Three state measures have been referred to the voters for their approval or rejection at the November 5, 1974, state election. As required by law, a publication containing the official ballot titles, Attorney General's explanations, statements for and against, and rebuttal statements, together with the full text of each of the state measures must be mailed to each place of residence in the state by the Secretary of State prior to the state general election. The official ballot titles and explanatory statements have been prepared by the Attorney General. The statements for and against and the rebuttal statements have been prepared by committees appointed under a procedure established by law. The Secretary of State has no authority to evaluate the truth or accuracy of any of the statements made in the pamphlet or to alter their content in any way.

A Candidates' Pamphlet, containing the statements of most of the candidates nominated for federal, state, and local offices, is combined with this publication into a single pamphlet to reduce the cost of production. The Candidates' Pamphlet begins on Page 15.

CERTIFICATION

As Secretary of State of the State of Washington, I hereby certify that I have caused the text of each proposed measure, ballot title, explanatory statement, statement for or against, and rebuttal statement which appears in this publication to be compared with the original of such documents on file in my office and I find them to be full, true, and correct copies of such originals.

Witness my hand and the seal of the State of Washington this 1st day of October, 1974.

A. LUDLOW KRAMER

Statement for

Constitution Permits a Lottery

In 1972, by a vote of 787,251 to 489,282, the citizens of the State of Washington amended the Constitution removing the prohibition against the establishment of a state lottery.

To carry out the wishes of the people, the Legislature has passed measures establishing a lottery only to see them vetoed by the Governor. Referendum Bill No. 34 gives the people the opportunity to speak out and override the Governor's veto, and to create a state lottery.

Revenues Will Aid State Finances

Washington will join many other states in operating a lottery. Under terms of Referendum Bill No. 34, revenues are to be used for prizes (45%), for operation of the lottery (15%) and for the state general fund (40%). The state will receive annually between \$15,000,000 and \$30,000,000 for the general fund from the lottery, under current estimates.

Strong Public Support for Lottery

In recent sessions of the Legislature, every poll taken by a member of the House or Senate which asked for an opinion on a state lottery was overwhelmingly in favor of such an operation. Passage of the legislation creating Referendum Bill No. 34 reflected this support. The vote in the House of Representatives was yeas, 62, nays, 33. In the Senate, the vote was yeas, 32, nays, 16. In approving the Constitutional Amendment in 1972 to permit a lottery, 62 per cent of the voters expressed their approval of such a change.

Vote "Yes" for a State Lottery

In voting "yes" for Referendum Bill No. 34, you will be providing the opportunity for needed revenue for the state, and a means for raising funds without added taxes.

This will be done in a program operated by the State Gam-

bling Commission and completely guarded as to fairness and public safety.

A "yes" vote will enable the citizens of the State of Washington to enjoy this mild form of gambling, to aid in providing revenues to the State General Fund and to express their preference in the kinds of gambling which they approve.

Rebuttal of Statement against

Opponents of Referendum 34 argue that approval of a state lottery would open the door for so-called "wide-open" gambling and casino wagering.

If a lottery is wrong for the State of Washington, then those states which already has established lotteries — Illinois, Connecticut, Maine, Maryland, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, Rhode Island and New Hampshire — must have made a mistake. And in none of them has "wide-open" or casino gambling come to pass.

Committee For Referendum Bill 34:

GORDON HERR, State Senator, Democrat and PAUL CONNER, State Representative, Democrat.

The Law as it now exists:

Under existing law, various types of lotteries and gambling games are authorized, most of which are to be conducted only by private organizations or individuals licensed by the state gambling commission. However, there is no provision in the present statutes for the conduct of any sort of lottery by the state itself.

Effect of Ref. Bill 34 if approved into Law:

This act would provide for the establishment and conduct of a state lottery. The details of this lottery would be spelled out in regulations to be adopted by the state gambling commission. These details would include, among other things, a description of the type of lottery to be conducted, the price or prices of lottery tickets, the number and size of prizes, the manner of selecting winning tickets, the manner of payment of prizes, the frequency of drawings, the types of location at which lottery tickets may be sold, the method to be used in selling tickets, the licensing of agents who sell tickets, the manner and amount of compensation to be paid to licensed

sales agents, and the apportionment of total revenues accruing from the sale of lottery tickets. However, not less than 45% of gross income would be required to be utilized for the payment of prizes, and not more than 15% of gross income could be used to pay the costs incurred in operation of the lottery. In addition, not less than 40% of the total revenues accrued from the sale of lottery tickets would be required to be transferred to the state general fund.

Actual conduct of the lottery would be under the supervision and direction of an official, designated the director of the state lottery, who would be appointed by the state gambling commission.

No license as an agent to sell lottery tickets could be issued to any person to engage in business exclusively as a lottery sales agent. The director of the state lottery would be authorized to suspend or revoke any license issued under the act. The right of any person to a prize would be declared to be unassignable, and the sale of lottery tickets to persons under 18 years of age would be prohibited. Also, the sale of lottery tickets to officers or employees of the lottery, or the spouses, children, brothers, sisters or parents would be prohibited.

The state auditor would be required to conduct an annual post-audit of all accounts and transactions of the lottery.

Statement against

Pay-off or Rip-off?

Purpose of a state lottery is to *get money from the public*. To make it pay off an estimated 20 million dollars per year requires a gross lottery of over \$50 million or more than \$16 per capita.

Administration Costs High

But it's really a "rip-off" because the state keeps over 50 percent for administration and profit. Most taxes cost less than one percent to raise. For the consumer, the gambling odds are extremely low.

Will Not Cut Taxes

A lottery would raise less than one percent of the entire budget. It will not cut taxes or hold the line on taxes. In no other state has it reduced taxes. *It will not raise enough to eliminate special levies.*

Should State Legitimize Gambling by Promoting and Condoning it?

Lotteries receive much attention initially, but the attraction wears off; revenue declines. It would require great additional funds to promote.

Another unfortunate result: A drive to legalize other forms of wide-open gambling and to make Washington another Nevada. Respect for administration also would be reduced:

Poor Bet "Odds are Bad"

Consumers Report, February, 1974 cautions against state lotteries; *Christian Science Monitor*, August 21, 1974 says "Gambling casinos are viewed as the next natural step in the spread of legalized gambling in the U. S. coming on the heels of lotteries."

Said Cardinal Cushing when Massachusetts was considering a lottery: "It is my honest conviction that the lottery as a form of large-scale gambling is economically unsound, socially disintegrating and morally dangerous."

Vote No on Referendum 34; it may be your last chance to stop wide-open gambling in Washington State.

Rebuttal of Statement for

Proponents of Referendum 34 state that lottery administrative costs will be 15 percent. This is an extraordinarily high figure. It takes only one percent to administer and collect a tax.

