**Part V:**

**Glossary**

## Glossary

**ADULT CIRCULATION:** (Table 11) This is the annual circulation of all adult materials in all formats to all users. It is a count of the adult materials that are circulated, no matter who borrows them. **See also:** *Children Circulation, Young Adult Circulation*

**ADULT LIBRARY PROGRAMS:** (Table 12) This is the number of programs for which the primary intended audience is adults (those over 18). A program or presentation is an information contact in which a staff member, or person invited by a staff member, provides information intended for a number of persons and planned in advance. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long as they are sponsored by the library. This does not include meetings sponsored by other groups using library meeting rooms. **See also:** *Children Library Programs, Library Programs, Young Adult Library Programs*

**ADULT PROGRAM ATTENDANCE:** (Table 12) The number of people of all ages attending programs or presentations intended for adults which are planned and sponsored by the library. **See also:** *Children Program Attendance, Young Adult Program Attendance*

**AMOUNT PER CAPITA:** *See: per Capita*

**ANNUAL LIBRARY ATTENDANCE:** (Table 13) This is the total number of persons entering the library per year including persons attending activities, meetings, and those persons requiring no staff services.

**ANNUAL LIBRARY ATTENDANCE PER CAPITA:** (Table 13) Library attendance per capita relates the total number of persons entering the library annually to the population of the library's legal service area. It is the annual attendance at the library divided by the population of the library's legal service area. This measure indicates the average number of library visits per person served.

**ANNUAL PUBLIC SERVICE HOURS:** (Table 9, 13) This is the total annual public service hours for all outlets combined. Both the main library and the branches are counted using the following instructions: "Report the sum of annual public services hours for service outlets. Includes central, branches, and bookmobiles. Does not include other outlets. For bookmobiles report only the hours during which the bookmobile is open to the public. Do not include hours for deposit collections or other similar service outlets."

**ANNUAL REFERENCE TRANSACTIONS:** (Table 13) This is the total number of reference transactions in the year. A reference transaction is an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include print and non-print materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings records and, through communication or referral, other libraries and institutions, and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report it as a reference transaction, even if the source is not consulted again during this transaction.

**ANNUAL REFERENCE TRANSACTIONS PER CAPITA:** (Table 13) This measure relates the number of information contacts which involve the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a staff member to the population of the library's legal service area. It is the annual number of reference transactions divided by the population of the library's legal service area. This measure indicates the average number of times a resident of the library's legal service area received staff assistance in using information sources available at or accessible through the library.

**ASSESSED VALUATION:** (Table 4) This is the assessed value of property within the legal service area's geographic boundaries. This data is obtained from the Washington State Department of Revenue and State Auditor.

**AUDIO:** (Table 10) This includes materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. This includes records, audiocassettes, audiocartridges, audiodiscs, audioreels, talking books, and other sound recordings.

**BENEFITS:** (Table 8) This includes benefits outside of salaries and wages, paid and accruing to all library employees, (including plant operations, security and maintenance staff), regardless of whether the benefits or equivalent cash options are available to all employees. It includes amounts spent by the reporting unit for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition and housing benefits. Included are employee benefits paid out of the public library budget.

**BOOKMOBILES:** (Table 9) These are trucks or vans especially equipped to carry books and other library materials, and serve as traveling branch libraries. Vehicles in use, not the number of stops the vehicle makes, are counted.

## Glossary

**BOOKS AND SERIALS:** (Table 10) BOOKS are non-periodical printed publications bound in hard or soft covers, or in loose-leaf format, of at least forty-nine pages, exclusive of the cover pages; or a juvenile non-periodical publication of any length bound in hard or soft covers. SERIALS are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies. Except for the current volume, unbound serials are counted as volumes when the library has at least half of the issues in a publisher's volume. The number of physical units held at the end of the year are reported. Physical units are volumes, items or pieces. Six copies of the same edition of a title count as six volumes. Two editions of the same title, which have been cataloged or recorded separately, count as two volumes. A set of six items for which six shelf list entries have been made counts as six volumes.

**BORROWERS:** *See: Registered Borrowers*

**BRANCHES:** (Table 9) Branch libraries are auxiliary units that have all of the following: (1) separate quarters; (2) an organized collection of library materials; (3) paid staff; (4) a regular schedule for opening to the public. They are administered from a central unit.

