Industrial Communism

The I. W. W.

by Harold L. Varney

A 24-page pamphlet, setting forth the essentials of

Bolshevism and I. W. W.'ism

It is best introduced by the quotation of the last two paragraphs of the Foreword. When you have read this, you will want the pamphlet.

"Today, there are two great world movements of the working class, built upon the Marxian program of the Communist Manifesto. One in Europe, and one in America, they divide the revolutionary proletariat of the world between. In Europe it is the Bolsheviki, or Communists, who carry on the tradition of Marx. In the United States it is the I. W. W.

"This pamphlet is written to explain these two movements; to describe their birth and growth; to picture the link of solidarity which binds them together, as well as to recount the points of divergence which cut between them. To show, in other words, why the Communist proletariat are Bolshevists in Europe, and why, in America, they are in the Industrial Workers of the World."