The proponents imply that no added taxes will be necessary. This is simply not true. Revenue raised by a state lottery would not be sufficient to stave off a tax increase. The lottery bill passed the House the first time by a single vote.

Committee Against Referendum Bill 34:

FRANK ATWOOD, State Senator, Republican, HAL ZIMMERMAN, State Representative, Republican, and CHRISTOPHER BAYLEY, King County Prosecuting Attorney, Republican.

SJR 140

Senate Joint Resolution
Proposed Constitutional Amendment

Ballot Title:

Shall the governor's item veto power be restricted and the legislature be permitted to reconvene itself to consider vetoed bills?

Vote cast by members of the 1974 Legislature on final passage:
HOUSE: [98 members] Yeas, 66; Nays, 31; Absent or not voting, 1.
SENATE: [49 members] Yeas, 40; Nays, 6; Absent or not voting, 3.

NOTE: The ballot title and explanatory comment were written by the Attorney General as required by state law. The complete text of Senate Joint Resolution 140 begins on Page 13.

Statement for

Help Rid Your State of One-Man Lawmaking

Washington is the only state in the nation in which the Governor exercises practically unlimited power to remove portions from laws passed by the Legislature. This "item veto" power has been interpreted by recent Governors to apply to any element of a bill down to a single word.

It empowers our Governors to act in effect as an unseparated third house of the Legislature to alter measures substantially prior to signing them into law. This is contrary to the grant of authority allowed our nation's Presidents under the Federal Constitution — which is to reject entire pieces of legislation by veto, not to change them.

SJR 140 is a moderate compromise proposal passed with bipartisan support. It will not completely eliminate this unparalleled power, but limit it to the veto of sections of bills as well as entire bills, and even provides that budget bills would still be subject to the item veto.

For Responsive Government

SJR 140 will prevent a Governor who is politically secure in office for four years from altering the will of the people as expressed through their legislators, over three-fourths of whom must be responsive to the wishes of the people at the polls every two years.

For Open Government

SJR 140 will prevent one person from changing behind the closed doors of his office bills which are the product of an open hearings process, accessible and visible to all citizens.

For Your Own Best Interest

SJR 140 will protect measures which you ask your legislators to enact from being changed by a Governor upon consultation with his agency heads, personal staff, or the few others of influence who have access to him — without a chance of your input.

Rebuttal of Statement against

Representative government is designed to have decisions made by the majority, not by one man. The power of the item veto eliminates our democratic concept by forcing one man's decision on all of us, therefore destroying the quality of government. It erases your legislative voice at the local level. No other Governor can reverse decisions made by local representatives. The Governor's Constitutional Revision Commission appointed by him recommends exactly what SJR 140 proposes. Vote for SJR 140.

Committee For Senate Joint Resolution 140:

HARRY B. LEWIS, State Senator, Republican and ALLEN THOMPSON, State Representative, Democrat.

Advisory Committee: JAMES K. BENDER, Executive Secretary, King County Labor Council, AFL-CIO; WILLIAM E. BURCH, Chairman, Association of Washington Business; HENRY R. DUNN, Prosecuting Attorney, Cowlitz County; BRUCE HELBERG, Publisher, The Bellevue American; BLAIR PATRICK, President, Washington Education Association.

The Law as it now exists:

The state constitution provides that before a bill passed by the legislature can become law, it must either be presented to the governor for his approval or submitted to the voters in the form of a referendum. When a bill is presented to the governor, he can approve it by signing it or he may permit it to become law without his signature by failing either to sign or veto it within five days if the legislature is still in session or ten days if the legislature has adjourned.

Alternatively, the governor may disapprove such a bill of the legislature by vetoing it, either in whole or in part. In the exercise of his authority to veto part of a bill passed by the legislature, the governor may veto any section or item in the bill.

If a bill is vetoed, in whole or in part, it is returned to the house from which it originated for reconsideration if the legislature is still in session. If the legislature is not in session, the bill is filed with the secretary of state who is then to bring it before the house from which it originated at its next session. The legislature may override the governor's veto by the vote of a two-thirds majority of the members of each house. There is, however, no provision in the present constitution for the legislature to reconvene itself for the purpose of reconsidering acts vetoed by the governor.

Effect of Senate Joint Resolution No. 140, if approved into Law:

This proposed constitutional amendment would restrict the governor's power to veto *items* in bills passed by the legislature by limiting it to *appropriation items* only. The amendment would not, however, affect the governor's power to veto an entire bill or an entire section of a bill, regardless of the nature of the bill.

The proposed amendment would also permit the legislature, within forty-five days after its adjournment, to reconvene itself by a petition of two-thirds of the membership of each house in a special session of not more than five days duration solely to reconsider any bills which the governor has vetoed in whole or in part.

Finally, while the proposed amendment would not change the time period during which the governor is to exercise his veto while the legislature is in session, it would increase from ten to twenty days the time granted to the governor to exercise his veto power following the adjournment of a legislative session.

Statement against

SJR 140 should be rejected decisively by the voters. Here's why:

(1) The item veto is part of the necessary system of checks and balances established by the people in their Constitution in 1889. Nothing has happened since to indicate they acted unwisely. SJR 140 is a blatant, unwarranted and unjustified power grab by the legislature designed to destroy our constitutional system of checks and balances. If the relationships between the legislature and the executive need to be changed, if either should have more or less power, it should be done not on a piecemeal basis but by reexamining all executive and legislative powers in the Constitution.

(2) The item veto has been essential in correcting unintentional legislative errors. In over half the instances where it was used it was to correct the legislature's mistakes.

(3) The governor is the only elected official in the legislative process with responsibility to all the people, not just a particular constituency or local interest. The governor is in a unique position to protect the people from special interest legislation for a favored few.

(4) Adequate safeguards exist against abuse of the item veto: (a) the legislature can override an item veto by a $\frac{2}{3}$ vote and has done so recently; (b) the legality of an item veto can be and has been challenged in the courts.

If our Constitution is to be amended: (a) will it improve the quality of government; and (b) will it better serve the people? The answer to both these questions is no. Vote against SJR 140.

Rebuttal of Statement for

The Committee against the Item Veto includes big business and big labor. Why are they against it? Because after spending thousands each legislative session lobbying for private interests they don't like to have them vetoed. Vote "NO" on SJR 140. Retain the item veto and let the Governor protect you from the expensive special interest lobbyists. He must be doing a good job or the big lobbyists wouldn't be trying to take it away.

Committee Against Senate Joint Resolution 140:

JONATHAN WHETZEL, State Senator, Republican and ARTHUR C. BROWN, State Representative, Republican.

Ballot Title:

Shall a thirty-day durational residency requirement be established for voting by otherwise eligible citizens eighteen years of age or over?

