicable).
- Duplication, resolution, or adjudication.
- Any additional steps required to prepare the ballots for tabulation.

Postmark Verification

A valid mailed ballot requires a postmark date of Election Day or before. Ballots deposited in a ballot drop box do not have postmarks, but ballot drop boxes are closed at 8:00 pm Election Day. The fluorescent barcode printed on the ballot envelope and a date of mailing through a commercial mailing service (i.e. FedEx, UPS) qualifies as a postmark. Refer any ballot envelope postmarked after Election Day or deposited later than 8:00 pm to the County Canvassing Board.

Exceptions to the postmark requirement for mailed ballots:

- Instead of a postmark, UOCAVA ballots require a signature date on or before Election Day.
- When the postmark is illegible or missing on non-UOCAVA ballots, use the date the voter signed the declaration.
- Postage that prints a date (metered or printed stickers) does not qualify as a postmark — use the date the voter signed the declaration.

Signature Verification

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________
Every valid ballot requires a signed declaration. Staff verifies that the signature accompanying the ballot matches the signature on the voter’s registration record. (Voters have the option of providing photo identification prior to using a DRE.) Before verifying signatures, staff must:

- Attend signature verification training.
- Sign an oath.

Every county should have written procedures for accepting or challenging ballots based on signature verification.

**Signature Issues**

*What if the voter is unable to sign?*
If a voter is unable to sign the declaration, they may make a mark witnessed by two people. The return ballot envelope must have spaces for the signatures of the witnesses. Do not verify signatures of witnesses.

*What if the voter uses a common nickname?*
Accept common nicknames or initials as long as the handwriting and the last name are the same.

*What if the voter signs a different name?*
As long as the handwriting is CLEARLY the same:

- The last name may differ provided the first name has not changed.
- The first name may differ as long as the last name is the same.

*What if the voter uses a power of attorney (POA)??*
POA does not apply to voting. Do not accept signatures using the voter’s POA and treat the ballot envelope as unsigned.

*What if the voter returns a ballot that was not issued to the voter who signed?*
Count the ballot for the registered voter who actually signed the ballot declaration when:

- The voter who signed the declaration can be identified.
- The signature on the declaration matches the signature on the voter registration record.
- The voter who signed the declaration has not returned another ballot.

⚠ *Check the precinct! You must count only the races and measures the voter is eligible to vote.*

_________________________________
Cure an Unsigned Declaration (Missing Signature)

When a returned ballot lacks a mark or signature to the declaration, the voter may “cure” the unsigned declaration.

If a signature is missing, immediately notify the voter by first class mail of the steps the voter must take:

- Appear in person and sign the declaration no later than the day before certification; or
- Sign a copy of the declaration or mark in front of two witnesses and return it to the County Auditor no later than the day before certification.

See Missing Signature Form. Accept forms returned by email/fax, mail, or in person.

Do not send a copy of the voter’s signature with the form. A voter’s signature is not public information and cannot be released.

If the voter has not responded by three days before certification, telephone the voter. Keep a record of the following items:

- The date of phone contact and the notice sent.
- The date the voter submitted the cure notice.

Note: A current ballot signature issue cannot be “cured” by a signature on a suspended ballot.

| CURING UNSIGNED DECLARATIONS: |

Cure a Signature that Does Not Match

Voters must cure questioned or mismatched signatures by the day prior to certification of the election or primary.

Sign a new registration form or signature update form (includes both ballot declaration and voter registration oath) | The day before certification | Signature on new registration or update form matches signature on ballot declaration | Current and future elections Registration will be updated with the new signature

If a voter signs and returns the ballot of another voter, the ballot may be counted for the **signer** if they can be identified.
- The signature on the envelope must match the signer’s voter registration record.
- The voter who signed must not have returned another ballot.
- Only issues that the voter is qualified to vote upon will count.

> A voter may not cure a signature after certification of the election just to qualify for recount.

### Special Circumstance Ballots

#### Replacement Ballots

Both active and inactive voters may receive replacement ballots. If the voter returns two ballots of the same type/style and precinct, process the first valid ballot received for their current registration.

If the voter returns additional replacement ballots, they shall be assigned suspended/canceled status and considered informational or invalid.

> **Reconciliation Tip:** “Informational/invalid ballots” should not be sent to the Canvassing Board for rejection nor be included in your reconciliation report.

#### Reissued Ballots

If the voter moved from one precinct to another, or if the voter’s ballot style changed to include or exclude contests, this is a reissued ballot. If the voter returns more than one reissued ballot, the current ballot (the ballot that matches the voter’s current residential information) should be counted. All other ballots received from that voter are considered informational, and are not rejected.
Federal Write-in Absentee Ballots (FWAB)

FWABs are intended for military or overseas voters who did not receive a regular ballot. Any military or overseas elector may use a FWAB for any election.

UOCAVA voters may also be registered from a voted ballot when a signed declaration accompanies the ballot.

Prior to processing a Federal Write-In Absentee Ballot (FWAB), refer to the “Service and Overseas Voters” Clearinghouse.

The Clearinghouse answers the following questions:

- Who qualifies as a service voter?
- What should I do if the voter is not registered?
- What should I do if the voter also returns an official ballot?
- What should I do if a military or overseas voter does not provide a Washington State residential address?

UOCAVA Ballots Submitted Electronically

Accept voted UOCAVA ballots returned by electronic transmission no later than 8:00 pm PST Election Day.

Only UOCAVA voters may return a ballot electronically.

- A copy of the signed declaration must be included.
- The original ballot is not required.
- Process the ballot (duplicate if necessary) if the signature on the declaration matches the voter registration record.

Secrecy of the eBallot:

- Print the ballot and attachments.
- Separate the declaration from the voted ballot by a privacy sheet or envelope.
- Apply public disclosure exemptions.

Not an official ballot?

The state of Washington allows voting responses on something other than the official ballot.

- Confirm the voter did not already return a ballot.

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________
_________________________
• The voter must still sign a ballot declaration and it must accompany the voting responses. If a signed declaration is not included, treat it as an unsigned ballot.
• Count only the votes for offices and measures for which the voter is eligible.

Exception: responses on ballots from prior elections do not count.

Duplicate the valid votes onto the correct precinct ballot.

Provisional Ballots

When you receive a provisional ballot, first check VoteWA to see if the voter is registered anywhere in WA.

If registered in another county:
• Send the ballot to that county.

If registered in your county:
• If the correct ballot was voted and there is not already an accepted ballot for this voter — process the provisional ballot.
• If the incorrect ballot was voted — process and duplicate the ballot to the correct ballot style with the offices and issues for which the voter was eligible.

If not registered to vote in Washington:
• If the voter was canceled in error - reinstate registration and process.
• If the voter was canceled correctly or was not registered anywhere in WA before the 8PM Election deadline - ballot does not count.
• If the voter is registered in another state - treat the ballot as if the voter is not registered; do not send ballot to the other state.

Crediting Voters

Credit all voters with valid ballots before certifying the election or primary. Crediting voters for voting usually occurs automatically when logging receipt of valid ballots into VoteWA.

Do not credit voters with rejected ballots.

Opening and Separating Envelopes

NOTES:_______________________________________________________________________________________
_____________________________________________________________________________________________
___________________________________________________________________ ___________________________
In order to protect the secrecy of ballots, use a two-step process:

1. Separate the security envelopes/sleeves from the outer declaration envelopes.
2. Isolate the declaration envelopes prior to removing ballots from the security envelopes/sleeves.