**CAPITAL INCOME:** (Table 1, 2) This is revenue for major capital expenditures including land, buildings, major computer systems, etc. LSCA Title II funds are reported here.

**CAPITAL OUTLAY:** (Table 1, 6) These are funds for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This excludes replacements and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

**CENTRAL LIBRARY:** (Table 9) The central library is the single unit library or the unit where the principal collections are kept and handled. It is also called the Main Library. Some systems may have a service center or administrative center, which is separate from the principal collections and is not open to the public. This type of building has not been reported. ("0" means no central or main library; "1" means a main library in a system or the library if there is only one.)

**CHILDREN CIRCULATION:** (Table 11) This is the annual circulation of all children's materials in all formats to all users. It is a count of the children's materials that are circulated no matter who borrows them. *See also: Circulation, Young Adult Circulation, Adult Circulation*

**CHILDREN LIBRARY PROGRAMS:** (Table 12) This is the number of programs for which the primary intended audience is children (those age 14 or under), including puppet shows, story hours, magic shows, and the like. A program or presentation is an information contact in which a staff member or person invited by a staff member provides information intended for a number of persons and planned in advance. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long as the library sponsors them. This does not include meetings sponsored by other groups using library-meeting rooms. *See also: Library Programs, Young Adult Library Programs, Adult Library Programs*

**CHILDREN PROGRAM ATTENDANCE:** (Table 12) This is the number of people of all ages attending children's programs or presentations planned and sponsored by the library. *See also: Program Attendance, Young Adult Program Attendance, Adult Program Attendance*

**CIRCULATION:** (Table 11) Total annual circulation includes transactions that involve lending an item from the library's collection for use generally (although not always) outside the library. This activity includes charging materials, either manually or electronically. Each renewal is also reported as a circulation transaction. *See also: Children Circulation, Young Adult Circulation, Adult Circulation*

**CIRCULATION PER CAPITA:** (Table 11) This measure compares the number of items the library circulates to the population of the legal service area. It is the total annual circulation divided by the population of the library's legal service area. Circulation per capita can be thought of as representing the average number of items checked out to each resident annually.

**COLLECTION EXPENDITURES:** (Table 7, 8) This includes the total annual expenditures for materials purchased or leased for use by the public. It includes print materials (including books), microforms, machine-readable materials, audiovisual materials, and others.

**COLLECTION EXPENDITURES PER CAPITA:** (Table 8) This measure relates the amount of funds that the library spent on materials for the collection, both print and nonprint, to the population of the library's legal service area. It is the dollar amount spent on materials for the collection (collection expenditures) divided by the population of the library's legal service area. This figure indicates the average cost per person of purchasing, but not processing, newly acquired materials.

## Glossary

**CURRENT SUBSCRIPTIONS:** (Table 10) This is the total number of periodical subscriptions in the library or the library system, including duplicates. Subscriptions received, both purchased and gift, are reported, although the number of individual issues is not included. However, each serial title is included.

**DAYCARE CENTERS:** (Table 9) This is the number of library service outlets in daycare centers.

**ELECTRONIC FORMAT MATERIALS:** (Table 8, 10) This includes materials such as CD-ROMs, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Included in this definition are expenditures for U.S. Census data tapes, locally mounted databases, reference tools or current serials on CD-ROM, tape, or disk. Excluded from this definition are bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.

**EMPLOYEE BENEFITS:** *See: Benefits*

**EXPENDITURES:** (Table 1, 6, 7, 8) These are decreases in net financial resources, i.e. dollars disbursed. *See also: Total Expenditures, Collection Expenditures, Personnel Expenditures, Other Operating Expenditures, Capital Outlay*

**FEDERAL INCOME:** (Table 2, 3, 4) This includes all federal government funds distributed to public libraries for expenditure by the public libraries, including federal money distributed by the state. *See also: LSCA Income and Other Federal Income*

**FTEs (FULL TIME EQUIVALENTS):** *See: Staff FTEs, Professional FTEs, Nonprofessional FTEs*

**HOLDINGS:** *See: Total Library Holdings*

**HOLDINGS PER CAPITA:** (Table 10) This measure relates the number of items the library owns to the number of persons it was established to serve. It is the number of items in the collection divided by the population of the library's legal service area. It is a rough measure of the extensiveness of the library's holdings compared to the population, indicating the average number of items held for each person in the library's legal service area.