Vote cast by members of the 1974 Legislature on final passage:
HOUSE: [98 members] Yeas, 90; Nays, 6; Absent or not voting, 2.
SENATE: [49 members] Yeas, 43; Nays, 0; Absent or not voting, 6.

NOTE: The ballot title and explanatory comment were written by the Attorney General as required by state law. The complete text of Senate Joint Resolution 143 begins on Page 13.

Statement for

SJR 143 Is A "Positive" Measure

As a rather noncontroversial measure passed by the Legislature, SJR 143 did not attract as much public attention as other more partisan issues. It passed the Legislature heartily supported by Democrats and Republicans alike.

Repeals Obsolete Constitutional Provisions

SJR 143 amends the State Constitution to update certain voter qualifications in order to comply with U.S. Supreme Court rulings. The proposed amendment simply states that a prospective voter must have established a 30-day residency in the state, county or precinct and be at least 18 years old. It repeals current provisions which "prohibit" 18 to 20 year olds from voting, Indians which are not taxed, those individuals who are not able to read or speak the English language, and the one year residency requirement. All of these restrictions have been declared unconstitutional by the Supreme Court and are no longer enforced, therefore making this portion of the Constitution obsolete.

Removes Unnecessary Confusion

SJR 143 was drafted to remove any confusion that may develop from reading the Constitutional requirements for voting. Occasionally, prospective voters are discouraged from registering because of obscure and archaic restrictions which have not been corrected to reflect federal court rulings and constitutional challenges. SJR 143 clarifies the State Constitutional provisions for voting so that each citizen knows exactly what is required in order to be registered to vote.

Please Support This Worthwhile Amendment!

Although SJR 143 can be described as a "housekeeping" measure, we also feel it will make voting a little easier for those citizens currently in doubt because of the present Constitutional provisions.

Rebuttal of Statement against

Whether you agree or disagree with the courts on residency requirements, the Supreme Court, under the U. S. Constitution has jurisdiction over state statutes and any conflict with the state constitution is superseded by the decision of the Supreme Court.

The failure of SJR 143 would not affect present laws. It would be useless to retain antiquated constitutional language.

The thirty-day residency requirements were in effect during the last two general elections with no problems.

Committee For Senate Joint Resolution 143:

GARY GRANT, State Senator, Democrat, RICHARD KING, State Representative, Democrat, and ARTHUR C. BROWN, State Representative, Republican.

Advisory Committee: MAXINE KRULL, President, League of Women Voters of Washington; ROSS DAVIS, Chairman, Washington State Republican Committee; NEALE CHANEY, Chairman, Washington State Democratic Committee; JOE DAVIS, President, Washington State Labor Council; ROGER LEED, Member of the Steering Committee, Coalition for Open Government.

The Law as it now exists:

The 26th Amendment to the United States Constitution extended the right to vote to citizens eighteen years of age or older. In addition, recent decisions of the United States Supreme Court have also affected the qualifications which a state may impose for voting in its elections. Because of these decisions, a state may no longer enforce a residency requirement of more than thirty days in duration, nor may it restrict the right to vote to persons who can read and speak the English language or prohibit voting by Indians not paying taxes.

Accordingly, certain provisions of the Washington State Constitution with respect to voting qualifications have been rendered ineffective. Those provisions include a minimum age requirement for voting of twenty-one years; a one-year state and ninety-day county durational residence requirement; a prohibition against voting by nontaxed Indians; and a requirement that voters be able to read and speak the English language.

Effect of Senate Joint Resolution No. 143, if approved into Law:

This proposed constitutional amendment would remove the foregoing presently ineffective provisions and simply require that in order to vote in an election in this state, a person must be a United States citizen who is eighteen years of age or older, and who has been a resident of the state, county and precinct in which he resides for at least thirty days prior to the election at which he seeks to vote.

In addition, however, this constitutional amendment would retain an existing disqualification for voting by insane persons and persons convicted of felonies, unless restored to their civil rights.

Statement against

Must we accept as ABSOLUTE and IRREVOCABLE every court decision? Did you ever want to legally and safely say, "Judge — YOU ARE WRONG".

The court decisions which virtually wipe out residency requirements for voting are WRONG and IRRESPONSIBLE.

PASSAGE OF SJR 143 WILL:

- 1) Allow politicians to move from one district to another to seek office after only 30 days residency.
- 2) Allow "temporary residents" such as college students in small college towns to dominate elections—then leave town.
- 3) Allow newcomers who have voted elsewhere to move to Washington and, with 30 days residency, vote again — with little knowledge of the issues or candidates.
- 4) Allow newcomers to enroll as residents in our colleges.

Mr. Chief Justice Burger, in his dissenting opinion stated:

"It is no more a denial of equal protection for a State to require newcomers to be exposed to state and local problems for a reasonable period such as one year before voting, than it is to require children to wait 18 years before voting."

Justice Hale, in his dissenting opinion wrote:

"I think it repugnant to our political institutions that one can enter this state, stay here a comparatively few weeks, claim state suffrage on the basis of this short stay, and then proceed, as soon as registered, to vote, run for office, instigate recall, referendum and initiative petitions, sit as a juror, enter our state supported colleges and universities on the same financial basis as those who have with their taxes built and maintained them. . . ."

VOTE NO ON SJR 143

Rebuttal of Statement for

This "housekeeping" measure could flood the polls with uninformed voters. Justice Blackman wrote "Clearly . . . the State does have a profound interest in the purity of the ballot box and in an informed electorate and is entitled to take appropriate steps (residency requirements) to assure these ends." Justice Hale wrote ". . . the judiciary has no authority whatever to substitute its judgment for that of the peoples' representatives as to the means and methods for holding honest unrigged elections . . ."

VOTE NO SJR 143

Committee Against Senate Joint Resolution 143:

(4) In accordance with the provisions of this chapter and the rules and regulations of the commission, to license as agents to sell lottery tickets such persons as in his opinion will best serve the public convenience and promote the sale of tickets or shares. The director of the state lottery may require a bond from every licensed agent, in such amount as provided in the rules and regulations of the commission. Every licensed agent shall prominently display his license, or a copy thereof, as provided in the rules and regulations of the commission;

(5) Shall confer regularly as necessary or desirable and not less than once every month with the commission on the operation and administration of the lottery; shall make available for inspection by the commission, upon request, all books, records, files, and other information and documents of the lottery; shall advise the commission and recommend such matters as he deems necessary and advisable to improve the operation and administration of the lottery;

(6) Subject to the approval of the commission and the applicable laws relating to public contracts, to enter into contracts for the operation of the lottery, or any part thereof, and into contracts for the promotion of the lottery. No contract awarded or entered into by the director of the state lottery may be assigned by the holder thereof except by specific approval of the commission: PROVIDED, That nothing in this chapter shall authorize the commission to enter into public contracts for the regular and permanent operation of the lottery after the initial development and implementation. Public contracts authorized under this chapter are to be performed for a flat fee and not on a percentage of the lottery receipts; and

(7) To certify monthly to the state treasurer and the commission a full and complete statement of lottery revenues, prize disbursements, and other expenses for the preceding month.