Store the declaration envelopes in a logical manner — you may need to find them later.

Confirm ballots do not remain in the envelopes by doing one of the following:

- Look through the envelope hole, or
- Insert an object through the hole, such as a zip tie.

Be prepared: Envelopes do not always contain the correct ballot or any ballot at all! Anticipate problems when writing office procedures.

Manual Inspection

Ensure correct tabulation by manually inspecting ballots for voter intent issues. All ballots must be manually inspected prior to scanning or tabulation.

Inspect all ballots manually:

1. Both sides of the ballot.
2. Each response position.

Training for ballot inspectors should include:

- An explanation of what the county tabulation system will and will not read.
- A copy of and thorough explanation of the Statewide Standards on What is a Vote (WAC 434-261-086).
- Any special rules that apply to the specific primary or election (e.g., Presidential Primary).
- Office procedures for write-in votes.

When manually inspecting ballots, look for anything that prevents correct tabulation of the ballot or any reason the ballot may need to be duplicated.

Duplicating and Resolving

Duplication is the process of creating a true, readable (by the tabulation system) copy of valid votes onto an official blank ballot, paper or electronic.
A readable ballot is any ballot that the county vote tabulation system can accept and read as the voter intended. When a ballot is unreadable by the tabulation system, you must duplicate the votes to a blank ballot.

Include ballot duplication situations and procedures in the County Canvassing Board manual.

Resolving ballots is the process of telling a digital scan voting system how to interpret how a voter marked their ballot, known as “adjudication” in some counties.

Whether a county is duplicating or resolving, there are specific requirements that apply:

- Teams of at least two staff members.
- An audit of all duplicated ballots, both paper and electronic, by another team of two staff members.
- A unique control number must be assigned to the original ballot and corresponding copy.
- For ballot duplication, the duplication log must include the total number of ballots duplicated and the initials of the duplication team members.
- For ballot resolution/adjudication, a log from the system is printed and signed by the two staff members who resolved/adjudicated the ballots.

When using an automated duplication program, you must compare the duplicate ballot to the original eBallot to ensure the votes match the original ballot.

Overseas and Service (UOCAVA) Ballots

Duplication of FWABs and Electronically Received Ballots
These ballots are not typically ready to scan and tabulate. Sometimes the user is unable to print the whole ballot or you’ll receive a copy that’s difficult to read.

In all cases, do your best to honor the voter’s intent.

FWABs (Federal Write-In Absentee Ballots)
Some UOCAVA voters will vote on a generic federal write-in ballot that doesn’t provide candidate names or measures. These voters may not know the exact name of a candidate and will simply write in the position and name of a political party. The FWAB allows them to indicate a party preference that applies to all the positions on the ballot. When this happens, count votes according to voter intent Rule R.

If you are unable to determine the voter precinct, duplicate the ballot as if the voter resides at the County Auditor’s Office. In this case, only the votes for countywide issues and congressional district in which the County Auditor’s Office is located can be counted.
Voter Registration Challenges – Ballots
RCW 29A.08

If a voter challenges another voter’s registration record before a voted ballot is received by the County Auditor’s Office, the ballot must be set aside with a record of pertinent information, and then presented to the Canvassing Board for determination.
Chapter 5, Section 4

Final Processing

RCW 29A.60, WAC 434-250, -261

Final processing begins with ballot scanning and ends before votes are tabulated by the tabulation system. The type of tabulation equipment used determines when ballot scanning may begin:

- **Systems that scan ballot images and store the images outside the tabulation program (digital)** may begin scanning as ballots are returned.
- **Systems that simultaneously scan the ballot image and tabulate the results (optical)** may begin ballot scanning at 7:00 am on Election Day. If the county has a pre-approved security procedure, they may begin after 7:00 am the day before Election Day.

> At no time should observers handle ballots. Only authorized staff may handle ballots.

Tabulation

**Tabulation** is the production of election results in a format that can be read by a person, whether precinct totals, partial cumulative totals, or final cumulative totals.

Tabulation, regardless of the type of vote tallying system, may not begin before 8:00 pm on Election Day.

> Prior to every election, confirm that all computer and support systems are accurately displaying the correct times and dates.

Duplication and Resolution/Adjudication

During final processing, ballots may need duplicating or resolving/adjudication if:

- The tabulator damages the ballot.
- Manual inspection did not detect final processing issues.

Whether discovering a ballot reading issue during initial or final processing, apply the duplication or resolution/adjudication procedures consistently.

At all times, seal original and duplicate ballots in secure storage, except during duplication, tabulation, or inspection by the County Canvassing Board.
Write-in Votes

To promote consistency statewide, we have rules pertaining to write-in votes. To help you manage the complex aspects of write-in voting, refer to the “Write-in Voting” Clearinghouse.

- Election results must include the total number of write-in votes for each office.
- Manage ballots with write-in votes, overvotes, and undervotes during tabulation so you can easily revisit these ballots.
- Write-in votes cast for a candidate whose name does not appear on the ballot are not individually tallied unless the candidate has filed a timely write-in candidate declaration.

Valid Write-in Votes

A write-in candidate must file a declaration of candidacy before Election Day in order to tally votes for that candidate.

In order to advance from the Primary to the General Election ballot, a write-in candidate needs to meet both of these qualifications:

- Receive at least 1% of the total votes cast for that office. Total votes cast includes votes for candidates printed on the ballot plus the total write-in votes. Overvotes and undervotes are not valid votes cast for candidates and are not used in determining whether a candidate meets the 1% requirement.
- Be one of the top two vote-getters.

In a General Election race, a write-in candidate must receive the most votes to be elected.

- Tally votes for declared individual candidates only when it could make a difference in the outcome of the election.
- Do not tally or duplicate individual votes for write-in candidates who did not file a timely declaration of candidacy.

Frequently Asked Questions about Write-in Voting

What are write-in votes?
Each office has a line where the voter may write in any name as their choice for that office.

Who is a declared write-in candidate?
A write-in candidate who submits a declaration of candidacy form and pays the appropriate filing fee (if applicable) no later than 8:00 pm on Election Day.
Can anyone be a declared write-in candidate?
Declared write-in candidates must possess the same qualifications as regular candidates. Candidates who lost the Primary are ineligible as a declared candidate for the same race in the General. Candidates already appearing on the ballot for another office are also ineligible.

Are votes for fictitious characters valid?
The voter cast them as valid write-in votes, so the votes are included in the total number of write-ins. However, since fictitious characters cannot submit a declaration of candidacy, votes cast for them will not be tallied.

Is the vote valid if the voter did not fill in the response position on the ballot?
Yes. If the voter writes a declared write-in candidate on the write-in line, it is a valid vote, even without a marked response position. Consider this when manually inspecting ballots. If tabulated, write-in votes without a marked response area will record as undervoted (Refer to the question, “Should a ballot with a write-in vote be duplicated if the response position is not marked?”).

If the voter votes for a candidate printed on the ballot and writes in a vote for the same office, is it an overvote?
Yes, unless the voter voted for a printed candidate and wrote the same candidate’s name as a write-in. In that case, the vote is valid for that candidate.

When do you tally write-in votes?
Report the total number of write-in votes cast for each office. Then, tally the votes for individual declared write-in candidates only if those votes could make a difference in the outcome of the election.

Check the results of each race with a declared write-in candidate to determine if you must tally for individual write-in candidates.

