

This schedule applies to: Utility Service Providers

Scope of records retention schedule

This records retention schedule authorizes the destruction/transfer of public records of all local government agencies relating to the unique functions of providing utility services (power generation/distribution, water, sewer, irrigation water, and solid waste management, surface water drainage, etc.). The schedule is to be used in conjunction with the *Local Government Common Records Retention Schedule (CORE)*, which authorizes the destruction/transfer of public records common to all local government agencies.

Disposition of public records

Public records covered by records series within this records retention schedule must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival (Permanent Retention) or Non-Archival (with a retention period of “Life of the Agency” or “Permanent”) must not be destroyed. Records designated as Archival (Appraisal Required) must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency’s policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with chapter 42.56 RCW. Such public records must be managed in accordance with the agency’s policies and procedures for public records requests.

Revocation of previously issued records retention schedules

All previously issued records retention schedules for records that are covered by this retention schedule are revoked. Local government agencies must ensure that the retention and disposition of public records is in accordance with current, approved records retention schedules.

Authority

This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on February 6, 2019.

REVISION HISTORY

Version	Date of Approval	Extent of Revision
Initial	1981	First public utilities retention schedule.
1.0	December 2, 2010	All records series relating to the provision of public utilities were transferred from the <i>Local Government General Records Retention Schedule (LGGRRS) Ver. 5.1</i> . Records series prefix changed from GS to UT, and all notes about previous revisions and corrections removed. Some titles were shortened by removing functions/activities ("UTILITIES ACCOUNTING", "ELECTRIC POWER GENERATION", etc.). Electric Utilities section was restructured, and three new records series added: two to Power Generation, and one to Power Distribution. An additional series covering critical cyber assets was added, and additional series were revised. (See Revision Guide.)
1.1	April 26, 2012	Added new series related to nuclear power utilities. Updated format and disposition actions for consistency. (No Revision Guide issued.)
1.2	November 29, 2012	Solid Waste Management added; records series imported from demolished <i>Local Government General Records Retention Schedule (LGGRRS) Version 5.2</i> . New series added: Utility Meter Readings – For Energy Planning and/or Conservation Education (UT2012-050). UT55-05B-18 revised. 10 series covered by <i>CORE</i> discontinued. (See Revision Guide.)
1.3	May 18, 2017	Minor revisions to the Asset Management – Advice and Technical Assistance; Irrigation Utilities; Surface Water Drainage Documentation; and Utilities Accounting sections as well as formatting updates throughout the schedule.
1.4	February 6, 2019	Minor revisions to the Asset Management – Security; Power Generation; and Solid Waste Management sections as well as formatting updates throughout the schedule.

GLOSSARY (See CORE glossary for additional items)

ANI

American Nuclear Insurers.

A joint underwriting association created by insurance companies in the United States with a purpose to pool the financial assets pledged by member companies to provide the significant amount of property and liability insurance required for nuclear power plants and related facilities throughout the world.

ANSI

American National Standards Institute.

A private not-for-profit organization with a purpose to coordinate the development of voluntary consensus standards for products, processes and systems in the United States.

BAL

Resource and Demand Balancing reliability standards.

Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

CFR

Code of Federal Regulations.

The codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

CIP

Critical Infrastructure Protection.

Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

INT

Interchange Scheduling and Coordination reliability standards.

Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

IRO

Interconnection Reliability Operations and Coordination reliability standards.

Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

Lifetime Quality Assurance Records (as defined in ANSI N45.2.9 – 1974, Section 2.2.1)

2.2.1 Lifetime Quality Assurance Records. Lifetime records are those which meet one or more of the following criteria:

- 1. Those which would be of significant value in demonstrating capability for safe operation.*
- 2. Those which would be of significant value in maintaining, reworking, repairing, replacing, or modifying the item.*
- 3. Those which would be of significant value in determining the cause of an accident or malfunction of an item.*
- 4. Those which provide required baseline data for inservice inspection.*

Nonpermanent Quality Assurance Records (as defined in ANSI N45.2.9 – 1974, Section 2.2.2)

2.2.2 Nonpermanent Quality Assurance Records. Nonpermanent Records are those which meet all of the following criteria:

- 1. Those of no significant value in demonstrating capability for safe operation.*
- 2. Those of no significant value in maintaining, reworking, repairing, replacing, or modifying the item.*
- 3. Those of no significant value in determining the cause of an accident or malfunction of an item.*
- 4. Those which do not provide baseline data for inservice inspection.*

U.S.NRC

United States Nuclear Regulatory Commission.

An independent agency of the United States government with a purpose to regulate commercial nuclear power plants and other uses of nuclear materials, such as in nuclear medicine, through licensing, inspection, and enforcement of its requirements.