NEW SECTION. Sec. 5. For the purpose of obtaining information concerning any matter relating to the administration or enforcement of this chapter, the commission, or any person appointed by it in writing for the purpose may conduct hearings, administer oaths, take depositions, compel the attendance of witnesses and issue subpoenas pursuant to RCW 34.04.105.

NEW SECTION. Sec. 6. No license as an agent to sell lottery tickets or shares shall be issued to any person to engage in business exclusively as a lottery sales agent. Before issuing such license the director of the state lottery shall consider such factors as (1) the financial responsibility and security of the person and his business or activity, (2) the accessibility of his place of business or activity to the public, (3) the sufficiency of existing licenses to serve the public convenience, and (4) the volume of expected sales.

For the purposes of this section, the term "person" shall be construed to mean and include an individual, association, corporation, club, trust, estate, society, company, joint stock company, receiver, trustee, assignee, referee, or any other person acting in a fiduciary or representative capacity, whether appointed by a court or otherwise, and any combination of individuals. "Person" shall not be construed to mean or include any department, commission, agency, or instrumentality of the state, or any county and municipality or any agency or instrumentality thereof.

NEW SECTION. Sec. 7. Notwithstanding any other provision of law, any person licensed as provided in this chapter is

hereby authorized and empowered to act as a lottery sales agent.

NEW SECTION. Sec. 8. The director of the state lottery may suspend or revoke, after notice and hearing, any license issued pursuant to this chapter. Such license may, however, be temporarily suspended by the director of the state lottery without prior notice, pending any prosecution, investigation, or hearing. A license may be suspended or revoked by the director for one or more of the following reasons:

(1) Failure to account for lottery tickets received or the proceeds of the sale of lottery tickets or to file a bond if required by the director of the state lottery or to comply with the instructions of the director concerning the licensed activity;

(2) Conviction of any crime as defined by RCW 9.01.020;

(3) Failure to file any return or report or to keep records or to pay any tax required by this chapter;

(4) Fraud, deceit, misrepresentation, or conduct prejudicial to public confidence in the state lottery;

(5) That the number of lottery tickets sold by the lottery sales agent is insufficient to meet administrative costs and that public convenience is adequately served by other licensees;

(6) A material change, since issuance of the license with respect to any matters required to be considered by the director under section 6 of this 1974 amendatory act.

NEW SECTION. Sec. 9. No right of any person to a prize drawn shall be assignable, except that payment of any prize drawn may be paid to the estate of a deceased prize winner, and except that any person pursuant to an appropriate judicial order may be paid the prize to which the winner is entitled. The director shall be discharged of all further liability upon payment of a prize pursuant to this section.

NEW SECTION. Sec. 10. No person shall sell a ticket or share at a price greater than that fixed by rule or regulation of the commission. No person other than a licensed lottery sales agent shall sell lottery tickets, except that nothing in this section shall be construed to prevent any person from giving lottery tickets or shares to another as a gift.

Any person convicted of violating this section shall be guilty of a misdemeanor.

NEW SECTION. Sec. 11. No ticket or share shall be sold to any person under the age of eighteen, but this shall not be deemed to prohibit the purchase of a ticket or share for the purpose of making a gift by a person eighteen years of age or older to a person less than that age. Any licensee who knowingly sells or offers to sell a lottery ticket or share to any person under the age of eighteen, and is convicted of such, shall be guilty of a misdemeanor.

NEW SECTION. Sec. 12. No ticket or share shall be purchased by, and no prize shall be paid to any of the following persons: Any officer or employee of the lottery or to any spouse, child, brother, sister, or parent residing as a member of the same household in the principal place of abode of any officer or employee of the lottery.

NEW SECTION. Sec. 13. Unclaimed prize money for the prize on a winning ticket or share shall be retained in the state lottery fund by the director of the state lottery for the person entitled thereto for one year after the drawing in which the prize was won. If no claim is made for said money within such year, the prize money shall then be transferred to the state general fund and all rights to the prize existing prior to such transfer shall be extinguished as of the day of the transfer.

NEW SECTION. Sec. 14. The director of the state lottery may, in his discretion, require any or all lottery sales agents to deposit to the credit of the state lottery fund in banks designated by the state treasurer, all moneys received by such agents from the sale of lottery tickets or shares, less the amount, if any, retained as compensation for the sale of the tickets or shares, and to file with the director of the state lottery or his designated agents reports of their receipts and transactions in the sale of lottery tickets in such form and containing such information as he may require. The director of the state lottery may make such arrangements for any person, including a bank, to perform such functions, activities, or ser-

vices in connection with the operation of the lottery as he may deem advisable pursuant to this chapter and the rules and regulations of the commission, and such functions, activities, or services shall constitute lawful functions, activities, and services of such person.

NEW SECTION. Sec. 15. No other law providing any penalty or disability for the sale of lottery tickets or any acts done in connection with a lottery shall apply to the sale of tickets or shares performed pursuant to this chapter.

NEW SECTION. Sec. 16. If the person entitled to a prize or any winning ticket is under the age of eighteen years, and such prize is less than five thousand dollars, the director of the state lottery may direct payment of the prize by delivery to an adult member of the minor's family or a guardian of the minor of a check or draft payable to the order of such minor. If the person entitled to a prize or any winning ticket is under the age of eighteen years, and such prize is five thousand dollars or more, the director of the state lottery may direct payment to such minor by depositing the amount of the prize in any bank to the credit of an adult member of the minor's family or a guardian of the minor as custodian for such minor. The person so named as custodian shall have the same duties and powers as a person designated as a custodian in a manner prescribed by the Washington Uniform Gifts to Minors Act, chapter 21.24 RCW, and for the purposes of this section the terms "adult member of a minor's family", "guardian of a minor" and "bank" shall have the same meaning as in said act. The director of the state lottery shall be discharged of all further liability upon payment of a prize to a minor pursuant to this section.

NEW SECTION. Sec. 17. There is hereby created and established a separate fund, to be known as the state lottery fund. Such fund shall be maintained and controlled by the commission and shall consist of all revenues received from the sale of lottery tickets or shares, and all other moneys credited or transferred thereto from any other fund or source pursuant to law.

NEW SECTION. Sec. 18. The moneys in said state lottery fund shall be used only: (1) For the payment of prizes to the holders of winning lottery tickets or shares; (2) for purposes of making deposits into the reserve account created by section 19 of this 1974 amendatory act and into the revolving fund created by section 20 of this 1974 amendatory act; (3) for purposes of making deposits into the general fund; and (4) for the repayment to the general fund of the amount appropriated to the fund pursuant to section 24 of this 1974 amendatory act.