A declared write-in candidate needs to receive the next highest number of votes in a Primary AND at least 1% of the total votes cast in order to appear on the General Election ballot.

Should I duplicate a ballot with a write-in vote if the response position is not marked?
It is not required to duplicate ballots with write-ins. State law only requires that individual votes be tallied when the sum of write-ins, overvotes, and undervotes are enough the affect the outcome of the election.
Exception: The number of votes cast for Governor, including write-in votes, determines the number of signatures required for state initiatives and referenda. This total refers to all votes cast for Governor, including write-in votes. In this case report all write-in votes, including those not filling in a response position, to the Secretary of State. For Governor, ballots must also be duplicated when the write-in response position is marked, but no candidate is written in. This is not a valid write-in vote.

For digital scan tabulation systems, should I enter the write-in vote into my system when resolving ballots?
You are not required to record the candidate’s name. If you are required to tally these votes later, however, you will need to pull the ballots to tally the votes. To avoid this situation, some digital scan counties record the individual names of declared write-in candidates during the process of resolving.

Are write-in vote totals included in the official results of the election?
Yes, usually as a total for the write-in category. A write-in vote is a valid, recordable vote.

Should declared write-in candidates be included in the voters’ pamphlet?
Not for the election or primary for which they have declared. If the candidate declared as a write-in for the Primary and qualified for the General, then the candidate is no longer a write-in and will be printed on the ballot and included in the General Election Voters’ Pamphlet.

Post-Election

Ballot counting continues after Election Day through to the final day of canvassing because you may receive valid ballots any time during that period.

Valid ballots are defined as:
- Ballots with a valid postmark received between Election Day until the end of the day prior to certification.
- Ballots from UOCAVA voters signed no later than the day of the election and received by end of the day prior to certification.
- Valid provisional ballots, including those from other counties.
- Ballots canvassed and determined to be valid by the County Canvassing Board.
- Ballots duplicated after Election Day.
When to Tabulate After Election Day

The number of ballots, the length of time, and the population of the county determines when to tabulate following Election Day.

RCW 29A.60.160 mandates, “…the county auditor, as delegated by the County Canvassing Board, shall process ballots and canvass the votes cast at that primary or election on a daily basis in counties with a population of seventy-five thousand or more, or at least every third day for counties with a population of less than seventy-five thousand, if the county auditor is in possession of more than five hundred ballots that have yet to be canvassed.”

Important — Update results In VoteWA immediately following every count and send a pdf of the results and your tabulator file to the OSOS.

Results

Report election and primary results as:
- Cumulative
- By precinct

After every tabulation session is completed, results are:
- Uploaded to the VoteWA system before you leave for the day.
- Showing on your public website.
- A pdf copy of the results file is transmitted to Office of the Secretary of State.
Printed out for the record.
Transmitted by email/fax to media and other interested parties.

Check it out!

Within two days after Election Day, review results for anomalies by comparing precinct-by-precinct results for each race, measure and jurisdiction. Look for any anomalies such as:

- Abnormal number of overvotes
- Abnormal number of undervotes
- Odd vote distribution (especially within a jurisdiction)
- Unlikely patterns of voter turnout

Investigate and document the cause of any anomaly. Correct any identified errors.

Post-Election Audits
RCW 29A.60.170, .185

Duplicated Ballot Audit

A separate team of two must audit ballots duplicated during final processing. This audit compares the duplicated ballot to the original ballot.

Random Check of Counting Equipment – Random Precinct/Batch Audit

A random check of the ballot tabulation equipment is required and must be completed no later than 48 hours after Election Day.

The random check compares the manual count of the ballots to the machine count on the tabulation system. The random check/batch audit must:

- Include three precincts or six batches depending on ballot counting procedures in the county.
- Be limited to one office or issue on the ballots selected for the check.
- Include procedures adopted by the county Canvassing Board prior to processing ballots.
  - Procedures must specify under what circumstances a discrepancy will lead to an audit of additional ballots and the method to determine how many additional ballots will be selected.
Procedures must establish how the random precinct/batches to be checked shall be selected.

Final Storage

Secure all ballots immediately after tabulation. You may separate ballots according to precinct or batch.

If a single container stores multiple precincts or batches:
- Clearly separate the precincts or batches (e.g., with a piece of colored paper).
- Note which precincts or batches are in the box on the outside label.

Only open the storage containers when directed by the Canvassing Board or court order.

\[\text{In a close race, it may be necessary to re-examine ballots with undervotes, overvotes and write-in votes. Consider this when storing ballots.}\]
Chapter 6, Section 1

County Canvassing Board and Voter Intent

RCW 29A.60

Canvassing Board members must, by law, canvass ballots and certify the election. The County Canvassing Board is a three-member board that makes final determinations before certifying an election. Two of the three members, otherwise known as a quorum, must agree in order for any decision to be valid. All three members are required to certify an election.

For a handbook with laws, citations, and visuals, see our OSOS Introduction to County Canvassing Boards.

Who serves on the County Canvassing Board?

The three-member Board consists of:

- County Auditor (or Deputy Auditor). In King County, the Elections Director.
- Prosecuting Attorney (or Deputy PA).
- Chair of the Legislative Authority (or another member of legislative authority).

Members may designate in writing an alternate for a specific time or election, or until revoked by the designee. The designee for each position must have a separate designation on file in the County Auditor’s Office prior to undertaking Board duties.

What if a canvassing board member is also a candidate?

If possible, candidates appearing on the ballot should not serve on the canvassing board for that election or primary. The candidate may designate an alternate to serve in their place.

If no one is available to serve on the canvassing board who is not a candidate at that election or primary, the candidate may serve on the board, but may only make decisions on votes cast for other offices, an entire ballot, or groups of ballots.

Candidates must never make decisions on their own races.

- If a question involves the candidate’s race, the two remaining members make the determination.
- If the two disagree, the vote in question is not counted unless the vote could affect the outcome of the race. In that case, a representative of the Secretary of State shall break the tie.

NOTES: _____________________________________________________________________________________________
___________________________________________________________________________________________
What does a canvassing board meeting look like?

The board is required by law to adopt written procedures.
All county canvassing board meetings fall under the Open Public Meetings Act.
A public notice must be published for every meeting. The meeting agenda must be posted on the County Auditor website.
In the course of a meeting, decisions are made by quorum. Two members of the board must agree.
Records must be kept of all meetings (written minutes, audio recording, and/or video recording). Audio and video recordings have the same retention as written minutes.

Which canvassing board duties may be delegated to staff?

County Canvassing Boards may delegate duties in writing to County Auditor staff. Duties that may be delegated:

- Processing incoming ballots (signature verification).
- Emergency Logic and Accuracy tests.
- Determining the validity of provisional ballots in certain situations.
- Breaking tied races.
- Verifying the Auditor’s abstract of votes.
- Processing special absentee ballots.
- Administering recounts.
- Voter registration challenges.
- Determining voter intent according to rules outlined in “Statewide Standards on What is a Vote.”

Which canvassing board duties may not be delegated to staff?

- Determining the validity of challenged ballots.
- Determining the validity of provisional ballots presented to the board.
- Rejecting ballots.
- Certifying the election.

When does the board certify the election?

- On the 10th day after a special election held in February or April and Presidential Primaries.
- On the 14th day after a primary.
On the 21st day after a general election.