NEW SECTION. Sec. 19. In the event the commission decides to pay any portion of or all of the prizes in the form of installments over a period of years, it shall provide for the payment of all such installments by one, but not both, of the following methods:

(1) It may enter into contracts with any financially responsible person or firm providing for the payment of such installments; or

(2) It may establish and maintain a reserve account into which shall be placed sufficient moneys for the director of the lottery to pay such installments as they become due. Such reserve account shall be maintained as a separate and independent fund outside the state treasury.

NEW SECTION. Sec. 20. There is hereby created a revolving fund into which the commission shall deposit sufficient money to provide for the payment of the costs incurred in the operation and administration of the lottery: PROVIDED, That the amount deposited in such revolving fund shall never exceed fifteen percent of the total revenues accruing from the sale of lottery tickets or shares. Such revolving fund shall be managed, controlled and maintained by the commission and shall be a separate and independent fund outside the state treasury.

NEW SECTION. Sec. 21. The provisions of the administrative procedure act, chapter 34.04 RCW, as now law or hereafter **twelve**

amended, shall apply to administrative actions taken by the commission or the director pursuant to this chapter.

NEW SECTION. Sec. 22. The state auditor, in addition to the duties assigned to him by RCW 9.46.060 shall conduct an annual post-audit of all accounts and transactions of the lottery and such other special post-audits as he may be directed to conduct pursuant to chapter 43.09 RCW.

NEW SECTION. Sec. 23. If any clause, sentence, paragraph, subdivision, section, provision, or other portion of sections 1 through 19 of this 1974 amendatory act or the application thereof to any person or circumstances is held to be invalid, such holding shall not affect, impair, or invalidate the remainder of this chapter or the application of such portion held invalid to any other person or circumstances, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, provision, or other portion thereof directly involved in such holding or to the person and circumstances therein involved. If any provision of this chapter is inconsistent with, in conflict with, or contrary to any other provision of law, such provision of this chapter shall prevail over such other provision and such other provision shall be deemed to have been amended, superseded, or repealed to the extent of such inconsistency, conflict, and contrariety.

NEW SECTION. Sec. 24. There is hereby appropriated to the state lottery fund from the general fund the sum of one million five hundred thousand dollars, or so much thereof as may be necessary, for the purposes of the lottery in carrying out its functions and duties pursuant to sections 1 through 23 of this 1974 amendatory act. Such appropriation shall be repaid to the general fund as soon as practicable from the net revenues accruing in the state lottery fund after the payment of prizes to holders of winning tickets or shares and expenses of the lottery.

NEW SECTION. Sec. 25. Sections 1 through 23 of this 1974 amendatory act shall constitute a new chapter in Title 67 RCW.

NEW SECTION. Sec. 26. There is added to chapter 218, Laws of 1973 1st ex. sess. and to chapter 9.46 RCW a new section to read as follows:

The provisions of this chapter, as now law or hereafter amended, shall not apply to the conducting, operating, participating, or selling or purchasing of tickets or shares in the "lottery" or "state lottery" as defined in section 1 of this 1974 amendatory act when such conducting, operating, participating, or selling or purchasing is in conformity to the provisions of sections 1 through 23 of this 1974 amendatory act and to the rules and regulations adopted thereunder.

Sec. 27. Section 4, chapter 218, Laws of 1973 1st ex. sess. and RCW 9.46.040 are each amended to read as follows:

There shall be a commission, known as the "Washington state gambling commission", consisting of five members appointed by the governor with the consent of the senate. The members of the commission shall be appointed within thirty days of July 16, 1973 for terms beginning July 1, 1973, and expiring as follows: One member of the commission for a term expiring July 1, 1975; one member of the commission for a term expiring July 1, 1976; one member of the commission for a term expiring July 1, 1977; one member of the commission for a term expiring July 1, 1978; and one member of the commission for a term expiring July 1, 1979; each as the governor so determines. Their successors, all of whom shall be citizen members appointed by the governor with the consent of the senate, upon being appointed and qualified, shall serve six year terms: PROVIDED, That no member of the commission who has served a full six year term shall be eligible for reappointment. In case of a vacancy, it shall be filled by appointment by the governor for the unexpired portion of the term in which said vacancy occurs. No vacancy in the membership of the commission shall impair the right of the remaining member or members to act, except as in RCW 9.46.050 (2) provided.

In addition to the members of the commission there shall ~~(initially)~~ be four ex officio members without vote from the

legislature consisting of: (1) Two members of the senate, one from the majority political party and one from the minority political party, both to be appointed by the president of the senate; (2) two members of the house of representatives, one from the majority political party and one from the minority political party, both to be appointed by the speaker of the house of representatives; (~~all of whose terms shall end December 31, 1974; appointments shall be made within thirty days of July 16, 1973~~) such appointments shall be for a term of two years or for the period in which the appointee serves as a legislator, whichever expires first; members may be reappointed; vacancies shall be filled in the same manner as original appointments are made. Such ex officio members who shall collect data deemed essential to future legislative proposals and exchange information with the board shall be deemed engaged in legislative business while in attendance upon the business of the board and shall be limited to such allowances therefor as otherwise provided in RCW 44.04.120, the same to be paid from the "gambling revolving fund" as being expenses relative to commission business.

NEW SECTION. Sec. 28. This 1974 amendatory act shall be submitted to the people for their adoption and ratification, or rejection, at a special election hereby ordered by the legislature, which election shall be held in conjunction with the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1974, all in accordance with the provisions of section 1, Article II of the Constitution of the state of Washington, as amended, and the laws adopted to facilitate the operation thereof.