**What constitutes a vote?**

The Help America Vote Act in 2002 (HAVA) mandated that states adopt uniform standards defining what constitutes a vote and what counts as a vote for each voting system in the state.

**What is the standard?**

"Statewide Standards on What is a Vote"

This guide is published by the Secretary of State's Certification & Training Program in cooperation with the County Auditors and Canvassing Boards. It is adopted into the Washington Administrative Code.

Included in this guide:

- Examples of voted ballots representing all voting systems currently used in Washington State.
- Rules for the canvassing boards.
- Statewide consistency.
Before Certifying a Primary or an Election

You must complete the following before a primary or an election may be certified. Be sure to allow time between producing final results and the Canvassing Board certification to finalize all of these tasks:

- A random check of ballot counting equipment, a risk limiting audit or an audit of results cast on direct recording electronic devices (DREs) if applicable (See chapter 4 section 4, “Final Processing”).
- An audit of all duplicated ballots.
- Credit all voters whose ballots were valid and counted.
- Complete a reconciliation report of ballots.

Crediting Voters

Crediting voters’ records for casting a ballot is part of ballot processing. Credit the voter’s registration record in VoteWA only if a ballot was successfully processed and counted for that voter, or in other words, an “accepted” ballot.

When suspending a ballot for Canvassing Board determination, also suspend voting credit for that voter. If the Canvassing Board decides to count all or part of the ballot, give the voter credit for voting.

Complete all crediting before certification of the election or primary.

Ballot Reconciliation

Account for all received ballots in the final reconciliation of every election. **Daily reconciliation** is critical to successful final accounting of ballots.

Reconcile the numbers of:

- Ballots received — as documented in initial ballot processing.
- Signatures checked — found in VoteWA.
- Challenged ballots (signature issues, returned too late, etc.) — compare to challenged ballot report/list from VoteWA.
Ballots rejected by the Canvassing Board, including unresolved signature challenges, late postmarks, etc. — from the Canvassing Board minutes and daily records.

Ballots counted — from tabulation reports.

Any other categories needed to account for every ballot received in your office. Ballot reconciliation is not complete until all ballots are processed and reported, including provisional ballots, ballots cast on DREs, and ballots sent to the canvassing board for rejection.

We use a simple equation to reconcile ballots:

\[ \text{Ballots Received} = \text{Ballots Counted} + \text{Ballots Not Counted} \]

If the numbers do not reconcile, document the steps taken to resolve the discrepancy.

Reconciliation Report

When certifying an election or primary, present a complete reconciliation report to the Canvassing Board.

State law requires reconciliation reports to document the number of:

- Active registered voters, inactive voters.
- Total ballots issued, received, counted, and rejected.
- Total replacement ballots requested, issued, and received.
- Total provisional ballots issued, received, counted, rejected, and sent to other counties.
- Total Federal write-in ballots received, counted, rejected, and sent to other counties.
- Overseas and service (UOCAVA) ballots issued, received, counted, rejected, and sent to other counties. These numbers need to be broken out by mail, email, website link or fax.
- Non-Overseas and non-service (non-UOCAVA) ballots sent by email, website link or fax; received by email or fax; rejected for failing to send the original hard copy or any other reason.
- The number of voters credited with voting.
- DRE ballots (ES&S ExpressVote, Verity Touch Writer, Clear Ballot ClearAccess and Dominion ImageCast systems are not DREs) issued, received, counted, and rejected.
• Additional information needed to account for all ballots, such as the number of ACP and special absentee ballots.
• Ballots returned by email, fax, and deposited in county ballot boxes.
• Ballots issued through VoteWA, other online programs, or PDF generated by the county.

If you are unable to balance the number of ballots, document the efforts to find the discrepancy on the report. The reconciliation report and discrepancy documentation must be included in the official election certification.

The Reconciliation Report must be sent to the Secretary of State for every election and be publicly available at the County Auditor’s Office and/or on the County Auditor’s website.

The Secretary of State shall review the reconciliation for each county and work with the county auditor to resolve discrepancies. If a discrepancy is resolved, the county auditor shall submit a correct reconciliation report to the secretary of state within seven days following the certification of the election. The corrected report then becomes the official reconciliation report for that election. The county auditor shall post the corrected report on the county auditor website.

1 Do not wait until the day of certification to complete the report. Complete what you can in advance and make final adjustments just prior to certification.

Certification

County Responsibilities

The Canvassing Board must certify elections:
• 10 days after a special election held in February or April and Presidential Primaries.
• 14 days after a primary.
• 21 days after a general election.

IMPORTANT—Canvassing Board must certify on Certification Day.

Certification is an open public meeting and must be posted on your website.
All three Canvassing Board members, or designees, must certify the election.

Certification documents include the Auditor’s Oath and Board Certificate (must include the signatures and original seals of the Auditor), written narrative of errors and discrepancies discovered, if any, and a verified Abstract of Votes. The reconciliation report is submitted to the Secretary of State with the certification documents for state primaries and general elections. For other elections, only the reconciliation form is submitted to the Secretary of State.

“Election Certification Oaths” form is available at: https://www.sos.wa.gov/elections/reconciliationandcertification.aspx

Results

Upload primary or general election results to VoteWA.

Email a scanned copy of results for state offices/measures and the results export file from your tabulator to VoteWA Support.
OSOS Responsibilities

No later than 17 days after a primary, the Secretary of State's office will certify results for:

- All statewide offices
- U.S. Senators
- U.S. Congressional Representatives
- Legislative and judicial offices encompassing more than one county

No later than 30 days after a general election, the Secretary of State will certify the results of the general election for:

- All statewide offices
- U.S. Senators
- U.S. Congressional Representatives
- Legislative and judicial offices encompassing more than one county
- All state measures

Finishing Up

Following certification:

- Issue ceremonial certificates of election to all winners for offices that filed with the county.
- Prepare to answer questions about oats of office and where to file. Refer to the clearinghouse “Oaths of Office” for further information.
- For general elections only - report to each special taxing district the voter turnout for their district in the General Election.
- Wait to change data in VoteWA until after certification and/or determination of the voter turnout in each special taxing district.
- Organize and label records by election type and date.

When storing documents, include the "hold until" retention date and the document retention number on the label.

Determine Taxing District Turnout for Validation

Districts use general election turnout to determine the validation requirements for their bond and levy measures. The County Auditor must provide a report that lists the number of voters that participated in the general election for each taxing district in their county.
The County Auditor is not responsible for determining minimum turnout or yes votes required for ballot measures and shall not determine if ballot measures meet requirements for passage. The County Auditor should not provide any other validation numbers to districts.

*Best Practices:* Provide each taxing district with the deadlines for submitting levy or bond resolutions for each election along with a copy of the voter turnout report.

For more information, refer to the “Bonds and Levies” Clearinghouse.

**Records Retention**

Chapter 6, Section 3

Recounts
RCW 29A.64, WAC 434-264

Definition
A recount is re-tabulating the votes, including write-ins, for a specific office or issue on all valid ballots cast in a primary or election. If a ballot has been duplicated, the duplicate ballot (not the original) shall be counted.

What initiates a recount?
Recounts can be mandatory or by request. State law requires a recount if the number of votes for each candidate is within a specified range. By law, you cannot recount a race or issue more than twice.

</tr>
<tr>
<td>Local Measure</td>
<td>Written request within 2 business days of county certification by 5 or more registered voters</td>
<td>No mandatory recount</td>
<td>No mandatory recount</td>
</tr>
</tbody>
</table>
Requested Recounts

State law determines who may request a recount in writing.
  • **For an office**: by a candidate of that office or officer of a political party only.
  • **For a measure or question**: by any group of five or more registered voters only.

The requester must submit a request for a recount within two business days of certification of the election.

**For state offices, state measures and multi-county state office**: the request is filed with the Secretary of State.

**For single county, state, and local offices and minor taxing districts**: the request is filed with the County Auditor with whom candidates for that district file.

Included in a recount request:
  • The office or issue for which the recount is requested.
  • Whether the recount is a machine or manual count.
  • If all or only a portion of the precincts are to be recounted.
  • A deposit depending upon the way the recount is conducted.
    o Machine recount $.15 per ballot.
    o Manual recount $.25 per ballot.

The requester is responsible for the entire cost of the recount and will receive a bill or refund for the difference.

Conduct a requested recount in the same manner as a mandatory recount.

The requester may stop the recount at any time; however, a recount cannot be stopped before completion if the result would reverse the outcome.

If a partial recount reverses the outcome of the election, recount all the ballots for that race or question.

If a full recount reverses the outcome of the race or question, the deposit is refunded.

Mandatory Recounts

Mandatory recounts occur when the votes for offices or statewide measures fall within the statutory range. State law does not provide for a mandatory recount of a local issue.
Mandatory recounts of any office or state measure, by machine or by hand, occur when the difference between the two candidates or state measure choices is:
- Less than 2000 votes difference, AND
- Less than \( \frac{1}{2} \) of 1% of the total votes cast for the office or issue.

For statewide offices or measures, you must recount votes by hand if the difference between the two candidates or choices is:
- Less than 1000 votes, AND
- Less than \( \frac{1}{4} \) of 1% of the total votes cast for the office or issue.

For all other offices, you must recount votes by hand if the difference between the two candidates is:
- Less than 150 votes, AND
- Less than \( \frac{1}{4} \) of one percent of the total votes cast for the office or issue.

Alternative method — If an alternative recount method is proposed, all candidates must agree to it.

**Which candidates are recounted?**
The type of election determines which candidates meet the recount threshold and require a recount.

In a primary, the second and third highest vote getters may require a recount.
- The highest vote getter automatically advances to the general election.
- If the top two are the close candidates, no recount is necessary.

In a general election, the top two vote getters may require a recount.

**Conducting a Machine Recount**
You may choose to recount by hand or machine if the vote difference does not require a hand recount.

The County Canvassing Board sets the date and time of the recount. The Secretary of State may set the certification date in a multi-county recount.

The applicant and affected people are officially notified one day before the recount.
Observers are allowed. Different types of observers are prioritized in WAC when space will not accommodate all observers.

Assemble the ballots to be recounted in the presence of observers.

Votes previously determined by the County Canvassing Board are counted as directed by the Board.

Ballot issues found during the recount, not previously addressed or included in the original count, are determined by the County Canvassing Board.

Recount results are by precinct and only include the office or issue recounted.

**Digital Scan Systems**
In a machine recount, program digital tabulation equipment to identify all ballots that include an undervoted office or ballot measure subject to the recount. Inspect for valid votes not correctly counted by the tabulation equipment. Refer votes not correctly counted to the County Canvassing Board.

**Optical Scan Systems**
In a machine recount, optical scan tabulation equipment must be programmed to out-sort all ballots that include an undervoted and overvoted office or ballot measure subject to the recount. Inspect for valid votes not correctly counted by the tabulation equipment. Refer votes not correctly counted to the County Canvassing Board.

---

May a canvassing board determine is a recount is conducted by machine or by hand?
Yes, as long as a hand recount is not required. Coordination with other counties may be necessary for joint districts.

**Conducting a Hand Recount**

The original paper ballots are used for hand recounts, except for ballots where votes were duplicated onto another ballot. In that case the duplicate ballot is recounted.

Voter intent previously determined by the County Canvassing Board is counted as directed by the Board.
Ballot issues found during the recount, not previously addressed or included in the original count, are determined by the County Canvassing Board.

Votes are tallied by counting board(s), comprised of at least two members:
- One representative from each of the two major political parties; or
- Two staff members from the County Auditor’s Office.

Recount only the votes for the office or issue.

Each board will receive one precinct or batch at a time.
*Note:* You may use batches only if the County Auditor produces election results by batch for comparison. However, you must produce final recount results by precinct.

Counting boards:
- Sort ballots into separate stacks, one for each candidate or response, undervotes, overvotes, and write-ins.
- Each board member manually counts each stack to confirm the number of votes in each stack.
  - Report results if the members’ counts match.
  - Count ballot stacks again if the counts do not match.
  - Send ballots to another counting board if the counts still do not match after a second count.

Complete the recount using machine recount procedures.

**Certifying a Recount**

The County Auditor prepares an amended abstract of the recounted ballots for the County Canvassing Board, even if the results did not change. The abstract includes results only for the recounted office or measure:
- A revised cumulative summary.
- The number of votes cast in each precinct.

The County Canvassing Board must review and approve the amended results. If the results do not match the original results, the board will verify that all the ballots have been recounted and all discrepancies are resolved.

**Tied Races**
If the recount results in a tie, the winner is determined by lot.

Depending upon the office, the County Canvassing Board or the Secretary of State designates the time and place for the lot draw, notifies the affected candidates, and certifies the winner.

Measures are not subject to lot draws — they either have enough votes to pass or they fail.
Washington State Election Officials’ Pledge

We the Elections Officials of Washington State, in Order to form a more perfect Union, establish accurate vote counts, ensure electoral transparency, provide for the common defense of the electoral process, promote voter access, and secure the blessings of democracy. We do commit ourselves to the faithful execution of our duties...

I uphold the Constitution of the United States and the laws, policies and court decisions of federal, state and local jurisdictions;

I have the courage and stamina to protect the public's interest from personal/partisan manipulation or gain while respecting the rights of all;

I commit to excellence and competence by maintaining the highest level of knowledge and expertise in the elections process through continuing education and self evaluation;

I am accountable for maintaining public confidence in honest and impartial elections which I conduct in a fair, efficient and accurate manner;

I dignify voters by providing equal opportunity to participate in the democratic process;

I am responsible for just and equitable treatment of the general public, elected officials and members of my profession;

I manifest a positive role in community relations by being accessible and receptive to both individuals and groups;

Principles of Election/Registration Officials

**Principles of Election/Registration Officials**

**WE SUBSCRIBE TO THESE PRINCIPLES:**

- Freedom is an inherent human right, but it is also fragile and can be lost through neglect or misuse.
- Freedom requires responsibility.
- Freedom can best be maintained and nurtured through the democratic process. The success of the democratic process requires fair and open elections which accurately reflect the intent of the electorate.
- Therefore, it is our unique role as election officials to serve as gatekeepers of Democracy.

It is our sacred honor to protect and promote public trust and confidence by our conduct of accurate and fair elections.

As the public’s guardians of freedom within a democratic society, we are responsible for the integrity of the process. Our role demands that these principles must be placed above personal or partisan gain.

Nurturing and protecting democracy is a team effort in the profession of elections administration. Our task requires wisdom, courage and the desire to remain focused on our vision of free and impartial elections despite changes in our society and its laws.

By dedicated adherence to these principles and standards of conduct, we demonstrate our loyalty to freedom, pride in our profession and a commitment to the excellence of the democratic process.