Senate Joint Resolution 140

Proposed Constitutional Amendment

BE IT RESOLVED, *By the Senate and House of Representatives of the State of Washington, in Legislative Session Assembled:*

THAT, At the next general election to be held in this state, there shall be submitted to the qualified voters of the state for their approval and ratification, or rejection, a proposal to amend Article III of the Constitution of the state of Washington by amending section 12 as follows:

Article III, section 12. Every act which shall have passed the legislature shall be, before it becomes a law, presented to the governor. If he approves, he shall sign it; but if not, he shall return it, with his objections, to that house in which it shall have originated, which house shall enter the objections at large upon the journal and proceed to reconsider. If, after such reconsideration, two-thirds of the members present shall agree to pass the bill it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved by two-thirds of the members present, it shall become a law; but in all such cases the vote of both houses shall be determined by the yeas and nays, and the names of the members voting for or against the bill shall be entered upon the journal of each house respectively. If any bill shall not be returned by the governor within five days, Sundays excepted, after it shall be presented to him, it shall become a law without his signature, unless the general adjournment shall prevent its return, in which case it shall become a law unless the governor, within ~~((ten))~~ twenty days next after the adjournment, Sundays excepted, shall file such bill with his objections thereto, in the office of secretary of state, who shall lay the same before the legislature at its next

session in like manner as if it had been returned by the governor: PROVIDED, That within forty-five days next after the adjournment, Sundays excepted, the legislature may, upon petition by a two-thirds majority or more of the membership of each house, reconvene in extraordinary session, not to exceed five days duration, solely to reconsider any bills vetoed. If any bill presented to the governor contains several sections or appropriation items, he may object to one or more sections or appropriation items while approving other portions of the bill: PROVIDED, That he may not object to less than an entire section, except that if the section contains one or more appropriation items he may object to any such appropriation item or items. In ~~((such))~~ case of objection he shall append to the bill, at the time of signing it, a statement of the section ~~((or))~~ or sections ~~((or))~~ appropriation item or items to which he objects and the reasons therefor ~~((and))~~ and the section or sections, appropriation item or items so objected to ~~((or))~~ shall not take effect unless passed over the governor's objection, as heretofore provided. The provisions of Article II, section 12 insofar as they are inconsistent herewith are hereby repealed.

How To Obtain an Absentee Ballot

Any registered voter who cannot vote in person may apply directly to his county auditor or department of elections for an absentee ballot. Any signed request containing the necessary information will be honored. For your convenience, an application is reproduced below. The addresses of the auditors or departments of election are also listed below. In order to be certain that the voter's application is authentic, the election laws require that the signature on the application be verified by comparison with the signature on the voter's permanent registration record. For this reason, if a husband and wife both wish to vote by absentee ballot, signatures of each are necessary. In order to be counted, an absentee ballot must be voted and postmarked no later than the day of the election. For this reason, sufficient time must be allowed for an exchange of correspondence with the county auditor or department of elections.

Official Candidates Pamphlet

General Election Tuesday, November 5, 1974

Candidates for United States Senator; United States House of Representatives from the 3rd, 4th and 6th Congressional Districts. Candidates for State Supreme Court; Washington State Senate and/or House of Representatives in these legislative districts: 2, 17, 18, 19, 20, 22, 23, 24, 25, 26, 27, 28, 29, 49.

Introduction

The Secretary of State is required by law to publish a comprehensive Candidates' Pamphlet prior to each state general election. In the preparation of this pamphlet, every nominee for a contested federal, state, or legislative office has been given the opportunity to submit a photograph and statement of qualifications. The Secretary of State has no authority to comment on the accuracy of any statements made by the candidates in this pamphlet or to alter their content in any way.

It was determined that the most economical means of publishing the Candidates' Pamphlet would be to combine it with the official Voters' Pamphlet. This saves printing time and reduces the cost of postage and handling.

METCALF**
Republican

Jack Metcalf has served with distinction as a citizen legislator for 12 years. A Republican elected from normally Democratic Snohomish County, his vitality, integrity and bi-partisan view are the watch-word with leaders of both parties and his constituents.

Jack Metcalf does his own homework . . . not relying solely on staff or lobbyists for information. He has sponsored legislation years before its worth or popularity were apparent to others. The 12 year term limitation for state and federal office holders is just one example.

"The only real issue in this campaign is inflation", says Metcalf. And I mean government spending-caused inflation. Inflation is caused by politicians . . . deliberately. If a thief steals from you with a gun he's thrown in prison . . . but when special interests and politicians rob the taxpayer at the rate of 12% a year they ask for re-election! Only the voter can change the 'old politics'."

A strong proponent of President Ford's statement . . . "the first thing we (as politicians) have to do is learn to say 'No'." Jack Metcalf wants to go to Washington, D.C. to help trim the federal budget. "At a time when individuals have to tighten their belts to make ends meet, it is time for the federal government to do the same thing."

greatest admiration for Senator Magnuson. His work on behalf of social and consumer issues, and his Senate seniority, make him one of the most potent forces in Congress." (8/5/74)

Jack Anderson rates Magnuson as "The Most Effective of All." Magnuson wrote laws to make cars and tires safer, prevent gas pipelines from exploding under houses, make sleepwear flameproof, and put poisonous products in child-proof containers.

President Ford praises Magnuson for "enormous work in the field of health." Magnuson's laws started the war on cancer, brought doctors to 2 million people, kept the Public Health Service hospitals open, made possible a new wing at Children's Orthopedic Hospital, and built Seattle's Fred Hutchinson Cancer Center.

Magnuson stopped the deadly nerve gas the Army wanted to ship through Washington, wrote laws to make oil tankers safer, and laws to protect Endangered Species and whales. He co-authored the law that lowered the voting age to 18, and co-sponsored the Equal Rights Amendment.

Now Magnuson wants to pass more major laws: laws to prevent oil spills, to create National Health Insurance, to eliminate the oil depletion tax loophole, to increase automobile gas mileage by 50%, to protect our fishermen with a 200-mile limit, and to make every product guaranty a consumer's bill of rights. Magnuson pledges to keep the federal lid on natural gas prices, and to enact another law that stops California from stealing our Columbia River water.

Ralph Nader's recent poll shows Congressional staff members rank Henry Jackson and Warren Magnuson as the two "most effective" U.S. Senators.

For more information, please write: Magnuson Headquarters, 315 Yesler, Seattle 98104.

Senator Magnuson is a national leader in consumer protection, better health care, environmental quality, and service to his State. The Seattle Post-Intelligencer calls Magnuson's record "outstanding," and adds: "We have the

Today it is more apparent than ever that the present system of capitalism is unworkable and impractical. The richest country in history has been hit with sudden shortages of basic necessities. We are living with skyrocketing

prices, climbing unemployment, racism, sexism and a deteriorating quality of life. Both the Republicans and Democrats finance their campaigns with big money from oil, milk and other trusts and combines. Politicians from these parties cannot solve the problems of working people. The Socialist Workers Party has a program for working people. We stand for:

—No wage controls! Grant all pay increases denied or cut back while controls were on. —Cost-of-living clauses in all union contracts. The government's Consumer Price Index is a fraud. Cost-of-living clauses should be based on the real rate of inflation determined by committees organized by unions and consumer groups. —Set pensions, social security, welfare and unemployment benefits at union wage scales. Raise them automatically with each hike in the cost of living. —Expropriate employers who raise prices or refuse to pay cost-of-living increases. Nationalize their corporations under workers' control with no compensation.

—Shorten the work week to 30 hours with no pay cuts to provide jobs for all. Launch crash programs to build housing, childcare facilities, schools and mass transportation systems. This will provide the jobs needed. —No discrimination in hiring on the basis of language, race, sex, citizenship or age.