WAC 434-250-100 Ballot deposit sites.

If a location only receives ballots and does not issue ballots, it is considered a ballot deposit site. Ballot deposit sites may be staffed or unstaffed.

(1) A staffed ballot deposit site must be staffed by at least two people. Deposit site staff may be employees of the county auditor’s office or persons appointed by the auditor. Deposit site persons, appointed by the county auditor, shall be representatives of different major political parties whenever possible. Deposit site staff or appointees shall subscribe to an oath regarding the discharge of their duties. Staffed deposit sites open on election day must be open until 8:00 p.m. Staffed deposit sites may be open according to dates and times established by the county auditor. Staffed deposit sites must have a ballot box secured in the manner described in WAC 434-261-045.

(2) Unstaffed ballot deposit sites consist of secured ballot boxes that allow return envelopes, once deposited, to only be removed by authorized staff or appointees. Ballot boxes located outdoors must be constructed of durable material able to withstand inclement weather, and be sufficiently secured to the ground or another structure to prevent their removal. Unstaffed ballot deposit sites must accept ballots beginning eighteen days prior to election day until 8:00 p.m. on election day. The county auditor must empty each ballot box with sufficient frequency to prevent damage and unauthorized access to the ballots.

(3) Unstaffed ballot boxes must be locked and sealed in the manner described in WAC 434-261-045. At exactly 8:00 p.m. on election day, all unstaffed ballot boxes must be emptied or secured to prevent the deposit of additional ballots. The box must be closed and secured by one or two people. One person may secure an unstaffed ballot box only if:

(a) The person does not have access to the deposited ballots; and

(b) Before sealing the deposit slot, the person records the seal number on a log and places the log inside the ballot box. The slot is then closed and secured with the numbered seal; and

(c) A team of two removes the ballots from the box and verifies the seal and log. The county auditor shall remove the deposited ballots and transport them to the counting center by either:

(i) Two employees of or two persons appointed by the county auditor; or

(ii) Secured transport carrier containing ballots removed and sealed by two employees of or two persons appointed by the county auditor. Sealed transport carriers may be delivered to the counting center by one person. Ballots shall be secured in this manner when transported by vehicle.

Rule B  

**Pattern of Similar Marks**

Marks made outside of the target area shall be counted as valid votes as long as those marks form a pattern of similar marks. All races and issues for which the voter has indicated a choice outside the target area must have a similar mark.

Marks made outside of the target area may be counted as valid votes even if one pattern of similar marks is used on one page (side) of the ballot and another pattern of similar marks is used on another page of the ballot.

Marks made outside of the target area shall be counted as valid votes if one pattern of similar marks is used for measures and another pattern of similar marks is used for candidate races.

If some marks are in the target area and some are not, but the same type of mark is used, all such marks shall be counted as valid votes.

If the marks strike through candidate names or ballot measure responses in a pattern of similar marks throughout the ballot, all such marks shall be counted as valid votes.

A mark outside the target area on a ballot that contains only one race or measure is not required to form a pattern.

For Rule B, One Mark on a Ballot, see page 28.
### Rule B, Example 1a

All choices marked are valid votes.

While the voter made marks outside the target area, these marks form a pattern of similar marks and count as valid votes.

Rule B, Example 3a

Only the vote for Thurgood Marshall is valid.

In this example, one choice is marked in the target area and more marks are made outside the target area. Together, these marks do not form a pattern of similar marks. Only the vote for Marshall counts as a valid vote, because it is marked in the target area.
Rule B, Example 3b

Only the vote for Thurgood Marshall is valid.

In this example, one choice is marked in the target area and other marks are made outside the target area. Together, these marks do not form a pattern of similar marks. Only the vote for Marshall counts as a valid vote, because it is marked in the target area.
Rule B, Example 4a

All choices marked are valid votes.

In this example, all choices marked by the voter form a pattern of similar marks. While some marks are made outside the target area, the marks form one pattern of similar marks on the front of the ballot and another pattern of similar marks on the back.

This is a multiple page ballot.
Rule B, Example 4b

All choices marked are valid votes.

In this example, all choices marked by the voter form a pattern of similar marks. While marks are made outside the target area, the marks form one pattern of similar marks for measures and another pattern of similar marks for candidate races.

Rule B  

One Mark on a Ballot

When a voter returns a ballot having marked only one race or measure, the act of returning a ballot indicates the voter wished to cast a vote in that race or measure. Because a pattern cannot be established when a voter marks only one race or measure, marks made on a single race or measure must be considered a vote if the voter’s intent can be determined.

For Rule B, Pattern of Similar Marks, see page 18.
Rule B, One Mark on a Ballot, Examples 1a–d

Each example shows one mark on a ballot and a valid vote for ‘Yes.’

Proposition No. 1
City of Angels School District
Capital Projects Technology Levy

The Board of Directors of the City of Angels School District No. 1235 adopted Resolution No. 12345-11 concerning a proposition to finance technology equipment improvements within the District. If passed, Proposition No. 1 would authorize the District to levy the following excess taxes upon all taxable property within the District in order to acquire, install and provide training in connection with educational technology equipment improvements:

Rule K  Write-in: Blank Line

If the write-in target area is marked, but no name is written on the line, it shall not be counted as a valid vote, even though it may be tallied as a write-in vote by the tabulation system.
Rule K, Examples 1a–d

The following marks are not valid votes and will not count for any candidates.

Rule L  Write-in: Blank Line and Candidate

If a candidate’s target area is marked, and the write-in target area is marked but no name is written on the line, it shall not be tallied as an overvote, but shall be counted as a valid vote for the printed candidate.
Rule L, Examples 1a–d

The following marks are valid votes for William Henry Harrison.

In each example, the race is not considered an overvote because a candidate’s target area is marked, and no name is written on the write-in line.

**Write-in: Candidate and Write-in Response Area**

If a candidate’s target area is marked, the write-in target area is also marked, and something other than that candidate’s name is written in the write-in response area, it shall be counted as an overvote and not a valid vote for any candidate.

If a candidate’s target area is marked and the write-in target area is not marked, it shall be counted as a valid vote for the marked candidate.

If the voter’s intent cannot be ascertained, the ballot shall be referred to the Canvassing Board.
Rule N, Examples 1a–d

The following marks are tallied as overvotes, and not valid votes for any candidate.

In each example, the voter marked two target areas and wrote something other than the printed candidate’s name in the space provided. These examples are tallied as overvotes.

Rule O  Write-in: Not Eligible

A write-in vote for a race not appearing on the voter’s ballot shall not be counted.

Exception to Rule O:

If a provisional ballot has been cast and the voter has written in an office or measure that is not on the ballot, that vote shall be counted if it is determined, based on the voter’s registration, that he or she is eligible to vote for that office or measure.
Rule O, Example 1

The write-in vote intended for the Seattle Monorail measure is not valid.

The voter has written in a vote for a race that did not appear on the ballot. This voter is not eligible to vote for the Seattle Monorail, and the vote for that race will not count. All other votes on this ballot are valid and will count.

Rule P  Write-in: Vote in the Wrong Place

A write-in vote for a race appearing elsewhere on the ballot shall be counted as a valid vote, as long as all other requirements are fulfilled and the office, position number and political party, if applicable, are clearly indicated.
### Rule P, Example 1

The write-in vote for Teddy Roosevelt is valid.

The voter has written a write-in vote for a race that is already on the ballot, but in a different location. This must count as a valid vote for Roosevelt for State Representative District 14, Position 1.