—Unemployment compensation at union wages for everyone out of work, including those laid off because of shortages, those just leaving school, Vietnam veterans and strikers. —End all taxes on incomes under \$15,000. 100% tax on incomes over \$30,000. Repeal Washington's 5% sales tax. End the school levy tax—use state and federal funds earmarked for military expenditures to support our schools.

—For a socialist America.

**Gene
GOOSMAN**
American
Independent

In the September 15, 1974 edition of the Seattle Sunday Times, Ray Ruppert described Gene Goosman as "a political David against a vote-getting Goliath"—but if you will recall your Biblical history, David won that battle.

In the construction business all his life, Gene Goosman and partner own their own business.

Goosman is not a politician but, in the words of the Seattle Times, "he is an angry, patriotic, worried American," who loves his country too much to see it continually progress toward its own destruction. For this reason the political David is willing to take on the Goliaths who have been leading the nation away from constitutional government and down the path of socialism and ruin.

Goosman attracted nation-wide attention earlier this year in a battle with another Goliath—the IRS. As Richard Hardesty of the Seattle Post-Intelligencer put it, "in protest against the unfair tax laws and a national government controlled by the conglomerates, (Goosman) has donated an amount equal to his federal income tax, \$2,150 to provide free food for the elderly needy." Goosman said he just wanted to show contempt for those who make millions and pay no taxes.

A fervent believer in the constitution, Goosman has been crusading against the trend away from constitutional government, and has for years worked for a fair and honest tax structure, fair and honest campaign-contribution laws, smaller and more efficient federal government, and a stronger state government, with control of their government by the people.

If you like inflation, high taxes and corruption in government, then vote for the incumbents who have given it to you. But if you want integrity and representation in government, then vote for the American Independent Party candidates and Gene Goosman for U.S. Senator.

RUCKERT**
U.S. Labor

This year you have a choice in the elections. You can vote for the Democratic Party (or what's left of the Republican Party) and watch the world collapse into depression and fascism. Or you can build your own political party—the U.S. Labor Party.

The choice is clear: A Rockefeller-organized world of zero growth, unemployment, starvation and slave labor, or a working class-organized world of expanded production and employment, based on the development of thermonuclear fusion power.

It is the Democratic Party which is Rockefeller's chosen instrument to establish fascist economic programs in the U.S. Liberal fascists like "Scoop" Jackson plan to provide full employment the same way Hitler's finance minister Schacht did: through slave labor public works projects and Auschwitz work camps like the Rocky Mountain Development Project—a labor intensive program in 5 western states to develop outmoded energy sources such as coal, shale oil, etc.—or the Alaska pipeline.

The U.S. Labor Party is building the political machinery through which working people can stop the emergence of Nazi economics and the 1984 world of Rockefeller and the CIA. At the same time we are building the machinery through which working people can plan and organize worldwide economic reconstruction; we are putting together the institution capable of running this country and the world.

The key to the reconstruction of the world economy is the immediate, "brute-force" development of thermonuclear fusion power, which will put virtually unlimited supplies of energy at the disposal of mankind. Fusion power will form the basis of the general expansion and technological advance of the whole economy. The U.S. has the technological ability, the skilled workforce, the scientific manpower—now primarily located in the parasitical defense/aerospace sectors — to reindustrialize the U.S. economy and to lay the basis for the industrialization of the worldwide economy.

Communist

Because I am a young Filipino Communist, woman worker, and member of the Central Committee of the Young Worker's Liberation League, my campaign represents a new kind of political leadership. It is part of a whole people's movement to curb monopoly power; especially a youth campaign for the right to earn, learn, and live. Every young person needs a job at a living wage. We need bills in Congress to create thousands of jobs for youth, building schools, hospitals, housing. We need legislation to guarantee unemployment compensation to all, including first-time job seekers. We must repeal the vicious Nixon sub-minimum wage law and fight to extend union protection to all workers. Our schools need federal funds to hire more teachers; pay school employees better wages; provide free, hot lunches; guarantee quality, integrated education. Where should that money come from? From the bloated military budget. Because every young person has the right to a future of peace, free from any threat of war or aggression. We must defend affirmative action programs—young people have a right to society free from racism and oppression. Thousands of youth in our state did not vote in the last election or have not registered. They don't see any choice in the two, old parties that are bought and paid for by monopoly. They know there must be a better way for society to be. There is. Socialism—society run by the working class to benefit all people, not for profit—is the solution to problems of our country. The Communist Party stands for: NO YOUTH TAXATION WITHOUT YOUTH REPRESENTATION—PEACE—JOBS—FREEDOM—SOCIALISM!

United States Representative
Third Congressional District

**A. Ludlow
KRAMER**
Republican
3rd Cong. Dist.

During his years as Washington's Secretary of State, A. Ludlow Kramer has done more than make promises. He has kept them:

1. "A public official must be concerned about cutting government expense."—Lud Kramer's office has fewer personnel than it did ten years ago, while at the same time doing twice the work. This action has saved Washington taxpayers millions of dollars.

2. "A public official must protect the rights of all citizens."—Last year, Lud Kramer successfully resisted pressure to divulge the names of those persons who signed Initiative 282 which prohibited a salary hike for state officials. This action protected the future right of citizens to sign initiatives without the fear of possible retribution.

3. "A public official should be honest and responsible to the people."—When one of his campaigns ran into debt, Lud Kramer pumped gas until every last cent was paid. Also, even before campaign reform laws, Lud's financial records were open to the public.

This record of accomplishment is what we need in Congress. As a long time resident of the Third Congressional District, Lud Kramer feels the same needs and shares the same hopes as you do. In this time of economic crisis, Lud Kramer feels that the federal government should run on a balanced budget. This is the single most important contribution Congress can make towards combatting inflation. As President Ford has said, we must elect men and women to Congress who will help bring fiscal responsibility back to government.

It's time to elect a Congressman with a proven record. That's why so many voters of the Third Congressional District say—"I'm for Lud Kramer."

United States Representative
Third Congressional District

**Don
BONKER**
Democrat
3rd Cong. Dist.

Don Bonker has accomplished so much in such a short time because he believes in what he is doing.

Upon graduation from Lewis and Clark College in 1964, he served two years as a legislative assistant in the U.S. Senate. He was also staff member to the Senate Special Committee on Aging.

In 1966, Don Bonker was elected the youngest county official in the state. His many accomplishments as county auditor quickly gained him national recognition as an innovative leader in local government. He was the Democratic candidate for Secretary of State in 1972.

Don Bonker wants immediate congressional action to curb inflation. An advocate of new economic devices to control inflationary trends, he will push for:

1. Reduced federal spending and a balanced budget.
2. Lower interest rates on mortgage loans to revitalize our housing industry.
3. Elimination of tax loopholes and credits that cost our government \$83 billion each year, along with tax cuts for middle-income families to ease inflationary wage demands.
4. Ending subsidies for cor-

porations that export scarce materials like wheat and logs that drive up prices at home.

In Congress, Bonker will be in the forefront of the fight to ban log exports from public lands. The U.S. Forest Service says, in effect, that shipping logs overseas is costing us an average of 2000 jobs a year in the forest products industry of Washington. Bonker wants to export finished wood products instead—to save our jobs, our economy, and our environment.

Because of the size and shape of the Third District and to help bring government closer to the people, Don Bonker will open several congressional offices in the district to assist citizens. He also plans to personally visit the district no less than once a month to talk and listen to constituents and consult with local officials on needs and problems of the area.

United States Representative
Fourth Congressional District

**Floyd
PAXTON**
Republican
4th Cong. Dist.

Floyd Paxton is widely recognized as a national leader in the drive to get excessive government off our backs and out of our pockets. His position on some of the issues follows.

Inflation: "We should place the blame for inflation squarely where it belongs. Inflation is made in Washington, D.C., where politicians spend far more than we taxpayers can send. The resultant flood of newly printed unbacked paper money dilutes the value of the dollar. Such deficit financing of government programs is the most clever system of dishonesty yet devised by man."

Taxes: "Everyone talks about reducing taxes. None of the other candidates talk about reducing government. How can you have one without the other? The legitimate reason for taxation is to support limited government whose only purpose should be to protect life, liberty and property."

Government: "Washington State people are a reasonable, rational people—capable of making their own decisions and responsible enough to accept the results of self-determination. Washington should be full of opportunity for the honest and hard-working. What is needed is to release creative personal initiative and effort from government shackles."

Environment: "I want clean air and clean water as much as anyone—but the solutions to pollution will be accomplished by the creative effort of a free people. Bureaucrats have not demonstrated a superior ability to enhance anything but their own income—at our expense."

Human rights: "We must recognize that human rights and property rights are inseparable. You cannot have one without the other."

Energy: "The Federal Government must permit the constitutional, intensely competitive, free market system to solve the problems of supply and cost of energy."

Floyd Paxton is a "family man", the father of five children. He and his lovely wife, Grace, have ten grandchildren.

**Mike
McCORMACK**
Democrat
4th Cong. Dist.

Congressman Mike McCormack is now completing his fourth year in the House of Representatives. He is a member of the Public Works Committee, the Joint Committee on Atomic Energy, and, on the Science Committee, is chairman of the Subcommittee on Energy. McCormack is chief sponsor of legislation establishing this nation's first Solar and Geothermal Energy Programs. His Congressional teammates from Washington State say:

"I know how tough it is to keep up on agricultural matters, and I'm impressed at how much Mike is on top of every issue, working for the farmers of Eastern Washington. He's a great team member." (Congressman Tom Foley)

"The think I like most about Mike is the sincere pride he shows in his district and the people he represents. There's nothing phony about him. He believes in what he's doing and he works at it 24 hours a day." (Congressman Lloyd Meeds.)

"Mike is one of the most uncompromising guys on principle I've ever seen in Congress. Time after time, I have heard him argue that Members should cast their vote according to what is right rather than what is expedient." (Congressman Floyd Hicks.)

"At a time when all Americans are looking for public officials in whom they can place their trust, Mike McCormack stands out as a man of character of whom we can all be proud." (Congressman Brock Adams.)

Speaking of his candidacy, McCormack said, "I believe that every voter in the Fourth District has the right to the highest standards of integrity, dedication, common sense and enthusiasm that I, as your Representative in Congress, can provide. Democracy will succeed only where there is mutual respect between public servants and the citizens whom they represent. It is in this spirit that I sincerely seek your continued support in the coming election."

2. Limiting volume of legislation by setting priorities, deadlines and choosing responsible leadership;
3. Preparing for economic and environmental balance to benefit present citizens and future generations, primarily by supporting legislative action to bring "Alternatives for Washington" into being.

Responsible citizens today are rightly concerned about rising prices, higher taxes, better government. This year voters will be very particular about whom they choose. Qualities of thrift . . . integrity . . . industry . . . have never been more important.

Last winter's fuel crisis proved the consumer will economize; the legislature must also.

Primarily, I believe the Legislature should represent the people . . . that the people deserve to be informed and should have a continual voice in the law-making process.

CRASWELL**

Position No. 1
23rd Leg. Dist.
Kitsap, part

The coming years are crucially important to Kitsap County. Trident alone will bring 4,400 children to Kitsap schools: we need an alternative to special-levy financing. State taxes have tripled in the last fifteen years: we need to bring spending back under control. Above all, we need the sort of ability and leadership that the current legislature just isn't providing.

Better government can come only if people take the time to get involved. My past involvement . . . the things I've done . . . have made me concerned about the direction government is taking. I know I can help make the changes we need.

As Chairman of the House Revenue and Tax Committee, he sponsored many important tax measures including elderly citizen's property tax relief, "Act of God" and fire destroyed property tax relief, and state collected property taxes for more equitable school formula distribution. Bob's seniority and chairmanship in the House makes him an effective representative for Kitsap County.

Government, to preserve freedom, and to develop man's greatest potential, should be limited to certain specifically defined areas of human endeavor as our United States Constitution outlines. Laws must be based on moral law and government can do morally only what an individual can do morally.

Today through legal plunder the majority votes to take by force wealth from the minority for socialist schemes. If elected I'll work to reduce the size, reach, power, and cost of government in every way possible.

As a private citizen I work towards the same goal through active participation in the John Birch Society.

Representative Charles Savage of Shelton is one of the most experienced legislators in the State House of Representatives. Legislative rules were originally based on rules of U.S. Congress. Savage is a former Congressman and a parliamentarian and knows exactly how the rules are supposed to function. Savage has suggested several improvements in the legislative rules but just one he made in 1965 has saved over \$2,000,000 in legislative expenses in time, paper and printing and also eliminates confusion.

Savage believes that because of the success of that change the Legislature will be ready, in the next session, to join him in taking the next step which will more than double those savings in all future sessions.

"We as a state and nation can solve our problems if we retain local control on our cities, counties, and state. I have supported full public disclosure with public access to all meetings and records. Government must live within its income. Inflation robs all of us. The tax burden we are putting on our children is too great. Each official should ask himself: 'Would I spend my own money this way?'"

The passive permissive attitude on crime must be reversed. Rape and crime on the streets have increased. Innocent victims have been injured and murdered. Tighter security is needed at our correctional institutions.

I will continue my support for schools, pollution control, and protection of our environment. Our vocational training programs should be expanded under local control. I recommend passage of S.J.R. #140, Restrict Item Veto.