Rule Q  Messy Marks

When otherwise valid votes marked in a target area partially extend into the response area, it shall be counted as a vote if most of the mark is in the target area and intent can easily be discerned.
Rule Q, Examples 1a–c

The following marks are valid votes for William Henry Harrison.

Even though the marks in these examples partially extend into other target areas, each shows a valid vote for one candidate.
Rule R  

**Pattern of Partisan Voting**

Voter intent in any single contest shall not be determined based on a pattern of partisan voting on the ballot.

**Exception to Rule R:**

On a Federal Write-in Absentee Ballot (FWAB) in which the voter has not written in a candidate’s name but has written in the name of a political party, the written instructions may be counted as a vote if the canvassing board can discern that a candidate’s party preference is consistent with the voter’s instructions. The canvassing board shall not count the instructions as a vote if no candidate’s party preference is consistent with the voter’s instructions, or if multiple candidates’ party preferences are consistent with the voters’ instructions.
Rule S  Anything Else

Voter intent on questionable marks not covered by the rules in this manual must be determined by County Canvassing Boards according to all applicable laws of the state of Washington and the Canvassing Board manual.

Where more than one rule may apply, the County Canvassing Board has authority to determine which rule is most appropriate.
Glossary

Declared Write-in Candidate
A candidate whose name is not printed on the ballot, but has filed a declaration of write-in candidacy with the appropriate filing officer no later than 8:00 p.m. on Election Day.

See Rule R.

Federal Write-in Absentee Ballot (FWAB)
The FWAB is an alternative ballot for overseas and uniformed services voters. The ballot contains blank lines for the voter to write in candidates’ names for any office. If the voter doesn’t know the names of candidates, the voter may write in a political party preference.

Target Area
The oval or rectangle corresponding to a candidate, write-in line, or choice on the ballot where the voter is instructed to mark their vote. Tabulation systems read target areas.

Undeclared Write-in Candidate
An undeclared write-in candidate has not filed a declaration of write-in candidacy by the applicable deadline. No votes shall be counted for a write-in candidate who has not properly filed a write-in declaration of candidacy.

Response Area
The area on the ballot corresponding to a candidate, write-in line, or choice, including the target area as well as the printed name or response and party information, if applicable.

Overvote
Votes cast for more than the permissible number of selections allowed in a race or measure. An overvoted race or measure does not count in the final tally of that race or measure. Example of an overvote would be voting for two candidates in a single race with the instruction, “vote for one.”

Undervote
No selections made for a race or measure.

Pattern of Similar Marks
A pattern of similar marks on a voted ballot occurs when the same type of mark is made for each office, for each measure, or for each vote cast on a particular page (side) of the ballot. The marks may be inside or outside the target area.

Valid Vote
A vote which should be counted.

See Rule R.

Voter Fatigue
An indication of voter fatigue is when marks made by a voter in target areas on a ballot get smaller with each consecutive race.

Write-in Vote
A vote handwritten on the ballot.

Case Law

(a) Requirements. Each voting system used in an election for Federal office shall meet the following requirements:
(b) Uniform definition of what constitutes a vote. Each state shall adopt uniform and nondiscriminatory standards that define what constitutes a vote and what will be counted as a vote for each category of voting system used in the State.
(d) Effective date. Each state and jurisdiction shall be required to comply with the requirements of this section on and after January 1, 2006.

State Law: Revised Code of Washington (RCW)

RCW 29A.36.111
Uniformity; arrangement, contents required.
(1) Every ballot for a single combination of issues, offices, and candidates shall be uniform within a precinct and shall identify the type of primary or election, the county, and the date of the primary or election, and the ballot or voting device shall contain instructions on the proper method of recording a vote, including write-in votes. Each position, together with the names of the candidates for that office, shall be clearly separated from other offices or positions in the same jurisdiction. The offices in each jurisdiction shall be clearly separated from each other. No paper ballot or ballot card may be marked by or at the direction of an election official in any way that would permit the identification of the person who voted that ballot.
(2) An election official may not enter into or extend any contract with a vendor if such contract may allow the vendor to acquire an ownership interest in any data pertaining to any voter, any voter’s address, registration number, or history, or any ballot.

RCW 29A.60.021
Write-in voting—Declaration of candidacy—Counting of votes (SR 6058).
(1) For any office, except precinct committee officer, at any election or primary, any voter may write in on the ballot the name of any person for an office. Votes must be individually tallied for a candidate who has filed as a write-in candidate for the office in the manner provided by RCW 29A.24.311 as long as the requirements of subsection (6), (7), or (8) of this section are met. No write-in vote for a declared write-in candidate may be rejected due to variation in the form of the name if the canvassing board can determine the person and office for which the voter intended to vote.
(2) The total number of write-in votes cast for each office must be recorded and reported with the canvass for the election.
(3) A write-in vote for an individual candidate for an office whose name is printed on the ballot for that same office is a valid vote for that candidate as long as the candidate’s name is clearly discernible, even if the voter also marked a vote for that candidate such as to otherwise register an overvote.
References (continued)

(4) Write-in votes cast for an individual candidate for an office whose name does not appear on the ballot need not be individually tallied unless the candidate has filed a timely declaration of write-in candidacy.

(5) In the case of write-in candidates for a statewide office or any office whose jurisdiction encompasses more than one county, write-in votes for an individual candidate must be tallied when the county auditor is notified by the filing officer for that office that a candidate has filed a timely declaration of write-in candidacy. In all other cases, the county auditor determines, in accordance with this section, whether a candidate has filed a timely declaration of write-in candidacy and thus, write-in votes must be individually tallied. The county canvassing board must certify write-in votes including the vote total received by a candidate that has filed a timely declaration of write-in candidacy if the requirements of subsection (6), (7), or (8) of this section are met. Final results must consolidate the vote total associated with each candidate after the canvassing board has reconciled any variation in the spelling of names for those candidates.

(6) In a primary, if the name of only a single candidate appears on the ballot for an office, and the total number of write-in votes cast for that office exceeds one percent of the total number of votes cast for that office, the individual write-in votes for each candidate who has filed a timely declaration of write-in candidacy must be canvassed and reported. Otherwise, individual tallying of write-in votes is not required.

(7) In a primary, if two or more candidates appear on the ballot for an office and the total number of write-in votes cast for that office exceeds the number of votes cast for the candidate with the second highest number of votes, then the individual write-in votes for each candidate who has filed a timely declaration of write-in candidacy must be canvassed and reported. Otherwise, individual tallying of write-in votes is not required.

(8) In a general election, if the total number of write-in votes cast for an office exceeds the number of votes cast for the candidate apparently elected to that office, then the individual write-in votes for each candidate who has filed a timely declaration of write-in candidacy must be canvassed and reported. Otherwise, individual tallying of write-in votes is not required.

RCW 29A.60.040
Rejection of ballots or parts—Write-in votes.

A ballot is invalid and no votes on that ballot may be counted if it is found folded together with another ballot.

Those parts of a ballot are invalid and no votes may be counted for those issues or offices where more votes are cast for the office or issue than are permitted by law; write-in votes do not contain all of the information required under RCW 29A.60.021; or that issue or office is not marked with sufficient definiteness to determine the voter's choice or intention. No write-in vote may be rejected due to a variation in the form of the name if the canvassing board can determine the issue for or against which or the person and the office for which the voter intended to vote.

References (continued)

RCW 29A.60.100
Votes by stickers, printed labels, rejected.

Votes cast by stickers or printed labels are not valid for any purpose and shall be rejected. Votes cast by sticker or label shall not affect the validity of other offices or issues on the voter's ballot.

RCW 29A.60.120
Counting ballots—Official returns.

(1) All voted ballots must be manually inspected for damage, write-in votes, and incorrect or incomplete marks. If it is found that any ballot is damaged so that it cannot properly be counted by the vote tallying system, a true duplicate copy must be made of the damaged ball by the presence of witnesses and substituted for the damaged ballot. All damaged ballots must be kept by the county auditor until sixty days after the primary or election or according to federal law, whichever is longer.

(2) The returns produced by the vote tallying system, to which have been added the counts of questioned ballots, and write-in votes, constitute the official returns of the primary or election in that county.

RCW 29A.60.125
Damaged ballots.

If inspection of the ballot reveals a physically damaged ballot or ballot that may be otherwise unreadable or uncountable by the tabulating system, the county auditor may refer the ballot to the county canvassing board or duplicate the ballot if so authorized by the county canvassing board. The voter's original ballot may not be altered. A ballot may be duplicated only if the intent of the voter's marks on the ballot is clear and the electronic voting equipment might not otherwise properly tally the ballot to reflect the intent of the voter. Ballots must be duplicated by teams of two or more people working together. When duplicating ballots, the county auditor shall take the following steps to create and maintain an audit trail of the action taken:

(1) Each original ballot and duplicate ballot must be assigned the same unique control number, with the number being marked upon the face of each ballot, to ensure that each duplicate ballot may be tied back to the original ballot;

(2) A log must be kept of the ballots duplicated, which must at least include:
(a) The control number of each original ballot and the corresponding duplicate ballot;
(b) The initials of at least two people who participated in the duplication of each ballot; and
(c) The total number of ballots duplicated.

Original and duplicate ballots must be sealed in secure storage at all times, except during duplication, inspection by the canvassing board, tabulation, or to conduct an audit under RCW 29A.60.185.

Definitions.

(3) "Readable ballot" is any ballot that the certified vote tallying system can accept and read as the voter intended without alteration, and that meets the standards of the county canvassing board subject to the provisions contained in this title;

(4) "Unreadable ballot" is any ballot that cannot be read by the vote tallying system as the voter intended without alteration. Unreadable ballots may include, but not be limited to, ballots with damage, write-in votes, incorrect or incomplete marks, and questions of voter intent. Unreadable ballots may subsequently be counted as provided by these administrative rules; ...

WAC 434-261-120
Referral of questionable ballots to canvassing board.

Whenever counting center personnel has a question about the validity of a ballot or the votes contained on the ballot that they are unable to resolve, the ballot shall be forwarded to the canvassing board for review. The facts giving rise to the question of validity must be noted.

Ballots being held for determination of validity or voter’s intent shall be provided the same security as regular voted ballots and shall be kept in a secure area when not being processed.

WAC 434-261-970
Manual inspection of ballots.

(1) All voting positions on voted ballots shall be manually inspected on both sides of the ballot to determine whether the ballot is readable by the vote tabulating system. The county auditor must ensure that write-in votes are tabulated correctly, consistent with the voter’s intent. Ballots must be inspected for overvotes, undervotes, and write-in votes prior to tabulation. This manual inspection is a required part of processing ballots.

(2) The state of Washington is a voter intent state. When a voter’s choice or intention can be determined, that vote shall be counted. If the manual inspection process detects any physically damaged ballots, unreadable ballots which might not be correctly counted by the tabulating equipment, or marks that differ from those specified in the voting instructions, such ballots may be duplicated or resolved, if necessary, and counted according to the statewide standards on what is a vote, as provided in WAC 434-261-086. mark in the target area must be duplicated or resolved. The county canvassing board shall make the final determination of voter intent for ballots not addressed in the statewide standards on what is a vote.

WAC 434-261-075
Votes on something other than a ballot.
If the voter returns voting responses by mail on any form other than a ballot, the vote thereon shall be acceptable and tallied provided that:

(1) Only votes for offices or measures for which the voter is eligible are counted.

(2) The candidate or measure response position for which the voter is voting can be clearly identified.

(3) The ballot issued is not returned, or if returned, contains no marks indicating an attempt to vote it.

(4) A valid signature on a ballot declaration is received with the voting responses.

The votes accepted must then be duplicated to a ballot that can be read by the electronic voting equipment.

Votes on a ballot from a previous primary or election cannot be counted for another primary or election. These ballots must be rejected per WAC 434-262-031.

WAC 434-261-086
Statewide standards on what is a vote.

(1) Pursuant to 42 U.S.C. § 15431(a)(6) and Bush v. Gore, 531 U.S. 99 (2000), the following standards determine whether irregular marks on a ballot constitute a valid vote that may be counted. ...

(2) The secretary of state shall publish an illustrated version of these standards in each optical scan and digital scan voting system used in the state. The secretary of state shall distribute the illustrated version to each county canvassing board and post it on the website.

(3) The secretary of state shall periodically review and update the manual as necessary, and seek input from county canvassing boards and other interested parties to ensure that the standards remain current and comprehensive.

WAC 434-262-031
Rejection of ballots or parts of ballots.

(1) The disposition of provisional ballots is governed by WAC 434-262-032. The county canvassing board must reject any ballot cast by a voter who was not qualified to vote, or for other reasons required by law or administrative rule. A log must be kept of all voted ballots rejected, and must be included in the minutes of each county canvassing board meeting.

(2) Ballots or parts of ballots shall be rejected by the canvassing board in the following instances:

(a) Where a voter has already voted one ballot;
(b) Where two voted ballots are returned together:

(i) If the two ballots are returned with only one valid signature on the ballot declaration, the races and measures voted the same on both ballots may be counted once.
References (continued)

(ii) If the two ballots are returned with two valid signatures on the ballot declaration, both ballots may be counted in their entirety;
(c) When a ballot or part of a ballot are marked in such a way that it is not possible to determine the voter’s intent consistent with WAC 434-261-096;
(d) Where the voter has voted for candidates or issues for whom he or she is not entitled to vote;
(e) Where the voter has overvoted;
(f) Where the voter validly transferred out of the county;
(g) Where the ballot was created for a prior election.

(2)(a) If a write-in candidate for partisan office does not file a write-in declaration of candidacy but does qualify for the general election ballot, the candidate has not stated a preference for a political party and therefore shall have “states no party preference” printed on the general election ballot.
(b) If a write-in candidate for partisan office files a write-in declaration of candidacy and qualifies for the general election ballot, the party preference stated on the write-in declaration of candidacy, if any, shall be printed on the general election ballot.

WAC 434-262-160
Write-in voting—Voter intent.
(1) In all cases of write-in votes the canvassing board shall exercise all reasonable efforts to determine the voter’s intent. Write-in votes in the general election are not to be counted for any person who filed for the same office as either a regular or write-in candidate at the preceding primary and failed to qualify for the general election. If a write-in declaration of candidacy has been filed, the voter need only write in that candidate’s name in order for the vote to be counted; the candidate’s party preference does not impact whether the write-in vote shall be counted. If no declaration of write-in candidacy has been filed, the voter must write in the name of the candidate and, if the office or position number cannot be determined by the location of the write-in on the ballot, the office and position number, in order for the write-in vote to be counted.
